CB-BSP 'Switcharoo': What Of Filipinos' Gold?

How did the old Central Bank ever go bankrupt while holding 400,000 metric tons of gold?

12/10/04—#1 (18-116)

FRI., Dec. 10, 2004 7:19 A.M. YR 18, DAY 116

Manila, Philippines

RE: PEOPLE IN THE NEWS YOU NEED TO
KNOW: JOEY CUISIA, FORMER GOVERNOR OF
THE CENTRAL BANK OF PHILIPPINES, AND
HERNANDO DE SOTO, PERUVIAN
ECONOMIST NOW GMA ADVISER—GCH/D

IMPORTANT NAMES TO REMEMBER

We are bogged in life "happening" while we make every effort to get on with our plans. Now, we all know that to make God laugh heartily all we have to do is tell him OUR plans. So the patience factor has to kick in while lessons turn into problem-solving and things go on "hold" while demanded attention stops the project clock. That does NOT mean that information and foundation for working solutions in the mission itself

are stopped. Much happens that you can't see but must be integrated into the overall realization.

As coups and rumors of coups, wars, assassinations of "witnesses to truth" and outright "false publications" run amuck we are stuck with having to dig and act, actually, on that which is only barely seen as the tip of that iceberg. MOREOVER, you can guess what an iceberg in these tropical waters must represent—tip or otherwise—for in a tropical place the larger mass must be underwater or it would be melted and off being El Nino or Nina.

Yes there IS news taking place here in the Philippines as storms have wiped out major pieces of land, forests and yes indeed, PEOPLE. Ah but, the U.S. Marines have landed at Subic and are sorting, rescuing, feeding and organizing in the disaster areas. They have arrived with supplies and indeed, will salvage the day in this land of disasters created from graft and "absolute" corruption. There are 600 troops (all that could be spared from Okinawa) and hopes are to have at least uncovered most of the dead by Christmas. The more

important thing is that they brought equipment which is the only connection with isolated areas. Does anyone else find it interesting that the U.S. military can turn buttons on and off and present either hardened killers or rescuing "saints" out of these youngsters? Look into the minds of murderers and you will be amazed at what you find as to manipulation and actual damage within those skulls as recognized as "brains". The "mind" is a most remarkable thing and will seek out its own pleasure or pain. If you create a monster you WILL confront it again and again, for that which is created is forever retained—on or off the "list" you choose to use.

T-A FDN/GAIA: STATUS

I will mention this because it is bogging our team here in work and there is no time available for so much as these writings.

There is need, however, to put to records some items which will become very large indeed in our ongoing efforts to, especially, get into that Bangko

Central (BSP). We are only interested primarily in the former Central Bank before changeout in about 1993 by Former President Fidel Ramos under the guise of “bankruptcy” of the old CB. With 400,000 metric tons of gold STORED IN THE CB VAULT it seems an unlikely story and thus becomes intrigue beyond the visible aspect. *Something is WRONG!*

We aren't “after” Ramos, as a focus on same might indicate. He is the American asset that managed the switcharoo, and we will leave that topic, for Mr. Ramos has his hands overfilled with other intrigues in which he is mired without our annoyances.

One of these days upcoming he will see the “light” of some rather useful and asset-saving potential possibilities we have offered without, yes indeed, strings.

Meanwhile, I will note that the FDN is now intervening legally in ongoing cases in the courts here regarding administrators and arguments as to who is who and what is what. This will give us “personality” and gain full court-ordered authority AS ADMINISTRATOR (hoped for, of course) and hopefully clear the warped and tampered absurdities to date. This does mean, crew, that we must have everything else in absolute ORDER because we are going to start pushing aside the debris on this path and if it buries a few things along the way, we have to accept that we should have done better, more quickly. We can have no compromise or potential errors either in discernment or judgment of circumstances. He who breaks the law or perjures self must stand the consequences for these are, in these instances, DEADLY games.

The first party we will address as discussion is named, JOEY CUISIA.

Mr. Joey Cuisia is an Ex-Central Bank Governor. He is now under direct legal attack by parties claiming he swindled, in one instance alone, P134-M. This involves his own family so you can only guess at the other indiscretions.

Why is this important to note?

Because Joey Cuisia was Governor of the Central Bank at the time of switchover to Bangko Sentral ng Pilipinas (BSP), a PRIVATE corporation.

