CJD Casualties Listed As Alzheimer's Victims

BSE/CJD CANNOT BE DETECTED DURING INCUBATION.

2/3/03—#1 (16-171)

RE: MAD COW DISEASE; PART 3

[CONTACT: P.O. Box 27800, Las Vegas, NV 89126. Phone: (800) 800-5565 (for subscriptions)]

GCH—THE MAJOR MYSTERIOUS DISEASES ARE HITTING WITH A VENGEANCE UNSEEN IN HISTORICAL MEMORY. THIS WILL BE COMING SHORTLY TO YOUR SMALL SCREENS, READERS. PAY ATTENTION, FOR YOU DON'T HAVE ALZHEIMER'S, FRIENDS, YOU HAVE BASICALLY IRREVERSIBLE ENCEPHALOPATHY. "AIDS" PALES BESIDE THE ONCOMING ENCEPHALOPATHIES.

COMMENTS AND RESPONSES

God does NOT leave you without resources or recourse. Those nasty habits are of human MAN! It is MAN that tears down that which can serve in honor, truth and ultimate FREEDOM—but mankind seems to prefer the tricks of the "great trickster", the adversary.

I am asked why we write on something with no

OBVIOUS way to help selves and in this case of BSE and CJD? We don't, for we DO know what can counter the invasion of, at the least, prions (the protein invaders). We simply don't know how to reach out to the people, for the assaults to stop such information flow is hard and insanely limiting.

Get yourselves a subscription to CONTACT AND STAY INFORMED. We cannot hold hands and spoon-feed you your Gaiandriana nor shall we scatter the precious commodity to the winds and to those who will but rewrite the formulae to suit themselves (and for the people of Appalachia and Ethiopia as presented prior to now by the "Watchers"). You destroy your own remedies.

You CAN get information on Gaiandriana through this paper and stay posted if you care enough to save yourself—for no one else shall do it FOR you. However, as parents it is your RESPONSIBILITY to do that which can be done for your children. GOD CREATES A PLACE FOR YOUR EXPERIENCING; YOU MUST DO THE EXPERIENCING!

As to Gaiandriana?

Well, NO, you will NOT find it as a scientific result of some Drug House production. In the end, with mature Drias, you will have only a testing as "ionized and enhanced" water. However, the water molecules themselves are living crystals of DNA-RNA-MITOCHONDRIA "chips" awaiting your "programming". It requires very little as to quantity intake at any given time but needs intake several times daily as the cycles take full circle. Then just a bit (a few drops) per day a couple of times, will maintain. It simply allows your body to degrade the "mutant" protein invaders. This is NOT a drug, a medicine or anything so complicated.

Drias themselves are so ancient that for centuries you did not have them available at all. We aren't going to tamper with that, please, and more especially at this time. This is why, however, the FDA was called in by the miscreants trying to steal the rest of our property, and yes indeed, by Ms. V.K. Durham (who boasted of her notifying the FDA, BATF and other agencies because New Gaia put out silver colloid with improper information on its label). It failed to

have “Supplement; No proven value”. But NO, Gaiandriana was not brought even to inspection.

I believe you can see WHY it is with great reluctance that any of our “team” wish to assist anyone!

Here I am going to remind V. K. Durham that we sent “help” to Russell in the form of several of these things AND HE GOT MUCH BETTER QUICKLY. Perhaps that is why Mad Cow took over her brain and time schedule for getting everything structured for herself? Miracle? No, goodness no! We had medical professionals on the team and on the job at the time—we simply want nothing more to do with such evil persons. We do NOT practice medicine, law, graft or corruption. Pretty dull, we have to suppose, is our existence. However, GOD WINS, readers, and so too do those who honorably wish to help themselves and their brethren. May we please now move on to PART 3 of this topic.

I ask first, however, that it be understood that we take only partial credit for information shared here as with these “research”-type writings. In that we need to state that we conform to the “Fair Use” considerations under the laws pertaining to such material. Since our purpose is only to advance understanding of environmental, political, human rights, economic, democratic, scientific and social justice issues we believe this constitutes a ‘fair use’ of any such material that may have copyright coverage. Most of our information is relative to research types of writings but we do not wish to impinge on any proprietary interests. If you wish full information on these topics, please go directly to the authors regarding the information. We only wish to inform, not circumvent any resource.

With this stated we will please pick up directly where we interrupted the presentation yesterday:

PART 3 (MAD COW DISEASE)

E. WHY THE PROBLEM WILL GET WORSE

There are a large number of reasons why this problem is going to keep getting worse. There are far more than a dozen of them. Others are explained elsewhere in this study:

1. YOU CAN GET BSE FROM ANY PART OF AN ANIMAL.

Mammals contract BSE, scrapie and CJD by eating the flesh of other infected mammals. Blood, corneal transplants and hormonal injections can also transmit it. This would include pituitary, thyroid and insulin injections. [H: These sources are listed because there have been KNOWN and PROVEN cases stemming from these specific transfers.]

2. U.S. AND BRITISH SHEEP WERE INFECTED AT THE SAME TIME.

Both U.S. and British sheep were infected simultaneously back in the 1940s from research waste discarded by scientists trying to figure out the cause of Kuru.

3. AS EARLY AS THE 1970s, BOTH THE U.S. AND BRITISH SCRAPIE SHEEP WERE BEING FED TO CATTLE.

Scrapie appeared in sheep in both the U.S. and Britain by the 1970s. In both countries, the dead sheep were sent to rendering plants which turned them into protein powder, which was fed to cows. That spread the disease widely.

4. CATTLE ARE NOT CHECKED FOR THE DISEASE BEFORE THEY ARE SLAUGHTERED.

The USDA in America only studies the brains of 100 cows per every 100,000. That is an extremely small sample.

5. BSE/CJD CANNOT BE DETECTED DURING INCUBATION.

BSE and CJD cause no antibody response. When infection enters an animal or human, the victim’s immune system shows no sign of fighting the infection as it does with bacteria, germs and viruses. This is because the immune system can neither detect nor fight it. Scientists cannot use the antibody search method to see if someone is sick, as is done with AIDS.

No scientist can tell if a cow or human is in an incubating phase of BSE/CJD. The only exception is brain biopsies, and that is not done until after death occurs. There are no tests, no genetic markers. Prions are not reliably found in urine. Prions can be seen in brain tissue, but you cannot open the skull of a live mammal to scoop them out.

6. IT CAN TAKE YEARS BEFORE THE FULL-BLOWN DISEASE APPEARS.

CJD disease takes between 10 and 50 years to eat away the human brain. In cows, death strikes as early as one year after exposure, as late as eight. If a cow whose milk you are drinking has it, her calf, sent to be a veal chop last winter had it when you ate him. An older cow may fall over dead with it, but meanwhile her infected calves have long since been slaughtered and served at dinner tables. The long incubation period means the farmer cannot see that the animal is ill.

[H: BEWARE: Wild deer/elk form of mad cow manifests more quickly and while the reason for this is not clear it is a fact that invasion and death in the victim are much more quickly course-run.]

7. BSE CAN BE TRANSMITTED TO AN ANIMAL OFFSPRING.

It can cause a genetic mutation, which is transmissible. Therefore, we should consider it possible that humans could transfer it to their offspring. Animals can pass it to their offspring—cow to calf, ewe to lamb, chicken to egg. This is why the FDA has demanded that all donors to the blood supply answer the question, “*Has anyone in your family died of Creutzfeldt-Jakob Disease?*” The disease is 100% inherited in animals and is feared to be (but not proven) in humans. One drop of blood of a parent is believed to infect all descendents (i.e., in the animal kingdom and very possibly in humans).

8. PEOPLE HAVE BEEN DYING FASTER FROM CJD THAN EARLIER.

It was once thought humans could incubate the disease for up to five decades without going into the final dementia stage, but lately British teens have been dying of it.

9. FARMERS MAKE TOO MUCH PROFIT, SELLING DEAD COWS FOR ANIMAL FEED, FOR THEM TO STOP.

Farmers have to pay \$500 in order to have an autopsy done on a dead cow. But they can sell it to a nearby rendering plant for \$100. Then it is processed into cow food.

10. THE U.S. BAN ON ANIMALS IN FEED IS BEING IGNORED.

In America, there is now a ban on putting animals that died into feed. But it is well-known that it is being done anyway.

11. THE USDA HAS NOT BANNED BLOOD IN ANIMAL FEED.

The U.S. Department of Agriculture banned diseased meat in animal feeds; but, to date, it has not banned putting blood from dead animals into the feedstocks. That link is contaminating the cattle of America today.

12. EXTREMELY DIFFICULT TO KILL PRIONS

BSE and CJD prions cannot be killed the way we fought the plague, cholera epidemics, or Ebola—which is generally done by burning bodies. BSE/CJD is passed on by means of prions, which are proteins that degrade at 800 degrees F. That is far higher than the temperature which would reduce them to ash.

13. INFECTED MEAT SHOULD NOT BE BURNED.

Burning is a bad idea, as prion molecules go up in the smoke, become airborne and fall back on the land. Britain is now considering burning 5 million cows soon, which will loose the prions into the air, to fall back on the land and into the lakes and rivers. [H: Obviously, that has already taken place and yet continues.]

14. PRIONS INFECT EVERY PART OF THE BODY, NOT JUST THE BRAIN.

Although BSE/CJD attacks brains, it is in every part of the victim. Therefore every part of the cow is affected. None of it should be eaten. This contamination cannot be removed by cooking.

15. DO NOT USE BLOOD MEAL IN YOUR GARDEN. [H: And right here is where we must focus on organic growing where all sorts of organic growth enhancers are used instead of chemicals. Not good, readers, for manure from infected animals or birds is one of the most contaminated products. Blood meal and/or bone meal are extremely suspect. These prions can then be passed right on through the plants into the seeds, berries and fruit. Some grains, such as Spelta, are highly resistant and are preferable as are lentils in the bean family.]

A British “vegan” woman caught CJD simply by dusting her roses with blood meal.

16. THOUSANDS OF COWS ARE MYSTERIOUSLY DYING IN AMERICA.

Since 1981 the United States has had thousands of “downer” cows. These are cows which have died mysteriously. Dr. Richard Marsh, a virologist on the veterinary staff at the University of Wisconsin at Madison, says he has seen 100 cases of BSE in America between 1981 and 1989. If the prions entered U.S. beef 15 years ago and have been multiplying ever since, a million cows could be infected. In order not to disturb the public, the fact that so many cows are dying is being kept from them.

17. MORE ON THE “DOWNER COWS” SYNDROME IN AMERICA

Massachusetts Institute of Technology and the National Institutes of Health first explored a connection between BSE, animal foods and dementia as far back as 1981, when American cows began to come down with a mystery disease known as “Downer Cow Syndrome”, suspiciously like BSE.

Many of the downers had previously exhibited symptoms of the jitters, others just suddenly dropped dead. Their brains were fed to mink who quickly manifested Mad Mink disease. In any case, downer cow corpses revealed BSE brain pathology; yet not a peep came from these scientists, not a whispered word to the farmers to stop rendering sheep into cattle feed, not a warning to the public to stop feeding beef to children. Since then, American farmers were allowed to sell sheep corpses for 28 years and cow corpses for 17.

18. CJD DEATHS ARE OCCURRING NOW IN AMERICA, BUT THEY ARE BEING MISLABELED AS ALZHEIMER’S.

CJD mortality figures hide behind the skirts of Alzheimer's. Some U.S. doctors know the truth yet haven't blown any whistles.

The U.S. Veterans Hospital in Pittsburgh autopsied 53 sequential Alzheimer's victims. **Sampling #1 shows 5.6% had died of CJD; sampling #2 showed 6.3% had died of CJD.** Alzheimer's death tolls are doubling and tripling in America, but this is not characteristic of a genetic disease. The rate of genetic diseases does not continually increase.

People dying of CJD are being diagnosed as having Alzheimer's. That is why there are "no CJD (mad cow) human deaths" in America. A related problem is that labs will not test patients suspected of having CJD.

19. PRIVATE LABS ARE AFRAID TO LET CJD TISSUE IN THE DOOR TO BE EXAMINED.

They would have to burn down the lab in order to be certain they had cleansed it of the prions. Dr. Richard Deandrea, a Los Angeles physician, who has studied CJD and BSE extensively, tells of his first CJD patient. After her death, which featured symptoms atypical of Alzheimer's (fingers numb, blindness, slurred speech, weak knees), Deandrea dogged the Center for Disease Control (CDC) in Atlanta for a pathologist who would provide him with an autopsy to see if it might be CJD.

CDC evaded his phone calls for three weeks. Finally, a female CDC staffer told him that off the record—she would deny it later—*"CJD is an issue no pathologist will deal with, a virtual death sentence to a lab. A well-trained pathologist knows the quarantine would never be lifted. You couldn't sterilize the lab to OSHA protocols. It would have to be gutted, incinerated. Forget it. Your patient died of Alzheimer's."* **So, there may well be CJD deaths but there are not likely to be many CJD death certificates.**

20. IF YOU DIE OF CJD, YOU WILL OFFICIALLY BE LISTED AS AN ALZHEIMER'S VICTIM.

This is because no laboratory in America will knowingly do an autopsy on anyone suspected of having died of CJD. That Pittsburgh hospital would not have made those autopsies if the staff had known they were working with CJD.

The problem is that the prions cannot be eradicated by normal methods. One researcher said that, while we keep eating our burgers, officially on all our death certificates we are going to die of Alzheimer's, not CJD. That Pittsburgh veteran's hospital sampling never hit the major news wires.

21. BEWARE! BSE COW PARTS COULD BE IN MORE PRODUCTS THAN YOU THOUGHT POSSIBLE.

Gelatin caps, used to enclose vitamins and minerals, come from cows. Break them in your mouth and immediately spit out the gelatin. Glandular supplements from animals come from cattle or pigs. The glue on your envelopes and postage stamps comes from dead cows.

22. EVEN MORE THAN AIDS, BSE IS THE MOST PREVALENT, VIRULENT DISEASE TO HIT THIS PLANET SINCE THE PLAGUE OF THE DARK AGES.

You can only avoid it by refusing to eat anything which contains meat. [H: Oh come on, readers, who is going to believe such a lie? They have already told you that you can't even eat dirt because it too is infected. It is just not that simple any way you try to look at it.] Forget Ebola which kills you so fast you

can't move ten feet and give it to anyone else—an epidemic which trained medical personnel can rather quickly eliminate.

23. SCRAPIE SHEEP ARE FED TO FEEDER CATTLE.

That is how the USDA gets around the prohibition on feeding scrapie sheep to the cows you eat! Ted Koppel interviewed Dr. Richard Marsh on *Nightline* a year ago. It went like this. Koppel: *"But we in the U.S.A. don't feed sheep brains to cows, do we?"* Marsh blinked, *"I don't know where your information comes from, but we do."* He was instantly cut off by a commercial and did not reappear that night.

The truth is, virologist Marsh, a seasoned veterinarian, knows of what he speaks. He observed this problem in Wisconsin from 1981 to 1989. **Dead sheep were fed to feeder cattle which, after fattening, were used to feed thousands of other cows who have bred thousands of animals.**

24. PIGS AND CHICKENS ARE ALSO FATTENED WITH ANIMAL-BASED FEEDS.

There are several types of powder from ground-up feeder cattle which are sold to farmers to fatten up their livestock. It consists of the remains of diseased animal parts and blood.

25. PRIONS LIKE IT IN AMERICA.

All the same, the beat goes on. On March 20, 1996, the very day that Minister Dorrell lit the fuse on the Mad-Cow bomb in London, a Florida man died of CJD. His wife gave a TV interview describing his shaking knees, his lack of coordination, quick slipping into a vegetative state, followed by death and said that her husband had never traveled abroad in his life. Why would he have to? Prions enjoy the American climate.

26. HOW TO SILENCE THE MEDIA.

The beef industry frightened the TV networks into a news blackout on the subject. They are now afraid to discuss the subject. The *Oprah Winfrey Show* interviewed an ex-beef rancher who had seen U.S. sheep and cows dying of BSE. Immediately, beef dropped 150 points on the commodities market; and the beef industry, under the guise of "Texas cattlemen", sued Oprah for daring to openly discuss the subject.

Even though she was found not guilty by a Texas jury, no television network is likely to talk about mad sheep and cows for a while. But the beef industry actually won. **They got their message across to the major networks: Tell too much about mad cow, and we will see you in court.**

Small stations are more likely to reveal CJD death statistics. In California, KCAL-TV News reported recent CJD deaths, one in Stockton and the other in San Francisco. Dr. Richard Deandrea knew of a death in Lancaster, California, and another in Minnesota—all in the previous few weeks, yet the NIH claims it knows of only 11 CJD deaths since 1994.

27. BYPASS PROTEIN ANIMAL FEEDS ARE DEADLY.

Scientists who invented the "bypass protein" method of feeding livestock (taking the rendered corpse of a dead animal, grinding it into meat meal, mixing it in with grains) have turned an attractive planet into a potential graveyard. Scientists who turned healthy herbivores into cannibals may have shot themselves and humanity in the collective hoof. In order to make a lot more money in the short term, the meat industry will eventually destroy itself.

28. FEEDING DISEASED ANIMALS TO GRAZING STOCK ALSO PRODUCES OTHER DISEASES IN THE PEOPLE WHO LATER EAT THAT LIVESTOCK.

Even if there were no prions lurking, when you feed an herbivore protein, its body produces ptomaines, which cause lesions or tubercles in its body. That means tuberculosis. **In 1989, the national Association of Federal Veterinarians decided to create a "test-balloon" state. They allowed California to sell meat infected with tuberculosis, a practice illegal since 1906. TB immediately went up 36% in the Sunshine state. We do not need any more test balloons.**

29. HORMONES SICKEN THE LIVESTOCK YOU EAT.

Bovine immune systems have been destroyed by several other common practices. One example is the massive daily injections of synthetic growth/lactation hormones which exhaust the cow who is chemically stimulated to give 40% more milk. It costs the dairy farmer \$400 a year per head for all the drugs and chemicals he has to inject or feed his cows. They are walking chemical plants.

30. ANTIBIOTICS ARE GIVEN TO KEEP THE WEAKENED LIVESTOCK ALIVE.

All those medicinal drugs are necessary to ward off the multiple infections caused by the other chemicals given to the livestock. One problem leads to another.

31. AND THERE IS MORE.

Consider the painful mutilation of cows with more than four teats. (Many have eight teats—extras are amputated without anesthetics.) Then there's dehorning, also done without anesthetics. Keep in mind the hormones of grief created in Bessie when her offspring is calf-napped on its second day of life. This is followed for 305 days while the milk intended for the calf is taken by the farmer. That ends with a two-day starvation period (no food or water), to dry up her milk and get her ready to "calve" again. A happy cow would live 25 years on a happy farm. A dairy cow is exhausted at three to five years of age. Her reward: She is slaughtered and her poor, suffering corpse is eaten by humans as burger.

32. THE PRUSINER REPORT

The definitive U.S. report on prions was written by a leading prion researcher, Dr. Stanley Prusiner. He is a professor of neurology and biochemistry at the University of California School of Medicine, in San Francisco.

Although his large study goes into some depth on the habits of prions, he never once mentions the danger of eating meat. Unlike Dr. Lacey, Dr. Prusiner remained POLITICALLY CORRECT.

33. HIDING BEHIND ALZHEIMER'S

The puzzle pieces have stayed in the box, because, since the 1970s, CJD has been able to hide behind the skirts of Alzheimer's. The Alzheimer's Foundation itself seems to be clueless, saying that if current trends continue, 14 million people would have Alzheimer's by the turn of the century. No mention of CJD from them.

34. EXTRAPOLATING FROM PITTSBURGH FIGURES

It is possible to estimate the number of people who eventually will contract CJD. **If, as the Pittsburgh veteran's hospital disclosed, 6% of Alzheimer's cases are really CJD, in the next four years, 840,000 U.S. humans could die of CJD. If they were of childbearing age when they caught it, there is the possibility that millions of their offspring could carry it in their genes.**

Many people could eventually go into spasms, then idiocy and comas, costing their families and the health system \$120,000 per patient. Likewise with all their descendants, forever. Prions are not something to play around with. Yet Western

governments have done it for nearly 30 years.

35. A DIFFERENT ESTIMATE, BASED ON THE PERCENTAGE OF KURU DEATHS

Among the Fore, the tribe of cannibals who got Kuru in New Guinea, only about one percent of the population seemed affected. This one-percent figure suggests a genetic bias, and some genetic biases have been detected. This may serve as a model for predicting human death rates. Evidence suggests a one in a million rate of spontaneous occurrences among susceptible species. Once inserted into a food chain that recycles animal protein, one in a hundred may get it.

In America, that one percent would translate to well over two and a half million slow, expensive deaths, a far worse epidemic than AIDS.

36. GENETIC DISEASES DO NOT DOUBLE AND TRIPLE THEIR RATE.

Alzheimer's is a genetic disease, which is apparently doing something today that genetic diseases do not do: It is doubling and tripling its death toll. **But it is so handy to blame Alzheimer's. Doing so helps the labs, because they do not want to autopsy anything savoring of mad cow disease. It helps the meat and fast-food industries; they can keep selling more burgers.** It helps the television stations, because they do not want any more lawsuits. It helps the government, because they want it always said of them that they do everything right.

37. SILENCE IS GOLDEN, EVEN THOUGH IT CAN BE FATAL.

Admittedly, if even a whisper of prions in America was voiced, huge losses could result to the \$50 billion-a-year beef industry in America.

In Britain, five days after Dorrell's admission that CJD was caused by BSE and there was the faint possibility of danger in prime ribs, the entire European Union ordered its second ban on British beef exports (the first had expired). A \$6 billion-a-year beef export market collapsed in a single day. Loose lips sink world economies but silences go before apocalypses.

38. GETTING RID OF THE WHISTLE-BLOWERS

Dr. Richard Lacey was not the only warning voice. There were others: Haresh Narang, a microbiologist, employed by the Public Laboratory Services in New Castle, said CJD in humans came from BSE. Microbiologist Dr. Steven Doeller, said scrapie, CJD and BSE were the same thing. But all the cries of the whistle-blowers were ignored.

Then, in 1995, when Dr. Lacey's book was printed, both the *British Medical Journal* and *New Scientist*, two of the most respected professional journals in England, declared the book unfit for the reading public. His book made the beef industry so nervous that in December 1995, three more articles were planted in prestigious British journals: The *Economist*, *Nature*, and *New Scientist*, declaring that "there was nothing to worry about. Lacey was dead wrong." Interestingly, all three articles were written by "*Anonymous*"!

39. U.S. SHEEP ARE STILL FED TO COWS.

The FDA and public health officials all know that diseased sheep that die are fed to cattle. In the U.S., approximately 200,000 animals are slaughtered daily.

F. RECENT DEVELOPMENTS

1. NOBEL PRIZES FOR MAD COW RESEARCH

A Nobel Prize has been awarded to Carleton Gajdusek for Kuru/CJD research. Another Nobel Prize has been awarded to Stanley Prusiner for CJD/Prion research.

Cows, sheep, pigs, mink and humans have all contracted the disease and died from it. It has been scientifically established that prions cannot be killed merely by boiling or cooking. Dr. Richard Lacey has predicted that, by the year 2015, each year over 200,000 people will die. As of November 10, 2000, the current "official" death toll is 81 in England and 2 in France (*AP News*).

2. NARANG'S TESTIMONY

Dr. Haresh Narang, a British microbiologist and CJD researcher, has come forward and said he first detected variant CJD in humans back in 1988. He claims that he was ordered to stop work on BSE in 1990, and subsequently "laid off". He believes the British authorities have blocked and undermined research and detection efforts into the disease.

3. THE CRISIS HITS FRANCE.

After ridiculing Britain for over a decade as a decadent society with infected beef, the mad-cow crisis hit France in 2000; and it was forced to ban the sale of beef. Many French towns ban beef use in school cafeterias.

4. GERMANY ALSO

Germany laughed at both nations for their slovenly meat practices—and then discovered that its own beef supply was infected. Germany has banned beef; and its meat industry is now like that of French and British before it—in shambles. By January 2001, the German government had extended the ban to pigs and deer farms.

5. STEALING FROM THE ZOO

The January 28, 2001 press reports that people are sneaking into the Berlin Zoo, at night, and stealing geese and other animals and eating them. They are afraid to buy meat at the grocery store. (But very likely, zoo animals are fed the same rendered rations.)

