Islamic Banking Revisited: Back to Basics in Banking

RE: BACK TO BASICS IN BANKING THE
PROPER WAY—DJE

* * *

**BUILDING ON THE OLD FAILURES
ONLY REBUILDS THE FAILURES**

PROPER BANKING CONCEPTS ADDRESSED

We have nothing upon which to base a “new” (old) term for that which has become now accepted as some unique idea in most of the world’s banking systems as “Islamic”. THAT was a planned and executed intention of and BY THE INTERNATIONAL BANKING CARTEL to destroy all concept of any fair and righteous management of property and money.

Moreover, it seems that somehow with our attention given to banking or “money” in any way whatsoever “cannot be of God”.

I find that very interesting in concept for of all the things ranking in the prayers to God with every breath of every individual somehow involves MONEY and “getting some”. So when we show you how to both get some and keep it we are allocated to the dung-heap of defined greed-mongers.

Well, people, YOU ASK GOD—GOD ANSWERS. If you do not like the answer, which will also bring forth solutions for the problems presented, then the choice is yours but for the ones truly asking and searching for solutions to the economic ills of the world you experience—WE WILL RESPOND UNTIL SOMEONE HEARS, TRULY LISTENS, AND DEMANDS REFORM.

In our instance, we have provided the “way” and the “PRODUCT” for use and now it is past time you USE IT.

Banking is nothing but a security measure for keeping and securing money. It has, however, grown into the most atrocious poisonous oppressor of the globe. A BANK was a place to keep your money! It could be used along with a fee for service as in holding secure your property and accounting for the transactions to guarantee that security.

Today, the currency has NO VALUE and you are charged without mercy for securing the valueless commodity which is not even worthy of recognition in the first place. The world has become poor and desperate and the bankers have grown fat and filled with satiated avarice, greed and corruption. The all-powerful controllers have no mercy, students, and therein lays TRUTH of that into which humanity has toppled; the trap laid out by the controlling powerful.

Well, the system cannot work in our instance except to have a bookkeeping foundation, for the holdings we have to share are holdings actually BELONGING TO THE PEOPLE IN THE FIRST PLACE. However, IF THE CITIZENS fail to claim and manage their property as returned to them as God answers the call for “reclaiming” rightful ownership, then there is little we can do, for you have free-will opportunity to accept or further deny that which is your own heritage and inheritance. GOD WILL CERTAINLY NOT FORCE PROSPERITY DOWN YOUR GULLETS.

In joint “venture” you have access NOW to the most effective systems for integration and functional reclaiming of, at the least, the Philippines along with

enough wealth to service a global explosion of rebirth. If you keep going in the ever-increasing downward spiral to disaster and destruction then you shall accomplish exactly that end.

YOU CAN REVERSE THE GLOBAL NIGHTMARE IN 2006

How is “that” for a better definition of “imminent”? We have done our share of the work and yet will continue without rest toward full accomplishment but YOUR destiny is YOUR choice.

We spent days without rest covering the subject of proper banking some few years back and that was for a specific purpose. We must repeat that again as boring as it might be compared to eruptions, tsunamis and quakes killing off the masses. NO ONE CAUSE OF DEATH OF BODY OR SOUL CAN EVEN TOUCH UPON POVERTY, SLAVERY AND HUNGER (OF SOUL AND BODY).

YOU PRAYED FOR “THE WAY” AND GOD HAS GIVEN IT FORTH UNTO YOU AND THUS FAR THE GIFT HAS BEEN DENIED, SMASHED, LIED ABOUT AND BURIED TO PROTECT THE DASTARDLY PLAYERS AND PUPPET-MASTERS.

It is time to FACE TRUTH, citizens: GOD OFFERS THE WAY, THE LIFE AND THEN ALLOWS. “SAVING” IS AN ACT OF SELF-ACTION AND NOT DEPENDING ON SOME HELPLESS BEING THRUST UPON CROSSES TO BE CRUCIFIED. GOD WILL SEND NO MORE SONS FOR YOUR ASSASSINS AND MURDERERS TO BE USED FOR FURTHER DEMISE OF HIS MOST WONDROUS CREATION—MAN.

MAN INDIVIDUAL: YOU WILL ASSUME RESPONSIBILITY OR YOU SHALL GO DOWN FOR THERE IS NO OTHER POTENTIAL—IT IS ONE OR THE OTHER!

You have been given all you need to make this entire revolution of presentation a working MIRACLE of even the most doubting perceptions. WHEN WILL YOU AWAKEN?

I ask that the original of these writings be pulled forth and offered again in *CONTACT* as a full reminder that God’s delays are YOUR DENIALS—NOT HIS.

How will your journey end? EXACTLY AS YOU DECIDE IT TO BE.

There are NO SHADOWS even in the deep valleys IF YOU KEEP THE LIGHTS ON AND THE EYES OPEN. The EXTRATERRESTRIAL that will save your assets is that ONE attached TO YOU, my friend. THAT ENTITY “IS” YOU!

That extraterrestrial IS THE PART OF THE COLLECTIVE MIND which is all knowing, all abundant and ALL ENCOMPASSING. Moreover, sitting on your assets pushing our buttons is not likely to achieve more than passing results. Mind travels at a speed far faster than the speed of light and once on track will rarely wait for any argue-mongers to catch-on. If you thought it was otherwise—WHO GAVE YOU SUCH FOOLISH INFORMATION? And no, I make no exceptions for those who fail to agree with me—but I have proof of my standing—WHAT HAVE YE?

You claim, many of you, that we only offer “things” and “claims”? NO, WE OFFER DOCUMENTS, NOTICES, BOTTOM-LINE HOLDINGS WHICH EXCEED YOUR MOST OUTRAGEOUS IMAGININGS. WHAT MORE DOES IT REQUIRE TO PLEASE “YOU”? Moreover, others here have done the proving-up for your consideration and participation but WE WILL NOT DO YOUR JOURNEY FOR YOU.

Do “I” have enemies? Yes, so some claim to be. I personally HAVE NONE. I use the annoyances of such blithering self-consumed persons to be but the cause of doing our job RIGHT and comprehensively. If those “enemies” wish to stand in the flak zone then they shall fall in their own foolishness.

We demand quiet EVOLUTION and never raucous and irritating REVOLUTION.

God will help those who help themselves—honorably. It has ever been thus for it is representative OF GOD. You CANNOT fall nor fail if you stand

squarely ON GOD and THAT is “universal LAW number 101”!

We would welcome you aboard or bid you good luck and farewell BUT THIS SHIP IS PULLING THE GANGPLANK AND SETTING SAIL. We salute all who would come aboard and pull your share of the load for some paddling is necessary when the wind is low and the sails sagging—but move on WE SHALL.

Islamic Banking: Part One

8/3/99—#1 (12-352)

Tue., August 3, 2006, YR 12, DAY 352

PROPHETS AND MESSENGERS

[GCH:] Dharma, Praises be that “someone” listens and hears!

Why must man wait for the “crisis” to hear God Allah? So be it.

These are the intended “End Times”, students, and I ask: “How did you think it would come to be?” Man has been able to control and specifically direct weather patterns for three-quarters of a century with full intent to break mankind by the turn of this Century. Man will repeat and recite what was given some 1,500 years ago but refuses to hear truth TODAY! But, chela, all it takes is ONE to hear and accomplish that which is necessary.

Ask Sharif to go to the one at the head, currently, of the ARMM and see what can be worked out. Sharif can share one of his larger deeds with Misuari for IMMEDIATE action. Misuari should probably go directly to the Sultan of Brunei for PROMPT action. There needs to be assistance, right now, immediately, for there will be massive losses of humans and there will, before this is over, be massive losses in food production for there is no intent to lessen the storms. In other parts of the world there are even greater losses to drought and heat which is devastating the U.S., for instance, growing areas. These will turn into the famines. The locusts have been loosed on all the areas of Russia and this is intentionally done by missile carriers. Pakistan is devastated by locusts. The distractors are the little wars all over—while the things of man that can be blamed on Allah are put into place. NO, IT IS NOT GOD ALLAH—it is the Elite Controllers at work to insure that the Millennium hits with such fury as to devastate the people.

God Allah has provided that which you need to support and meet such crises but no one will “believe” nor dare to confront the enemy. There is NO confrontation for the adversary realizes that Man will simply blame God for the disruptions and demand more controls.

What happened to my people? It is written for it was already presented: “O ye who believe! Obey Allah and obey the Messenger, and those charged with authority among you. If ye differ in anything among yourselves, refer it to Allah and His Messenger. If you do believe in Allah and the last Day: That is best, and most suitable for final determination.” And you who read this message realize that my secretary has no knowledge of such as the *QUARAN* except as we write here for YOUR recognition.

I have sent, for YOUR USE, that which is wondrous and all encompassing in the area of your greatest need at this time: the necessary foundation upon which you can build an economy without limitation except in your own perceptions.

And while the politicians build safety barriers

around themselves, the people pay dearly and Allah will, without recognition and use of His gifts, remove them, for surely if they are not used for the truth and for mankind and least of MINE, they shall not be found useful to ANY. So: “....So, take what the Messenger gives you, and refrain from what he PROHIBITS YOU...”

I give authority to some ones who then go and are distracted into the VERY TRAPS of the way of the Power Elite of the World. They succumb to the cunning and shrewd salesmanship of those who would direct the couriers elsewhere FOR THEIR OWN PERSONAL GAIN. NO, my Islamic Brothers, it is FOR YOU to take responsibility and HEAR GOD ALLAH that you might bring Light unto a darkening world and reality in Hope, Love and Charity unto the needy.

Allah has allowed HIS gifts to “this time”, flow directly to the people—but they are blocked by the distractors and the unrighteous into funneled misdirection and into systems distinctly and specifically forbidden by Islamic LAW. There is a continuation of trying to acquire, for greed alone, more and more and take and take for selves in the most intrusive and destructive of compounded types of usury—the trading programs and derivative markets built on NOTHING SAVE USURY.

Why need you such limitations and theft? GOD HAS SENT FORTH ALL YOU CAN USE—IF YOU BUT USE IT.

Even Mr. Singson of the Central Bank in Manila said to the bankers: “Go ahead and USE the documents (contract) and cover it carefully—but the Central Bank will HONOR THE DOCUMENTS. And, leave me out of the flow unless it gets so big as to be intrusive.” The “contracts” have been verified and the assets are simply to be “re”covered with gold in suitable amounts to cover the fact that the original gold backing has been stolen and removed. THERE IS PLENTY OF GOLD SAVED AGAINST “THIS DAY” IN HISTORIC EVOLUTION—TO SET THE ENTIRE WORLD SYSTEM TO BALANCE AND PLACE IT ON A SOLID AND SUBSTANTIAL FOUNDATION.

THE AREA OF SOUTHEAST ASIA HAS THE ABILITY, AS WE WRITE, TO DECIDE THE “FIXING” OF GOLD PRICES AND PLACING THEIR INDIVIDUAL CURRENCIES IN COALITION WITH OTHERS IN THE AREA AND SETTING THE VALUE OF CURRENCY, WHICH EACH SOVEREIGN NATION CAN PUT TO PRESS—BACKED BY GOLD. THE DOLLAR HAS NO VALUE BEHIND IT SO WHY DO YOU SHIVER AND SHAKE AND WALK IN FEAR?

TAKE YOUR “DEED” AND GO FORTH (I PREFER AN ISLAMIC BANK FOR GOODNESS OF DIRECTION) BUT GO FORTH, ALLOW THE BANK (OR DEMAND IT) TO PURCHASE GOLD WITH THE RESERVE (CONTRACT DEED) AND CURRENCY CAN BE PRINTED ACCORDING

TO THE STANDING VALUE EVEN IF IT BE THE WORTHLESS DOLLAR. THE REST CAN BE CORRECTED AFTER YOU HAVE CONTROL OF YOUR OWN ECONOMY. THE PROBLEM IS THAT, WITH THE DOLLAR—THERE IS NO VALUE, NO GOLD RESERVES TO COVER THE PAYMENTS OF THE DEED (CONTRACT) OFFERED TO YOU BY GOD ALLAH. YOU MUST, THEREFORE, SUPPLY THAT COMMODITY SO THAT THERE CAN BE NO TAKING OF YOUR PROJECTS AND YOUR VALUE IS BASED ON HARD COMMODITY.

You will forever be at the mercy (which no longer exists) of the politicians if you do not take that which Allah offers you for your needs and your use. You need LEADERSHIP for it takes not even “courage” to use that which is backed by Allah and gold reserves.

You can go many ways in the Islamic system of banking without usury or breaking any laws of the land OR OF ALLAH. IF NOT “YOU”, WHO? Is it so difficult to believe that Allah has accepted your prayers and willingness to serve only to be turned against as somehow being frivolous? Would not the World Elite Controllers insist you believe you have nothing? Is this not the way of the Satanic liars and cheats?

“If anyone contends with The Messenger even after Guidance has been plainly Conveyed to him, and follows A path other than that Becoming to men of Faith, We shall leave him in the path he has chosen, And land him in hell—What an evil refuge!”

“O ye who believe! Obey Allah, and obey the Messenger, And those charged With authority among you. If ye differ in anything Among yourselves, refer To Allah and His Messenger, If ye do believe in Allah And the Last day: That is best, and most suitable For final determination.”

The Prophet (*pbuh*) himself has sanctioned and encouraged reasoning and the exerting of the faculties of one’s mind, in order to find the proper solution of difficult and doubtful cases of law. IT IS TIME TO BEGIN TO EXERCISE THAT WONDERFUL GIFT OF GIFTS—YOUR MINDS.

You of Allah must attend the “word” and you must recall that always four points are to be considered in *Qiyas* as you work to evaluate and move forward with any endeavor, and especially in leadership positions in consideration of which avenues to take toward decision. So in consideration of the four points: First, the thing compared with, second, the thing compared, third, the points of similarity between the two, or the thing common to both, and finally the decision resulting from the comparison of both. The following are the conditions of the *Qiyas*:

1. *Qiyas* can be applied only when there is no solution to the matter in *Al-Quran* or in the *Hadith*.
2. *Qiyas* must not go against the principles of Islam.
3. *Qiyas* must not go against the principles of *Al-Quran*; neither must it be in conflict with the traditions of the Prophet (*pbuh*).
4. It must be a strict *Qiyas* based on either *Al-Quran*, *Hadith* or the *Ijma*.

OTHER SOURCES OF SHARIAH

While *Al-Quran*, *Hadith*, *Ijma* and *Qiyas* have been considered as the main sources of Shariah by all Schools of Law (*Hanafis*, *Malikis*, *Sharfiis* and *Hanbalis*), there are other principles considered as a source of Shariah by some Muslim scholars. These additional principles are considered as supplementary sources. Among the principles within the category are *ijihad*, *ma’ruf* or *urf*, *maslahat*, *istihsan* and *istishab*.

