Which News Is *Real* News?

The Rest Of July & August

7/20/97 RAY BILGER

Consider the following items as a kind of composite news update on the world (including geophysical) scene. Any one of these, alone, may not necessarily raise a "red flag", but they are like pieces of a puzzle which, when taken together, create a most serious picture. So consider the following items in stark contrast to the controlled media's pageantry and blather:

1. Commander Soltec cautioned, on July 3rd, 1997, in a communication which first appeared on the *CONTACT* Telephone Hotline on the same day, that "Further pulsing (of the San Andreas Fault) will surely trip the fault before month's end (July)—barring some major volcanic eruption in Mexico or quake in Japan that relieves the stress". Just in the past

several days there have been a number of large South American and South Pacific quakes reportedly of magnitudes approximately in the 6 range. As well, there has been a general increase and intensification of quake activity all around the Pacific Plate, as well as quakes occurring in locations not generally prone to such activity.

2. The June 24th, 1997 issue of *CONTACT* warned of an "Islamic Holy War" the week of July 20-27 wherein Anthrax and Bubonic Plague could possibly be released on the American public. Exactly who (more likely the New

'MOCK ANTI-TERRORIST ACTION'

Excerpted from the INTERNET, 7/7/97, [quoting:]

Councilwoman Barwood in Phoenix says that Military/FEMA is going to do a SIMULTANEOUS 'mock anti-terrorist action' in our 27 largest cities. The troops have already arrived in Phoenix! This is so dangerous...or is this a cover to round up the 100 cells of Iraqis with their poison?...or an excuse to declare Martial Law when it isn't necessary? [End quoting]

What is really going on between the U.S. and the Iraqis? Are the Elite trying to build up your hatred again so they can have a good excuse to start another war with Saddam, or enforce martial law; or is it true that the Iraqis have cells here in the U.S. ready to get revenge with biologicals?

It's difficult to know just what is the truth—especially when the key to the game is fabricating the most elaborate deceptions.

Be very discerning—they couldn't do what they are getting away with if they were not masters at this game. In any event, be prepared for the worst for "we the people" as plans unfold.

INEXPERIENCED INVESTOR THREAT

From *THE CHICAGO SUN-TIMES*, 7/7/97, [quoting:]

MUNICH—International financier George Soros said that the world stock markets may be headed for a crash caused by a panic among "inexperienced" investors, the weekly magazine *Focus* reported. "Lots of new investors are appearing who have only a little experience with financial markets," Soros said in an interview with the magazine. "If this trend suddenly comes to a halt, the investors could fall into a panic and leave the market at once. Then there would be a stock market crash." [End quoting]

The market just went over 8000 on the Dow Jones Chart yesterday (7/16/97).

This will be a stock market crash to beat them all and it will happen if the Elite have their way—it's just a matter of when. **BE PREPARED!!**

SHOOT-OUT CAUSES WACO-LIKE CS GAS FIREBALL

From *THE JUBILEE*, May/June 1997, [quoting:]

On Friday May 2, 1997, San Diego police attempted to serve a warrant at a house in the suburb of National City and were greeted by automatic gunfire. Police exchanged gunfire with the suspected criminals inside. The confrontation lasted over an hour and was videotaped. CS gas, the same type used in Waco, was shot into the house. According to the *Union Tribune* newspaper, as the CS gas filled the house it ignited and caused the entire structure and surrounding palm trees to be engulfed in flames. Two people inside the house died of either gunshot or incineration.

The recent Los Angeles bank robbery shoot-out gathered hours of national media attention. Yet the San Diego shoot-out, every bit as "exciting" as Los Angeles, has been completely ignored. Why would national and major media ignore a story that has all the notorious visual elements so attractive to media sensationalists?

During the Waco hearings 3 years ago the federal

government maintained that CS gas was not flammable. This formed the basis of the mass suicide charge against the Branch Davidians. The Branch Davidian ranch burst into flames after the FBI and other federal police pumped CS gas into the occupied buildings. Attorney General Janet Reno approved the use of CS gas.

This recent incident with CS gas affirms the conclusions of earlier reports, which stated CS gas to be flammable and its use restricted to out-of-doors. The CS gas explosion knocks the legs from under the Branch Davidian mass suicide theory.

America is facing the very ugly reality that Federal Police, under the direction of Attorney General Reno, used a flammable gas on the Davidian ranch and then concealed the resultant incineration of approximately 60 adults and 20 children.

Congressional hearings, held in the wake of the Davidian incident, whitewashed Federal actions. The national media did yeoman's work in perpetrating the mass suicide theory on the public. [End quoting]

The local police are copying the Federal "police"—"Like daddy, like son."

When are we going to stop these blatant acts of terrorism and murders?

FBI DIRECTOR SPEAKS STRAIGHT?

From *THE JUBILEE*, May/June 1997, [quoting:]

FBI Director, Louis Freeh, seemingly buried the hatchet against militias while testifying before the Senate Subcommittee on Terrorism June 4, 1997. "We've worked very hard to try to evaluate and analyze the activity (of the militias). Most of the militia organizations throughout the country are not, in our view, threatening or dangerous." Mr Freeh went on to explain that the instances with the Republic of Texas, the Freeman and OKC were not representative of what the county sheriffs around the nation were feeding back to the FBI concerning militia behavior and activities.

This story, under a news blackout by the national media, was contributed by PIML (*Patriot Information Mailing List*). [End quoting]

Don't believe these liars. They'll say anything to put you to sleep as they stick their knives into your back.

Remember God does not work with guns and revenge—He uses positive actions to gain victory. Hopefully you will listen for His guidance—the greatest leader ever!!

TURKISH ARMY BRACES FOR ISLAMIC UPRISING

From *THE ORLANDO SENTINEL*, June 15, 1997, [quoting:]

ANKARA—Turkish military cadets hear a revered name called out at the end of their graduation: Gen. Mustafa Kemal Ataturk, the founder of modern, secular Turkey.

In unison, they shout, "In our heart!"

The separation of Islam and state is ingrained in the hearts of the 750,000 member Turkish military, NATO's second-largest army. More than any other institution in Turkey, the military adheres to the idea of secularism.

A perceived threat to that ideology is a major force behind the army's increasingly fierce and open opposition to Muslim politicians in Turkey's government, such as Prime Minister Necmettin Erbakan, who want to create a more Islamic nation.

Top generals delivered a blunt message to Islamic

activists last week that they feared a religious revolution and warned they might use force to stop it.

Ideology isn't the only factor in the military's reaction—there are fears a truly Islamic state would challenge the army's political and economic power.

The officers make up a highly respected elite class. They have a major say in Turkey's course by being part of the National Security Council, which oversees the country's foreign and domestic policies.

The military entered business in a major way in the 1970s. In addition to military-run hotels, holiday villages, supermarkets and housing projects, the army owns the Oyak company, which produces Renault cars locally.

The installation of modern Turkey's first Islamic-led government 11 months ago put the military on alert. The generals grew increasingly uneasy as the government permitted female civil servants to cover their heads in Islamic style, built a mosque at the center of Istanbul and then rearranged work hours to fit fasting hours during the holy month of Ramadan.

Tension rose further as parliament members of the Islamic Welfare party joined rallies calling for an Islamic regime and took vows to crush the secular republic.

In a briefing Wednesday, Gen. Fevzi Turkeri declared that Islamic radical groups were poised for an uprising and the military might use force to crush it.

"It is the Turkish armed forces' duty to safeguard the modern Turkish republic. It is part of the national military strategy," Turkeri said.

Despite the tensions, officials from eight Muslim countries met Saturday in Ankara to put the final touches on plans for a Turkish-led economic cooperation group.

Erbakan said the group—the Developing 8—would promote a wide range of ties, including banking, scientific research, transportation, energy and tourism. The group will include Egypt, Iran, Nigeria, Pakistan, Indonesia, Malaysia, Bangladesh and Turkey. It is to be officially inaugurated today. [End quoting]

Another "divide and conquer" game in the "powder keg" area of the world??

INSECT EXPLORERS

From *AVIATION WEEK & SPACE TECHNOLOGY*, April 7, 1997, [quoting:]

Scientists at the Jet Propulsion Laboratory, Pasadena, Calif., are working to develop a new generation of extremely small, expendable robots. Called biomorphic explorers, the tetherless, mobile robots could range from microns to inches in size and could be mass produced according to Sarita Thakoor, principal investigator. Designed to perform a specific sensory or sample acquisition function and report back upon achieving success, potential uses include low-cost scouts or exploration of narrow crevices and inhospitable terrain on Earth as well as other planets. The miniature devices also could be used to inspect hazardous environments or support search and rescue operations. As envisioned, light-energized thin-film piezoceramic flexible actuators would serve as directly driven, active mobile appendages or legs, alternately flexing and deflecting when illuminated. Innovative mobility mechanisms, capturing the features of an inchworm, are being studied and implemented, Thakoor said. Feasible for deployment in large numbers, some biomorphic explorers might resemble swarming ants with a thumbnail-sized body and multiple appendages or legs. [End quoting]

Granted, this technology can benefit mankind in many ways, but the Elite have an addiction to using miniature technology to do us in.

You never know how small a "living" spy can be—an artificial ant, fly, roach, etc.

Also, microdot chip transmitter/receivers have been around for many years and they also make good implants.

FILMMAKER PAT MATRISCIANA SUED \$16 MILLION SOUGHT IN DAMAGES

From *THE NATIONAL EDUCATOR*, 6/97, by Jean Duffey, [quoting:]

Pat Matrisciana is one of my conservative allies. I don't suppose you get much more conservative than Pat. He owns Jeremiah Films, which specializes in the production of Christian videos, and he is president of Citizens For Honest Government, which is launching a campaign to call for the impeachment of Bill Clinton.

Pat, Jeremiah films, and Citizens for an Honest Government have been sued for \$16,000,000 over Pat's production of the video, *Obstruction Of Justice: The Mena Connection*, in which my opinions are expressed about why the crimes of Mena, including the train deaths, have been covered up for more than a decade.

Pat gave Linda Ives and me the opportunity to tell our Saline County, Arkansas story when no one else would.

The plaintiffs are Jay Campbell and Kirk Lane, two police officers who were implicated by witnesses in the murders of Kevin Ives and Don Henry. The video makes that very statement, and Pat is being sued for it. Although we welcome the opportunity to get any part of this case into court any way we can, we must be prepared to combat our adversary in and out of court. The plaintiffs will have most of the mainstream media on their side which will likely try the "divide-and-conquer" tactic against us.

We fully support Pat in this matter, and will be participating in raising funds for his defense.

We are looking at this suit as the forerunner of a wrongful death suit Linda Ives has been hoping to file this fall. The discovery process for Pat will make invaluable records available to Linda. This suit may, in fact, be the biggest mistake those responsible for the murders and coverups have ever made.

Pat's statement to me upon hearing the probable cost was: "That's a small price to pay for exposing murderers."

We who seek truth need to support and encourage Pat as he will no doubt go through a difficult and trying time. The most practical way would be to call Pat's legal defense fund at 1-800-251-8089 and make a contribution. Likewise, joining Citizens for an Honest Government would be a really supportive act.

About two years ago, the British journalist, Ambrose Evans Prichard, told me he thought the train-deaths case was going to be the loose thread that unravels Clinton's presidency. He could very well be right, and if he is, a donation for Pat's defense will be an investment in our country's future. [End quoting]

It's certainly good to see that people are putting up resistance to the Elite and their terrorism without using guns and violence—which is the only way that they will be stopped.

NANOTUBE CABLE STRONGER THAN STEEL

From *POPULAR MECHANICS* magazine, 7/97, [quoting:]

Before men flew in space, a science-fiction writer fantasized about riding into orbit aboard diamond-cabled elevators anchored to an asteroid that had been shifted to a perfectly stable orbit between the Earth and the Moon.

Recently, scientists here at Rice University and Switzerland have manufactured a material strong enough to be used as the elevator cable. It isn't made of diamonds, but of honeycomb-shaped carbon structures called nanotubes. Between 10-to-12 times stronger than steel, a strand narrower than a human hair could suspend a fully loaded semitrailer.

Even if a space elevator is never built, researchers say nanotubes will find their way into a variety of aerospace applications. They could also be used in bulletproof vests, sports equipment and automotive parts. Electrically conductive nanotubes could wire computer chips. [End quoting]

Another example of "What man can conceive, man can achieve."

Man will do far more amazing things when he turns his mind to God and His will.

NEUROSCIENCE: BRAIN TRANSPLANT FOR CHICKENS

From *POPULAR SCIENCE* magazine, 7/97, [quoting:]

If it looks like a chicken and walks like a chicken,

This otherwise normal chick bobs its head like a quail. As an embryo, some of its brain cells were replaced with a quail's.

but bobs its head like a quail, then what is it? In this case, it's a hybrid of both species, created by a scientist in California. The zany bird may provide insights into treating human brain diseases and injuries.

Neurobiologist Evan Balaban of The Neurosciences Institute in LaJolla, California, used microsurgical techniques to transplant cells from the brain of Japanese quail embryos into the brains of Plymouth Rock chick embryos. The chicks that hatched had a transplanted behavior: They bobbed their heads rapidly while crowing. Chicks don't normally make these head movements, but quail do. In a related experiment,

Balaban transplanted another portion of the brain, creating chicks that sing like a quail without bobbing their heads.

Balaban believes that his work with birds, which demonstrates that some behaviors can be innate, may also give insights into how the structure of the brain has evolved. It might eventually provide clues about how to restore capabilities to people with brain damage. So far, however, other researchers have had only limited success with transplanting tissues into the brain to treat such diseases as Parkinson's. [End quoting]

This torturing of animals is idiotic for any reason. If man would listen to his Creator he would get all the knowledge he can handle without torturing His creations.