If the situation wasn't so serious, it would be amusing. Read this: "*Nothing seems sacred any more as Germans, confronted by empty shelves at the supermarkets, go foraging for food. With BSE beef already off the menu, followed by sausages and now pork, filling a German belly is becoming nearly impossible. As hunger gripes, no one, not even the dedicated Krauzberg zoo-keepers, will object to a bit of theft. Everyone must get used to elk, reindeer, ostrich, crocodile and other exotic meats which have recently turned up at the shops, or go hunting.*" (AP from Berlin, January 28, 2001)

6. THYROID, INSULIN, AND OTHER MEDICINAL HORMONES

As of late 2000, questions were being raised about medicinal thyroid, insulin and other hormonal extracts—nearly all of which are extracted from pork or beef. Natural thyroid extracts include Armour Thyroid, and synthetics include Cytomel and Synthroid. The natural ones are taken from the thyroid glands of animals, such as pigs or cows.

7. HOW FAST DOES DEATH COME?

There are several types of variant prions. Some act quickly while others come to full term and produce death more slowly. This may be why some young people have already died from CJD. Recent research on chaperonins (biochemicals that assist in folding proteins) indicates that they may be involved in providing possible additional resistance to the disease. (As mentioned earlier, prion diseases apparently involve mis-folded proteins.)

8. ANALYZING PRE-ALZHEIMER'S CONDITIONS

It would be helpful to know more about the symptoms which indicate the earliest onset of CJD. Here is data on the early onset of Alzheimer's, which is a similar disease: Scientists claim they could often detect

the condition decades earlier, simply by noting the manner of speech and writing of a person. People with pre-Alzheimer's condition seem to rely more on lists and relationships than logic and cause-and-effect reasoning about the world. They also tend to write shorter, simpler sentences long before clinical neurological deficits become evident. (That research was done using nuns, comparing their original statements of intent to become nuns with their conditions decades later.)

9. RENDERING ONLY LEGAL IN AMERICA

In all other countries the "cash for corpses" practice is illegal. **In the U.S.A., until 1997, it was entirely voluntary whether a farmer renders corpses; so, because they could not ignore free hundred-dollar bills, they regularly sold their dead cattle and sheep to the feed companies.** It was not until January 3, 1997, that the practice of rendering bodies and using them for animal feed was finally stopped. On that date, it was announced that offal could no longer be used to feed animals eaten by humans.

10. HOW TO CORNER THE MARKET

In anticipation of all the American beef and feed that would be exported overseas, as a result of the British and European bans on their own beef, the U.S. cornered the world beef and feed market and U.S. grain futures soared to a 15-year high after Britain's admission of BSE in its cattle.

11. THE BRITISH PROTEST

But when the U.S. offered to supply them with all their beef, the British screamed that American beef already had plenty of the disease. Declaring that they originally got their sheep offal powder practices **from the U.S. in the early 1970s, the British demanded that all American animal products be banned in their country. They also reminded the Americans that meat and bone meal imported from Britain, from 1980 to 1989, was used for U.S. poultry feed!**

12. U.S. CHICKENS

In reply, the USDA said that they have never found a chicken sick with BSE. But the reason for that is the fact that U.S. chickens are killed before they are old enough to openly manifest the symptoms. No U.S. fryer lives long enough to manifest dementia, but it has lived long enough to give the disease to the person who eats it.

13. U.S. HUNTERS DYING OF CJD

Between 1998 and the end of 2000, three young hunters in Western U.S. died from CJD. Other deaths are suspected. **[H: The Editor here notes that the FDA is considering a ban on all U.S. deer and elk hunters giving blood—forever—that is, for the rest of their lives. That would include tens of thousands of hunters.]**

14. WHO SAYS CJD MAY HAVE SPREAD WORLDWIDE?

On December 22, 2000, on behalf of the World Health Organization, Dr. Maura Ricketts issued a statement warning that "exposure worldwide" to BSE and CJD may have already occurred. The statement went on to say the WHO is going to convene a major meeting of experts and officials from all regions to discuss this problem. It will be held in Geneva in late spring 2001. This announcement followed a review of scientific evidence of several experts. "*Concerns center on British meat and bone meal exports in the 10-year period between 1986, when BSE surfaced in Britain, and 1996, when an export ban as imposed on British beef.*" (*Reuters*)

15. OVER 90 DEATHS FROM CJD IN EUROPE

Since October 1996, alone, over 90 people are acknowledged to have died of CJD, with more dying each year than the year before.

16. BLOOD DONORS BANNED

On January 17, 2001 the FDA ordered a ban on blood donations in the U.S. from anyone who has lived in Britain or Ireland longer than six months, between the years 1980 and December 1996. That ban may be extended to all Europe soon. **THE BAN IS FOR LIFE!**

17. WILD ANIMAL BSE INCREASING IN U.S.

As of mid-January 2001 mad-deer disease, also called chronic wasting disease or CWD, had hit a full 15% of free-ranging deer and elk in northeastern Colorado and southeastern Wyoming.

18. DEATHS FROM CONTAMINATED SURGERY

A web chart comment provided this item: *“A relative of mine, who is a doctor at Tulane University Medical School in New Orleans has firsthand knowledge of a patient who recently underwent surgery there. Apparently, the attending physicians and surgeons were unaware of the patient’s condition (CJD). The medical instruments used on this patient were then used on at least six others before they were discovered to be infected. The instruments had been properly autoclaved after each surgery, yet each subsequent patient had contracted CJD.*

“There are at least seven confirmed cases of CJD in Louisiana alone right now. This confirms that not only is CJD in the U.S., but it is being misdiagnosed by medical professionals. I was a paramedic in the ’80s, and even back then we were taught about CJD and how it wastes the nervous system.”

19. LATEST OFFICIAL BSE COUNT

This report is dated December 22, 2000, and comes from Reuters: *“Since 1986, 180,000 BSE cases have been confirmed in British cattle, with 1,300 to 1,400 cases elsewhere in Europe (primarily in four countries: France, Ireland, Portugal, and Switzerland, with several dozen cases elsewhere on the continent), according to WHO. Small numbers of cases have been reported in Canada, Argentina, Italy and Oman; but, in each of these countries, this was only in imported British bovine, it added.*

“In all, 87 cases of CJD have been reported in Britain, three in France and one in Ireland,” according to the agency. “We know potentially contaminated materials were exported outside the European Community. We are trying to identify the countries that we should put our largest effort into.”

20. RHODES NEW BOOK

Pulitzer Prize winning author, Richard Rhodes, has published a helpful book, *Deadly Feasts*, on the controversy. Here are some facts you will find in it:

* Nobel Prize winner, Dr. Carleton Gajdusek (one of the foremost researchers of Kuru and other spongiform diseases), has declared that **all the pigs in England are infected with BSE**, and that means not only pork, but all pig-skin wallets, footballs, even catgut surgical. All of these come from pigs (p. 220). **Noting that all the chickens fed on meat-and-bone meal are infected, he adds that, in America, male beef cattle are killed at or before age two, before they are likely to show the outward symptoms of the disease.**

* In America, chicken excreta (manure) is fed to cattle as a good source of nitrogen (p. 258). As for the American FDA’s ban on feeding meat and animal by-products to cattle, Rhodes writes, *“That’s a ban with exclusions big enough to drive a cortege of hearses through.”* Their own BSE advisory committee urged the FDA take stronger measures (**page 257**).

* According to Rhodes’ book, bovine spongiform encephalopathy has been detected in America, and not just in cattle. The American form of BSE does not

cause the staggers and other behaviors found in British cattle; but instead it results in a more “sedate” collapse of the victim, referred to as “downer cattle”.

* The nature of the brain damage is also distinct: a spongiform with differently shaped and oriented vacancies. **Other forms have been transmitted via eating wild squirrels and wild bear. Some American zoos have lost animals to BSE.**

* **Dr. John Pattison, Chairman of the British government’s Spongiform Encephalopathy Advisory Committee (SEAC), Dean of the University College of London Medical School, believes 800,000 people may already be incubating CJD in Britain.**

* Dr. Alalebin has stated that prions can be found in white blood cells, contaminated milk, and even in the animal grease used in lipstick.

* On page 222 of Rhodes’ book, Richard Lacey of the Microbiology Department of Chapel Allerton Hospital, Leeds, points out that *“There was no certainty that the source of infection had been cut off ... If it seems that the incubation-period average for CJD in humans begins to be about 25 years, maybe 30 years,”* he told me [Rhodes] grimly, *“then the peak human epidemic will come around the year 2015. If the current numbers of variant CJD cases increases by 50% per year, as they well might, that would take it to about 200,000 (human) cases a year by then.”* That comment is only about mortalities in Britain.

* Why is the body filled with the prion infection before CJD symptoms appear? What are the subtle effects long before the final destruction? If these prions are indeed the rod-like structures researcher Patricia Merz describes on page 156 of Rhodes’ book, then they would tend to impede cellular machinery long before they became long enough to break cell membranes and kill the cells. Thus it is possible that, long before that final break, subtle neurological effects could become evident.

Dr. Merz has definitely located prions in spleen, tissues and everywhere in the animals, long before any outward symptoms were manifest! This is extremely significant. Prions apparently travel freely in the blood of these animals. Therefore all tissue is likely to harbor some prions, not just brain tissue. This means that large amounts of infected cattle have been fed to other cattle, which after becoming infected, have been sold to the public. But since the human form of the disease (CJD) is misdiagnosed as Alzheimer’s, the medical crisis continues to mount.

G. PRESS RELEASE HEADLINES

Here is a collection of just a few recent news headlines, spanning several months—which show how explosive this crisis is becoming:

* New mad cow cases in France; four herds killed
* UK’s human mad-cow cases rise 20%-30% in one year
* Young UK woman’s death blamed on mad cow
* Mad-deer disease spreads to Wisconsin
* Infected venison may be fatal
* Scientist says mad cow may kill 500,000 Britains
* Nobel scientist says mad cow may infect millions of sheep.

* Scientists now warn of mad-cow risk in dental procedures
* Human mad-cow deaths in UK now rising 33% per year
* USDA in state of emergency over mad-cow risk in Vermont sheep
* Mad-cow worries increasing regarding milk supply
* Humans may be secret mad-cow carriers
* Mad Cow-CJD species-jumping revelation confirms worst fears
* Now known that mad cow may be spread by pork, lamb and poultry.

* Mad cow and CJD may be transmitted invisibly
* Canada fearing CJD bars blood donors
* Rising death toll from human BSE
* “Whirling disease” in trout

is fish version of mad cow and mad deer disease. **[H: This can wipe out whole fisheries and please, don’t just think that when you get a “kill-off” in fish nurseries that you have simply polluted the water or have lack of oxygen—there may very well be present “Whirling disease”. Fish-tenders must watch the actions of the fish very, very carefully for symptoms of this abstract and unusual behavior in the stock.]**

* Strongest evidence yet that CJD is spread by blood transfusions
* Blood donors with no symptoms can pass CJD
* French cows eat infected feed linked to mad cow
* Prions survive digestive tract
* Scientists warn CJD can spread in dental and surgical procedures
* Eight patients may have mad cow from reused “sterile” surgical instruments.

* Anti-aging creams exposed women to CJD risk
* UK scientist says every Britisher has eaten 50 BSE meals
* Swiss to ban all animal meal in livestock feed
* EU plans to outlaw British blood
* Barrels of BSE waste float away in Britain’s worst floods
* BSE-infected chemicals may be in UK water supply
* **Half of UK tonsil tools could carry mad cow**
* **UK refuses to ban surgical instruments in tonsil removal in spite of CJD**
* France calls for immediate moratorium on bone meal in feed.

* Mad-cow panic spreading through Europe
* French beef sales off 50% as mad cow fear deepens
* Dutch discover seventh mad-cow case
* Lion in British zoo dies of mad cow
* Mad cow now found in Azores; all cattle to be slaughtered
* Spain in panic over first mad cow
* Germany finds first two mad-cow cases
* **Government tells UK physicians not to tell patients of CJD blood concerns.**

* EU wants slaughter of 2 million cattle to curb BSE
* Europeans starting to eat horse meat
* Louisiana man exposed to mad cow during surgery sues hospital
* German scientists first to test soil for mad-cow link
* Mad-cow scare spreading beyond Europe
* Russian man dies of CJD: first Russian case
* Another American victim
* Spain confirms second mad-cow case
* CJD death toll being played down
* More European deaths from mad cow
* Horse meat sales soar in Germany.

* Crisis will cost patients billions to insure safer invasive surgical instruments
* France bans blood from people who lived in the UK during 1980-1996
* Not all “single-use” medical instruments are used only once
* Blood of Irish CJD victim used to make 85,000 doses of polio vaccine
* Mad-cow crisis sends Blair government into disarray
* WHO says mad cow may have spread worldwide
* German health chief demands mad cow and scrapie tests
* Another mad cow in Germany
* French to sue Britain over BSE
* Beef sales fall 80% in Germany
* Britain is slaughtering, eating its wild ponies.

CONCLUSION

WHAT ABOUT COOKING MEAT OR MILK?

The pasteurizing of milk, at 150 degrees, makes the prion think it’s just a sunny day. The cooking of meat at 212 degrees makes him think he’s in a pleasant sauna. Raising the heat to frying in the 320-degree range might make him even blink: **but you must reduce the prion to total ash at 340 degrees CENTIGRADE (in our American Fahrenheit system that would be 644 degrees), to immobilize him and take away his ability to replicate.**

WHAT ABOUT THE BSE/CJD SPORE?

There is no solvent known to immobilize the mad-cow spore. This kind of microbial tenacity is so far-fetched that it frightens the medical community. If you ask a doctor to do an autopsy on a patient who died of

CJD, he flees, knowing that if he exposes his lab to this disease, the lab will be closed down by government officials. He cannot clean his sink without burning it up! By the way, when asked about this by worried reporters, Paul Brown of the NIH reassured them. He said he could clean prions off his hands with Ivory soap. We welcome him to try it in public.

ANY OTHER SOLUTION?

The medical community has no cure for CJD. It is—very simply—fatal. There is no drug or surgery which can cure it. But Dr. Richard Deandrea says that if you think you've been exposed, enzyme therapy might work, seeing that proteins can be dissolved by enzymes which are found in raw foods. But Dr. Prusiner has written that this protein molecule laughs off all the enzymes he tried on it.

MORE THAN JUST MEAT IS INFECTED.

Mad Cow is in meat; it could be in dairy products and eggs. It is in mayonnaise. It's in the gelatin in candy, or wrapped around a vitamin pill. It's in blood meal fertilizer, urea fertilizer, and the manure clinging to store-bought mushrooms. Animal derivatives are used in vaccines, pharmaceuticals like Premarin, in glandular substances used in remedies such as Melatonin. It is in pet food, gloves, film, plastics. British leather was banned by Egypt a week after Minister Dorrell's admission.

In this study, you have learned a lot of facts. If you want to take the situation seriously, you ought to decide right now to make some changes in your diet. But you should be warned that some of the media right now has a different message for you.

"Everything is peace and safety; there is no danger. Eat as you please; the meat is as disease-free as ever. Government and industry reports confirm that there is no CJD in America, no diseased animals are now being fed to cows, and the U.S. is totally sealed off from the problems in Europe. American meat is disease-free as it has ever been."

Decide for yourself whose advice you will follow. Do you want to believe the eminent scientists quoted above or referred to in this report, men such as Drs. Pattison, Lacey, Prusiner, Dorrell, Abaleben, Marsh, Narang, Deandrea, Merz, Doeller, Gajdusek and Ricketts?

Or do you want to believe the Southwood Committee, the Tyrell Report, the *British Medical Journal*, *The Economist*, *Nature*, *New Scientist*, the British Department of Agriculture, the USDA, the NIH, the U.S. beef industry, and what you hear on television?

This is your life. Do what you want with it!

END VANCE FERRELL ARTICLE [END QUOTING]

* * * * *

This is about as serious as it gets and the implication in the "conclusion" above seems to indicate that turning to horse meat or vegetables is some kind of answer. No, it isn't but I do agree that your choices are slim to none. Chances are excellent that you already are incubating prions of this nasty variety. It is indeed a catch-22 with no apparent exit from the wheel.

We will offer a rather-like summary from a different report but it must wait until tomorrow or we are going to witness "mad-person" disease.

Salu, and may the good health you save—BE YOUR OWN.

If we can ever get through the assault of mugwumps and get our own job done, we can then again turn to such things as face you here. Our people just don't find it very happy in thought form to attend anything more AT ALL in the face of the adversaries at play.

Salu, GCH

COMMENTS AND RESPONSES

GCH—Please note that we have given a Website reference in the topic-line. We assume this is from where the following article on this subject originated.

If you prefer as Internet users to go first to e-mail sites, we have listed News Desk, John and Jean Ray, as a contact site in the CONTACT information block. You will find another reference at the end of this copy with a notation: "Questions? Comments? Need additional information? Send e-mail to: <angel@ichf.net>"

THIS INFORMATION IS SERIOUS ENOUGH TO MERIT SCATTERING IT ANY WAY AND THROUGH AS MANY RESOURCES AS IS POSSIBLE. GAIANDRIANA INFORMATION WILL PROBABLY ONLY BE OBTAINED THROUGH NEWS DESK—CONTACT.

Gaiandriana: A water-based liquid which contains a saturation of "DRIAS" (both drias and drios). It has also been referred to as *Chondriana and/or Living Crystals/Life Crystals*. The solution is also saturated with "mitochondria", the fuel resource conversion units for body cellular structures. This converts such as proteins (in this particular topic reference) to useful energy. It will also cause a "re-folding" of the prions causing them to either conform or self-degrade. BE CAREFUL, READERS, FOR THERE ARE SEVERAL "MAKE-BELIEVE" GAIANDRIANA MAKERS OUT THERE AND CAN GET YOU INTO FURTHER TROUBLE—FOR THEY DO NOT HAVE "DRIAS" AT ALL AND SIMPLY OVERFEED WHATEVER MIGHT BE IN YOUR STARTING WATER BASE.

The Internet can be a good source of information or total DISINFORMATION. You must be discerning, readers. It becomes a place to air hate-confrontations which COULD NOT BE RIGHT and anyone paying attention would recognize such mis- dis-information. YOU SHOULD ALWAYS DEMAND THAT THESE SITES OR PRESS CLARIFY AND OFFER REBUTTALS TO "ANY" INFORMATION PASSED ON DIRECTLY FROM SITE-MASTERS OR HOSTS. THIS INCLUDES A DEMAND FOR INFORMATION REGARDING ANYONE "POSTING" ONTO THOSE SITES.

We do not wish notoriety but to just get our job accomplished; personal recognition is not even among our wishes. We will NOT, however, fail to rebut or confront those who are giving FALSE INFORMATION regarding anything we present. Neither, however, do we dump a "grab-bag" of goodies to simply be taken and destroyed through abuse and/or misuse.

We keep our agreements which, when considered, have exceptional MERIT and offer security and not pie-in-the-sky absurdities. Please check it out. As to the Global Alliance Investment Association, Cosmos Seafood Energy Marketing Ltd. and all other agreements and associations, we have not only shared that information but are happy to rerun same if demand presents.

There is NO V. K. Durham "Holding Trust"; no

registered foundation for anything she claims, and her newest outlays of "insider" information flows from other writers and at this point much of it comes from Col. Al Martin and his Bush revelations. Russell Herman was involved in operations—we find no evidence that V.K. was ACTUALLY involved in anything except disinformation.

If there are questions, we are confident that Mr. Ray of Contact News Desk, will provide you with a download of very lengthy affidavits of EXACTLY how things ARE. Thank you for your continuing inquiries.

Let us turn back to the topic in point: MAD COW DISEASE "Encephalopathies" or "Spongi-Brain" diseases of HUMAN and everything else with life-form.

[QUOTING, ARTICLE PRESENTED TO US ON SATURDAY, FEBRUARY 1, 2003:]

STARTLING RESEARCH:

'MAD COW' GERM MAY BE IN WORLD MEAT SUPPLY, THREATENING ALL HUMANITY

UK, USA: British researchers—in essence echoing observations by a renowned scientist who had earlier been scientifically crucified for making similar suggestion—have estimated that the numbers of projected cases of the always-fatal human form of "mad cow disease" will have to be raised well above the current estimates (a few hundred to 130,000 in the United Kingdom alone).

And one well respected London Medical School authority on the subject believes 800,000 people may be incubating the disorder—vCJD (variant Creutzfeldt-Jakob Disease)—in Great Britain, while the original whistle-blower believes 200,000 may be dead of the disease by 2015.

Too, according to the World Health Organization (WHO) assessing the damage last December and again in spring of this year, "there may have been worldwide exposure" to both vCJD and its "mad cow disease" counterpart (BSE—for bovine spongiform encephalopathy, literally "spongy brain").

One U.S. extrapolation of data based on the outbreak of an ancestor disease in the 1940s suggested an ultimate figure of "well over 2½ million slow, expensive deaths, a far worse epidemic than AIDS." In the meantime, there are overlooked possible biological warfare and chemical industry connections to the disease (see companion story).

The latest genetic-susceptibility research (identification of three "genetic linkage" sites) on vCJD was released this spring by John Collinge and colleagues of the Prion Unit of the Imperial School of Medicine, London, against this chilling backdrop described by other investigators:

* That "mad-cow disease" is not limited to cattle, but has appeared in numerous other species, and that products from these species as well as the animals themselves are contaminating the global human population with the human form of BSE (vCJD) in a mega-pandemic which statistically could make both AIDS and the bubonic plague seem like child's play.

* That vCJD is increasingly being diagnosed in the U.S. and elsewhere as Alzheimer's disease as part of a concerted effort by the government, medicine and animal-related foods industries to keep the facts of widespread infestation (infection) of humans by the causative agent from the public for both economic and panic-control reasons.

* That the causative agent (an altered prion, or form of protein), which cannot be detected by standard tests or treated or eliminated by normal medications (though it cannot withstand temperatures above 800 degrees F), has already crossed many species lines and its presence in animals and animal products (everything from food to donated blood to gelatin vitamin capsules to leather wallets) means a huge component of the human population is already infected but is unaware of the fact. Eating meat is only one—albeit a major—form of spread, these researchers state.

* That various international efforts—banning British beef from the U.S.A. and European Common Market, a U.S. prohibition on blood donations from anyone who lived in the UK or Ireland for more than six months between January 1980 and December 1996, the FDA consideration of banning blood from tens of thousands of U.S. hunters, including those who took part in the 2000 hunting season—are too little too late to ward off huge numbers of fatalities among animals and humans alike.

In the UK, the Collinge team identified genetic markers in mice which, as *The Lancet* put it May 19, “may be relevant to understanding human infection with... vCJD”.

Some 1,009 animals inoculated with prions appearing in scrapie (the sheep version of BSE) were measured in terms of incubation times and genome screening. (*Proc Natl Acad Sci* 2001; 98:6279-83).

“Collinge believes that the models predicting the number of people who may be found to have vCJD should be revisited,” reported *The Lancet*.

“The number of potential cases, which varies from a few hundred to 130,000, will need to be altered, says Collinge. ‘It is likely for the upper figure to rise,’ he warns.”

The Collinge work seemed at least partially confirmatory of predictions made by Dr. Richard W. Lacey, a microbiology professor at Leeds University and consultant to the WHO, who stunned British science in 1986 by announcing that scrapie, BSE and vCJD were all the same thing, that the disease was in the meat supply and that it could kill humans.

Dr. Lacey immediately fell under establishment attack—much of it spurred, said some, by the then-\$56-billion-a-year British beef industry.

His 1994 book, appearing in 1995 (*Mad Cow Disease: the History of BSE in Britain*; Cypsel Publishers Ltd., Jersey-Channel Islands) was assailed by British medical journals. The trashing went on as two government-appointed committees sought to play down the numbers of BSE and its link to other diseases.

Dr. Lacey has predicted that by the year 2015 over 200,000 people will have died from vCJD.

Dr. Lacey’s work, and that of other researchers, was reprised in the February 2001 issue of *Waymarks Magazine* and a special May edition of Donald S. McAlvany’s *The Medical Intelligence Advisor*.

At about the same time (February 2001), *Field and Stream* reported (“Deadly Venison?” by Brian McCombie) on the death of a U.S. hunter who “may have lost his life” to deer suffering from BSE-like “chronic wasting disease”.

McAlvany’s news roundup found that BSE “is already in America including American wildlife such as deer, elk, fish (i.e., that reports of BSE and/or vCJD have come in from Argentina, France, Belgium, Denmark, Ireland, Italy, Luxembourg, Portugal, Spain and Switzerland, and that BSE’s widespread presence in the U.S.A. has been “systematically covered up by our (and other) governments as well as by our \$150 billion meat industry and its foreign counterparts; and (that) the barbaric feeding practices of the meat industry (i.e. feeding animals [often sick animals] to other animals in order to maximize profits) has greatly exacerbated the spread of the disease.”

