6/4/97 #1 HATONN

BANKS, FRAUDS, SWISS BANKS AND NEW WORLD ORDER (NWO) BLACKMAIL

Is this a little too comprehensive to allow your minds to focus on these many topics at once? Well, think of it this way: IT IS ALL FUNDAMENTALLY CONNECTED TO FORM A NEW WORLD ORDER WHERE "YOU" HAVE NO SAY, NO SECURITY, AND NO "FREE" BANK TO SERVE YOU—FOR YOU WILL SERVE IT.

Let us begin with what is KNOWN and you will be a long way out front if you are a long-time reader of *CONTACT*. Since we get called into court to answer for any possible help we might give you about these topics, I must, by court orders and

public outcry, not give you much more than information and you will have to figure out what might be the best plan of action for selves.

We have to, as always, refer to the "Big Boys of the New World Order", the Banksters. And since the most "action" takes place in unfolding in the U.S. as to our writings, you will have to understand that we can skip around the head of the pin but it all comes back to examples that the majority of our readers will understand—the things happening in the U.S., and then you have to connect the dots to form the picture.

SOCIALIZED MEDICINE BEING BROUGHT IN BY A TROJAN HORSE!

Excerpted from *FOCUS ON THE FAMILY* newsletter, by James Dobson, May 1997, [quoting:]

And now a bit of shocking news about education from the *Washington Times*. Please take time to read this item with care. It is of extreme importance.

Reporter Lawrence Criner writes, "The Clinton administration appears to be implementing an undisclosed plan to build a structure for socialized health care—in effect, using education reform as a Trojan horse to construct a new health care system. Under the plan, public schools could be transformed into quasi-hospitals with Medicaid as the funding source.

What this means is that a secret plan has been developed to bypass the Congress and impose socialized health care on the American people—and especially on its children. "Education reform has become the road to health care reform," said a lawyer who opposed the original health care legislation. It calls for the placement of school-based clinics on all the nations campuses, providing students with contraceptive, abortion counseling, personality testing, mental health screening, instruction in "sexual diversity", drug therapy to modify behavior, a sex-education curriculum that (in the words of Lawrence Criner) "strikes at the heart of parental responsibility", and whatever else the liberals want to do with our kids. This is, in part, what Mrs. Clinton means when she claims, "It takes a village to raise today's children." The "village" about which she wrote is governmental bureaucracy which wants to indoctrinate your kids. If you doubt that, read the wording of the "U.N. Convention on the Rights of the Child", which President and Mrs. Clinton support.

Now take note: The secret plan described above was developed during a seminar funded by the Department of Education, Nov. 8-9, 1993. We have recently learned that a blacklist was distributed at that seminar. According to a former official who attended the event, those in attendance were told not to permit anyone associated with certain organizations to be involved in the projects. They included Focus on the Family, the Family Research Council, the Christian Coalition, Teen-Aid, Campus Crusade for Christ, Eagle Forum, Josh McDowell Ministry and 22 other Christian min-

istries and conservative organizations. Though Focus doesn't accept government grants or entanglements, what the Department of Education has done is patently illegal, since this seminar was funded with tax dollars. The secretive nature of it reveals that this administration views conservative Christians as a threat to its liberal agenda. We will continue to oppose massive government programs that are designed to intrude upon parental authority and subject America's kids to a radical form of indoctrination. As Gary Bauer and I wrote in *Children at Risk*, there is a concerted effort to capture the hearts and minds of our sons and daughters and thereby redesign the culture. It must not succeed. [End quoting]

One way or another, the Elite are determined to control all health care and your children.

LIBYA DEFENDS FLIGHTS TO RELIGIOUS CELEBRATIONS

Excerpted from *THE FINAL CALL*, ??/97, [quoting:]

Libya has warned the United Nations Security Council against applying the council's air ban on Libya to include the recent flights by Muammar Ghaddafi has taken to fulfill religious obligations.

This came in a reaction May 17 to the council's investigation of Mr. Ghaddafi's recent flight to Niger and Nigeria.

"We have come to know that the U.S. has made Islam and Muslims the alternative enemy in place of the defunct Soviet Union and the Eastern bloc," Abused Omar Dorda, Libya's permanent representative to the U.N. said.

He told the council to resist becoming "an umbrella" for the U.S. "in furthering this animosity".

Mr. Ghaddafi's flight to Niger and Nigeria, from May 8-10 in a flotilla of aircraft, violated the U.N. air embargo imposed on Libya in 1992. The ban, on all

flights to and from Libya, was passed because of Libya's refusal to hand over two airline bombing suspects to either Britain or the United States.

Britain and the United States accused the two Libyans of involvement in the 1988 mid-air bombing of Pan Am Flight 103 over Lockerbie, Scotland, and of a French UTA airliner over Niger, a year later. Mr. Ghaddafi's violation of the ban prompted the council's Sanctions Committee to investigate.

His tour was to have included South Africa but that segment was aborted before it began, without official explanation. Mr. Ghaddafi said millions of Muslim worshipers in Africa, who joined him in

Niamey, Niger, and in the northern Nigerian city of Kano for the Al-Asr and Friday prayers, were a show of support for Tripoli. Al-Asr prayers mark the Muslim New Year. The first Friday of the Hijrah marks the Prophet Muhammad's exodus from Mecca to Medina.

The U.S. is seeking a Security Council condemnation of the violation, which it said resulted from a "complicity" by the governments of Libya, Niger and Nigeria. [End quoting]

Ghaddafi has agreed to turn the two men over to several other countries, but not the U.S. or Britain for a fair trial, which they won't get from them.

DEAR CITIZENS: DO YOU KNOW WHERE YOUR TAXES ARE GOING?

Excerpted from *FOCUS ON THE FAMILY* newsletter, by James Dobson, May 1997, [quoting:]

Brace yourself for this one. After years of controversy arising from its support for obscene and profane "art", it's business as usual for the National Endowment for the Arts. The contentious congressional hearings from 1995 and the national uproar that ensued haven't changed a thing. Rep. Peter Hoekstra, (R-Mich.), said he was "shocked" by the projects now receiving direct or indirect funding from the NEA. They include pornographic books, films that feature incest, oral sex, sado-masochism, sexual torture, child sex and explicit homosexual encounters. The worst of the lot involved 15 films distributed by Women Make Movies, Inc. One of the films was described by a reviewer as the "hottest [lesbian] sex scene" ever recorded on celluloid.

There is a move in Congress to eliminate funding for the NEA next year, (we've heard that one before) but the President has promised to fight for its continuation. He has requested a \$36.5 million budgetary increase. Given the utter paralysis of the Republicans on any social or moral issue except partial-birth abortion, we can guess who will probably win this latest confrontation!

Just remember, you and I are helping to pay for obscenity and profanity. [End quoting]

Do you think this is worth contacting your Congressperson about?

RE: WHISTLES AND MISSILES

Excerpted from *MEDIA BYPASS*, May 1997, [quoting:]

"A free press can of course be good or bad, but most certainly, without freedom it will never be anything but bad... Freedom is nothing else but a chance to be better, whereas enslavement is a certainty of the worse." —Albert Camus

Telling the truth (or at least what one perceives to be the truth) about corruption cover-ups and chicanery can be hazardous, as more and more whistleblowers are coming to realize.

The latest example of targeting the messenger involves the crash of TWA Flight 800, according to a recent article in the "e-zine". *The Washington Weekly* <<http://www.federal.com>>, Richard Russell, an aviation consultant in Florida, obtained a copy of a radar tape from the Federal Aviation Administration apparently showing a small object rocketing toward the Boeing 747. The FBI raided Russell's home [in mid-March], seized the tape and interrupted his Internet connection.

"The cause of the TWA 800 crash still seems unresolved. But the actions of the FBI leave serious suspicion that something awful is being covered up," the article opined. "Any day now, we are expecting to hear FBI agent in charge James Kallstrom announce that anyone who publicly criticizes the official version of events will be subject to arrest."

Muammar Ghaddafi

In another incident, Carol Howe, a government informant who claims she warned the ATF of plans to bomb the Murrah Federal Building, was indicted in mid-March on charges that she compiled a list of bomb ingredients, acquired photographs of federal offices in Tulsa and used her home telephone to distribute racist information.

"The move looks suspiciously like an attempt to neutralize Howe as a credible witness with information about advance government knowledge of the Oklahoma City bombing," according to *The Washington Weekly*.

Others who allegedly have been harassed or otherwise targeted by the government in the recent past for their knowledge of alleged misdeeds as compiled by the e-zine, include Patrick Knowlton, a witness in Fort Marcy Park the day Vince Foster died; Fred Whitehurst, an FBI scientist with knowledge of serious FBI lab misconduct; Chuck Hayes, a "claimed CIA operative with knowledge of political corruption" who was convicted of attempting to hire a hit man to murder his son in a case marred by alleged prosecutorial misconduct; and Terry Reed and Richard Brenneke, Pilots and CIA operatives with knowledge of government complicity in drug smuggling. —MB [End quoting]

The government is speeding up their prosecution and deading of people who know too much.

FLIGHT SYSTEM FAILS

From *THE MODESTO BEE*, 5/19/97, [quoting:]

Airplanes flying over six states were rerouted and others were grounded after air traffic controllers lost nearly all communications with pilots after a backup system failed during a power failure. Technicians restored the system in about an hour Saturday. [End quoting]

Probably more Tit-for-Tat war games or testing responses by the Elite. Usually these type of situations are no longer "accidents or coincidences". They are mostly well planned.

CLINTON, BLAIR SEE OWN REFLECTIONS

New Generation Of Leaders See Eye To Eye On Big World Issues.

Excerpted from *THE DAILY NEWS*, Los Angeles, 5/30/97, [quoting:]

[Talk about clones: take a piece of paper and cover

up the hair and see what you get.

In a recent *News Desk*, I put in an article about the similarities of both of the Blairs and the Clintons. This article gives even more, plus, on a radio talk show, on June 4, the host was telling of even more similarities of Blair's and Clinton's thinking.]

Bill Clinton and Tony Blair looked at each other and liked what they saw.

And why not? When the president of the United States and the prime minister of the United Kingdom had their first official meeting Thursday, each was, to some extent, looking at another version of himself.

Different accent, same idea.

Much has been made of the similarities between the young and energetic president who broke the opposition's hold on power by moving his party to the center and the young and energetic prime minister who did the same thing across the sea. They even married two versions of the same woman, a successful lawyer and feminist role model who out-earns her spouse... [End quoting]

The Elite always take a pattern that works and keeps repeating it—over and over and over.

CAMPUS TENSE OVER ISLAMIC SPEAKER

From *THE BAKERSFIELD CALIFORNIAN*, 5/11/97, [quoting:]

Plans for a speech by a Nation of Islam disciple are aggravating long-standing disagreements at San Francisco State University between the group that invited him, the administration and some students.

Khallid Muhammad, who has called Jews "blood-suckers" and urged the killing of some Whites, was scheduled to give a speech on campus on May 21 titled, "Who is Pimping the World?"

Flyers for the speech list the price for tickets as \$7 for students and \$15 for "Zionists, Uncle Toms and other White-supremacists".

The scheduled appearance is angering students on an already tense campus, just days after 6,000 copies of the student-run newspaper were destroyed.

Some say members of the Pan African Student Union, which invited Muhammad, threw away the papers, published Thursday, because they did not like an article and editorial about the group's policies and the speech.

Members of PASU denied throwing the papers out but said the newspaper was biased against them and deserved to be destroyed.

"For the Last four years, the administration of San Francisco 'Police' State has consistently attacked Black students for voicing their contempt for the oppressive systems that exist in this country and around the world," the flyer read. "With the support of the Zionist Devils, the White Supremacist and the racist cops, the voice of the students is being silenced."

Troy Nkrumah, a spokesman for the 50-member group, said the *Golden Gater* student newspaper printed incorrect accusations about his organization and called it racist. He also said the paper and the administration were funded by Zionists who are out to destroy PASU.

"If I was an Uncle Tom, Zionist or White supremacist, I'd be mad, too. We don't give a damn if we offend anyone. We realize that we're still not free. We're still slaves," he said. [End quoting]

The "Lefty's" want free speech until someone wants to tell the truth about them.

INSIDE CONGRESS

From the INTERNET, *The Conspiracy Nation*, Vol. 10, Num. 59, [quoting:]

Author Ronald Kessler Interviewed On C-Span

"IF THE CAPITOL POLICE ARREST SOMEONE WHO'S POWERFUL OR IF THEY ARREST A CONGRESSMAN, THEY HAVE TO UN-ARREST THAT PERSON...AND THIS IS SOMETHING THAT THEY DO ON A ROUTINE BASIS TO THIS DAY. THAT IS UNBELIEVEABLE; IT'S LIKE A THIRD WORLD COUNTRY. IT MAKES A MOCKERY OF THE WHOLE JUSTICE SYSTEM."—Ronald Kessler, 5/26/97

Ronald Kessler, author of the recently released book, *Inside Congress*, was interviewed by Brian Lamb on C-Span, May 26th, 1997. (Thank God for C-Span.) Following are abbreviated excerpts of that interview.

(A note: *Conspiracy Nation* recalls a conversation with Mr. Sherman Skolnick when, apropos of nothing, that courageous crusader said, "Oh Brian [sighs], there's so much blackmail going on these days." Do Kessler's revelations have anything to do with increasing temperatures in the so-called "Whitewater" investigations, brought on in part by Rep. Dan Burton of Indiana?)

Does Kessler's book have anything to do with "tit for tat", in which warring factions throw dirt at each other?

Answer: not known by this editor, but worth considering.)

RONALD KESSLER:...the corruption of the Capitol Police.

Here's the Capitol Police, that are told by Congress if they arrest someone who's powerful or if they arrest a congressman, they have to un-arrest that person. It was covered up. I mean, "Forget it ever happened." And this is something that they do on a routine basis to this day. That is unbelievable; it's like a Third World country. It makes a mockery of the whole justice system.

BRIAN LAMP: [Reads from book] "...Senator Edward M. Kennedy allegedly once almost ran over a Capitol Hill police officer."

RONALD KESSLER: Yeah. This is based on 350 interviews, almost all on-the-record.

And one of the interviews was with a Capitol Police officer who said that Ted Kennedy, in the 1980s, was totally drunk and went through a red light and almost ran over this officer. And when the officer tried to get him in a taxi (because, of course, he wouldn't arrest him; you do not arrest a congressman), his superior came over and said, "Do you know what you're doing? This is Ted Kennedy. Let him go."

So he did. He gave him his keys and Ted Kennedy went off, totally drunk: could have killed someone; could have killed himself. This is the way the Capitol Police operate. This is the way the Capitol Police operate to this day.

BRIAN LAMP: Here's a picture [from your book]: "Rita Jenrette (sp?) had sex with her husband, Rep. John W. Jenrette, Jr., on the steps of the Capitol. She later posed for *Playboy* [magazine]."

RONALD KESSLER: Well that's certainly a well-known story. I did interview her, to get the mechanics down of just how it happened.

The Capitol Police and other "little people"—that's, e.g., the doorkeepers and people like that—see these behind-the-scenes activities. It's things—For example, in the Dirksen Building there was a female staffer who used to have sexual trysts on a regular basis during coffee break time. The Capitol Police offic-

Associated Press

ers themselves were engaged in sex, at night.

And to this day...[Rep.] Sonny Bono, for example, sexually harassed an intern on his staff. And just recently, the Capitol Police came across a former (very powerful) Representative Member having sex with a prostitute in broad daylight, at 5 pm, in his car. And this former Member had his expired congressional tag, and waved it. And that was enough to scare off this Capitol Police officer. He did not investigate further and, of course, did not arrest him.

BRIAN LAMB: Let me go back to the Sonny Bono deal (because he's not here and can't defend himself): How do you know that? Do you take her word for it?

RONALD KESSLER: I take her word for it; also, she confided in 4 congressional employees at the time it happened, which was last June. And I confirmed with all 4 of them that she had, in fact, confided to them at that time. She did not go public; did not file a complaint. Two months later, I interviewed her and she told her story.

BRIAN LAMB: Why would she not file a complaint?

RONALD KESSLER: She was advised by a lot of people in Congress, "You don't want to take on a congressman; you'll ruin your life." And at the same time, someone who's a friend of hers knew me and felt that I was a responsible journalist. And I convinced her that this is, you know, for a book (it's not for the *National Enquirer*) and that it's part of a look at this whole institution and what makes it tick and what's wrong with it. And so she felt that, in that format, she felt comfortable coming forward.

BRIAN LAMB: Here's another picture: Rep. Charles Wilson introduced legislation to cut defense appropriations after being told he could not take his girlfriend, Anna Lee Eschlinko(?), a former Miss U.S. World, on a Pentagon plane.

RONALD KESSLER: Well this is typical of the just out-of-control arrogance of Members of Congress. And it extends to, for example, today having custom-made furniture made for them by Senate and House employees to the tune of \$20,000 per chair! Literally.

We're talking about just a little chair, not a big chair. Silk-covered. And \$12,000 stereo consoles, custom-made silk curtains, custom-made rugs costing two and three-thousand percent more than what is available normally in the House and Senate inventory.

So this is something that's been covered up until now, and it's typical of the perquisites that these same Members who say, "We have to cut Medicare/Medicaid; we have to cut the deficit," engage in.

BRIAN LAMB: Here's a photograph that says, "Teen-age female pages used to put on a show for the Capitol Police every night by undressing in front of open windows in this building, which became known as 'Virgin Village'."