The story goes, for your information, in the reference to the Central Bank as relative to his Governorship thereof. We don't need to present the personal case in point although it names several very interesting investments one of which is Philam Asia Management, Inc., which is a subsidiary of Philippine American Life and General Insurance Co. Also a most interesting company is in the spotlight: Fortknex Storage. Now the question might well be: “Fortknex Storage?” of what??

If you have had a minimum of 400,000 metric tons of GOLD in your care at the old CENTRAL BANK what can you possibly do with it when you want to hide it? Gee whiz, readers, doesn't life get more curious by the passing day?

But about that old CB and why we can now find out what we need to know and pin-down some responsibility let us look at what the public article in point presents:

[EXCERPTING: Front page, *The Daily Tribune*, Thursday, Dec. 9, 2004.] [This story has also run in all papers, local and foreign.]

Our interests spotlight: “...Civil society and Edsa II coup d'etat stalwart Jose “Joey” Cuisia, former Philippine Central Bank (CB) governor who served under the Corazon Aquino and Fidel Ramos presidencies, stands accused on charges of fraud (*estafa*) filed before the Department of Justice (DoJ) by

“The CB, then under Cuisia, went bankrupt, with the Congress dissolving the CB and

renaming it the Bangko Sentral ng Pilipinas (BSP) while having the Filipino people ASSUME THE HUGE LOSSES THE BANKRUPT CB HAD INCURRED UNDER CUISIA....

[END EXCERPT]

Yes indeed, the story is interesting but totally distracting from the point at issue in our attention focus.

How could one declare a bank bankrupt while holding a MINIMUM of 400,000 metric tons of gold to which original lease arrangements were made and concluded with due-and-owing payments of lease for use?

Some of those ordered payments were made and we have yet to find out “TO WHOM”. The payments stopped and there are outstanding court ordered sums remaining due and owing to the T-A FDN of which the documents and records are yet to be recovered from the former Administrator appointed by the court, Julian Tallano.

The entire agreement expired as to leasing the gold holdings in the vault in year 2000 which would free the gold, supposedly, for sale or use by the FDN. No such thing. The CB became the BSP and when inquiries were made it was stated that there was no gold available even for inventory, etc., into infinity!

Well, any blind person can now see that hanky-pank was being played and can be traced, at the least, to Mr. Cuisia's doorstep along with Mr. Ramos and Ms. Aquino.

Cuisia is also being charged with “insider trading”! Well, I guess so because a lot of loot had to be traded, shifted, and hidden.

Now please, audience, be patient with us for on the same page we find “Another Erap witness murdered”. This means that anyone giving problems to the Elite corrupted are going to get deaded at first opportunity. WE WAIT IN THAT PATIENCE UNTIL UNFOLDING HAPPENS IN A LOGICAL SEQUENCE OF EVENTS—WHILE WE PURSUE IN ALL POSSIBLE HASTE LEGAL CLARIFICATIONS AND DECISIONS. WE ARE NOT AT WAR!

Every article in the paper is now in reference to graft, corruption, evil and Philippine DESTRUCTION.

AH BUT: Mr. Joey Cuisia KNOWS what happened to that gold and how it was handled at turnover of CB to BSP. And yes indeed, I think I can pat my people on the head and say “well done my good and faithful...”

Well, you might suggest that this is good and ok for FDN but what has that to do with GAIA?

I don't want to count the ways which are more than obvious but I will move on to the more recent and interesting addition of a Peruvian “lost cause economist” being joined to President GMA's chief economic adviser staff here in Manila. He is going to show her how to solve the problems of the Republic. The presentation itself as published is so absurd as to be comedy relief but of course from prior published rumor and grapevine the ultimate attention will be to “Peruvian certificates” and Peruvian contracts and recognition of holdings by Russell Herman turned into a contract of identifiable holdings instead of a bearer certificate to cause mayhem and murder.

Those documents, readers, were shifted by armed courier from California TO LIMA, PERU AND PUT INTO SECURITY THERE IN THE SECURED ARCHIVES.

So, on to a wee discussion as to what is being said and which is total lie and fabrication, about this Mr. De Soto of Peruvian fame. You will see the connections so please don't toss aside as boring because the PIECES are necessary to fit the puzzle finishing.