Vance Ferrell (who has gathered a considerable amount of data in his booklet *Mad Cow Disease Can Kill You: Where it Came From, Why it is Here, Why it Will Become an Epidemic*, Harvestime Books, Box 300, Altamont, TN 37305) has noted buttressing research from well-credentialed scientists:

* Dr. Hareh Narang, microbiologist with the (UK) Public Laboratory Services in Newcastle, who was among the earliest (1988) to say that vCJD in humans came from BSE—and was “laid off” in 1990.

* Microbiologist Dr. Steven Doeller, who has stated that scrapie, CJD and BSE are one and the same.

* Nobel Prize winner Dr. Carleton Gajusek, an expert in Kuru, the New Guinea cannibalism-related brain-wasting disorder which is presumed to be the origin of BSE and vCJD today, who (as Richard Rhodes pointed out in *Deadly Feasts*) declared that all pigs in England are infected with BSE as are all chickens fed on meat-and-bone meal.

* *Deadly Feasts* noted that it was Dr. John Pattison, chairman of the British Government’s Spongiform Encephalopathy Advisory Committee (SEAC) and dean of the University of London Medical School, who estimated that 800,000 people might already be incubating CJD in Great Britain.

Ferrell also observed of the outbreak of Kuru in the 1940s that among the Fore cannibal tribe who developed the disease “only about 1 percent of the population seemed affected.

“This one percent figure suggests a genetic bias, and some genetic biases have been detected. This may serve as a model for predicting human death rates,” he said.

“Evidence suggests a one-in-a-million rate of spontaneous occurrences among susceptible species. Once inserted into a food chain that recycles animal protein, one in a hundred may get it.

“In America, that 1 percent would translate to well over 2½ million slow, expensive deaths, a far worse epidemic than AIDS.”

Aside from research blocked by vested interests, a prime reason why so little is known about how to detect prion-based diseases is that—unlike parasitical, fungal, bacterial and viral diseases in which there may be relatively early “markers”—so little is known about prions let alone the altered or “misfolded” ones linked to the BSE-related disease.

That prions are “vertically transmitted” and cross species, while hotly denied by some but thoroughly elucidated by others, means, as Vance Ferrell noted, that “mad cow is in meat, it could be in dairy products and eggs. It is in mayonnaise. It’s in the gelatin in candy, or wrapped around a vitamin pill.

“It’s in the blood meal fertilizer, urea fertilizer, and the manure clinging to store-bought mushrooms.

“Animal derivatives are used in vaccines, pharmaceuticals like Premarin, in glandular substances used in remedies such as Melatonin. It is in pet food, gloves, film, plastics. British leather was banned in Egypt...”

Observed McAlvany:

“There is a coverup in Europe, England and America regarding the severity of this crisis—orchestrated by the various governments (which) want to avoid a panic and an economic freefall in their respective agricultural industries, and in their sizeable meat industries.

“In America, if one considers the beef, dairy, sheep, pork and poultry sectors; the meat-centered restaurant industry; the fast-food industry...; the food processing industry; and thousands of related businesses, mad-cow disease could represent a multi-trillion-dollar downslide hit for the U.S. economy, which is already moving into recession.”

KURU

THE BIOWARFARE LINK IN ‘MAD COW’?

CANADA—The “company line” on alleged “prion”-related diseases is that they somehow naturally originated in Kuru, the brain-rotting disease first detected in a tribe of New Guinea cannibals.

But indefatigable researcher Donald W. Scott of the Canada-based Common Cause Medical Research Foundation [an ICHF affiliate] and other biological warfare students beg to differ.

In a lengthy overview of biowarfare weapons development, Scott synthesized another view (May 2001 *Journal of Degenerative Diseases*):

In 1942, the same year that Canada “entered into a secret agreement with Britain and the United States to participate in a program to develop biological weapons for possible use against Germany, Italy and Japan... Japan, which had also been developing a range of bioweapons, had occupied most of the island of New Guinea,” wrote Scott.

“The Japanese military expected to control New Guinea for the foreseeable future and one of the first things they did under the direction of their biological weapons development commander, Dr./Gen. Ishii Shiro, was to establish a ‘biological test site’ in the remote interior of the island.

“At this test site we can conclude that they inoculated several members of the Fore Indian tribe with a visna virus-derived inoculant.

“Visna in sheep is an antecedent to bovine spongiform encephalopathy (‘mad-cow disease’) in cattle and [variant] Creutzfeldt-Jakob in humans.”

[ED: (It has also been strongly implicated in the development of HIV, the putative “AIDS virus”, several researchers have noted.)]

“Japanese plans to study the long-term effects of their inoculation program were cut short by the Australian/American counterattack over the Owen Stanley mountain range, and the infected members of the Fore tribe were left to their deadly fate—a fate that would not become apparent until the lentivirus, which can take up to 20 years to present as a disease, had begun to show its effect.”

[END QUOTING]

Now readers, you can’t have it all ways but here you do have to pay considerable attention. You have a great probability that this “prion” maverick protein did actually start as a crystalline virus form of “sheep visna virus”. These are quite deadly viruses in their own right but tampered they are easily modified to different DNA structuring. HOWEVER, in this article above in the last section you will note a contradiction of WHO did the dastardly bioweapons nasties.

It is highly UNLIKELY that anyone would develop and introduce something into an area expected to be OCCUPIED by themselves. I would rather have you continue to wallow in conspiracy theories than to get “soft-brain” disease.

Moreover, it doesn’t longer matter WHO (no pun intended as is related as well, to AIDS) started this dreadful mutation disease. You are faced with another GREAT plague and it needs attention and antidote. Logic does, after all, have a place in a “reasoning” populace. That, in fact, is the greatest gift God Creator bestowed on his favorite little humans: The ABILITY TO THINK AND REASON!

Please, don’t go back to sleep—until there is a way to stop the insanity you WILL have problems of this, and increasing, magnitude.

Our prior associated persons don’t really want to do much to help in this encounter after going the route of prison and take-out threats continually raining down on “us” all. I will, however, have a private chat with some who might be willing to enhance speed of production just a bit and, at the least, our readers can avail themselves, if they wish, of some Gaiandriana. Even the Feds couldn’t find ANYTHING wrong with it—just tests out as “water” of the best quality—even after watching it do its full conversion process. Oh well!

Remember that God never brings you that which HE does not also bring you that which you can use to HELP YOURSELF

There is a song of a while back in which there are questions of “where have all the ___ gone? Long time missing...”. Then ending with “When will they ever learn?” When will YOU ever learn? Killing off the messengers is hardly the route to perfection and peace, friends.

Thank you for your attention, GCH

dharmā 

When OUR Money Is Backed By NOTHING

MUSINGS

By Doug McIntosh,
gold-eagle.com (Gold Digest), 2/5/03

It has been a bad week. Is it possible to have an entire week of bad-hair days? It's tough to be a citizen of the United States these days. There is a feeling of impending doom that is seeping through the cracks into everyday life. People are stressed out and behaving strangely. The shuttle *Columbia* explosion, and the loss of seven human beings, capped a dismal week on the planet Earth. Everywhere I look, I see the signs of chaos just waiting to be unleashed. The looming invasion of Iraq will be looked back on as the release of pent-up forces. My niece is now in Kuwait preparing her helicopter for war. The stock market senses the coming chaos and has now retreated to its October 2002 lows. The "January rally" wasn't much of a rally after all. However, in times like these, a study of economics seems almost quaint. I find myself pondering spiritual matters more and more, and not only because I am newly unemployed and trying to avoid being sucked to my financial ruin. Lot of that going around these days, you know.

100,000 jobs were lost in December. More, including mine, were lost in January. Oregon is in a state of governmental implosion. The income tax surcharge, the retroactive one, failed and the system is in free fall. Half of the state troopers were fired Friday. Bang and you're gone. 8 of the ten breath-machine technicians were fired the same day. We can safely assume that drunk drivers will soon be stalking the roads with impunity and lead to many innocent deaths. 100 criminals were let out of the downtown Portland Justice Center to wreak their criminal havoc. Welcome to the new state of reality in these here United States. California now has a 35-billion-dollar deficit. Washington a four-billion-dollar one. The government edifice is falling out of the sky like the disintegrating space shuttle. Our task is to avoid being hit by the falling debris in our daily existence.

The federal government ran a \$100-billion deficit in October, November and December. We are now looking at a several-hundred-billion deficit for fiscal year 2003. It runs from September 30, 2002 to September 30, 2003. Since we know the intent of the terrorists was to bankrupt our economy, I can only observe that they are succeeding brilliantly. The great inflation/deflation debate is now academic in my opinion. Those things which a TB2K poster says we need, like food, heat and shelter will keep inflating—and those things we don't need, like cars, designer clothes and computers will keep deflating. The worst of both worlds. Mr. Magoo and the FED have created 5 trillion dollars in the last five years. The stock market losses alone amount to nearly 8 trillion in the same time frame. The economic reality is that money is being destroyed on a greater scale than it is being created. This is one of the reasons our economy is in the shape it's in. Globalization has meant massive and permanent job losses, long-term unemployment and reducing consumer consumption. These realities have caused increased consumer saving and reduced spending. Each one point of consumer savings equals \$90 billion not spent.

The negative savings rate is a thing of the past and is being replaced with a concerned populace building up emergency nest eggs. Add to this, the increased spending on fuel oil for heating homes and apartments, verifiable increases in basic food prices; I would say retail spending will stagnate or decline for the foreseeable future. Any increases will come from no-profit sales of cars among other things. Once Wall Street figures out there will be no "profit recovery", things will really start to rock and roll on the exchanges. It is said that the stock markets despise uncertainty—and I can think of nothing more uncertain at the moment than continued prosperity. We are on the edge of a sword—trying not to be **decapitated—truly gives new meaning to the term "a close shave"** as applied to the economic sphere.

The Austrian school of economics tells us that economic imbalances and distortions caused by excessive credit creation will be balanced by economic imbalances and distortions caused by credit contraction. The iron-clad rule that growth caused by debt creation will be balanced by economic contraction caused by debt servicing is at the core of our economic situation in my humble opinion. We can continue the foolish process of creating more debt, or we can bite the bullet and begin to deal with the fundamental reality of excessive debt and its implications for our nation and world. Unfortunately, the current political and economic leadership is incapable of telling the people the truth, much less offering a coherent plan to deal with what's coming down the road. So be it. The storm is upon us; the ship is unprepared for it. It will not be pretty, but balance will be restored eventually. I'm just not sure if people understand what that simple sentence implies. People, as well as nations, reap what they sow. In economic terms, we have built a huge edifice based upon the ideals of economic growth fueled by debt and financial hocus-pocus. That edifice is now sending chunks of itself crashing all around us with increasing frequency. In my opinion, the officially-sanctioned doomer one—that is, the entire debt-based economy—will come crashing down to Earth. I take no pleasure in saying this. I fully understand the pain and anguish, the shattered hopes and dreams, this will cause. Still, I tell it like it is as one of my e-mailers so aptly put it. I call the chips, or in this case chunks, as I see them.

I do feel that one of the things a doomer offers is, unlikely as it sounds, hope. Hope that we will not only survive and learn from our folly, but that we will eventually build a better world and society as a result. In that, I may be fairly accused of being an unrepentant idealist. To me, being called an idealist is no insult. For if we do not follow our ideals, then what is the point of living? The point of my essays is to help you understand the why and how of what is going on; **then, to tell you that there are spiritual forces involved that offer a true perspective of the current economic, political and military situation.** If all you get out my essays is "we are screwed", then I suggest you read them again. The reason I write them is to tell you that we are a triune being of spirit, soul and body. We are currently living on a plane of existence that is in undeniable chaos, but there is more to life than idiot leaders and a debt-ridden collapsing economy. There is life and hope and spiritual advancement for starters. What we must do is attune ourselves to the spiritual forces that govern our universe, what can be called either God, or the super

conscious. And once we attune ourselves to that realm of Light and beauty, we must try and apply it to our current lives and situations. In other words, in an economy based on debt and deceit we must stand up for precious metals and truth. We must stand up for the truth and the results be damned in my opinion. We live in a time of great pain and even greater opportunity. The message expressed by gold bugs is often limited to economics, but I don't so limit it. If you stand up for the idea that money should be based on some certain reality, it seems to me that attitude will follow through into the political and spiritual arenas also. How can you say you want sound money and not want sound politics, or sound family relationships, or sound relationships between individual people and nations? I'm not saying that our lack of sound money is entirely responsible for our lack of soundness in these other areas. What I am saying is without a sound economic foundation—based upon precious metals in my opinion—you are likely to end up with the kind of lying leadership evident all over the world. The idea that fiat money, and the debt and interest beast that cohabitates with it, enhance the ideals of truth, honor, integrity—and yes that much-sneered-at word, love—is one of the great follies of our time. People and nations cannot deceive themselves with the idea that you can get **something for nothing** in the economic sphere and then act surprised when that belief permeates the entire society. You cannot expect to have CEOs like Ken Lay of Enron and then act surprised when honor and integrity are absent from daily commerce. You cannot expect to have political scandal after political scandal and then go, "but it doesn't affect the economy".

Whatever troubles face us, as a nation and a planet, we have created ourselves. And the only we to decreate them is to return to the ideals of truth, honor and integrity in all aspects of our private and public lives. Until we do THAT, thinking that an increasing or lowering of interest rates, or increasing the money supply will somehow prevent the logical outcome of a flawed economic premise is a definition of insanity. Thoughts are like flowing lava; reality is like what happens as it cools and takes a hard form. **Did we really think we could ignore the lessons of economic history on what happens WHEN MONEY IS BACKED BY NOTHING with utter impunity?** Exactly why do we think that if we do the same things the Dutch did in the 1600s with the Tulip bubble, or John Law did in the 1720s, we will get a different result? I guess we do—and we are now going to pay the price for our self-deception.

We will go to war in a matter of weeks with Iraq. When we do that, for we cannot back down now, the dikes will be opened on a broad front of economic, military, political and spiritual fronts. Keep your eyes on those things that are spiritual and hold on for dear life. Do not think that precious metals will "save" you. Still, in a tidal wave, it's better to have a life preserver than not.

"The tidal wave is upon us. What is, the current reality we have created for ourselves, is collapsing of its own structural failures. What is, will soon be no more. It will be painful, but at least let us in our time of trial remember the spiritual values and perspectives that will help us first survive and then rebuild. What I offer you is not the feeble hope of lies and delusions the current reality is based upon. **What I offer you is the assurance there are spiritual realities that transcend our current situations. I think we should all remember that in the trying days ahead. For if we lose sight of that, the fact we are spiritual beings having a physical experience, then indeed we will have no hope at all.** Take care, and discipline yourselves for what will soon happen. Some view it as the end and some don't wish to view it at all—but I look at it as an opportunity for immense spiritual growth, both individually and as a planet. In many ways, it is the beginning. I prefer to look at it that way. At least, if I am deceiving myself, it is a good deception.

Properties Of Gaiandriana

[MM: This article was previously published in the 1/17/00 and 9/18/02 issues of *CONTACT* (in full) and is being republished (in part due to space limitations) now for research/educational purposes only: It does NOT purport to make ANY medical/health claims whatsoever—those issues should be addressed by your physician and/or medical health practitioner.]

This lengthy article consists of excerpts of numerous writings by Commander Hatonn from late 1992 through early 1995 that were placed in Journal #130, TRACKING DOWN THE KILLER, pages 143-218. We generally refer to this Journal and its compilation of health-related information as the "Health Book".

12/25/92—#1

I have asked that full information be given on Gaiandriana along with writing on products which WE HAVE MADE AVAILABLE TO YOU—FOR RECOVERY OF YOUR HEALTH. You are going to have to begin your program with cleansing of the parasites you carry within. This is easy to accomplish but it is mandatory. Why? Because the parasites utilize your nutrients that "accidentally" make it past the "neutralizer of good food" and are now being USED AS VIRAL AND MICROBE CARRIERS to "getcha".

Then, you are going to have to attend intake enough to get balanced. I further advise good supplements and then ongoing attention through the "gaias" and "drias" to maintain, and shore up continually, your immune systems. We can't get all the information into this *Journal* but we can get enough that you can begin to utilize the information immediately.

I am asking the crew to rev up the motors to hopefully better meet demand. We are not in major marketing of anything—we don't even WANT TO BE. We want to be able to share with you for as long as allowed. In that way we will be left alone for the most part.

YOU ARE TRULY IN THE MIDDLE OF THE WAR FOR YOUR WORLD! This is a WAR you CANNOT win with the sword. Salu.

GOD'S TANGIBLE GIFT TO YOU

I am herein making an announcement of God's gift to you, HIS faithful. I have worked hand-in-hand (actually mind-to-mind) with our most beloved Wendell Hoffmann (for I desire that he have credit and appreciation for his open willingness to "give me a hearing") and we have ready for you something which none other on the planet yet has in its "whole" form. My blessed children are working as quickly as possible here and are working hours without end to arrange to get this to any who desire it—immediately as the mails can move it. There is much to be worked out but we have been petitioned to NOT hold the supplement for details. YOU NOW HAVE THE "WHOLE" SUBSTANCES WHICH WILL GIVE RE-CREATION TO YOUR CELLULAR STRUCTURE INTO WHOLENESS AS RENEWED.

The basic structured product is to be called: Gaiandriana. The substance made with this addition was added to the "bread" substance sustaining the children of Moses in the desert, called "manna". As our children will package it for you, the mixture can be added to "Life Crystal" so that the product already in possession can be utilized without loss to any of you. Instructions will be given. The details shall be given directly but OUR ONES JUST BACK FROM WITNESSING AND MAKING ARRANGEMENTS ASKED THAT WE GIVE YOU "KNOWING" TODAY, CHRISTMAS [1992].

The next question will obviously be: "Will it be marketed widespread through stores, etc.?" I would guess that, to meet your regulations, it most likely will, at some time, be offered—or through a network or something similar. The point is to offer to ALL who wish healing and better life quality in bodily stamina, etc. We also must be sure that all costs are covered, for ones have gone without resources to accomplish this task. We are not through perfecting the "products" but we know that you do not wish to wait for perfection of packaging, etc. "If" ones will take the new product, supplement, with chlorella, with or without the addition of hydrogen peroxide, you have all that you MUST have to begin the re-creation of perfection in the cellular structure and recovery of imperfect immune systems. All substances utilized are pure and simply substances without chemical additions. This is WHY there will be effort to stop the flow of the product itself. So, use discretion in how you speak of this supplement so that we can have the value without the "war". Thank you. Perhaps a notice will be readied for this paper's edition—the holiday interruption makes it difficult for the workers to handle the added load. Kathy and Dave, Diane and Jack have volunteered to do the work and I bless them for their continued service without complaint or stinting. KNOW, chelas, that in the "giving" comes automatically the reward in like kind. Ah, if man would ever but learn this simple fact of "being". When the receiver is ready for the GIFT—so then shall GOD provide!

12/28/92—#1

GAIANDRIANA

Yes, for you who are waiting for the supplement: We are working as fast as little hands can move. We do, however, require protection of the products and full control over all advertising so that nothing is done or said which takes this out of the supplement category. What seems most appropriate to do is integrate capability of utilizing that which you already have acquired from this resource and shift over. Supplies are being built but it takes time to meet regulations of labels, etc. Be a bit patient, please. We will also be bringing forth a chlorella with introduced cellular programming specific to each consumer. The DNA will reprogram its crystal-program to individualize. This will be a "whole food" product—not drug, not "chemical", and fully NATURAL. It will reclaim in wholeness the cellular structure specific to type of cell within the body. This means that the immune system will reclaim itself.

There will be specific supplement already programmed for various compromised organs, i.e., liver, kidney, etc. But that will need more attention before it can be released without being stopped in allowed distribution.

Since the supplements will reclaim the immune system, the immune system will function without being compromised so all mutant-cell diseases and viral activities will be targeted and the body will reclaim itself.

Remember that when the student is ready, the teacher appears. Well, also, when the people are ready for God to assist—HE will not fail! Please do, however, allow us to work out things properly and KNOW, PLEASE, there will likely have to be many changes in these early stages of labels, packaging, pricing, etc. The INTENT is to keep this within our own operation somehow, in order to disallow greedy marketers from ripping-off the public. We desire to

get the pricing such that ALL can have the supplements and this is really difficult in this world in which you live because a natural item is easily copied.

We MUST have a healthier "living" citizenry or we will continue to have a dying nation and world. The chemical/drug houses have destroyed the well-being of all bodies on the globe.

1/14/93—#2

GAIANDRIANA AND MITOCHONDRIA

I honor ones who have worked and served in the past in this presentation of substance—it is, however, imperfect to now and greed has entered into EVERY circumstance to now. He who lives by greed shall perish in greed—therefore, we shall serve God in all instances.

This means not that ALL men will not gain benefit from that which is offered—but NO MAN shall be allowed to divert, take unto himself for grievous use or cause this natural substance to be given into the hands of the Adversary. Therefore, ALL caution and care will be given in ALL instances to make NO CLAIMS other than "support of better physical and emotional states of being" as in "makes you 'feel' better as would balanced nutrition".

I am not at this time, however, interested in offering you a bunch of hoopla on "nutrition". I KNOW what the body needs to balance its cellular reproduction and recreation to its original blueprint (DNA/RNA mapping). This Gaiandriana IS the catalyst which gives the varied "instructions" to each individual structure.

I do not practice medicine, law, nutrition or any other so-called "professional" career activity. We do not deal in any type of produced drugs or chemicals as presented through any pharmaceutical development or offering. We do not claim "cures" or any form of induced "healing". At any rate, man "heals" self. Supplements—be they natural, chemical or impacting in any manner—are only tools to assist in such "healing".

I do need to point out clearly, that the "mind" is in ALL instances the "directive" order-giver. This means that the physician or teacher can lead, teach, hope and pray—but the individual "mind" will do the work or it won't get done. Therefore, I suggest that with all substances and supplements that any individual utilizes that the mind give the instructions to the remainder of the vehicle. In other words, just as adding various solutions to your gas tank in your car—the various weighted liquids will go to various places of work—i.e., cleaners to the carburetor, gas to the combustion chambers, lubrication to this or that, etc.

Gaiandriana changes and integrates with any and all cells and becomes the perfection of THAT particular cell. The Gaiandriana will actually take the shape suitable for structuring or recreating the cellular "whole". The introduced cells will immediately go to wherever there is malfunction or mutation—just as do the proper cells of the immune system. I have no intention of giving you scientific breakdown on this paper, for if I do, the distraction will cause you to improperly use the supplement. I will, however, share these technical properties as we find time and space—my scribe has neither at present.

We do not wish to longer hold the product awaiting perfection of instructions save to make sure you understand how best to utilize that which you will have. YOU CANNOT OVERDOSE UNDER ANY CIRCUMSTANCE. HOWEVER, there is enough natural product which would cause you to not "feel" very well if you gulp down the whole bottle at once. It might even ultimately be better for you to do so but you might find yourself nauseated and wishing you had not done so.

For you who already have what is called “Crystal Life”—you have a good base for “mixing” and, therefore, can utilize whatever liquid you have remaining. I do suggest, however, that as you begin to use the new product that you start with a bit different regimen. You who feel good and have noted response already—are out ahead. Therefore, I suggest you simply continue on with 8-10 drops of BOTH under the tongue as you have been doing. If you are suffering from an assault, such as a “cold” etc., you will want to hit it hard with say, one to two ounces a couple of times in a day. If you take it in juice, say apple, you will neutralize the stomach acids to some extent and that will allow the Gaiandriana to pass in more quantity into the intestine where it can then rapidly move into the circulatory system.

You who knowingly suffer from viral-(and HIV) caused debilitation or active mutation of cells as in malignancies—give your body a break—take as much as you can tolerate without nausea several times a day for the first three days and then taper it down. The little friends reproduce themselves to their own perfection so overdose won’t help—just waste. To an already compromised system, however, the need is great so treat it likewise.

We get constant responses of “miraculous”, “total resolution” of all manners of insults to the body. However, we decline to accept this in such terms—you have only given your body what it needs to create its perfection in working cellular recreation. What, actually, represents good health to you? Is it not “feeling good—or ‘fit’”?

Remember also that, as the reclamation becomes active, there can be symptoms that you might think are “illness” as the radicals and mutated cells are cast off. There are items which will assist you if you want them. There is a natural combination which we CAN offer you and which I have asked to be put on “hold”, for we have no intention of being in the healing “business”. And, further, we do no advertising through the paper except for those things made available through other entities. We will never offer you any “solutions” without means of obtaining use thereof. To tell you “baby buntings” will cure arthritis and then not tell you where to get “baby buntings” would be an insult to your intelligence. I can also promise you in guarantee—that you will always be given, through anything we suggest, that your costs will be below anything on the market and the quality, perfection, or as nearly perfect as hands can make it to be.

We must help in healing one another that we might serve our Father and for THIS cause HE allows our sharing. We also ask that you be as patient as possible as our children take on this massive job of distribution for in the beginning there is no resource for mass “anything”. I will leave it to the ones who must bear the work to give instructions as to acquisition.