RONALD KESSLER: Until a few years ago, the pages were 14-years-old and totally unsupervised. Again: a commentary on the irresponsibility of Congress.

FEAR OF CONGRESS SPIKES NEWS STORY

BRIAN LAMB: There was a story in the paper a couple of days ago that a feature on 20/20 (on ABC) about your book was dropped, at the last minute. And you're quoted in the article as saying something about the motive. What was the motive, in your opinion?

RONALD KESSLER: If you look at the facts, it's pretty clear that the motive was simply fear of Congress. The piece had been in the works for about a month. Both the *Washington Post* and the *New York Times* had syndicated excerpts from this book; it had clearly passed the standards of the most pre-eminent journalism in the country. The executive producer of 20/20 gave the producer more praise about this piece after he saw it than at any time during this producer's

16-year career at 20/20, according to what he told me. It had also passed the lawyers. It also passed the standards person. And then, at the last minute, on Thursday night before it was to air, Roone Arledge wanted to see it—and killed it. And the reason that was given was, he wanted it to be based on ABC's own reporting, because this was sensitive material. Well in fact, most of it was ABC's own reporting: it was not me, it was other people from the book who were on-camera: a couple of police officers, former-Senator Paul Simon...So it was, in fact, first-hand accounts by people who were eyewitnesses to these activities.

Disney and ABC have a lot of issues before Congress; they have lobbyists who want all kinds of things out of Congress. And I think it's pretty clear, given all the circumstances, that they simply were afraid.

NOTE

Regarding Kessler's allegations of Capitol Police covering up the misdeeds of powerful persons: in light of this, recall how the Park Police supposedly investigated the strange death of Vince Foster. [End quoting]

Is there any wonder the Elite act as they do when we have the best Congresspersons that MONEY can buy.

ANTIBACTERIAL SOAPS MAY SPAWN GERM HAZARDS STRAINS DEFY KNOWN DRUGS

From the INTERNET, 6/1/97, [quoting:]

People striving to sterilize their homes and hands with anti-bacterial soaps may be fueling the development of dangerous organisms that defy known drugs, an authority on drug-resistant strains said Friday.

Dr. Stuart Levy of Tufts University, president of the Alliance for Prudent Use of Antibiotics, said Friday the popularity of disinfectant cleaners could not come at a worse time—an era when hospitals are discharging patients earlier to complete their recoveries at home.

He warned that patients may soon be coming home to environments rife with organisms that will resist conventional drugs.

"My concern is that it's going to alter the environment, make it worse for patients who enter the home."

Levy said he has no evidence that drug-resistant organisms have yet evolved in the households as a direct result of anti-bacterials. But he said it is almost assured, considering the proliferation of drug-resistant bacteria that has stemmed from society's over-dependence upon antibiotics.

Concerns over antibiotic resistance grew last week amid reports that a tough, new strain of the bacterium, staphylococcus aureus, had appeared in seven Japanese hospitals.

"Staph aureus" is commonly spread from patient to patient in hospitals, preying especially upon people who have wounds or who are being treated with tubes and catheters. It is one of the most common causes of hospital-acquired infections, which together kill 60,000 to 70,000 people in the United States each year.

WOW!...60,000-70,000 a year!...And you never read about that in the newspapers, do you? (Wait...this is from a newspaper!)

The bug has been steadily gaining strength, as the use of antibiotic medications has spawned new strains that are resistant to one or more drugs. The strain identified in Japan is resistant to vancomycin, an antibiotic that is used to fight strains that defy all other medications.

This article goes on, but the message is clear! [End

quoting]

Sounds like some more terror tactics and misinformation to get you to not do anything to protect yourselves. CONTACT has given you details about remedies for these man-made diseases and about the Elite's withholding of any real solutions for the people who listen to the Elite killers.

TOYOTA'S HYBRID RACES AHEAD OF TECHNOLOGY CURVE

Excerpted from THE DAILY NEWS, Los Angeles, 5/??/97, [quoting:]

It's as simple and quiet as turning on a lamp—just a flick of the key switches the car on.

Associated Press

The Toyota hybrid car is touted as offering the best of two worlds in clean driving by alternating between electric and gasoline power.

There's barely a stir or a sound as the car glides slowly, the electric motor turning the wheels. But as soon as it begins to accelerate, the gasoline engine kicks in.

Part electric car and part gasoline engine, the hybrid system—which Toyota Motor Corp. proudly showed off to reporters this week—is the best of both worlds for a super-clean, economical ride.

Toyota will become the first automaker in the world to mass-produce hybrid cars if it keeps its promise to start selling them in a new model, a passenger car, before year's end.

That would have beat out Detroit's Big Three—General Motors, Ford and Chrysler—and local rivals such as Honda Motor Co. and Nissan Motor Co. All are working on hybrid technology. Audi, the luxury division of Volkswagen, also plans to market a hybrid car this fall, but production will be limited.

The secret of the hybrid is that it operates as an electric car at lower speeds, when polluting emissions are a big problem for gasoline engines. But it also avoids the trappings of an electric car, which runs out of juice before it gets very far and needs eight hours for a full recharge.

The hybrid never needs recharging because the gasoline engine charges the battery while the car runs.

Drivers only need to stop at regular gas stations, where they will be pleased to learn, Toyota says, they're getting as much as 66 miles a gallon. [End quoting]

Have any of you readers ever wondered how a fully loaded 18-wheeled tractor-trailer rig can get anywhere from 4-8 miles per gallon of fuel (from what I've been told) and then compared that to what you get in your vehicles?

Let's see: Your vehicle—in comparison—is very small; has very little wind resistance; has only 4 small tires that give road resistance; has very little weight, fully loaded and has a very little engine-transmission

and thus very little friction. An average car gives 20-30 miles to a gallon—if you're lucky.

Taking all of the factors given above, why aren't you getting well over 100 miles to a gallon?

Do you still think the manufacturers are telling you the truth about the amount of energy that is in a gallon of diesel or gasoline when it is properly fed into your vehicle engines?

WEB DOUBLES SURFERS

From *The Costco Connection*, June 1997, [quoting:]

There are nearly 40 million Americans surfing the Web today, nearly double the 21.5 million estimate of a year ago. These latest figures come from a *Business Week* survey of 1,000 U.S. households.

Other stats from the new report include:

- * Nearly two-fifths of the 40 million surfers are women. That's up from a 1995 estimate of 23 percent.

- * About a quarter of all Net users are over 40 years of age.

- * About two-fifths have household incomes exceeding \$50,000 a year.

- * Whites represent about 85 percent of the on-line population. [End quoting]

Don't forget the Elite's goal to have everybody on the Net and a requirement that you have a card to be able to activate it so they can feed you only what they want you to know.

ECONOMIC AND POLITICAL THEORY 101

From *INTERNATIONAL FORUM FOR PLANETARY SOLUTIONS-ORIENTED NEWS*, Winter/Spring 1997, [quoting:]

It is frequently asked, "What does democracy mean?" Or, "What is the difference between socialism and fascism?" Rather than presenting a one year political science course, this short example will introduce everyone to working definitions of various political theories.

Feudalism—you have two cows. Your lord takes some of the milk.

Pure Socialism—You have two cows. The government takes them and puts them in a barn with everyone else's cows. You have to take care of all the cows. The government gives you as much milk as you need.

Bureaucratic Socialism—You have two cows. The government takes them and puts them in a barn with everyone else's cows. They are cared for by ex-chicken farmers. You have to take care of the chickens the government took from the chicken farmers. The government gives you as much milk and eggs as the regulations say you should need.

Facism—You have two cows. The government takes both, hires you to take care of them, and then sells you the milk.

Pure Communism—You have two cows. Your neighbors help you take care of them and you share the milk.

Russian Communism—You have two cows. You have to take care of them, but the government takes all the milk.

Pure Democracy—You have two cows. Your neighbors decide who gets the milk.

Representative Democracy—You have two cows. Your neighbors pick someone to tell you who gets the milk.

Bureaucracy—You have two cows. At first the government regulates what you can feed them and when you can milk them. Then it pays you not to milk them. Then it takes both, shoots one, milks the other and pours the milk down the drain. Then it requires you to fill out forms accounting for the missing cows.

Pure Anarchy—You have two cows. Either you sell the milk at a fair price or your neighbors try to take the cows and kill you.

Republic of Texas—You have two cows. You sell one and buy a bull.

Source: *The Republic of Texas Magazine*, June 1996 806-495-4135, Fax 806-495-2059 [End quoting]

I don't think this course can be shortened beyond this.

WHAT PRAYER CAN DO

From *GUIDEPOSTS*, P.O. Box 1479, Carmel, NY 10512, [quoting:]

The Los Angeles freeway was unusually congested for a Saturday morning as a friend drove me to the airport. We arrived with only five minutes to spare. I raced to the check-in desk. "I'm booked on the 11:55 flight," I told the attendant.

"I'm sorry, sir," she said, "that gate is closed."

"I have to preach in New Hampshire tomorrow morning," I said. "What is the gate number?"

She told me, then repeated, "But, sir, it's closed." I took off running.

Just as I reached the gate, the door opened and an attendant stepped through. Waving my ticket, I shouted, "Hold that door!" Inside the plane I learned that since I was considered a no-show, someone else had been given my seat. The only seat left was next to the galley. As I eased into it I noticed the young woman beside me reading a *Bible*.

"It's good to see you reading the *Bible*," I remarked.

"I've never flown before," she said. "I'm afraid."

"Would you like me to pray for you?" I asked.

"I'd be grateful," she said.

As I prayed, our plane moved into position for take-off. I finished just as the engines were revving up. Once airborne, my seatmate relaxed a bit and we talked. She was on her way to be with her mother, who was scheduled for surgery. "You're not going to believe this," she said, "but last night I asked God to have a minister sit beside me today."

I did believe her. Isn't God wonderful? —Victor G. Dawe, Richmond, Virginia [End quoting]

He certainly is.

Nevada Corporate Headquarters, Inc. Presents: Monthly Workshops Of 1997

Fast Growth Strategies WORKSHOP

When: Fri/Sat/Sun—
June 28th & 29th, 1997

Where: The Aladdin Hotel/Casino, Las Vegas, NV

Your Business!"

Come learn how to super-charge your business from a professional and watch it explode! Your profits will absolutely skyrocket after attending this income enhancing workshop, jam-packed with power skills for raising capital and making money!

Linda has worked with companies such as Apple, Intel, Toys 'R Us, the Limited, Sun Microsystems, and many others. With 20 years of experience and association, she brings her first-hand knowledge and strategies to you during this exciting and powerful weekend!

Latest NWO Antics Of The International Banksters

[Continued from Front Page]

We will start with *Spotlight*, June 2, 1997, by Martin Mann.

[QUOTING:]

INTERNATIONAL BANKERS

Plutocrats want the U.S. military cut, tax evaders wiped out and Social Security eliminated.

Behind a facade of starchy institutional conservatism, leading international megabankers are formulating a strategy of radical reforms to "blend" independent nation-states into a one-world economy run by a global bureaucracy as rootless as the UN, newly discovered documents suggest.

Under this doctrine, the "supra-national" administration of the future, designed to supersede the "leftover" constitutional governance of countries such as America, will be modeled after the International Monetary Fund (IMF) and the World Bank—"economic enforcers" already wielding global powers that seemed unimaginable just a decade ago.

Concerned American patriots, long preoccupied with the gradual erosion of U.S. national identity and sovereign autonomy, will see some of their worst fears confirmed by internal World Bank and IMF documents brought to light for the first time by a month-long *Spotlight* investigation.

Dismantling the Populist State, an internal policy paper compiled last year by top officials of the IMF and the World Bank, boldly abandons any pretense that international capital is no more a menace than the familiar neighborhood credit union.

DESTROY POPULISM

Instead, it forcefully argues that global money managers must turn to "revolutionary" measures to destroy the historic "populist state" and its code of patriotism, cultural classicism and economic autonomy—stubborn hindrances to the rootless "supra-national" statecraft demanded by unfettered global financial markets.

Written largely by Shahid Burki, a World Bank vice-president in charge of Caribbean and Latin American affairs, and Sebastian Edwards, one of the World Bank's senior economic advisers on South America, the policy study urges breaking up "the economic and social structures of the traditional nation-state, including its populist Institutions".

These "outmoded" concepts must be replaced by "newly invented and constructed... integrated, efficient

administrative states",—that is, international bureaucracies resembling the UN, the IMF and the World Bank.

The main task of these "integrated states" will be the "economic restructuring" of old-fashioned constitutional republics such as the United States. Rejecting all "leftover populist panaceas", the one-world administrators will enforce "fiscally responsible" measures such as these:

* Reinforce tax collection. "The prosecution of tax evaders should be stepped up and penalties for tax evasion increased," the World Bank study recommends. [H: Now for you sleeping local citizens, WHERE IS THE WORLD BANK? WHAT DO THEY MEAN "STEPPING UP AND INCREASING PENALTIES FOR TAX EVASION?" OH YES INDEED, it IS

The result has been U.S. taxpayers being forced to finance the further enrichment of the corporate chieftains and other "managers" of the Global Plantation. The lot of the working classes in most cases has declined.

Financing this criminality with our tax dollars, combined with the destructive free trade policies of the last several administrations, has had the added impact of millions of Americans losing good-paying jobs.

important.]

* Eliminate populist "subsidies" such as public scholarships, commodity supports and state-funded unemployment benefits.

* Sharply cut defense budgets—except that of the UN's "multilateral peacekeeping forces".

* Curtail present-day social-security systems. Burki and Edwards, the World Bank policy paper's authors, note that private savings levels are important to sound banking, but "If individuals perceive they will receive social security benefits from the government when they retire, they will tend to reduce the amount they save during their economically active years."

In other words, cutting out social security will benefit "sound banking" by forcing people to save more while they can still work.

"These are proposals only a denationalized banker could love," says Dr. Bruno Zimmerman, a sociologist who has published several studies on community finance. "But I would not treat them lightly. They represent the priority program of immensely powerful economic elites who have already globalized—and destroyed—far too much of the historic American commonwealth."

[END OF QUOTING]

Now let us continue from *Spotlight*, June 2, 1997, by Chris Temple.

[QUOTING:]

FINANCING THE GLOBAL PLANTATION

If you heed the foolhardy advice of a variety of ostensibly "patriotic" advisors, you are in reality helping to bankroll the enslavement of the world—and eventually, of yourself.

Students of history know that in February of 1944—as war still raged—bankers from the Allied nations met at Bretton Woods, New Hampshire to create the financial framework for the economic enslavement of the world that they planned for the post-war era. The cornerstones of this were supranational lending institutions such as the World Bank and the International Monetary Fund.

In the 53 years since Bretton Woods, these institutions have methodically sucked hundreds of billions of dollars from the western nations (a disproportionate amount, as usual, from the United States). The plutocrats have usually played to the benevolent tendencies of the West in requisitioning these vast sums, claiming that the money would help develop backward nations and improve the lives of their respective citizens.

The result has been U.S. taxpayers being forced to finance the further enrichment of the corporate chieftains and other "managers" of the Global Plantation. The lot of the working classes in most cases has declined.

Financing this criminality with our tax dollars, combined with the destructive free trade policies of the last several administrations, has had the added impact of millions of Americans losing good-paying jobs.

The decade of the 1990s has seen a significant slowdown in the financing of the international lending institutions, at least from "public" sources. Yet, the appetite of the plutocrats to have someone else's capital with which to exploit workers throughout the world continues to grow.

Wall Street has come to the rescue. To replace the billions they are not getting as

readily these days from Americans through their tax dollars, the plutocrats have sold an incredible bill of goods to trusting Americans. They have created the fad of conning you into investing in "emerging market" mutual funds.

This incredible "advice" is the toast of Wall Street—and is also loudly promoted by a number of allegedly "American" newsletters—but is insidiously serving to take away jobs from Americans, allow for the further enslavement of citizens of other lands, and enrich those plutocrats.

Patriotic Americans—[especially dedicated people who know what is taking place]—abhor the treachery of so-called free trade. This treasonous policy—designed to further enrich a handful of big multinational corporations and their allies—has resulted in the systematic dismantling of basic American industries. None of us like this any more than we have appreciated Washington doling out billions to foreign governments and interests.

We can't have it both ways, folks. We can't say we despise the treachery of our elected leaders when they give our hard-earned money to other countries, and when they sacrifice the jobs of innumerable Americans on the altar of free trade—but turn right around and support this with our savings.

It's time to realize that the fad of "foreign investing" has not only been of no general investment merit but has served the added, heinous purpose of destroying the U.S. economy and industrial base. *The National Investor* reports on superior investment returns that are available right here in the good old U.S.A.

[END OF QUOTING]

Now, readers, we are going to talk a bit about Switzerland and the theft of gold from the Jews. I want you to know, however, that Franklin Roosevelt is responsible personally for far more shifting of assets and gold belonging to EVERYBODY else into his own pockets and into the pockets of his high-level political cronies. With that in mind and knowing what you *may* know about the claims against Swiss banks in this recently constructed assault against Switzerland and her stability as the World Bank, IMF, and New World Order set up business in Belgium, we are going to look at some hard, cold FACTS regarding this conjured messup. [See also the article we ran on page 7 of the 5/27/97 issue of CONTACT.]

I am now going to share with you an article FROM SOUTH AFRICA on the topic of Switzerland and gold and banks, etc. I have no references to share as the papers were faxed with no article or publication information.