OFFICIAL UNEMPLOYMENT RATE IS FRAUD

Excerpted from *THE NEW FEDERALIST*, 5/19/97, [quoting:]

On May 2, the Bureau of Labor Statistics of the Department of Labor announced that the official U.S. unemployment level for April was 6.71 million workers, and that the unemployment rate had fallen from 5.24% in March, to 4.93% in April.

The unemployment figures are a fraud. The economics staff of the *Executive Intelligence Review* has calculated that the real level of unemployment in this country is approximately 15.94 million workers—at least—and the real unemployment rate is 11.3%. Both figures are more than double what is officially reported.

The City of London oligarchical financiers, and their faction in different levels of government, would have Americans, and the world, believe that the biggest financial disintegration in human history is not underway. They would cover up the fact that the U.S. physical economy, and the consumer market basket, have been contracting, at the rate of 2% a year since 1970.

Therefore, the financiers and their allies (and some unwitting but ideologically confused persons) have emitted a steady stream of faked "good news" reports. Alongside the fraudulent unemployment figures, during April, the Commerce Department declared that the U.S. economy grew by 5.6% in the fourth quarter of 1996, the highest alleged quarterly growth in 10 years. On May 2, the White House's Office of Management and Budget, and leading Republicans, announced a federal budget deal that would supposedly "solve" most of the nation's budget problems through the year 2002.

(In fact, the budget deal is based on massive austerity, including \$600-700 billion worth of budget cuts, of which 115 billion will come from Medicare, the federally sponsored program of medical assistance for the nation's elderly. As the financial system explodes, the tax revenues upon which the balanced budget is premised, will vaporize.) [End quoting]

If the government would add to these figures all the ones that have given up on seeking jobs but would take one if they felt they could find one, I venture to say, the figures for unemployment would rise much higher.

It's time we all wake up to what the true agenda of government is—the control of "we the people" and the milking of all of our resources while dumbing us down and killing off all of the "undesirables".

However, there are a few working within the system to try to change it. Let's work hard to increase these numbers.

WELCOME TO CLONAIID 6/21/97

WELCOME TO CLONAIID RAEL CREATES THE FIRST HUMAN CLONING COMPANY

From the INTERNET, <<http://www.artbell.com>>, 6/21/97, [quoting:]

RAEL, the founder of a religious organization

**YOU MAY SUBSCRIBE

called the Raelian Movement which claims that life on Earth was created scientifically in laboratories by extraterrestrials whose name (Elohim) is found in the Hebrew Bible and was mistranslated by [sic] the word "God", and which also claims that Jesus' resurrection was, in fact, a cloning performed by the Elohim—announced today that he and a group of investors have set up a company named VALIANT VENTURE LTD., which will offer a service called "CLONAIID" to provide assistance to would-be parents willing to have a child cloned from one of them. This service offers a fantastic opportunity to parents with fertility problems or homosexual couples to have a child cloned from one of them.

The Bahamas-based Company plans to build a laboratory in a country where human cloning is not illegal and will offer its services to wealthy parents worldwide. In a first phase, CLONAIID will subcontract existing laboratories to perform the cloning. The company may also sponsor American laboratories working on human cloning and whose government subsidies have been cut by President Clinton.

CLONAIID will charge as low as \$200,000 US for its cloning services.

The recent cloning of the sheep "Dolly" in Scotland has proven that the technology is now available to complete the operation successfully.

CLONAIID's Scientific Director, the French scientist DR. BRIGITTE BOISSELIER, Ph.D., sees no ethical problems with the procedure. "Parents have the right to decide to have a baby who will bear the genetic code of one of them. It's now common to see the dead parent father a baby through the process of frozen sperm implantation. Imagine the joy of a widow rais-

ing a child looking like her beloved deceased husband," she said.

CLONAIID will also offer a service called "INSURACLONE" which, for a \$50,000 fee, will provide the sampling and safe storage of cells from a living child or from a beloved person in order to create a clone if the child dies of an incurable disease or through an accident. In the case of a genetic disease, the cells will be preserved until science can genetically repair them before recreating the child (or an adult).

CLONAIID, the first company in the world to offer human cloning [Maybe the first public company, but certainly not the first ones to clone humans. Who created many of our leaders?? Certainly, God didn't create their present bodies.], expects to have over a million customers worldwide interested in its services, as well as many laboratories to seek partnership with in this venture.

RAEL said: "Cloning will enable mankind to reach eternal life. The next step, like the ELOHIM with their 25,000 years of scientific advance, will be to directly clone an adult person without having to go through the growth process and to transfer memory and personality in this person. Then, we wake up after death in a brand new body, just like after a good night's sleep!" [End quoting]

Why would anybody, in their right mind, want immortality in/on this third-dimensional schoolroom planet, as is, when God has a plan far beyond our imaginations for our immortality.

LONG LIVE
THE ALKIES

From POPULAR SCIENCE magazine, 7/97, [quoting:]

PHILIPS, THE DUTCH electronics giant, has developed a battery that it claims has almost twice the life of ordinary alkaline batteries in high-drain applications like flashlights, shavers and portable compact disc players. The new AA-size battery, called PowerLife, will power a flashlight for 130 minutes, as opposed to 80 minutes with current alkalines, according to the company.

PowerLife's improved performance is due to the small particles of high-grade graphite inside the battery which allow more synthetic manganese dioxide—the active ingredient in alkalines—to be used. The graphite lets electrical current pass through the battery more efficiently, leading to less energy loss and longer life.

The PowerLife is the first battery that does not use heavy metals like cadmium, lead, or mercury, so it is easily recycled.

That's good news for the environment, because 28 billion alkaline batteries are sold each year worldwide. PowerLife batteries are expected to go on sale in the United States later this year. [End quot-

ing]

This is a small improvement, but it would sure be nice if the Elite would release the far better power sources that they have been hiding from us for centuries.

COLORADO: CRASHED JET'S
BOMBS TARGET OF NEW SEARCH

From THE LOS ANGELES TIMES, 7/10/97, [quoting:]

Searchers using metal detectors recovered part of a bomb rack but found no trace of the four bombs that had been aboard Air Force Capt. Craig Button's warplane when it disappeared from formation over the Arizona desert April 2 and began its mysterious flight, which ended with its crash on snowy Gold Dust Peak, near Eagle. Military officials said the search will continue for three weeks. Three days of searching last spring found only Button's remains, ammunition and parts of the plane's hydraulic system. [End quoting]

Does this statement sound logical? With the technology that the government has, they can literally find a needle in a haystack—and yet they can't find more than stated here? How could a crash—as stated—scatter in such an illogical manner?? What are they trying to hide—AGAIN??

ONLY
HUMAN

From ANGELS ON EARTH, Mar/Apr 1997, Guideposts, 39 Seminary Hill Rd., Carmel, NY 10512, [quoting:]

We had been married for 12 years when my husband and I began to have serious problems in our relationship. We went to a counselor, but nothing changed. I didn't think I could go on living if we divorced.

On a Sunday in February I drove to the shopping center to buy pills and alcohol. Coming out of the drugstore I glanced around self-consciously. The strangest feeling came over me. Then I saw someone I knew; my friend Jim, who worked at our church.

"Are you all right?" he asked. I tightened my grip on the brown paper bag and didn't answer. "Let's go down to the church," he said. "We'll talk about it."

I told him I'd meet him there, but I didn't think I'd go. What use was it? God, I was sure, had given up on me. Walking to my car I passed a trash can. Inexplicably my grip loosened on the paper bag and into the trash it went. I got in my car knowing I would go see Jim.

When I arrived at the church, I knocked hard, but there was no answer. That's odd. Jim said he'd be here. I called the church office from my car phone.

"Jim, this is Nancy. Can we talk now?" "Of course," he said.

Inside, Jim listened and with a few well-chosen words made me feel I could go on, even if my marriage was over. "You saved my life," I told him.

"I'm glad I heard the phone ring. I was downstairs cleaning," he said.

"But, Jim, I saw you in the parking lot at the shopping center. You asked me to come here," I said.

Jim looked puzzled. "I've been here all afternoon," he insisted.

I thought back to that moment in the parking lot. I had talked to someone who knew where I had to go.

If it wasn't Jim, who was it?

Isn't it marvelous how God gets our attention to help us when we have given up on Him?

Hoaxes And Holograms Our Electromagnetic Universe Part III

Editor's note: Part II was printed in last week's CONTACT on p.6; we continue here with Part III of this 3-part series.

RAMANUJAN

Ramanujan, who said he had no proper first name, was a Black man born in India in 1887. The fascinating story of his life is told in the book *The Man Who Knew Infinity* by Robert Kanigel. It is the story of a man from an extremely poor background, who was given little opportunity for schooling, who became one of the world's greatest mathematicians, and then died in 1920 at age 33. His mathematics became known as "21st Century" math and was so far ahead of others that mathematicians today still try to learn new material from studying his notes.

Ramanujan said his math came from extra-terrestrials, specifically from ones he called the goddess Namagiri and the god Narasimha. He said that he had dreams from Narasimha in which "scrolls containing the most complicated mathematics used to unfold before his eyes." Ramanujan said that he often received information in dreams, and would often awake and write down something that had come to him. Modern computers are evaluated and tested by evaluating pi and use an algorithm developed from Ramanujan's math. This is an example of one way in which most of us are unaware of the many ways in which we are influenced every day by "extraterrestrials".

The theme of humans receiving inspiration from extraterrestrials is a common one throughout history. We talk of "divining" the truth. The Greeks, for example, had their Muses. Newton, Euler, Aristotle, Leibniz, Kepler, and on and on all in one way or another attributed inspiration from Higher Powers or spirit beings.

One modern scientist who learned from Ramanujan

is Michio Kaku, author of *Hyperspace, A Scientific Odyssey Through Parallel Universes, Time Warps, and the 10th Dimension*. He devotes several pages in his book to Ramanujan. Kaku promotes a theory that the Universe is a bunch of vibrating strings.

FOURIER HOLOGRAMS

Another mathematician named Denis Gabor formulated theories in 1947 that led to the development of the hologram (for which he won a Nobel Prize). He was using a type of math called Fourier transforms to convert patterns into simple waves, and then convert the simple waves back into the original patterns. Just as a TV set converts frequencies into a picture, he was able to take blurred interference patterns created by collision of light waves recorded on holographic film and turn them back into an image of the original object.

Karl Pribram came along in the 1960s and 1970s and discovered that the eyes and human visual system are a type of frequency analyzer. He figured out that the brain was using holograms. Other scientists became involved, at first to try to disprove this too-far-out concept, but instead learned more proof of the fact that the universe is a hologram and the brain is a hologram converter. The brain uses Fourier mathematics to convert visual images into Fourier language of wave forms (Karen K. DeValois, Russell L. DeValois, and W. W. Yund, "Responses of Striate Cortex Cells to Grating and Checkerboard Patterns," *Journal of Physiology*, vol. 291, 1979, pp. 483-505).

Michael Talbot, in the non-fiction best-seller *The Holographic Universe*, in the chapter entitled "The Cosmos as Hologram", says of the nature of what we call particles of matter: "Perhaps most astonishing of all is that there is compelling evidence that *the only time quanta [wave/particles of matter] ever manifest as particles is when we are looking at them*" (p. 34).

David Bohm, one of the world's most respected quantum physicists and a protégé of Einstein, came to the same conclusion that the universe is a hologram, independently of Pribram.

Talbot summarized Pribram's and Bohm's discovery: "Our brains mathematically construct objective reality by interpreting frequencies that are ultimately projections from another dimension, a deeper order of existence that is beyond both space and time: The brain is a hologram enfolded in a holographic universe" (p. 54).

We do not merely look at the hologram; WE ARE (part of) THE HOLOGRAM, that is, "we" being our sensing part, not our soul.

A QUICK COURSE IN SPHERICAL MATH

The distance east and west around the Earth (circumference) at the equator is about 24,902.4 miles, usually rounded off to 25,000 statute miles, and the circumference north and south around the poles is about 42.2 miles less, so the Earth is not a perfect sphere. The width (diameter) of the Earth at the equator is about 7926.68 miles, and from pole to pole it is 26.7 miles less. For many purposes, such as navigation, the circumference of the Earth is figured in nautical miles rather than statute miles. To change statute miles into nautical miles, the conversion factor is .86898, so multiply 24,902.4 X .86898 = 21639.69, or 21,600 nautical miles for most purposes.

There are 360 degrees in a circle and 24 hours in a day, so the Sun moves through 15 degrees every hour (360/24 = 15). Since there are 21,600 miles around the Earth and 24 hours in a day, the Sun moves through 900 miles every hour (21,600 / 24 = 900).

There are 60 minutes in an hour and the Sun travels through 15 degrees every hour (15 x 24 = 360 degrees).

We usually measure flat and straight things by inches, feet and statute miles (and nowadays by the newfangled New World Order metrics). We measure angular things by seconds, minutes and *degrees* (degrees, not hours: here we are talking geometry and trigonometry, not time). There are 60 minutes in a degree and 360 degrees in a circle, so there are 60 X 360 = 21,600 minutes (called minutes of arc) in a complete circle. There are 21,600 nautical miles around the Earth's circumference, and 21,600 minutes of arc around the circumference, so each minute of arc equals one nautical mile (this is why nautical miles are used by ships instead of statute miles).

The Earth is a circle of 360 degrees (360°).

The Earth is a circle of 21,600 minutes of arc (21,600').

The Earth has a circumference of 21,600 nautical miles.

Celestial bodies travel around the Earth (from an apparent viewpoint) at 900 knots (nautical miles) an hour.

Celestial bodies travel around the Earth at 21,600 nautical miles every 24 hours.

Celestial bodies move through 15° of arc every hour.

Celestial bodies move through 360° in 24 hours of time.

Longitude is measured east and west in degrees from a starting point assigned to Greenwich, England. Latitude is measured north and south in degrees starting from the equator. So measurement of distances around the Earth can be made by angles (GHA or Greenwich Hour Angle), miles (nautical) or hours (GMT or Greenwich Mean Time, also called Coordinated Universal Time).

