MEETING TAPE: Recording of a Seminar Given by David Miller, an English Teacher

SAYING WHAT YOU WANT TO SAY AND MEANING WHAT YOU WANT TO MEAN

This tape covers the following discussion: A definition of words as used in the Law. The establishment of any illegal or legal action has to be prefaced by a violation of constitutional law. A statement of all legal reference has to be started with a proposition, then a noun and a verb. This is always used in statements made by the Supreme Court--and not necessarily lower courts or attorneys.

A fringe on flags is only foreign matter or window dressing and has historically not been used in the world. Banners and/or flags have been used far back in history to designate tribes and/or countries and their jurisdiction.

LAW OF THE FLAGS

This tape covers the following discussion: Reference is made to the illegal use of a gold-fringed flag in lower courts as well as the Supreme Court which definitely puts them in a position of violating their Oath of Office to uphold the Constitution of the United States. It basically means that it changes the position of the court instead of making decisions under Common Law to the use of Admiralty Law. This then puts the Judge of the Court in an act of treason because of the use of the gold-fringed flag instead of a flag displaying red, white and blue.

38:45 Hatonn stated that cases heard under this false condition have to be classified as null and void and corrected by those involved in said cases.

NATION OF HAWAII

00:00 Nation of Hawaii

00:10 Hatonn discusses on-going case--bringing Eustace Mullins and David Miller to
Tehachapi--CLC

11:48 Seminar recording continues

The discussion here basically covers a landmark case in the Nation of Hawaii (State of Hawaii) which covered the loss of land ownership by the use of a fraudulent contract and wherein the Will of Intent to enter into this contract was not clearly and totally explained to the signator owner of same.

As an added note, it was discussed that the violations incurred by the Judge in this case would have charged the Judge with approximately 108 years of internment in prison, for his actions.

DRAFTING A CONTRACT AND SOFTWARE

Discussion of when the regular United States flag is taken into a Court with the case documentation, it neutralizes the Admiralty flag in the Court automatically and the Court action then falls under the Common Law of the Constitution.

In drafting a contract, make sure that it sets forth the various points being brought before the Court and it absolutely must have the American flag attached in the upper right-hand corner of the document.

David also covers available computer software along with his recommendations.

IT'S ABOUT GETTING JUSTICE

Discussion of parenting procedures to be used by the Courts in a divorce hearing covering alimony, child support and visitation rights.

Further discussion in regard to shortening the number of pages in filing case arguments to be heard before the Supreme Court. From this debate the Supreme Court agreed to remove some 40 required pages from a submission thereto to about 20 some odd pages. They also, from this, would no longer hear procedural arguments.

COURT REFORM

Discussion on this tape has to do with his 100% procedural guidelines and how you address every situation.

Since 1933 there have been no Common Law cases, only Statutory cases conducted in Admiralty Court. In other words, it has been 65 years in all the Courts of putting on nothing but a show for the public because they were not functioning under the Common Law of the Constitution.