[QUOTING:]

SWISS BANKS & NWO BLACKMAIL

Ten years ago SA was the whipping boy of the world, a pariah state subjected to the most high-voltage propaganda nation-assassination campaign in history. It worked. Soon, White control was overthrown. Mr. Mandela's Marxist-dominated ANC/SACP alliance, inept and hopelessly inexperienced, was installed and SA was well on its way to ruin. Another formerly stable, viable and prosperous nation state destroyed in accordance with US/New World Order design.

Now we have a new and similar victim state: Switzerland. For almost two years now Switzerland and its banks have been subject to an orchestrated international assault, almost surrealistic in its intensity. Charge? That the Swiss banks still hold Holocaust "gold without heirs" in the form of gold bars bought from Germany in WW2.

So biased, so hostile, has been the sustained propaganda against this decent and orderly little country that one could easily conclude that it was Hitler's active collaborator in WW2, that its wealth was entirely built on Jewish misery. Quite obviously, as with SA earlier, this psychological and semantic war being waged against Switzerland and its banks is a smokescreen for something much bigger: something of global importance.

And it is none too difficult to identify just what that component is. Quite simply, Switzerland is the sole remaining block preventing the final establishment of the US-inspired One World socialist utopia. *Ipso facto*, Switzerland, with its immense financial weight and sturdy national independence, must be destroyed. Let's review the current state of affairs.

True centre of the debate relates to Switzerland's financial position in the world: prime object of the campaign, destruction of Swiss independence, wealth and financial clout. Nor should it be forgotten that while 40% of transnational investments pass through the US, no less than 30% go through Switzerland.

Switzerland's biggest asset is its reputation as... [line missing] ...world's most secure financial haven, as a repository of wealth. That reputation is heavily reinforced by the fact that Switzerland is the only country in the world with a gold-backed currency. Gold backing gives currency great stability, imposing strict monetary and financial discipline, in contrast to paper money, always so vulnerable to politi-

cal control and manipulation.

The Keynesian agenda of artificial growth and inevitable recession (boom/bust in US parlance) is largely avoided when a currency is based on real wealth (gold), which cannot be so manipulated. The US lost that safety belt in August 1971, when Nixon cut off all gold redemption for the \$ (dollar). Since then the US has steadily inflated and engineered what must ultimately result in the destruction of its own currency.

IMAGINARY MONEY

From that time on, Switzerland alone has acted as a monetary stabilizer to the international community. In an era of imaginary money, investors recognize without difficulty the difference between a gold guarantee and a purely fictitious guarantee offered by paper.

To repeat, it is the gold in the coffers of the Swiss National Bank which gives such solidity to the Swiss franc, making the services of its private bankers so attractive to international investors, and explaining the incredible development and strength of its banks.

It is the Swiss currency's obligatory tie to gold that gives the Sf (Swiss franc) an international reference value. The presence on world markets of a currency attached to the reality of precious metal prevents the various central banks from freely creating artificial wealth, with all its deadly consequences.

In an extended period of global economic chaos, only the Sf has shown any long-run stability. To the despair of investors, exporters and tourists alike, the rest of the world's currencies, including the US\$, are churning around in floating exchange rates. It is this disciplinary function of gold that is so irksome to politicians and other bankers, especially US politicians, always so eager to buy votes with promises of "something for nothing" and therefore heavily dependent on the printing presses.

All of which makes Switzerland a very bothersome competition to the globalist gurus. Adding insult to injury, the major Swiss banks have now reached the point of competing very seriously with their US counterparts on their own home territory. Almost every US city today boasts branches of the Big Three Swiss banks, eating ever deeper into US financial markets.

Switzerland has accordingly in recent years undergone immense political, financial and industrial pressure to integrate itself into the NWO and, in particular, to join the European Union. EU membership would of course require the Swiss to dismantle border controls, eliminate the bank secrecy laws, impose the dreaded Value Added Tax and demolish its ultra-democratic referendum system, all calculated to demolish the country's existing role in world markets.

In most countries throughout the European Union voters have been duped by the politicians, themselves under the bidding of their political paymasters, into ever-greater surrender of long-held self-governing power to the supranational bureaucracy in Brussels. Only the Swiss politicians stood out as an honourable exception. That is, until the cooked-up drama of the Jewish "gold without heirs" was used to compromise their position.

They can now expect to come under the huge pressure not only to join the EU but also the highly contentious European Monetary Union (EMU), with its proposed single currency, forerunner to a global currency. That would mean that currency stability worldwide would be a thing of the past. The establishment of such a policy is purely political and has no foundation in common sense. Which is exactly why the Swiss very wisely wanted nothing to do with it.

For Switzerland to do otherwise would mean national disaster, losing

hundreds of thousands of well-paying jobs and billions of dollars in foreign investment. However, to the internationalists the destruction of the stable Swiss currency is now regarded as of prime importance ... and for very good reason.

GLOBAL CRASH

Potential for a major global crash in the financial markets continues very high: most threateningly, in the grossly overblown US stock-market. The most powerful banker in the world, US Federal Reserve chairman, Alan Greenspan, has warned that the US stock market is severely over-valued; that this market has rallied to absurd levels—"irrational exuberance has unduly inflated asset value."

On February 26 he again sounded the alarm when he uttered the ominous word "bubble" and referred to "excesses" in the financial market, saying that when investors get "irrationally exuberant" they create "bubbles which finally burst". Evidence of the dangers in the situation are provided in the US federal debt which today stands at \$5 trillion and unfunded liabilities (social security, federal pensions, government liabilities) nearing \$18 trillion.

Small wonder that both the US and the internationalists are desperate to see the collapse of their most difficult competitor, and are prepared to stoop to any deceit and duplicity to bring this about. The claims about the Jewish "gold without heirs" therefore came like manna from heaven. And have been brilliantly exploited by a very dangerous US triad: The New York Jewish lobby, US bankers and the Jewish lobby in the Senate.

The ironic aspect to this amoral pursuit of the unfortunate Swiss is that it is largely built on bluff. US and Jewish spokesmen claim this is "a political time bomb that has been ticking away for half a century". Pure hokum. The US State Department learnt about these relatively modest amounts of Jewish "gold without heirs" from captured German documents in 1945. Historians in the 1980s wrote about the matter in detail. So why only now, 53 years after the end of WW2, do we see this sudden astonishing excess of hysterical and pretended moral outrage?

NAZI LOOT

Further, Avraham Burg, chairman of the powerful Jewish Agency, has openly admitted his own highly suspect part in the charade. After hearing news reports about Nazi loot and Holocaust victims' assets sitting unclaimed in Swiss banks, he sent out a news release. Hundreds of millions of dollars rightfully belonging to Jews were still being held in Swiss banks, he claimed. He demanded return of the money. In February Burg acknowledged that he "didn't have a thing. We just saw it in the paper and said we'd like to explore it. We kept pressing, and all of a sudden the whole world collapsed."

Burg's efforts were quickly followed up by Edgar

Bronfman, Sr., president of the New York-based World Jewish Congress—and, equally, the super-rich owner of the multimillion Seagram liquor company, and a leading NWO enthusiast. The *Journal de Geneve*, 3/5/97, wrote: "Edgar Bronfman estimates that if the Swiss bankers do not seize this unique opportunity to re-establish their reputation, he foresees *'the end of Switzerland as a great world banking centre, for every essential mark of confidence will have disappeared'*."

Bronfman did not add that this threatened "disappearance" was the sole purpose behind this ever-escalating frontal attack. From then on, the Swiss banks really took it on the chin. The World Jewish Congress called for a world boycott of the three major Swiss banks: Union Bank of Switzerland, Credit Suisse and the Swiss Bank Corporation.

Many Jewish groups claimed that—mostly through "numbered accounts"—Swiss banks robbed their people of great fortunes, perhaps as much as \$3 to \$7 billion. Few submitted these figures to any realistic assessment. The FACTS are that the Swiss had no necessity to enrich themselves by cheating others.

Always a hardworking, thrifty and honest people, Switzerland was already a wealthy country before WW2 and did not need to fatten on Jewish tragedy. But even if it were true that \$3 to \$7 billion (both highly inflated figures) were "stolen" from the Jews, for a country with a GNP of US\$200 BILLION it would be a drop in the bucket. Swiss wealth has origins other than numbered bank accounts.

As usual, the international media proved active participants in this display of inordinate hostility. The London *Sunday Times*, 3/9/97, published a photo montage showing the gates of Auschwitz concentration camp, with the Nazi slogan *Arbeit Macht Frei* above it, this opening up on an idyllic Swiss Alps countryside, with the big inscriptions BLOOD MONEY and the Nazi swastika and Swiss flag woven together. Intended message? Surely that the much coveted wealth of the Swiss banks came largely from plunder robbed throughout Europe by Nazi Germany!

The *Wall Street Journal* described the alleged involvement of the owners and top management of the private Rothschild Bank AG in racketeering, money laundering and even murder. *Time* magazine gave unusual prominence to a letter reading: "Until this situation is resolved, people should treat Switzerland the same way they do Libya, Iran or any other outlaw nation."

In tactics very familiar to South Africa, New York City Council leaders threatened to halt investment in Swiss banks to increase pressure for the "repayment of \$7 billion". US Senator Alfonse D'Amato wanted Switzerland to establish a SA-style "truth commission" to examine Nazi collaboration.

SA leaders never fully understood the nature of the juggernaut bearing down on them. Nor, it seems, did the Swiss. In a rather forlorn effort to reduce the heat, the three major Swiss banks set up a \$5 billion foundation to help victims of poverty and injustice. Compounding this blunder, on 3/5/97, Swiss President Arnold Koller announced the establishment of a Swiss Humanitarian Foundation. Annual interest, running into many millions, would be used each year to assist in catastrophic circumstances in Switzerland and abroad.

In an even more fatal mistake, in the circumstances, Koller told Israeli Prime Minister Benjamin Netanyahu that he regretted "the monstrous, unspeakable wrong of the Holocaust". If the Swiss perceived this as a peace offering, they were much mistaken. While the gestures were well received by some Jewish groups, others saw it as capitulation and acclaimed victory. The fallout went further. Burg went on record, 3/6/97, that he was "now in the middle of negotiation with 19 different governments... we needed a legal model elsewhere. Now we have it."

Now, too, the Americans who have increasingly

treated Switzerland as a US colony, have shown their hand. This month Washington released a 211-page report signed by Under Secretary of Commerce, Stuart Eizenstat, claiming the Swiss banks took in \$42.4 million in looted WW2 gold, worth more than \$4.25 BILLION at present prices. Eizenstat pronounced this "one of the greatest thefts in history". No one apparently thought of asking him how much the US banks themselves hold of funds transferred by fearful Europeans in WW2. [H: BILLIONS OF \$\$\$ AND NOBODY TO QUESTION IT. THE US, FURTHERMORE, CONTINUES TO FREEZE ACCOUNTS OF COUNTRIES WHO HAVE ANYTHING STASHED IN THE US ON THE PRETEXT OF BAD POLITICAL RELATIONS AND NATIONAL SECURITY.]

Can the Swiss financial institutions much longer retain their uniquely safe status? Hopefully, the answer is "yes," though their financial capitulation to such blatant blackmail and Koller's *mea culpa* have undoubtedly seriously weakened their case. As the *Toronto Star* recently observed, "There is a growing feeling that

the US criticism is a front for a hidden agenda: to smash the Swiss banking secrecy laws and so demolish the wealthy country's role as an international financial centre."

Quite so. But maybe the Swiss will prove more durable than was South Africa. They are currently buying into top US financial institutions. This month they did a deal with Reed-Dillon. In that way they will be in direct partnership with powerful US financial institutions, making it a lot tougher for US NWO interests to proceed against them.

[END OF QUOTING]

AND, a major B.S. to the last sentence of the above paragraph!! This is just the formation of the merger and take-over PLAN. I would close this writing for this morning, please. [Editor's note: Please also see Part II of Rick Martin's investigation into the financial octopus called the Inter-American Investment Corporation, on page 9.]

IIC-IDB-MIF

Jigsaw Puzzle Grows Octopus Legs

Part II: Taking A Closer Look

Inter-American Investment Corporation (IIC)
Inter-American Development Bank (IDB)
The Multilateral Investment Fund (MIF)

6/2/97 RICK MARTIN

In Part I of this investigation, on the Front Page of the May 27, 1997 issue of *CONTACT*, I presented a seemingly convoluted array of documentation which is THE blueprint for many of the nefarious activities utilized by covert operatives throughout the world. "Hiding in plain sight" seems to be THE method. After all, WHO is paying attention to the kinds of sophisticated gamesmanship that is unfolding with each passing day?

Now, with the assistance of additional key information in this ever larger jigsaw puzzle, let's take a much closer look at the Inter-American Investment Corporation, its purpose, and how, through the interaction with the Inter-American Development Bank, it accomplishes it's appointed tasks.

In reviewing all of the documentation thus far, it seems obvious that the Inter-American Investment Corporation is not a corporation at all, but rather A CONTRACT BETWEEN COUNTRIES UNDER THE AUSPICES OF TREATY LAW. The terms of the contract are in the "form" of Articles of Incorporation. Member countries who have contributed (with U.S. dollars) agree to the terms of the "contract", i.e., the

Articles of Incorporation. This deduction was confirmed by a spokesman for the Inter-American Investment Corporation, who told me that the corporation was formed "by treaty".

[QUOTING:]

**PROPOSED U.S.
PARTICIPATION IN THE
INTER-AMERICAN
INVESTMENT CORPORATION
HEARING BEFORE THE
SUBCOMMITTEE ON
INTERNATIONAL DEVELOPMENT
INSTITUTIONS AND
FINANCE OF THE
COMMITTEE ON BANKING,
FINANCE AND URBAN AFFAIRS
HOUSE OF REPRESENTATIVES
NINETY-EIGHTH CONGRESS
SECOND SESSION
AUGUST 1, 1984
SERIAL No. 98-112**

Chairman Jerry M. Patterson: Good morning and welcome, ladies and gentlemen, to a hearing where we will be taking testimony on the administration's request for authority for the United States to join and contribute an initial \$50 million to a new multilateral organization to be called the Inter-American Investment Corporation (IIC).

As the administration witness, Assistant Treasury Secretary David Mulford will explain in detail, this organization is intended to take equity positions in private corporations in Latin America, to make loans to them directly and through financial intermediaries in Latin America, and to offer technical assistance.

As members of our subcommittee will recall, the administration completed negotiations on the proposed new facilities on November 5, 1983. Congress was presented with a proposal on the matter on March 13, 1984—after I objected to Treasury's plan to send a draft bill a month later. From the information available, I had and still have serious doubts about the need for a new bureaucracy of this sort at this time. Therefore, I brought IDA, the other part of the request of the ad-

ministration, before the subcommittee by itself to try to meet the various Budget Committee deadlines in March and May.

Similarly, the Senate's report authorizing the IDA VII replenishment stated that the Senate authorizing committee, Foreign Relations, in considering the IIC had "deferred action on the administration's request since it was not forwarded to the Senate until March and therefore Members had little time to consider it."

The inclusion of funding for the IIC in the Senate Appropriations Committee's fiscal year 1985 recommendation underscores the continued interest in some quarters in the proposal, although I do not expect the unauthorized appropriation to become law and I recommend which can profitably use additional capital. Further, the plan is to limit the IIC to making loans and equity investments in firms that are majority owned and controlled by the domestic private sector.

Balanced, noninflationary economic growth with employment creation is one of the most important objectives the IDB should be pursuing. I believe the IIC—directly through its project activities and indirectly through its spin-off effects on IDB program—can make a productive contribution to this objective.

I would like to assure the members of the subcommittee that we will review very carefully the IIC's projects and programs. We will also make every effort to assure that the IIC uses its resources in a catalytic fashion, drawing in local and foreign financial and business participants whenever desirable and propitious.

The initial capitalization of \$200 million will be fully subscribed by participating countries. It is important to note that all contributions will be in freely convertible currencies. These contributions are all the more impressive as expressions of support because they come at a time when many countries in the region are severely short of foreign exchange. Nonetheless, the 24 Latin American and Caribbean borrowing countries have agreed to provide about \$110 million, which is 55 percent of the capital shares. Eight nonregional industrialized countries will subscribe to \$39 million, or 19.5 percent of the capital.

After consultations with Members of Congress from both Houses, the administration has indicated its readiness to provide \$51 million, or \$12.75 million per year

over 4 years, which would give the United States 25.5 percent of the capital shares.

The proposed legislation submitted by the administration to authorize U.S. membership in the IIC, introduced by Mr. Bereuter as H.R. 5474, will generally accord the IIC the same status under U.S. law as other development banks enjoy. This means the IIC would have the same privileges and immunities as the other MDB's, including immunity of officers and employees from legal process for acts performed in their official capacities; relief from most immigration and alien registration restrictions; the inviolability of the archives; and, immunity for the IIC from all taxation and customs duties.

The administration believes that the primary engine of regional economic development in coming years will be the private sector. However, unstable economic conditions in Latin America have seriously impeded the growth of the private sector and placed domestic financial systems under a strain. At the same time, the growing international economic recovery will be generating more opportunities for productive investment. It is imperative that the administration's request be enacted as quickly as possible to enable the IIC to avail itself of these emerging opportunities.

The United States has joined with almost 30 other countries who are eager for the IIC to begin playing its important role in the region's economic development. [END QUOTING.]

INTER-AMERICAN INVESTMENT CORPORATIONS

In a phone call made on May 29, 1997 to the Superintendent of Corporations for the District of Columbia, when inquiring as to the incorporation date of the Inter-American Investment Corporation, the response came:

"I have an Inter-American Investment Corp., incorporated in D.C. on July 21, 1958. They did not file an annual report at that time, so we revoked the corporation in September 1961. So there are no Directors or Officers. The file has been retired. There is no current corporation by that name."