The Greenwich Hour Angle is an angle measurement FROM Greenwich WESTWARD and out to any celestial body, through a 360° arc. This is important for navigation, but not particularly for our purposes. For navigation, the exact time is important. A clock that is 4 seconds slow will give an error of a mile (the Sun moves 900 miles per hour, 15 miles per minute, or 1/4 mile per second). A one-minute error will put a navigator off by 15 miles. To get the correct time, you can call 1-303-499-7111.

Above we said that the diameter of the Earth is 7926.68 statute miles; using the conversion factor quoted above (see any weights and measures list of conversation factors) of .86898 we get 7926.68 x

.86898 = 6888.13 nautical miles. The figure is 6875.493 in minutes of arc.

Bruce Cathie has done much research into the geometry and harmonics of the Earth and has made some amazing discoveries. He says "...it appears possible that spherical bodies are in fact formed by some sort of vortexual resonance which causes precipitation of matter" (p. 71, *The Energy Grid*, 1990 version). If this is the case (and it is), then the atmosphere should be included. As the energy vortex begins to precipitate Earth/matter, the atmosphere would precipitate first (looking from outside inward).

The harmonic of the speed of light = 144/harmonic, reciprocal = 69444. [A reciprocal of a number is what you have to multiply it by to get 1, so the reciprocal of 2 is 1/2 or 0.5 and the reciprocal of 5 is 1/5 written 0.2, etc. It is found by dividing the number into 1 or by writing 1 over the number (which means the same).] All spheres are 360° or 21,600 minutes of arc. The ratio of the circumference to the diameter, if you remember your geometry, is $C = \pi d$. So if you solve for d (diameter) you would divide 21,600 by $\pi(3.14159265...)$ which equals 6875.493542 minutes of arc (or nautical miles) diameter.

In harmonics, the decimal doesn't matter. In other words, 10 is a harmonic of 1, 100 is a harmonic of 10 and 1, 1000 is a harmonic of 100 and 10 and 1, etc. You can move the decimal back and forth and it is still the same base harmonic. So adding one harmonic of 68.75493542 (to include the atmosphere in the diameter of the Earth) to 6875.493542 (the diameter of the Earth) would equal 6944.248477, which is the harmonic reciprocal of the speed of light in free space.

Cathie found that the harmonics can be multiplied by harmonics of 6 or 60, etc. He says that the fundamental harmonic of light in geometric terms is an angular velocity of 144,000 minutes of arc per grid second. There are 97,200 grid seconds to one revolution of the Earth. The reciprocal harmonic of light, or 1/144,000 is 694444...repeating (in figuring harmonics, you delete the leading and trailing zeros and convert to whole numbers). This 69444 harmonic (and 169444) is a basic building block of the universe (and anti-universe). **REMEMBER THE NUMBER 694443!** This harmonic varies in relation to the geometric distance from the center of the Earth. He discovered a lattice grid electromagnetic harmonic pattern on the Earth that is divided into grid squares of 6 minutes of arc each, or more precisely 5.90165 degrees, whose reciprocal is 0.169444. When Cathie learned this, he was able to accurately predict the time and location of future nuclear tests (you will have to read his books for details)!

Cathie (who was in New Zealand) noticed the Americans had a base at Kauri Point, New Zealand, and another at Woodbourne, near Blenheim, in the South Island. Remember that harmonics can move up or down the scale by multiplying or dividing by 6 or 60. He measured these stations and found that the distance between stations was 284.9006 minutes of arc (nautical miles). Multiplied by 6, nine times = 2.87114. The square root of the 2871140 harmonic is 1694443 harmonic.

The latitudinal displacement between the two stations was 4.70666 degrees, which equals 16944 seconds of arc.

The longitude of Kauri Point is equal to 174° 42'. If we subtract 90° from this value to determine the position of Kauri Point within the appropriate 90° sector, we have 84° 42' which equals 84.7 which is half of 169.4 harmonic. Cathie said "...it has been found that this particular harmonic (169444) has a direct connection with communication; particularly space communications."

The Pentagon's High-frequency Active Auroral Research Project (HAARP) at Gakona, Alaska, consists of 360 (6 x 60) transmitter antennas, each 72 (6 x 12) feet tall. Is the Pentagon aware of the Earth's electrogeometric grid pattern? Bruce Cathie claims

that it is.

Nicola Tesla knew that matter was a complex matrix of wave-forms locked together by harmonic resonance. Tesla stated: "Long ago he [man] recognized that all perceptible matter comes from a primary substance, of a tenuity beyond conception, filling all space, the Akasa of Luminiferous Ether, which is acted upon by the life-giving prana or creative force, calling into existence, in never-ending cycles, all things and phenomena. The primary substance, thrown into infinitesimal whirls of prodigious velocity, becomes gross matter, the force subsiding. The motion ceases and matter disappears, reverting to the primary substance." He was saying that all matter comes into existence from a tremendous amount of "Luminiferous" (Light) energy (potential) that exists in what we are calling the empty vacuum of space and what Einstein, Rayleigh and so many others called the ether.

Tesla set up a laboratory at Colorado Springs, which is 38° 50' North latitude and 104° 52' 22" West longitude.

The distance from there to the North Pole would be 51.174548 degrees.

The distance from the equator is 38.825453 degrees.

Difference is 12.349095 degrees.

Divided by 6 is 2.0581825 units.

Multiplied by 2 is 4.116365 units.

Squared is 16.9444 units.

The difference between 104° 52' 22" west and 90° 00' 00" is 694.44 minutes of arc.

This same area is now where the North American Air Defense Command (NORAD) is located.

Cathie says "The harmonic 16944 is related to MASS, GRAVITY and COMMUNICATION...." (p. 109, *The Energy Grid*).

Cathie pointed out that the ancients were apparently aware of the Earth harmonics. One example he used was the Piri Re'is map, transcribed in 1513, and copied from an unknown older map. It showed South America and Africa in the correct relative longitudes, which was not possible to determine in the 16th century. Charles Hapgood of Keene State College and the United States Navy Hydrographic office among others decided to study the map and found that it had been divided by using a circle which was divided into 16 equal triangular segments (like the spokes of a wheel) of 22 1/2 degrees each (22 1/2° X 16 = 360°). Hapgood's book *Maps of the Ancient Sea Kings* gives the math of what they learned. The center of the circle was to the east of the map in a section that was torn off and missing. By using trigonometric projection, they determined that the center of the circle was at 23.5° North and 30.0° East, which was at the intersection of the Tropic of Cancer and the Meridian of Alexandria, Egypt (the ancient equivalent of Greenwich). Since they knew the length of one side of the triangle and had a 90° angle, they were able to determine that the radius of the circle was 69.5° of arc, very close to the natural Earth harmonic geometric of 6944 and the reciprocal of the pure harmonic of light. The distance from this center to the North Pole was also 69.5° of arc. Another point of the map figured to 69.41°, and a third point figured to 69.42°.

OTHER HARMONIC LOCATIONS

Let's look at some other items. The following information comes from the *Phoenix Journal Express* (now called *CONTACT*), Volume XII, Number 12.

The location of a focal point within the city of

Mecca is 21° 23' 38.32458" North and 39° 49' 37" East. This is equal to 1283.638743 minutes of arc north. The distance to the North Pole is 4116.361257 minutes of arc. The square of this number is 1694443 harmonic.

The location of the Fatima apparitions was 39° 37' 54.45" north and 8° 36' 40.5" west. The great circle distance from Mecca is 2693.645 minutes of arc (nautical miles). Tesla tried to build a transmitter at Wardencllyffe, Long Island, New York, which would have supplied free energy to the whole world, but was stopped by the bankers. The location of Wardencllyffe was 40° 56' 50.3" north/72° 53' 55.6" west. The great circle displacement from the transmitter to a point on longitude 180° 00' 00" at the same latitude was 269375.75 seconds of arc. Cathie said: "This was extremely close to the energy harmonic derived from the unified equation in relation to the speed of light at the Earth's surface, found in my latest research: 269364.5 harmonic." Bruce Cathie calls this the Unified Field Harmonic.

His Unified Harmonic Equation 3 is:

$$E = \sqrt{[(2c + \sqrt{1/2c})(2c)^2]} \text{ where } c = 144,000 \text{ minutes of arc per grid second reduced by the harmonic of the Golden Ratio (phi) number } 1618.034 \text{ or the harmonic of "c" } 1618.034 (144000 - 161.8034 = 143838.1966). \text{ Therefore, the harmonic of } 2c = 287676.3932. \text{ Solve for E:}$$

$$E = \sqrt{[287676.3932 + \sqrt{(1/287676.3932)(287676.3932)^2}]}$$

Using harmonics,

$$E = \sqrt{[(2876763932 + 5895869843)(827577072)]}$$

$$= \sqrt{(8772633775 \times 827577072)}$$

$$= \sqrt{7260030574}$$

$$E = \sqrt{2694444} \text{ harmonic}$$

This harmonic varies very slightly depending on whether it is in air or in vacuum, or whether gravity or electromagnetics.

Cathie states: "Matter and antimatter are formed by the same wave-motions in space. The waves travel through space in a spiralling motion, and alternately pass thorough positive and negative stages" p. 27, *The Harmonic Conquest of Space*). He continues: "Matter is formed through the positive state, or pulse, and antimatter through the negative pulse. Each spiral of 360° forms a single pulse. The circular motion of an electron about the nucleus of an atom is therefore an illusion."

The anti-matter side of the cycle is being ignored by most in electromagnetics, although astronomers are beginning to learn more about the anti-matter spirals in the universe (a recent example is the article on the *New York Times* front page, "Enormous Plume of Antimatter Alters View of the Milky Way", April 29, 1997).

The Seitun Coptic Church in Egypt is at 30° 05' 27.52" north/31° 18' 20.3" east. The great circle distance between the focal point and Mecca is: 695.4307 minutes of arc. The displacement in latitude is 31309.1958 seconds of arc. This multiplied by 60 equals 1878551.748 harmonic. A circle of this diameter would have a circumference of 5901644.371 units which is the reciprocal harmonic of 1694443.

On November 28, 1975, a 17-year-old girl in the Portuguese city of Oporto had a visitation from one she thought to be Christ and she called Jesus. She started fasting and continued for years. She has not had any food or drink since that day, to the consternation of many medical experts. Thousands of pilgrims travel to see her. It turns out that this location (41° 09' north) is in a harmonic relationship with Mecca and the Vatican.

Hatonn stated, in the July 28, 1992, issue of *The Phoenix Liberator* (now called *CONTACT*), p. 29, that extraterrestrial spacecraft come into visibility at a

harmonic resonance of 169443 (I don't know if this is a typo; it is not exactly the same as 1694443). This is exactly what Bruce Cathie discovered, as he learned of the harmonic grid by first plotting UFO sightings.

Hatonn communicates by pulse frequency to Dharma, the main writer for *CONTACT* newspaper, at a frequency of 16.94443 MHz (I am not sure of the decimal place). I understand that any radio capable of tuning the weather satellite band can tune it in.

It took them *six months* to come to that conclusion? Part of Hatonn's amused reply to them was "I wonder if you tried, just in passing, 169443 KHz? Just wondered! I surely do want you to find whatever it is you are researching. Craft come into visibility at a harmonic resonance of 169443 so perhaps there is wherein lies your confusion. Please notify me if there is more I can do for you in regards to this official matter."

My friend Robert B. may also find this amusing, since he was a radio man involved in some of these situations, perhaps even in communications with this particular craft on this particular frequency.

I must end here for now.

I hope this discussion has been of benefit to you.

Bacteriological Warfare A Major Threat To North America's Population

Editor's note: In CONTACT's issue Volume 17, No. 5 (June 24, '97) we ran a Front Page story titled "Bacteriological Warfare—A Major Threat To North America's Population". In this story, Larry Harris speaks of a potential biological threat by Iraqi terrorists [see story reprinted below]. Naturally, by now, we here at CONTACT assume that our readers will be DISCERNING in everything that crosses their path. Certainly a former CIA person such as Mr. Harris is suspect at the very least. We, naturally, have heard back from some CONTACT readers, especially of Arabian background, who have taken exception to this particular story, pointing out questionable holes in the narrative. One such individual, a reader in the Washington area, left, in part, the following statement on our answering machine:

"The Iraqis are being wiped out by the U.N. embargo, and they are sitting on huge oil fields. And if starvation and disease aren't killing them fast enough, this (story) is one way to insure that there is enough panic and hatred to justify a first strike against Iraq. Hey, you guys have been had!"

Obviously it is no secret to CONTACT readers that the New World Order crooks have a definite depopulation agenda, which they WILL execute (no play on words intended). Certainly fanning the flames of racial hatred against the Iraqis during an implemented program of depopulation would serve several purposes simultaneously. And always remember: where there is a great deal of oil wealth involved, foul play is a usual bedfellow. With all this in mind, reread the original story, and then pay attention to Peter Kawaja's remarks, also within these pages.

Thank you.

**BACTERIOLOGICAL WARFARE:
A MAJOR THREAT
TO NORTH AMERICA (Book Title)**

by Larry W. Harris

*What You And Your Family Can Do
Before And After*

[Editor's note: Phone authorization for this excerpt, which is the Preface to his book, was given by author Larry W. Harris, Registered Microbiologist, who also generously sent a copy of his book.]

[Quoting:]

In September 1991 I re-entered the Ohio State University and started taking courses in advanced microbiology in preparation for taking my National Registry of Microbiologist Certification Exam. I soon joined a clique of nontraditional students whose average age was around 40. In that clique was Mariam Arif, a delightful lady that soon became a close friend.

Mariam was from Iraq and was here studying microbiology. She had an unusual background. One of her very close relatives, General Arif, had been a President of Iraq. In April 1966 he was killed in a helicopter accident. A long succession of military coups ended in Saddam Hussein and the Republican guard coming to power. During the coups Mariam's family had suffered much. She said that several members of her family had been hung. She felt it safer to be in America until she could do something that would make her famous back in her home country of Iraq.