You will note from the write-up that Mr. De Soto

has a less than wondrous success rate at his proffered job—so pay attention so that you can be a leg-up on the obvious things coming down.

Now, in addition to this as evidence of things under way, you might note that Erap Estrada (deposed president) has gained permission of the court to go to Hong Kong immediately for surgery on his knees and with whom his whole family will spend Christmas—there in Hong Kong. My goodness!

Something is “comin' down”, people, and may well prove to be something beyond merely “interesting”. However, we don't need “beyond” or even more “interesting” material for the moment, for overload hits hard along with too much unwinding speculation to be effectively used.

Please realize that we do not offer this following as any form of truth or fact. It holds very, very little of either. However, YOU need to be aware of the very importance of this established association and it will eventually all fall out with GAIA.

[QUOTING from *TODAY*, Manila, Philippines, Thursday, Dec. 9, 2004, “Opinion”:]

DE SOTO'S SNAKE-OIL ECONOMIC PROPOSAL

By Manuel F. Almario

As the sickest man in Asia, the Philippines has become a sucker for any quick fix or snake-oil proposition. Such is that of Hernando de Soto, a Peruvian economist, who has so impressed President Arroyo she treated him to a dinner during the APEC meeting in Chile on November 21 when she could have used her time talking to other heads of state. **[H: Other HEADS OF STATE DO NOT have direct knowledge and access to information on Bonus 3392-181 as does Mr. De Soto!]** According to newspaper reports quoting Malacañang, “President Arroyo has secured the commitment of the Peruvian economist to alleviate poverty.” The report added, “The President expressed confidence that de Soto would be able to duplicate the economic success [*sic*] of Peru and Egypt after [*sic*] they heeded the advice of the renowned economist.”

Alas, the people of Peru and Egypt are even poorer than the Filipinos. According to the *CIA Factbook*, 54 percent of the population of Peru is below the poverty line (as of 2003), compared to that of the Philippines, which is just 40 percent. The same *Factbook* marks “NA” (not available) Egypt's poverty level, but it puts Egypt's per capita gross domestic product (GDP) even lower than that of the Philippines—\$3,600 for Egypt and \$4,600 for the Philippines based on purchasing power parity.

Further, Mr. de Soto was the “personal representative and chief principal adviser” of Peruvian President Alberto Fujimori, who has fled to Japan to escape prosecution on formal charges of murder, bribery and plunder of the government treasury. The Fujimori administration in Peru is considered one of the most corrupt in Latin-American history. If you are chief adviser to a brazenly corrupt government, what does that make you?

What is de Soto selling? In his book, *The Mystery of Capital, Why Capitalism Triumphs in the West and Fails Everywhere Else*, he wrote, “Legal property gave the West the tools to produce surplus value [capital] over and above its physical assets.” Thus, de Soto claims, if only property, especially land, are titled, poverty would be wiped out.” “All people,” he says, “are capable of saving. What they are missing are the legally integrated property systems that can convert their work and savings into capital. **[H: Enter now all those FDN land holdings after years of scattered graft, corruption and false titles issued**

at random.] In this context, the poor are not the problem but the solution.” (No wonder, he created more poor people in Peru to provide the “solution” to poverty.)

In his book, de Soto suggests that squatters should be given title to the land they have squatted upon, so that they could mortgage those lands, and with the loans become entrepreneurs or capitalists. This is similar to the proposal now pending in our Congress, which de Soto probably initiated, to allow land-reform beneficiaries to sell or mortgage their land holdings so that with the money they could go into business. This sounds good in theory, but in practice it is disastrous. The farmers could only end up losing their lands and become again landless peasants, starting anew the cycle of agrarian unrest.

As for the urban squatters, everybody knows that almost all of them squat on already privately titled property. Others settle precariously on riverbanks or creeks (*esteros*) that certainly cannot be titled as they are lands of the public domain. Squatters’ lots are the sizes of postage stamps. What stupid businessman or bank would advance money for such properties? In our country, practically all agricultural lands have already been titled and that is the reason the Philippine government has enacted the agrarian-reform law in the first place. Squatters in the countryside occupy forest reservations and ancestral lands, which only cause more environment degradation and land conflicts.

As Fujimori’s chief adviser, de Soto gave land titles to 1,200,000 families in Peru, but look where Peru still is—54 percent of its people are still below poverty line!