When checking with the Delaware Division of Corporation, the response came:

"We do have a corporation by the name of Inter-

American Investment Corporation, incorporated on May 21, 1991. There was a name change on June 4, 1991 to Austral American, Inc. Very lightly written by hand, I can hardly make this out, is: J. Scott Perry, President; A. Roberts, Director. Those are the only two listed officers."

When checking with the Secretary of State of Nevada, the following "sound-alike" names popped up:

Interamerican Management Corporation—1997
Inter-American Manufacturers and Assemblers of GA—1996

Inter-American Marketing Corporation—1989
Interamerican Marketing Group, Ltd.—1995
Inter-American Properties, Inc.—1986
Interamerican Seafood Corporation—1991
Interamerican Traders, Inc.—1991
Inter-Americas Insurance Corporation—1990

In checking the list of officers for the Inter American Properties, Inc. we find the following: Filippo Dollfus, President; Alberto G. Camerini (Switzerland), Secretary and Treasurer (Montreal, Quebec).

But, of course, "officially", there is no actual Inter-American Investment Corporation in the traditional sense of the word "corporation".

THE INTER-AMERICAN INVESTMENT CORPORATION (IIC) IN ITS OWN WORDS

[QUOTING:]

The Inter-American Investment Corporation (IIC) is a multilateral investment corporation. It began operations in 1989 to promote the economic development of its Latin American and Caribbean member countries through financing of small and medium private enterprise.

Through direct loans and equity investments for companies and lines of credit to local financial intermediaries, the IIC helps businesses to start up, expand, and modernize their operations. As a complement to these main activities, the IIC offers fee-based advisory services.

Small and medium-sized companies are the Corporation's main customers, especially those that have difficulty raising financing from other sources on reasonable terms.

In a sense, IIC financing is seed money. The Corporation serves as a catalyst for attracting other resources: additional financing, technology, and know-how. These resources are mobilized through cofinancing and syndication, support for security underwritings, identifying joint venture partners, and facilitating transfers of technology and know-how.

Lending and investment in any setting entail evaluation of each project's soundness and chances of success. In this preliminary evaluation process, the IIC advises clients on project design and financial organization and helps them to structure their financial plan.

As a natural outgrowth of its project financing, the IIC offers fee-based advisory services. These services include counseling private companies on financial engineering and corporate reorganizations, and helping member governments modernize their foreign investment policies and develop capital markets. The Corporation also advises member governments on the privatization of state-owned companies.

To obtain IIC financing, projects must offer profitable investment opportunities. They must also further economic development in some way: by creating jobs, generating net foreign currency income, facili-

tating the transfer of resources and technology, and/or promoting the economic integration of Latin America and the Caribbean. Any environmentally sensitive project must include specific preventive or restorative measures.

The IIC Board of Governors consists of a representative from each member country. Voting power is proportional to each country's paid-in shares. The Board of Governors appoints a Board of Executive Directors to which significant responsibilities are delegated.

The Corporation is part of the Inter-American Development Bank Group. The IIC is legally autonomous, and its resources and management are separate from those of the Inter-American Development Bank.

Thirty-four countries are shareholders in the IIC; twenty-four Latin American and Caribbean countries:

Argentina, Bahamas, Barbados, Bolivia, Brazil, Chile, Columbia, Costa Rica, Dominican Republic, Ecuador, El Salvador, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru, Trinidad and Tobago, Uruguay, and Venezuela.

Also, seven European countries:

Austria, France, Germany, Italy, the Netherlands, Spain, Switzerland.

Additionally:

Israel, Japan, and the United States.

The IIC is located at 1300 New York Ave. NW, Washington, D.C. The telephone and fax numbers, respectively, are (202) 623-3900 and (202) 623-2360. [END QUOTING.]

THE INTER-AMERICAN DEVELOPMENT BANK IN ITS OWN WORDS

[QUOTING:]

The Inter-American Development Bank, the oldest and largest regional multilateral development institution, was established in December of 1959 to help accelerate economic and social development in Latin America and the Caribbean. [Seems to correspond with the 1958 incorporation date for the Inter-American Development Corporation in the District of Columbia.]

The Bank was created in response to a longstanding desire on the part of the Latin American nations for a development institution that would focus on the pressing problems of the region. A resolution calling for the creation of such a bank was adopted at the First Inter-American Conference, held in Washington, D.C. in 1890. In 1958 President Juscelino Kubitschek of Brazil proposed that the countries of the Hemisphere embark upon a bold cooperative effort to promote the economic and social development of Latin America. His proposal received support throughout the Hemisphere and shortly thereafter a special committee of the Organization of American States drafted the Articles of Agreement establishing the Inter-American Development Bank.

The Bank's original membership included 19 Latin American and Caribbean countries and the United States. Subsequently, eight other Western Hemisphere nations, including Canada, joined the Bank. From the beginning, the Bank developed links with many industrialized countries on other continents and in 1974 the Declaration of Madrid was signed to formalize their entry into the Bank. Eighteen nonregional countries joined the Bank between 1976 and 1993. Today Bank membership totals 46 nations. The Inter-American

Investment Corporation (IIC), an autonomous affiliate of the Bank, was established to promote the economic development of its 34 member countries by financing small and medium-scale private enterprises.

In its 36 years of operations, the Bank has become a major catalyst in mobilizing resources for the region. The Bank's Charter states that its principal functions are to utilize its own capital, funds raised by it in financial markets, and other available resources, for financing the development of the borrowing member countries; to supplement private investment when private capital is not available on reasonable terms and conditions; and to provide technical assistance for the preparation, financing, and implementation of development plans and projects.

In carrying out its mission, the Bank has mobilized financing for projects that represent a total investment of \$206 billion. The Bank's annual lending has grown dramatically from the \$294 million in loans approved in 1961 to \$6.7 billion in 1996.

The Bank's operations cover the entire spectrum of economic and social development. In the past, Bank lending emphasized the productive sectors of agriculture and industry, the physical infrastructure sectors of energy and transportation and the social sectors of environmental and public health, education and urban development. Current lending priorities include poverty reduction and social equity, modernization and integration, and the environment.

During the 1960s and 1970s the Bank was a pioneer in financing social projects such as health and education. In fact, the Bank's first loan, approved in February of 1961, was for improving the water and sewage system of Arequipa, Peru. The Bank has made an effort to see to it that its lending operations directly benefit low-income populations. Its innovative Small Projects Program seeks to provide small financings to microentrepreneurs and small-scale farmers and since 1990 the Bank has broadened its support to the informal sector. In recent years, the Bank has financed sector reform loans and debt reduction programs. In 1995, it began lending up to 5 percent of its ordinary capital resources directly to the private sector, without government guarantees.

The financial resources of the Bank consist of the ordinary capital account comprised of subscribed capital, reserves and funds raised through borrowing and Funds in Administration, comprised of contributions made by member countries. The Bank also has a Fund for Special Operations for lending on concessional terms for projects in countries classified as economically less developed. An additional facility, the Multilateral Investment Fund (MIF), was created in 1992 to help promote and accelerate investment reforms and private-sector development throughout the region. In 1994, the Bank's member countries agreed to a \$41 billion increase in the Bank's resources. Member countries' subscriptions to the Bank's capital fund consist of paid-in and callable capital. A paid-in subscription is in the form of a cash payment and represents a minor portion of a member's subscription (under the Eighth General Increase in the Resources of the Bank, the paid-in portion represents only 2.5 percent of a member's subscription). The major part of a member's subscription is in the form of callable capital or guarantees of the Bank's borrowings in the world's financial markets.

The Bank has borrowed funds for its operations from the capital markets of Europe, Japan, Latin America, the Caribbean and the United States. The Bank's debt is AAA rated by the three major rating services in the United States [*wonder who controls those*], and is accorded equivalent status in the other major capital markets.

The Board of Governors is the Bank's highest authority, on which member country is represented. Governors are usually Ministers of Finance, Presidents of Central Banks or officers of comparable rank. The

Board of Governors has delegated many of its operational powers to the Board of Executive Directors, which is responsible for the conduct of the Bank's operations.

The Bank, whose headquarters are in Washington, D.C., has Country Offices in each of its borrowing member countries and in Paris and Tokyo. [END QUOTING.]

MORE ON THE IDB

[QUOTING:]

Latin America and the Caribbean are home to roughly 475 million people. The region's total "domestic" product is approximately \$1.3 trillion. For researchers, public officials and business people interested in the economies, political systems and cultures of the Americas, these are important numbers. These and many other kinds of data, including up-to-date estimates of balance of payments, income distribution and non-financial public sector statistics, are available on the IDB's *economic, trade and social databases*, maintained by the Statistics and Quantitative Analysis Unit, some of them in searchable formats, many of them revised on a monthly basis.

In addition to the statistical databases, the IDB also produces a considerable amount of original research on the region it serves, including Working Paper series on sectorial topics (microenterprise, forestry, energy demand) and country economic assessments. The principal coordinator of this varied research program is the Bank's Office of the Chief Economist, which works closely with the Bank's regional operations departments in providing guidance on loan project preparation, and also maintains close ties with leading worldwide research and academic institutions through an extensive program of seminars, conferences and

workshops.

Since its founding in 1959, one of the IDB's priorities has consistently been to foster the economic integration of Latin America and the Caribbean. The Institute for the Integration of Latin America and the Caribbean (INTAL), an institution supported by the Bank, offers detailed statistical information on the volume of trade among members of the hemisphere's sub-regional groups (Mercosur, Caricom and NAFTA to name just three.) And the Bank's own Integration and Regional Programs Department (INT), in addition to administering the Bank's regional technical assistance program (which in 1996 led to the approval of some \$50 million in grants), supports the work of intergovernmental groups through initiatives such as the publication of *Periodic Notes on Trade and Integration*.

Another important facet of the Bank's research activities is its work in the social sectors. In keeping with the mandate of the Board of Governors that the Bank address squarely with its lending programs the social "deficit" that troubles the region, the Inter-American Institute for Social Development (INDES) trains dozens of public-sector officials and representatives from civil society in the region and publishes a series of monographs devoted to issues in fields such as education, health and the delivery of services to needy populations.

The financing of social and economic development programs in Latin America and the Caribbean brings with it a vast array of business opportunities for suppliers of goods and services from each of the IDB's 46 member countries. In 1996 alone, IDB loans resulted in the award of some 3,500 contracts for civil works construction, the supply of goods and equipment and the provision of consulting services (by firms as well as individuals). In the same years, roughly \$4.1 billion were disbursed to contractors as a consequence of

THE WORD

Tapes, Transcriptions & Videos

Donations to cover the costs of tapes are \$4.00 for one tape, \$6.00 for two tapes and \$2.50 per tape for three or more, except where otherwise noted. Postage is included in tape prices.

Please send check or money order to: **THE WORD**, P.O. Box 6194, Tehachapi, CA 93582 or call 805-822-4176 if you have questions or you wish to use your Visa, Discover or Master Card.

If you desire to *automatically* receive tapes from future meetings, please send at least a \$50 donation from which tape costs will be deducted. We will try to notify you as your balance reaches zero.

The following is a *partial* list of older items but including all of the most current meeting dates, with the number of tapes in bold, in parentheses, and mentioning if the meeting has a special focus:

the Bank's lending program.

The main source of information about the upcoming procurement and business opportunities generated by the Bank's lending is the monthly magazine *IDB Projects* [c/o: IDB Bookstore (202) 623-1753] which contains a listing of individual projects being considered for possible financing by the IDB (also known as the project "pipeline"). Paragraphs describing each of these proposed operations are broken out by country and by sector. By checking these listings, interested suppliers can track the progress of projects as they move through successive stages of preparation. In many cases the executing agency contacts provided in each of these short descriptions prove to be the single most important piece of information the Bank can provide, affording a chance for prospective bidders to learn about the context in which tenders will be carried out and allowing for marketing of products and/or technical expertise.

For those new to the IDB and its procurement policies and practices, the IDB offers a series of *business briefings* at headquarters in Washington (and, in concert with its speakers' bureau, the Country Offices and the members of the Board of Executive Directors at various locations in North and South America, Europe and Japan). In addition to the "regular" series of briefings, which provide an overview of doing business on Bank-financed projects in combination with sector specific presentations on infrastructure, social and environmental projects, two new series focus on the IDB's work in private-sector financing and a "hands-on" approach to bidding on specific procurement opportunities.

The "rules" governing procurement conducted with IDB financing are spelled out in *Basic Procurement Policies and Procedures of the IDB*. Contract award information is published in the pages of *IDB Projects* magazine. The source for additional information regarding procurement procedures is the Procurement Policy and Coordination Unit.

The IDB Group consists of three related institutions that play an important role in the development of Latin America and the Caribbean. Historically, the Inter-American Development Bank (IDB) has supported projects carried out by the public sector in the borrowing countries of the region. While many of these projects help to create the enabling environment so important for private sector activity, they did not involve direct lending to the private sector. However, the Bank has begun to work more directly with the private sector, to which end the Inter-American Investment Corporation (IIC), the Multilateral Investment Fund (MIF), and the Private Sector Department (PRI) at the Bank have been established.

The Inter-American Development Bank (IDB) is an international financial institution composed of 46 member countries, of which 20 are non-borrowing countries and 26 are borrowing countries in Latin America and the Caribbean. All of lending instruments of the IDB are designed to support economic development in the region. While most of its lending activities have been in the private sector, in recent years, the Bank has been promoting private sector investment in development. The IDB's involvement in an operation provides a level of comfort to private-sector investors and commercial lenders, given its long history of lending in the region and support for economic reform.

The Bank is the largest source of public finance for development projects, lending between \$6-7 billion per year to the region. The loans are made in the borrowing countries, and operations are carried out by governmental agencies.

The Bank has three regional departments responsible for the lending program in the public sector, including operations that ultimately provide finance to the private sector. The IDB office in each borrowing country in Latin America and the Caribbean provides support in project design, evaluation and execution.

INVESTMENT LOANS

A large part of the Bank's lending since 1961, when it made its first loan, has been for investment projects. About half of the Bank's public-sector lending is direct to social sectors—education, health, water, sanitation and urban development. The rest is dedicated to directly productive sectors and infrastructure.

The Bank loans in the public sector generate substantial business opportunities for the private sector for all member countries as proceeds finance goods and services for project execution, such as design, feasibility studies, construction supervision and contracts to supply goods, equipment and civil works.

IDB public-sector loans are granted only to the borrowing countries of the region; however, firms from all member countries, including the non-borrowing countries, are eligible to supply goods and services for these projects.

GLOBAL CREDITS

For many years, the IDB has recognized the need for credit in the private sector of Latin America and the Caribbean, including for small and medium enterprises (as well as microentrepreneurs). Since the cost of making small loans directly to the private sector is high, the Bank funnels resources via intermediary financial institutions. The IDB makes a global loan to a second-tier bank, which, in turn, lends the funds to intermediary commercial institutions. These are able to make loans as small as \$500 to microentrepreneurs and larger loans to small and medium enterprises. The global credit operations provide finance for fixed assets, permanent working capital and export credit, generally for small-scale industry, commerce and agriculture projects (rarely infrastructure).

With the scope of global credit operations, the Bank makes loans specific to microenterprise, which also are disbursed through intermediary financial institutions. Microentrepreneurs can access short-term finance for working capital or long-term finance for fixed assets. Firms may contact the IDB's office in the borrowing country to determine if this financing is available through intermediary institutions.

POLICY-BASED LOANS

Another important aspect of the Bank's lending program has been support for economic reform to make the use of public funds more efficient and to promote a more favorable climate for private investment. In this context, the Bank supports a government while it undergoes restructuring of the legal and regulatory framework of specific sectors or of the economy in general. Sector lending can address issues such as liberalizing tariffs, privatizing public services or restructuring financial institutions.

PRIVATE SECTOR DEPARTMENT

[STILL QUOTING:]

As the private sector becomes more involved in areas previously held by the public sector (particularly in infrastructure) there is a need for long-term finance for private-sector operations. To help meet this need, the IDB established in 1994 the Private Sector Department, a specialized operational department within the Bank, to provide long-term financing and guarantees for private infrastructure projects in the region.

LOANS

The Bank can lend directly to the private sector without government guarantees for infrastructure projects, whether greenfield or refurbishing operations, as a means to encourage other investors and lenders to participate in energy, transportation, water supply, waste management and telecommunications. The Bank's participation in a single project is limited to \$75 million or 25 percent of the project's total cost, whichever is lower. Though pricing follows commercial terms, these loans can have up to 20-year maturities.

Unlike IDB projects in the public sector, investors do not have to be from member countries of the Bank, although more than 50 percent of the shares must be held by investors from member countries. There is no requirement that there be majority ownership by local investors.

GUARANTEES

Infrastructure projects often involve government entities, whether they be regulators or suppliers of inputs or purchasers of outputs. These contractual undertakings are often determining factors in whether equity investors and lenders participate in an operation. The new guarantee program of the Bank is designed to address these risk factors. Both public and private projects are eligible for IDB guarantees, which are provided to lenders (not to equity holders). The Bank has established two guarantee structures, namely, partial risk guarantees and partial credit guarantees.

Partial risk guarantees may cover up to 100 percent of a loan for specific political risks, such as sovereign contractual obligations or transferability. These guarantees require a government counter-guarantee.