One morning in February 1993 I had arrived early to get a parking spot in the rapidly filling student parking lot and was having coffee in the small vending area of the Med-Tech building where our courses were taught. The vending area was deserted except for Mariam Arif and myself I will never forget the way her face and eyes looked that morning—very tired and glossy. I have no doubt that she had gotten little sleep since the World Trade Center bombing. This was the Monday after.

She must have thought that her arrest was imminent. She was rambling on as if she were in a daze. She was silent for a few minutes then she said, "Larry, you are a dear and trusted friend and what I am going to tell you in the next few minutes you can use to protect yourself and a few friends. When it is my time to act, I do not want your death to be on my conscience. You obviously do not know the danger you face concerning the emergence of Biological Warfare as a major threat to the United States." She went on to state that nearly all the emerging countries: Libya, Iran, Iraq, Syria, North Korea, etc., were actively pursuing a Germ Warfare program and scrapping their nuclear program. There are two primary reasons for this shift. The first is the acquisition cost of a sufficiently large nuclear stockpile to be effective. The second reason is BW is antipersonnel warfare, not antimaterial warfare. Housing, buildings, factories, and machinery remain intact and can be made useful in a short time.

I asked her if she had seen any of Iraq's germ warfare facilities. She gave a resounding "Yes!" She stated that Iraq used the *plain Jane approach* in that Iraq has a very large stockpile of biological agents on hand in the form of special bombs. They are also developing rockets to spread the infection over a very large area. Iraq has two separate areas of biological operations, one foreign and one regional. The ones that

are regional have all the facilities located at small airstrips around the country. They are deliberately designed not to draw much attention. These airstrips will not handle large or even medium class aircraft. They only handle a single class of aircraft—single engine, high wing, turbo props that can be used for crop dusting. The regional biological operations would take only a couple of days if you are using Anthrax, or a couple of weeks if you are using Plague to get in operation. If they were ever questioned from abroad as to the purpose of the chemostats located at these facilities they can be explained away as holding tanks for agriculture spray products if they are kept empty.

To get them into operation they are first cycled through a sterilization phase. Then a special nutrient broth is introduced and the desired biological agent (usually Anthrax or Plague) is added. Devices for rapidly mixing the culture vessel are started and ultra filtered air is bubbled through the nutrient. Fresh nutrient broth (growth medium) from a reservoir is fed at a constant rate to the culture vessel through a metering pump. A constant volume of culture is maintained by means of an overflow that removes culture fluid and the desired bacteria at the same rate as fresh medium is added. The culture fluid flows into a refrigerated tank for holding. It is transferred to the aircraft just before the mission. She further stated that these aircraft have exceptionally long range and that only one aircraft is located at each facility. If that aircraft were lost, a replacement aircraft would be flown in from another facility. This kept every thing small and very difficult to detect. I asked her why we didn't see any Germ Warfare being waged during the Gulf War. To this she responded "We did! The Iraqi military adhered, at least in part, to Soviet military doctrine. Soviet methodology is that chemical warfare would be conducted with mixed agents. Mixed agents, often referred to as 'cocktails', are intended to enhance the capabilities of nerve agents and defeat the precautions taken by the enemy. Cocktails can be made by combining a wide variety of biological toxins, nerve agents, vesicants, and some biological agents—such as bacteria and fungi."

Mariam stated that she had personally worked in a germ warfare laboratory in which they had taken *Mycoplasma fermentans* (incognitus) and had inserted most of the envelope gene from HIV. This genetic manipulation rendered a relative benign mycoplasma much more invasive and pathogenic and capable of attacking many organs and tissue systems in the body. (This can be treated effectively with tetracycline as mentioned later in the book.) Mariam also stated that they also had isolated and used a form of Bola Zaire virus that took over 3 to 7 years to kill you. Within the next few years hundreds of thousands of Desert Storm veterans along with their families will start dying. She said, "Iraq thought that the multinational force would respond with Nuclear Weapons if they had used fast-acting biologicals."

"You stated that the people of North America are in grave danger of biological agents being used against us. Would you care to elaborate on that?" To this she replied, "A few hours ago a band of fanatics blew up the World Trade Center. I am sure that my beloved Iraq did not do this. For when payback comes, I am sure we will demand at least one American life for every one of my countrymen that you butchered. We would not settle for some silly old building. I asked her if she knew how such an attack would be carried out. To this she responded, "Don't be silly. Of course, I know! All operations will be batch operations. Unlike the very complex chemostat, where you have a continuous output once you are up and running, with a batch all you require is a sterile vessel. This can be a test tube or a larger container depending on your batch size. In this vessel you place the appropriate amount of dehydrated media. This is a very easily obtainable in this country without any questions. Then you add the proper amount of distilled water, bring to a boil, and simmer at least 15 minutes. Then let it cool to room temperature. This

way you do not have to have an autoclave. The top of the container is covered with sterile cloth that you sterilized inside of a pressure cooker much like the one you cook in. The batch vessel of choice would be a metal spray can (stainless steel) much like the one used to spray your garden or one exterminators use to dispense bug spray. The preferable model is the one that has the little air pump in the middle which you pump up when you are ready to spray. To this you would add your culture. A small heating pad is placed around the tank. Next, a small air stone and tubing (similar to the one used in an aquarium) are boiled for at least an hour and then very aseptically placed in the metal spray can and hooked up to an aquarium air pump. Introduce your plague or anthrax starter culture and after an appropriate amount of time the batch is ready. You then insert the spray tank's air pump, pump up the sprayer and you are ready." I then asked her, what the most likely targets would be. She replied, "For one thing it will not be a target but rather many (hundreds of) targets simultaneously across the country. A prime one of these would be the subway systems. Who would notice another maintenance man down there spraying for bugs? Other inviting targets are the air ducts of large office buildings. Or, say a large gathering of people at a stadium, or simpler yet just sticking it outside of a building over those crowded streets in many cities. Who is going to notice a little mist coming from some building? Several cells (each cell has ten men and one woman to act as a carrier) will be using aircraft venturies like the ones that are used to drive the vacuum instruments on airplanes. They are easily obtained by mail order or from an aircraft supply in this country. These will be mounted underneath vehicles. The spray tank will be inside the tubing going to the venturi (which acts like a carburetor). When the vehicle is going 60 miles per hour one simply opens the valve and a fog of death will be coming out behind the car. Other cells will be using these same venturies mounted on light aircraft to attack whole cities at a time."

I asked her how she would get her bacteria culture. Mariam replied that it is easy for a woman to hide a small sealed vial of dehydrated culture inside her body cavity. She said, "What are they going to do? Take every woman entering the country to a little room in the airport, make them lay on a table with their feet up in straps and have some one look up their private of privates? I think not!"

I then asked her, "Why not use something that you could obtain in this country without going to the effort of smuggling? To this she replied, "Iraq purchased all the dehydrated cultures from companies right here in the United States. They shipped them to Iraq and those same vials are the ones Iraqi women have been bringing back to use against this country. Ironical, isn't it?" Mariam said she had made several trips back and forth between Iraq and the United States, and every time she came to America she was carrying a vial secreted in her body cavity.

"What are the microbes of choice?" I asked her. She responded, "Plague and anthrax are the bacteria of choice. You see, plague is easy to work with. We take the proper amount and kind of antibiotic and we are reasonably safe. When you are finished you can easily clean up any spills with disinfectant, and any you miss will be dead in a couple of days regardless. Anthrax, on the other hand, will be used by specially trained groups for attacks on big cities. These cells (groups) have to be extremely careful, thus the detailed training. If you got some on your clothes and happened to inhale it several years later, it could kill you. So they will strip and thoroughly shower. All articles of clothing worn during the attack and preparation will be left behind." She further commented: "Cholera and typhoid fever were also considered, but these usually do not kill and only inconvenience people for a few days."

When asked when she thought these attacks would begin she responded "Some time in the next few years.

The attacks are centered on three Muslim holy days that occur in the next few years. The first one comes up in July 1997, the next in 1999, the next 2001. One thing is certain, before the year 2002 the population of the United States will be reduced to less than 50 million." Mariam seemed a lot calmer now and her composure was returning. She said, "Larry why don't you meet me on the third story of the main library this afternoon? We can go up into the towers and find a place where we can have some privacy. I need to slip back to my apartment and get some things I want to show you." [End quoting]

Comments On Gulf War Veterans' Role In Bacteriological Warfare On America

7/15/97 PETER KAWAJA

This is a special report by Peter Kawaja on the news article of June 24, 1997 in *CONTACT*, on Larry Wayne Harris. Please read that report [above] FIRST, then refer to the below comments.

(1.) EVERYTHING Harris says about his female informant, we have to believe him because there is no tangible/physical evidence. For me, the scenario is real. However, read this in its entirety first before coming to any conclusion about my commentary.

(2.) Harris says that she said that "several members of her family had been hung" during the coups which took place and Saddam came to power. So, she FLED to America.

(3.) Harris says she said that she felt SAFER in America until she could do something that would make her famous back in her home country of Iraq. WHY did she feel she needed to do anything to be FAMOUS back in Iraq, especially if Iraqi Saddam MURDERED her family, and she fled Iraq to feel safe in America, and would only be AIDING Saddam, who killed her family. So why would she want to help Iraq or Saddam?

(4.) Now Harris says that she called him a "TRUSTED FRIEND", but says she is working for IRAQ. So, how could Harris be a "trusted friend" of someone who IS and HAS BEEN for MANY YEARS (read on) working for Iraq to KILL AMERICANS?

(5.) IF she wanted to get even with Saddam, WHY is she working in the Holy Jihad to kill Americans for Saddam?

(6.) If she wanted to be FAMOUS in Iraq, why did she "secretly" tell Harris about these plans to kill Americans, instead of going to the American media, or the CIA, etc., to foil Saddam and get back at him, and become a BIG MOVIE STAR not only in her country but worldwide and in America, if she had this very serious and important information?

(7.) Why does an Iraqi woman, whose family was murdered by Saddam and others, want to help Saddam, but at the same time, IF she is their convert and IS working for the HOLY JIHAD, why does she care for a "few of Harris's friends"? If you are brainwashed into being involved in an operation of a Holy War, you are under mind control and totally brainwashed. You do not think that killing Americans (or whoever you are fighting) is WRONG—you do not care about one person of the same nationality you will be murdering, or even if you did, you do NOT care about "his friends" also. You are out to kill everyone and you do NOT "rat" if you are fighting a Holy Jihad, because you are convinced you are doing good for God!

(8.) If you have carried vials in your body cavity numerous times through US Customs, you are not SCARED of being Arrested because someone else (even if it is another so-called "cell") blows up a building somewhere else. You would actually be rejoicing and NOT scared at all. You would be anxiously awaiting your turn to kill, you would be envious of those who got to act now. You would NOT be confessing ANYTHING to any American who is your enemy!

(9.) Harris says: she said, "When it is MY TIME TO ACT, I do not want your death on my conscience." ANYONE who knows anything about those who fight a HOLY WAR knows beyond the shadow of any doubt that those committing these terrorist acts HAVE NO CONSCIENCE, because THEY DO NOT FEEL THEY ARE DOING WRONG, so they do NOT feel GUILTY! End of story!

(10.) Amazingly, this woman who is still sold-out to a Holy Jihad has confessed to an American because she cares about one man and a few close friends of his that she doesn't even know, but she is still going through with her terrorist activity, as she has stated (so he says), and she KNOWINGLY will be a part of the terrorist activity which will KILL SEVERAL HUNDRED MILLION AMERICANS. She has NO GUILTY feeling for MURDERING HUNDREDS OF MILLIONS of Children, Women, Priests, Doctors, etc., but has a conscience about killing a "trusted friend" American? NO. Absolutely NO WAY, JOSE!

(11.) Harris now says she has SEEN Iraq's Germ Warfare Facilities. ANYONE who has been inside, AND has knowledge of WHERE these facilities are located—is absolutely a SOLD-OUT Terrorist, and carries SECRET clearance, just like an American Military Officer would have to be, and then even more so, because those who fight a Holy War, do not do so for MONEY, or just out of Patriotism for Country, they BELIEVE they are working for "god"; for GOD. She would NOT be able to SEE these facilities UNLESS she was a very high ranking officer, and if so, she is not going to then CONFESS to Harris, because she is concerned about a FEW deaths of some Americans, when she is sworn to KILL, to MURDER HUNDREDS OF MILLIONS OF AMERICANS. And if she IS a high-ranking agent, so much she has had access inside, she would NOT be a MULE, but has admitted to him that she is. This does not Jive!

(12.) She also KNOWS all about Gulf Syndrome—AMAZING, now we are getting closer to the TRUTH. Not yet, just closer. Now we have the TIE, of "why" this leak to Harris.

(13.) Now AGAIN, on the word of an IRAQI informant whom we cannot verify this with, we have what the DOD/CIA has denied publicly. YET what THEY ACTUALLY WANT EVERYONE TO REALLY KNOW/BELIEVE. YES, she says, when Harris asked her about why we didn't see any germ warfare in the Gulf War—and she says, "We did" (meaning we used it) THERE IT IS, all sing together now: THERE IT IS. Finally, a way to break it to the Patriot Community first, to the underground media first. Then to America and the world, a way to have an unknown, non-existing Iraqi speak for ALL Iraqis and Saddam, to say that YES, ALL of the Gulf War Illnesses we admit to, it is a done deal. The Iraqis Admit it, but the DOD denies it. Yes. Americans are dying, people are dying all over the world, and yes—soon MILLIONS will start dropping dead, so NOW, after the movie on TBS, *The Coming Plague*, and other such releases, THEY HAVE BEEN WORKING TO BREAK THE NEWS. Peter Kawaja PREDICTED THIS YEARS AGO!