Now, in addition, our “researcher in charge” is working with me directly—to produce various medium “bases” which will automatically produce “target” Gaiandriana. One will cause immediate awakening of the estrogen-producing glands. If you are interested in obtaining specific target gaiandriana product—please inquire. I believe the cost will be minimal and can simply be introduced WITH the “regular” product. It is not necessary except wherein the present structures have ceased to function. Of course, if the structure, say the glands themselves, have been surgically removed—I think you are not ready for full reproduction. That is, of course, up to you! It is imperative at this time, surely, to have at least one blueprinted cell intact even if non-functional in your own system under discussion. Again, we make no claims of any sort other than a better feeling of well-being.

I know that chlorella is available through this resource and, again, it is a whole-life substance which has protein necessary for good muscle stamina and fuels body function. At this time we won’t pre-introduce Gaiandriana to the chlorella, for there is no need for you who already intake Gaiandriana—it will introduce itself.

However, there are a couple of other things which I would suggest. One, if you wish, is to get Gingko. It is massively important to the free use of mitochondria which converts “sugars”, etc. I have written about this before and will not bore the audience. I have asked that THAT be also made available to you.

Then, the one that I have on “hold” is a basic anti-oxidant to handle the free-radicals released from the toxins sluffed off. We can make it available if enough of you tell us you want it.

Hydrogen Peroxide is very important but with this NEW Gaiandriana is not nearly as important as before. The new product has a medium base that produces H_2O_2 . I think, however, that with a compromised body or in the instance of arthritis, Alzheimer’s and/or some of the “elderly” symptoms—it is necessary to have larger amounts until symptoms seem improved. Again, that is up to you. We certainly are NOT in competition with any profession. I certainly am not in competition with Chiropractic—because aligning the skeletal structure will enhance all body reclamation.

A damaged “nervous system” and injured spinal cord are capable of “repair” or, at the least, improved function if intact at all. All we are doing is offering the body some necessary tools to repair itself at a cellular level.

I have noted, however, on occasion after occasion that those who expect miracles, cause miracles—and you, after all, are THE greatest miracle of Creator. He would never give unto you His perfection and keep from you, forever, the means of maintaining that perfection. BUT NEVER EXPECT HIM TO PERFECT OR RE-PERFECT THAT WHICH IS DEDICATED TO THE SERVICE OF HIS ENEMY—GOD NOR HOSTS WILL SERVE “SATAN”. If your intent be “right”, your reclamation will also be “right”, for you shall have the balanced state of being which will allow reclamation. If your intent is simply to “heal” enough to continue with your unGodly actions and intent—I think you would probably simply sluff off the cells.

Can this “stuff” be actually “seen” or is it one of those “spiritual gimmicks”? It not only can be microscopically seen in individual cells—as they multiply and program—but they can visually be seen growing into cellular “strings”, “clumps” and membranes of living form. No, they won’t grow up into puppies, toads or chirping pets. They will never be more than individualized programmable “cells”—exactly what they are created to be.

Herein, please, let me sketch a few specifically individualized cells and you can get an idea of various recognizable forms. These can be seen and isolated under a microscope.

I could agree, that the product is so mild in taste, and quite pleasant to bland, that you might be fooled into thinking it’s “Willard Water” or some other innoxious “stuff”. No, it is quite viable and quite provable and exceptionally “useable”.

Just a side idea: Ladies, take a teaspoon amount and “wash” over your face. Now, take a “liquid” vitamin E solution (not oil and not thickened supplement—just liquid “E” as you will find in a dropper bottle from “Schiff” or a “GNC” store) in the amount of a few drops. Smooth this over the face immediately. You will “not believe” the results in a matter of hours. This same exercise on rashes, stretch marks in pregnancy, etc., will note very pleasing results. USE GOD’S PRODUCTS—EVEN ASPIRIN (A NATURAL SUBSTANCE FROM THE

WILLOW BARK). Aspirin used properly relieves pain and regulates the blood viscosity.

Many of you ask for nutrition input. I don’t want you all going off the “deep end” on anything. I am not a touter of “meatless” or any other extreme. Treat your body properly to balance it and the rest will take care of itself, precious ones. Good nutrition is, of course, a fine goal. But, you may find times when you cannot practice that which you desire. Be prepared with that which will give you sustained energy and whole-cell access.

We are now growing here, right now, spelt. This is “Triticum Spelta” as separated from “Triticum Sativum” (which is wheat). So, it is a form of wheat but it is the oldest known grain to man. It is not a hybrid so can produce its own seed, etc. It can be gotten easily in health food outlets or ordered.

I suggest, if you want to give it a try, homemade (or purchased) spelt bread. If you have facility for grinding, get the whole grain and grind it into flour and use as you would any flour of wheat. You can purchase the whole-grain flour I’m sure. Tinker with your bread-makers, you who have them, or any way you desire to use, but have the equivalent of at least two large, thick slices, or cereal, or whatever grabs you—EVERY DAY. More would be better. Butter that bread with BUTTER (!) if you have it. You need what is in the natural butter. If you have a hangup about it—put anything you want on or “nothing”. Why? Because spelt has a large supply of cyanogenic glucosides or nitrilosides, called the “anti-neoplastic Vitamin B17”. (Enough said?) This is best utilized “broken down into useable form” in the presence of substances found in “butter”.

Also, sprinkle your diet liberally with soup made from RED lentils. If you can’t get “red”, use “brown”—but what you are wanting is what makes the lentil “red”. Isn’t all this fun? By the way, CHUBBY is BETTER than SKINNY! It is said that “You can’t be too skinny or too wealthy.” WRONG!! ON BOTH COUNTS!

IF YOU BALANCE THAT BODY AND BRING THAT “MIND” INTO CONTROL—THE REST WILL TAKE CARE OF ITSELF. IT IS BETTER TO HEAL THAT WHICH CAUSES YOU TO BE UNBALANCED AND THAT MEANS THE OTHER OLD SAYING HAS TO BE CONSIDERED: “IT IS NOT WHAT YOU ARE EATING THAT IS YOUR PROBLEM—IT IS WHAT IS EATING YOU!”

Salu

P.S.: THERE IS ABSOLUTELY NOTHING OTHER THAN NATURAL SUBSTANCES—PROBABLY FOUND IN 99% OF ALL PANTRIES IF YOU KNEW HOW TO USE THEM—AND THEN, THE WONDROUS GIFT OF LIFE ADDED TO THIS AMNIONIC LIQUID. GOD has returned this gift to you for your use in this journey in its proper sequence—HE CAN ALSO TAKETH IT AWAY! The life-forms themselves are as old as “time” itself and it is precious, indeed—don’t abuse this gift, I petition you. And remember, there is no place for “greed” in the house of the Lord. So be it.

1/25/93—#2

GAIANDRIANA

In 1986, the J.D. Bernal Peace Library organized a conference on the dangers of biological warfare. Ritchie Calder said then that among the weapons being stockpiled were some designed to bring about genetic changes. He said the “doomsday bug was under wraps” and that there was “a conspiracy of silence about germ weapons because the implications were so frightening”.

He told the British *Daily Mirror* after his address that “somewhere in the world a germ is being cultured to which we would have no natural resistance and to which there would be no sure defense.” **[H: Ah so—and therefore there must be something presented which will create its own defense while targeting the very mutated cells introduced. Remember that the HIV virus MUTATES WITH EVERY INDIVIDUAL IT INFECTS—THEREFORE PROVING IT TO BE SELECTIVE IN ITS ABILITY TO CONFORM AS NECESSARY. SO, TO ALTER THAT PATH OF DESTRUCTION, YOU HAVE TO INTRODUCE SOMETHING LIKEWISE CAPABLE OF INDIVIDUAL SELECTION WITHIN THE VERY CELLS CONTAINING THE VIRUS, AS WELL AS GIVING FULL RESTORATION OF THE VERY IMMUNE SYSTEM AFFECTED. THAT IS WHAT IS OFFERED HERE—GAIANDRIANA—THE VERY STRUCTURE THAT CHANGES ITSELF INTO THE IDENTICAL PERFECTION OF THE DNA/RNA BLUEPRINT OF EVERY LIVING CELL. IT HAS BEEN RETURNED TO YOU—BY US, THE HOSTS—AND WILL BECOME EVEN MORE PROFICIENT IN ITS SELECTION AS YOU ENTER INTO THAT ‘PHOTON BELT’, AS IT THRIVES ON THE INVISIBLE, HIGHER ULTRAVIOLET FREQUENCIES. Simple? Indeed! But, you aren’t going to get it in a hospital ward, chemical house, pharmaceutical house of death drugs, or in the pits of Gay-ville or Lower Somalian food lines. By the way, do you ones realize that almost NONE of the needy villages in Somalia have received any food help AT ALL? What might that tell you about that Somalian operation? Villages have been simply driven by and passed up to get to the media-directed towns selected for show and tell.]**

GAIANDRIANA

There are other products which support and aid in the workings of Gaiandriana which we shall also make available, but, if you can only have ONE—get the Gaiandriana, for it renews the very cellular structure of your own body and then all the rest can be utilized to perfection.

We are receiving reports daily of ones who have witnessed improved function in everything from Parkinson’s disease, Alzheimer’s, to simple improvement in the feeling of “well-being”—and this in only a couple of days of intake. Miracle? YOU are the miracle! May insight be your guide.

1/30/93—#1

PRIORITIES

I would remind you ones of MY mission so that you might better understand why our presentations do not always match your own perception of what should be done and in what order to accomplish same.

Ours is to prepare, bring Truth out of the shambles of the tampered-with disinformation and misinformation—in other words, we call it THE WORD.

Next, we must awaken the sleepyheads who do not see that which has come down upon your globe through powerful, controlling influences in a totally humanistic issue of slavery/master.

We must speak of that which is WRONG, analyze it and then when we see and understand that which has come to be—consider what can be done to counter the rolling blob of would-be freedom and Truth killers.

The enemy must be identified and his *modus operandi* studied and a defense planned, orchestrated and instrumented.

Further, it means that to regain individual sovereignty—you MUST start where you CAN DO SO. You must see what can be done at community, county and then state levels of organization of government—THEN you can bring pressure to bear

on the Feds. The government has become totally topsy-turvy and you are now run by the government, not the government by you-the-people. In addition, you are forced to pay for your slavery.

In addition to these insights, we are to point out some changes of natural evolution—i.e., this so-called “Photon Belt” now creeping upon you with very damaging X-rays (for lack of better definition in understanding). Yes, we can **and have** brought information and structured substance to allow you to do very well in those frequencies of light rays. The same thing will allow cellular good health and enhancement of the living immune system.

I note that Chlorella is listed first in the discussion regarding some recommended “things” to assist you to good health. That is error in placement, for if it would indicate its priority of importance—it is NOT first in importance—it might well be last. It is a natural algae and could be substituted out with other algae forms. ANYTHING with Gaiandriana (this is not just a tradename) is FIRST and LAST in importance. If you had nothing other than this one substance you could do nicely.

Our staff—in an effort to “underplay” the significance of the offering to keep clear of regulators—are not ever going to give you more than a smattering of its importance. I am now, however, writing on the subject and shall continue to give you a full explanation of what it is and how it works. I have given explicit and very technical details to the researchers so that testing and perfection of product can be accomplished. Phenomenal claims are pouring in from ones who suffer the debilitations of a myriad of malfunctions from diabetes, carcinomas, etc., to head colds. I am happy to share the results but I remind EVERYONE—Man cures self and anything utilized by Man is simply a tool. It is simply a giving of the substances “missing” which accomplishes the ability to reclaim a measure of good health. If you go forth and claim “miracle cure”—you will be in gross error, for you will simply make sure you DO NOT HAVE IT FOR YOUR USE.

GAIANDRIANA

These improvements in health and well-being are nice but the thing we need attended is that allowance of the cellular structure, as is, to be able to speed up its frequency levels to more nearly match the rays pouring in upon you. That is what is made possible with gaiandriana—a living cellular structure which duplicates any DNA blueprint in every and all living cells. Instead of mutations when attacked by something or other such as a virus—the cells are able to destroy the virus because of the capabilities naturally of a strong immune system. These little friends match an individual’s cellular DNA according to body location and individual. The cells can cross cellular walls and reach the invading virus, etc. It acts just the opposite of what could be exemplified as the HIV virus, which mutates to every individual attacked. The invading virus, for instance, is a “foreign” influence and must be discarded or devoured. The Gaiandriana perfects the cells and does the foreign body removal—just as do the normally operating immune-system cells. EVERY “disease” is caused by “foreign” invasion and/or MALFUNCTION. This can occur at any time from conception to day of death of the body. If genes are damaged, then some cells will not produce and reproduce. If this occurs in formation of a fetus, obviously, you have malformations. Nothing is apt to help that which is not formed but anything formed and caused to malfunction by foreign-body intake can be given proper recovery of itself. This will not, however, be true of some heavy-metal poisons, radiation death of cells, etc. However, it can allow restructuring and recovery of all DAMAGED cellular structure. This will assist in all sorts of a myriad of incapacitations.

2/3/93—#1

RESPONSE TO INQUIRIES ON T-CELLS—GINGKO

Before we close out these updates, let us consider Gaiandriana and T-Cell count improvement. We have many responses that utilizing the Gaiandriana is giving almost immediate response in numbers of T-Cells—but with the lowering of amount of intake the count will not maintain itself and falls off. This will not happen if utilized with at least 3 tablets of Gingko per day. There is a direct and immediate response to the addition of the Gingko in this arena. Ones are finding the best results come from four ounces of Gaiandriana liquid in a day, followed by daily intake of one ounce per day for the following 12 days. During this two-week period also intake 3 Gingko tablets per day. After this two weeks (13 days, actually), continue with 8-10 drops of Gaiandriana under the tongue for about three minutes AND continue the 3 daily Gingko tablets. If the T-Cell improvement drops—do another run-through of the 4-1-1 etc. To maintain the level of T-cell improvement this is the best approach. After a while it will balance itself out, if other impacts are not present. It takes a while for the body to improve and reverse its functions.

Many are claiming miraculous results. Please do not do this, for if there are “miracles” happening—YOU are the miracle. You are simply restructuring and normalizing the normally functioning original cellular structure of your body.

As to your inquiries regarding the use of Gaiandriana in “Valley Fever” fungus, I would suggest the same regimen as above, for you need a good immune system in any event. A specific target Gaiandriana “little friend” is being targeted for study—but a healthy immune system is the goal to achieve at any point. Valley Fever is a fungus, *Coccidioides immitis* (a cocci). Cocci are more vulnerable to destruction by our little “Pacman” gophers than are the viruses because there are no cell walls to resist passage of a countering element.

What is happening with these newly discovered and hybridized agents of disease is that they overwhelm the immune system and actually have no known countering agent (antibiotic). It is always the concomitant “disease” process which kills in AIDS—not the little lazy HIV virus. “Cure” should not be in ANY medical or even natural-healing practice or even self-healing practice. ONLY THE BODY/MIND CAN HEAL OR CURE OF SELF—everything else is only a tool. Further, it has to be established that the tools do not damage as well. In the instance of Gaiandrianas—they are fully natural little cellular forms which are simply specific-use tools. This does not mean they cannot be used for many jobs (i.e., a hammer or pliers) but there can be specialized pliers for different tasks, as example. If our offering makes you feel better and seems to enhance your wellbeing, the pleasure is ours. God bless and keep you in HIS hands, for it is from HIS HANDS that these things come forth for your blessing.

Take this from the computer and we will effort to get on with more writing, for the ending of this week may require that you be elsewhere most of the time.

2/4/93—#1

VALLEY FEVER

What do I suggest? GAIANDRIANA! There is no known “cure” for Valley Fever! If your immune system is debilitated—Valley Fever will run to epidemic proportion SOON. Why? Because like other “harboring” diseases—once in the body, ALWAYS IN THE BODY—THEY ARE, JUST WAITING! If you people don’t get that IMMUNE SYSTEM working properly, you will not make it as they dump one thing after another on you. Remember those soldiers

coming back from the “Desert Storm”? Chelas, you are in constant jeopardy from these hidden death-dealers. I have no right nor wish to pound upon you blind lambs—but you are going to need to do something or you are going to perish, it appears, at the hands of the would-be KINGS.

CHAPARRAL & AQUAGAIA

Please, you nice herb-users—Chaparral is now removed from the “quantity” health food outlets and herbal stores. What does this tell you? THAT IT IS DAMNED EFFICIENT AS A HEALTH RESTORATIVE. ONE BY ONE “THEY” DEPRIVE YOU OF THAT WHICH YOU MUST HAVE TO SURVIVE IN A DELIBERATELY SICKENED WORLD.

There is irony herein, however, for Chaparral is simply a name meaning a “thicket of small low-growing shrubs”. What the point is, is to get the Creosote bush (*Larrea tridentata* of the caltrop family of Mexico and the Colorado desert) away from you. Now, if you live in this area affected with Valley Fever, you will note that it is thriving near the desert areas—which is overgrown with creosote bushes! Use your heads, chelas, and save your lives! Should you rush out there and start grazing on these bushes? I wouldn’t suggest it because you can make yourselves very, very sick by such unintelligent use—of anything. But, you CAN find ways of helping your own health—so investigate those ways. I DO suggest you help yourselves with a little Gaiandriana and mitochondria (Aquagaia). It is better to have a healthy immune system which can handle these invaders than all the “treatment” and proclaimed “cures” in the world. So be it.

4/16/93—#1

GAIANDRIANA

We will be, very shortly, offering more “in-depth” information regarding Gaiandriana as we have had it available long enough to get the next bombardment of response and inquiries from you readers. We find that many are taking too much, others not enough—others simply do not follow directions. In all instances, we must remember that there are two types of, say, “cancer” cells: causatives—artificial (or “constructed”) and “natural”. The “natural” bothers are things such as caffeine in coffee, etc. The “constructed” and worse are the additives of “constructed caffeine-like substance”, say, in the cola beverages. Gaiandriana allows immediate attack of your immune system against the “naturals” (especially if not overwhelmed by great intake), but it is all but impossible for a “natural” substance to break up and dissolve the causative agent when “man-made” through genetic/DNA manipulation of the invader—IF THE RECIPIENT CONTINUES TO ABUSE BY CONTINUED INTAKE OF THE DAMAGING AGENTS, I.E., OVERUSE OF ALCOHOLIC BEVERAGES (SURPRISING AS IT MAY SEEM, EVEN THOUGH ALCOHOL IS DAMAGING IN ITS OWN RIGHT) IT IS THE “ADDITIVES” WHICH CAUSE THE MUTATION OF CELLS—TOBACCO ADDITIVES, ETC. Further, please note that if you use Mogu (Mugu) tea—do NOT overdo it. If you drink it like you would a juice or a drink of water—you defeat the work of the Gaiandriana, as it will move directly to take up residency and fuel supply from the ingested tea which is often its very living foundation. Why work on “aliens” if you keep abundantly supplied in your favorite life-fuel? Also, MANY THINGS cannot well be adapted in conjunction and either negate the other or simply are not compatible.

We find that especially ones with HIV are so eager to get better that they are swamping their bodies with everything and while they are “feeling”

better are not showing sufficient increase in the immune cells. The researchers are going to take the whole of this week to work on variations to increase the Gaiandriana per unit, reducing the solution’s “fuel” supply to cause better intervention of the cells as they move into the body. You must understand that as this passes through the stomach—30 to 50% of the cells are killed. To help avoid such massive loss, a bit of apple juice is suggested but most ones forget to use it. Also, you must remember that many “patients” continue to take medications which are chemically damaging to the cellular structure as it efforts to move within its own DNA-structured cells.

I can equate this somewhat to a sperm efforting to get past all the birth-control devices to fertilize an ovum. I told you not to EXPECT miracles—YOU ARE THE MIRACLE and it requires your own cooperation. If you continue to abuse and insult the body, you are working not only for the disease invaders but also for the disease-enhancing additives in your intake. Ones who have been pronounced “terminal” are showing massive return of good health but also show willingness to balance their intakes of “body debilitating” substances. We will ask our Doctor to draw up a listing of harmful substances. If you can’t give up your “addictions”, then begin to “taper off” and as you feel better the nagging addiction CAN come under control. It will mean you will have to invest in greater intake amounts (of the correct items), not just at random “overtake” anything. Also, if you are showing no, or poor, results—change your intake methods to hit very hard with under the tongue amounts four to five times a day—leaving the liquid under the tongue for at least 3 minutes. If you are working with a child or animal of whom you can’t require this—use many times a day under the tongue and it will take up into the bloodstream.

4/27/93—#1

HYDROGEN PEROXIDE: USE FOR PURIFICATION OF “STUFF”

NECESSARY INSTRUCTIONS: GAIANDRIANA AND OTHER “PRODUCTS”

As we sit to pen this information I am at a loss as to how to keep you from thinking me idiot-material. However, you who already have past information, say, regarding hydrogen peroxide and its antiseptic-antibiotic properties, please be patient while we offer information to those who have not received same. Further, summer is upon you and such as Gaiandriana and the Mo-Gu starters and/or tea need updated care instructions.

We have gotten back from ONE who said he had the “stuff” tested and found a few bacteria, a virus or two and some E. Coli in the test-run. If it were the Gaiandriana, I question that result very, very much. It is important for you to know that in the culture medium utilized, there is a combination of items which CREATE AND PRODUCE HYDROGEN PEROXIDE in the Gaiandriana transformation. This will purify the liquid. This does not mean that you cannot contaminate the bottle in some manner. However, since intake decreases, usually, let us consider the “setting” bottle, etc. Of course, it is recommended that you store the larger quantity in refrigeration facilities.

HOWEVER, if you have no refrigeration facilities, etc.—place the equivalent of 10 drops of food-grade (35%) hydrogen peroxide (H_2O_2) in a small quantity (approximately an ounce) of water (to first dilute the H_2O_2) and then add this diluted H_2O_2 to the 32-ounce Gaiandriana or Aquagaia bottle. Remember to scale down the number of H_2O_2 drops utilized for the smaller 16-ounce and 8-ounce product bottles. The Gaiandriana or Aquagaia

will continue to thrive and the unwanted bacteria and/or any virus will be destroyed and then actually removed by ingestion by the Gaiandriana or Aquagaia activity.

The “tea” (Mo-Gu) is a very different matter. You are making a very sweet growing medium for the membrane and in addition you are growing it in a warm condition (necessary) and further you are setting it for a couple of weeks or so, give or take a bit. What do I suggest? Well, I suggest that probably you won’t want to ship much “tea” during the hot months because of lack of refrigeration en route. But, you CAN purify the water used in making the tea with the general rule-of-thumb water-purification formula of 7-10 drops of 35% food-grade H_2O_2 per gallon of water—which will additionally help enhance the membrane growth.

Then, later on, as you process or “harvest” the finished Mo-Gu tea product and store it in the refrigerator, add another 7 to 10 drops (say, for a gallon storage container of Mo-Gu, with scaled-down number of drops for smaller storage containers) of the 35% food-grade H_2O_2 . Again, first dilute the H_2O_2 in some water before adding to the Mo-Gu. You will not taste it and neither will it hamper the value.

I always suggest, in adding any 35% food-grade H_2O_2 to anything, that it be DILUTED FIRST. Just as you must NEVER drop concentrated anything into the mouth (for it would damage living cellular structures), neither do you dump it full-strength into living culture medium. Dilute it in a bit (say, an ounce) of water first and STIR rapidly whatever it is you are dumping the diluted H_2O_2 into for purification purposes. Naturally, if just purifying a gallon of water, there is no need for active stirring, though a little closed-container agitation (a few shakes) won’t hurt.

GETTING “SLIMED”

Another question: What about that slimy goo in the bottom of the bottle of Gaiandriana or Aquagaia if left out of refrigeration? GOOD GOO! I suggest you now go get some FOOD-PROCESSED ALOE VERA LIQUID. Take a half cup or so of it (some of it is even orange or lemon-lime flavored, etc.) and dump in the “goo” and last portion of a Gaiandriana or Aquagaia bottle. Or, strain the “goo” out of its original bottle and place it into the new aloe vera “home”. Leave set for a couple of days and you will have a concentrated batch of Gaiandriana or Aquagaia product, which will be an addition to the original bottle.

This is NOT a replacement for the original batch you get, for it will not contain all you need. However, in ones who intake products which tend to kill off a portion of the Gaiandriana in the body (like caffeine in coffee), this will enhance the potency—even if you just drink a little. Remember, Aloe Vera itself has a tendency to make some people feel “queazy”, so DO NOT OVERDO how much of this you drink!! However, a full-blown AIDS victim could take ten times a “normal” amount and only improve—for perhaps “feeling good” is a very relative state of being.