Mr. de Soto challenges conventional thought about the origin of capitalism, branding it as a myth. He uses the history of the United States as an example, claiming that the titling of the public lands settled by the American pioneers was the basis of America’s wealth. But rural America was a marginal America, while industrialized America is rich America.

“The secret of this transformation to a new America was, of course, the industrial revolution, essential characteristics of which were the shift from hand to machine production and the movement of manufacturing from the home or small shop to the factory. Gaining its first impetus from the closing of European trade during the era of the embargo and Non-Intercourse Act and the War of 1812, the Industrial Revolution developed in the succeeding decades through the expansion of domestic markets, the improvement of transportation facilities and the aid of a protective tariff.” (*American Political and Social History*, a college textbook by Harold Underwood Faulkner of Smith College.)

“It was the development of the steam engine during the 18th century that irreversibly set capitalism on the path to growth. Industrialism came to be synonymous with capitalism,” says *The Oxford Companion to Politics of the World*, edited by Joel Kreiger.

In reality, swallowing de Soto’s simplistic prescription that property titling is the key to economic success, our bureaucrats/technocrats/leaders forget that land titling has been practiced in the Philippines since the beginning of Spanish rule in the 16th century through the imposition of the Spanish land grants. The royal land grants to friars, Church organizations and favored Spanish citizens, mostly Spaniards, gave rise to the infamous *ecomiendas* that have been the source of innumerable native peasant revolts from the Spanish rule to the present, such as the recent Hacienda Luisita strike in which seven farmers/workers were shot to death.

King Philip II of Spain, in the Laws of the Indies

promulgated in 1680 and applied to the Philippines, had proclaimed. “We have acquired full sovereignty over the Indies and all lands, territories and possessions not theretofore ceded away by our royal predecessors, or by us, or in our name, still pertaining to the royal crown and patrimony, it is our will that all lands which are held without proper and true deeds of grant be restored us according as they belong to us...” What more pervasive land titling could you find?

The United States has pledged to honor the Spanish royal land grants that dispossessed the Filipinos of their natural right to the land of their birth, in the Treaty of Paris in which Spain ceded the 7,100 Philippine islands and all their 10 million native inhabitants to the U.S. for \$20,000. Under the Torrens system and other land registration laws during the American occupation, American citizens and multinationals also acquired huge estates and other plantations for sugar, pineapple and banana. The choicest lands went to foreigners, while the Filipino natives had to make do with homesteads cleared from the mountains and inclining patches along riverbanks. Thus they are easy prey to floods and landslides during typhoons as what happened in Quezon and surrounding provinces only last week when hundreds died.

What is downright insidious about the de Soto prescription is that it locks the Philippines to the feudal economic system, through its pseudo interpretation of history. It conceals the fact that capitalism is synonymous with industrialization. Industries and the commerce they spawn, even if they initially concentrate on the local market as what happened in the U.S. and Southeast Asia, would provide ample income to Filipinos and eventually provide them with the skills and experience necessary to compete with more advanced countries. This is the experience of China, Malaysia, Singapore, Korea, Taiwan, Hong Kong and other Asian tigers. We don’t have to go to the other side of the world to look for development models, especially if they are demonstrated failures. The successful models are right next door.

A knowledgeable journalist, Erick San Juan, who had covered the Philippine delegation to the latest APEC meeting in Chile, said that the South American officials and journalists he talked with were skeptical over de Soto’s economic theories. They told him that if de Soto’s theories were valid, they would have been adopted by the Latin-American countries and not only by Peru, his home country, where evidently it was a failure.

The Philippines is doomed if it continues to listen to “voodoo economics,” such as that preached by the international criminal Fujimori’s chief adviser, de Soto of Peru.

[END OF ARTICLE]

* * *

When we look at the above we find so many incorrect assumptions and assessments as to be quite staggering but sprinkled with some tid-bits of truth along the fall-out zone.

We find that when again looking at the Peruvian position in, say, the Herman Bonus 3392-181 we need to present more information which is overlooked by most of you even though we have publicly presented it prior to now.

In speaking of these things again I am NOT going to give a full item by item reference but only focus on a couple of things of which we have PROOF and full realization.