(14.) "Miriam stated she had personally worked in a germ-warfare laboratory in which they (meaning the Iraqis) had taken *Mycoplasma fermentans* (incognitus) and had inserted most of the envelope gene from HIV. And he continues—sounds right out of Garth & Nancy Nicolson's material. Isn't that just COMFY? All of it FITS so neatly—all tied up for us; we don't have to

GUESS; we don't have to THINK. UH-OH, but wait, what about (just ONE example) this just-recent example of a US veteran who contacted Peter Kawaja and Kawaja was helping him with his illness (he was NOT in the Gulf at all, but has ALL the same Symptoms) that his wife also now has, but as soon (within 24 hours) of giving this vet Joyce Riley's phone numbers (he asked for them), the vet writes back and says, "I did not know you were aligned with Militia Organizations, so 'bye.'" The actual words are available to those who have not seen this info on the Net recently. But the IMPORTANT THING you do not KNOW, which you will now know is that this sick vet received these VERY type of "Mycoplasma PLAGUE Vaccines" in TESTING that was done HERE IN THE US, by the US Military on US Military—NOT IN IRAQ. The STUFF IS AND WAS ALWAYS HERE! So, all of what is being told to Harris, or what he is surmising or whatever, is really a SPIN on what has been happening HERE, but there has to be an outside enemy that will cause it (although IT has already happened), so they have an EXCUSE and REASON for the UN to step in, and the use of the National Medical ID card, for those who want to live. See "The Saddest Chapter", by Peter Kawaja.)

Nancy Nicolson has confirmed that this was done HERE in the US, not in Iraq. So, whatever is or could be being smuggled in from Iraq wouldn't be the SAME stuff that Harris was told. That PLAGUE, was manufactured here and NOT sold to Saddam, he got simple "cultures"—per Riegler Report.

(15.) Harris now also says that she says they used a form of "Bola Zaire". I assume this was perhaps a TYPO error, meant to be EBOLA ZAIRE. But say, isn't that taken from Peter Kawaja's "THE SADDEST CHAPTER OF AMERICAN HISTORY"? So, is this story sorta TRUE, but the PLAYERS, etc., are changed. All of what is being read is a SPIN and excerpts from various different sources. Go back and read "The Saddest Chapter" re Ebola Reston (strain) vs. Zaire "taking years to kill you..."

(16.) To again CONFIRM that this informant is still sold-out to the Holy Jihad, Harris now says that she said: "A few hours ago a band of fanatics blew up the WTC. I am sure that my BELOVED IRAQ did NOT do this. For when payback comes, I am sure we will demand at least one American life for every one of my countymen that you butchered. We would not settle for some silly old building." REPEAT and PAY ATTENTION HERE: MY BELOVED IRAQ—so she is confessing to Harris and risking failure (exposing) of her (and all others') mission, to save a few Americans? BULLSHIT. "WE WILL DEMAND AT LEAST ONE AMERICAN LIFE FOR EVERY ONE OF MY COUNTRYMEN THAT YOU BUTCHERED." Pay special attention to the BOLD words. And this is the very same woman who says, "WE will demand at least ONE American life" (yet she is warning an American, Harris) "for every one of MY COUNTRYMEN", so it is personal to her; this IS a Holy Jihad. "That YOU BUTCHERED"—so she is warning an American. One American and a few of his "friends" so they won't be killed, but she is fighting the Holy War and is determined to Murder Hundreds of Millions of Americans to get even, and she would Jeopardize the entire Mission by warning an American? And this intelligence agent of Iraq, who has SECRET clearance to get into this secret Iraqi facilities where UN troops cannot find even now, is STUPID to confess to an American, and she is NOT thinking that this guy is an American, and he is NOT going to warn the US Government? What an INSULT to Women, period.

(17.) Harris then asks her if she knows HOW this attack would be carried out, and her answer is, "Don't be silly. Of course I know." This intelligence agent of Iraq, this woman who is going to get even with Americans for BUTCHERING her countrymen, now freely not only warns an American, but goes into MINUTE DETAIL of HOW it will happen. Why do you confess to a single man if you want to stop the action? You go

to the U.S. MILITARY or the like. And if you are simply warning him to save ONLY his life, you warn him to get out of the country, you do NOT give him all the detailed information, a full and complete confession, and risk him exposing this MAJOR terrorist plan. The DETAILS are a Dead (pardon the pun) Giveaway.

(18) The "pieta-de resistance": Iraq purchased the dehydrated cultures legally from the U.S., and now the Iraqis are going to SMUGGLE the stuff they brought here in America, BACK INTO THE COUNTRY. EVEN IF IT IS TRUE, then the cultures needed for this holy war, would not have left the country. ANYONE DEVIOUS ENOUGH to figure out this LONG RANGE plan, and the plan IS to kill Americans after all, would have simply bought the materials LIKE HARRIS himself did—legally here, would not even need an Export License—and the terrorist plan would have more of a chance of success to be kept SECRET. WHY risk MANY trips using MANY women smuggling back in vials in their body cavity. YES, even though I do not think much of the U.S. Customs Service, they do in fact at random, perform body cavity searches for DRUGS; matter of FACT, many women have been caught smuggling drugs into this country via condoms in the sexual cavity, anus and stomach. GIVE ME A BREAK HERE. Miriam even then says she made several trips ALREADY, carrying the stuff.

(19) Iraqis and others do not need to smuggle back Anthrax, etc., into the U.S.: it is still READILY AVAILABLE here. As to physically searching body cavities, the statement by this supposed Iraqi intelligence agent, who MUST BE an intelligent woman and trusted by Saddam, is not rational. She would know, as many know, that the screening (X-ray) type equipment now used at MOST if not all airports, etc., allows a "special" (concealed-remote) operator to SEE right through clothing and right through your body/muscle/tissue to your bones, similar to the movie *Total Recall*. Law Enforcement has had this technology (much less the Military) for many years and it is now in use, BUT NOT TOLD to the civilian populations. I have a copy of some of the SOFTWARE, having been a Security Consultant to Airport Security Projects, Defense Contractors and the like. They can see ANY foreign material/matter inside your body, such as a CONDOM with its contents. They may not be able to tell if it is Anthrax or drugs, but THAT, dear friends, is how Customs ends up catching some of the drugs. These supposed RANDOM checks aren't random at all. By NOT telling the public they can do (use) these things—you do not complain about invasion of your rights or body, or right to privacy. Much less, whether this may affect pregnant women. I can give you a demo of this software. PLEASE LET ME NOT WASTE MORE TIME ON THIS.

(20.) It is AGAIN interesting that the VERY thing these Iraqis and others are supposed to bombard us with are the VERY things ALREADY RELEASED in the GULF WAR—BUT BY WHOM? (AHHHH, ask yourself, WHY is Peter Kawaja's EVIDENCE sealed as US NATIONAL SECURITY, and WHY was it taken with a WAR POWERS ACT Search Warrant? THINK America, THINK.) The PLAGUE and Anthrax—EXACTLY what this veteran (and others that Peter Kawaja was helping) has on his paperwork that they did not think he had a copy of, and THAT again, dear friends, is WHY all of a sudden, after he was THANKING ME for all the help I was giving him, within 24 hours of knowing Joyce Riley's numbers and he told them I was helping him, THEY HAD TO PULL HIM AWAY FROM ME. Every time a vet with any evidence comes forward, the vet DISAPPEARS. Joyce Riley has been ADVERTISING for over two years for vets to SEND HER THEIR EVIDENCE. Where did over TWO YEARS OF EVIDENCE THAT SHE ACCUMULATED GO TO, AND WHO HAS IT? The attorneys representing Gulf Vets Associations in (supposed?) lawsuits against some of the chemical companies, doing the same thing. A disguised—in event anyone kept or got hold of their

"VA Hard Files"/Vaccine Records and such—SHADES OF THE MURRAH BUILDING BOMBING!

I WISH TO THANK CONTACT for also printing the additional information, by OTHERS besides Harris, explanations of the timely events to unfold. YES, at least someone else has asked a few questions, like "I have to wonder who tipped of the authorities...", referring to the supposed arrests in IOWA of women carrying bacteria inside their body cavities. Isn't it just peachy-keen that we, ACCIDENTALLY, OF COURSE, got hold of that controlled leak? I thought the CONTACT article said that the authorities wouldn't want the public to know and panic? It certainly couldn't be something used to solidify/confirm this plan leaked to Harris, for us, would it? Please refer to the [previous] CONTACT articles in their entirety for ALL of the information in original form and content.

The Harris Story Scenario is very real. I am not stating that Harris is not genuinely reporting what was told to him. The FACT that he WAS a CIA operative or contracted person, may not mean anything. However, as you will read in CONTACT, someone else brought up the POINT that Harris may have been fed a line for an ulterior reason. He may very well be another [similar to] Tim McVeigh—being USED UNwittingly, to expose a REAL scenario, but to once again throw the blame elsewhere. The PLAGUE has already been released; you have NOT heard Peter Kawaja—because Joyce Riley and those who promoted "their mouthpiece"—so you do not know the FACTS yet.

These biological-warfare agents (supposedly) which will be used on Americans by Iraqis for me is a Trojan Horse because of what I already know.

I could make MANY further comments and have broken down the entire Harris book. I believe him; he seems sincere and his scenario is REAL. There is just one difference—a MAJOR difference. The PLAGUES of the PALE HORSE have already been released. Gulf veterans have returned to the US, and been living in the civilian communities for YEARS now. This is the RIGHT TIME for people to START DROPPING LIKE FLIES.

Their blood has been distributed to civilian hospitals across America for YEARS, through the blood-donor program of the American Red Cross, by the INCENTIVE PROGRAMS of WALTER REED ARMY MEDICAL. MILLIONS of Americans are ALREADY CARRIERS—WAITING for Part-2 of Part-1. [sic (?)]

What Harris was told is very close. Sure, Iraqis and others may be the ones USED to do the actual "spraying" to ACTIVATE what is already inside the general civilian population. I am sure the CIA/MOSAAD, et al., can find a whole lot of Iraqis (perhaps some of those brought in a long time ago by George Bush) who hate Americans, and like McVeigh, through mind control, through mind-altering drugs, through MK-ULTRA, whatever, convince these few THROW-AWAYS, that here is their chance to get back at America. Always a scapegoat.

There is so much to this story, it cannot be told here. I do not dispute Mr. Harris's story, nor consider him a fraud. However—there is the however. My days are numbered, but so are yours. No one listened when Peter Kawaja tried to tell his story. Thanks to CONTACT, the very tip of the iceberg was told, and thanks to CONTACT and people like Steve Quayle, another portion is unfolding, BUT it is NOT what Harris "believes" he has been told is WHO, HOW, or really WHY. It is a done deal. THE ENEMY IS WITHIN.

WHO STANDS TO GAIN? WHO IS POINTING THE FINGER?

WHO IS THE INTENDED VICTIM—BUT IS ACTUALLY THE OPPRESSOR OF AMERICANS?

A Special Report

WARNING! NUTRASWEET IS A NEUROTOXIN! (1994)

7/17/97 DR. AL OVERHOLT

From a FAX, 6/20/97, [quoting:]

The THALIDOMIDE of the 90s is ASPARTAME otherwise known as EQUAL, NUTRASWEET or SPOONFUL. In May, 1992 *Flying Safety Magazine* explained the dangers:

In pregnancy the effects of Aspartame can be passed directly on to the fetus, even in very small doses. Some people have suffered Aspartame-related disorders with doses as small as that carried in a single stick of chewing gum. This could mean a pilot who drinks diet sodas is more susceptible to flicker vertigo, or to flicker-induced epileptic activity. It also means that all pilots are potential victims of sudden memory loss, dizziness during instrument flight and gradual loss of vision.

Some pilots have experienced grand seizures in the cockpits of commercial airline flights and have lost medical certification to fly, [and] with it their careers. The FDA has received more than 10,000 consumer complaints on NutraPoison. That's 80% of all complaints about food additives, yet they remain comatose and have done nothing to alert the American public who assume that since it's so highly advertised, it must be safe as mother's milk. The FDA consistently approves killer drugs as the February '94 *OMNI MAGAZINE* reported:

If you are using Aspartame and have headaches, depression, slurred speech, loss of memory, fibromyalgia-type symptoms, loss of sensation in lower legs or shooting pains, loss of equilibrium, vertigo, anxiety attacks, chronic fatigue, vision loss, floaters, retinal detachment, seizures, heart palpitations, etc., you have ASPARTAME DISEASE! Many physicians are diagnosing multiple sclerosis when in reality it is methanol toxicity which mimics MS. Get off this dangerous drug right away. MS is not a death sentence, but methanol toxicity is!

51% of FDA-approved drugs have serious risks and could cause adverse reactions that lead to severe or permanent disability or death. The Centers for Disease Control, Johns Hopkins University, and the New Jersey School of Medicine estimate that 80-120,000 Americans are killed by prescription drugs every year. That this atrocious holocaust persists has everything to do with money and nothing to do with public health. Monsanto reaps \$2 billion/year from the Aspartame toxic bonanza. This can buy a lot of bureaucrats! Does FDA mean Fatal Drugs Allowed? The FDA works for industry, not citizens. FDA head Arthur Hayes overruled his own board of inquiry to approve it, then went to work for their public relations firm. Federal attorney Sam Skinner was assigned to prosecute Searle for fraudulent tests in their application, but switched sides and went to work for Searle's lawyers and the case died when the statute of limitations ran out.

Honest FDA toxicologist, the late Dr. Adrian Gross, wrote to Senator Howard Metzenbaum: "The views of the FDA's Center for Food Safety read like a script written for Abbott & Costello in the sense of their having perceptions inside-out and upside-down...FDA may have gone through the motions...such a "process" or DANCE represented a farce and a mockery."