Let us consider the prohibition of *Riba*. Shariah prohibits Muslims from dealing with interest and usury

(exorbitant interest). In Islam, there is no segregation between interest and usury. There is not general consensus among Muslim scholars and theologians that the term “*riba*” covers both interest and usury. Ah, but there should be no two opinions on the categorical prohibition of “*riba*” in Islam. Man tampers and destroys the very meaning laid forth from ALLAH to better suit the needs of his moment. However, by negating the LAWS, he supports the very system that destroys.

ATTENTION PLEASE:

The PROHIBITION OF “*RIBA*” in the *Al-Quran* developed gradually and appeared in four revelations. The first revelation was revealed in Mecca and the three others were in Medina. The first revelation is in verse 39 of chapter 30 which says:

That which ye lay out For increase through the property of (other) people, will have No increase with Allah: But that which ye lay out for charity, seeking The Countenance of Allah, (will increase): it is These who will get a recompense multiplied.

And mind this, beloved brothers: Verse 161 of chapter 4 which says:

That they took usury, Though they were forbidden; And that they devoured Men’s substance wrongfully—We have prepared for those Among them who reject Faith A grievous punishment.

Then look, please, at the third revelation: (verses 130-132 of chapter 3:

O ye who believe! Devour not Usury, Doubled and multiplied; But fear Allah; that Ye may (really) prosper.

Fear the Fire, which is prepared For those who reject faith;

And obey Allah And the Messenger; That ye may obtain mercy.

And realize that these verses have been debated and argued—but MAN always thinks himself more brilliant than God could possibly achieve. I suggest this be carefully reconsidered in your practice.

ALLAH WILL DEPRIVE USURY OF ALL BLESSING, BUT WILL GIVE INCREASE FOR DEEDS OF CHARITY; FOR HE LOVETH NOT CREATURES UNGRATEFUL AND WICKED.

THOSE WHO BELIEVE, AND DO DEEDS OF RIGHTEOUSNESS, AND ESTABLISH REGULAR PRAYERS AND REGULAR CHARITY, WILL HAVE THEIR REWARD WITH THEIR LORD; ON THEM SHALL BE NO FEAR, NOR SHALL THEY GRIEVE.

O YE WHO BELIEVE! RESPECT AND REVERE ALLAH, AND GIVE UP WHAT REMAINS OF YOUR DEMAND FOR USURY, IF YE ARE INDEED BELIEVERS.

IF YE DO IT NOT, TAKE NOTICE OF WAR FROM ALLAH AND HIS MESSENGER: BUT IF YE TURN BACK, YE SHALL HAVE YOUR CAPITAL SUMS; DEAL NOT UNJUSTLY, AND YE SHALL NOT BE DEALT WITH UNJUSTLY.

I hATONn, ONE WITH THE LIGHT OF THE ONE ALLAH, petition you to see and hear.

ALLAH HAS SENT THAT WHICH IS SPECIFICALLY STRUCTURED FOR “YOUR”

USE SO THAT OUR PEOPLE SHALL HAVE JUSTICE AND REWARD, DIGNITY AND RECOGNITION. WE HAVE BROUGHT, IN PERFECTION, THAT WHICH WILL SERVE YOU AND WILL, IN FACT, CHANGE THE ENTIRE CONCEPT OF HANDLING MONEY IN YOUR SYSTEMS AROUND THE GLOBE. YOU MUST HAVE A FOUNDATION OF VALUE UPON WHICH TO BASE ALL CURRENCIES OR THEY WILL SURELY FALL—AFTER MANIPULATION IN GREED AND DESTRUCTIVE LOSSES TO ALL INNOCENT AND UNSUSPECTING PARTICIPANTS. THE TIME OF ALLAH IS UPON YOU, PRECIOUS LAMBS, AND THE CALL IS FOR YOUR EARS WHO CAN HEAR AND KNOW TRUTH. ALLAH WOULD NOT PRESENT LESS THAN PERFECTION UNTO YOU AS YOU FIND IT NECESSARY TO CHANGE CONCEPTS, COME BACK WITHIN THE “LAW”, AND SERVE AS YOU COMMITTED YOURSELVES TO THIS SERVICE. MY PEOPLE ARE DYING FOR LACK OF TRUTH AND THE BONDAGE OF GREEDY PUPPET-MASTERS.

The best place, certainly, to use our gifts is with those places already structured for use by our methods. However, this can be brought into full flow as we establish ongoing procedures. At present, however, you can simply require the backing of the reserves with gold—which can be held by the bank or financier for his own security. In addition, my own immediate messengers presenting these Global documents are from my own Alliance and they will also leave their portion into the hands of the people who honor them save some 20% to be used for our other people. At this time, those “other” people are the Native American sovereign territories, that they can also come up from the poverty and into dignity and distinction. We as a brotherhood must gather our united strength in other than WAR and bring, through peace and PLENTY, the evolvment and revolvment of right practices unto our brethren around the globe.

It is destined that the great change will come from the Asian sector because of the historic values. These values have been also tampered and changed to suit “modern man” but ye who hold to TRUTH and JUSTICE under the Laws of God shall prevail. It is recognized that ALLAH has promised, and is now delivered, that which you would need and sent that which is necessary unto you when the student would be ready for the Teachers. It is time for action and no more blathering about it—simply go forth and use the gifts that Allah be pleased and mankind be blessed through YOUR responsible actions.

Heavy the responsibility? No, BLESSED is the gift and those who step forth and accomplish your own promises unto God.

You have a fine opportunity here to become the NEW WORLD HUB if only the idea of the “gold Dinar” is used properly. Go forth now and simply DO IT. There is no place for FEAR in the service unto Allah.

There are those who know the LAW and how to balance in righteousness the use of our gifts and I am as near as your thought to inquire. There are already places in activities which are already practicing that which is presented here and where Man uses His gifts, there shall be unlimited prospering.

May Allah be praised for within HIM are YOU!

Au dai pai da Cum, Adonai and the blessings rest upon you in your service.

Thank you, dharma, and please will you see to the forwarding of this message to my beloved friend? Let us return peace and prosperity unto OUR people.

Salu

Islamic Banking: Part Two

8/3/99—#2 (12-352)

Tue., August 3, 2006, YR 12, DAY 352

PROPHETS AND MESSENGERS

As follow-on to the morning's communication, dharma, we will allow for better understanding of my input and my purpose.

The time is at hand when Man must take a stand for that which is responsible and that which is right.

I need not repeat the spiritual aspects of our mission at this time for it has all been said that needs speaking. What does it take for Man to open his eyes and see what is before him?

Because there is such a "religious" pull in things of the physical and most especially of the issue of money and trade, I must focus on those things which are used by the adversarial cartels and cabals to bring a world to ruin and into slavery.

I find that it is basically that those of "religious" bent do not have as readily available to their attention the things of great business, capitalism, production of products and especially are the banking services and exchanges fraught with obstacles to understanding. BUT KNOW, THE LAWS OF GOD DO NOT CHANGE AND IN THE AGES COME PAST THE EXPERIENCING, GOOD REGULATIONS IN TRUTH AND ALLAH'S WAY HAVE COME FORTH AND BEEN PRESENTED OVER AND OVER AGAIN.

This writing will not be "new" but will be appropriate to the time of the "now" experience.

There is an Islamic Bank structured and in great confusion as we write, in the Philippines. You call it the Amanah Bank. It has fallen into total disarray to the extent that it is considered to be sold to a Jewish entity focused on greater and worse trading programs. This man has married into the Philippine citizenship and I make no comment about the person other than that the bank would be used as badly as the International Banking Cartel but would allow for use of gold holdings as collateral. The point is, students, that you have already available for your use, if you but take the opportunity, to move directly and immediately into a system suitable for global structuring without running through the established cartel banks.

Some of you will not even know of what I speak, having no idea of one banking system from that of another, so you in leadership positions must take note as I try to lay out in concept an explanation of principles.

If you do not change your attitudes and bring value and responsibility into this system which controls your very survival, you shall wallow in the worthless chits thrown about upon you-the-people.

I will make an effort to write in some type of language that you receivers might understand as well as in some semblance of a presentation my scribe might accept, even without understanding of the language or the test concept. So if each of you will bear with me perhaps we can bring forth some reminders of the Law as relates to "money" or "value" as would be in need of utilizing banking institutions.

PRINCIPLES OF SHARIAH IN THE ISLAMIC BANKING SYSTEM

TYPES OF SHARIAH PRINCIPLES

Like any other financial institution, the main function of Islamic banks is to mobilize savings and idle funds in the economy and make them available to those who can make better and fuller use of them.

Since Islam prohibits interest in all forms, Islamic banks have to look for permissible rewards and business relationships between those who provide funds and those who use the same. Ultimately, the first step to be taken in this search is to make reference to the original source of Islamic laws, i.e., *Al-Quran* followed by *Hadith*. Thus, we find in the *Al-Quran* revelations that relate to justice, the commands not to offer bribes, to give true evidence, and to give full weight and measure. Contracts are safeguarded by commands to put them in writing, to call witnesses, to give securities when there is no scribe available, to fulfill all obligations and to return a trust or deposit to its owners. There are also abundant *Hadiths* pertaining to sales, *as-Salam* (sale in which price is paid for goods to be delivered later), renting, *al-Hawala* (transference of debt from one person to another), loans, payment of loans, freezing of property, bankruptcy, partnership, mortgaging, witnesses, and conditions.

I would point out before we go further—that my scribe does NOT wish to do this work for me or for you. It has been near a year that we have come with our offerings unto you the people of Southeast Asia. We have been put aside, ignored, ridiculed and threatened. Now, to serve in such as Mindanao where hostages are taken and even beheaded is to be considered carefully. How can mankind grow if lawlessness and terror come upon the very messengers sent to deliver the gifts?

Therefore, I command that there is respect, even in disbelief of the gift itself which comes in total BALANCE so that responsibility is equally shared as within the Laws. Privacy must be maintained and all transactions accomplished in that privacy. We wish no "credits" or "acclaims", for that is for you who would dare to step forward to create change in your own nations and circles.

There will be no moving about from home location to ANYWHERE—those who would avail themselves of our gifts must come to our secure place where privacy is respected and no public note is made. Neither can my people have funds to support any transactions or further travel. Intent is always good but the road to Hell, my friends, is paved with those good intentions. People agree to serve, go forth and are immediately distracted and somehow "know better than Allah" as to what might be done to gain even greater funding than the "unlimited" available, if simply handled within the LAW.

You have the gold for collateral, we offer the RESERVE to purchase the gold. Then the holding bank has the assets to issue currency, lines of credit for projects and general handling of currency and assets according to laws of the Land and Islam. The concept is simple, the reserves available, and same have been made valid and confirmed by the Treasury and Federal Reserve of the United States of America. However, these departments, realizing the massive size of the value, will not openly publicize any such asset—but neither will they deny same. The U.S. dollar is a worthless "note" with no support or backing. This is not something any party in knowing would wish to divulge. However, it is neither important nor a condition of use. Once collateralized with gold in any given location, the funds are covered and can be utilized properly. We have carefully structured the use to hold privacy in uppermost importance for the protection of all involved.

I do not, however, wish to dwell on documentation for that is all available, proved-up, and ready for

transfer.

So we must turn back to the modern banking system and relationships with Godly banking systems.

Although both *Al-Quran* and *Hadith* have given some basic principles in performing business transactions, these principles sometimes are not directly related to the modern banking system. Therefore, it is a duty of contemporary Muslim scholars to establish the principles which do not violate the Shariah and at the same time are applicable to the present banking system. Among the most common principles which are widely discussed in Islamic banking literature are the principles of *mudaraba*, *musharaka*, *murabaha*, *ijara*, *ijara waiktina*, *qard hassan*, *wadiah*, and *rahn*.

It should be becoming obvious why we would come to Sharif J. to work with us, for he has taught "the Law" for many years and can relate to the need for adherence of the goodly laws within honor and freedom.

MUDARABA

I have to deal with the English language for the reason presented above—my scribe only speaks in English and therefore can only "print" in English, or at the least with an English alphabet. So each of you who are Muslim must try to understand our position for we have the "gift" and you have the method to use it. We must, therefore, work together to interpret and translate as is necessary. However, dharma has no choice, being herself limited as to multiple language use. We will, however, present words in the language of your tongue for clarity of meaning. If we miss, please have a good laugh and move on.

One of the most widely quoted operating principles in Islamic banking is the principle of *mudaraba*, sometimes known as *qirad* or *muqaradah*. Various scholars have used different terminology when translating the word *mudaraba* into the English language. Some writers use "trust financing", others use "trustee profit-sharing", "equity sharing", "sleeping partnership", "profit-sharing" and another terminology used is "*commenda*".

Imam Sarakhsi, the great Muslim jurist, who gives the definition of the institution of *mudaraba* based on the *Al-Quran* and the *Sunnah* in his book, *al-Mabsut*, says (Uzair, 1980):

"The word *mudaraba* is derived from 'darb on earth'. It has been so named because the *mudarib* (user of others' capital) qualifies to get a share of the profit on account of his endeavors and work. He thus participates in the profit as well as having the right to use capital, and strive according to his direction. People of Madinah call this contract *muqaradah* which is derived from the word *qard*, meaning 'surrendering'. The owner of capital, thus, surrenders his own right over the portion of capital to the *amil* (the user of capital). This is how it has been so named. We have, however, chosen the former name as it conforms to what occurs in the Book of Allah saying 'and others strive on earth seeking the gift of God'..."

This principle of *mudaraba* is actually one of those principles of business dealing that existed before the prophet's time and flourished after him (Saleh, 1986). Ibn Rushid, in his book *Bidayat al-Mujtahid*, says (Uzair, 1980):

"And there is no difference of opinion among the Muslims about the legality of *qirad*. It was an institution in the pre-Islamic period and Islam confirmed it. They all agree that its form is that a person gives to another person some capital that he uses in business. The user gets, according to conditions, some specified proportion of the profit, i.e., any proportion they agree, one third, one fourth or even one half."

For Islamic financial institutions, the word

mudaraba is basically an agreement between at least two parties, that is, a lender, sometimes known as an investor (*rabb al-mal*), and an entrepreneur, also known as an agent-manager (*mudarib*). In the case of loss where this loss is a result of circumstances beyond the control of the *mudarib*, the investor will bear all financial risk and the *mudarib* loses this time and effort only.

We through GAIA offer a “minimum” of half and then, because of the need for unity and support in the beginnings of our joint endeavors, leave the gold in the bank and in addition leave 80% of the GAIA share to be used for support. The only portion the “lender” (GAIA) will or would remove from the local location for use elsewhere would be the remaining 20% of his portion. That also would be backed by value (gold) to insure any line of credit and will be utilized in other nations to insure start-up financing costs and to establish Islamic-style banking systems in the Sovereign Native American nations for the building of facilities for serving those nations in every social, spiritual and financial manner necessary to become self-sustaining, productive republics.

GAIA is an alliance (international) and as we move forward it is hoped that people of areas and nations will join with us and allow for resources to flow OUT in abundance so that freedom might be returned to the lands.

Allah promised that HE would send his gifts and HIS messengers bearing the gifts in this time of evolvement into a new era. The time of Satan is to be put behind and the cabals shall fall. This can be established and accomplished through peaceful means of regaining control of the wealth back to the people and those enemies of Allah shall be put down. There is no need for war for he shall fall of his own volition once control is again assumed by the people.