There existed a Bonus Peruvian Certificate of the “Bearer” variety and it was held by one Russell

Herman and being utilized by his partner-BOSS, George Bush, *et al.*

He, being intelligent, took the thing, founded and created a corporation, Cosmos Seafood Energy Marketing Ltd., to house and hold the instrument as it was then turned into a reconformed, reconfirmed contract of identifiable ownership. That would be in CSEML.

Next came VK Durham to manipulate and tamper the ownership of such a document. She claimed some interest and went to the Peruvian Embassy in California and did all sorts of changes, writings and fiddling while she attempted to burn the past from the records.

No, it doesn’t fly. Moreover, we KNOW the name of the party at the Consulate who did the jurat, etc.

Over the years when some of “our” parties were on site and involved it was noted that when Russell died VK was instantly in touch with her person in Peru. Moreover, that information was then later handed to third parties, with name and contact numbers which were to be notified INSTANTLY should Ms. Durham find demise instead of success. We will not go search the names but they are prominent on documents from the Peruvian Embassy. This was when Ms. Durham did attempt full theft of the assets with all interest accrued. She then attempted fraudulent filing of more documents, which entangled her into such a morass of intrigue as to be quite astounding.

The Peruvian Embassy holding the instruments and documents was then threatened with fire in order to destroy the documents on this CSEML holding.

Fine, the Embassy sent the documents by armed courier to Lima where the documents were locked and SEALED.

Since Mr. de Soto was present with Fujimori at the time, IN LIMA, it is absurd to believe he knows nothing regarding the assets of CSEML and the full association of GAIA as presented over and over, openly for transparency, to the world.

Are YOU sure that YOU would want this job? I don’t think so as I can’t find anyone brave enough to stand against a threatening thug of the youthful variety. Well, perhaps the kids are more dangerous after all—especially when they are on a theft kick or are covering their tracks when caught in full-blown traps. So be it.

Breathe again more easily, Dharma, because I repeat: “Not even the ‘assignment’ has longer any meaning.” The documents in CSEML are not even important because we KNOW who holds them and she refuses to give them over to rightful owners/holders. We have the authorized recognition of the holdings of CSEML and the recorded, registered and recognized holding (SINCE 1985) OF CSEML.

Now next, we are finding ourselves fully incorporated in the U.S. with both the T-A FDN corp. prior to any registration in Manila AND we hold a Tallano Estate incorporation in the U.S. as proving our holding in the 50% of the “estate” itself. These were NOT secret undertakings as the corporations themselves were wanted by the very players involved right now, today.

We have recorded them with recognition of the “Ekkers” to avoid any possible impact of otherwise “manipulation capable” potential.

This is called assuming responsibility and accepting authority. So be it.

Please hold onto these writings for reference and legal support. Thank you.

Recent TA-FDN/GAIA Developments: 'Catch-Up'

11/29/04—#1 (18-105)

MON., Nov. 29, 2004 8:48 A.M. YR 18, DAY 105
Manila, Philippines

RE: MISCELLANEOUS REMINDERS—GCH/D

FALSE NEWS REPORTS

There will always be false news reports to trigger more unrest and chaos. These are often called "trial balloons". However, there is even MORE "cover-up" of actual things taking place and most especially, today, in Iraq. Therefore, you who hear reports of chemical-weapons use and cover-up of U.S. soldiers slain in certain locations; do not panic but wait and see what, if anything, comes of it. Be aware but do not get your horses out in front of the wagon to simply be over-run and trampled in the muck of disinformation.

Some of you readers have relatives and friends IN THAT WAR IN IRAQ. However, note that most of the atrocities are being perpetrated by the "coalition" troops and the U.S. has to then look for "false" incidents to justify the heinous strikes.

By the way, my friends, as long as there is a nation with insurgents you will NEVER be able to stop the atrocities. Those people consider that their very national homeland is being overrun and they are correct—for whatever reason given in the lies presented. War is NEVER reported for its true cause or "excuse"—either or both are invented distractions.

I am not here to give "revelation" about wars for NO WAR is of God. More especially despicable is the war excuse of "bad guys". You start the war—YOU ARE THE BAD GUY! Lying to selves makes you foolish, not "right".

T-A FDN (FDN)

This, of course, is more for my Manila team where action is appropriate but we are quite happy to share, as we move forward, with our remote friends and readers.