Partial credit guarantees may cover a portion of financing provided by private financiers. The Bank's guarantees turn medium-term finance into a longer-term arrangement. This can be achieved through guarantees for longer maturities, liquidity guarantees in the form of put options and take-out financing or by rolling guarantees that cover a fixed number of scheduled payments. Up to 50 percent of a loan can be guaranteed, with or without a government counter-guarantee.

Projects with IDB guarantees may be carried out in conjunction with an IDB loan or stand-alone. Project sponsors are not required to be from member countries of the Bank; however, the project company must be incorporated in the country where the operation is being carried out (in one of the Bank's 26 borrowing countries).

INTER-AMERICAN INVESTMENT CORPORATION

[STILL QUOTING:]

The Inter-American Investment Corporation (IIC) began operating in 1989. Supporting the overall development goals of the IDB, its activities are directed to small and medium enterprises in the private sector of Latin America and the Caribbean. Thirty-four of the IDB's 46 member countries are members of the IIC, of which 24 are borrowing countries in the region and ten are non-borrowing countries. The IIC shares governors, most executive directors and its chairman (IDB president) with the IDB, although it is funded and managed separately.

The IIC promotes private-sector development in its target market by making equity investments and providing term loans to projects for which traditional financing would otherwise not be available under similar terms. It also provides cofinancing and advisory services. IIC-funded projects must be commercially viable and preferably majority-owned by nationals of Latin America or the Caribbean. The IIC's lending activities differ from those of the Private Sector Department of the IDB in that the IIC focuses on small and medium projects in all economic sectors as opposed to large-scale infrastructure projects.

EQUITY INVESTMENTS

The IIC provides financing in the form of direct equity investments. These investments can represent up to 33 percent of the investee company's capital. Typically, once a project in which the IIC is involved has matured, the IIC will assist the company to revolve funds for another investment. Potential exit strategies include selling its shares by exercising a put option or, preferably, selling to third parties. This could include taking the project company public on the stock market, thereby expanding the company's ownership base.

As a particularly effective way to leverage its own resources, the IIC also invests in venture and development capital funds that target the IIC's market.

LOANS

The IIC makes loans between \$2-\$10 million directly to project companies and indirectly through financial intermediaries that make subloans which are smaller than those the IIC could provide directly. The IIC can finance up to 33 percent of the cost of a new enterprise or up to 50 percent of the cost of an expansion project, provided that its participation in the project does not exceed 33 percent of the total value of project assets. Most IIC loans are priced to float at six-month LIBOR plus a spread of three to six percent, and loans at fixed term may be made when appropriate. The maximum loan term is 12 years, with a grace period not to exceed five years. The IIC neither seeks nor requires government guarantees for its loans.

The IIC cofinancing program is an effective mechanism in mobilizing additional resources from international commercial banks for projects that require funding in excess of the IIC's direct lending commitment.

ADVISORY SERVICES

As a natural outgrowth of its project financing, the IIC provides fee-based advisory services, including operational restructurings, financial engineering and joint venture partner searches.

As a member of the IDB Group, the IIC provides advisory services to the Private Sector Department of the IDB and to the Multilateral Investment Fund.

MULTILATERAL INVESTMENT FUND

The Multilateral Investment Fund (MIF), the third member of the IDB Group, undertakes activities that

promote broader private-sector investment in the economy. It is a development institution that makes grants for technical assistance and invests, principally with equity and quasi-equity, in intermediary institutions that support small enterprises. The MIF has a very specific mission to implement strategies that will encourage private sector activities, for which it has its own funding and management even though it is administered by the IDB. MIF operations are approved by its own donor committee (representing 23 donor countries) rather than by the board of directors of the IDB. The MIF was established to accelerate the transition towards market economies and to help provide a business climate conducive to private investment. In this regard, the MIF complements the other private-sector activities of the IDB and the IIC.

The MIF approves operations worth about \$100 million per year, from grants to equity participation, in amounts ranging from below \$1 million up to \$5 million. All MIF finance is provided without government guarantees. The basic criteria for MIF projects are that they foster private sector participation in the economy, that they be innovative and replicable and that they be self-sustaining in the long term. The projects must fall within one of the three windows of MIF activity: technical cooperation for policy reform, human resources development and small enterprise development. Almost all IDB borrowing countries are eligible to receive MIF funds, and beneficiaries can be both public- and private-sector entities.

The MIF only participates in projects in cases where grant finance is needed to initiate, promote or accelerate execution of an activity, and beneficiaries are expected to provide significant counterpart funds. Project proposals should be addressed to the IDB country offices in the region.

TECHNICAL COOPERATION FOR POLICY REFORM (GRANTS & CONTINGENT RECOVERY FINANCE)

The technical cooperation facility funds projects that will provide a legal and institutional framework amendable to private investment. This includes projects, such as assisting privatization efforts, developing a modern financial sector, harmonization of capital markets, launching employee stock-ownership program, modernizing mediation and arbitration systems and providing advisory services for specific private-sector related transactions, such as preparing contracts for concessions.

Grants under this window are made mostly to governmental agencies. In some cases, the grants are made in the form of contingent recovery finance, that is, the funds are repaid if income is clearly attributable to the MIF project.

HUMAN RESOURCES DEVELOPMENT (GRANTS)

Projects under the human resources facility are designed to help countries adapt their training services to meet the demands of the changing private sector. Special attention is given to enterprise-based training for managers and workers. It also develops demonstration projects dealing with workforce issues related to privatization and industrial reconversion.

Grants under this window are generally made to private-sector institutions specialized in labor training and workforce issues.

SMALL ENTERPRISE DEVELOPMENT (GRANTS & EQUITY)

The small enterprise development facility offers technical assistance and finance to the small business sector by promoting innovative financial services, busi-

ness advisory services, technical training and technology transfer. The MIF can take an equity position in small business venture capital funds and help financial NGOs become fully regulated financial intermediaries.

This window provides grants to private-sector financial and non-financial intermediaries that provide services to small businesses.

The MIF works closely with the Regional Departments of the IDB in their respective activities in the private sector as well as with the Inter-American Investment Corporation and the Private Sector Department of the IDB.

[END QUOTING.]

In 1958, Senator George Malone of Nevada said, "The global theory of free trade is siphoning off America's wealth and bringing her economy to the level of others. The theory is displacing American workers who otherwise would be employed."

BACK TO GEORGE BUSH

Gene "Chip" Tatum, CIA operative for many, many years and recently released from prison, has written numerous articles which anyone may read by accessing his website at:

`file:///C:/TMI/NETSCAPE/TEMP/`
`CIAFUND.HTM`. His e-mail address is: blackops@sundial.sundial.net. He may also be reached by writing to: The Tatum Chronicles, P. O. Box 895082, Leesburg, FL 34789.

In one such article, Chip outlines a scenario for money laundering that is quite interesting. Let's take a look.

A CIA FUNDING OPERATION

by Gene "Chip" Tatum, 12/28/96

[QUOTING, WITH PERMISSION:]

Step 1:

Find a depository which fits the following criteria:

1. Large cash reserves.

2. Much of the cash reserves should represent deposits from an illegal activity (i.e., drug transactions). For this example we will use Banco Nacional de Panama, a depository which is protected by General Manuel Noriega. The depositor will be Pablo Escobar. Finding the proper depository would be the function of the CIA, and in this example we will use William Casey.

Step 2:

Arrange for a loan from this depository. We will use the name of George Bush in this example for the person obtaining the loan. We will use the amount of \$8 billion for this example. Sometimes the depository will not be very cooperative. If this occurs, the CIA will coerce or intimidate the depository officials into cooperating. Ultimately, the loan will be made.

Step 3:

Split the loan proceeds in half. One half (\$4 billion) will be sent to Iran to purchase "super bills" at the rate of two "super bills" for one authentic bill. Thus, \$4 billion in cash buys \$8 billion in "super bills." (Note: A "super bill" is a perfectly counterfeited U.S. bill. These bills are printed by an Intaglio press which was sold to the Shah of Iran in the late '60s or early '70s. The Shah was also furnished the plates, ink and paper necessary to successfully print U.S. dollars in large denominations. This was furnished to the Shah by the CIA. Unfortunately, the Shah left the press, plates, ink and paper for the Iranian Revolutionary Councils when he fled in late 1978.) The second half of the loan (\$4 billion) will be sent to a CIA launderer selected by the CIA (Casey) for his or her ability to move large sums of money around the world as a matter of ordinary business. For this example we will use the name Nana Debusia. (Debusia is the grandson of Guyana's first democratic leader and owner of many U.S. and foreign banks.)

Step 4:

Repay original loan to depository in "super bills." (Give Banco Nacional de Panama \$8 billion in "super bills" to replace the authentic currency it loaned.) These "super bills" are placed in the reserve vault and, as long as they are not withdrawn by the depositor, their existence will not jeopardize the value of the U.S. dollar. But, because they are perfect in every way, to put the "super bills" in circulation would eventually devalue the U.S. dollar by flooding the monetary marketplace with U.S. currency.

Step 5:

Arrange to sell Iran something of value for the authentic currency used to purchase the "super bills." In this example, we will use arms, ammunition and replacement parts for military equipment. (We will use the name Oliver North as the example of a person arranging for sale of arms to Iran.) In other words, the CIA now arranges to sell Iran \$4 billion worth of arms and equipment in order to get the original \$4 billion of authentic currency back. Now, the CIA has \$4 billion to use in funding covert activities without relying on Congressional authority and funding. If caught, the CIA can report the source of funds as being from an arms transaction with Iran.

Step 6:

Ensure that the "super bills" are not withdrawn. This is done through the process of neutralization of the depositor. Neutralization is the use of intimidation, coercion or intimidation. In this example, Pablo Escobar is killed.

Step 7:

This CIA launderer in possession of one-half of the original loan proceeds is moving his \$4 billion through a maze of banks which are cooperative with both the launderer and the CIA. For this example, we will use the following trail of deposits to banks: a bank in Spain; the Vatican Bank; banks in Luxembourg. Then the launderer wires from his London offices \$3.8 billion in laundered monies to private numbered accounts being controlled by the original architects. The launderer keeps \$200 million for his job well done, leaving the \$3.8 billion in the numbered accounts.

Step 8:

Neutralize the CIA launderer. In this example Nana Debusia was indicted by the U.S. on 32 counts to include bank fraud. The CIA stepped up in his behalf and stated that it would not be in the best interest of the U.S. to prosecute Debusia. He was facing several hundred years in prison if convicted. He was subsequently acquitted on all counts.

CIA TALLY

\$4 billion for use in unauthorized black ops* (*black operations are those covert operations performed without the knowledge or authority of Congress.) \$3.8 billion in private numbered accounts controlled by the architects of the funding operation.

SUMMARY
OF THE EXAMPLE

To summarize the example, the Director of the CIA, William Casey, approached the Ex-Director of the CIA and current Vice President of the United States, George Bush, with the name of a vulnerable depository, the Banco Nacional de Panama. Vice President Bush then arranged for a short loan of \$8 billion. Bush arranged for \$4 billion to go to Iran to purchase super bills and \$4 billion to go to Nana Debusia to be laundered into several private accounts. He (Bush) commissioned Oliver North to oversee the Iranian connection. North delivered \$4 billion in U.S. currency to Iran. Iran gave North \$8 billion in super bills in exchange for the \$4 billion in good U.S. currency. North then delivered the \$8 billion in super bills back to the Banco Nacional de Panama. The loan transaction is now complete. There is \$8 billion in super bills in the reserve vaults of the Banco Nacional de Panama, there is \$4 billion in authentic U.S. currency in the hands of the Iranians, and there is \$4 billion in good currency with CIA launderer Nana Debusia. North sells the Iranians military hardware and parts for the amount of \$4 billion and diverts a portion of the proceeds to the Contras of Nicaragua (Iran/Contra). Nana Debusia, in the meantime, is laundering the deposits of \$4 billion through various banks, including the Vatican's Bank of Italy. After several successful banking transactions, Debusia presents \$3.8 billion in sound deposits to the numbered accounts in various locations. When the funding operation is complete, there is \$4 billion in CIA accounts to be utilized for covert and black operations; there is \$3.8 billion in private number accounts controlled by George Bush and William Casey. Pablo Escobar, the primary depositor, is dead to ensure no one will withdraw the super bills. General Noriega is in U.S. federal prison and under constant U.S. guard to ensure his silence, and William Casey is dead, leaving \$3.8 billion in good U.S. currency in the control of George Bush. [END QUOTING.]

For a close look into some of the Bush-boys' REAL money transactions, see the Exhibits displayed at the conclusion of this article.

V.K. DURHAM SPEAKS

[QUOTING:]

My position is this, and I'm going to tell you exactly what my position is. Prove me wrong. Prove to me that Russell Hermann wasn't murdered. Prove to me that CI, Ltd. is not an existing entity. Prove to me that the Woodbridge Account was not a George Bush/Bentsen/Baker/Greenspan/North/Hermann account. Let's put this—all this information—before a full, formal, federal Congressional crime investigation unit, with nonvested interest and let's investigate the documents, the events, and the facts.

I think a full formal federal Congressional investigation, a Grand Jury investigation, should be in on this. Not only that, it should be open to the public—no member of Congress who has been a party to this or who has any investment in any of these corporations, or has taken any kick-backs in the form of lobbying money or whatever, even a golf ball, can be on these investigating committees. These people have to be free of ANY suspicion, or anything that could tie them to it. This has to be a fair, impartial, full comprehensive investigation into these acts, with unbiased and nonprejudicial opinion. It's got to be done by people who have the ability to know what they're looking at and be able to see that there is a common M.O. as a denominating factor here.

I have already filed murder charges with Congressman Burton's office. And those murder charges, by God, are going to stand. They are standing! They can not deny that I am the primary creditor of this country, and so was Russell Hermann, at one time. Now, deny the man was murdered. Prove to the entire American public that this man was not murdered. You prove to the public that Bill Clinton didn't have knowledge of that Certificate of Indebtedness in 1992 and in 1993 when the floods hit. Prove it! I've got the certified copies of the letters that went to him.

To murder an individual, and to go to the lengths that they've gone to, to gain control over not only the Certificate of Indebtedness but of this nation, Rick, to me—of course, I'm sort of like this old horse out there with blinders on, you know. I don't see any farther than that *Constitution* holding over the heads of the people out there. And that's what I see. I see that safety protection there, that *Constitution*, like an umbrella over the people, and I don't see beyond that. And it's hard for me, knowing what was intended by that *Constitution*, to turn around and be not only a victim, but a witness and a victim, to this whole corrupt scenario, with document after document after document backing it up, and they sit there as a vested-interest group, ignoring the whole damn thing. They're suppose to be our protectors. How can you protect someone if you've got a vested interest in something and you're guarding your own backside? You can't, Rick. Congress forgets the people but I've never walked away from the people. I've stood and I've taken one beating after the other and my mind has never gone off the people or off the nation. And it never will. [END QUOTING.]

CLOSING THOUGHTS

Obviously the web, or the octopus, is so vast, so convoluted, so incredibly spread out that it boggles the mind to try to comprehend it. What follows are just a few documents which will have literally no meaning to almost everyone, but WILL have meaning to key individuals in the reading audience.

The structure in place that you have just read about is so vast and all-encompassing that it truly is an amazing accomplishment, to say the very least. It helps to examine structures such as these to see HOW they have accomplished many of the New World Order agendas which are on the table. And it certainly seems that the New World Order agenda is full steam ahead. I guess we'll just have to wait and see what God has in mind [See related exhibits, p.15-19 —>]

Karl Ehm

Dear Karl:

On August 7, 1991, a transaction of Japanese Yen had been received at Goldman Sachs into Mitsui of Tokyo. I recently received a statement from Goldman Sachs, New York, and noted several discrepancies. Please refer to the enclosed copy of the statement for the following discrepancies noted:

1. Note: On account activity summary a credit of 700,000,000.00 JYP exchanged to the equivalent of \$5,117,280.00 U.S.D. Also note: Funds withdrawn, Japanese Yen 700,000,000.00, total funds withdrawn United States Dollars \$5,117,280.00.

2. Note: Account activity non-purchased and sales: Funds deposited Japanese Yen August 7, 1991, Japanese Yen funds received at Mitsui Tokyo credit 700,000,000.00 JYP, total funds deposited 700,000,000.00 JYP, total funds exchanged, deposited \$5,117,280.00 U.S.D.

3. Note: Funds withdrawn August 7, 1991, Japanese Yen reversal debit 700,000,000.00 JYP, total funds withdrawn 700,000,000.00 JYP, total funds sent from withdrawal \$5,117,280.00 U.S.D.

4. Note: No zero balance shown after activity summary, end of account statement.

5. Note: Federal Tax ID #/Social Security # of 88-8888888. Our Federal Tax ID # is the following, which you have recorded: 95-3318747.

We at DFG, Inc. recently identified a leak in our upper echelon Corporate Officer. That individual has been identified as WP. Action has been taken, feel assured. I am on top of this matter 150% of the way. We have begun a Federal Bureau Investigation process to investigate this matter, and Goldman Sachs is checking with the Treasury.

My question to you Karl, is, did you receive the return \$5,117,280.00 back from Goldman Sachs? If so, please reply.

Your Friends John E. D'Acquisto and Russell E. Hartmann

William Sommerville

DATE:

26 August 1991

MATTER:

USSR GOVERNMENT LOAN FACILITY
TRANSACTION CODE - TSCI IIAW/WS/9102

Dear John

We acknowledge receipt this morning of your fax dated 25 August and would advise that despite certain problems as a result of the political upheaval in the USSR we are making progress.