Different schools of law have taken a different view on the application of the principle of *mudaraba* in business dealings. For the Malikis and Shafiis, *mudaraba* activity is necessarily limited to mere trading and to activities supplementary to trade. It cannot involve a manufacturing function on the part of the agent, otherwise it would be considered as a contract of manufacture or hire. Hanafis, on the other hand, see no objection to a *mudaraba* whereby capital is associated with crafts or manufacturing activities, such as in the case when the agent is entrusted with a capital fund in cash on the condition that he will buy raw materials and turn them into finished products and then sell them on the basis of profit-sharing *mudaraba*. Hanbalis, however, allow the investor and *mudarib* to enter into two separate contracts, one of manufacture and one of *mudaraba*, provided that one is not a condition for the other.

Let us not misunderstand GAIA's intent, however. We ask no part in production, we are only asking that the asset be collateralized appropriately and that we have use of the funds to re-support ongoing projects established. We KNOW that the value of the gold collateral will increase in value to great extent and that is all we would wish to utilize to both cover costs, fees, and whatever other expenses might be accrued.

The International Elite have brought the cost of gold to below the cost of production in order to purchase known quantities at pennies on the dollar—and frankly, to be able to put the mining industries out of business so that the businesses can be bought or claimed for very low or no cost.

In the area of Southeast Asia, for many reasons, there is ample commodity to use to set whatever value you choose and simply set a value on your currency. The best way to accomplish this is to work WITH such as Dubai on the Gold Dinar program which is

somewhat akin to the Euro which is “supposed” to be backed by gold.

There is now no longer any country on a gold standard. There remains thought that somehow the USA is gold backed but no, there has been no backing with gold since the very early 1930s when gold was ACTUALLY CONFISCATED BY THE GOVERNMENT FROM THE PEOPLE. Then within the past few decades the U.S. was officially pulled off the gold standard. The United States of America is basically BANKRUPT and the dollar is based on NOTHING.

Now it is realized that within these most recent weeks even the stable Switzerland is NO LONGER ON A GOLD STANDARD AND NOW HAS A JEWISH PRESIDENT. The gold assets are being the source of many grabs by the Jewish “restitution” groups such as the World Jewish League to get all the gold all the time and most of the reserves no longer exist where it is thought they are placed. It is not through justice or injustice that the Swiss will not release the Marcos assets to the Philippines. But that is another story. It is so important, however, that if Islam is to survive, you of Islam must take ACTION now, before the shackles are so strong as to have you ensnared.

The principle, back to the topic, of *mudaraba* can be applied to Islamic banking operations in two ways, i.e., between the banks and the supplier of funds and between the banks and the user of funds. On the supplier side, the banks will be the agent-manager (*mudarib*) and the depositors constitute the investor or *rabb al-mal*, whereas on the user of funds side, the banks are the *rabb al-mal* and the borrowers are the *mudarib*. The reason why *mudaraba* is considered a noble principle in Islamic banking is because it represents a happy combination of financial means and human resources within the accepted Shariah standards. It is true that *mudaraba* capital is given without any labor yet is expected to be rewarded. But this is because it is risk capital in the sense the investors have accepted the risk of a business venture. In this case, if the investment is successful the investors will recover their capital together with a pre-agreed proportional share of profits, but in case of loss, they may lose all or part of their invested capital.

This will not be applicable to GAIA because we will function purely on values of the gold collateral itself. And, further, should a project come into hard times the project is secured and backed up further by the GAIA portion of the venture but the project is secured because the gold is the product which would be recovered by the bank and not the property or project.

MUSHARAKA

Musharaka or *sharika* is normally translated in English as “partnership” and Shariah divides *sharika* into two broad categories, namely, *sharikat mulk* (property partnership) and *sharikat 'aqd* (contractual partnership). There is another form of partnership called *mudaraba*, but this type of partnership is usually discussed separately in the books of Islamic jurisprudence. Broadly speaking *sharikat mulk* involves the joint ownership of a property without its joint exploitation, such as the joint ownership of a house transmitted, by devolution, to the heirs of a deceased person. On the other hand, *sharikat 'aqd* emphasizes the joint exploitation of capital and the joint participation in profits and losses, where joint ownership is a consequence of, and not a prerequisite for, the formation of the partnership.

There are three different methods in establishing the *sharikat 'aqd*. If money is the main criteria in the formation of the partnership, the partnership is called *sharikat mal* or finance partnership. In the case of

a partnership based on a partner's experience or skill, the partnership is called a labor partnership or *sharikat a'mal*. *Sharikat a'mal* is further divided into four categories, namely: *sharikat fi'amal bi aydihima* (a partnership of work with hands), *sharikat bila'mal* (a partnership of work with work), *sharikat as-sana'i* (a partnership of crafts), and *sharikat attaqabbul* (a partnership of acceptance of work). The School of Shafiis, however, does not recognize the existence of labor partnership.

These, thus far, do not actually apply to a GAIA program because it is truly a joint-venture in that when funded and collateralized, GAIA does not participate further than a general interest in seeing a project grow, and the parties of the project are totally responsible for their own project and management. If asked to do so, GAIA will, however, try to help to acquire knowledgeable participants who might contribute to expertise skills applicable to any said project, i.e., contractors, skilled trainers in use of equipment, machining, etc. This is ONLY should they be asked to assist and then the teams would only be for support to help train local participants.

This would allow many overseas workers to have good jobs and stay home with families and also be very productive while building a stable economy. One day, therefore, there would be the most stable economies and abundantly paid workers. All aspects of social living could then be enhanced through education, training, and self-esteem. Living standards can be achieved that will surpass the most progressive societies.

It should be noted that when credit alone is used for the partnership investment, the partnership is known as *sharikat wujuh* or credit partnership. Each of these, *sharikat mal*, *sharikat a'mal* and *sharikat wujuh*, can take the form of unlimited, unrestricted and equal partnership (known to Hanafis as *mufawada*), or the form of a limited investment partnership (*sharikat 'inan*). Either of these might prove helpful in establishing flow of funds as might be found appropriate.

In the context of Islamic banking, however, the *musharaka* is obviously the '*inan sharikat mal* or a 'finance-limited investment partnership', otherwise popularly known as 'participating financing' where money is the main feature in the formation of the partnership. Specifically, *musharaka* means a joint-venture agreement between two parties to engage in a specific business activity with the aim of making profit. The termination of an agreement may be based on time or after fulfillment of a certain condition. In this principle, both parties will provide capital and the investor or lender may also participate in the management. Profit will be shared between the two parties in the agreed ratio and the ratio need not coincide with the ratio of participation in the financing of the activity. However, in the event of a loss, all parties bear the loss in proportion to their share of financing.

With GAIA there is no loss—for the entire structure is based on the value of the gold which will be valued always at a price to cover any funds released.

There are only simple agreements which do not constitute any type of “security” nor does the transaction or agreements fall into regulation as a security or exchange commodity. Any such use of funds in these categories is utilized AFTER the termination of the “joint-venture”. All participants will be totally responsible for their actions within the LAWS. GAIA will not be held responsible for any misuse or abuse of laws or funds. The bylaws and articles of incorporation of GAIA state clearly that we are an association and an alliance and beyond the agreements and joint venture we have no responsibility

to or from the projects or of the former joint-venture participant.

MURABAHA

This is basically the sale of goods at a price covering the purchase price plus a profit margin agreed upon by both parties concerned. *Murabaha* transforms a traditional lending activity into a sale and purchase agreement under which the lender buys raw materials, goods or equipment required by the borrower for resale to the borrower at a higher price agreed upon by both parties. In this principle, Islamic banks are no longer to share profits and losses, but instead assume the role of a normal business entity. Although all schools of law have accepted this principle as a legal device in business transactions, there are two aspects with regard to the implementation of this principle that have created some misconceptions among Muslim scholars. The first aspect regards the amount of profit or mark-up that the vendor is entitled to receive from the said transaction. The second aspect involves the options available to the purchaser when he discovers that the price he has to pay is unduly inflated.

For the purpose of the mark-up, Hanbalis deem that all actual expenses incurred as regards the commodity, the object to *murabaha*, can be added to the capital (price), provided that the purchaser is made aware of the amount of these expenses and their origins. Similarly the Shafiis insist on the additional requirement that the fee earned, in principle by the vendor, or the fee that should have been paid to a third party, had he not volunteered to perform a work *gratis*, cannot be added to the *murabaha* price unless that is specifically accepted by the purchaser.

Malikis divide expenses into three categories: first, expenses that can be added to the capital (price) and constitute a basis for a calculation of the profit; second, expenses that can be added into capital but cannot serve for the calculation of the profit; and third, expenses that can neither be added to the capital nor taken into account for the calculation of the profit. Take a shoe factory for example. The cost of raw materials, cleaning, processing, dying and tailoring are included in the mark-up price. The cost of storage and transportation of the finished goods are considered expenses that can be added into capital but cannot be used for mark-up purposes. Other indirect costs, such as the commission paid to a middleman, advertisements, donations etc., are to be excluded from the calculation of profit. Hanafis have the simplest approach to this practice. The seller (vendor) is entitled to add to the price all expenses accepted normally by commercial practice and incurred as regards the commodity object of the *murabaha*, regardless of whether or not the expenses have affected the commodity itself or were merely incurred because of the nature of the commodity.

IN THE CASE OF GAIA, THERE IS BUILT INTO THE ORIGINAL FUNDING AMOUNT, EXPENSES FOR DOING THE TRANSACTION ITSELF. THEREFORE THERE WOULD BE NO NEED FOR CONSIDERATION FOR PRODUCT PRICING AS IS REFERRED TO HERE.

According to Shafiis, when the purchaser discovers that the price he has paid is unduly inflated to the *murabaha* vendor and the object is still in the purchaser's possession, he is then entitled to return the object to the vendor and have his money refunded, or he can keep the object and claim the undue increase. The Malikis grant the purchaser another option. First the purchaser would have the right either to keep the object in consideration of its appropriate price or to relinquish the object of the transaction. However, the purchaser is not entitled to refuse if the vendor wants him to keep the goods at the appropriate price. As for

Hanafis, the purchaser would have to make up his mind either to accept the sale at the stated price or to rescind it and take back his money, but if the good is no longer in the possession of the purchaser, he would have no other option than to confirm the sale.

I am putting this information within this document simply because it is amazing how many think they understand a subject only to find myriads of little questions springing forth that were not even a consideration, and often not applicable in a given circumstance.

It is often that the people who end up having to utilize the laws are the least informed because the educational process has managed to totally surpass all levels of competence of the professors of finance and certainly are beyond the ordinary man even though money is so totally SIMPLE in concept as to be THE cause of the confusion. As in today's world: if a thing is not confused—confound it!

Dharma, let us pause for a rest—this is very tedious for you.

Dharma, let us continue please, for I wish to make known my position in butting into the affairs of particular people who are expecting to hear from me but never are quite comfortable until they THINK ABOUT CIRCUMSTANCES AND BEINGS AS PRESENTED—LATER.

It will help people, i.e. Sharif, to understand that he would not have KNOWN just who would show up—but he knew that in these days of need and petition—GOD WOULD SEND (BRING) WHAT WOULD BE NECESSARY. You, scribe, on the other hand, must not drag your feet in the “knowing” because I told you, and we wrote it publicly, that we would be a major participant and would actually supply the wherewithal to bring the Autonomous Regions (Muslim) into their full potential. It is only the language you did not understand nor, at that time, WHAT WOULD BE THE TOOL OFFERED. We have to wait upon God in TRUST and in ignorance to protect that which needs to flow in its proper sequence and into the hands of proper parties.

I would like to remind you also that when we did the journal on the Immanuel scrolls that in confrontation with the Pharisees the Teacher said that “in about a hundred years there would come forth a man (a prophet) [Mohammad] who would represent death and destruction to those Pharisees all their remaining days upon the Earth.” Is it not come to pass, chela?

Now, to my own label and yours, child—we go back to far beyond the ancient Egyptians—at recognition will bring us to Aton-hATONn of the One Light era of some effort at bringing mankind into understanding of his oneness with God. Aton means the One Light, represented by the “sun”. Don't bother about it for this is just for some recognition that we know of what we write. We don't need to belabor these points for it is a time of need for unity in brotherhood of all those who are OF GOD to come together and unite for it is known that the Elite Khazarian Zionists, or those that falsely call themselves Jews, are the “Jews” of the Elders of Zion who present, as themselves, “the Jews”, but are NOT, and all other peoples of the earth are Gentiles. In “their” identification they have split the world into only these two categories. It is fine—God wins the ultimate game.

However, if man will assume his God-Allah creative POWER the ending of the planet and humanity need NOT be as constructed for your demise or your downfall. But somebody has to come forth and DO THE TASK AT HAND to reverse the circumstances. And, just to remind you—it is a total

reversal of the heinous methods of those evil controllers that must be matched tit for tat! We must undo that which is most precious to them—and indeed, it is within that which is the banking system where they have gained first control. Not only CAN WE DO IT—we SHALL do it.

So, scribe, to continue—as much for your information as for any other's let us move on to:

IJARA

Ijara means a lease contract as well as a hire contract. Therefore look at the many various ways we can function and do so all within the laws of Allah and RIGHTEOUSNESS. In other words, the contract of *ijara* is the sale of usufruct. Therefore, the rules relating to a contract of sale such as those of *khiyar al ru'ya* (the right of rescission at the time at which he sees the object which he has bought), *khiyar al-'ayb* (the right of rescission because of lack of stipulated quality), *khiyar al-shart* (the stipulated right to cancellation), *faskh* (cancellation), and *ikala* (reversal) apply to it too. For the Malikis, *ijara* resembles a sale contract whereby the price and use (*manafa'a*) are exchanged and the contract should specify a *manafa'a* either by the duration or by its subject matter. The contract is invalid if the object of *ijara* is used for the purposes which are prohibited by Shariah, e.g., renting a premises to use as a night club, bar or other vice activity, or the activity is a mandatory duty in nature, e.g., hiring a mother to feed her own baby. Hanbalis has described *ijara* as being a contract where the subject matter is lawful and defined as *manafa'a*, of a lawful and determined corporeal object ('*ayn*), for a specific period of time. To the Shafiis, *ijara* is a contract where the subject matter is the determined, legitimate, assignable and lawful use of an object against a fixed consideration. Finally, Hanafis describe *ijara* as a contract intended to give ownership of a determined and legitimate *manafa'a* of a rented corporeal object ('*ayn*) against the consideration.

All schools of thought have agreed that *ijara* is a binding (*lazim*) contract. However, they disagree about the reasons which could cause the cancellation of *ijara*. Malikis and Shafiis opined that *ijara* is cancelled only by a material defect ('*ayb*) affecting the corporeal object ('*ayn*) leased or hired. Another situation which terminates the contract is in the event where the purpose of the lease or hire has disappeared, such as when a person asked a butcher

to slaughter cattle, and before the slaughtering began the cattle died. To the Hanafis, *ijara* is cancelled by any reasonable excuse that the lessee may invoke, while Hanbalis believes that *ijara* is cancelled if the rented object is destroyed or affected by a material defect.