Some people are going to run fevers and have “crisis” symptoms as healing takes place. If this goes on for very long, look to other health problems for the cause. First, treat the “liquid batch” with hydrogen peroxide as above described. THEN start on a regimen of hydrogen peroxide according to the instructions given again herein [following after next paragraph].

I happen to know that you do not need to work up to any 25 drops as the instructions [following] claim UNLESS you are suffering from flu, infection or other maladies. If you are “well” and “anything” makes you feel bad—either stop it or, certainly, decrease the amount. USE YOUR REASONING MIND!! Like anything of this nature—TOO MUCH WILL MAKE YOU SICK OR BE DETRIMENTAL, EXCEPT WITH GAIANDRIANA—AND THEN EVEN THOUGH YOU MIGHT NOT FEEL GOOD (BECAUSE OF THE OVERDOSE OF ALOE FROM THE CULTURE MEDIUM), YOU WON’T HURT YOURSELF.

HYDROGEN PEROXIDE—H₂O₂
(35% FOOD GRADE)

Purchase a small eyedropper bottle at the drug store. Fill your small dropper bottle from the large bottle as needed. The large bottle may be stored in the refrigerator or in the freezer, inside another plastic container. The small eyedropper bottle should also be kept in the refrigerator. Always use caution when handling 35% hydrogen peroxide!

DO NOT use with carrot juice, carbonated drinks or alcohol. For best results, take on an empty stomach, one hour before a meal or three hours after meals.

Formula: Mix the number of drops of 35% hydrogen peroxide into at least 6 oz. of distilled water, juice or milk and stir vigorously, then drink the mixture. Some people eat ¼ to ½ of a banana immediately after drinking the solution. You may prefer something else to eat.

If your stomach gets upset at any level, stay at that level or go back one level. Then proceed to increase your daily dosage again.

When free of complaints you may taper off by taking:

25 drops once every other day for 1 week.

25 drops once every 3rd day for 2 weeks.

25 drops once every 4th day for 3 weeks.

A good maintenance dosage could be 5-15 drops per week, or whatever makes you feel good.

If you get the 35% hydrogen peroxide on your skin, rinse it under running water for several minutes.

Soak feet: 1-1/2 oz. 35% to 1 gal. of water.

Bath: 16 oz. 35% to a tub of water to detoxify.

Colonic: ½ pt. of 3% per 5 gal. of water.

Douche: 6 tablespoons of 3% per qt. of water.

Candidiasis: 1 drop of 35% 3 times a day then increase schedule.

For the more serious complaints, stay at 25 drops 3 times per day for 1 to 3 weeks. Then graduate down to 25 drops two times per day until your problem is taken care of. This may be from 1 to 6 months.

If you have a weak stomach you may experience nausea similar to that in pregnancy. Also, as dead bacteria or various forms of poisons are released, you will experience a cleansing effect as they are released through the elimination organs of the body: skin, lungs, kidneys and bowels.

Some reactions to the cleansing effect could include skin eruptions, nausea, headaches, sleepiness, unusual fatigue, diarrhea, head or chest cold, ear infections, boils or any other ways the body uses to loosen toxins. This is a natural cleansing of the body and should be of a short duration as you continue to maintain your program.

Formula to make a 3% solution of hydrogen peroxide: Put 1 oz. of 35% hydrogen peroxide in a pint jar. Add 11 ozs. of distilled water. This will give you 12 ozs. of 3% H₂O₂. Use also for brushing teeth and applying to skin sores.

Do not use 35% H₂O₂ if you have had a transplant.

OTHER PRODUCTS

We have tried to make available other products to use in conjunction with the Gaiandriana. USE YOUR REASON HERE ALSO!! If something makes you feel bad—don't use it! Cut back on amount or forget it altogether. These are all natural substances so remember, if you are eating anything that makes you feel bad—you quit eating it, right? Just continue the Gaiandriana—I promise you—it is not making you ill. If you are reacting, then it may be due to the “base” or “combining” substance in tableting, etc.

CHLORELLA

We get complaints about chlorella causing indigestion, etc. Chew the tablets or dissolve in a bit of liquid before intake.

Now again, use reason. Are you still eating in addition to the chlorella? Well, perhaps you will wish to reduce the intake. It is better for you than food but you DON'T NEED EVERYTHING. We are efforting to show you what you could take with NO food in survival situation AND STILL BE ABUNDANTLY HEALTHY. Adjust your intake accordingly. If you are caught in an emergency and need survival sustenance—now you know what to take for health needs.

You can subsist on chlorella and water alone. Add Mo-Gu tea, a bit of spelt bread and some lentils (preferably red) and you can live healthily ever after—in other words, it would not be malnutrition that would “getcha”. AND ALWAYS KEEP FOOD-GRADE HYDROGEN PEROXIDE AVAILABLE TO PURIFY EVERYTHING. REMEMBER, 7 DROPS OF 35% FOOD-GRADE HYDROGEN PEROXIDE TO A GALLON OF WATER WILL PURIFY IT AND THE WATER WILL PICK UP A MUCH IMPROVED “FLAVOR” OF FRESHNESS UNDER MOST CIRCUMSTANCES NOT EVEN NOTED AT ALL.

THIS is why one of the first items confiscated from health food stores, labs, and so on—IS HYDROGEN PEROXIDE IN FOOD GRADE. I remind you readers of long standing: The best treatment for arthritis and other seemingly “incurable” diseases is hydrogen peroxide therapy in an accompanying regimen of Gaiandriana, which moves in and restores the cellular restructuring of self.

CRYSTAL LIFE

That is an exceptional product but has become almost out-of-sight expensive. However, the best results with Gaiandriana are being reported with continued, even if remarkably decreased, amounts of Crystal Life right along in conjunction with the Gaiandriana—mixed or otherwise. About 8 to 10 drops mixed or separate under the tongue three times a day is excellent. In illness, however, increase within reason. If I did not already state it prior to this—add 7-10 drops of hydrogen peroxide per quart to the Crystal Life also—especially if non-refrigerated, after opening. This will decontaminate any possible “unwanted visitors” and not damage the product.

WATER

I cannot urge you often enough to TREAT your faucet water. Even if you have a reverse-osmosis unit—treat that water with proper amounts of hydrogen peroxide, for YOU DO NOT KNOW WHAT IS IN THAT WATER. IT WON'T HELP CONTAMINATION BY TOXINS BUT IT WILL TAKE CARE OF THE VIRAL OR BACTERIAL CONTAMINATES. IT IS CHEAP AND NON-TOXIC IN PURIFICATION AMOUNTS. The best mouthwash and gum enhancer is a mouthwash of several drops of hydrogen peroxide (35%) in one-fourth cup of water (or so) and cleanse mouth after brushing (or just do it several times a day as convenient). If the solution is “light” just swallow the wash—it can only help you, unless you have an active mouth infection. Moreover, I suggest keeping some hydrogen peroxide near and handy to drop a few drops of undiluted peroxide on your toothbrush a couple of times a week—or daily—whatever. You will have a sterilized brush and stop spreading germs and recontamination.

SPILLING

If you spill full strength (35%) peroxide on your skin—it will burn you. Rinse immediately under water and it will be fine. It will bleach so rinse anything that gets spattered—in water. It is simply one of those substances which needs to be handled properly. Peroxide offers so many “cleaning” uses that I won't even effort to list them—but you will find it about the most useful item around your kitchen, bath, etc. You can find information at health-food stores and vitamin-supply outlets.

Our people may also be able to direct you or help you with product or information. I do not attend those things unless brought to my attention. We offer these things as a service rather than a major business, so we are perhaps remiss in full-range material. We can do better when the full load eases a bit. Thank you for your patience and loving support of the ones who have taken this load on in addition to their other tasks—ever without complaint and ever wishing to help and please. At present they are trying to build refrigeration facilities to bring you exceptional product as the months heat up and yet do so with very, very limited resources—so we do thank you for your patience. With George Green's attack on the Institute a lot of things have had to wait or be actually closed down until the audits are over and the reclamation can begin. As you might realize, the impact has been great on all entities in these projects. It is fine—rewards will be in like measure to that which is given forth.

9/1/93—#1

GAIANDRIANA AND SPELT BREAD

So, what has Dharma been doing that she couldn't trip through and over the keyboard? We have been perfecting the Gaiandriana and that which needs to go WITH IT for full-bore offering. I spoke of it at length on this past Sunday so will not be repeating here. We will be writing about IT and also that which is suggested you do along with the Gaiandrianas and drias. We have waited for ones of your place to meet our needs and offered to meet theirs—but we only get more conflict and discrediting. We are not interested in “saving” anything but will offer God's gifts to anyone who desires to share in HIS work and journey. We are going to offer to do so in convenience and pricing which will be less than anything you can purchase anywhere.

A MAJOR part of my suggested “program” is SPELTA BREAD. Spelta is a grain all of its own unique being. It is the best fiber resource, has large amounts of B-17 (anti-carcinoma)—it is the grain GOD gave to the planet as “manna” when you were put upon it.

The Spelta is more mildly flavorful than wheat and even ones allergic to wheat will have no allergy to Spelt. It is, however, VERY EXPENSIVE, for it was all but removed from the market. We will arrange to find a conduit and keep you informed. We are finding that, in general, the cost is upwards of a dollar per pound—even in large batches for the most part. This means that in some health-food resource stores it is \$2.50 a pound and up.

Our people need another job like the proverbial hole-in-the-head but we see no other way to make this available to you. We can consider packaging in smaller than the usual amount of 25 (min.) pounds of the flour. As we grow and harvest from our own fields we can grind it and offer it for less but, with Mr. Green's antics this year, we lost most of the harvest quantity. We are indebted beyond measure to the Millers, who made an irrigation system available albeit almost too late to salvage the fields. Don't worry about keeping “track”, people—GOD KEEPS GOOD RECORDS!

In addition to the above, the PLAN is to offer a good bread-making machine at below cost of even the discount markets—direct from a manufacturer. It looks like perhaps the best turbo machine may come

in at well under \$200 (it sells for \$300). This is NOT set yet—I am only mentioning it for you who diligently effort to follow necessary instructions.

I have had Dharma into the Gaiandriana preparation but also standardizing a recipe which can be utilized in any machine or, at the least, TWO varieties (the round and the square leaders on the market). It is difficult, for whole-grain Spelt is harder to deal with than is whole-grain wheat. The loaves will be “heavier” but after dozens of loaves of bread she has developed one that appears to package into individual machine-ready ingredients for a large loaf of just around, or just under, two pounds. To get better “rising” we are, of necessity, adding a bit of bread flour from wheat, so all should keep that in mind when ordering the pre-packaged ingredients. We have not been able to establish costs for the product because we haven’t reached a stabilized recipe.

By the way, the ones who have served you so well up to now—Kathy, Diane, Jack and on and on—are willing to run the extra load of accounting and ferreting out the machines and will offer them on a “time” payoff arrangement, if possible, and it appears to be possible. Of course, you will be able to utilize the ingredients by hand as well so don’t get up-tight about it. Also, you can get Spelt flour and make cookies, muffins, biscuits or any flour product. This other is simply for convenience and FOR MY PURPOSES—FOR I PREFER YOU HAVE BREAD WHICH YOU CAN SLICE AND THEN TOAST. In the toasting comes a release of the substances which make the grain so incredibly good in the first place—AND THEN, BUTTER IT. I said BUTTER, not margarine. There is a substance in BUTTER which allows utilization of the important substances and allows the body full utilization—no other oil has it.

As we get closer to being able to offer the full-range regime and do the labor (for we have to “nursery” the drianas and other mandatory life-forms and it takes TIME for full growing cycles), we have no facilities and even though there are willing hands to help, we remain limited by ability to get “quantity” and the preparation of thousands of packages by hand is an overwhelming prospect for these already overextended people. Your patience will be appreciated and we know that you will be gracious and understanding as always. We are hopefully looking forward to early or mid-October to begin.

Do NOT concern that the product you have will be outdated—it won’t—it will be the same as utilized for “maintenance”. I believe, especially for you CONTACT subscribers, there is a special offer which is being set up in some manner. It will henceforth PAY ones to subscribe because there will be ongoing discounts, to ones who do so, on everything which is accepted by the CONTACT to back publicly—the JOURNALS also.

We will keep you informed as we move along here.

9/4/93—#1

SPELT

Please, readers, understand that this is NOT Dharma’s only task—writing for me or my compatriots. I have her actually putting together the life-substance resource of Gaiandriana that you might have that which WE know to be necessary and correct for all purposes of good health. Someone has to do the actual measuring and testing and she is NOT a chemist or scientist any more than she is an author. She must also perfect the required product of SPELTA (*Triticum spelta*) and not *Triticum aestivum* or (*T. sativum*) which is the grain of what you call WHEAT. This is done so that YOU will be able to utilize the product in some measure of success, since the grain seems to be highly “hidden” (because it is a most wondrous product sent to you from God). It is the most

delicate of flavor, surpassing wheat in its flavor and unmatched in its health-positive perfection.

She is working to perfect right proportions for what I demand as well as a product that you can utilize in your bread machines, by hand (in your oven), or in other cooking. “We” are “there” with the bread loaves—it is just the final product testing daily and the problems of packaging which confront her now and, here, she has help so it should move right along. We have a typical “team” in working here—she takes credit for the “good” baking and causes “me” to look bad with the “hockey pucks”! Ah, a ghost gets no respect! Worse yet—there have been lots more “hockey pucks” than soft, fine loaves of manna. She plans to offer you some other recipes as the flour becomes more available. It is very expensive to purchase—WHEN YOU CAN GET IT—and must be utilized as “whole” grain product to be suitable.

10/2/93—#1

GAIANDRIANA & AQUAGAIA

AQUAGAIA AND GAIANDRIANA ARE TWO SEPARATE ENTITIES AND IF STORED TOGETHER THE GAIANDRIANA CONSUMES THE MITOCHONDRIA IN THE AQUAGAIA. (The mitochondria is that which feeds on vessel plaque adhering to blood vessel linings. It is also that which directly affects the blood-sugar conversion system within the body—so you want to tend it carefully.)

AFTER ENTRY INTO THE BODY SYSTEM THEY GO ABOUT THEIR SEPARATE WORK AND MIXING IS FINE—SIMPLY DO NOT MIX FOR STORAGE OR FOR ANY LENGTHY PERIOD OF TIME.

EACH TIME YOU TAKE EITHER THE GAIANDRIANA OR THE AQUAGAIA—HOLD A PORTION UNDER THE TONGUE FOR A COUPLE OR THREE MINUTES BEFORE SWALLOWING. THIS ALLOWS INSTANT ENTRY INTO THE BLOOD SYSTEM. BOTH ARE CELL STRUCTURES EXACTLY LIKE YOUR BODY CELLULAR STRUCTURE. UPON ENTERING YOUR INDIVIDUAL SYSTEM THE CELLS WILL PICK UP YOUR DNA PATTERN AND REPRODUCE ONLY “WHOLE” ORIGINAL CELLS. ALL FOREIGN BODY PRESENCE (I.E., VIRUS, BACTERIA, MUTATION CELLS, ETC.) ARE TAKEN OUT, USED FOR REFUELING AND/OR SLUFFED FROM THE BODY.

THIS IS NOT A MEDICINE OF ANY KIND. IT IS A WHOLE-CELL PRODUCT WHICH ALIGNS WITH INDIVIDUAL BODY CELLULAR LIFE. It seems to enhance the production of immune system function and increase presence of T-cells—among other cells in the immune system—raising immeasurably the body’s defense system to deter malfunction of any kind. The “Driana” cells are blueprinted with all substances found in natural cell structures. These work WITH the ORIGINAL cell patterns in a body and reproduce only “whole” cells, while cleansing out the mutations and alien particulate. Do not expect this to act as an antibiotic of some kind—the cellular structure has to be shored up and an enhancement period of time accomplished. This is only that which can help your own healing mechanisms do what they were originally supposed to do in perfect creation of body specific. FIRST YOU ENHANCE AND HEAL YOUR OWN IMMUNE SYSTEM AND SYSTEMIC “ORDER” AND THEN THE BODY WILL ATTEND ITS PROPER FUNCTION

GAIALYTE

This is an electrolyte concentrate with Kargosok tea, Gaiandriana, Carbragaia (a cartilage similar to shark-fin but “programmed” to human tissue), juice and a plethora of vitamins and minerals necessary for EVERY cell structure. This also adds fuel for the new cells introduced from the Gaiandriana and Aquagaia.

RECONSTITUTION INSTRUCTIONS:

TAKE ¼ CUP (2 OZ) CONCENTRATE AND RECONSTITUTE WITH WATER TO ONE (1) CUP LIQUID. (CHILL THE CONCENTRATE AND SHAKE WELL BEFORE OPENING AS IT TENDS TO “BLOW” AS IT MATURES AND RELEASES NEW LIFE.) (If volume is a problem, the water can be reduced or eliminated but the fruit juice is necessary.)

ADD: ¼ CUP CRANBERRY JUICE

ADD: ½ CUP APPLE JUICE

This is a very tasty drink and is best when chilled or on ice.

DRINK A FULL MEASURE OF THIS MIXTURE AT LEAST FOUR TIMES THE FIRST DAY. IT IS SUGGESTED BY USERS THAT IT IS BETTER TO TAKE YOUR LAST DAILY AMOUNT ABOUT 4 HOURS PRIOR TO SLEEP-TIME AS IT TENDS TO “REV-UP” THE SYSTEM. MANY, HOWEVER, ENJOY IT AS A BEDTIME DRINK SO USE YOUR OWN JUDGMENT.

WHY APPLE AND CRANBERRY JUICE ADDITIONS? BECAUSE YOU WILL NEED TO CLEAR OUT THE LIVER DISCHARGE SYSTEM AND APPLE JUICE IS RECOMMENDED FOR THE FUNCTION OF THE GALL BLADDER. CRANBERRY JUICE IS RECOMMENDED FOR THE BLADDER (URINE) SYSTEM. YOU MAY USE ALL ONE TYPE OF JUICE AT A TIME IF YOU LIKE BUT THIS IS A MINIMUM AMOUNT DESIRED FOR INITIAL CLEANSING. HAVE AS MUCH ADDITIONAL JUICE AS YOU WISH. WE ENCOURAGE DRINKING A LOT OF BOTH AS WELL AS OTHER JUICES AT EVERY OPPORTUNITY. AT UPSTART OF THIS PROGRAM DO NOT GET THE JUICE “BLENDS”, AS THEY WILL NOT CONTAIN THE PROPER AMOUNT OF EITHER. AS YOU MOVE INTO A REGULAR, ONGOING INTAKE REGIME—USE ANYTHING YOU WANT.

SPELT BREAD

This is a problem to some who have no access to Spelt. Spelt is, however, THE gift of GOD to your planet as the “original” grain. It is deliciously milder than wheat, non-hybrid and is so far superior to other grains as to be almost incomparable. If you cannot get Spelt bread or grain, of course, use the best whole grain bread you CAN get.

OUR RESOURCES WILL BE ABLE TO SUPPLY YOU WITH SPELT IN ONE FORM OR ANOTHER. THEY ALSO ARE SETTING UP A PROGRAM WHEREBY YOU CAN OBTAIN A BREAD MACHINE FOR YOUR USE AND “BREAD MIX” WHICH IS SUITABLE FOR SAME. THE FLOUR IS NOT INTERCHANGEABLE IN MOST INSTANCES BUT CAN BE ADJUSTED NICELY IF TIME IS TAKEN TO DO SO. THERE ARE, HOWEVER, SUBSTANCES IN SPELT THAT NO OTHER GRAIN HAS AVAILABLE AND SPELT IS ALL THAT I RECOMMEND. OTHERS ARE SIMPLY FILLERS FOR THE TUM-TUM.

IN THE UPSTART PROGRAM YOU WILL INGEST PROBABLY MORE THAN YOU WANT, IT WILL SEEM, FOR IT IS A MAGNIFICENT BREAD UPON WHICH YOU COULD LIVE NICELY WITH NOTHING ELSE ADDED. HOWEVER, OUR THRUST IS AFTER, AMONG OTHER THINGS, THE FIRST TWO “B” VITAMINS AND B-17. B-17 IS AN “ANTI-NEOPLASTIC” SUBSTANCE WHOSE PRESENCE IS NOT FOUND ELSEWHERE IN ANY AMOUNTS ALLOWABLE TO YOU ANY LONGER. TOASTING THE GRAIN OR BREAD HELPS RELEASE THE VITAMIN AND ALSO THE ADDITION OF BUTTER (NOT IMITATION) INGESTED WITH THE GRAIN ALLOWS TWICE, OR MORE, THE RELEASE OF THAT VITAMIN. If you cannot bring yourself to have butter on every piece of bread you eat—I do ask that you have at least one tablespoon of butter per day in some way. It has properties that no other fat carries.

As you get your body back into BALANCE you will find that it is the very thing you go through now which got you into the unbalanced mess in the first place. If your system is able to work as it should—IT CAN BALANCE ITS OWN PERFECTION WITHOUT YOUR CUTTING IN OR OUT ITEMS FROM A REGULAR DIET. YOU HAVE MADE YOUR BODIES SICK. IT IS UP TO YOU TO GIVE THEM, NOW, WHAT THEY NEED TO HEAL THEMSELVES.

INSTRUCTIONS

DAY ONE:

6 OUNCES GAIANDRIANA divided into 2-ounce segments. Can be mixed nicely with GAIALYTE drink.

6 OUNCES AQUAGAIA divided into 2-ounce segments. Can be mixed into GAIALYTE drink—EXCEPT in cases where you already have mixed Gaiandriana into the drink.

4 GAIALYTE drinks

4 TO 5 AVERAGE SLICES OF SPELT BREAD (PREFERRED TOASTED) WITH A BIT OF BUTTER

DAY TWO:

SAME AS DAY ONE

DAY THREE:

GAIANDRIANA: REDUCE TO THREE OUNCES.

AQUAGAIA: REDUCE TO THREE OUNCES.

GAIALYTE: REDUCE TO THREE DRINKS.

SPELT BREAD: YOU CAN REDUCE TO 2 SLICES IF YOU DESIRE.

DAY FOUR:

GAIANDRIANA: REDUCE TO 2 OUNCES.

AQUAGAIA: REDUCE TO 2 OUNCES.

GAIALYTE: CAN REDUCE TO 2 DRINKS IF DESIRED.

SPELT BREAD: AS DESIRED—AT LEAST ONE SLICE OR EQUIVALENT IF AVAILABLE.

DAY FIVE:

GAIANDRIANA: REDUCE TO 1 OUNCE.

AQUAGAIA: REDUCE TO 1 OUNCE.

GAIALYTE: IDEAL TO CONTINUE PERMANENTLY, 2 DRINKS PER DAY.

SPELT BREAD: AS AVAILABLE AND DESIRED. IDEAL TO ALWAYS HAVE SPELT BREAD AS YOUR STAPLE GRAIN PRODUCT.

DAY SIX & SEVEN:

GAIANDRIANA: REDUCE TO ½ OUNCE.

AQUAGAIA: REDUCE TO ½ OUNCE.

GAIALYTE: 2 DRINKS

SPELT BREAD: AT LEAST ONE SLICE OR EQUIVALENT

MAINTENANCE:

GAIANDRIANA: ½ OUNCE PREFERRED, TAKEN IN DROPS UNDER THE TONGUE AT LEAST THREE TIMES/DAY. UNFORTUNATELY, THE AMOUNT NOW BECOMES A MATTER OF EXPENSE AND ABILITY TO HAVE QUANTITY. AS LITTLE AS 8 TO 10 DROPS UNDER THE TONGUE TWO TO THREE MINUTES 3X PER DAY WILL PROBABLY MAINTAIN YOU IN A HEALED STATE OF NORMAL FUNCTION. I SUGGEST THAT IF COLDS, FLUS, ETC., ARE AROUND YOU OR YOU SHOW SIGNS OF PHYSICAL STRESS, INCREASE YOUR INTAKE ACCORDINGLY.

AQUAGAIA: IF YOU HAVE A KNOWN METABOLISM PROBLEM OR PLAQUES IN THE VESSELS, I DO SUGGEST YOU CONTINUE WITH AT LEAST MINIMUM INTAKE OF AQUAGAIA. HOWEVER, IF CLEARANCE IS ACHIEVED AND YOU ARE COMFORTABLE, YOU CAN USE A FEW DROPS UNDER YOUR TONGUE ONCE OR TWICE DAILY AND YOU WILL REMAIN BALANCED. IF

YOU NEED TO GIVE UP EITHER ONE OR THE OTHER, AQUAGAIA OR GAIANDRIANA, GIVE UP THE AQUAGAIA—FOR IN A BALANCED STATE THE GAIANDRIANA WILL SUFFICE NICELY.