1. The party from USSR, still scheduled to arrive in Sydney end of this week, comprises:-

Mr. R. Ivanov Prime Minister of Yakutsko

Mr. D. Popov Deputy P.M. of Yakutsko.

Mr. E. Sadvovsky Bank of Foreign & Economic Affairs, Moscow

Mr. Ermilin Prodnitor for Yakutsko (Buying Arm)

The composition of the party and their respective roles has been today confirmed by Australian Foreign Affairs.

2. We have been advised that the above referenced persons are fully authorized to execute an agreement for the loan facility. The Republic of Yakutsko is a major goldmining area and comes within the Yeltein controlled sector. We are advised that everything is "on track" and we are pursuing detailed confirmation overnight.

3. We have been told that the Gold is in Kloten. We have asked for full specification and certification of the deposit to verify the location.

4. We are positive that this request is serious; the funds are required for purchase of food ex Australia and the negotiations in this regard are proceeding. It was our expectation that we would receive applications for further loans with additional security following the success of the first proposal.

DEAR RICK:

FAXED, PLEASE REVIEW WITH MR. CAMERON CAMPBELL FOR THE ENTIRE AGREEMENT FOR ANY IMPROVEMENTS INCLUDING THIS ADDENDUM.

I HAVE BEEN TOLD BY MY KIDS THAT I SHOULD NOT CARRY SUCH VALUABLE CARDS IN MY POCKET. AND I SHOULD HAVE THEM AUTOGRAPHED. THANK YOU AGAIN.

YOURS TRULY,

 PETER YOUNG I. HYUN, C.A.

I am transmitting 4 pages including this cover sheet. Should you encounter difficulties, please advise immediately by calling 1-416-535-5353 and ask for PETER. Thank you.

Page 2 of 2

5. We know that ten (10) Metric Tonnes will be immediately available, and this cannot be increased, so the loan must be geared to that amount of security.

6. We know that, prior to our participation, an indication was received from a bank to provide US\$888 Million upon security of ten (10) Metric Tonnes. We also know that the terms of that indicative offer were not as good.

We are making our recommendations and are following steps of validation to ensure the bona fides of all concerned. We hope for progress overnight and will keep you informed.

Kind regards
 Sincerely

 William Somerville

Dear Mr. Sommerville:

Re: USSR LOAN FACILITY TBC: IIAM/VVS/9102
YOUR TRANSACTION CODE:

We have received your fax dated August 26, 1991.

On behalf of the funding syndicate, we make this final offer, and
commitment to the Pre-Advice after the receipt of the latest fax from
the funding syndicate as follows:

1. Security: 10 Metric Gold Bullion tones with acceptable
Hallmark
2. Loan Amount: US\$80 (Eighty) Million
3. Tranche: One tranche on or within 14 (Fourteen) days after
the deposit of the Gold Bullion in the funding
syndicate's Swiss Bank
4. Terms: 3 (Three) years and 1 (One) day and subject to
renewal up to 20 (Twenty) years upon notifica-
tion of renewal prior to the end of the year two(2)
and by mutual consent/agreement.
5. Interest Rate: Compounding LIBOR Floating, capitalized and
payable at the end of the year three (3).

ADDENDUM 1 TO JOINT VENTURE AGREEMENT

This ADDENDUM 1 to the joint venture agreement executed on September 3, 1991 is made to update transactions applicable to clause 2.02, banking arrangements, financial records clauses from 3.01 to 3.04 as well as communication 9.01

ADDENDUM 1-2.02 Addition of Joint Venture Transactions is follow:

- 02/H/D Standby Letter of Credit from Tony Duddy, Gweebarra, Donegal. RI
Mr. T. J. Cawley of Barrexford Limited,
17-18 Nassau Street, Dublin 1.
Tel: 44895 639-912 Fax: 44895 622-170
Buyer's Transaction Code: -PIVB/K/BLC/1.
- 03/H/M Bullion Transaction from Mr. le Dr. S. Errouane of JOVINCO, S.A.
5 Chemin Malombre, CH-1206 Geneva, Swiss
RWA Mandataire des acheteurs dated September 4, 1991 through
Mlle. Chantal Muller, Lausanne, Swiss

for sharing of trading profit as indicated in Clause 2.02 at 50/50 basis.

ADDENDUM 1-3.01/04 The entire section 3 shall be replaced with the following clauses as follow:

BANKING ARRANGEMENTS AND FINANCIAL RECORDS

3.01 The Partnership shall maintain a Client Trust Account of Joint Venture by Campbell and Campbell, Attorneys at Law, 1020 Prospect Street, Suite 300, La Jolla, California 92037-4192 (Tel: 619-450-4064, Fax: 619-459-4316) who has been duly retained by the Joint Venture Partners. Campbell and Campbell has a Client Trust Account solely for the purpose of this Joint Venture transactions at

Security Pacific National Bank
3813 Governor Drive
San Diego, CA 92122, U.S.A.

6. Escrow Deposit:

US\$100,000 of escrow fund will be deposited to Deutsche Bank, Toronto, Canada.

We have to remind you of the following:

A. The escrow provisions outlined in the Pre-Advice remain a critical requirement prior to receiving loan documents and endorsed funding commitment.

B. The funding syndicate's lawyers are ready to provide the loan documents within the 48 hours after receipt of the following:

1. Signed Pre-Advice with this attached amendment;
2. Proof of escrow funds and escrow contract being lodged with the Deutsche Bank and
Mr. John S. Waldie of
Acthem Alexander
Barristers and Solicitors
808 - 1175 Douglas Street
Victoria, British Columbia V8W 2E1, Canada
Tel: Canada (1) 604-388-4444
Fax: Canada (1) 604-388-4777

3. Proof of Bullion Deposit Certificate to be forwarded to Mr. John S. Waldie;

4. Mandate endorsed by USSR government or authorized legal signatory; and

5. Loan Request endorsed by USSR government or authorized legal signatory.

C. Mr. John S. Waldie will not be contacted until written authority of Mr. John Hamilton or Mr. Peter Hyun has been received and further verified via telecommunication. Mr. John S. Waldie is the solicitor for Hamilton & Hyun Investments Corporation for this transaction and upon his verification regarding the authenticity of the above, we will have the funding syndicate's lawyer,

Mr. Herbert D. Sturman of
Fierstein & Sturman
Law Corporation
1875 Century Park East, Suite 1500
Los Angeles, California 90067, U.S.A.
Tel: U.S.A. (1) 213-553-5500
Fax: U.S.A. (1) 213-552-3228

provide the commitment and loan documents.

D. Any unauthorized contact, communication or breach of protocol as set out will constitute destructive fraud and will cause the undersigned to take appropriate action.

In light of the above, we request that the endorsed mandate and endorsed loan request from the USSR government be forwarded to Mr. John S. Waldie no later than 17:00 Hours August 28, 1991 PST (Pacific Standard Time), N.A. (North America).

If all of the above conditions are met, the funding syndicate's solicitors and principal signatory will be available to meet and finalize the loan documentation with the authorized borrower's signatories in Australia, on September 5, 1991. We are sure that Mr. John S. Waldie would appreciate a copy of the draft escrow agreement from the borrower's solicitors as soon as possible.

I trust the above clarifies our final position and would appreciate a formal response no later than August 28, 1991.

Yours faithfully,

Hamilton & Hyun Investments Corporation

John Hamilton

MERKAV INTERNATIONAL TRUST LTD.

WASHINGTON DC.

First Guildford Finance Limited
1, Curzon Street
London W1

Attn.: Mr. Steve Billand

Copenhagen, the 2nd of September, 1988

Subject : Unprofessional practice by you and your principals,
involving our CB transaction.

Sir,

I refer to our contractfull agreement dated August the 9th, 1988, in the amount of 200 Billion USD or more, your file number: 222-9/1, concerning agreement for the purchase and sale of Prime Bank Instruments, which includes a non-disclosure and non-circumvention agreement, signed as addendum A. Addendum A clearly states that upon the acknowledgment by either party of the identity of their source of either party, there will be no attempt to circumvent or create a separate transaction or contact the source without written consent of the signatories of this agreement of any business whatsoever, without first written consent of the other party. Further in this agreement, this commitment states that is valid for a period of 5 years and either party violating this agreement will be subject to damages and any commission that would have been involved.

I was shocked to learn that you of all people, Charles Duncan and Jeff Muller would go to my principal and negotiator or try to negotiate a contract for CO's offering less for the product that have been agreed upon between Merkav International Trust Ltd. and Edward P. Callish, who you claim to be the principal, even though all document letterheads show First Guildford Finance Limited, England.

Further I would like to point out that I received a letter from Charles A.M. Duncan on behalf of First Guildford Finance Limited, London, dated August the 10th, 1988, requesting that I should not contact you (Steve Billand) any further involving this transaction, that I should contact him direct. On the same day, August the 10th, 1988, you stated by phone that Mr. Duncan was an officer and that his request was OK.

Page 1 of 2

1016 KING STREET, ALEXANDRIA, VIRGINIA, U.S.A.

Page 2 of 2

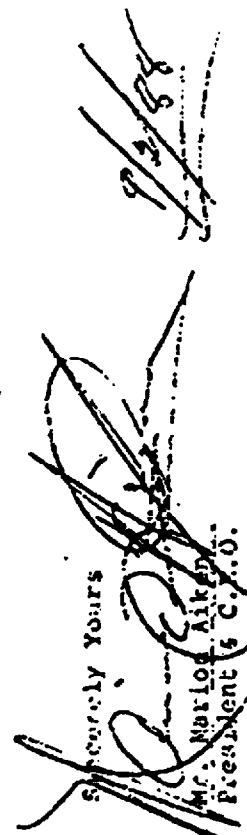

Further, on August the 11th, 1988, we received our first "WindowTime" confirmation from Charles A.M. Duncan, providing us with Marine Midland, New York, as the bank that would be making the confirmation of the availability of CO's into Security Pacific under the direction of Mr. Peter Hagerman and that Marine Midland would also be acting as the closing bank for our transaction. I would like to point out that no confirmation was made and on August the 17th, 1988, I received a new "Window-Time" that Marine Midland, New York, without fail, would be making the confirmation into Security Pacific by 1 PM California time. That did not take place.

Further to your letter dated August 24th, 1988, regarding "Window-Time" stating that Marine Midland, New York, will be confirming collateral between the hours of 11 AM and 2 PM, California time the same day. That did not take place either.

On Friday the 26th of August, 1988, I received a call from Mr. Duncan stating that Marine Midland would not provide collateral, so they have moved the transaction over to Citibank, New York, and will have Fideliaty Union Bank of New Jersey to do the confirmation. That have place either.

Mr. Billand, would you please advise me, what you to achieve. I can only come to one conclusion; a so called organisation should be locked behind the door. You do not withdraw the contract in which you Mr. your office issued to Mr. Williams and supply with a full explanation, I will do everything to have you and your firm prosecuted by law.

Sincerely Yours

Mr. Marlon Aikman

A Special Alert To Farmers (And All Americans)

6/5/97 V.K. DURHAM AND RAY BILGER

In conjunction with Rick Martin's series on the Inter-American Investment Corporation, consider the following: The Federal Government is offering 10-year programs whereby the farmers will be paying farmers not to farm. Be very cautious before you bite on this one. Read George Bush's Executive Order No. 12803, April 30, 1992, now codified under Title 5 U.S.C., Sec. 601.

For more years than all of us care to think about, farmers have been unlawfully dispossessed from their lands. No one could figure out why the courts would not uphold constitutional law, and protect the property and equity rights on those farms.

The farmers took out loans from the Federal Government that were being sold off as asset base of the Federal Government. The Federal Government sold off these loans, which they call assets, to the Inter-American Investment Corporation, a multilateral treaty organized crime ring. This organized crime ring then filed foreclosure notices on all those farms.

This organized crime ring then took possession of the farms, and the water rights. The courts refused to protect one single farmer's equity rights, or constitutional rights.

Over 1.5 million farmers bit the dust, lost their homes, their lives, and their properties, while George Bush's Inter-American Investment Corporation's ring members raided this land like a swarm of locusts in a wheat field! No law was applicable to this organized crime ring, who not only stole the lands, they stole all personal properties, water rights, and even the insurance on the lives of these farmers and/or borrowers.

This ongoing situation amounts to nothing less than racketeering and extortion and is further encouraged by the non-licensed non-authorized State and National Bar Associations and their bar members who sit on our benches of the courts of the people, turning the laws around and using the laws as a weapon against the people.

Think long and hard before you let this old Federal Government gift horse get a hoof on your land, folks. Read George Bush's Executive Order. This is the reason for the flooding situation: they sold off the infrastructure. Don't tell me this was not international for the Bio Diversity Treaty to take effect! Where in the hell did the tax dollars go which were supposed to pay for infrastructure?

Let's have a closer look at George Bush's Executive Order 12803, entitled "Infrastructure Privatization":

"Executive Order 12803. April 30, 1992. 57 F.R. 19063. Infrastructure Privatization.

"By the authority vested in me as President by the Constitution and the laws of the United States of

America, and in order to ensure that the United States achieves the most beneficial economic use of its resources, it is hereby ordered as follows:

"Section 1. Definitions. For purposes of this order:

"(a) 'Privatization' means the disposition or transfer of an infrastructure asset, such as by sale or by long-term lease, from a State or local government to a private party.

"(b) 'Infrastructure asset' means any asset financed in whole or in part by the Federal Government and needed for the functioning of the economy. Examples of such assets include, but are not limited to, roads, tunnels, bridges, electricity supply facilities, mass transit, rail transportation, airports, ports, waterways, water supply facilities, recycling and wastewater treatment facilities, solid waste disposal facilities, housing, schools, prisons, and hospitals."

From reading the Order thus far, we see that most all of America, as of April 1992, can be sold off to a "private party". But there is no definition for this most important term, "private party". If we understand that our Constitution and all of our constitutional rights have been suspended since (at least) 1933, and if we understand that our international borders are dissolving daily under treaty agreements such as NAFTA and GATT, it becomes clear that this "private party" need not be an American citizen, or even an entity with an American interest, other than an interest to take over America. Hell, under this Executive Order we can sell off everything to China, or to Russia, or even to the Queen of England.

This is how we sell Long Beach [Naval Base], California to China. They can even legally buy the railroad that runs from China Lake Naval Weapons Center to Long Beach, or the underground waterway tunnels for that matter. Where in the Constitution, under Article II which controls the Executive Branch, is the authority for the President of the United States to sell off America?

Executive Order 12803 continues:

"Section 2. Fundamental Principles. Executive departments and agencies shall be guided by the following objectives and principles [in part]:

"(b) Private enterprise and competitively driven improvements are the foundation of our Nation's economy and economic growth. Federal financing of the infrastructure assets should not act as a barrier to the achievement of economic efficiencies through additional private market financing or competitive practices, or both.

"(c) State and local governments are in the best position to assess and respond to local needs. State and local governments should, subject to assuring continued compliance with Federal requirements that public use be on reasonable and nondiscriminatory terms, have maximum possible freedom to make decisions

concerning the maintenance and disposition of their federally financed infrastructure assets."

We see here from Sec. 2 (b) that economic efficiency and competitive practices are more important than the barrier to these that federal financing can become. China, with its slave labor, has become as economically efficient as a nation can be. China's competitive practices are impossible for American workers to compete with, unless, of course, we choose to work for nothing, and, with almost all of the American worker's pay taken away with every form of tax, we've almost achieved parity with the Chinese slave laborers. The main difference may be that Americans still believe they have a Constitution, while the Chinese were brutally reminded at Tiananmen Square that they do not!!

We also see from Sec. 2 (c) that State and local governments are considered to be in the best position to deal with privatization. This means that the Chinese Government can send its trade officials directly to the Long Beach City Council, thereby circumventing and bypassing normal constitutionally authorized trade practices. Remember, nowhere in the Constitution does it say that any part of America can be sold off to the highest bidder, yet this is exactly what 12803 amounts to!

George Bush's Executive Order 12803 continues:

"Section 3. Privatization Initiative. To the extent permitted by law, the head of each executive department and agency shall undertake the following actions:

"(a) Review those procedures affecting the management and disposition of federally financed infrastructure assets owned by State and local governments and modify those procedures to encourage appropriate privatization of such assets consistent with this order.

"(b) Assist State and local governments in their efforts to advance the objectives of this order."

This Section proposes that heads of executive departments and agencies should modify procedures to encourage this so-called "privatization" which, in reality, is nothing less than selling America to her enemies! Is this not giving aid and comfort to our enemies? This is the very definition of Treason found in the Constitution at Article III, Section 3, Clause 1. Then George Bush committed Treason to the Constitution when he proposed this Executive Order and he needs to be brought up on such charges in a competent Court of the United States of America sitting at the Common Law.

12803 concludes with Section 7:

"Section 7. Judicial Review. This order is intended only to improve the internal management of the executive branch, and is not intended to create any right or benefit, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person."

These last words say that this order is not intended to create any right or benefit enforceable by a party against the United States, but the rest of this Executive Order says otherwise. And if it does create such a right or benefit (which it does), where are the provisions in this order to protect the rights and interest of the Sovereign Citizens of the United States of America (the true government)? There are no such provisions!

We've been had, over and over, so many times and in so many ways it boggles the mind. But if we don't soon bring these government officials (criminals all) up on charges of Treason, including most of Congress, George Bush, Bill Clinton, Janet "Butch" Reno, etc., etc., we won't have any place left to call America! Maybe we can call it the United States of China, or the Knighted States of England, or the New Old English Colonies!!! We must act now, in Wisdom (without guns), or kiss it good-bye! Anyone up for a march on Washington, D.C.?