There are two kinds of *ijara*, i.e., for a period and for carrying out of a task. The period must be determined; it is not possible to hire or rent for a stated amount per month. A special case of *ijara* for a period is the lease of agricultural property. It is forbidden to stipulate that the lessee should undertake work from which the lessor, too, derives advantage, such as dredging canals. If the crop has not yet been harvested when the lease expires, it continues for a fair rent until the crop has ripened. The lease of one agricultural property for another is forbidden because it would amount to *riba*. There are, however, some principles which are permitted by Shariah in this area. With regard to agricultural property, the related principles are *muzara'ah* and *mosaqat*, and under these principles the lease payment consists of a percentage of the produce.

Another concept of *ijara* is *ijara wa-igtina*. It is a combination of leasing movable or immovable properties which grants the lessee and option of eventually acquiring the object of the lease. In Malaysia, the concept of *ijara* is expanded further by the principle of *al-ijara thumma al-bai* or hiring followed by sale and purchase. This concept refers to two contracts undertaken separately—the contract of *al-ijara* (hiring/renting) and the contract of *al-bai* (sale and purchase). Under the first contract, the hirer hires the goods from the owner at an agreed rental over a specified period. Upon expiry of the hiring period, the hirer enters into a second contract to purchase the goods from the owner at an agreed price. (Now this came from Bank Negara Malaysia)

I have bothered to put this section into the writing to point out that our DEEDS OF ASSIGNMENT can be leased or rented under “the law”. This allows for additional reserves which can shore up banks instantly.

We can utilize our assets in almost any way desired—without consideration of having to use interest and yet, can fit within the ongoing system—even to the supporting funds (for fees) to such as the IMF, if you have a great sense of humor and a sense of JUSTICE.

QARD HASAN

(No, dharma, you don't have to do banking—just the typing.) This is a benevolent loan that obliges a borrower to repay the lender the principal sum borrowed on maturity of the loan. The borrower, however, has the discretion to reward the lender for this loan by paying any sum over the above amount of the principal. This kind of arrangement is the only loan permitted by Shariah and the objective of this loan is socio-economic justice and equity. Islamic banks are advised to make use of *qard hasan* in the following circumstances:

a. In the case of *musharaka* (partnership or participation financing) between the institution and the client, it often happens that not all of the institution's shares in the project can be earmarked for the right to participate in profits; otherwise no substantial share would be left to another partner, namely the client. Therefore the institution's participation is split into two parts. One part constitutes a share in the partnership capital and the other is working capital provided through *qard hasan*.

b. A *qard hasan* can also be provided to a client of the institution who has cash flow problems, either in order to protect the institution's investment, or, when the client is reliable, to boost the institution's image and reputation at no great risk.

c. A third use of *qard hasan* may occur when a client who has a blocked savings account with the financial institution which generates no interest, encounters an urgent need for short-term finance, making resources to the *mudaraba* concepts useless. The necessary funds can be provided to him by the institution through *qard hasan*. There are probably other circumstances where *qard hasan* has its value for the lender, and these circumstances will gradually develop with the day-to-day business of the Islamic financial institutions.

WADIAH

Wadiah means trusteeship and under this principle the owner will commission others to hold his property in safe custody. It is a fiduciary relationship (*amana*). The safekeeping must be assured by the owner himself or by a member of his family. The custodian's refusal to return the deposit or his denials that a deposit exists, or its confusion with his own property, are usurpation and engender liability. To the Islamic banks, *wadiah* is an agreement where the owner will deposit cash or other movable assets in the custody of the banks. The banks obtain the authority of the depositors to utilize the deposit at the bank's risk and bank's benefit. The depositor is free to withdraw the money at his own convenience. In Malaysia, the principle is further extended and renamed as *wadiah yad dhamanah* (safe keeping with guarantee). This concept refers to deposits which have been deposited with another person, who is not the owner, for safekeeping. As *wadiah* is a trust, the depository becomes the guarantor and, therefore, guarantees repayment of the whole amount of deposits, or any part thereof, outstanding in the account of the depositors when demanded. The depositors are not entitled to any share of the profit but the depository may provide returns as a gift (*hibah*) to the depositors as a token of appreciation.

RAHN

Rahn means pledge or pawn. It is a contract of pledging a security and becomes binding when possession of the pledge takes place. In this principle the ownership of the security is not transferred to the pledgee. The transfer of ownership occurs only under certain conditions as an effect of the contract. The pledgee is liable for the pledge, to the amount either of its value or of the debt secured, whichever is less, or if it gets lost through his fault, to the amount of its value; he is also obliged to return it when the debt is paid. The pledgee, however, has the right to sell the security when the debt is due in order to pay himself out of the proceeds. The pledge is in principle a collateral security; the debt remains in existence in so far as it is not covered by the sale of the pledge, and any credit balance which remains after the sale of pledge is held by the pledgee in trust for the pledgor.

Besides the above-mentioned principles, there are many other Shariah principles governing the operations of existing Islamic banks. These principles sometimes are either used by a limited number of Islamic banks or by the Islamic banks in specific Islamic countries. Among the principles within this category are *bai mua'zzal*, *bai al-dayn*, *al-wakalah*, *al-ujr*, *al-kafalah*, *al-hiwalah*, and *joalah*. I would rather not take time or space in distraction of focusing on each of these principles.

Now, I could break these principles as into categories of countries, terminology, etc., but I prefer to not do that for each is available in many places for research.

My full intent here is to point out that we have the asset and you have the people and the plan whereby the assets can best be used within the laws of Allah (and the land). It must be that we can present to our

people a better way in honor and integrity. And, please, receivers of this, you must realize that only Allah could have such gifts. Make no mistakes about who is behind this program and offering or how well it can flow because of same.

We have ones in Muslim places of the Middle East waiting to see what you will do—that they might either join this alliance or at least participate in the conceptual program in their own nations and banks.

I would also again point out that there may well be variances in the presenting language and spelling of words here for I remind you that my secretary-scribe only speaks English and this becomes most tedious. So, please, be gracious and allow for any errors in presentation.

Dharma is also my translator when I choose to have a verbal conversation with you. We have a rather tedious tonal frequency which has to be translated for most receivers into a language. We can share if you like but I prefer to keep the business to business and then let us share our real (soul) purpose.

YOUR ADVERSARY has laid forth his plan of destruction and GOD HAS HIS PLAN 2000 as well. Let us please move into a golden age of beauty and abundance and not allow this evil character from the darkside to longer flourish.

We place no “strings” on our gifts, just as God places no strings on his LOVE or abundance. We are OF EACH OTHER and that which blesses one blesses all. As others see you progressing out of the darkness of poverty and into radiance of production—they too will wish to join you and there will be a ground swell of brothers, not the least of which will be from the “Nation of Islam” in the U.S. There has been too much oppression and fear to be able to work in that environment so it must be understood that THIS IS THE PLACE, my friends, and you are the elected ones to do this job. Smile, for it is wondrous and exciting in its very concept.

Is this “simple”? Yes. Is it “easy”? No.

As you might guess, the adversary and the International Controllers have all but destroyed my people. My scribe has lost everything possible except life and that has been attempted in the taking. My people are not “off-limits” to the mischief-makers but the impact is still heavy. I can tell you now, however, that the World Controller Elite Powerbrokers DO NOT WANT TO TANGLE WITH “ME”. I AM KNOWN WELL TO SUCH AS THE GEORGE BUSH CARTEL, ET AL. YOU ARE NOW IN MY PROTECTION, YOU WHO WISH TO ASSIST AND PARTICIPATE.

AND DON'T ACT SHOCKED WHEN YOU LOOK UP AND SEE OUR SHIPS STROBING RAINBOW LIGHTS AT YOU FROM THE NIGHT SKY—WE ARE HERE AND WE ARE HERE IN PHYSICAL MANIFESTATION AS WELL AS IN THIS TYPE OF COMMUNICATION. WE KEEP OURSELVES LITTLE KNOWN AND LESSER RECOGNIZED TO KEEP ANY FOCUS FROM OUR PEOPLE. ALL OF THESE THINGS WILL BE COMING INTO RECOGNITION, QUITE GENERALLY SPEAKING, IN THE VERY NEAR FUTURE. WE DO, HOWEVER, NEED TO GET A WORKING SYSTEM TO AVOID COLLAPSE OF ECONOMIES.

Blessings are upon you and may we enjoy our mission as we watch and experience a rebirthing that mankind shall flourish instead of rot in poverty at the hands of the puppet-masters.

Tragedy & Hope Overwhelm

2/5/06—#1 (19-173)

Sun., February 5, 2006 6:48 A.M. YR 19, DAY 173
Manila, Philippines

RE: THE WORLD IS OUR "OYSTER" BUT IS THE OYSTER DEAD?—GCH/d

* * *

WHERE WAS GOD...?

WHICH GOD? YOURS? MINE? THEIRS? OURS?
OR, THE DECEPTION OF ALL THE ABOVE?
SO, WHERE IS GOD RIGHT NOW?
ELUSIVE IMAGES OF MOHAMMAD
(MUHAMMAD)

First I will speak of images of "Gods and Prophets". Since you, NONE OF YOU, have ever seen the "real McCoy" (tongue in cheek of course) which can also surely get you murdered in the streets or swimming pool, I will note the absurdities of Man for God has no part in the Games PEOPLE play to confuse, obscure, distract and certainly, act in ways far less than trained seals or court jesters.

I have asked to write a column for today because I frankly could not cajole or tempt Fingers to the keyboard on her own journalistic observations.

THE KEY NOTE FOR MY STATE OF THE GLOBE SPEECH IS CERTAINLY: "WOWOWEE"! This is a Philippine word for insanity and today, death in the streets—FOR WHICH, BY THE WAY, GOD IS NOW BLAMED FOR "HOW COULD THIS HAPPEN?"

How far do you want me to continue with this incredible show of ignorance and total mayhem?

Well, I give dharma a bit of "Doris" break because, frankly, she is in total overload over the recent attention given globally by CNN to the plight of the children in these Philippine PRISONS. Whatever you might have thought terrible is so much worse as to shut down the systems and make 74 people trampled, pushed and stomped to death over a television game show look like a street game of kick-the-can. Moreover, there are hundreds still in critical condition so the numbers will rise. AH BUT, GOD, FIX IT! WE DEMAND THAT YOU FIX IT!

OK, says that elusive God with depiction as elusive as pictures of Mohammad, "So I shall!" "Indeed, so I shall!" "IMMINENTLY!"

SHOCKING TRUTH:

YOU DON'T FIX WHAT ISN'T BROKEN!

Mankind, like the very singularly addicted ADDICT, has to reach a point of only one way "out" of his plight and ACT ON IT BY PULLING HIMSELF UP AND OUT OR DIE IN THE PIT. Wowowee!

GOD has sent you a rope ladder up and out to freedom, a litter basket and said, "get aboard", put a helicopter above the pit and said hop on and you simply run to the nearest "free admission" television promotion and trample your brother to death and then when the show is cancelled suggest a march on the TV station and ultimately on the Palace for not going through with the program. Moreover, the Palace people, including the President of this Paradise in the Pacific, are so concerned as to pay the medical costs in the various hospitals for the dead and dying and send families home by some means of transportation ASSISTANCE, not yet determined.

The program is *Wowowee* and it gives away money to contestants. Now this program was different, however, as the admission was FREE and you got in to possibly get picked for getting on the stage and looking worse than possible while the dancing girls wiggled and you could "Come on Down" for a bit of frolic among the bank notes in your hands for a short time before you guessed the wrong number to pop up on a card of some kind.

Not too far off the mark the paper ran a headline: "74 DREAMS CRUSHED; 'Ultra tragedy reveals life is hard, real state of economy'" with a picture of a crying boy holding his dead mother's hand among rows of dead who had "lined up for days for a chance at a better life for their families".

Then as only in the Philippines (OIP) [don't we wish it was OIP?], the loud "music" "drowned out cries for help". This is quite true for you cannot go into a lunch counter for lunch and hear your own brains rattle. In Friday's, for instance, there are at least a dozen TVs running, each with a different channel but without sound while the music beat is totally deafening from the central sound system. Out of every "other" door comes the blast along with pictures of near naked bodies in underwear (almost) while at the same time the Philippines is trying to get four American soldiers away from the Americans for "alleged rape" of a known prostitute. Hold strong, Mr. Paul Jones [U.S. Ambassador].

The paper points out that "THEY CAME IN THE TENS OF THOUSANDS, SOME CAMPING OUT FOR DAYS, hoping fortune would favor the earliest to get in among them. All they wanted, each of them, was a stadium seat, a free raffle ticket, and a stroke of luck that could end a life of poverty." Fine, "P2.5 million in cash [\$50,000] and a passenger jeep were to be the top prizes in what would have been the first-anniversary celebration yesterday of *Wowowee*." Well, even the TV celebrity comedians were not laughing when this day ended.

AND STILL THE PEOPLE DEMANDED THE SHOW "GO ON". After all, who cares about a few Filipinos when "they weren't going to win anyway because 'I' was...". Moreover, it was also interesting to see the people just beyond the bodies laid on the street still giggling and clowning for the cameras thinking it was all a planned escapade through "LIAR'S LAND".

Here is where Doris Ekker said to me: NO MORE! Man's inhumanity to man is beyond my ability to cope. Well, this too shall pass in one way or another.

This happened as President Abdul Kalam, President of India, was in Manila for a STATE VISIT. No woman shall endure the masses upsetting her show and tell. We shall see how badly this plays.

AH BUT, what could be more important and less sympathy-getting from the world at large? The *CNN SPECIAL REPORT* on "children in the prisons in the Philippines". The print-outs have not yet been posted so we can't YET offer the tale but if you think it is difficult to watch animals in tiny cages stuffed to criminal levels grab a look at children being held in the Philippines.

This already got attention from the public in past years, by the same journalists. It was bad enough for some attention to be made to cause separation, somewhat, of the children from the adult prison population because of OBVIOUS REASONS now being made legal in your laws. Wowowee!

The same journalists sneaked in again and found many of the same children in worse shape. The separation had come alright, and alternate facilities leaned together as covered sheds with "coops". This consists of stacked layers of cells WITHOUT ability of even a child to stand. They crawl in and out and are given less than one hour per week "out". They have to take turns to even lay flat. They are covered with sores, fungi, and the temperature is well over 100 degrees ALL THE TIME without ventilation of any kind. The roof is metal and simply cooks the bodies as would an oven. THERE ARE THOUSANDS!

The rebuttals by the politicians? Oh indeed, "We are working on the problem." SURE they are, for let me snitch just a bit on the findings of the Senate this week. The politicians in the Agricultural department stole money from the funds for FERTILIZER for the crops. They actually emptied bottles of fertilizer so that only a tenth of fertilizer would be in a bottle then filled with water and sold at higher prices. The profits went directly to GMA's election costs personally and to her henchmen and other local political candidates. No fertilizer for the crops, no seeds for the crops, and no livelihood for the farmers. Wowowee!