GAIALYTE: IF YOU CAN DO SO, CONTINUE WITH TWO DRINKS PER DAY—INDEFINITELY. IF YOU MUST REDUCE INTAKE, PLEASE TRY TO MAINTAIN WITH AT LEAST ONE DRINK PER DAY. THIS IS MASSIVELY ENHANCED WITH WHOLE GAIANDRIANA AND CARBRAGAIA AND OTHER THINGS WHICH YOU CANNOT GET ELSEWHERE, ANYWHERE WE KNOW ABOUT.

SPELT BREAD: THE PROPER AMOUNT IS TWO SLICES PER DAY; ALWAYS TRY TO GET AT LEAST ONE SLICE PER DAY.

[Oberli's Note: Thirty-some years ago, when the diet beverage called METRO-CAL was first introduced, my uncle Harold Ekker (a huge man) complained, "I've drunk two cans of that stuff with every meal for six weeks and all the good it's done is gain me ten pounds!" This program is a bit like that—if you just add it to what you eat/drink now it will add to the weight around your middle and subtract from the weight of your wallet.

What our friend has brought to us is an ulcerless, stress-defeating new lifestyle which can restore our bodies to their intended functioning, a condition most of us have not enjoyed since long before our first birthday. If we will substitute a glass of GAIALYTE and a slice of buttered spelt toast for that morning cup(s) of coffee plus donut (or ?) and then do the same at lunchtime, we will experience a marvelous elevation of energy and a new clarity of thinking without any significant change in our daily food/beverage expense. The cost is approximately \$3 per day at the maintenance level—less than most spend for lunch—and this includes the optimum input of Gaiandriana.

Speaking of cost, I should remind you that GCH has said many times that we are to provide substantial price breaks to *CONTACT* subscribers.

For additional ordering information please call NEW GAIA PRODUCTS at 1-800-639-4242. Thank you for your attention—Oberli] **[updated to 1-888-895-1696]**

(We thank Oberli for volunteering to assist with this announcement.)

NOW, WE ARE ASKED ABOUT SUPPLEMENTS TO THIS PROGRAM. AS MANY AS YOU FEEL YOU CAN AFFORD IS THE ONLY LIMITATION I CAN SEE. THERE ARE SOME THINGS WHICH WILL MAKE YOU FEEL SO MUCH BETTER AND FUNCTION MORE EFFICIENTLY. A WELL-ROUNDED SUPPLEMENT PROGRAM IS EXCELLENT FOR ONGOING AVAILABILITY OF NEEDS FOR THE CELLS' CONTINUING HEALTH AND BALANCE. WE HAVE TAKEN THESE ADDITIVES UP IN SEPARATE WRITINGS AND DESCRIPTIONS.

IT IS IMPOSSIBLE TO SAY ENOUGH ABOUT SUCH AS THE PROPER USE OF HYDROGEN PEROXIDE AND THE ALOE VERA PRODUCTS. IN THE GAIALYTE, FOR INSTANCE, THE REACTION WITH THE GAIANDRIANAS AND THE ALOE VERA PRODUCE ABUNDANT FOLIC ACID, HYDROGEN PEROXIDE AND VITAMIN C AS MAJOR CONVERSION TAKES PLACE. WE ARE NOT, HOWEVER, IN ANY BUSINESS OTHER THAN THAT WHICH WILL ALLOW YOUR OWN DEFENSES TO BALANCE YOUR BODY FUNCTIONS. WE CAN OFFER YOU WHAT MAY BE NEEDED—YOU, HOWEVER, MUST HEAL SELF—THESE ARE BUT TOOLS FOR YOUR USE.

AS THE GOVERNMENT TAKES AWAY YOUR SUPPORT SYSTEM IN THE FORM OF HERBS AND NATURAL SUBSTANCES (BEGINNING IN THIS DECEMBER) YOU ARE GOING TO GET IN WORSE PHYSICAL CONDITION UNLESS YOU TURN TO THAT

WHICH WILL NATURALLY BRING BALANCE IN PROPER PROPORTION TO YOUR CELLULAR STRUCTURE AND ALLOW YOU TO ENHANCE YOUR DEFENSE SYSTEM TO CAST OFF DISEASE, ETC. YOU DO NOT HAVE TO "MAKE A BIG DEAL OUT OF IT". THE BODY IS PERFECTLY ABLE TO ATTEND ITSELF AND DEFEND ITSELF IF GIVEN A BASIC MINIMUM OF WHAT IT NEEDS. ONCE RESTRUCTURED IN WHOLENESS IT CAN SURVIVE ON THE BASICS OF WATER, GOOD AIR, CHLORELLA, GAIANDRIANA REPLACEMENTS, A FEW LENTILS AND SPELT. IS THIS DESIRABLE? IF YOU ARE STARVING TO DEATH? I THINK IT WOULD BE MOST AGREEABLE! IT IS OBVIOUS THAT YOU WILL NOT BE GIVEN GOOD HEALTH AS A PROMISE FROM YOUR NEW WORLD ORDER—SICKNESS SEEMS TO BE THE OFFERING AND BAND-AID TREATMENT FOR THAT.

THIS IS ALL NATURAL SUBSTANCE WHICH WE OFFER—NO MEDICINE AND NO CHEMICALS. WE ARE NOT PRACTICING MEDICINE UNDER ANY CIRCUMSTANCES—NONE OF US ARE DOCTORS NOR HAVE ANY WISH TO BE SO.

CAN YOU HEAL YOURSELF? OF COURSE! GOD BIRTHED YOU WITH THE PERFECTION TO DO SO. CAN A BABE UTILIZE THESE THINGS TO HEAL SELF? OF COURSE, ONLY THE CONSCIOUS MIND OF THE BABY IS NOT AWARE—THE SUBCONSCIOUS MIND WILL HEAR, FOR INSTANCE, EVERY WORD ON THE TAPE AND TAKE IT IMMEDIATELY WITHIN AS INSTRUCTIONS FAR FASTER THAN YOU ADULTS.

FOR INFANTS AND TODDLERS

YES, INDEED, GIVE THEM THE ABOVE ITEMS. MAKE CEREAL FROM THE SPELT OR OFFER IN OTHER FOODS AS THEY GROW INTO READINESS FOR SOLID FOOD. THE JUICE MIX WILL BE GREATLY ENJOYED BY BABIES AND CHILDREN—GIVE THEM AMOUNTS APPROPRIATE.

GAIANDRIANA, ETC.: PLEASE DO OFFER YOUR CHILDREN THIS DEFENSE SUPPORT. THEY ARE BOMBARDED MORE HARSHLY THAN ARE ADULTS. IF A CHILD IS SHOWING SIGNS OF COMING DOWN WITH A COLD OR FLU—GIVE UP TO THREE OUNCES AND THEN BACK TO MAINTENANCE. GAIANDRIANA CAN BE SIMPLY ADDED TO FORMULA OR WATER—OR A BIT OF JUICE. IF YOU CAN GET YOUR BABY FUNCTIONING IN A BALANCED MANNER—IT CAN MAINTAIN ITSELF.

YOU CAN, AT THE LEAST, MATCH OR SURPASS THE LIFESPAN (IN GOOD HEALTH) OF THE ANCIENT PEOPLE OF HIGH TIBET OR THE OTHER LONG-LIVED BROTHERS. YOU ARE SIMPLY KILLING OFF YOUR OWN SPECIES AS YOU ARE GOING. IT SEEMS A BIT OF A SHAME SINCE HUMANS CLAIM TO WISH A LONG AND HEALTHY LIFE. IT IS STRICTLY UP TO YOU.

We are continually blasted with the fact that if people would quit smoking, drinking, eating wrong, etc., etc., etc.—they wouldn't have these problems. Well, you do these things and surely enough you damage yourselves. However, do not think that you cannot help self in spite of these problems and addictions. You may find the addictions coming under YOUR CONTROL instead of OUT OF CONTROL as you REGAIN CONTROL AND BALANCE. I would urge you to get control as rapidly as possible, for the thrust of the **New World Order** is going to get more repressive instead of better and you need all the ammunition you can get for good health, if you are to withstand that which is coming.

I can only offer that which "can" assist you to perfect a "miracle"—**YOU ARE THE MIRACLE!**

10/26/93—#1

POINTS TO PONDER: GAIANDRIANA

It has been brought to my attention that I need to give you a few more instructions on Gaiandriana. Dharma handles a lot of the research experiments with the “mother” cells and she got a real shocker today. Yesterday was too busy to attend much work on the Gaiandriana so all she did was add the additional water I told her to use to “hold” it. Today is a beautiful, clear and “Sun-intense” day at this altitude. By mid-afternoon the cells had grown and “crystallized” to the point that the entire 3-gallon container was acting as a giant refracting magnifying glass. She has 12 of them and every one was focusing such an intense laser that there are actually etched burns ready to flame on the wooden tables. These were smoking and moving in a line at the speed of the orbit, smoking and ready to burst into flame.

The reason I tell you readers this is to warn you who would think you can “upgrade” your own drianas—be careful, for if you put the liquid into a crystal container (as in hand blown, uncut, crystal) and place in the Sun—you can very well start a fire and burn your house down. Treat it EXACTLY as you would a high-quality magnifying glass. This has burned into the wood and, therefore, ruined the surface finish of the furniture and might very well scorch formica if not attended. I would not expect this to happen but these are large three-gallon containers and the power is tremendous. It is nice, however, for confirmation reasons that this happened—for it proves beyond doubt that you have active crystals reproducing so quickly that the replication frequency measurements are “off-scale”.

I always have her temper the solution with other ingredients and color to gauge “readiness” and prevent this from happening. It is a good experience, however, to SEE the results and life reproduction right in full eye view. If you think this will not raise those frequencies within a body cell to such an extent as to rapidly dispatch a foreign form (virus, etc.), then think again. These people (four of them) literally watched the cells line up in solution, into “stands” to intensify the laser. NEVER UNDERESTIMATE THE POWER OF GOD IN CREATION nor what God will make available, if HIS people would but accept the gifts. HE would never leave His creations without messengers or that which you need to make transition—unless His own turn from HIM. In that instance HE has NOT denied—HE has BEEN denied.

CLONES

I find it most amusing to watch and receive the input from the past week’s revelations in the “news”. Cloning?? Twins, triplets or more? Come children, these are NOT NEW capabilities—it is simply that this technology is now being made public to counter the revelations and happenings to come which would overwhelm the senses. We thought it especially amusing in that the releases of cloning news came from the same journalists who covered a large meeting which Rick Martin attended and all but four or five speakers were CLONES—some now without the original. **Cloning is EASY, RAPID and downloading “memory” even more easily accomplished than downloading a computer program.**

I have been asked to make a detailed discussion on the subject. No, thank you—we have had detailed discussions on that very subject over and over again for five years.

The News Desk

By John & Jean Ray

U.S. IS MISQUOTING MY IRAQ REPORT, SAYS BLIXBy Judith Miller & Julia Preston,
New York Times, 02/01/03

Days after delivering a broadly negative report on Iraq’s cooperation with international inspectors, Hans Blix challenged several of the Bush Administration’s assertions about Iraqi cheating and the notion that time was running out for disarming Iraq through peaceful means.

In an interview on Wednesday, Dr. Blix, the United Nations chief weapons inspector, seemed determined to dispel any impression that his report was intended to support the United States’ campaign to build world support for a war to disarm Saddam Hussein.

“Whatever we say will be used by some,” Dr. Blix said, adding that he had strived to be “as factual and conscientious” as possible. “I did not tailor my report to the political wishes or hopes in Baghdad or Washington or any other place.”

Dr. Blix took issue with what he said were U.S. Secretary of State Colin Powell’s claims that the inspectors had found that Iraqi officials were hiding and moving illicit materials within and outside of Iraq to prevent their discovery. He said that the inspectors had reported no such incidents.

Similarly, he said, he had not seen convincing evidence that Iraq was sending weapons scientists to other countries to prevent them from being interviewed.

Nor had he any reason to believe, as President George Bush charged in his State of the Union speech, that Iraqi agents were posing as scientists, or that his inspection agency had been penetrated by Iraqi agents and that sensitive information might have been leaked to Baghdad.

Finally, he said, he had seen no persuasive indications of Iraqi ties to al-Qaida. “There are other states where there appear to be stronger links,” such as Afghanistan, Dr. Blix said. “It’s bad enough that Iraq may have weapons of mass destruction.”

Russia has also denied any knowledge of links between Iraq and al-Qaida extremists. The Russian Foreign Minister, Igor Ivanov, said on Thursday that “so far, neither Russia nor any other country has information about Iraq’s ties with al-Qaida”.

“If we receive such information we will analyse it,” he said. “Statements made so far are not backed by concrete documents and concrete facts.”

Meanwhile the founder of a militant Islamist group in northern Iraq has denied U.S. reports that his organisation was the secret link between Baghdad and al-Qaida.

Mullah Krekar, a refugee in Norway, said Saddam was his foe, and the Kurdish Islamist said he had no contact with al-Qaida.

He said that he could prove that his Ansar al-Islam (Supporters of Islam) organisation, which controls a sliver of land in northern Iraq, had “no contact with al-Qaida, with Osama [bin Laden], with Saddam Hussein, with Iran or Iraq”.

Ansar’s role is at the heart of the U.S.’s latest attempt to demonstrate a connection between al-Qaida and Iraq.

[JR: The above statement by Blix was made prior to Powell’s speech at the UN. Since our U.S. media has done its usual overkill job of presenting America’s position regarding Iraq it doesn’t need repeating here. The Security Council issued a statement after Sir Powell’s presentation emphasizing that the Security Council is the

center that issues the rules to maintain peace and security as well as the Iraq issue. The Security Council voiced their concerns that if a war starts with Iraq a dangerous sequence of events could start in the area and if that happens it could signify failure of the Security Council and world order and the principles of the Charter. The Council recommended a peaceful solution and not a military one and that no decisions should be made until the IAEA and UNMOVIC issue their reports. They also pointed to a *New York Post* article which stated that U.S. and British intelligence had reported that Iraq had no links with terrorists or al-Qaida. The Council stated that Iraq pledged “to cooperate fully and pro-actively” with UN inspectors and that the Council feels inspectors needed more time. End quote. The fact is that the masterminds in D.C. need to be reminded that the *UN Charter* bars invasions for regime changes and that nations can use self-defense only when an attack “occurs”, not when one is merely anticipated in some indefinite future. Only the UN Security Council can authorize pre-emptive strikes. Question for Americans is: Is the U.S. ship of state sailing into un-charted waters where none other has ventured, and what will happen when all is lost?]

THE TRUTH WE CAN’T FACE:
AMERICA AS A THIRD-RATE NATION!By Dorothy Anne Seese, *Ether Zone*, 01/30/03

It’s taken for granted. We’re America, the United States of America, the world’s only superpower, and we are the leaders of the free world. We are U.S. Flags fly, cars sport decals and bumper stickers. People wear lapel pins with our flag and perhaps a slogan. At important events, even the President can speak about God and prayer with impunity. The world is supposed to fear us, obey us, and allow us to lead, our military might is second to none. Our citizens are the world’s free people.

Now, can we get down to reality? The show is over, the stage is dark and the curtain is down. We have to go back outside and face the day, or the night.

No nation with a sinking economy and continuing depletion of resources is a free nation. It is a dependent nation.

No country where the unemployment is rising, costs and prices are rising, and businesses are moving to other countries can long call itself a free nation. It is an interdependent nation at best.

No people who look to the government to solve their problems from cradle to grave can look in the mirror and call themselves a free people. At best they are dependents, at worst they are serfs.

Any country that abandons its hard precious metal standards (gold and silver) as the United States did in 1934 and 1973, respectively, and operates on funny money cannot sustain either a free economy or a free country.

Uneducated people who cannot think, regardless of the number of diplomas or degrees they obtain, can never be free. They can’t handle freedom.

A nation that must monitor every move of every citizen, using technology to keep people in captivity or fear of captivity, is not a nation of free people. Worse, when the people willingly surrender what basic freedoms they have in exchange for an IOU marked “security” they aren’t even thinking like free people—even if they

are or were up to the signing of the exchange.

Representatives of the people who willingly obey a mandate to approve bills drafted by the executive branch of government, abdicating their responsibility to be the legislators, are not free, and they do not represent a free people. Free people do not retain such false representatives, and free people do not allow the leader of one branch of government to dominate all others. That is espousing, condoning and upholding tyranny.

A managed media does not represent a free people and free people do not tolerate a managed media. One of our basic *First Amendment* rights is to a free press.

Free people never let any government official rise to the level of total control, because free people insist that the government work for them, not enslave them.

And free people know the difference between the appearance of freedom, and true freedom.

Is America a nation of free people by these standards? No.

Is America a prosperous nation when it has corporations moving to every nation on earth to make goods at lower prices so that their American consumers don't have their former jobs to purchase the products? Yet Microsoft, the last "American Dream" company of a kid who worked on electronics becoming the richest man in America, is moving piece by piece to India, where labor is cheaper and in many cases the people have a better work ethic.

No matter what familiar name brand you choose to buy—from General Electric to Fruit of the Loom—the goods are not made in America any longer. A few items may be made here, but look at the labels on the boxes (the kind of boxes that had to be re-labeled for a presidential appearance) because they read "Made in China."...

China and India are claiming a large share of the technology business. Other countries are making textiles, shoes and appliances. We who live in the USA cannot afford to buy our own products. What does that tell you about the United States? We've outpriced our ability to afford ourselves. And we didn't see it coming.

Most of what we produce in the U.S. is either housing, automobiles, a few durable goods such as washers and dryers, but the big businesses here are service organizations. And we have the smaller businesses such as air conditioning and automotive repair....

For all who expect great tax cuts, cheaper prices at the marketplaces, assistance with medical costs, government protection from boogie-men and terrorists without losing our *Fourth Amendment* right to privacy, let me say you cannot handle the truth. The truth is that we're in bad times, surveillance is everywhere, the *Bill of Rights* is used by liberal judges to take freedom from some and give to others, and our elected Congressional delegations of Representatives and Senators are looking for votes, not for the best interests of either the nation or the people.

Congress is even willing to delegate its power—its sole power—to declare war, and give it to the office of the president....

And if it is true that in 1967, then-president Lyndon B. Johnson emptied Fort Knox of our gold reserves, then all that needs to happen is for the European Union and its bankers to return to a gold standard and America will be left with a mint full of funny money equal to conch shells on the world trade market....

No person can be free when they cannot handle the truth, nor can lies ever be exposed and deficits corrected until we know the truth. If we cannot handle the truth, we cannot handle freedom.

[JR: Maybe we should all send a copy of this commentary to each of our Senators and Congressmen so they can see the BIG PICTURE and realize how they have betrayed us all and this once great nation.]

SHOCK & AWE: IS BAGHDAD THE NEXT HIROSHIMA?

By Ira Chernus, *CommonDreams.org*, 01/27/03

Have you heard of Harlan Ullman? Everyone in the White House and the Pentagon has. They may very well follow his plan for war in Iraq. He wants to do to Baghdad what we did to Hiroshima.

Ullman is what they call a "defense intellectual". He was the Navy's "head of extended planning" and taught at the National War College. One of his students was Secretary of State Colin Powell, who says he "raised my vision several levels".

What Powell and everyone in the Bush administration sees now is Ullman's vision for high-tech war. He calls it "rapid dominance" or "shock and awe". The idea is to scare the enemy to death. To win, you don't need to inflict physical pain and destruction. Just the fear of pain, and the massive confusion it creates, is enough.

Ullman wants the U.S. to (in his words) "deter and overpower an adversary through the adversary's perception and fear of his vulnerability and our own invincibility." "This ability to impose massive shock and awe, in essence to be able to 'turn the lights on and off' of an adversary as we choose, will so overload the perception, knowledge and understanding of that adversary that there will be no choice except to cease and desist or risk complete and total destruction."

Ullman is ready to use every kind of weapon to create shock and awe. He once said it might be a good idea to use electromagnetic waves that attack peoples' neurological systems, "to control the will and perception of adversaries, by applying a regime of shock and awe. It is about effecting behavior."

When it comes to Iraq, Ullman likes the idea of cruise missiles—lots of them, right away. *CBS News* reports that Ullman's ideas are the basis for the Pentagon's war plan. The U.S. will smash Baghdad with up to 800 cruise missiles in the first two days of the war. That's about one every four minutes, day and night, for 48 hours.

The missiles will hit far more than just military targets. They will destroy everything that makes life in Baghdad livable. "We want them to quit. We want them not to fight," Ullman told *CBS* reporter David Martin. So "you take the city down. You get rid of their power, water. In 2,3,4,5 days they are physically, emotionally and psychologically exhausted."

Ullman is sure it will work as well in 2003 as it did in 1945: "You have this simultaneous effect, rather like the nuclear weapons at Hiroshima, not taking days or weeks but in minutes." "Super tools and weapons—information-age equivalents of the atomic bomb—have to be invented," he wrote in the *Economic Times*. "As the atomic bombs dropped on Hiroshima and Nagasaki finally convinced the Japanese Emperor and High Command that even suicidal resistance was futile, these tools must be directed towards a similar outcome."

When he first invented "rapid dominance", Ullman talked about an "eight-level hierarchy of shock and awe", with the atomic bombings of Hiroshima and Nagasaki at the top. Now, it seems, that's where he wants to start.

Is the Hiroshima model just a metaphor? Ullman recently wrote that one way to "shock and awe" Saddam is to remind him that the U.S. has "certain weapons" that can destroy deeply-buried facilities. That's a not-even-thinly-veiled reference to the newest kind of nuclear weapons, the B-61 "bunker-busters". *L.A. Times* columnist William Arkin has confirmed that the U.S. is preparing to use "bunker-busters" against Iraq. That would "break down the firewall separating nuclear weapons from everything else," Arkin warns, and "forever pit the Arab and Islamic world against us."

Suppose we drop the nuke in the wrong place? Even Harlan Ullman admits it could easily happen: "Of course, there will always be intelligence gaps, and no solution is perfect." But that's just the point. "The threat would be a Damoclean sword that might or might not descend." In other words, the fear of nukes falling who-knows-where would scare them into surrendering without a fight. Let other Islamic nations get as angry as they like. We'll just shock and awe them too.

And why not North Korea, while we're at it? Ullman wants a nuclear threat there, if North Korean leaders don't heel to U.S. commands: "To remind the North of its vulnerability, one or more Trident ballistic submarines could be permanently assigned to target North Korea." Tridents carry 240 nuclear warheads each. One Trident might not be enough, it seems. When you use shock and awe, you use it big-time.

So here we are, preparing to destroy a huge modern city, kill tens of thousands, and threaten nuclear attack—all against people who have not fired a single bullet at us. Yes, it's about oil. But it's also about shock and awe, putting on a terrifying show for the whole world to see.

If all this leaves you in shock and awe, you have had your vision raised several levels too. You see what Ullman, Powell, and all the Bushies see: the U.S. frightening the whole world so badly that no one will dare fire a single bullet at us. Let them be as angry as they like, just so they know who is the meanest, toughest son of a bitch on the global block.

That is now becoming the essence of U.S. foreign policy. And they seriously believe it will put an end to war. I suppose the Romans believed it too.

—*Ira Chernus is Professor of Religious Studies at the University of Colorado at Boulder.*

[JR: Here is a report on some classic behind-the-scenes manipulating of our leaders, all sitting like proper students at the feet of a Globalist 'thinker'. Whose sole purpose is to misinform and misguide those in power with variations to radically change our traditional and historic methods of social and other behaviors. It is done to instill in potential leaders an attitude that the use of power is right, and necessary to achieve the end goal, with total disregard to our *Constitution* and International laws. It is clear from this information that our military leadership has been captured by a deceitful crowd of usurpers who do not have the best interests of America at heart... they are dual loyalists with dual citizenships.]

U.S. WOOS WAR ALLIES WITH CASH, WEAPONS IRAQ'S NEIGHBORS SWAP STAGING SITES FOR BILLIONS IN AID

By Stephen J. Hedges & Catherine Collins,
Tribune, 02/02/03

WASHINGTON—When U.S. and Turkish officials meet this week to discuss Turkey's potential role in any war with Iraq, they will also review an offer of U.S. aid. The multibillion-dollar offer may look like so much diplomacy but is, in fact, a bid—the price the Bush administration is willing to pay for the use of Turkey's military bases, airfields and ports.

The U.S. is offering more than \$4 billion in loans and grants, according to a Western diplomat in Istanbul, which represents a "significant step forward" in the Bush administration's efforts to add a critical ally to its "coalition of the willing" against Iraq. ...

The package reveals Washington's eagerness to secure the use of Turkey as a vital land bridge into northern Iraq. It also illustrates the powerful economic and diplomatic levers that President Bush wields as he rallies allies against Iraqi leader Saddam Hussein.