Notes On Fat-Burning And United Nations Food Control Antics

6/4/97 #1 HATONN

Before the next paper runs I want to remind you that we need to do a little speech on *EPHEDRINE*. This new garbage is just more of the same, readers. What the FDA wants to accomplish is to have no resource for the asthmatic seriously affected by that disease. Ephedra (herb) is only positive in actions on the body as presented and utilized in other compounds. The problem is the same old thing, taking something [which is] good when used properly and the insane of your community utilizing it for the mind-altering quali-

ties. Well, there aren't any mind-altering qualities—but the response of the body can be deadly when taken in massive quantities—just like any other thing. Suppose you sit and eat two pounds of SALT? What do you think would happen to you? What about eating two pounds of coffee beans with all that caffeine? You are simply experiencing ONE MORE THING which WORKS being taken from you.

When given alone to a group of lab animals, ephedrine caused them to lose 14% of their body weight and 42% of their body fat. When caffeine or theophylline was added to the mix, though, the reduction in body

weight nearly doubled to 25% and the body fat loss shot up to 75%. Neither caffeine nor theophylline had a significant effect by itself. Obese human subjects who took the same combination found it to be twice as effective as ephedrine alone for increasing fat burning.

Now pay attention: IF YOU ARE ON A TYPICAL PROGRAM WHICH TELLS YOU TO TAKE "TWO" CAPSULES AT A TIME, BUT YOU GET "NERVOUS INSIDE" OR "SHAKY" OR "SICKLY FEELING"—STOP TAKING TWO AND FOR GOODNESS SAKES, TAKE ONLY "ONE"! If you still get symptoms of unpleasant feelings, STOP TAKING THE STUFF. My goodness, an aspirin is quite helpful to calm a headache, but you can't live and take 200 at a time—or perhaps, even ONE at a time—depending on circumstances. If you don't take control and responsibility for SELVES—you will not have opportunity before very long to take responsibility FOR ANYTHING IN YOUR LIVES. The hype-trade is using the ephedrine in its straight form and calling it things like Ecstasy and Euphoria and such. This is NOT what you are getting in a diet-assistance plan. It WORKS and THAT IS WHY IT IS BEING TAKEN FROM YOU AS FAST AS THE CONTROLLERS CAN DO THEIR DIRTY WORK. Remember that a steak knife used to cut tough meat on your plate is a deadly weapon when used with force across someone's throat with intent to kill. I'm sure you will find that THERE ARE NO FATALITIES FROM THE USE OF ANY OF THE COMMERCIAL DIET-ASSISTING PROGRAMS—every one of the serious cases of use of ephedrine or caffeine is in the crowd of mind-alteration seekers AND OVERDOS-

GAIA'S PREMIUM Sale GAIA TRIM

~~\$35.00~~
\$29.00
NOW!

What Is GAIA TRIM?

GAIA TRIM consists of two different formulas that are created with specially selected herbs, vitamins and minerals. GAIA TRIM synergistically alters the metabolism of fat cells, by encouraging the release and elimination of fat that is trapped. Metabolism is increased overall, which prevents further storage of excessive fat, by increasing the rate that fat is burned. Another remarkable side effect of this incredible product is the appetite suppressant qualities.

How Do I Use It?

GAIA TRIM is an easy addition to any lifestyle. Simply take 2 capsules of each product with breakfast, and again with lunch. Only minimal dietary changes are needed. The product creates body changes that include a sense of well being, which encourages you to make proper food choices and to include exercise in your life.

FAT

ING.

I was asked to give you a "program" that would work and I did. Nobody says you have to use it, or any other thing offered. But if things are used incorrectly you can end up nervous and foolishly inclined to be one who does NOT read instructions past the need to go get heavier glasses to read the information given. Willow Bark is another good herb (aspirin) but if you eat the whole tree's bark covering you are going to be really in bad shape—USE YOUR MINDS, THEY ARE THE MOST PRECIOUS GIFTS OF GOD—TO YOU!

The program itself, which we call GaiaTrim, while others call similar programs all sorts of other names, is as close to a *miracle* as you are going to find—IF YOU USE IT CORRECTLY. I will discuss "why" this is so as I find time from our absolutely necessary work. For instance, the body has white fat (more nearly a sort of yellowish color) and BROWN fat. The brown fat BURNS white fat cells and here is where, synergistically, these products produce their results. You want to turn up that conversion incineration so that you get rid of that white/yellow fat store-up. If you don't remember all of this information from our introduction—we will present it again in perhaps a better and more easily understood presentation. All the while REMEMBER SOMETHING: *I AM NOT PARTICULARLY INTERESTED IN YOUR FAT TISSUE! I TRY TO OFFER WHAT YOU ASK FOR AND SOMETIMES YOU SIMPLY HAVE TO GO BACK TO ZERO—AND USE YOUR MINDS.* Salu and good morning.

6/7/97 #1 HATONN

WEIGHT LOSS OR GAIN —AND YOU!

The world is all but falling apart and you want to know what this "Ephedra" thing is all about and what about your diet pills and, oh goodness, you just can't lose weight? Get some balance, readers, for weight is like any other thing which is functioning CORRECTLY in a body physical. If you eat too much, you gain weight. Want to lose weight? Eat less. It's as simple as that, but it is true. Ah, but the whole mechanism is hooked into your brain and if you starve your body the instant reaction is to lose some weight but the body immediately shifts into "starvation mode" and conserves everything.

So, what does ephedrine do and why would you even bother to get with a program which is having a product within its makeup that people abuse? Because it works.

To understand what I am saying you have to become familiar with a term, *thermogenesis*. THE METABOLIC PROCESS OF BURNING CALORIES IS THERMOGENESIS.

If thermogenesis is low, you burn up calories more

slowly than the rate at which they come in (low metabolism) and the body stores extra calories as fat. In this case, a "normal" amount of food may be "too much" because food intake needs to be balanced with use of calories or you store fat—nasty but simple.

If thermogenesis is normal, you burn calories as fast as they come in (normal metabolism), you won't have any left to store as fat, and you won't gain weight. In this case, a "normal" amount of food is considered just right.

If thermogenesis is high, you burn up calories faster than they're coming in (high metabolism), you start burning stored fat, and you lose weight. In this case, eating a "normal" amount of food may cause you to lose weight.

Ah, but what is planned for you in your new world order is such that these things will be no problem for the intent is to plan your consumption of food for the future and depopulate the world—and the chosen major means of doing so is through the control of YOUR FOOD SUPPLY.

You have white fat cells and brown fat cells. Thermogenesis is basically the process by which brown fat gets activated and burns white fat. It is controlled by the sympathetic nervous system (SNS), the same system that controls heart, blood pressure, lung function, and other vital bodily activities.

The major SNS neurotransmitters include adrenaline (epinephrine) and noradrenaline (norepinephrine). Among their other functions, these neurotransmitters switch thermogenesis on and off by stimulating little "on" and "off" switches called a-(alpha) and b-(beta) adrenergic receptors located on the surface of BAT cells or brown adipose tissue. Remember that the brown cells are designed to incinerate white fat cells for energy. If you can stimulate b-receptors you increase thermogenesis whereas stimulating a-receptors turns it off.

BACK TO EPHEDRA

Ephedra is a classic *sympathomimetic* agent, which means that it mimics the effects of endogenous sympathetic amine neurotransmitters, such as adrenaline and noradrenaline. It stimulates b-receptors—and not just those on BAT cells but b-receptors throughout the body. In the respiratory system, for example, stimulating b-receptors results in bronchodilation, which explains why ephedra has been so useful for treating asthma.

When adrenaline, noradrenaline, ephedra, other sympathomimetic agents, stimulate BAT cells b-receptors, the brown fat cells increase their oxygen uptake, which they use to burn more white fat. Moreover, chronic stimulation of these receptors seems to cause BAT cells to proliferate, explaining why thermogenic agents become even more effective when you use them for a long time.

PROMOTING SYNERGY

The weight loss generated by ephedra-induced b-adrenergic stimulation can be substantial, but it was discovered early on that combining this b-agonist with certain other substances could significantly enhance the stimulating effect. The first synergistic relationship discovered was with members of the chemical class known as the *methylxanthines*. The best known methylxanthines are caffeine and the common anti-asthma drug theophylline.

When given alone to a group of lab animals, ephedrine caused them to lose 14% of their body weight and 42% of their body fat. When caffeine or theophylline was added to the mix, though, the reduction in body weight nearly doubled to 25% and the body fat loss shot up to 75%. Neither caffeine nor theophylline had a significant effect by itself. Obese human subjects who took the same combination found it to be twice as effective as ephedrine alone for increasing fat burning.

BAT cells also have a-adrenergic receptors. Stimulating these receptors acts as a modulating force on thermogenic processes, like stepping on the brake pedal to slow the car down. When adrenaline or noradrenaline stimulates a-receptors on BAT cells, the net effect is to slow down thermogenesis. Is it possible to enhance thermogenesis by blocking a-receptors? Imagine putting a piece of wood underneath your brake pedal, so that when you step on the brake, it doesn't go all the way down. Not a good way to drive, but it is a good way to enhance thermogenesis.

One of the best a-blockers around is another naturally occurring compound called *yohimbe*, long known primarily for its prosexual activity. Since yohimbe blocks inhibitory a-receptors, the net effect is similar to that of stimulating excitatory b-receptors, that is, enhanced thermogenesis and decreased appetite.

Thus, combining a b-stimulant like ephedra with an a-blocker like yohimbe provides a powerful synergistic 1-2 thermogenic punch that both decreases appetite and boosts fat metabolism.

NOW LET'S ADD A BIT OF DHEA TO THIS MIX

One of the most interesting elements to come into the anti-obesity mix in recent years has been the hormone dehydroepiandrosterone (DHEA). DHEA's ability to significantly suppress weight gain was first demonstrated in the late 1970s in genetically obese mice.

Since then, numerous studies have demonstrated that DHEA can also reduce weight in obese rats, rabbits, and dogs. I really don't want to go into the DHEA possibilities here because it is easy enough today to get DHEA and take it as a supplement, with or without a weight loss program. Our topic here is EPHEDRINE which is under fire from the world of controllers over your beings.

Now readers, one topic moves so integratedly into others that I can't spend the rest of your days teaching you biochemistry and biology. I am asked to speak about GAIA-TRIM and its content of ephedra and caffeine.

You are, in GAIA-TRIM, receiving a perfectly balanced product with the proper ratios of "ingredients". If you choose to use the product and you find that the recommended intake leaves you nervous or "shaky", then reduce the intake.

Do you want the results of your intake or simply want to complain that "nothing works" or "I can't take that..." or "Oh well..."? With myself, it is, "Oh well..." for no matter what we offer some will simply not follow instructions, end up abusing the product or proclaiming that it is contaminated with dangerous things or just doesn't work. It certainly won't cause you to lose weight while sitting sealed in the bottles in the closet while you eat everything not nailed to the table or refrigerator.

Red Lentils & Adzuki Beans

Two of the tastiest, most "storable" foods are now available in bulk, 50 lbs. per bag. Prepare and cook them just like pinto beans. Wonderful soup extender and both make super salad/sandwich sprouts.

Adzuki Beans	50-lb. bag	*\$50.
Red Lentils	50-lb. bag	*\$30.

Order From *New Gaia*—Call 800-639-4242

* Plus UPS delivery charge

GAIA

We have been contacted by the Gaia Herb people who said we had been "turned in" to them for using the term GAIA. How very interesting, after the EXTRA program and, yes, we know who passed along this wondrous information. We can turn around and destroy them but what merit would that be, do you suppose? It is up to you people, readers, what you want from us and what we are longer willing to serve up to simply be bashed and trashed. We don't have any obligation to serve up something to trim your body OR FILL YOUR MIND.

There is a corporation, GLOBAL ALLIANCE INVESTMENT ASSOCIATION which alphabetically (first letter each word) spells G.A.I.A. Do the Gaia Herb people want to shut down that inter-global, international humanitarian entity? Come on, people, while Rome burns—you fiddle.

GAIA TRIM is only one, and a minor one at that, of hundreds of these products now on the market and NONE of the compounded products have damaged ANYONE. The abuse comes from the straight-lining of the "desired" resulting feelings from intaking these herbal products. So again, while you have availability and if you like the product—I suggest you stock up a bit because the intent is to pull it all from the shelves just as quickly as the laws can be laid on you. [Sale starts June 16th, thru the 30th on GAIATRIM, see ad on p. 21.]

UNITED NATIONS.
YOUR FUTURE AND
DEPOPULATION

I am going to now speak on something that is circulating around on your Internet, apparently coming off somebody's web-page called Andre Dzikusby who sends it out via information habitat.

He includes a letter of May 27, 1997 and we can briefly offer what we are given as we realize that most of you people are not hooked onto a network of computer buffs. We aren't either so as things come past our attention which are pertinent, we want to share them—especially if they are about upcoming meetings, symposiums and seminars by the New World Order which will change life as you now know it to be.

[QUOTING:]

UN TO PLAN
YOUR CONSUMPTION OF FOOD
FOR THE FUTURE
AT JUNE SPONSORED
SYMPOSIUM

"WE", the people, can't decide such important matters as what and how much we eat because we, the people, are simply too stupid, according to the pluto-

FRANK & ERNEST ® by Bob Thaves

crats. However, the most important and true reason for human food management is that food is being used as a weapon for total human submission, as it has been used in countless other nations for years. One recent example in a Business Week article, May 26, 1997, titled "Catastrophe in North Korea: The Only Hope is China"—U.S. Ambassador to Seoul, South Korea, James T. Laney said, "Beijing could then make food aid to the North contingent on economic reforms and military disarmament. Beijing could give North Korea a Chinese-model blueprint for reviving its economy and make it clear that food aid comes with it." Furthermore, a US diplomat suggests that North Korea exchange its oppressive regime for yet one more barbaric one.

"IN ORDER TO STABILIZE WORLD POPULATION, WE MUST ELIMINATE 350,000 PEOPLE PER DAY," Jacques Cousteau in 1991, UNESCO Courier.

So, read this next with attention. It is to: habitat partners network; NGO committee in Human settlements, earth summit two.

Tuesday, May 27, 1997 10:20 AM

Dear Colleague,

I am pleased to inform you that the United Nations Centre for Human Settlements (Habitat) is organizing a one-day Symposium on the theme: "Changing Consumption Patterns in Human Settlements", to be held at the United Nations in New York on Tuesday, 24 June 1997 as a part of the parallel events of the United Nations General Assembly special session on sustainable development.

The event will be an important follow-up to the United Nations Conference on Human Settlements (Habitat II), addressing the goal of sustainable human settlements development in a rapidly urbanizing world. The Symposium is aimed at bringing together new thinking on sustainable consumption in human settlements, in the growing cities of the developing and the developed world in particular, where the majority of the world's population will live and work by the turn of the century, where most economic activity will take place, natural resources will be consumed and pollution generated—with consequent impact on the environment.

The Symposium will also provide a forum to present the findings of an expert-group meeting on the same theme organized by the United Nations Centre for Human Settlements, in cooperation with the United Nations Department for Policy Coordination and Sustainable Development, at the United Nations in New York in April 1997. The attached flyer gives more information on the event.

Should you require any additional information please do not hesitate to contact this office. Your participation in the symposium is welcome.

Yours sincerely,

Kalyan Ray *Chief, BIT/RDD *UNCHS (Habitat)

*e-mail: kalyan ray@unchs.org

AND, just who is one of the big dogs at this little

symposium wherein the decisions will be made for your life and death and where you do it?

MR. MAURICE STRONG, Chairperson, Rio +5, and Chairman, The Earth Council. This is basically the strength in the UN as relates to the Head of the UN, Kofi.

The fat's in the fire, people, and there isn't enough ephedrine in the world to bail you out.

From the Wall Street Journal, Wed, Jan. 10, 1996

BLUEPRINT FOR FOOD

[H: This is just to take you back a bit and remind you that this is NOT something new this morning.]

BLUEPRINT FOR MANAGED FOODCARE
by Karl-Otto Liebermann

The time has come for the eating public to face a stark reality: The consumption of food, if allowed to grow at the present rate, will bankrupt our great nation.

Production of food has risen from 10% to more than 30% of the gross domestic product since 1945. The Congressional Budget office projects that by the year 2010 Americans will spend more money and time on eating than on working, vacationing, and being sick combined. To counter this threat, a junior U.S. senator (whose name has been withheld upon request) has begun to draft legislation designed to fundamentally reform the way Americans consume food.

The proposal, preliminarily dubbed "Managed Foodcare", promotes the cost-efficient consumption of food by regulating access to stores and restaurants. It preserves the principles of consumer choice and free competition.

A brief outline will illustrate how the reforms benefit the average eater. Each year, during the last week of December, consumers have the choice of signing up at their preferred grocery store or restaurant for the year to come. These two main retail markets for the distribution of food are referred to as Primary Food Providers.

Employers will by law be required to offer employees a choice among at least three so-called Food Benefit Plans. FBPs describe what stores, restaurants, kinds of food and menus will be covered by the plan. FBPs will also furnish comprehensive brochures listing the items approved, such as certain cereals, vegetables, meats, and so on.