Aspartame is a molecule composed of three components: aspartic acid, phenylalanine and methanol. Once ingested, the methanol—wood alcohol—that has killed or blinded thousands of skid-row drunks, converts into formaldehyde

and formic [acid?] (Ant Sting Poison). Formaldehyde, a deadly neurotoxin, is common embalming fluid, a Class A Carcinogen. Phenylalanine is also neurotoxic when unaccompanied by the other amino acids in proteins. Aspartic acid causes brain lesions in neuroendocrine disorders in experimental animals. There are 92 documented symptoms including:

Headaches, numbness, fatigue, blurred vision, heart palpitations, memory loss, dizziness, muscle spasms, weight gain, irritability, anxiety attacks, vertigo, seizures, rashes, blindness, tachycardia, tinnitus, joint pain, nausea, depression, hearing loss, slurred speech, loss of taste and insomnia.

NutraSweet is in 5,000 foods (Over 9000 by 1997) and on every restaurant table for the same reasons tobacco is everywhere: Greed, Addiction and Profit! The NutraSweet Company and sister Searle (whose chemists discovered Aspartame while testing an ulcer drug) are owned by Monsanto. If you're taking other medicine, consider possible reactions you may have. In 1969 Searle approached Dr. Harry Waisman to study the effects of Aspartame on primates. Seven infant monkeys were fed the chemical in milk. One died after 300 days, 5 others had Grand Mal seizures. Searle deleted these findings when they submitted this study to the FDA! The best way to understand NutraSweet is to think of it as a minute dose of nerve gas that eradicates brain and nerve functions.

SOME DISEASES TRIGGERED BY ASPARTAME:

Brain tumors and other cancers, Multiple sclerosis, Epilepsy, Fibromyalgia, Graves Disease, Chronic fatigue syndrome, Epstein Barr, Parkinson's, Alzheimer's, Diabetes, Mental retardation, Lymphoma, Birth defects and Systemic Lupus Death!

Researchers at Massachusetts Institute of Technology surveyed 80 people who suffered brain seizures after eating or drinking products with Aspartame. Said the Community Nutrition Institute: "These 80 cases meet the FDA's own definition of an imminent hazard to the public health, which requires the FDA to expeditiously remove a product from the market."

America is seeing a tremendous increase in seizures. Phenylalanine in Aspartame lowers the seizure threshold in the brain and blocks serotonin production. Today our nation is swept by a rage of violence. Researchers attribute this in part to low brain serotonin levels inducing depression, rage and paranoia. So President Clinton, Diet Coke in hand, programs billions of \$s to buy penitentiaries for the paranoid.

Fetal tissue cannot tolerate methanol, and Dr. James Bowen calls NutraSweet instant birth control. The fetal placenta can concentrate phenylalanine and cause mental retardation. Aspartame tests on animals produced brain and mammary tumors. No wonder breast cancer is exponentiating! During Operation Desert Storm, truckloads of diet drinks cooked in the Arabian sun and at 86 degrees Aspartame liberates methanol in the can! [emphasis mine] Thousands of service men and women returned home with chronic fatigue syndrome and weird toxic symptoms!

On July 28, 1983 the National Soft Drink Association drafted a 30-page protest questioning the safety of Aspartame in soft drinks. Then they found weight-conscious Americans would sip soda all day if it was sugarless, so they

forgot their objections; nor did they tell us that Aspartame makes you crave carbohydrates and so you gain weight. The formaldehyde stores in fat cells, particularly on the hips and thighs. Drink diet soda, get fat now, and later develop seizures, diabetes, blindness, Epstein Barr, MS depression and death. [emphasis mine]

Similarly, the American Diabetic Association, which receives megafunds from NutraSweet, ignored a 1987 abstract submitted by Dr. H. J. Roberts (world expert on Aspartame and diabetic specialist) summarizing 58 diabetic Aspartame reactors. He says "I now advise ALL patients with diabetes and hypoglycemia to avoid Aspartame products." Russell Blaylock, M.D., Neurosurgeon, in his book, *Excitotoxins—The Taste That Kills*, says Aspartame may trigger clinical diabetes! He says that excitotoxins, which can be found in such ingredients as NutraSweet, literally stimulate neurons to death, causing brain damage of varying degrees. *Health Press*: 1-800-643-2665. Also, "What really concerns me about Aspartame is its association with brain tumors as well as pancreatic, uterine and ovarian tumors...and that so many develop an Alzheimer's-like syndrome with prolonged exposure."

NutraSweet/Equal/Spoonful are the deadliest toxins in our society because of their ubiquitous presence in thousands of foods, even children's vitamins, medicines, Kool Aid and Jell-O and on every restaurant table. [emphasis mine] We're dosed with millions of pounds every year! This warning should be on every Aspartame/NutraSweet/Equal/Spoonful product: **CHEMICAL POISON: KEEP OUT OF REACH OF HUMANS! GENOCIDAL!**

How many readers had any idea of how poisonous these sweeteners are?

This is just another example of what the Elite think about us—we are nothing but slaves to supply what they want, in any way they want it and at the time they want it. How does it feel to know this?

Every day of our lives we see the fulfillment of the *Protocols of Zion*, if we only open our eyes!!

When are we going to WAKE UP and stop it??

Attorneys Drain Economy

U.S. Legal System: Doesn't Work, Yet Costs Billions Of Dollars

7/15/97 #1 HATONN

Well, having lost two hours of work to the computer monster, it is not with festive heart that we proceed. I will trust that E.J. got enough of our message, for all callers who want interviews with Hatonn, to simply give them a negative response.

"CLEVER" ADVERSARIES

Until we get rid of our leeches and blood-sucking groupies, we are not going to do anything public beyond an occasional meeting to have cake and punch. This last round of criminal actions being taken by the Horn, Brent, Abbott and Horton team of attorney scum-suckers is about the limit of my patience, and who knows about the feelings of the rest of you.

About two years ago things were falling apart in the ranks of such as Ence and Cleary, Tuten and Green. On one occasion, while Ence was President of the Phoenix Institute For Research & Education, Ltd., and Cleary was on the Board, a funny thing happened just before they resigned and ran for shelter from their actions. There was a call to Nevada Corporate Headquarters with a request by Ence and Cleary for copies of all the corporations' papers for two corporations, P.I. and one we shall leave unnamed because the important parties know exactly which ones are in point and they have now been tampered and we don't want to spoil the legal evidence.

When they were told this was not ethical nor possible, they went about getting the books. On that following day both men were SEEN going through the corporate records in the Editor's room, behind the partition—hiding.

The next amusing thing was that, as with the Tuten heist of three corporations' records from NCH, the corporate record books were taken. At first this was not noticed as the seals and records were kept separately because they were constantly in use, but the books were held and without cause for use because the records are maintained in files. This did, however, mean that the stock certificates and ledgers were gone.

This has no impact particularly in most instances because the stock is not issued and the books themselves, articles and bylaws are copied and kept in

separate records. However, the things happening now, as we are informed, are greatly interesting if nothing else.

Our mystery caller has informed us that, when plans were being made to "pull down" the Ekkers and P.I. and make sure the gold (Overton's) flowed to "them, the planners" it went something like this:

In a conference call in which speakers were at the least, Horn, Jason Brent, Abbott and Horton, and possibly others, they were chortling that they now had "em and that they had the books and stock" and it would simply be issued to "their" parties and at the time, then, that the gold might be delivered to the Phoenix Institute they would produce the documents proving they owned the Institute and the gold would go directly into their hands. NO THANK YOU.

Books were replaced—DO YOU THINK US TO BE TOTAL FOOLS?

That aside, there is now full implication of, at the least, Fort, Beam, Ence, Cleary, Tuten, Green(s) and those four lawyers. Their "coup" has turned into a "cough-cough" and they haven't even seemed to realize as much. And they have used so much stuff out of the US&P FILES as to suck those poor souls right back into the fray with updated reinstatement of the TIME SEGMENTS for finding involvement in this fraud, criminal intent and action—without expiration of limitation.

They planned to re-incorporate the entities in outside states and in Nevada with VERY SIMILAR but rearranged titles. The plan was to, of course, incorporate and produce records when appropriate in Texas where the case is being considered, or Delaware or Wyoming where rules are quite sheltering. Now aren't we just thrilled to know such upstanding people, former Priests, former claimers of God's work, Godly "seeking and searching" and thus and so? You just never know, do you? Did they get this accomplished? Well, yes indeed, we DO KNOW!

And just who let us in on the subterfuge? One of the judges in Nevada, who we will leave unnamed, who gave us the information IN AND FROM ANOTHER CASE. These judges are beginning to feel that frying pan burn through and onto their assets.

It begins to look very bad for such as Ed Cleary for he is very elderly now and all but an invalid who requires around-the-clock assistance, etc. Will passage in "joy" be possible for such as this one? Of course not but greed causes man to do stupid and criminal things to preserve image among "people" to whom he has already lied.

Are "we" through? Perish the thought! We grow stronger every day and these bits of proven information MAKE OUR DAYS. Truth will always "OUT" when the fools begin to try to cover their own personal and individual indiscretions and prattle and tattle and BRAG ABOUT THEIR CLEVER THIEVERY.

NO MORE CHRISTIAN ACCUSATIONS OR FAR OUT STUFF.

There aren't any more possibilities of taunting and lying and cheating and accusing us of invisible E.T.s who hype commercial ventures or to get distracted off onto as a sideshow. There aren't any silly games to be played—they blew their wad with *EXTRA* and TV programming.

We have a clean bill of health while "they" are still up for prosecution by such as *Extra* if people here choose to legally investigate the culprits who lied to the crews. The crew told the world exactly WHO was behind their unfortunate programming.

And who gains from all this hype and lies? The attorneys and no other.

I would like to share an article sent to us by a dear and long-term reader, PC. It is taken from *AntiShyster*, Volume 1, No. 1:

[QUOTING:]

BEATING PLOWSHARES INTO SWORDS

by Alfred Adask

AVERAGE ATTORNEY COSTS GNP
\$1 MILLION PER YEAR

One-half TRILLION dollars? Lost annually from our Gross National Product as a consequence of our legal system?

That's what the authors of *Black Hole Tariffs and Endogenous Policy Theory* claim. They explain that "each lawyer in the country is draining \$1 million from the nation's economy—many in the quest to acquire the wealth of others." And they aren't talking about legal fees. They are talking about the generally unseen consequences of a legal system that's threatening to destroy our nation's economy and our standard of living. One million dollars. Per year. Per each friendly local attorney.

We bandy such big numbers about in our society that we're sometimes bored rather than astonished by a long string of zeros. Figures like \$500,000,000,000.00 (one-half trillion dollars) seem so remote from everyday life that they are often dismissed as personally irrelevant.

Here's a little perspective: one-half trillion dollars per year is double our worst federal budget deficit. It's nearly three times as much as we recently spent each year to defend Western Europe and NATO from Communism and the Soviet Union.

Or, from another perspective, one million dollars per attorney per year is five times the federal government's estimated "societal cost" of the average drug addict. This suggests the average attorney does five times more harm to this nation than the average drug addict. How's that for personal relevance?

Many of us realize intuitively that "the best legal system in the world" is wreaking incredible damage on individual lives. But until now there's been little authoritative information measuring the aggregate costs of our legal system to the nation as a whole. Authors Magee, Brock, and Young should be applauded. *Black Hole Tariffs and Endogenous Policy Theory* provides the beginning of that information.

The problem is that much of the book is almost unreadable for the average person. The back cover claims "the text is nontechnical and accessible to undergraduate students in the social sciences." Uh-huh.

Since I haven't been an undergrad for nearly twenty-five years, it's hard for me to judge. Still, I'd guesstimate that 20% of the book is calculus and differential equations and that much of the text is almost as desic-

cated as the title. Perhaps easy reading is necessarily difficult for a book with so much original thought, insight, and new information. Whatever the reason, the book is at least "challenging".

However, according to the index and table of contents, only about 20 pages of the entire work relates directly to attorneys. And those twenty pages are not buried in differential equations; they are "accessible", even to laymen like myself. They are powerful and important. The text and graphs provide the first concrete estimates I've seen of the real economic consequences of our legal system.

More importantly, this is not the work of another individual or group on the "lunatic fringe" of legal reform. *Black Hole Tariffs and Endogenous Policy Theory* is the work of three competent, respected economics professors described as "pioneers of modern political economy". They each hold positions of respect in their universities. The text is based on nearly two decades of research.

The work's credibility is important. Why? Because this book cannot be dismissed by attorneys as mere lawyer-bashing.

If *Black Hole Tariffs and Endogenous Policy Theory* receives enough attention, it may force the various Bar associations to offer counter-arguments defending themselves and their profession as being "not all that bad", or perhaps even beneficial to the nation. For my money, anything that compels open public discussion on our legal system, anything that drives the shysters out from behind their cloaks of immunity, secrecy, and silence, is good for this nation. *Black Hole Tariffs and Endogenous Policy Theory* has that potential.

While *Black Hole Tariffs and Endogenous Policy Theory* won't make the *New York Times* best-seller list, it should validate the visceral anger a lot of people already feel for our legal system. Hopefully, it will also lay the foundation for several more books on legal reform that will reach the best-seller lists. And it may inspire dozens, possibly hundreds of legal reform essays to be written and published in magazines and newspapers across the nation.

If you write books or essays on legal reform, buy a copy of *Hole Tariffs and Endogenous Policy Theory*. It's a foundation text, an essential reference. It's a plowshare waiting to be beaten into swords for assaulting the legal system. So get a copy, fight your way through it, and start hammering on the forge of your typewriter.

[H: Ray, please read this again carefully and you and Nora each get a copy and go to work and let us see if we can't bring our judicial observations to focus in a series of updated material. I don't want to lay a heavier load than is absolutely necessary on you who are holding down the fort with the paper while I am otherwise occupied, but here is a good opportunity for interviews and research.]