In the Persian Gulf region alone over the past two

years, the United States has sold, lent or given away an estimated \$7.5 billion worth of weaponry, other military equipment and training assistance, according to State Department figures. Recipients have included such vital U.S. allies as Kuwait, Jordan, Bahrain, Qatar, Oman and the United Arab Emirates.

The deals include advanced fighter jets, radar systems and missiles. Airfields are being expanded. Military bases are being renovated.

In return, the United States has won the right to build bases, house troops and use sovereign airspace if it wages a war against Iraq.

Many of the same countries recently provided vital support, such as airfields, during the U.S. war against al-Qaida and Taliban forces in Afghanistan.

Since the Sept. 11 terrorist attacks against the United States, foreign military assistance—mostly grants to buy U.S. weaponry—has increased \$500 million, to more than \$4 billion for fiscal 2003, State Department documents show.

Administration officials say the aid has been one of the most effective means of finding and sustaining foreign support for the global war on terrorism.

“We provided money so they could . . . participate in doing what we were asking them to do,” said an official involved in the program. “Security assistance... is a tool of U.S. national security and foreign policy.”

Analysts and critics, however, say the administration’s use of arms as a diplomatic carrot has some potentially dangerous downsides, including a lack of control over the military hardware being provided. . . .

Others contend that the United States is busy arming nations that had been prohibited from receiving lethal U.S. weapons because of poor human-rights records and abusive militaries. Those countries include Yugoslavia, Uzbekistan and Indonesia.

They also say the U.S. policy of trading arms for support may serve to fuel regional conflicts with a wave of modern and highly effective weaponry.

“Who your friends are today may not be your friends tomorrow,” said Rachel Stohl, a senior analyst with the Center for Defense Information in Washington.

“Look at India and Pakistan. They’re hot and cold as U.S. friends. Do we really want to be selling them our hottest weapons?” Stohl asked.

India and Pakistan are nuclear-armed archenemies engaged in an ongoing, low-intensity conflict over the border region of Kashmir. The U.S. restricted military sales to both before Sept. 11, 2001.

After the terrorist attacks in the United States, however, both have become vital American allies. And both have gotten increased U.S. military aid.

Pakistan has received \$1.2 billion in arms, including helicopters, radar systems, six used C-130 cargo aircraft, armored personnel carriers and F-16 fighter jets.

The U.S. has given India \$78 million in air defense and artillery-spotting radar, Sea King helicopters and training aircraft.

Swapping guns for favors is one of the oldest games in the diplomatic repertoire. It ran rampant during the Cold War, which for many nations not directly involved was not so much an ideological struggle as it was an opportunity to squeeze arms, financial aid and a convenient alliance out of the United States or the Soviet Union. . . .

The war on terrorism, and the building standoff with Iraq, have reordered some of the deck chairs that were scattered when the Cold War ended. With the United States racing to find allies, countries again have been willing to go along—for a price.

Potential allies, the administration official said, “are certainly looking to see what the benefits of a relationship with United States are going to be. As we approached countries in Central Asia, where we had no national

security relationship before the war [on terrorism], it was one of the things that we did to make sure that we had a security relationship that wasn’t just one-way.”

Nowhere have those relationships had greater ramification than in the Persian Gulf region, where for more than a decade the United States has been shipping arms and assistance.

Jordan’s agreement last week to allow some U.S. forces on its soil points up just how effective the promise of such aid can be. In the 1991 Persian Gulf war with Iraq, then-King Hussein remained neutral; his county shared both a border and a brisk trade with Iraq. . . .

As the possibility of war against Iraq has neared, Turkey has remained a holdout. So far, Ankara has officially refused U.S. requests to use its bases and ports, but its reluctance may be part domestic politics, part bargaining chip. And the United States is sweetening the pot. . . .

Also, Pentagon officials have said they are willing to spend up to \$300 million to improve the facilities U.S. forces might use in Turkey. And a \$324 million U.S. Export-Import Bank loan may be used to allow Turkey to buy 14 SH-60 Seahawk helicopters, according to the Pentagon.

While Turkish leaders once were adamant against cooperation, they have in recent days softened their stance. The National Security Council said Friday that it would recommend to parliament approval of the limited use of bases by U.S. forces. Turkish law requires such a vote. . . .

[JR: I don’t want to imagine what America’s position in the world will be like once the dollar slides and our money for payoffs holds no value. Our economy is terminal, the job market is dead, and more companies are moving across our southern borders or heading overseas. We have a deficit that is ready to implode and Bush wants to add \$2.3 TRILLION to it which does not include a prolonged war with Iraq, aid to Israel, monies allocated to the CIA, Department of Defense or the Pentagon covert missions, and the continuous payoffs to unfriendly allies. Our allies now consist of eight countries as of January 30th. They are: England, with the offer of ¼ of her troops; Poland with an undisclosed number of troops; Italy and Spain: use of military bases; Czech Republic: chemical weapons experts; Hungary: use of bases to train Iraqi exiles; and Denmark and Portugal: no specific offer. This alliance is based on the premise that Iraq is in violation of UN Resolution 1441. The U.S.’s allies are temporary and tenuous but the number of our enemies will grow longer and become more lasting.]

UTTER ISRAELI CONTEMPT FOR THE UNITED NATIONS:
A CAUSE FOR WAR?

By Michael Hoffman, *Hoffman Wire*, 01/31/03

In his State of the Union Address of Jan. 28, President Bush cited as grounds for war against Iraq, Saddam Hussein’s “utter contempt” for the United Nations. Eight European heads of state, including the leaders of Britain, Italy, Spain and Denmark, in supporting the American drive for war on Iraq, wrote in the bloodthirsty Zionist newspaper *Wall Street Journal*:

“The UN Security Council must maintain its credibility by ensuring full compliance with its resolutions. We cannot allow a dictator to systematically violate those resolutions. If they are not complied with, the Security Council will lose its credibility and world peace will suffer as a result.”—Silvio Berlusconi, Tony Blair, Vaclav Havel, Anders Rasmussen, *et al.*, “United We Stand”, *Wall Street Journal*, Jan. 30, p. A14.

These statements, as *casus belli*, are the worst sort of folly and imposture. As Bush, Blair, Berlusconi and the other European leaders are fully aware, the Israelis have for years been in gross contempt of UN Security Council resolutions, yet none of these “valiant European leaders”

who “stand united” against Saddam and his broken-down joke of a Third World military, will dare enforce UN resolutions against Sharon and his world-class Israeli military, bristling with nukes and the latest U.S. armaments.

If contempt for the United Nations and the non-existent credibility of its farcial Security Council is indeed a just cause for war, then NATO and the U.S. should declare war on the Israelis. But in reality, the war on Iraq has nothing to do with the “credibility” of the Security Council. Iraq is being targeted solely in obeisance to war-Zionism, the ideology which drives the Israeli satrapy known as the United States of America.

Which country alone in the Middle East is in defiance of sixty-nine separate United Nations Security Council Resolutions and has been protected by U.S. vetoes? Answer: Israel.

Which country alone in the Middle East has nuclear weapons? Israel. Which country in the Middle East refuses to sign the nuclear non-proliferation treaty and bars international inspection? Israel.

Which country in the Middle East seized sovereign territory of other nations by military force and continues to occupy it in defiance of UN Security Council Resolutions? Israel.

Which country in the Middle East refuses to prosecute its soldiers; soldiers who have acknowledged executing prisoners of war? Israel.

Which country in the Middle East had a top United Nations Diplomat, Count Folke Bernadotte, assassinated in 1948? Israel.

Which country in the Middle East prevents Palestinian refugees from returning to their homeland, in violation of UN Security Council resolution 194? Israel.

Which country in the Middle East bombarded a United Nations refugee compound at Qana, Lebanon in 1996, for 17 minutes, killing 106 civilians, more than half of them children? Israel.

Which country in the Middle East, in spite of repeated demands, refused to allow United Nations war crimes investigators into the Jenin refugee camp to conduct an assessment of deaths and injuries to Palestinian civilians in April of 2002? Israel. “We have no intention of letting (Israeli) soldiers be investigated or even give testimony.”—Israeli Foreign Minister Shimon Peres, April 29, 2002.

Which country in the Middle East assassinated a UN official last year? Answer: Israel. On Nov. 22, 2002 in Bethlehem, Iain John Hook, 52, an official with the United Nations Relief and Works Agency (UNRWA), was shot by Israeli troops. To ensure that Hook bled to death, Israeli soldiers kept an ambulance from reaching him.

In spite of all of the preceding examples of Israeli contempt, violations and crimes, there is no move of any kind from any European or American leader for inspections, ultimatums or investigations of the Israeli government, which enjoys *de facto* immunity from all UN Security Council Resolutions, in keeping with Judaism’s conceit that it is the judge of all nations and the subject of none, including the “United” nations.

Crimes of Commission by the Israeli government and Omission by the United Nations:

The UN permits the Israelis to perpetrate “extra-judicial” assassinations of hundreds of Palestinians accused of resisting Israeli forces. President Bush and his Defense Secretary Donald Rumsfeld have adopted this Israeli murder stratagem and undertaken a policy of assassinating “suspected” al-Qaida operatives, such as occurred in Yemen on Nov. 3, when an aptly named Hellfire missile from a drone aircraft, burned alive six men, including an American (Kamal Derwish), without apprehension, trial or any public presentation of evidence of guilt. Cf. Seymour M. Hersh, “Manhunt,” *The New Yorker*, Dec. 23, 2002, pp. 66 & 70.

“The movements of nearly all Palestinians are already sharply restricted by Israeli forces...” *N.Y. Times*, Jan. 8, 2003, p. A8.

“Israeli forces staged two major operations in the West Bank...where they closed television stations and demolished a block-long fruit and vegetable market... a convoy of tanks and bulldozers rumbled toward the open-air market in the center of town, then methodically flattened and swept aside scores of stalls hewn roughly from wood, tin and canvas...soldiers had warned vendors to remove their stalls so that tanks could use the street...”.—James Bennet, “Israeli Raids in Hebron After Sharon Rebuffs Arafat on Talks,” *N.Y. Times*, Jan. 30, 2003.

The UN permits the Israelis to collectively punish the entire population of Palestinians, women, the elderly and children, due to the religion of Judaism’s identification of all Palestinians as “Amalek” (i.e. a nation deserving of wholesale extermination). This collective punishment doctrine includes confinement of the Palestinian population to their homes for days and even weeks at a time; shooting any Palestinian who attempts to leave their home even briefly; fencing and blockading entire Palestinian cities and turning them into besieged ghettos as in Warsaw under the Nazis; attacks on Palestinian hospitals and churches; the destruction of Palestinian housing and infrastructure including water and electricity; the demolition of Palestinian food markets and olive groves; the destruction of Palestinian small business enterprises and banks.

[JR: How long will world governments, religious leaders and ardent supporters of Israel ignore her cruelties, her injustices, her military capabilities and her weapons of mass destruction? The world has become tolerant of Israel’s actions and re-actions by justifying them as her right to exist. The Zionists use this as an excuse to covertly advance themselves as the dominant power in world affairs. Being lied to and ignoring the facts will make this world an inhospitable place to exist in, just as it has been for the Palestinians under Zionist rule.]

SOME PUZZLED BY BUSH PLAN FOR AGENCIES

By Cam Simpson, *Washington Bureau*, 01/30/03

WASHINGTON—In proposing a new Terrorist Threat Integration Center in his State of the Union address this week, President Bush billed it as a way to unite the nation’s intelligence analysts, avoiding the sort of miscommunication and missteps that preceded the worst terrorist attack in U.S. history.

But lawmakers who oversee the nation’s intelligence community and others said Wednesday that they are puzzled by the proposal, because it appears to duplicate responsibilities specifically placed by Congress in the hands of the just-created Department of Homeland Security.

There were also questions from some corners about whether Bush went far enough, while others said that placing the new intelligence clearinghouse under the control of CIA Director George Tenet raised the specter of having the Central Intelligence Agency spy on Americans. ...

The FBI has been working for months to upgrade its Office of Intelligence. But senior FBI officials insisted Wednesday that the new center—already dubbed “Tee-Tick,” for the acronym TTIC—would not threaten the FBI’s primacy in domestic security matters. ...

While few details about the president’s new center were in place Wednesday, one thing was clear: congressional Democrats and Republicans in important intelligence oversight roles had called for more than a year for the creation of just such an entity. ...

The homeland security law was written “to give this job to the new department, and now we don’t know what they are going to do with Homeland Security,” one congressional official involved in oversight of counterterrorism said Wednesday.

The creation of a central clearinghouse for terrorist threat information collected at home and overseas also

was chief among the recommendations made late last year by a joint congressional investigation of intelligence failures leading up to the Sept. 11 attacks. Graham, Shelby and House Intelligence Committee leaders headed the investigation.

In December, the bipartisan panel recommended that Congress and the president create an “effective all-source terrorism information fusion center that will dramatically improve the focus and quality of counterterrorism analysis”.

The president’s plan, unveiled Tuesday night, calls for the TTIC to “fuse and analyze all source information related to terrorism.”

It would draw on “raw” intelligence reports as well as analyses already conducted by the CIA’s Counterterrorist Center, the FBI’s counterterrorism division and the numerous intelligence agencies under the Department of Defense.

The center would be staffed by hundreds of analysts and employees, including many from the same intelligence agencies it would rely on, officials said. ...

Other questions also were raised Wednesday about the new center’s effectiveness.

Two officials involved in counterterrorism efforts said its effectiveness could be diminished because the analysis of intelligence information is to be completely separated from its collection, as well as from the operational side of the nation’s intelligence agencies.

If analysts have no influence when it comes to telling agents in the field, “Here’s what we need to make the picture clearer,” their jobs could be frustratingly difficult, two different officials said Wednesday. ...

The American Civil Liberties Union said it was worried about the CIA governing intelligence-gathering on U.S. soil, where it is banned from such activity under the nation’s 50-year-old National Security Act.

White House officials, however, said the center’s lack of control over intelligence collection and operations negated those concerns. ...

[JR: Nothing like the Democrats and Republicans working together to clone/duplicate another government agency to protect them from us. There will be no oversight by our U.S. Knesset on TTIC activities as our Congress has proven themselves to be most compliant and amendable to their “ethnic” handlers in charge of our government. When governments become too big and overpowering they pass laws that suppress dissension. It is becoming more and more obvious that 9/11 was inevitable given the growth of all the new government agencies and laws. If this continues, D.C. will create a bureaucratic maze that will rival the labyrinths of ancient Crete.]

NATION’S BANKS ABANDON 2-MONTH ANTI-CHAVEZ STRIKE

Newsday, 01/30/03

CARACAS, VENEZUELA—Under pressure from President Hugo Chavez, Venezuela’s banks agreed to abandon a 59-day-old strike—another sign the drive to force Chavez’s ouster is unraveling.

Wednesday’s decision came as the government nibbled away at the strike’s core: a walkout that has hobbled the oil industry, formerly the world’s No. 5 exporter. But this week, output has surpassed 1 million barrels a day, a third of normal. Prior to the strike, oil provided half of government income and 70 percent of export revenue.

Venezuela’s National Banking Council said its members will return to normal business hours on Monday. For two months, thousands of people have waited in long lines while banks opened just three hours a day.

Chavez had threatened to suspend directors at striking banks, fine them and withdraw the armed forces’ deposits from private institutions.

Management at shopping malls, restaurants, franchises and schools also plan to resume work Monday. Many strike supporters fear a popular backlash because of strike-related shortages in food, medicine and cash.

Most small businesses never joined the strike, which began Dec. 2.

Labor, business and political parties called the strike to demand Chavez resign or call early elections. They argue that Chavez’s leftist policies have hobbled Venezuela’s economy and unleashed political violence.

[JR: It is a known fact in some Latin American circles that the opposition demonstrating and calling for strikes was covertly supported by the oil cartels in the U.S. President Chavez was able to survive their orchestrated chaos through the support of the military and a majority of the Venezuelan people. If he didn’t have one or the other he would have been forced out. The fact that Chavez had both says something for his leadership. Don’t count the Bushmen out, as they never give up on their quest for oil.]

TWO CHARGED IN SHREDDING OF INS DOCUMENTS

New York Times, 01/31/03

LOS ANGELES—Two former employees of a huge Immigration and Naturalization Service data processing center in Laguna Niguel, Calif., were indicted by a federal grand jury late Wednesday, charged with deliberately shredding tens of thousands of documents last year.

Dawn Randall, 24, and Leonel Salazar, 34, are accused of ordering low-level workers to destroy up to 90,000 documents to reduce a growing backlog of unprocessed paperwork. Among the destroyed papers, federal officials charged, were American and foreign passports, applications for asylum, birth certificates and other documents supporting applications for citizenship, visas and work permits.

Randall was the file room manager at the INS center, one of four such sites in the United States. Salazar was a file room supervisor working under Randall.

According to the federal indictment, Randall in February ordered at least five night-shift workers to begin shredding unprocessed papers in the filing center. By the end of March, the backlog had been reduced to zero.

“There was no INS policy that required this, nor was she ordered to do it by any superior, as far as we know,” said Greg Staples, the assistant U.S. attorney.

[JR: There may not have been (proven) collusion connecting management with lower staff members who were kept busy shredding 90,000 documents to eliminate the work deficit. Who exactly was supposed to be supervising this speeded-up backlog of paperwork? Was this feat of maximum efficiency accomplished with or without overtime and do we taxpayers have to pay for new paper shredders? The fact that the INS has had major problems in doing its appointed task should have set off alarm bells to anyone who claims to have an office title in that agency. Maybe what is common sense and logical to us taxpayers is not part of the work ethic of those who are lucky enough to have a job in government.]

SOLZHENITSYN BREAKS LAST TABOO OF THE REVOLUTION

NOBEL LAUREATE UNDER FIRE FOR NEW BOOK ON THE ROLE OF JEWS IN SOVIET-ERA REPRESSION

By Nick Paton Walsh, *Guardian*—UK, 01/25/03

MOSCOW—Alexander Solzhenitsyn, who first exposed the horrors of the Stalinist gulag, is now attempting to tackle one of the most sensitive topics of his writing career—the role of the Jews in the Bolshevik revolution and Soviet purges.

In his latest book Solzhenitsyn, 84, deals with one of the last taboos of the communist revolution: that Jews were as much perpetrators of the repression as its victims. *Two Hundred Years Together*—a reference to the 1772 partial annexation of Poland and Russia which greatly increased the Russian Jewish population—contains three chapters discussing the Jewish role in the revolutionary genocide and secret police purges of Soviet Russia.

But Jewish leaders and some historians have reacted furiously to the book, and questioned Solzhenitsyn's motives in writing it, accusing him of factual inaccuracies and of fanning the flames of "anti-semitism" in Russia.

Solzhenitsyn argues that some Jewish satire of the revolutionary period "consciously or unconsciously descends on the Russians" as being behind the genocide. But he states that all the nation's ethnic groups must share the blame, and that people shy away from speaking the truth about the Jewish experience.

In one remark which infuriated Russian Jews, he wrote: "If I would care to generalise, and to say that the life of the Jews in the camps was especially hard, I could, and would not face reproach for an unjust national generalisation. But in the camps where I was kept, it was different. The Jews whose experience I saw—their life was softer than that of others."

Yet he added: "But it is impossible to find the answer to the eternal question: who is to be blamed, who led us to our death? To explain the actions of the Kiev cheka [secret police] only by the fact that two thirds were Jews, is certainly incorrect."

Solzhenitsyn, awarded the Nobel Prize for Literature in 1970, spent much of his life in Soviet prison camps, enduring persecution when he wrote about his experiences. He is currently in frail health, but in an interview given last month he said that Russia must come to terms with the Stalinist and revolutionary genocides—and that its Jewish population should be as offended at their own role in the purges as they are at the Soviet power that also persecuted them.

"My book was directed to empathise with the thoughts, feelings and the psychology of the Jews—their spiritual component," he said. "I have never made general conclusions about a people. I will always differentiate between layers of Jews. One layer rushed headfirst to the revolution. Another, to the contrary, was trying to stand back. **The Jewish subject for a long time was considered prohibited. Zhabotinsky [a Jewish writer] once said that the best service our Russian friends give to us is never to speak aloud about us.**"

But Solzhenitsyn's book has caused controversy in Russia, where one Jewish leader said it was "not of any merit".

"This is a mistake, but even geniuses make mistakes," said Yevgeny **Satanovsky, [JR: I wonder if he's related to you-know-who???**] president of the Russian Jewish Congress. "Richard Wagner did not like the Jews, but was a great composer. Dostoyevsky was a great Russian writer, but had a very sceptical attitude towards the Jews.

"This is not a book about how the Jews and Russians lived together for 200 years, but one about how they lived apart after finding themselves on the same territory. This book is a weak one professionally. Factually, it is so bad as to be beyond criticism. As literature, it is not of any merit."

But DM Thomas, one of Solzhenitsyn's biographers, said that he did not think the book was fuelled by anti-semitism. "I would not doubt his sincerity. He says that he firmly supports the state of Israel. In his fiction and factual writing there are Jewish characters that he writes about who are bright, decent, anti-Stalinist people."

Professor Robert Service of Oxford University, an expert on 20th-Century Russian history, said that from what he had read about the book, Solzhenitsyn was "absolutely right".

Researching a book on Lenin, Prof Service came across details of how Trotsky, who was of Jewish origin, asked the politburo in 1919 to ensure that Jews were enrolled in the Red army. Trotsky said that Jews were disproportionately represented in the Soviet civil bureaucracy, including the cheka.

"Trotsky's idea was that the spread of anti-semitism was [partly down to] objections about their entrance into the civil service. There is something in this; that they were not just passive spectators of the revolution. They were part-victims and part-perpetrators.

"It is not a question that anyone can write about without a huge amount of bravery, and [it] needs doing in Russia because the Jews are quite often written about by fanatics. Mr. Solzhenitsyn's book seems much more measured than that."

Yet others failed to see the need for Solzhenitsyn's pursuit of this particular subject at present. Vassili Berezhev, a retired KGB colonel and historian of the secret services and the NKVD (the precursor of the KGB), said: "The question of ethnicity did not have any importance either in the revolution or the story of the NKVD. This was a social revolution and those who served in the NKVD and cheka were serving ideas of social change.

"If Solzhenitsyn writes that there were many Jews in the NKVD, it will increase the passions of anti-semitism, which has deep roots in Russian history. I think it is better not to discuss such a question now."

[JR: The Jews cannot hide forever the historical fact that Lenin, Trotsky and Kerensky were all Jews who played a prominent role in the planning and starting of the Bolshevik-led Revolution. From the (false) Jews point of view such facts should remain hidden to keep us from knowing just how big a role they have played in changing world events that always seems to culminate in political upheavals and violence although the takeover of the U.S. is the rare exception. If the Jews could just admit that not all Jews are of high purpose or morals they wouldn't have to live in fear and paranoia like they have for centuries. We could all then agree that no country or race is without fault but the false Jews will never admit to that. Their only defense is to vilify and attack their critics and to set themselves apart from everyone else and to keep their activities secret. We should then ask them that if they are so superior a race and are so wise and so knowing and are supposedly God's chosen people how come they haven't evolved to a higher place in God/Creator's cosmos and are still living here amongst us lower life forms? Shouldn't that be the question for us all in this new millennium?]

VILNIUS TRIES TO RESTORE 'JERUSALEM OF NORTH' LITHUANIAN CAPITAL SEES TOURIST DRAW

By Alex Rodriguez, *Tribune*, 01/22/03

VILNIUS, Lithuania—Zydu Street anchored this 680-year-old city's Jewish Quarter, renowned in Europe as a citadel of Yiddish learning and Jewish culture. Europe's top Talmudic scholars studied there. So did musician Jascha Heifetz, who was 5 when he played violin at the quarter's Imperial School of Music.

The quarter flourished for more than three centuries. Then, in a span of three years, it vanished. ...

Today, nothing distinguishes Zydu Street and the rest of the Jewish Quarter from any other Vilnius street or neighborhood.

In a crusade deemed quixotic by some and vital by others, a former member of Lithuania's parliament is spearheading an effort to rebuild much of the quarter, brick by brick.

Emanuelis Zingeris' idea is not unprecedented. Prague and Krakow have worked to restore their Jewish

quarters, taking sections with synagogues and other landmarks still standing and turning them into tourist attractions. But Vilnius is starting from scratch, envisioning the reconstruction of 30 buildings in vacant lots and parks at a cost of nearly \$100 million.

The cornerstone of Zingeris' dream is the reconstruction of the Great Synagogue, a huge Renaissance-style structure that once towered over the neighborhood's two-story buildings. Zingeris estimates rebuilding it will cost \$10 million and take years to complete. ...

He convinced federal and city government officials that his ambitious plans would pay off in practical terms. Vilnius, a tourism draw, would be even more attractive if the Jewish Quarter were revived, he said. ...