Now, back to the coops. These are street children or squatter babes from the areas beside drainage infection canals and railroad tracks. Between trains babies are actually put between the rails as a playpen tender. Everyone is hungry; nobody has work; and THE little boy upon which focus was given is the size of a 5-6 year-old child but is actually 12. He stole a bucket of fish years ago—again: Wowowee! He has been repeatedly raped and is covered with sores but is one of those "beautiful" children from a post-card. I would appreciate if we don't give more time for SEARCH but please you Internet whizzes—find that report and make sure we get it shared in the paper.

Before we leave the topic of Muslim/Moslem upheavals let us NOT overlook the Iranian situation and the shouting and idiocy of atomic energy. Do you really think the upheaval is over atomic energy or even possible warheads? Come now, children of the LIE, Iran is doing an investigation and actual hearing on THE HOLOCAUST and its fabrications AS PRESENTED BY THE JEWS. They can well blow away the world but heaven only can help them if they prove the story is a LIE!

BUSH BABY'S STATE OF THE UNION

Not so, as to importance of "what do I think"? WHAT DO YOU THINK?

I ask that room be made and given prominent position for the Steele writing of 2/1/06 "The Crack of Doom". [See "The Crack of Doom" on page 10.] Please READ IT ALL. I also suggest that you skeptics as to the seriousness of the circumstance do a bit of "on-line" REAL program debunking.

I want every one of you to look up the new "poop" on "Concentration Camps" of which we have

been telling you for 20 years! The U.S. HOMELAND SECURITY JUST LET A CONTRACT TO, OF ALL INNOCENT PARTIES, HALLIBURTON TO BUILD SOME MORE—FOR MULTI-BILLIONS (BEFORE IT ENDS), FOR UPGRADING, BETTER SECURITY AND ATTENDING THOSE “COMPOUNDS”.

Is there expectation of more disasters such as New Orleans? Well, those compounds can “also be used as temporary shelters in emergencies”. Wowowee!

TURN YOUR EYES TO THE FEDERAL RESERVE AND “MONEY”

I want to comment BEFORE you read the next thing I ask be run in the paper: “U.S. TO ISSUE U.S. NOTES TO REPLACE FRNs?” *[The referenced email message from “Stephen Gottfried” begins in the third column on this page.]*

EJ and I have been working day and night to be able to present a program with relative values and ability to do “something” different and which could work in conjunction with our offers of programs to give solutions to some of the economic black-hole. So, I will leave it to him if he wants to share or hold because this writing was forwarded to us and I frankly don’t want to give a lot of my time to it—YOU SEE WHAT YOU THINK! [EJ: Our program is too large to share in this paper—maybe imminent?]

Someone is very definitely going to have to DO SOMETHING about your plight. And NO, IT IS NOT our responsibility to fight the world and see to everyone’s comfort. We will do our job and you had best be looking for real culprits and “handler game players”. You get yourself hung up on an “idea” and perhaps a scapegoat and hop to wrong conclusions and perhaps the fool you make is of “self”. I have some personal comments and examples of still ongoing WRONG perceptions and deceptions.

EKKERS seem to have this high-level publicity of being a dastard-chief in so many things global and other worldly as to shock and awe. It simply is not so! As even in Tehachapi and early writings, George Green and wife MOVED FROM AN EXPENSIVE COASTAL LOCATION to take over the situation in little Tehachapi. They did that nicely. George was the corporate boy and he was the program planner and he got around to everywhere. EVERY PERSON WHO PARTICIPATED IN ANYTHING CAME THROUGH INTRODUCTION BY/FROM GEORGE GREEN.

It was even stated in public legal documents that George Green “owned” the Institute and therefore had every right to the assets thereof. This was offered by no less than George’s first right-hand man who also came to Tehachapi, Mark Williams. This was stated in a legal deposition where he sat in with Green’s lawyers, in Carson City, Nevada. He wrote several affidavits and declarations of great interest in contents thereof.

The Institute had some 8 to 10 directors and one of them WAS NOT D. Ekker. EJ continued to “serve” because somehow everyone could blame him for their own indiscretions. WELL, NO MORE!

We are now moving on to accomplish this program which will be capable of covering all that came before through that incredible period of time when Green actually referred to himself as having contact with “aliens” and receiving communications and actually enjoyed the position of being “the leader of a cult” as published several times by HIS contacts. When things broke loose and he stole the Institute’s funds and actual gold and fled California to Nevada to bury the loot in his backyard, he also

took the corporate records with him and they have not been seen since. He also took 110,000 of OUR BOOKS and sold them.

Anyone wishing to have dealing with said Institute, find and make your claims to George Green who operates out of Idaho and I believe there is a recent interview with him to back up this statement. Please run it if you have space for it is far more important than you can even guess at this time.

He dumped the Institute in the trash and oops, *Spectrum* gurus noticed it and accused Ekkers of letting it lapse. Well, it continued because to protect themselves in court they had to, by mandate, keep it viable for five years. THAT HAS EXPIRED and what we do now is going to have very careful consideration for the entire entity was made defunct while the operator continues his self-reported expert lectures and financial management programs. What you do is up to you, readers, for we have no interest in being further bashed and trashed over the debacle.

WE WILL MOST CERTAINLY MEET OUR RESPONSIBILITIES AND OBLIGATIONS ABUNDANTLY AND IT WILL BE BASED ON A SOUND FOUNDATION AND SOMETHING “UNHEARD” OF AT THE TIME OF ANY PARTIES EVEN HEARING ABOUT THE PHILIPPINES AND THIS FOUNDATION. Therefore, dharma, the day is not totally heartache. As things get worse our position gets ever more important.

Will we be able to help some of the interested players in this month’s attention circle? Oh indeed, just give it time to mature. The overload of directions from which to work are the difficult walls to overcome for panic is like a raging bull in a proverbial china shop. I ask that the paper be laid-in at Ron’s discretion for we need the help and a bit of retreat today.

Dharma feels sad and disappointed in herself as a listening-post for she claims she would, were it her prerogative, just sweep it all AWAY. And then we can know, as can she, that this is NOT SO. How so could we know? I know because she has sat here and typed this—“one more time and one more for the road”.

By the way, just when you think things might change and some bad guys go down—LOOK AT ENRON. The shell games continue. Ah yes indeed, “bankruptcy”. And, please, when you run for the FREE LUNCH make sure you don’t get trampled to death. And while you are at it while looking around at high costs and petroleum overload—Royal Dutch Shell made the highest profits IN HISTORY JUST THIS LAST YEAR. And how is YOUR alternative energy program espoused by Mr. Bush going in your Teepee? [Freedom from Mid-East Oil Imports by 2025? More Wowowee?] Credibility in presentation? THE BUSHES ARE OIL MEN! AND, MOREOVER, THE VICE PRESIDENT IS FROM HALLIBURTON! How lucky can you get, chelas?

We find Franklin Graham (Billy’s son) in town having audiences with her high-ness the Queen GMA. Well, Billy SAVED Geo. Bush so perhaps Frank might SAVE GMA? The Pope couldn’t do it but perhaps an Evangelist of royal lineage might have more input?

Watch your step for there is such an abundance of blood and poop on the ground as to bury you should you slip and fall.

Am I truly “real”?

Who is it that asks?

U.S. to Issue U.S. Notes To Escape the Debt Trap?

US TO ISSUE UNITED STATES NOTES TO ESCAPE THE DEBT TRAP?

From some sources US is about to issue US Notes instead of Federal Reserve Notes to catch up with the debt issue. i.e. the US gov is supposed to reclassify the debt asking to audit the Federal Reserve balance. It seems that the FR is cooking the books by putting the face value of banknotes in the liability side of the balance, instead of the profit side. * US gov will ask them to rewrite the books and to _pay taxes on the seigniorage earned from the Fed Notes _.* A major classified investigation is underway. The United States Notes are banknotes with the seigniorage held by the government instead of being withheld by the shadowy private owners of the FR. If the debt will be reclassified, i.e. on the cent on the dollar, it may shrink from the actual figure of 8+ trillions dollars to a few million dollars. A minimum of a 98% shrink is expected. Smart move. Now I understand why the Fed issued this warning:

FRB: H.6 Release—Discontinuance of M3: “<http://www.federalreserve.gov/releases/h6/discm3.htm>”

That would be a miracle in the Bush-43 Adm. It would be a good idea for the US or any Govt to do that. It takes away the power of the big international bankers, who profit extremely from the big banking games. Abe Lincoln and JFK both wanted to implement that type banking in the US to cut those big banking types out of taking the money away from the country.

They were going to cut the cream that the Rothschilds and Bilderburg types were milking from the US. Everyone knows the Rule of 70 for interest. It says that if the prime rate is 7% then the money on loan for that interest doubles every 10 years. So, every decade the big banks double their money at the expense of the citizens. In the US, it is mainly the Fed Reserve system and the Alan Greenspan game that pulls wealth out of the US Govt at an alarming rate. They make more when they start wars and run up the national debts. If the US becomes the lending institution, then these funds that double about every 10-20 years goes back into the US treasury to the benefit of the American Public. That the Govt. does not do this means everyone pays higher taxes and those taxes go right into the coffers of the Big International Bankers. This bleeds wealth from the citizens of the US. In the time that the Fed. Res. has been installed since the ideas were hatched at Jekyll Island by the Rockefellers and other big bankers, thousands of times the US net worth have been pulled from the US citizens. There is one power that is larger than the “US Superpower” and it is this rich banking system that formed in Europe from the Rothschilds holdings of

most of Europe's "blue-blood" money. That system is so powerful it is able to order up assassinations of US presidents that don't go along with the massive money pulling from the US. This system of wealth was largely behind why Lincoln and JFK were shot and killed. This same system of wealth pulled off a loan to the UK, where the promise note was the Balfour Letter. This note was converted into payment when the UK divided Palestine in half and made Israel. Recall the Rothschilds and most of the big banking systems in Europe were Jewish in orientation. Now, this international banking wheeler-dealing has pulled in most of the US and UK into war to back Israel. So, again, the US is being bled for all the war costs because this big money game decided they wanted this. The US is paying Israel around 2 billion a year, plus now several billion to back the wars in Afghanistan and Iraq, and perhaps soon the Iran and Syria war games. So, if one notices the money trail, then one notices why Israel, big banking, and the killing of JFK are a trilogy. Zionists like Jacob Rubenstein, aka Jack Ruby, were right in the middle of the plot to shoot JFK in Dallas over the nuclear weapons issues that JFK had with Israel.

Zionists like LBJ and the Zionist Big Bankers (Rothschilds) set up a huge level of cooperation to take JFK out and install the LBJ crook.

JFK's US Notes were all taken back off circulation, and the Fed. Res. banks got richer. Today, Bush-43 drives the US debt into the absolute danger zone. This is the ultimate of the system of crooks that controls the US—and perhaps even the Euro. It is going to take a lot of straight forward information for the US to escape the hostage situation it is in. It should be obvious that the Holocaust is a real political game and is being used to make the US and UK look good, because blowing up entire countries with saturation aerial bombing of cities and killing women and children is a war crime.

So, the big bankers that funneled all the scientists into the US to make the big A-bomb and funded that to get their control back of Germany and Europe from Hitler was a key game run by the big banking cartel. The US gets to play savior of the Jews from the evil Hitler and his gassing machine, while the deal behind closed doors creates Israel. This is the deal making power of big money in the politics of war. It was this same big banking game that started both WWI and WWII, and is directly behind the banking and usury game with the Islam religion. Islam bans usury, and the Fed. Res. types and the Bilderburgs lose their economic domination and control if that gets shut down—or if the Govts start to control and own their own currency.

Basically, all the big problems we have today are rooted in this corrupted system of wealth that seeks to take the US and really the whole world economic hostage. This group helps hide the environmental disasters tied to the Ozone Hole and Global Warming associations, because they don't want to have to pay for the damage factors.

They are behind the cover up on AIDS, because they want to depopulate the planet. The problem is the public is so dumb they just keep doing the same blundering time and again. And the other problem is the US politicians pander to this big money system to stay in power. And the press is owned and told what to play up and what to suppress. Otherwise, all the US would know the real story on the massive conspiracy behind killing JFK, that all these Wars have one thing in common. And that the US needs to start its own money system that keeps for the citizens control of their money and cuts taxes.

THE CRACK OF DOOM

By Edgar J. Steele, 2/1/06

Last night, President Bush delivered the State of the Union Address, a speech that had to be written for him by our masters (though, in all fairness, Bush did pretty much keep his crayons within the lines).

Incredibly enough, Bush claimed that "we are winning" in Iraq.

Even though it has become plain that America never will escape from Iraq with her dignity, Bush ruled out a withdrawal by saying, "If we were to leave these vicious attackers alone, they would not leave us alone. They would simply move the battlefield to our own shores." Via all those Iraqi and Palestinian aircraft carriers, no doubt. Words. Just words. Spoken only as a man who ran from war when it was his turn could speak them.

Bush called for all of us to "stand behind the American military". I agree. We should show our total support of our sons and daughters in uniform by bringing them home tomorrow. Then we can get busy court-martialing the generals and impeaching the sickening excuse for a man now occupying the Oval Office.

As expected, Bush repeatedly set up the coming invasion of Iran. "And we do not forget...Syria, Burma, Zimbabwe, North Korea and Iran because the demands of justice, and the peace of this world, require their freedom as well."

Bush did settle the question as to who gets to start the festivities in Iran when he claimed that "Iran...sponsors terrorists in the Palestinian territories and in Lebanon, and that must come to an end. The Iranian government is defying the world with its nuclear ambitions, and the nations of the world must not permit the Iranian regime to gain nuclear weapons." Did you just hear him invite Israel to bomb the hell out of Iran? I did. Guess who gets to go in afterward and do the dirty work? Right. Your kids and mine. Have you picked out your son's burial plot yet?

At least Bush honestly drew the battle line when he said, "And one of the main sources of reaction and opposition is radical Islam." I've said it before and I'll say it again: This is not a war on "terrorism", it is a war on Islam, blood enemy of Israel and its bullyboy, the United States of America.

Bush's true allegiance became clear when, later in the speech, he demanded that "the leaders of (Palestine's ruling party) Hamas must recognize Israel, disarm, reject terrorism and work for lasting peace." Remember that Palestinian children are the ones lobbing rocks at the Israeli tanks rolling through their neighborhoods and who are getting shot in the head by Israeli snipers as punishment for their meager efforts to protect their sisters and brothers. Remember that it was Rachel Corrie, peace activist, who was run down and brutally murdered by an Israeli tank on Palestinian soil where she stood up for the right of Palestinians simply to exist.

And, what's this about Zimbabwe (*nee* Rhodesia)? We're going to invade Zimbabwe? Yeah, right. That'll be the day when we do anything to support the rights of downtrodden Whites anywhere in the world.

Once a year, at about this time, the President delivers the State of the Union address. Tomorrow is

Groundhog Day. Many people have gotten these two events mixed up in their minds, which is understandable. As someone over at Air America Radio once pointed out: "It is an ironic juxtaposition of events: one involves a meaningless ritual in which we look to a creature of little intelligence for prognostication while the other involves a groundhog."