The lawmakers anticipate that the opportunity to choose only once a year what to eat for the next 12 months will save families innumerable hours of time now spent on gazing at store shelves or menus and comparing brands and prices. During the year of the plan, consumers will be obliged to buy all their food at the chosen store and eat at the restaurant they elected. There will be a designated copayment; they will also pay a monthly premium to a Food Management Organization.

FMOs, whose formation will be encouraged under the legislation, are privately owned corporations. They control the production and manage the distribution of food based on a highly variable Cost Efficiency Quotient, whose numerical value is directly proportional to the value at which the FMOs' stocks are traded on the open market. FMOs contract with Primary Food Providers to provide the most cost-efficient nutrition to their enrollees.

The key element of the reform is known as "capitation". Basically, stores and restaurants will receive a fixed annual amount of money from their FMO for each enrolled customer, regardless of how much or little he consumes during the year. If the enrollee spends more than his allotment, it will be the provider's loss; if less, it will be the provider's gain.

Legislators from New York and California have objected that some people habitually eat more than others or have developed rather idiosyncratic and expensive tastes. Such behavior, comparable to the reckless spending of health dollars by people with chronic or terminal illnesses, could quickly bankrupt the provider. To counter this fiscal threat, the FMOs will maintain personal customer records listing all purchases, creating an "Individual Consumption Profile" (ICP) for each member. The ICP is subject to periodic review and approval by the FMO.

People with excessive ICPs are considered "high risk" and may eventually lose their right to be re-enrolled in any FMO. (Soup kitchens and self-help groups will no doubt assist these misfits.)

To rein in abuse of specialty shops and gourmet restaurants, access to these establishments will be controlled by the primary food providers. They will serve as "gatekeepers" and decide whether and when a consumer should be referred to specialty providers such as Italian bakeries or French restaurants. Their decisions will be guided by their conviction that packaged breads and cakes or fast food can meet the same nutritional needs as delicatessen food.

They also recognize that the more money from a fixed, capitated amount that consumers spend on outlandish food, the less will remain for primary food providers.

The proponents of Managed Foodcare sum up their argument by pointing out that their proposal preserves and protects genuine American values. The new laws support yearly renewable consumer choice, and at the same time reduce unnecessary and costly culinary options. They encourage corporate and individual responsibility by rewarding thoughtful management of food supply and demand. Capitation will further thriftiness, invention, and imaginative sales practices. Ultimately, Managed Foodcare will accelerate the accumulation of capital in the hands of those who know best how to promote a healthier and leaner America.

[END OF LETTER]

The writer, Dr. Liebermann, is an associate clinical professor of psychiatry at Yale University School of Medicine. Is he possibly a member of the elitist Yale club, "Skull and Bones," aka the Brotherhood of Death?

[H: I would now like to share with you some additional comments from the same source and then we will just leave it, again, with you to try to digest for things are getting worse and those of us who try to serve you are simply getting put down harder and harder—and frankly NO, IT IS NOT WORTHY OF OUR TIME OR INTEREST FOR WE CAN'T "SAVE" ANYTHING!]

Continuing quoting:

Those of you who know nothing or very little about Liberalism, a de-emphasis of Socialism, which is nothing more than a softer word for Communism, had better study the subject, if you care about your future. Do yourselves a great favor and start by reading the *Communist Manifesto*, compare it to the *U.S. Constitution*. You will be shockingly enlightened to discover the utter usurpation of power in the U.S.A.

The "ultimate" objective of Socialism/Communism

is not the re-distribution of wealth, but the control of the people of the world by a tiny group of appointed World Dictators, with the help of an ignorant, dumbed-down "peace-keeping force". This is exactly why the United Nations was founded. Get ready, folks!

Daniel Webster, (1782-1852) Congressman and patriot, once said (prophesied) that: "...There is no nation on earth powerful enough to accomplish our overthrow. Our destruction, should it come at all, *WILL BE FROM ANOTHER QUARTER. FROM THE INATTENTION OF THE PEOPLE TO THE CONCERNS OF THEIR GOVERNMENT, FROM THEIR CARELESSNESS AND NEGLIGENCE.*"

"This year will go down in history. For the first time, a civilized nation has full gun registration! Our streets will be safe, our police more efficient, and the world will follow our lead into the future." ADOLPH HITLER - 1938

Stalin said: "America is like a healthy body and its resistance is three-fold: its patriotism, its morality, and its spiritual life. If we can undermine these three areas, America will collapse from within."

Stalin - Dictator of the Soviet Union, (1929-1953). Responsible for over 45,000,000 *KNOWN* deaths.

[H: So let me leave you with some more pounding of nervous focus.]

CLINTON'S NEW FEDERAL LAND USE SCHEME BYPASSES CONGRESS

[More Quoting]

In an end run around Congress, President Clinton, Vice President Al Gore and the Council on Environmental Quality (CEQ) unleashed a plan in the Federal Register May 21, to create the American Heritage Rivers Initiative by presidential *PROCLAMATION*.

Since Clinton's announcement in his State of the Union Address that he will designate 10 rivers this year, the CEQ and 13 Federal Agencies have hammered out a new federal land use scheme under the guise of "restoring and protecting America's Rivers". In an unusual move, they have only allowed a two-week window (due by June 9) for public comment, effectively curtailing public input and criticism.

This plan has been skillfully constructed to appear as another good deed to save the environment; however, the implementation of this program will place an unprecedented federal stranglehold on property owners.

KEY POINTS

- * The initiative proposes to control rivers for "natural, historic, cultural, social, economic and ecological diversity".

- * Encourages cooperation and approval by local governments with the lure of major federal grants.

- * Nominations of rivers can come from any source in or outside a "river community" including private citizens, educational and arts organizations, environmental organizations and elected citizens.

- * Designation of a river will be permanent and can include the entire watershed, including all tributaries that come off private property.

- * 13 Federal Agencies will be involved in the planning, implementation, management and enforcement of the Heritage Rivers.

- * Together with the agencies, a federally appointed "River Navigator" will control all land use and management activities within the designated area.

- * The federal agencies will be granted "flexibility from certain bureaucratic requirements", effectively allowing them to create special privileges for themselves while those affected must abide by their rules.

- * Aerial photography and satellite surveillance will be used to police and expand the program.

- * Finally, only the president has final approval of

the initiative.

[END OF QUOTING]

And may the FORCE be with you!

Do we have to continue to offer all this "bad news"? No, we can tell you to close your eyelids down and drift off to wonderland but that is not our course commitment. You can't stop a thing, change a thing (good or bad, from or to) if you don't know what is going on. Those are your discernments and judgement calls.

Then, what ARE those revelations? Oh my, revelations are what are happening to you—NOW. And readers, you can put all your prophets out of business, lock them away and bury the key—but will it CHANGE THE PROPHECIES?

And yes indeed, I guess you can call me a "prophet" if a prophet is one who sees ahead, experiences the visions, proclaims that which is seen and experienced and IS ALWAYS 100% ACCURATE. You want to disclaim our potential accuracy because you continue to try to prove we are WRONG somehow because the clock didn't strike 12:00 midnight and the "big one" happens. What happens, readers, if your clock doesn't have a battery and NEVER shows 12:00 midnight? Does that mean that 12:00 midnight is not going to roll around?

People around the world are STARVING to death for lack of food for the body and fuel for the SOUL AND SPIRIT.

Most of the "others" are so malnourished as to be in equally bad circumstances—but with their bellies full.

Please know it is very difficult for us to spend time speaking about weight loss stuff and mind-altering stuff—when the world is on a sinking course in this ocean of debris and evil thought-streams in so many, many life-streams. Perhaps you will enjoy some fat on your bones when the government comes up with the new "FASTING" program for your weight control.

Will we continue to struggle against all odds to keep you with the ability to have products which we offer? No. We already can't meet the expenses so, NO, we won't. We have no more right to force anything off on you than anyone else, including the New World Order.

"Well, I just can't make up my mind..." comes the big howling. So, don't! Is it so hard to realize RIGHT from WRONG, TRUTH from LIES? You will do exactly that which you will do and no amount of chatter will change it. I can pray and hope that you listen, comprehend a bit and learn—but beyond that offering, I have no other permission to cause you to do anything. The dictators and controllers of the world will do enough of that controlling bit without even my consideration.

When the world seems no longer possible for your habitation and you are closed in upon by the "things of man's tampering"—go without somewhere where the sky is your upper space and the wonders of natural phenomenon allows for the resting of your feet—and KNOW God. You WANT IT ALL and you WANT IT RIGHT NOW! Fine—but you won't have it so do you fold your tents and migrate to the solitude of the cave or continue to make creative movements? AND, IF NOT YOU—WHO?

Am I going to twist arms so that you get what it is you WANT? NO, not by your shinny shin shin. We provide possibilities and you will do the rest—or it won't be done.

You can pick and blame others on the team for your inability to do or have what you want—but guess again—you are responsible for self and if you don't get what you want when you THINK you want it—you had better look around at just WHO MIGHT BE SAVING YOUR ASS!

Good morning and I salute you for whatever you are doing or are about to do—for that is the way of God in His eternal gift of free-will allowances.

Esu Sananda: Your Destiny Is Growing Toward The Infinite

6/7/97 ESU "JESUS" SANANDA

Good morning, my scribe. Thank you for sitting this day. There is great desire coming forth from many for understanding of who they are and why they have chosen this path at this time. I am Esu Immanuel "Jesus" Sananda come in the Radiant Golden-White Light of Creator Source.

It has all been written prior and you ones would be wise to review your past lessons (our discourses on these various subjects). There are many new readers and participants awakening at this time and many who simply need a gentle reminder of these lessons.

Let us begin with WHO you are. You, the non-physical YOU, are an infinite thought projection of the One who created you (GOD!). You are the product of His desire. You are, in effect, Desire manifest in uniqueness of purpose.

In the creating of YOU, you were given, in balance, all that you need in perfect proportions so that you could fulfill the purpose of your being. This is to say that you were each given part of Creator's Light Essence in perfect proportions that will allow for your own uniqueness to manifest. No two were given the exact same proportions of the various aspects of Creator's Infinite Spectral Range.

This is NOT to say that some are better than others. It is simply stating that all are unique in purpose and yet come from One Source.

God is infinite creativity. You are each a product of His creativity manifest in the form of Light Essence. Please keep in mind that we are still referring to the INFINITE you, NOT the physical body that many erroneously perceive as being the entity of themselves. You each are electromagnetic (LIGHT) thought projections of Creator and you carry HIS "genetic" signature

within your being. This is to say that you are created in His image—LIGHT! YOU ARE GOD MANIFEST!

You carry within you ALL of the infinite creative potential of the One who created you. This leads us to the subject of WHY are you there.

You each wish to explore the various aspects of your being and test your own uniqueness in your own unique way. One major aspect of Creator's desires is to expand and grow. You are part of His desire to do so, and when you grow individually, He is growing alongside of you.

As a "genetic" subset of the One Whole, you must first come into understanding of the impact of that which you are capable of manifesting. You have INFINITE potential within. Potential is the same for each—infinite!

Each individual is at a different level of understanding of HOW to responsibly direct and control this infinite potential. There have been structured various schoolrooms so that ones can come into detailed understanding of the various aspects of harnessing and controlling this infinite creative potential.

The physical (third dimension) is but one, small, yet important, classroom or laboratory in which to explore. You will find yourselves surrounded by ones facing similar challenges upon any one level of experiencing.

Each is efforting to understand, and thus unlock, the doors of the mind that will lead to ever greater and greater understanding and ability to utilize this INFINITE potential. Each will do so in a unique manner and approach according to who they are and the purpose that

God has projected forth into their being. No two will have the exact same path in reaching the answers that unlock this potential, and in the searching comes the creativity of experience.

Now I wish to speak about a certain subset of all those experiencing here on Earth-Shan at this time of the Great Transition. And here I mean those who we of the Hosts refer to as Ground Crew.

If that were not enough, you have also chosen to take on the responsibility of assisting your younger brothers through a turbulent time, as they are, for the most part, resistant to change. You are, in effect, part of the team that is fulfilling God's promise to send forth His Hosts and to spread the Word to any and all who will hear and hopefully listen.

Most of you who are Ground Crew have chosen to come into the physical to explore during a time of great shift in planetary awareness. This shift will present unique opportunities for you each to experience

in conditions most favorable to forward growth and realizations that will help you to unlock doors that were closed and bolted by YOU, out of fear and/or overwhelm, long ago.

This does not mean that you will somehow grow and expand by default. It simply means that the opportunity is there and that you have all the tools that you will need to RECOGNIZE and OVERCOME your current limitations.

Many of you have left behind talents and abilities so that you would have a "real" challenge, and so that you would not be easily distracted by the attention that your talents would bring. This is to say that many of you are experiencing without the benefit of your whole self so that you will "fit in" and so that you would be more focused on your personal growth in very specific areas.

If that were not enough, you have also chosen to take on the responsibility of assisting your younger brothers through a turbulent time, as they are, for the most

**TO GET NOWHERE,
FOLLOW THE
CROWD**
—God's Chewable Vitamin "C" For The Spirit

part, resistant to change. You are, in effect, part of the team that is fulfilling God's promise to send forth His Hosts and to spread the Word to any and all who will hear and hopefully listen.

Many of our Ground Crew are under severe attack at this time. Many are dropping out and not keeping up with the messages that will educate them about how to survive the upcoming Planetary Transition. Many are going through a cleansing period that will cause them to confront the very demons that caused them to stumble in the past. These are indeed trying, yet quite valuable, opportunities to grow past the fears and move forward into understanding and knowing.

Be thankful for ALL of your challenges, for even the smallest of annoyances will provide you with insights about the self-imposed limitations that you have placed upon yourselves. Take time to look at and analyze ever these smallest of annoyances, for when you truly understand

what is causing the annoyance within you, you will no longer manifest the need for the annoyance and it will be gone from your experience. This is not to say that ALL annoyances or challenges will be gone. It is to say that great value and insights can be gleaned from understanding even the smallest of bothers.

You shall be finding that the challenges you experience from here on out will continue to grow, and you will have to keep up with the ever intensifying pressures of survival—both mentally and physically. If you find yourself in an overwhelmed state, then I, Sananda, suggest that you call upon The Light for balance and guidance.

For some of you, the challenge of focusing a thought is quite difficult, and many feel as though they are simply not connecting with the Inner Light Source.

I will here offer a suggestion that will help you to focus upon The Light. This is NOT in any

way a necessary thing to do, but it can be quite helpful:

Light a white candle.

White because it symbolizes purity. The flame represents energy and it produces a natural white light—and it will dance around with a life of its own.

See the flame and know that, with each flicker, the darkness is expelled from your space. Know that all you have to do is look at the light from the candle, and it will reaffirm your Light shielding and support your mental intention that the darkness be gone from your space.

This is but a helpful suggestion to any who feel that they are having difficulty clearing, or keeping cleared, their space.

Allow for the challenges of this life's experiences to present themselves to you. Know that you need each in order to fulfill your goals and manifest the true joy that comes from inner personal growth.

Remember, please: YOU are the

Light Workers who are manifesting God's promise to the world—even if "all" you do at the present moment is quietly read that which is offered.

There shall come a time in this life experience when you will be inspired to offer that which will quell the confusion of your neighbors when their world and reality are being shattered.

Right now, persistence and patience are the keys to success because "sequences of events" (not the ticking of a clock) dictate progression and unfoldment of this Planetary Transition event. For many, that which is about to manifest in your physical experience will indeed SEEM to come upon them "as a thief in the night", for these ones continue to sleep in their state of ignorance and illusion.

I am Esu Immanuel Sananda, One with Creator Source, come as promised. In Light and in Love, blessings to you all. Salu!

There shall come a time in this life experience when you will be inspired to offer that which will quell the confusion of your neighbors when their world and reality are being shattered.

The timid man yearns for full value and demands a tenth. The bold man strikes for double value and compromises on par.

— Mark Twain

PHOENIX JOURNAL

AND THEY CALLED HIS NAME IMMANUEL — I AM SANANDA

BY SANANDA & JUDAS ISCARIOTH
(J2) \$6.00 199 Pages (with Index)

The story of the life of the one known as Jesus of Nazareth (Immanuel) is told by Jesus and his disciple and scribe, Judas Iscariot. Judas' name is cleared and the actual one who betrayed Immanuel is revealed. Clarification is given concerning Immanuel's life and teachings, such as: The Purpose Of His Life—His 40 Days With Cosmic Beings—His Crucifixion, Resurrection And His Journey After Resurrection—Clarification Regarding God, The Creation, The Laws And Commandments. (INDEX INCLUDED)

Some of the topics discussed are:

- *THE GENEALOGICAL TREE OF IMMANUEL (JESUS)
- *Gabriel And The Pregnancy Of Mary
- *The Birth Of Immanuel
- *The Three Wisemen
- *Baptism Of Immanuel
- *Celestial Sons To Reveal Themselves
- *Marriage And Cohabitation
- *Why He Used Parables
- *The Suicide Of Judah Ihariot
- *Doubting Thomas
- *Mohammad's Coming Prophesied
- *Saul And Immanuel

AND THEY CALLED HIS NAME IMMANUEL

TELEPHONE HOTLINE

805-822-0202

This is a service for our dedicated readers. *Today's Watch* telephone hotline carries the latest news and comments from Commander Hatonn's most recent writings. This is our way of keeping you informed about fast-breaking news and events.

The message machine will answer after 2 rings if there are any new messages for that day, and after 4 rings if not. Thus *daily* callers can hang up after 2 rings and save toll charges if no new message has been recorded. If the hotline does not answer your call then that means that there is currently no hotline message.