Zingeris still must find financial backing, which would come exclusively from the private sector. He says he doesn't have "a euro in my pocket yet" but plans to push for funds this year.

The project has its critics. Some point out that only a few thousand Jews still live in Vilnius and say the money would be better spent on aiding the thousands of Lithuanians who live below the poverty line. Several Jewish leaders in Vilnius say city resources instead should go toward educating people about the Jewish experience.

Zingeris and his backers say they see restoration as a kind of living museum, educational in its own right.

"This is very much educational," he said. "We are restoring the sights and sounds of prewar Jewish culture in Vilnius, a culture that was silenced through the war and through the Soviet regime."

[JR: There is a Holocaust Museum, or Jewish memorial coming soon to your world neighborhood. The only preserved heritage or culture will be the Jewish/Yiddish culture. All other cultures will be obliterated or assimilated into the Zionist New World of disOrder. What the Nazis failed in achieving will be achieved by the Zionists... if we allow it.]

FAKE IDS NOT DETECTED AT BORDERS U.S. INVESTIGATION CALLED 'SHOCKING'

By Donna Smith, *Newsday*, 01/31/03

WASHINGTON (*Reuters*)—Government investigators told a Senate panel Thursday that undercover agents were easily able to cross the U.S. border from Mexico and Canada using fake identification that was made using basic computer equipment.

Despite efforts to strengthen border security since the Sept. 11 attacks, investigators found border guards did not recognize that holograms on fake licenses were not genuine and that birth certificates used had no watermarks.

"Our agents entered the United States from Canada, Mexico and Jamaica through ports of entry using fictitious names and these counterfeit identification documents," Robert Cramer, managing director of the office of special investigations at the General Accounting Office, said in testimony to the Senate Finance Committee.

"Immigration and Naturalization Service and U.S. Customs Service officials never questioned the authenticity of the counterfeit documents, and our agents encountered no difficulty entering the country using them," he added.

Committee staff documents said the fake identification was made using common computer equipment. Investigators were also able to use fake documents to enter the United States though the Miami airport, a committee aide said.

Cramer said U.S. citizens crossing the Canadian and Mexican borders can use birth certificates, baptismal documents or driver's licenses to establish citizenship. On some occasions, border agents accept oral statements as proof.

“What these investigators found is shocking,” said Finance Committee Chairman Charles Grassley, an Iowa Republican. “The agents on the front lines obviously need to be a lot more vigilant. Bouncers at college bars could spot the kind of fake IDs that were used by investigators.”

Officials noted new homeland security laws provide for equipment that will be able to read documents and verify their authenticity. ...

Daniel Wirth of the National Park Service, speaking on behalf of the Federal Law Enforcement Officers Association, showed videos of dozens of smugglers hiking through a campground near the Mexican border carrying some 300 pounds of marijuana. He suggested smugglers could carry more dangerous substances.

“They could be backpacking anything,” he told the committee. He added that smugglers often hike through campgrounds.

Sen. Max Baucus of Montana, the top Democrat on the panel, said he hoped President Bush follows up on promises to improve border security.

“It’s one thing to talk the game. It is something else to produce,” Baucus said.

[JR: Should the average American feel safer now that the government relies so heavily on surveillance systems instead of highly trained personnel for our protection? Our dependency on these technologies makes us more vulnerable as any one of these systems can be rendered useless by EMP waves. This type of technology was utilized over Belgrade during the Clinton administration’s war in the Balkans, which knocked out all their power grids. What will happen if there is a short interruption in our systems and there is an “incident”? I am curious to know what companies enjoying higher profits from these lucrative government security contracts and have connections to Israel? I bet our U.S. Knesset would be a good source for this type of information but they are paid for their silence.]

‘NEW BEGINNING’ AS YUGOSLAVIA CEASES TO EXIST

By Misha Savic, *Newsday*, 02/05/03

BELGRADE, Serbia-Montenegro (AP)—Erasing Yugoslavia from the map of Europe, lawmakers all but dissolved the troubled Balkan federation Tuesday and gave birth to a new country with a new name: Serbia and Montenegro.

Under a European Union-brokered accord approved by parliament, the two republics stick together in a loose union that gives each greater autonomy and the trappings of statehood. The final breakup—outright independence for both—could come as soon as 2006.

Widely seen as a compromise solution amid conflicting demands within both republics that Serbia and Montenegro be either firmly tied or completely separated, the accord preserves the alliance but allows each member state to hold an independence referendum after three years.

The deal offers the republics near-total sovereignty, although they will remain linked by a small joint administration in charge of defense and foreign affairs. Yugoslavia, the federation’s name for nearly three-quarters of a century, is relegated to the history books. ...

Yugoslavia, founded in 1918 as the Kingdom of Serbs, Croats and Slovenes, comprised six republics until the early 1990s, when Slobodan Milosevic presided over a bloody breakup that saw Bosnia-Herzegovina, Croatia, Macedonia and Slovenia secede.

Serbia and Montenegro, tightly knitted for centuries, opted to stay together as a rump Yugoslav federation. But the relations between the republics soured, prompting the EU to mediate the accord last year in an effort to keep the two together and prevent fresh upheaval in the volatile region. ...

But the new arrangement left many dissatisfied, including staunchly separatist leaders in both republics.

“This new country is stillborn,” said Vladan Batic of Serbia’s Christian Democrats, who serves as justice minister in the Serbian government. He predicted the republics would go separate ways in three years.

Equally unhappy were staunchly separatist Montenegrin politicians such as Miodrag Zivkovic of the Liberal Alliance, who contended that Montenegro was being “cheated with this reform”.

“Full independence is our true interest,” he said. ...

Tiny Montenegro, which has just 650,000 people, is dwarfed by the much larger Serbia, home to 10 million.

Nationalist parties in both republics opposed the reform, arguing that their deep historical ties ought to be preserved.

Tuesday’s overhaul leaves Yugoslav federal President Vojislav Kostunica without an official position. It also raises questions about the status of Kosovo, which remains officially in Serbia but was considered part of Yugoslavia under a key UN resolution.

[JR: When invaders or conquerors come into your country and change your borders and the future course of your history there are injustices that are buried with these changes. The EU has set up a system of governing which does not allow for the new “republics” (nice euphemism) of Serbia and Montenegro to have any say in their own country’s foreign affairs or their defense. The EU had to maintain this key provision if it hoped to secure and preserve its own position and interests in the region. Serbia holds more political power with 10 million people over Montenegro, a minority with only 650,000 people. How this is going to balance out with the dissatisfied separatist leaders in the next three years is the big question. President Kostunica who was Milosevic’s “democratically elected” successor is the real loser as he has no role in the new Serbia (Yugoslavia). Kostunica has been cast out by the EU and declared irrelevant so how is this going to play out with the Serbs who elected him?]

STRONG DELUSION

By Chuck Baldwin, *Covenant News*, 01/31/03

When people demonstrate a perpetual pattern of gullibility and even willful compliance with evil, one must wonder what is really the root cause of it all. Is it ignorance? Is it indifference? Maybe it is personal ambition or the love of comfort. There is another possibility: It could be divine delusion.

According to the Scriptures, people who reject truth are destined to receive “strong delusion”. They will “believe a lie”.

I am reminded of what my good friend and noted evangelist of many years, John Hull, recently told me. He said, “Americans today love being lied to.” Indeed they do.

Thousands of politicians have made fortunes by lying to people. Thousands of preachers and merchants are guilty of the same thing. Americans are deluged with deception on a daily basis. Deception has become more than an aberration in the United States; it is an art form.

However, it seems that the majority of the American people today are quite content at being deceived. More than that, they seem to gladly choose to be deceived. This is easily seen by the way most people react to truth. It is rejected out of hand.

Beyond that, messengers of truth are viciously and vehemently repudiated and castigated. Truly, most professing Christians and most Americans today have “heaped to themselves teachers, having itching ears; and they have turned away their ears from the truth, and have turned unto fables.”

This willingness to accept falsehood could be explained in part by cowardice or convenience. However, such massive and universal compliance suggests something much greater at work.

Could it be that God Himself has sent a “strong delusion” to America and especially to America’s pulpits? Could it be that Christians’ willingness to accept, even practically worship, a presidential administration as diabolically deceptive as the current one signals “the time of [America’s] trouble”? It just could be.

RETURN TO AN OLD STANDARD?

By Faisal Islam, *The Observer*—UK, 2/9/03

The current ascent of gold has been driven by geopolitical worries. But this year will see a whole new source of demand open up, and a partial return to the Gold Standard. An audacious plan, pushed by Malaysia, seeks to reassert the role of the precious metal in the international trading system through the minting of ‘gold dinars’.

For Malaysia—and its Prime Minister, Mahathir Mohamad—it marks a strike back, of sorts, against the inequities of the global financial system. Malaysia, despite having a prudent approach to economics, was unceremoniously dumped by world markets. Mahathir eschewed the International Monetary Fund’s medicine and instituted capital controls and a currency peg.

Most world trade is settled using international currencies, predominantly the dollar, followed by the pound, yen and euro. Malaysia says that the Middle Eastern and Asian countries are acutely vulnerable to the exchange rate with these major currencies. ‘The gold dinar could be an important facilitating mechanism to help the smaller countries of the world move away from an inherently unstable and ultimately unjust global monetary system,’ Mahathir told a conference recently.

The scheme, which is set to be launched in the next few months, has been coolly received by some central bankers, who point out that the gold price has its own supply-and-demand dynamics. But at least part of the motivation for this mainly Muslim scheme is political—to provide an alternative to use of the U.S. dollar. Mahathir believes that the scheme will provide fertile conditions for stronger economic development in the underperforming Muslim world.

But the dollar’s current descent and the prospect of endless growing budget deficits has served up an economic rationale for an alternative unit of account. Morocco, Bahrain, Iran and Saudi Arabia have entered bilateral discussions with Malaysia. There is a real possibility that the oil markets could propel usage of the new coin. And there is a British connection too.

The Bank of England holds the gold reserves of many Middle Eastern nations. Member countries would settle dinar trade balances every quarter by transferring gold held at the Bank.

But this move is only part of a generally more positive attitude towards gold emerging in the East. The Bank of China has increased its reserves by 205 tonnes over the past two years. Mongolia, the Philippines and Kazakhstan have also upped gold reserves.

Some analysts believe new anti-money-laundering laws have encouraged investors to shift assets from dollars into gold.

But there may be a simpler explanation. In this time of uncertainty, people are turning to the one asset that has symbolised a globally recognised store of wealth since the Pharaohs.

The three decades since President Nixon took the dollar off the Gold Standard is still the anomaly in three millennia of monetary history.— <http://www.observer.co.uk/business/story/0,6903,891682,00.html>

CAFR SCAM ON AMERICAN TAXPAYERS CONTINUES

By Walter Burien, *Rense.com*, 2/10/03

Starting in 1946, the plan was put forward to create a double bookkeeping venture for all levels of government. The plan was to promote the annual general-services Budget, and hold back disclosure of the Annual Financial statement from the public.

By 1979 the plan was well underway with most States falling into line with the double bookkeeping venture and the local governments within each state, the Cities, Counties, School Districts, and Authorities also were now towing the line with the planed venture.

The Financial Statement of local governments was and is, the **Comprehensive Annual Financial Report, or CAFR for short.**

Link to download most State CAFRs: http://members.aol.com/_ht_a/cafr1/Listings.html

By 1990 the planned venture allowed those local governments participating—of which was the majority, over 55,000 local government entities—to show shortfalls on their General Purpose operating Budget, while at the same time having from 3 to 11 years of annual operating funds shown in the overall financial statement, the CAFR.

EXAMPLE: Orange County, California, when over a decade ago lost \$1.3 billion and was crying bankruptcy towards their general-purpose operating funds, upon a review of Orange County's Financial Statement, the CAFR, **it showed Orange County had over \$14 billion in profitable investments which more than offset their \$1.3 billion loss.** When this fact came forward in private circles, the news of Orange County's loss disappeared from the press before the public found out about the profitable investments, and also found out about the way they were duped into just looking at the loss.

Orange County's gross mismanagement jeopardized disclosure of the planed venture that started in 1946 for all of the others participating in the double bookkeeping of the Financial Statement Vs the General Purpose operating Budget. Steps were taken to closely monitor all other local governments from that point forward so that no other would grossly mismanage funds—and thus draw scrutiny to the overall picture of the Financial Statement, the CAFR. A report of which the public was being kept completely ignorant of at the directions of the administrators of the planed venture.

By 1997 most local governments participating in the double bookkeeping venture, were now generating gross income that was over 60% NON-TAX-REVENUE.

The equation of this fact was never brought forward for public comprehension. The planed venture continued promoting the annual General Purpose operating Budget of which was supported by 100% taxation—excluding disclosure to the public of the revenue, investment return and funds held as shown in the Financial Statement, the CAFR.

The money involved was massive—and the participation of the nondisclosure was pervasive.

To orchestrate this type of planed venture—and develop it into the principle of operation of all local governments within this country—requires the systematic inclusion of the primary news media and organized education, as well as the political heads of both parties. It became evidently clear that due to the money involved, you either cooperated with the planed venture or were removed from your position.

To my knowledge, the only open and conspicuous mention of any local government's financial statement, the CAFR by any network news, was done on July 5th, 1995, by Mary Flanigan, an ABC network news reporter in Phoenix, Arizona.

Ms. Flanigan in her report gave a close-up camera shot of the state of Arizona's 1994 CAFR with the comment that "The Militias of this country are looking into massive fraud involving this financial report completed by all local governments each year."

Ms. Flanigan's segment aired on the 10 p.m. broadcast. The 10 p.m. segment *always* airs verbatim at 7 a.m. the following day. In this event, her segment—which openly mentioned the Arizona State Government CAFR—was cut from the 7 a.m. re-air segment. The archived video of that segment was pulled from the ABC video archives and was not made available for sale. Mary Flanigan was pulled as an anchor reporter the next day, but remained with ABC in another capacity.

Mary is, and was an unsung hero. She was the first to openly mention any local government's financial statement [CAFR] in a conspicuous manner on the network news.

CAN YOU OPENLY AND CONSPICUOUSLY MENTION ANY LOCAL GOVERNMENT'S FINANCIAL STATEMENT, THE CAFR ON YOUR NETWORK PROGRAM?

Keep in mind that if a public company promoted their operating budget to their shareholders and held back their Annual Financial Report from those shareholders, in reality, if done by that public company, every director who participated with that type of fraudulent nondisclosure would be facing a multi-count indictment from the SEC and would be convicted, sentenced and serve very long prison sentences for their participation and knowledge of the planed nondisclosure. Local Governments on all levels are doing exactly that.

Openly mention the Annual Financial Report of local Governments today, the CAFR, on your network program. When you do, you will see how pervasive the orchestrated nondisclosure is. Your Network CEOs have received the State and some City CAFRs for over 25 years. Did you ever hear a peep or mention of it? The editors of all of the primary news print media have received copies also for the last 25 years. Ever see the word CAFR in print? The Deans of all Colleges and Universities have received it for over 25 years (and sign their own CAFR each year). Ever heard of it mentioned in school?

To hold back basic fundamental comprehension from an entire nation since 1946—perpetuating nondisclosure to the public of all local government's Financial Statement, the CAFR—required the participation of many. But then look at the money involved.

THE MONEY INVOLVED:

Composite government ownership of common stock (international) is approximately \$27 trillion.

Composite government ownership of insurance equity participation is approximately \$14 trillion.

Composite government's funding of their own debt approximately \$7 trillion.

Composite government Federal and local annual gross NON-TAX income is approximately \$5.1 trillion (Tax income, Federal and local in 1999, \$3.4 trillion). Or total gross annual income, \$8.5 trillion for 1999. The total personal income for the entire work force of the nation was \$8.2 trillion. **SOURCE:** Note section of the 1999 Federal Consolidated Financial Statement. (The Federal CAFR) Link for downloading of the FCFS: <http://www.fms.treas.gov/fr/backissues.html>

As of June 8, 1998, I personally moved forward to break the ice of government holding back their financial statement and just promoting their annual budget to the public. Since that time I have had my children kidnapped, abused and endangered by local government. I have suffered many abuses—financial and moral—based on the intentional and orchestrated attacks on my person from local government officials in Arizona. But then they do what they do, due to the money involved. I have not faltered and continue to bring forward the

basics to the public. This is not my job, it is yours.

So I, and the rest of the country will see your willingness to make simple, open, and conspicuous mention of the most basic and fundamental document of all, governments Annual Financial Statement, the CAFR.

The equivalents in religious terms would be the *Bible, Koran, or Torah.*

Why have we all heard of those documents and not the CAFR?

Are you a White Knight, or a Black Knight?

Your actions for disclosure or perpetuation of the nondisclosure will answer that question.

Yours Truly,

Walter J. Burien, Jr., P.O. Box 2112, St. Johns, Arizona 85936

COMPANY SAYS DEVICE CAN DETECT MAD COW IN BLOOD

By Stephen Sheldon, *Rense.com*, 2/10/03

(UPI)—The company, Gradipore, said its Gradiflow membrane technology can remove infectious prion proteins from two blood components—gamma globulin and albumin.

Scientists said the device could permit earlier diagnoses of animals afflicted with these diseases and enable farmers to isolate and remove infected animals from their herds. In addition, they said, it might be possible to use the membrane to detect the human forms of mad cow—known as Creutzfeldt-Jacob disease (CJD). "This discovery is really important because if you pick up infectious prions at the earliest possible stage, while the animal is still alive, then you can limit the spread of associated diseases and start to look for a cure,"—Tim Wawn, Chief Operating Officer for Gradipore, told *United Press International*.

Wawn said the new technology is the result of experiments designed, performed and validated in collaboration with two institutions in Scotland: the National Blood Transfusion Service, an authority in the field of prion diagnostics, and Q-One Biotech, of Glasgow, an independent authority in the design and implementation of virus, prions and other contaminant validation studies.

Steven Mahler, associate professor in biotechnology at the University of New South Wales, also acknowledged the significance of the Gradiflow membrane.

"This discovery is novel and it has huge potential," he told *UPI*.

Prions are proteins that circulate in minute quantities in the blood. Although scientists are unsure how this occurs, when prions become diseased, they infect healthy prions and then congregate in big clumps in the brain, destroying healthy tissue.

This results in degenerative spongiform encephalopathy, or DSE, diseases, such as scrapie in sheep and goats, bovine spongiform encephalopathy (BSE or mad-cow disease) in cattle, feline spongiform encephalopathy (FSE) in cats and Creutzfeldt-Jakob in humans.

All these diseases are transmissible and fatal.

Scrapie, which was first reported in Britain in 1730, has infected more than 1,000 flocks in the United States since its first detected case in 1947. Because of the fear of transmission, farmers often need to cull large numbers of animals, including healthy animals, to prevent infection.

The prions that cause these conditions occur in such small quantities in the blood that, until now, they have eluded detection in blood samples. The only reliable diagnostic tests for prion disease require extracting brain tissue, so they can only be performed post-mortem. Such testing is time-consuming and, due to lead times, can allow the disease to spread before the condition is discovered.

Wawn said although it has been known for some time that Gradiflow could detect viral and bacterial pathogens in the bloodstream, its ability to detect infectious prion proteins is new. The membrane unit can vary in size, depending on flow requirements, but the typical benchtop unit is about the size of a television set.

When a blood sample is introduced, the unit pulls the prions through a wafer-like membrane, either by electrical charge or by varying the size of the holes in the membrane.

Because all proteins have different sizes and electrical charges—and abnormal prions have a different size and charge from normal ones—the Gradiflow can even separate healthy prions from infected ones.

Once separated, the technology concentrates the prions in sufficient quantities for diagnostic analysis.

Because the Gradiflow can remove prions from the bloodstream, theoretically if someone with CJD were to donate blood, the infected prions could be removed and the blood sample freed from contamination.

Although researchers at the Australian Red Cross Blood Bank would not comment on the device—or on the possibility of its use in decontaminating the blood supply from other dangerous pathogens—industry insiders told *UPI* the organization thinks Gradiflow has a lot of merit.

Its most immediate potential benefit, however, is for the livestock industry.

“The technology means that if you have a herd, you can take blood samples from each of your animals and verify if any have diseased prions,” Mahler said. “You don’t have to kill them all just in case there is potential for infection. It takes the fear factor out of the decision-making process.”

BUSH PLANS MORE POLICE-STATE VIOLATIONS OF CONSTITUTION

Secret DOJ Bill To Extend Patriot Act Powers Exposed

PBS’ *NOW* with Bill Moyers Exposes Secret Draft Bill from The Department of Justice to Extend Powers of The Patriot Act...

Tonight, on Friday, February 7 at 9 P.M. on PBS (check local listings at <http://www.pbs.org/now/sched.html>), *NOW* with Bill Moyers will provide details of a Justice Department draft of a bill designed to extend the powers of the Patriot Act. The draft bill was provided exclusively to *NOW* by the Center for Public Integrity, [www.publicintegrity.org], which obtained it from a confidential government source. The document, entitled the Domestic Security Enhancement Act of 2003, outlines significant broadening of law enforcement powers, including domestic intelligence gathering, surveillance, and law enforcement prerogatives, while decreasing public access to information and judicial review authority.

Dr. David Cole, Georgetown University Law professor and author of *Terrorism and the Constitution* assessed the document for *NOW* with Bill Moyers and the Center for Public Integrity. “I think this is a quite radical proposal. It authorizes secret arrests. It would give the Attorney General essentially unchecked authority to deport anyone who he thought was a danger to our economic interests. It would strip citizenship from people for lawful political associations,” he told *NOW*’s Roberta Baskin. “And... it has not been put on the table so there can be a discussion about it.”

NOW interviewed executive director of the Center for Public Integrity, Charles Lewis, in New York on Thursday. When asked to gauge the significance of the document Lewis responded: “It just deepens and broadens, further extends the first Patriot Act,” he says. “And it’s arguably... a more thorough rendering of all the things law enforcement and intelligence agencies would like to have in a perfect world. I think it’s a very tough document when it comes to secrecy and surveillance.”

NEVADA CORPORATIONS:

Keeping Shields Up In A Foreign Jurisdiction

Budget’s “Tip of the Week” #11:

Maintaining a Nevada Corporation’s Liability Protection in a Foreign Jurisdiction

When using your Nevada corporation in a foreign jurisdiction, what can you do to maintain the strong liability protection afforded under Nevada’s statutes?

So-called “long arm” laws have been used to claim jurisdiction over “foreign” corporations, stripping away the benefits that would otherwise accrue to them based on the statutes prevailing in their home jurisdiction. These “long arm” laws have been used to great effect in California, for example, ostensibly to protect that state’s citizens from encroachments and predatory practices by “outsiders”. **Nevada corporations are not immune from this potentially devastating application of the law that would deny them the liability protection inherent in Nevada’s Revised Statutes—BUT IT WOULD APPEAR THAT THEY CAN BE.**

Article I, section 10, clause 1 of the *U.S. Constitution* prohibits the states from passing any “law impairing the obligation of contracts”. The test for determining a violation of this “contract clause” in the *Constitution* was stated in *Allied Structural Steel Co. v. Spannaus*, 438 U.S. 234 (1978):

“The first inquiry must be whether the state law has, in fact, operated as a substantial impairment of a contractual relationship. The severity of the impairment measures the height of the hurdle the state legislation must clear. Minimal alteration of contractual obligations may end the inquiry at its first stage. Severe impairment, on the other hand, will push the inquiry to a careful examination of the nature and purpose of the state legislation.”

The solution to retaining the superior liability protection made inherent to Nevada corporations in the *Nevada Revised Statutes* thus appears to be fairly simple:

AS A PART OF ANY CONTRACT (and remember that a contract does not have to be in writing) WITH ANY ENTITY OR ENTITIES IN A FOREIGN JURISDICTION, ENSURE A CLEAR UNDERSTANDING THAT THE CONTRACT IS TRANSACTED IN NEVADA, AND THAT ANY DISPUTE SHALL BE RESOLVED IN NEVADA.

You might also want to consider liberal use of the suffix, “a Nevada corporation”, which can be appended to your corporation’s name to add a measure of protection. In legal terms, there is a “rebuttable presumption” that Nevada law applies to any contract between a Nevada “person” (yes, a corporation IS a “person”, by legal definition) and any other entity, so long as the second party is aware of the fact that they are dealing with a Nevada corporation. For this reason alone it can be wise to ensure that the Nevada corporation is identified as such while operating within a foreign jurisdiction.

CORPORATION SETUP AND MAINTENANCE FEES

Budget Corporation —includes:	Nominee Service	\$200
• First-year resident agent fee	Obtain EIN	\$ 75
• Corporate Charter	Bank Account Setup	\$100
• Articles of Incorporation	Expedite (24-hr. setup)	\$150