More important than anything Bush had to say was the fact that Samuel Alito was confirmed and sworn in yesterday as America's newest Supreme Court Justice. Alito was on hand last night to pay homage to his Fuhrer, along with the other new shill in black robes, Chief Justice Roberts, who demonstrated admirable restraint by eschewing those ridiculous stripes that Rehnquist affected near the end of his tenure.

The staged diversion this past week with Alito's confirmation hearings was the abortion "issue". (I call it a diversion because, at the Federal level, it shouldn't even be an issue, since the now-discarded U.S. *Constitution* reserves such questions for States to decide). What got neglected in the Alito hearings was the vitally significant point that his is the fifth vote to be added to the Supreme Court which can be counted upon always to support the most expansive view of Presidential power possible.

Already irrelevant, the U.S. Supreme Court has gone beyond merely rubber-stamping the Administration and now will be its direct extension. Long ago, our congressmen got bought off by the same Neocons who pick all the presidential candidates. That was before Zionists acquired the designation of Neocon, which itself also is a diversion, incidentally. Therefore, we now have a single branch of government, operating unhindered by a *Constitution* or, even, its own laws. A branch run exclusively by the same old gang: Zionist world bankers.

Of course, America shifted to a single-party system (with Democrat and Republican wings) quite a while ago—that's why so few vote anymore. Not that voting matters, anyway, since it conclusively has been proven that rampant voter fraud occurs even with the hand-picked candidates who are allowed to run for office at every level in America.

All that was missing from Bush's speech last night was a rousing chorus of "*Ein volk! Ein reich! Ein Fuhrer!*"

Here is something that should send a chill down the spines of all who consider themselves to be either liberal or conservative, Democrat or Republican: I regularly see satisfaction expressed on many hard-core, Nazi skinhead Internet forums with the progression of America ever deeper into fascism. Why should this bother you? Because they say, "Good. Now, when we come to power, the mechanisms already will be there to implement our agenda." Think about that for a moment.

Bush actually thinks he is doing good, believe it or not—God's work, actually. That's how he can justify the means he erects to accomplish his ends. The problem with means is that they tend to outlast the ends.

Let me repeat that last phrase for you Bush supporters. It is the reality upon which the Nazi wannabes hang their hopes, you know. Even ignoring all concern for fairness or justice, it is key to understanding just why one must never allow ends to justify means. The problem with means is that they tend to outlast the ends. And you can quote me on that.

One could argue quite convincingly that Abraham Lincoln was the first real tyrant to expand Presidential powers and that it was he who left the means lying around to be abused today. If so, then Franklin Roosevelt deserves a healthy dose of credit for expanding them well beyond Lincoln. Bush, however, has shown

both Lincoln and Roosevelt to have been pikers.

Only insiders dared think of Roosevelt as vindictive and only Southerners viewed Lincoln as evil, while neither were viewed as being intellectually deficient. The vast majority of Americans today, however, agree that George W. Bush is both venal and stupid.

Perhaps the most telling moment of the President's speech came before it began, when antiwar activist Cindy Sheehan, the officially invited and legitimate guest of a Democrat congressman, was arrested in the entryway and hauled away in cuffs. Why? Because she has been a steadfast Bush critic, a thorn in his side. She officially is a "dissenter", which now is a crime in America. Very good, boys and girls. Yes, that is right. It is a pure thought crime!

Ms. Sheehan's treatment was explained during Bush's speech when he said, "there is a difference between responsible criticism that aims for success, and defeatism...second-guessing is not a strategy." At least, not a strategy designed to keep you out of jail in America. How odd that, a few minutes later, Bush added, "liberty is the right and hope of all humanity." Remember the last Attorney General's caution that we all "watch what (we) say?" Still think we have free speech? Think again...but, keep it to yourself if you expect to keep your "right" to liberty.

And you can bet that Cindy Sheehan had to take the bus to Washington, DC, because all who publicly disagree with this Administration are being placed on the TSA "No-Fly" List and thus turned away at all of America's airline departure gates. The "No-Fly" List was started after 9-11 with a few hundred names, but has since swelled to over 80,000 Americans. No, they won't tell you if your name is on the list. You find out only if you show up, luggage in hand and plans made. Guess whether I am on that list.

Bush demanded that Congress "reauthorize the *Patriot Act*", without even mentioning the dictatorial powers contained within *Patriot Act II*, then he admitted that he had authorized all those illegal NSA wiretaps since first he was sworn in. Then came the most blatant lie of the evening: Bush said that "appropriate members of Congress" had been notified of those wiretaps in advance. This, of course, already has been denied by members of Congress.

Not a mention of the secret prisons, the torture, the many violations of both the *Constitution* (that "damned piece of paper") and statutory law or so much else that has been wrong with this Presidency, of course.

Then Bush turned to the domestic front. The lies and misrepresentations came so fast and furious that I was unable to take comprehensive notes, but they all boiled down to: We're going to cut taxes and increase spending, all while we cut the deficit in half during the balance of Bush's term in office. The only thing missing was a miracle involving fishes and loaves.

The Democrats' response was given by Virginia's new governor, who amiably trotted out a host of platitudes, all of which added up to one thing: increase spending even more than Bush has promised.

Clearly, a new day is dawning. The Beginning of the End of America is over. So is the Middle. Now comes the End of the End. Make no mistake. This is the Crack of Doom.

Homeland Security just let another of those massive, no-bid contracts to Halliburton, the company that still pays a salary to Dick Cheney, believe it or not—this time to upgrade and maintain those nonexistent detention camps scattered throughout the rural areas of America. Thus, another urban myth becomes reality.

And it has been leaked that, very soon now, Homeland Security will be going through all bank safety deposit boxes and inventorying their contents. Tomorrow is when you should go empty yours. Not the next day. Tomorrow!

As watchers of this space know full well, gold and other precious metals suddenly are doing their classic pre-World-War run-up. When we go into Iran, which both Russia and China deem to be within their strategic spheres of influence, truly World War III will start. But, what choice do we have? Otherwise, in March the dollar crashes due to establishment of the independent Iranian oil bourse (marketplace) where all the world's oil will, for the first time, be obtainable by presenting something other than dollar bills. If all those overseas dollars then come marching home, you know what happens and our masters,

ever conscious of their personal wealth and indifferent to our lot, simply cannot allow that to happen. So what if your son dies in the process? No skin off their noses.

Finally, Bush also stated last night that "the United States of America supports democratic reform across the broader Middle East." Unlike so many, I actually think that is terrific news. If we can make democracy work elsewhere, then there is a chance, however slim, that someday we might actually give it a try here in America!

Moving On

Manila, Philippines

RE: WE WILL KEEP MAKING AN EFFORT TO SHARE WHAT WE CAN WITHOUT ATTACK OR CONFRONTATIONS. GCH BY-LINE WILL SHOW UP MORE AND MORE FREQUENTLY—GCH/d

* * *

INTERJECTING PRESENCE
(PRESENTING PRESENTS?)

To you who would tear down whatever is offered to your curious eyes and ears let me state right here that we will in no way play your silly games other than to possibly tell a truth where a lie exists. We are moving on and I will state right up top here that we are moving on without any connection, at this point certainly, to a debated holding in Global Alliance so VK and her minions can take some R&R.

Moreover, we are prepared to go directly to the U.S. Embassy in Manila to gain assistance in our holdings IN THE PHILIPPINES.

We would assume that not to be too difficult a task of recognition of our position as to participation in holdings IN THE BANGKO SENTRAL (DO NOT CONFUSE WITH CENTRAL BANK). Our "Foundation" holdings are SUPPOSED TO BE IN THE VAULT-ROOMS (YES THE HOLDINGS ARE "THAT" LARGE) OF THE OLD CENTRAL BANK PRIOR TO THE BANK'S RECONSTRUCTION IN OR ABOUT 1993 TO BURY THE GOLD, STEAL IT AND SHIP IT OUT.

I have NOT said here that I shall intervene nor have I indicated interference. I have very deliberately stated "interjection". I SHALL PARTICIPATE WHERE APPROPRIATE AND ALL SPECULATORS CAN SPECULATE UNTIL DOOM'S DAY OVER WHAT IT MIGHT INDICATE.

Would any citizen following along the world's trip of remote viewing doubt that there is a George Bush acting as something called President of the U.S.? Well, HOW DO YOU "KNOW"?

When "I" play in the game my people KNOW IT and that is certainly sufficient to our needs, friends. Your choices and opinions are your own or they are expressions of another's opinions. Our task is to get something accomplished on a scale large enough to give impact to an out-of-control civilization destroying itself. I believe that I play the game well enough and have proven trustworthy enough to overlook most of the objections of our adversaries.

I do not wish to bring any major discomfort to anyone nor do I wish to start some "bang-bang" "false

Patriots" tripping over their fingers or tongues. TRUTH is registered and legally secured. Check it out if you are uncomfortable with my presentations and in that same mode of curiosity—please COMPARE representations. I have no more interest in the matter except as it distracts from our ongoing service to progressive and righteous movement forward.

It is noted that about the most serious thing to happen to you sweethearts of the war games, you are now in deep, deep trouble. Palestine will rise now and come against those considered oppressors, Israel. It is going to get more and more insanely foolish and frankly, USA: YOU CANNOT FIGHT SUCH A MAJOR WAR FOR YOU HAVE DISSIPATED BOTH FORCE AND BACKUP. This is NOT "revelation" for it is plastered all over every news bulletin you will find anywhere. And NO, we will NOT serve either party to such atrocities and we will NOT serve any group who remotely suggests of "terrorism".

We will do FAIR AND HONORABLE BUSINESS along with progressive projects of survival, then thriving, growth and prosperity.

I'm sorry, U.S., but the wars will now come to your country for you are TRULY now recognized as the "New Israel" of Satan. I DID NOT MAKE THIS CALL AND YET IT CERTAINLY HAS EVOLVED INTO THE FACT OF PRESENTATION.

Am I saying here that we don't need the Global Alliance assets AT THIS TIME? YES INDEED. We will only use those holdings as reserve support for later growth in a most subtle way that removes the very THREAT of abuse and misuse from potential grab and snatch.

We will, if appropriate, use our assets in what is recognized, but is not our choice of label, "GAIA" to HOLD SECURE THE VACANT HOLES FROM WHICH GOLD WAS STOLEN IF IT BECOMES NECESSARY. IT IS, BY THE WAY, THE ONLY "SECURITY" THE U.S.A. WILL HAVE AGAINST WHICH TO KEEP FROM COLLAPSE FROM ITS OWN MISADVENTURES. "THAT" IS REVELATION AND "PROMISE"; NEVER MIND SPECULATION. WHEN GOD MAKES A PLAN, IT IS USUALLY A DANDY AND CREATIVE PROGRAM OF SUCH MASSIVE IMPACT AS TO BE QUITE IMPRESSIVE TO THOSE WHO STAY THE COURSE. THIS IS NEITHER A "FIRST CONTACT" OF ANY KIND NOR IS IT A "FREE FOR NOTHING" PROGRAM AND IT CERTAINLY IS NOT SOME PSYCHIC PRATTLING.

TO YOU ON MY TEAM, THIS IS A GOOD DAY TO REMEMBER EVEN THOUGH NOTHING "NEW" IS AFOOT BUT THERE WILL BE ONE MORE TOOL IN THE KIT AND ONE

MORE STEP ON THE PATHWAY. YOU DO NOT NEED SPECULATE OR LOAD US WITH QUESTIONS, FOR “YOUR” TIME IS SHORT TO ACCOMPLISH WHAT MUST BE DONE AND IT REQUIRES SO MUCH MORTAL TIME AS TO SHOCK AND AWE EVEN THE ANGELS OF LIGHT.

God will not go about “feeding” the masses but HE WILL MAKE SURE we give the masses what they need to grow and feed selves. Charity is wondrous but welfare is the most destructive one shackle ever foisted off onto slave or freeman.

CONTRACTS AND ANTICIPATORY AGREEMENTS

This afternoon our team hopes to have put together a working draft of one of the largest “contracts” yet brought forth and it will be use of holdings that had BEST BE IN THAT BANK!

The people/country with which we will shake hands is strong enough for your typical shock and awe and is a good business buddy of ye U.S.A. “controllers” so is nice and clean, clear and SAFE. Furthermore, it is “rich enough” to never bat an eye as to ability to carry through. In addition, our team remains secure because this will be accomplished through “other” than our singular signatures and agreements. HOWEVER, we will continue to hold the very important slot with being able to bring pressure on the crooks right through our connections as our people, who are CITIZENS involved in business of the United States of America. Moreover, thanks to VKD, our records have been investigated and NOT found lacking by such as INTERPOL, CIA, AND YES, EVEN THAT WONDROUS MOSSAD.

Is it dangerous? Yes, and possibly more than ever but we maintain our attention; Fingers remains rather isolated and we shall not be silenced. DO NOT PUSH THE RIVER but enjoy that the paddling may well seem a bit more easily mixed with “drifting” with the tide. Protection comes from “right actions” where open books provide the best shields.

The country in point is, however, not a friend to the Philippines Administration in power but it will have nothing to do with us. The strains are already present along with the displeasures evident from the U.S. at this time. The head of state of the country here in point has refused to even host a visit from this President. They are not, however, foolish enough to cross the U.S. because of the life-blood flowing through the veins of a world gone mad.

SPEAKING OF GOLD AS ABOVE

We have to look at REALITY OF MORTAL GRAFT AND CORRUPTION. What the Central Banks of the globe have done is strip their own coffers for the GAMES of the BANKERS’ crimes.

The Banks and Brokers borrowed or LEASED gold from these nations’ central banks and then some of them even stopped the lease payments or paid off the “Administration” Elite. Then, they did the worst—THEY SOLD THE GOLD!

The major players in the Philippines have not been ABLE to siphon off ALL of the Gold belonging to the Foundation and “some” is “enough” to get our ship under way for remember we are talking a “starting” amount of over 617,000 metric tons as established in final orders by the courts of law and annotated by the very “mother” U.S. So, if we have to hold securities from GAIA to get BACK the commodity missing—SO BE IT AND MAY GOD JUST CONTINUE TO BLESS YOU ALL.

This in turn assures us the ability to start up a

bullion bank which is already under charter with dancing managers itching at the harness.

We will also then be able to move on to facilities based on purely non-interest service banking and put it in every bank around and let the people make their choices of where they do business. It may well not take as long as you might think relative to our other overwhelming journey to “here”.

PROJECTS OF PROMISE

Our visitor will remain somewhat protected by non-disclosure here at this time. However, it must be noted that just in the introduction some of those who CLAIMED to be on “our team” have already been annoying him with constant calls and “deals”. He was so bombarded by would-be “dealers” as to bewilder him. How good to be on the right side and have it proven in one fell swoop of first my warning, identification of the culprit—before the fact—and full bombardment for “secret”, clandestine meetings and “bargains”. STAY ALERT AND DON’T TAKE ANY CANDY FROM STRANGERS!