If you are merely interested in (or obsessed with) legal reform, buy a copy anyway. Heck, buy two copies and send one to your local legislator to consider before he votes on sunseting the Bar. If you can, call the publisher and even the authors to tell them you want books, serious books, on our legal system and legal reform. With enough feedback, the authors might focus their next book exclusively on the adverse effects of the legal system. And if they don't, perhaps someone else will.

Black Hole Tariffs and Endogenous Policy Theory may not receive the public recognition it deserves, but this book will play an important role in wrestling control of our government from attorneys and restoring that control to the people. It might not be great literature, but it's great politics. Buy it.

A Brief Reminder About Gaiandriana & AquaGaia

5/26/95 SANDRA TULANIAN, D.C.

The physiology of the body is basically governed by the actions and programming found within the cell. The cells make up the tissues of the body; the tissues make up the organs such as the heart or liver which, in turn, make up the organ systems that work in harmony with each other to keep the entire body functioning. If the cell structure has been altered or is malfunctioning (for whatever reason), every organ system is affected. To what degree they are affected depends on the offending substance that has caused the cell's breakdown or the length of time that cell has been subjected to abuse.

Gaiandriana is a product that is said to help correct the faulty programming that has occurred at the cell level by correcting into perfection the cell's DNA/RNA blueprint. Viruses, unlike bacteria, have the ability to fuse with the DNA strand within the cell, creating a mutation to that cell. By perfecting the DNA/RNA blueprint, the cell may be returned to a level of vitality which allows it to fight off an incoming virus and maintain the homeostasis within the cell and, in turn, within the organ systems.

This is essential for the immune system, because without healthy cells that can fight off offenders like free radicals, viruses, and cumulative levels of radiation, the immune system is overtaxed to the point of exhaustion—eventually leading to dis-ease. Another benefit from consuming Gaiandriana is its ability and nature to thrive on the invisible, higher photon frequencies which are bombarding us daily. Gaiandriana is able to speed up the frequency levels of the cells to more nearly match the energies pouring in and assaulting the body. This, in turn, can offer a two-fold benefit: One benefit is the ability of the cell to withstand and actually adapt to these otherwise damaging energies; the other benefit is to help protect ourselves from mind manipulation through pulse beams that are irradiating mankind relentlessly. Originally the dose was 10 drops, 3 times per day, under the tongue. However, with the growing number of "manufactured" epidemics and other stepped-up plans for our demise by the Elite, perhaps more is better. One ounce or more per day may produce faster and more effective results.

AquaGaia was introduced to benefit the mitochondria system that lies within the cell. The mitochondria is the energy producer of the cell and is essential to convert the food we eat into usable cell fuel and to produce enzymes that are absolutely necessary for survival of the body systems.

AquaGaia is also said to feed on vessel plaques adhering to blood vessel linings. Most all of us, by the age of twenty, have plaques developing on the arterial walls due to the American diet that is filled with saturated fats, high protein, white flour products, and limited consumption of fresh fruits and vegetables. This product provides added fuel to any compromised system to assist in strengthening the immune system, as well as cleaning out blood vessels and enhancing the pliability of the vessel walls throughout the body. Both Gaiandriana and AquaGaia work in harmony to strengthen and eliminate mutations of all cells by working together within the cell structure itself.

Gaiandriana and AquaGaia are said to be safe for children and pets, and can be taken with other medications without incident. Available in 16oz., and 32oz. bottles.

move right along WITH THEM. Oddly enough, they don't seem in the least concerned that their joint ventures are illegal, immoral and unethical, even according to their own rules of ethics. But, the minute anything goes amiss—they will tell on one another like babbling brooks at flood-stage. We are reaping the rewards of this kind of loyalty as we write, as the guilty cluster parties are starting to tell ON EACH OTHER in order to place the blame on the more foolish and ignorant dum-dums, while they keep their ever-driveling noses out of the traps springing right and left on their same noses. Oh indeed, the Betty Tutens and Rod Ences, Clearys and even, yea, the Greens, will pay dearly while they turn evidence and plead innocence and "we were told that...by Ms./Mr. So-and-So." How deeply do you expect the unsuspecting people to get sunk in the mire before they wise up and realize their only recourse is to move against the very snakes in the viper pit? Betty and now Ence and Cleary are already in and buried over their heads—with criminal actions now proven. Do they actually think the lawyers will defend them? Not on your hanky-pank-pank. YOU NICE PEOPLE KNEW FROM THE START THAT ABBOTT, FOR INSTANCE, IS A DRUNK AND TELLS EVERYTHING EVER TOLD TO HIM AND BRAGS ABOUT IT DAY AND NIGHT—ESPECIALLY AT THE LOCAL BARS, AT NIGHT. So, may all of you colleagues in crime rest well and have good nights at sleep—or save it for when you can't do anything else with your time.

Have WE learned some good hard lessons? Oh indeed we have and, as we have been HAD royally, we have really LEARNED A UNIVERSITY COURSE FULL OF LESSONS.

I am also asked to, before I leave, comment on possible activities in the middle of August, next month. I am perhaps not the one to ask for input. I am available IF we are not needed elsewhere for other reasons as regards legal attendings or funding needs.

My suggestion is that you might well want to go right ahead and make plans IF (IF) others than Ekkers and Martin make ALL the arrangements and simply allow us to participate, bring pot luck as others decide, etc. I had hoped that instead of the meeting in Las Vegas that perhaps the Corporations people could spend a couple or three days on the workings of corporations from upstart to ongoing maintaining of records for you will have need to know these things and properly apply your knowledge.

We are flexible and it might be noted that Little Crow has said he would join us at that time on the Saturday or Sunday as would be applicable. This would be a special thing for all of us. I also believe it to be a wonderful time to get your musicians in connection and let us have some fun while we do some work. I do, however, leave this to you. We will be taking the opportunity to celebrate the union of Jeff and Alysia, our most special children, and therefore the persons in our reading audience will want to know that ahead of time. We are grateful to be allowed the sharing as they had a very quiet wedding without causing disruption in the work-load; they will have their day in the sunshine for being so thoughtful and giving in their time load.

I believe that is sufficient for now. Thank you.

Which News Is Real News?

[Continued from Front Page]

World Order crooks) might ACTUALLY be instigating any upcoming bug attack, is a matter of question, but you can be sure such will be blamed upon the innocent, for the usual NWO political agenda reasons.

3. Ray Renick, who exposed the San Luis Obispo, CA, den of Reagan-related high-level crooks in the New World Order cast of characters, and who is currently in prison, recently pointed out that the 1,260 days of Revelation in the Bible, if we count backward from the end of the century on Dec. 31, 2000, begins on July 20, 1997.

4. Richard Hoagland, at a major conference in Phoenix, Arizona, on July 14, 1997, stated that he feels something is about to happen in Phoenix between July 20th and the 26th. He suggested it could be a theme like in the movie "Close Encounters of the Third Kind", where beings not from this planet make their presence known to us. We do have sightings of NWO notables like George Bush, Hillary Clinton, Norman Schwarzkopf and many others in Phoenix recently, along with an undetermined number of military troops.

5. In "anticipation" of Hoagland's announcement, Commander Soltec, in a writing on June 21, 1997, said, "Be careful, for there is the allowance by the global Elite, at this time, for the introduction into the world consciousness of the realization that there is extraterrestrial life visiting your planet and on your planet. This is to prepare you-the-people for the next phase of unification under a one-world dictatorship as these ones will try to convince you that these 'aliens' are attacking you."

6. Commander Soltec, in a communication on July 12, 1997, commenting on the July 8th eruption of Mt. Etna in Sicily and noting its proximity to Mt. Vesuvius, which buried the City of Pompeii in 79 A.D., said, "Recall, please, the timing clues for major Earth changes connected to these sister volcanos as given forth by ones such as Edgar Cayce." He also said in the same writing, "There are many pieces of the puzzle now coming together... You who are there on the Earth now will witness the great changes prophesied through many sources. There is no avoiding this inevitability."

7. On July 12, 1997, the lava flow from Kilauea Volcano in Hawaii reached the Pacific Ocean. A striking river of lava, now six miles long, stretches to the sea.

8. Hakkoda Volcano is located in Northeastern Japan. There are no historic records of any eruptions there, but on July 12, 1997, three soldiers on a routine training mission died after being overcome by breathing carbon dioxide gas. Strong sulfurous gases are known to be emitted from many holes and depressions in the area of the volcano. Farmers in the area say that they have seen dead animals near the volcano on several occasions.

9. In Gordon-Michael Scallion's *Earth Changes Report* for July 1997, there is an article by Gordon entitled "What Is Going on With Our Weather?" Gordon publishes information only after receiving three visions on any given subject. In this article he talked about being taken on a dream voyage within the Earth, where he was able to witness the dynamics of plasma forces at work.

It was revealed to him that there are currently over 5,000 active volcanos underwater, worldwide, on the bottom of Earth's oceans. The thermal heating from all of this is carried to the surface and then into the atmosphere, becoming part of our weather pattern systems. Gordon also revealed what Commanders Hatonn and Soltec have warned for nearly a decade now—that winds of high velocity will be created by the heating of the oceans, and then driven over land.

10. On May 9, 1997, the National Oceanic and Atmospheric Administration (N.O.A.A.) issued an advisory indicating that they expect El Nino conditions to intensify. In an article in the May 24 issue of *Science News*,

N.O.A.A. stated that this was because "waters have warmed rather rapidly throughout the central equatorial Pacific, as well as near the South American coast." Those familiar with the agenda of N.O.A.A. are probably aware of their involvement in creating weather, including hurricanes, so they should know what they're talking about—whether or not they tell us the truth.

11. Also in the July 1997 issue of Scallion's *Earth Changes Report* is a letter from a reader in Alberta, Canada. The letter conveys the essence of a dream the reader had in August of 1996. In the dream the person was in a restaurant with many people, when a noise outside caught the attention of everyone, and it turned out to be a spacecraft. The person didn't panic, but was suddenly holding in their hand a mug from the spacecraft with codes written on it. Among the codes was one about "WM WD, August 1997". In the dream the person realized, after about five minutes, that this was a warning about Wormwood in August of 1997 and that the person had to warn the people about it. The dream has been with the reader ever since. In Gordon's response to the letter, he states that he believes this summer will be challenging for the Earth (and, of course, for the people thereon).

12. And, the stock market on Wed. July 16, 1997, closed above 8,000 for the first time. Some analysts state that it shouldn't be there and that it is out of control. It only appears out of control to those who do not understand the mechanics involved. It is being controlled, make no mistake about that. The question we should ask is: are they now ready to collapse it? The timing will most likely be in conjunction with other engineered, large-scale disruptions.

13. And then, in the *Bakersfield Californian* for Wednesday, July 16, 1997, it was reported: "Glenn Wilburn, who was so angry over the death of his grandsons in the Oklahoma City bombing and so mistrustful of the official investigation that he forced the opening of a new grand jury probe, died Tuesday. He was 46." It remains to be seen if ANYONE of honest intent will live to testify in conjunction with that cover-up.

14. As another possibly related story, Sir James Goldsmith is dead (deaded?) at age 64. The *Bakersfield Californian* reported on July 20 that "the cosmopolitan billionaire who formed his own political party to crusade against European unification, has died." Of course, the newspaper does not give us any unusual reason for this death. One wonders if he, a powerful money man especially proficient in the world of global financial manipulation, might have made a better-late-than-never decision to go against the One World Controllers.

15. And another curious death: Astronomer Eugene Shoemaker has died in Australia at age 69. A resident of Arizona, he had been involved in the Apollo missions to the Moon, and he co-discovered the comet Shoemaker-Levy 9, which (supposedly) slammed into Jupiter in 1994. The *Associated Press* reported that he "was killed in a car accident Friday (July 18) in Australia during an annual trip to search for asteroid craters."

"Shoemaker died in a two-car accident on a dirt road about 310 miles north of Alice Springs, in central Australia, police there said."

One of his colleagues, Laurence Soderblum, who is working on the Mars *Pathfinder* mission, said of Shoemaker, "Any area he went into, his contributions stood in mammoth proportion above the rest of us mortals."

Just what did Shoemaker know? Remember the curious array of recent deaths associated with the Mars mission that I reported on in last week's *CONTACT*? Are the Elite picking up the pace with elimination of any possible opposition to their plans?

16. Meanwhile, the news from N.A.S.A. about Mars (i.e., Saskatchewan, according to the inset news item as-

sociated with last week's Front Page story) reported that communications with *Pathfinder* were down on Saturday (July 19) and then again on Sunday. *Sojourner* is parked up against a rock named Scooby-doo, and scientists are just waiting "excitedly" to get the data on it.

As the lights on that ring of the media circus dimmed temporarily, the "entertainment" distraction was immediately shifted to lengthy, glitzy blather about an obscure, fringe-lifestyle fashion designer slain in Miami, Florida under curiously depraved circumstances.

17. As a reference point that may help to put all of this and more into perspective: in 1994, the Strategic Studies Institute of the U.S. Army War College produced a paper entitled "The Revolution in Military Affairs and Conflict Short of War", which described fundamental changes in the planned future mission of the U.S. military. These changes would include the use of sensor technology, robotics, nonlethal (psychotronic) weapons, and intelligence meshes to be used in combating terrorism (defined as such, of course, by the biggest and most powerful terrorists in the world—the Elite).

The document states in part that, "Behavior Modification is a key component of peace enforcement...." That "proposed information warfare capabilities might be ideally suited for helping develop desired emotions, attitudes and behaviors".

The report goes on: "The use of new technology may also run counter to basic American values...." And "Deception, while frequently of great military or political value, is thought of as somehow un-American.... The majority of Americans may find the use of many of the emerging technologies morally difficult..."

The report recognizes that overcoming these constraints may require fundamental changes in the United States itself. Or, as the report suggests, an alternative could be: "We could deliberately engineer a comprehensive revolution, seeking utter transformation rather than simply an expeditious use of new technology." Has that time finally arrived in full?