We brought in our project people for the major biomass—and thus, irrigation—program we have been working with here for months. This presented with the potential of the Sudan and India makeover was a joy to the very heart of GOD. By the end of the afternoon they had plans for harnessing the whole of the wondrous NILE(S) AND PEOPLE; THE DESERTS WILL NOT ONLY BLOOM BUT BECOME GARDENS OF PROSPERITY AND ABUNDANCE.

And no, I would guess that Mr. Quatloos might well NOT believe this. It is all the better to disbelieve us for we do NOT want any further annoyance from the silly crowd.

Those who left us with hurt and pain might well find that it might have been an error to join all those bandwagons going all directions.

Now to my private team who struggles daily in the pits of, often, despair—cheer up. Our plan had been—from first parking in this place—to have it running well and potentially somewhat integrated by the end of ten years (that old decade reference). Therefore, we are a bit ahead of the schedule in many ways.

Life will offer great impacts against us yet, but we have established the lawful FOUNDATION of our program and even “dragging” lawyers and feet of injustice should not be able to maintain their instability much longer. HOWEVER, we were not prepared to actually move into function until now so let us count blessings instead of set-backs of which you will note fewer with a few more strides forward without back-slippage. The delays, moreover, give us better management “know-how” through experiences come before and weeding out of the criminal elements entering along the way very early on. Sorting is a tedious and painful process but must never slow your ability to move right on past the impact of any “moment”. You will actually see that that which came before mostly gives you freedom you could never have anticipated without the experience of the interchanges themselves. Responsibility is one thing; FALSE RESPONSIBILITY helps NO ONE! These are points to ponder carefully as you take a bit of “time” to think on these things.

This may well seem to be just another support message. To each your own interpretation but to my team it is a day of celebration.

Thank you for a job well done.

Bolivia and Other Places

‘The world is ready for
CHANGE ... ’

RE: KEEP RIGHT ON EXPANDING FOR THE
WORLD IS OUR “OYSTER”—GCH/d

BIGGER AND BROADER THOUGHTS PROCESSING

I realize it has been such a struggle that sometimes the visions bog as the eyes fog over from the confrontations and intentional barricades against progress in our “impossible” dream.

No, the dream is no longer a “dream” but a true vision of possibilities unlimited. On that matter perhaps I can help your grasping of some that would elude you as potentials while seemingly locked in shackles meant to “contain” us.

No, we are opening new avenues and there is no longer need to wait for final resolutions in one, say, nation other than another.

We have PROVEN-UP on our holdings and now must dare to step out again into the glare of LIGHTS but with discerning discretion.

I did ask dharma to sit for me again this morning for I “bonked” her on the head about “Bolivia” and she quickly tried the old “turn off the spigot” routine in order to not get more than our team can “hold”.

Haffiz is one of the most valuable participants you are going to find for he can function AROUND THE GLOBE with presentation and authority of presence itself. Let us not get ourselves isolated into the Philippines or any other limitation. We don’t even need to consider the U.S. limitations any longer.

We will, however, abide by the very limitations about domestic exchange WITHIN the “domestic” U.S.A. and “bag-it”. That can unfold in its properly diminished way while our adversaries take over final control of that once great and Godly nation. Never mind the weeping for we have that which we need in order to QUIETLY move about the globe securely and with such programs as to secure the projects as well as our people.

I want, while the irons are hot, TO GET WORD OF OUR PROGRAM TO BOLIVIA’S EVO MORALES.

We can do more there than meets the eye at first glance for we do not need to even dip into the assets accrued by GAIA as we can take the \$55 T set aside in the Cosmos holdings.

Since all will be backed by GOLD, present or missing at the time, it matters not a whit but could establish the very supporting substance of better proving-up on that Peruvian documentation into CSEML. It will seem ever so much “closer to home” than distant Asia. And, I repeat: THE GOLD CAN COME RIGHT OUT OF THE CENTRAL BANK IN MANILA TO BACK ALL WE NEED TO HAVE. Creative programs, all within every law, can

be set forth in a matter of hours.

I have to continue to require that “Ekkers” remain out of the loops, out of the travel schedules and keep NO PROFILE. This will protect every one and every thing. It won’t take long to get things moving along as the realization of what GOD has offered here is validated and a few daring leaders take control.

You can either win against the bankers of global fraud or you can succumb to fear and trepidation over your position.

Is this too big to actually involve YOU? Why would you ask? You are here and have proven what we hold and now there are many of you who can do the job of spreading it appropriately and get a very large scatter. We do not need touch any place or person of questionable position—the world is our oyster—so to speak.

There will be so many qualified and superbly trained individuals to take up our work and attend our records as to be shocking. We will go with WORKERS and avoid manipulators and self-grabbers AT ALL TIMES. Greed and corruption are going to be of the PAST.

You may well be really surprised at how easy it is to get to the heart and head of Bolivia so a bit of brainstorming might well be a valuable “time spent”.

The world is ready for CHANGE and some are taking the opportunity to say NO MORE! Just as with Sudan where you CAN get control of the monetary circumstances in the Central Bank—go for the nations that can change with the daring adventures of replacing their government leeches.

Get Bolivia or any other nation “over there” and you will capture the continents. The world is truly quite sick and tired of the International Bankers who have destroyed the late, great planet Earth.

You do not need the biggest army or nuclear bombs to win this underlying war through mass destruction. You need truth, honor and integrity. The big boys will shoot themselves with their nasty toys.

Where they have dumped their depopulation plans in full force upon the most pitiful masses, we shall offer solutions and jobs. IT WILL BE A JOY UNTO THE VERY AGES OF MANKIND.

“Reserves” will be what is DECLARED TO BE RESERVES against which to base money. Moreover, when we back it with commodity shared, it becomes without question, THE VALUE.

Let us not get faint in our challenge for the WORD OF GOD is greater than all forces combined. When we finally come to KNOW this truth and FACT, so too shall we move in strength and honor to lift our fellow man from the pits where the puppet masters have cast him aside. Let us change the quality, please, of the garbage dumps! Then we will turn the garbage dumps into FUEL for our engines.

This is short; this is enough. Let your MIND expand and gather some exercise along the way. Some more worldly experienced people will have ever so much more objective observations to offer and serve. You will never have witnessed the most potent virus spreading like the very plan of freedom when loosed upon the people of God’s world.

The masses so far out-measure the manipulators and Elite adversaries as to ultimately make you ashamed of your dalliance along the “terrorist’s” fabrications. Take a deep breath and dive in for you will find you swim far better than you ever thought you could.

What I’ve Learned About U.S. Foreign Policy The War Against the Third World Part Three

SEGMENT #6: Phil Agee
Former CIA Case Officer Philip Agee
A video compilation by Frank Dorrel
<AddictedToWar.com/Dorrel.htm>

This talk was given in 1991 following the first Gulf war in Iraq:

“Well, we all know don’t we, the reasons why the U.S. intervened in the Gulf the way that we did. In the end, killing between 100,000 and 200,000 Iraq’s as opposed to 303, I think, Americans killed either in combat or combat related accidents. And we certainly have restored to power the legitimate authority in Kuwait. In fact, we’ve done it applying that age-old, all-American political principle of one man, one vote. In this case one man, the emir, one vote, his.

“We heard Bush back in August didn’t we, at the very beginning saying that our way of life was at stake, that we had to do something about that invasion of Kuwait. We also heard didn’t we, besides our way of life being at stake we had to intervene to protect the access to the energy resources of the Persian Gulf? Another one was that we had to stop naked aggression.

“What we did not get are alternative interpretations of the events that occurred. And that’s what I want to speak about here tonight. It’s my opinion that the United States needed an international crisis, an international threat to replace the crisis in Europe that largely disappeared with the collapse of the communism and the chaos in the Soviet Union. Why? In order to keep the permanent war economy going to justify continuing the situation where well more than 50% of the federal budget goes to military purposes. Well, this means that the military expenditures in the United States are the motor of the U.S. economy and they have been that since about 1950.

“It’s worth reviewing this history because that’s where this crisis I think, comes from, this sought-for, needed crisis. In early 1950 there was extreme worry at the highest levels of the Truman administration that the U.S. was likely to return to the conditions of the Great Depression of the 1930s. And so early in 1950 the decision was taken that this domestic economic problem was going to be solved through militarism, that is, through rearmament in the United States and through U.S. financing of the rearmament of Western Europe, particularly Western Germany.

“The document which provides the analysis of the world at that time and the U.S. place in the world and the internal situation in the United States was top secret for 25 years. In 1975 it was accidentally or through error released and published. It was known as NSC68, NSC standing for National Security Council. It was written by Paul Nitze. And it is a very detailed document. The main operative conclusion though was this. This is a quote from the document: ‘The United States and other free nations will within a period of a few years at most, experience a decline

in economic activity of serious proportions unless more positive governmental programs are developed.’ Well, the solution adopted to those more positive governmental programs was expansion of the military.

“But Truman could not get this program through congress at first. There was opposition there and public opposition to the enormous new taxes that this program would require. He went on national radio, declared a state of national emergency and said what Bush’s remarks about our way of life being at stake reminded me of. He mustered all the hype and emotion he could and Truman said, among other things, he said ‘Our homes, our nation, all the things that we believe in are in great danger. This danger has been created by the rulers of the Soviet Union.’ In his speech he also called for massive increases in military spending for U.S. and European forces quite apart from the needs in Korea.

“Well, there was no threat from the Soviet Union. They were still rebuilding from the rubble of World War II in which they had lost 20 million people. They were no threat but they were manufactured from 1950 on, from the time of Korea on, as a grave threat to the United States. And that became the justification for this program which Truman, through manipulation of the Korean War, had been able finally to get through Congress. The result was that in the first two years, that is the two years between 1950 and 1952, the U.S. military budget more than tripled from 13 billion dollars in 1950 to 44 billion dollars in 1952. And during the same two-year period U.S. military forces doubled to 3.6 million people under arms.

“This was the beginning of the permanent war economy in the United States. The Korean War, by the way, went on for 3 more years after it could have ended. In the end 34,000 U.S. were dead, more or less, more than 100,000 wounded and the total casualty count was in the millions. It is worth recalling that because from 1950 on the Soviet threat was the justification for the permanent war economy and the justification for these enormous military expenditures.

“What does that mean as far as the U.S. is concerned? Well it means that we have not addressed or begun to solve the many domestic crises that we all know exists. There is no need to go through this litany of the worst educational system in the developed world; one in three in this country illiterate either totally or to the degree that they can not function in a society based on the written word. Healthcare, not just the cost but the fact that 40 million people in this country have no health insurance. The only developed country in the world with no national health plan. And on and on. The fact that only about 60%, about two-thirds of the eligible voters register to vote and of those who register, only about 80% actually vote. So only in the end 50% of the eligible voters vote in national elections in this country and that means that a president is elected with around 24% - 25% of the potential vote.

“The litany goes on. The environment, the

infrastructure, finding a prevention and cure for aids, the violence we see everywhere and in every form in the United States.

“When you put all these things together, and drugs of course, I don’t think anyone would argue that we have a domestic society in profound crisis and the reason why over all these years these crises have not been solved is, in my opinion, because those who really control and rule the United States don’t want them solved. Imagine what would happen if we had an informed electorate; if we didn’t have the worst educational system; if we had a negligible perhaps illiteracy rate here? There might be an informed electorate. We might be debating real substantive issues in the electoral process or in the political process in the United States. There might be a threat in this country of real democracy if we solved the domestic crises in this country. People might clamor to participate if there was a real debate. There might be a threat of a third party, I mean a second party in the United States.

“There are all kinds of threats to elitists’ control of the U.S. if we were to solve these domestic crises, in my opinion. And it is for this reason that we have always needed this foreign threat and this foreign crises in order to justify putting the money into military expenditures instead of converting the economy, once and for all, to human purposes.

“During those 40 odd years of the Cold War the CIA has been a very important factor or tool or instrument of the President of the United States in waging what is continuing today. This new world order of George Bush or new international order seems to me to be nothing more really, then the institutionalization of the north-south dimension of the old cold war; that is the war against the third world for control of their natural resources, their labor and their markets. That is where the fighting really took place, as in Vietnam. This north-south dimension of the cold war, the war against the third world continues today as we sit here with all its racist content.

“And we and our allies, that is the U.S. and its allies, are just as dependant, if not more on the resources of these countries in the third world as they ever were. And that dependency is not going to disappear. It’s going to keep on growing through the years. So what I think Bush has in mind is through this Persian Gulf crisis, to send a message to any aspiring third world leader that third world radical nationalism will not be tolerated. It is a way; in which, in fact, we are beginning to treat the third world or continuing to treat the third world like we treat third world people right here in the United States. They know their place, they have a role to perform and they are expected to do it. If they don’t, if they make trouble, they’re going to be smashed. That is what happened, of course, with Iraq.

“I believe that Bush encouraged the Hussein administration and Saddam Hussein himself; to believe they could get away with taking over Kuwait with impunity. And there are many signs that point in this direction. Iraq never really formerly recognized the independence of Kuwait. They have always claimed that Kuwait was part of Iraq taken away by British imperialism, which is indeed the case. Last April, Assistant Secretary of State John Kelly testified before Congress that the U.S. had no commitment to defend Kuwait. On July 25th the U.S. ambassador to Iraq, April Glasspie meets with Hussein. Among other things, the U.S. ambassador says to Hussein, “Mr. President, I have a direct instruction from Secretary of State Baker to emphasize to you that the U.S. has quote, unquote ‘no opinion on your disputes with Kuwait, particularly your boarder disputes with Kuwait.’” She also said I have instructions from President Bush to seek better relations with Iraq. President Hussein in response in several places says that what Kuwait is doing through it’s over production is the equivalent to war against Iraq. They are destroying the Iraqi economy he said and we are going to take strong action. He as much as said they were going to war. Well, in this meeting with those 100,000 troops on the border, not one word from the U.S. Ambassador of warning to Hussein not to invade.

“Well put all those things together and you have to ask yourself the question, why did the Bush administration do nothing during that last week between the Ambassador’s meeting with Hussein and the invasion itself, to prevent that invasion? They knew those 100,000 troops were there. But not one word from Glasspie to Hussein about it. My conclusion is that they wanted the invasion; that this was the site selected for the new international crisis that would justify continuation of the war economy in the United States. It was totally avoidable objectively speaking, but because of the tradition in the U.S., after all we are a warrior culture, we do still live in the age of imperialism and the demands of this system require this crisis.

“I go back to the CIA, for just a moment, because its worth recalling that the agency, from the very beginning in the 1940s, was used not only to collect intelligence from around the world, process it and present it to policy makers like the president for their decisions, to help them in their decisions, obviously that’s what an intelligence service should do. But the CIA was used all through these years to subvert the democratic processes of other countries. At the very first meeting of the National Security Council which was set up in the same law that established the CIA as the national intelligence service. This was October of 1947, one month after Truman signed this bill into law establishing the CIA and the National Security Council as the highest policy making body in national security and foreign affairs. At their very first meeting in October 1947 the decision was taken to set aside ten million dollars for the CIA to intervene secretly in the Italian elections coming up about six months later. The CIA was not just used in these electoral operations, you know the media operations were vast and I’m sure they still are. Media operations basically means that the CIA pays a foreign journalist to publish the CIA’s material as if it were the journalist’s own.

“There were CIA interventions of all sorts. But one area I want to mention of special importance are what are known as liaison operations. Liaison operations are all those activities that the CIA undertakes with the intelligence and security services of other countries. Early on the CIA began to set up security and intelligence services in other countries for purposes of internal security. One of the first places was Greece. There was a civil war you know in Greece from 1947 to 1949. The U.S. intervened on the side of the far right in Greece and the U.S. side won. In the aftermath the CIA set up a security service known as the KYP, KYP being the Greek initials for CIA. They gave it the same name. This security service was used to keep the far right in power in Greece for nearly 20 years. But when that power was threatened with upcoming elections in 1967 the CIA and this service, this KYP, organized a military coup in Greece which was successful leading to seven years of military dictatorship in Greece of neo-fascist stripe. During that period torture became an institution in Greece. Thousands of Greeks were forced into exile.

“I could give you many, many examples of this. In Iran for example in 1953 the CIA undermined the democratically elected civil government of the day of Mohammed Mossadegh, overthrew that government, installed the Shah as military dictator and in the aftermath set up the service called the SAVACK. This service over the 25 years of the Shah’s regime became famous for its torture chambers and its assassinations of the Shah’s political opponents.

“In 1954 the U.S., the CIA, intervenes in Guatemala, undermines the civilian government, the government is overthrown and from 1954 on Guatemala has had one succession of military rulers after another, military dictatorship. In the aftermath of this operation in 1954 the CIA set up an internal security service and then others. But from these services, set up and supported by the CIA all through the years came the death squads. In other words the services established by the CIA then spawned these death squads in Guatemala. The very same thing in El Salvador. You can be as sure as you are of your own name that for the last 10 or 11 years the CIA has been working in there day and night with those Salvadorian

security services and military, collecting information, giving it to those services which in turn are the same things as the death squads. Information on activists in the human rights field, the student leadership, the trade unions and so forth and those have constituted the 75,000 or so people who have been murdered over 10 or 11 years in El Salvador. Disappeared, many of them others tortured to death, their bodies thrown on along the sides of the roads. Nobody knows how many have been killed in Guatemala by the military regimes started by the CIA. Some say 100,000, some say 125,000, some say 150,000. Who knows? Nobody will ever really know the exact number who’ve been killed.

“But you multiply this around the world, because I am only mentioning a couple of examples of these CIA operations. There have been now 44 years of this and they have existed all around the world. And put those operations together with the overt military interventions and the enormous cost in human life of those such as Grenada, Panama, Iraq, Vietnam, for example, all of those and you get the picture of this expansionist extremely aggressive U.S. foreign policy.

“While I don’t think it’s enough really to describe what the CIA does or U.S. foreign policy in general. It’s also necessary to ask a couple of questions. And going back to the Gulf for just a moment, consider this analysis of what really happened in the Gulf. You know that the U.S. has been exporting war materials for decades, beginning right around 1950 with the document I mentioned earlier. Tanks, guns of every sort, weapons, planes, ships and military equipment of every sort. Well, with a national debt of 3 and a half trillion dollars in this country, \$800 billion of it owned by foreigners. For handling of the debt, it seems that it was only a matter of time before the U.S. armed forces were sent abroad as one more export, because what we did in the Persian Gulf crisis was to send abroad that enormous amount of military hardware, but this time we also exported the people to operate it. It was armed forces sent abroad to protect the resources and the regimes, these family dictatorships of the sheikdoms of the Persian Gulf.

“What we did in fact was what we in the United States do the best. We made war and we were financed in this exercise by the people who make things that people around the world want; cars, VCRs and so forth, financed mainly by the Japanese and the Germans. And that puts the United States, as it’s going to have a permanent presence in the Persian Gulf in a very strong position *vis-a-vis* the Japanese and the Germans, who are not there militarily and they are going to depend to a great degree for their energy resources, at least from that region on U.S. policy. That is why they went along with the war.

“That is an interpretation of the Gulf crisis and the other question that I wanted to raise is why we do these things as a country? Why we do these as a society, as a nation? Why do we do these grizzly things abroad? I believe strongly that until we have fundamental change in the United States domestically, in the domestic system, until we have some kind of real democracy in this country, participatory democracy, where people have a say and where we end the re-election of the 95% to 97% of incumbents at every election, where there is a real political debate, until we change the domestic system were going to have elitist control of the United States, were going to have these foreign adventures and the grizzly things, as I mentioned, that the CIA does abroad. So the real problem is here at home in changing the domestic system, in bringing about a conversion of the economy to human purposes, solving the domestic crisis and getting the people out of office who are in there to back a continuation of the permanent war economy.”

Philip Agee spent 13 years as a case officer in the CIA, resigning in 1969. His book *Inside the Company: CIA Diary* was first published in 1975, has been translated into 27 languages and was a best seller worldwide. His autobiography *On The Run* was published in 1987.

World News Insights

In this issue there is only room to summarize two of the latest very important writings from Sorch Faal of <WhatDoesItMean.com>. We begin with the January 25, 2006 report entitled "President Putin Orders Russian 'Doomsday Bunkers' In Ural Mountains To Prepare For International Crisis As Catastrophic Cold And Ozone Hole Hit European Continent", which begins with the powerful statement:

"For only the second time in our Modern History a Russian Leader has issued an order for the preparation of our Motherland's Doomsday Bunkers in the Ural Mountains to prepare for a catastrophic 'event', FSB reports are saying today."

Near the end of the report these facilities are described:

"To our Motherland's protective underground cities we are not allowed by our laws to mention from FSB reports, but are allowed to mention what has been previously reported in the Western Media, and which one such report states:

"Starting in the Brezhnev period, Russia has been pursuing construction of a massive underground facility at Yamantau Mountain and the city of Mezghorye (formerly the settlements of Beloretsk-15 and Beloretsk-16). Russia's 1997 federal budget lists the project as a closed territory containing installations of the Ministry of Defense. On April 16, 1996, the *New York Times* reported on a mysterious military base being constructed in Russia: 'In a secret project reminiscent of the chilliest days of the Cold War, Russia is building a mammoth underground military complex in the Ural Mountains, Western officials and Russian witnesses say. Hidden inside Yamantau mountain in the Beloretsk area of the southern Urals, the project involved the creation of a huge complex, served by a railroad, a highway, and thousands of workers.'"

According to Sorch Faal, "... Global Weather Systems continue their unprecedented breakdown due to the ever increasing Cosmic Blasts assaulting our planet," and she cites numerous news reports which make the following points (and you only knew about the record hurricane season in the U.S.):

- *The World Meteorological Society says 'In 2005 abnormal temperatures were registered in many areas of the globe', including 'strong heatwaves which descended on a big part of continental Europe and North Africa in July ... the worst drought in Spain and Portugal since the end of the 1940s and floods which devastated parts of Russia and eastern Europe, and then Switzerland, Austria, Germany and the Czech Republic ... a record number of hurricanes hit central America, the United States and the Caribbean ... and an increase in the number of extreme meteorological and climatical phenomena of which some were of an unprecedented intensity.'*
- *Moscow: a "once in fifty years" cold snap.*
- *Germany and Bavaria have experienced their coldest temperatures "in fifty years".*
- *Ukraine: A 'cold anticyclone' (new term?) caused 30 deaths.*
- *Greek airports were closed due to heavy snow and frost on the runways.*
- *Istanbul, Turkey was struck by one of the 'most severe winter storms in years'.*
- *40 people perished in the Baltics 'as one*

capital city shivered in its lowest temperature for half a century'.

- *Over the Netherlands, very cold air in the stratosphere (-86.8C) is said to have caused a hole in the ozone layer.*

- *Increased cloud cover and decreased daylight are associated with increasing intensity and duration of 'cosmic blasts'—hence, 'global warming'.*

Next we turn to the Sorch Faal report of January 25, 2006: "United States Orders Massive Troop Deployments, Changes War Name to 'Long War' As Massive Cosmic Blasts Hit Northern Hemisphere Triggering 200 MPH Winds In America". This report begins with the ominous statement: "Russian Military Analysts are reporting today the United States Military Government has ordered an immediate mass deployment and realignment of their forces in preparation for what many of these analysts believe to be a 'pending' attack upon either the North American Continent, or an attack by American Military Forces in their War-Zones."

She cites the Bulletin of Atomic Scientists in their report titled "U.S. nuclear forces, 2006", which covers 'CONPLAN 8022', "a concept plan for the quick use of nuclear, conventional, or information warfare capabilities to destroy—preemptively, if necessary—"time-urgent targets" anywhere in the world. Defense Secretary Donald Rumsfeld issued an Alert Order in early 2004 that directed the military to put CONPLAN 8022 into effect. As a result, the Bush administration's preemption policy is now operational on long-range bombers, strategic submarines on deterrent patrol, and presumably intercontinental ballistic missiles (ICBMs)."

The article continues:

"Not being told to the American people about these actions by their Military Forces are the underlying reasons, and which have nothing to do with oil or terrorism, but the very survival of the World as we know it now due to the Massive assaults upon our World's Weather Systems, and which sources within the United States Pentagon had released their reporting on, and as we can read as reported by Britain's *Guardian Unlimited News Service* in their article titled 'Key findings of the Pentagon' ..."

The findings include, among other things:

- *By 2007 violent storms smash coastal barriers rendering large parts of the Netherlands uninhabitable. Cities like The Hague are abandoned. In California the delta island levees in the Sacramento river area are breached, disrupting the aqueduct system transporting water from north to south.*
- *Between 2010 and 2020 Europe is hardest hit by climatic change with an average annual temperature drop of 6F. Climate in Britain becomes colder and drier as weather patterns begin to resemble Siberia.*
- *Deaths from war and famine run into the millions until the planet's population is reduced by such an extent the Earth can cope.*
- *Riots and internal conflict tear apart India, South Africa and Indonesia.*
- *Access to water becomes a major battleground. The Nile, Danube and Amazon are all mentioned as being high risk.*
- *A 'significant drop' in the planet's ability to sustain its present population will become apparent over the next 20 years.*

- *Rich areas like the US and Europe would become 'virtual fortresses' to prevent millions of migrants from entering after being forced from land drowned by sea-level rise or no longer able to grow crops. Waves of boatpeople pose significant problems.*

- *Mega-droughts affect the world's major breadbaskets, including America's Midwest, where strong winds bring soil loss.*

- *China's huge population and food demand make it particularly vulnerable. Bangladesh becomes nearly uninhabitable because of a rising sea level, which contaminates the inland water supplies.*

Citing a NASA report of recent Gamma Ray Bursts: "The duration of [GRB 060123] was an incredible 900 seconds"; and referring to GRB 060124A, it was 'one of the longest bursts on record, coincidentally just one day after [GRB 060123]'. Continuing:

"To such power were these Cosmic Blasts that the winds generated by them are reported by the Americans to be in excess of 200 MPH, and as we can read as reported by the *Charlotte Observer News Service* in their January 26th article titled 'Wind gusts to 200 mph in mountains', and which says:

Workers at Grandfather Mountain described "an unreal" scene early Wednesday when record wind gusts of at least 200 mph battered the North Carolina tourist attraction in the northwest mountains. "Our workers who were inside the Visitor Center said it was like a tornado—a whirlwind—inside the building after the windows broke," said Crae Morton, president of Grandfather Mountain and grandson of Hugh Morton, who developed the tourist site.

Morton said staff members don't know exactly how strong the northwest winds really blew late Tuesday night and early Wednesday. The National Weather Service-approved anemometer measures only up to 200 mph. Morton said gusts reached that level several times. He said the staff assumes winds exceeded that mark.

Sorch Faal then cites the Reuters News Service in their article titled "2005 was warmest year on record: NASA" (emphasis added):

Last year was the warmest recorded on Earth's surface, and it was unusually hot in the Arctic, U.S. space agency NASA said on Tuesday. **All five of the hottest years since modern record-keeping began in the 1890s occurred within the last decade**, according to analysis by NASA's Goddard Institute for Space Studies. In descending order, the years with the highest global average annual temperatures were 2005, 1998, 2002, 2003 and 2004, NASA said in a statement. "It's fair to say that it probably is the **warmest since we have modern meteorological records**," said Drew Shindell of the NASA institute in New York City.

"Using indirect measurements that go back farther, I think it's even fair to say that **it's the warmest in the last several thousand years**."

Near the conclusion of this report we find the following summary observation:

"But to the full and complete understanding of these words they can also begin to understand the underlying facts behind the Global AIDS Epidemic, the coming Avian Flu Pandemic, Chemtrails, and many other such 'events' designed for the mass elimination of human life to much more manageable numbers for those who seek to control and direct all human life."

NEVADA CORPORATIONS:

Manifold Benefits Of Keeping A Low Profile

Budget's "Tip of the Week" #9:

Keep a Low Profile

It has been estimated that over 90% of all lawsuits in the entire world are filed in the United States. A medium-sized business is typically involved in a lawsuit per year here and larger corporations are compelled to maintain teams of full-time attorneys to defend themselves. At the other end of the scale, an individual proprietor risks everything to engage in business without a corporate structure and even individuals who are not involved in business are at risk if they have any assets attached to their names. Meanwhile, the law schools keep churning out more attorneys at an increasing rate.

What's the solution? **KEEP A LOW PROFILE.** In business and in our personal lives, too, ideally it would be best to never show up at all on the enemy's "radar". In the game of "getcha" it is always better to present a minimal target profile for the "getcha gang" and the best way to accomplish this feat is very often through the use of Nevada corporate shelters.

In some cases it may be possible to shelter assets and income in a single corporation but when success is achieved and that first corporation starts to take on a higher and more vulnerable profile, it's time for some creative thinking. The first step should always be to **separate assets from potential liability**, so if you have an operating business it is good to ensure that it holds no assets of its own. Often the best solution is to have the operating entity lease its equipment from another, unrelated (by ownership) corporation. The next step could be to consider spinning off the existing business' departments into separate corporations: the marketing department could become a separate marketing company, as an example. Almost all businesses must purchase some goods from outside sources, so why not deal with a friendly supply company, one over which you may exert some control from behind the scenes?

Not only will this approach severely limit the prospects for damage by prospective litigants, it will also, by and large, keep the IRS out of your affairs. Audit rates continue to show (not surprisingly) that the smallest corporations have by far the lowest audit profiles. A corporation with less than \$250,000 in assets had an audit rate of just .28% in the year 2000, while the rate for a corporation with \$1 million in assets was more than **TEN TIMES** as high at 2.90% and the rate for the largest corporations skyrockets to more than ten times that figure at 30.51%.

The key to making this work is to treat each corporation as its own separate interest and to ensure that each entity always acts out of its own self-interest. In so doing you ensure that each corporation has minimal exposure to lawsuits and IRS audits and the aggregate exposure is far, far less than it would be with a single, high-profile corporation.