If we carefully consider just the above information, it becomes quite obvious that something or something, very big may be about to happen. The Elite have a lot of no-good things on the burners ready to go. However, it seems they've forgotten that the Earth is a living, breathing organism which is about to cleanse and rebalance herself from what mankind collectively has done to her against the Laws of God.

Anyone with access to the Internet may be interested in checking out the seismic, volcanic, and sea surface temperature information that Stan Deyo has on his Website. Stan is an excellent researcher and scientist in Australia and his Web address is <http://www.iinet.net.au/~standeyo/>. When you get there, go to his "Geophysical Links".

It may be that Space Command will soon make their presence known in a more public display. Or we could witness a fake "alien invasion" put on by the New World Order's mind-control engineers—the case that Commanders Hatonn and Soltec each warned us about some years ago, and then Soltec reminded us about, again, several weeks ago.

As Commander Soltec may have hinted or alluded to in the writing of July 12, each of us volunteered to be here to experience at this time. You may not remember volunteering, but you did, or you wouldn't be here. What a pity it would be to waste the valuable lessons we came here to learn. Now, more than ever before, it would be wise to be as prepared as you possibly can for any eventuality. But remember: guns are not of God and will only get you dead. Those who survive all of this will be the ones who have learned the true lessons of giving, regiving and cooperation.

If nothing happens, you will use what physical supplies you have at some point. If something does happen, you will be in a much better position to work through what you are about to experience. As Commander Soltec recently put it, about as clearly as such can be stated: "PREPARATION IS THE KEY TO SURVIVAL".

And certainly a key part of that preparation includes keeping an eye on the REAL news as it unfolds!

Archangel Michael: *True Value* Is A Matter Of The Heart

Editor's note: The following writing is by Lord Michael of the Archangelic realms. In Phoenix Journal #7, called THE RAINBOW MASTERS, Michael says:

"You ones must always hold within your conscious minds that you are never alone, that it would be impossible for you to be alone. You are attached, for eternity, to the Brotherhood of Service.

"The 'Golden Ones' surround the Earth, ever more, as we all enter into the Great Transition. We are plunging deeper into that which shall be seeming destruction. And yet, it is the necessary 'labor' to allow for the 'birthing'. It is just as each segment of existence is in preparation of the next-and-more-important one, so it is as we move on together into this wondrous experience which is the ultimate of life itself.

"We, too, in all the Higher Realms, are growing and sharing these experiences to the best of our abilities, and so it is. May we all be worthy of the gifts given unto us by those who have gone before and gave so dearly for having passed the physical way....

"You are now approaching a time when it is of vast importance that you speak out so that many souls might be lifted in their final stage of development. Shortly, all secrets shall be revealed in the Light of a New Day when nothing can stand that is hidden, nothing that is dark shall escape being exposed to the Light. It must be done in such a way that man, who has become cynical and superstitious, shall be guided from within, rather than turned away. Some of the secret myths shall wither and fall to decay; others shall spring forth in response to the New Energy, but ALL shall be set to truth....

"There shall shortly come into thy attention a bow stretched across thy heavens such as Earth man has never seen before in all of his memory, for the translation of a planet comes but once from third to fourth perception—but once! The bow across the sky shall be magnificent in color and shall emanate musical sounds that shall come to the ear of all men, and they shall know a calling; they shall know a love; they shall know a duty—and they must be prepared unto that day, chelas of the words of truth. Man must be prepared by these words brought forth for such purpose.

"From this bow of beauty, this bow of duty that

calls to its own, it shall first appear as a great violet radiance over the entire world. Thy brothers in the heavens also await this moment of commencement.

"In ages past, these ones have only appeared to Earth in a very few cases, on very special errands for the Infinite Creator. They, WE of the Golden Helmets, shall be known to you as the Archangels by title; we are the mentors of the Angelic Messengers from these realms....

"In great love and peace, I thank you and know that I am ever with you."

7/19/97 LORD MICHAEL

Good afternoon, my friend, and thank you for sitting this day. This is Michael, of the Archangelic realms, come to briefly commune with you this day so that there may be greater understanding of what it is that you ones are experiencing at this time. I come IN and OF the LIGHT! Thank you for asking and reaffirming the connection.

As Messengers of God's desires, we of the Hosts will continue to give forth the promised Guidance that is part of the third-dimensional experience. You EACH, prior to entering into this experience, knew that there would be Guidance offered to you along the way. This Guidance has always been part of the third-dimensional experience and shall always be a part.

For many at this time, it is quite a stretch to accept such writings as authentic or "real". This is fine, for the promise is that they be offered, NOT shoved down anyone's throat! There are many who are seeking to connect and find that which seems to be lacking in their lives. These ones are hungry for that which gives a sense of genuine value and meaning to their lives.

Each must find their own way through the challenges before them at this time. Each must choose, for themselves, that which is of value and act accordingly. Many place great value on money or a high-paying job. This is fine, if it be your choice. I will, however, ask you to consider the lasting value of a TRUE friend? Or, the value of the smile that

comes to the face when you offer ones HONEST praise for that which they have completed. What is the value of these things that make you FEEL alive and connected?

You EACH are part of THE ONENESS that many refer to as God. When you do something for or to another, you are doing same for or to yourself AND God. EVERYTHING in the physical is a result of God's creative thinking. There is an inner-connectedness of all things in the physical, by way of a non-physical counterpart that is as much a part of your experience as is the chair upon which you sit or the air that you breathe.

This non-physical counterpart is the electromagnetic (Light) energy that animates the body and causes the apparent motion of electrons around the atom. It is the energy that causes all substance to have a frequency and vibration. It is, simply put, GOD expressing Himself!

This is not new information, nor is it brought to you in some sort of mystical manner. Every culture on your planet has ones who will bring forth these messages of Inspired Truth. Each will be unique in style and limited, in some ways, by the language base into which they are translated.

The individual examples may vary, but the general message will never change. For example, it would make very little sense to talk about atoms to a primitive culture that has just discovered fire. However, when you talk about the "warmth" of the fire, they can understand the concept and may be able, on a FEELING level, to relate it to the idea that it is of God—as are the trees that grow around these primitive ones, or the food that is taken within for nourishment.

Look to the messages of ancient philosophies and you will see the same ideas recurring over and over again. Whether the concept, for instance, be "angels" or "spirit guides", there is little difference except for terminology of translation into the physical. Learn to let go of the prejudices and conceptual frameworks that limit you to so-called "modern" ideas.

You are in a schoolroom called Earth. The overall purpose is so that you can have opportunity to expand your awareness and ability to RESPONSIBLY create. The value comes in an ability to handle more and more of the Infinite Creative Potential that is within.

There are many ANCIENT teachings that are again being brought forth to you ones. Some of these were written many hundreds of thousands of years ago, yet they state the same basic message.

You have the tools and information before you at this time to discern what has value and what does not. There is that which will fill the void within or fuel the desire to FEEL an inner sense of worth or value. Inner fulfillment comes from understanding who you really are and why you are here at this time.

The answers are simple. However, there are ones (especially in positions of authority, and most especially in your churches) who would keep you from recognizing this fact. You are led to believe that these questions cannot be readily answered, especially by "lowly" YOU, and certainly not from such a personal and direct process as going within.

REMEMBER: YOU ARE INFINITE BEINGS EXPERIENCING WITHIN A BODY. THAT BODY IS BUT A SHELL THAT YOU UTILIZE SO THAT YOU CAN COME INTO A MORE FOCUSED STATE OF AWARENESS, AND THUS CONCENTRATE UPON CHALLENGING SITUATIONS SO THAT YOU CAN GROW IN UNDERSTANDING OF WHAT IT MEANS TO BE A CO-CREATOR WITH GOD!

You are in a schoolroom called Earth. The overall purpose is so that you can have opportunity to expand your awareness and ability to RESPONSIBLY create. The value comes in an ability to handle more and more of the Infinite Creative Potential that is within.

This only comes when you prove your understanding of the Laws of Cause and Effect. This is to say that you must learn to be RESPONSIBLE for the effects of that which YOU create. This goes for any and all creations, regardless of size or magnitude. If you create an unbalanced situation in your home life by lying to your family members, and then denying same when confronted by them later, then how can you be trusted with the responsibility of creating a third-dimensional solar system, let alone a universe, yourself?!

We are talking here of INFINITE CREATIVE POTENTIAL! That is why you ones have chosen to come into the physical and go through the challenges of life with only a limited conscious connection to that with which you are connected—ALL (everything, everywhere)!

You are efforting to expand your awareness of WHO you are, as well as become more skilled in the utilization of your abilities to manifest and create. Now, while you will only be given that which you can handle, you can be assured that it will be a challenge to you, so that if you so choose, you can maximize the rate at which you grow.

Notice also that you always have the option to quit. However, it is then far more difficult to be responsible for that which you have set in motion in the first place. And, though you can always run away

from a situation when it gets uncomfortable, it is quite another thing to see a challenge through to completion.

Each time you are faced with a choice to continue or to quit, you must examine what it is upon which you place value, and what it is that will fulfill, within you, the desires of the heart. The heart is given to know what is right and what is wrong. The mind is given to reason all data and evaluate and place importance upon things.

It is often the case that the mind and heart are in conflict because the reactionary impulse of the mind is to avoid pain while the Innate Knowing of the heart is to seek out growth, which often leads to—PAIN (that is, growing pains!).

This is where discernment of value comes into play. You each must decide for yourselves what has personal value to you. Is the emotional pressure so great that you cannot persist another moment? Do you HAVE to run away? Is there NO other choice? Would being homeless on the street be better than going to work just one more day? These are questions of value and balance.

While there are no wrong choices, there ARE better choices! And be assured that, when you run away from a challenge, it will be coming back around to impact your experience again. It may not be in this lifetime, or even on this particular planet, but you WILL have to again face that which you could not presently overcome—if you are ever to get through the third-dimensional schoolroom. Though you may not be able to see it from your current vantage point, there is great value in ALL—EACH AND EVERY ONE—of the experiences that you are now faced with at this time.

We, of the Hosts, know quite well what it is that you are faced with, for we have walked the physical path MANY times while we too learned our lessons and earned our current positions of responsibility—as eventually shall YOU, too! If you feel as though no one could possibly understand what it is that you are going through in your life, then go back and read this message again, for you surely missed the fact that ALL IS CONNECTED TO ALL! What YOU experience is the experience of ALL, for we all exist within the ONE who created us.

These are the ideas that the "holy" men of your world would rather you not listen to, for such are the ideas that make these ones unnecessary and thus they would be out of a job.

You have within you a direct connection to God. You do not need another to tell you what YOU feel in your heart. Learn to trust your Inner Guidance and learn to follow your heart, and such will guide you to the experiences that will cause you to grow in awareness, and thus in ability to create better SOULUTIONS!

I am Lord Michael, of the Archangelic Realms. I am your Elder Brother, just a bit farther along the path that you are now walking. I come as Messenger of Truth, within the Light of the One who is ALL! SALU!

Deeper Insights Into The Illuminati Formula

Fritz Springmeier needs your help to get this book published!

Order now for the special offer of \$59!

- Treatment questions are answered.
- Clear explanations reveal the hidden processes involved and sciences of mind control.
- State-of-the-art techniques of mind control, nanobots, implants, genetic manipulation and more are explained.
- Many current misperceptions of what is happening and how to treat programmed DID (MPD) victims are challenged.
- All DID therapists should have this reference guide.
- Concise ideas and easy-to-use, superb diagnostic diagrams assist in the freeing of victims of mind control.

THE AUTHORS

FRITZ SPRINGMEIER has authored over 15 books, and has appeared on numerous radio shows. He also has been a speaker at numerous conferences & speaking engagements. Fritz feels that God has called him into the area of working with satanic mind control. Fritz is a certified Graphoanalyst. As an investigative journalist he has uncovered mind control & the corrupt New World Order. As a minister, he has spent several years working with SRA/government mind-control victims. His background spans from West Point to Amishman, computer draftsman to certified Graphoanalyst, world traveller to renaissance man. He brings a wealth of understanding to the book from a number of different areas that he has first hand knowledge about and has researched. His father made a career out of working for the U.S. State Department and the U.N., helping Third World countries develop their agriculture.

CISCO WHEELER has co-authored two books with Fritz Springmeier. Since 1986, she had been a recovering victim of mind control. She was part of a group of Illuminati hierarchy members who rebelled against their slavery. She brings her first-hand knowledge of how the mind-control programming is done to the *Insights* book. She has taken the knowledge that was given her for evil, and is using that powerful knowledge for good and to give others hope. She has generously helped others with the view that she has freely received blessings from God, and so, she is freely passing these blessings on to others. She hopes that others will not let the hard work that she & Fritz have done go to waste, and will use it to bless the lives of others. Her father was an Illuminati Grand Master as well as one of the better programmers.

ATTENTION, WOULD-BE BUYERS of the *Deeper Insights* book:

The *Deeper Insights* material requires a basic understanding of mind control. WOULD-BE-BUYERS are required to have either read or to be purchasing a *Vol. 2—Illuminati Mind-Control Formula*. Experience repeatedly shows that problems are generated when readers who are unfamiliar with the basics try reading the deeper material.

Deeper Insights Into The Illuminati Formula

The book will be approximately 500 pages, black leather bound with gold-embossed titles to match the previous *Vol. I—Illuminati Bloodlines* and *Vol. II—Illuminati Formula* books.

ORDERING DETAILS:

The authors need your help to get this book published. The book is available for the special offer of \$59 if you order now. The price will go up after it is published.

TELEPHONE HOTLINE

805-822-0202

This is a service for our dedicated readers. *Today's Watch* telephone hotline carries the latest news and comments from Commander Hatonn's most recent writings. This is our way of keeping you informed about fast-breaking news and events.

The message machine will answer after 2 rings if there are any new messages for that day, and after 4 rings if not. Thus *daily* callers can hang up after 2 rings and save toll charges if no new message has been recorded. If the hotline does not answer your call then that means that there is currently no hotline message.