We need to explain the plethora of Public Notices as they get more and more mandatory because of all the spurious nonsense already presented and until something presented is "challenged", or there is a legal or public objection—the lie stands in court if the original claims are already public and are even more important if presented in courts of law.

Remember that there is no CASE if there is not a "Motion" for which there can be a "charge" and an action presented as a "cause" to the court MUST HAVE A REMEDY—in other words, simply complaining will hold no water for there has to be "a remedy" or the case itself will be dismissed and rightfully so. [The most common reason for courts to deny hearing cases is: "Failure to state a remedy upon which the court can act."]

Furthermore, entering papers with a court with erroneous information or spurious claims is simply to present the court with false information under the hope that a resolution will evolve under the shelter of the lies stated.

Now, what must be done in the FDN as Administrator of the assets, all inclusive, is to object,

counter, and yes, form some kind of "intervention" to present the parties to the court appropriately to have some kind of ruling.

However, a good alternative place to state TRUTH of circumstances is in PUBLIC NOTICES and if there is need for more local notices regarding "individuals", then they must be published.

You will find almost daily notices of companies and other parties disclaiming employees from further recognition as party to anything relative to the corporation or party in point. It is said that, for instance, the Administrator (court appointed) did, in fact, negate all claims of "holdings" or "position" of "Mr. Campos" AND DID RUN LEGAL NOTICES TO THAT DISSOLUTION OF AUTHORITY.

It was NEVER stated that Mr. Campos would have full and last authority even though he did manage to get an annotation as the involved party as the "personality" on "land titles" which now presents as a most spurious (fabricated) current claim of "irrevocable authority" and contract.

No, it could not be, for information used by the court is fraudulent in content—in whole. It basically is based on accompanying documents that "assume" court-appointed replacement of Julian Tallano over to R. Campos. THIS IS NOT AND NEVER HAS BEEN FACTUAL although there appears to be a case pending in a "silent court" without a judge on bench. This can easily be checked and the case negated with simple intervention where appropriate. It should cost nothing as the case itself is ongoing. It can be in the form of an objection from the FDN as "resolution" and can be signed after appropriate legal approval (or not) of the paperwork itself. Keep it simple and always as a REBUTTAL of fact in the face of spurious filings.

Let us NOT get carried away with a thousand years of Supreme Court involvement! It is not appropriate nor is it going to work out well. The FDN has full recognition and should simply state its FACTS and authority in the same measure in rebuttal to all ongoing court "stuff" based on fraudulent and spurious claims and that will include Julian Tallano. Legally, he is replaced by a fully qualified FOUNDATION bearing the court-ordered name and is fully registered and has been activated more than a year past with its annual submissions accomplished and registered. It shows that Julian Tallano was the authorized PRIOR court-appointed administrator and he is reflected in the fully established, under the law, FDN. He has no legal recourse for even though it was approximately 30 years of having not followed court orders it is fact that the orders were not subject to "time limitations" as the case would remain in force until ALL orders were executed according to the "imprescriptible" clause in the orders.

Those orders are now being followed and, since an inventory of assets relative to those ORDERS is pending and is REQUIRED by law and is referenced to and by the SEC, it is mandatory to attend the matter.

It will suffice with the SEC to have a legal statement as to being unable to obtain prior records and activities and therefore the FDN will seek legal enforcement of those orders with the "expectation" and "actionable petition" to the SEC for "actionable claim" in order to

legally show cause why reports and accounting requirements are not and cannot be made.

We hold the causes for court action as to documentation which is necessary to determine the facts at issue; however, there must be an accounting of all agreements, authorities and ongoing representations along with the monetary transactions WITH FULL ACCOUNTING of manipulation and actual fraud, wasting and theft from/to the PEOPLE OF THE PHILIPPINES who are assigned, BY LAW, 50% of the whole of the assets stemming from the original parties involved—Tallano-Acop.

Yes, I can example:

BONUS 3392-181

VK Durham continues to make incredible claims regarding a "Trust" WHICH DID NOT EVER EXIST. Her claims are fraudulent and spurious and spewing the lie continuously will not save her "assets". She KNOWS she is in violation and can't even rely on "but I thought". No, she knows the truth and screaming the lie is assumed to finally replace the facts. NO, NOT IN "THIS" CASE, GOOD PEOPLE. All the blathering and lies conjured cannot negate the FACT that all of the asset was put into identifiable "ownership" of Cosmos Seafood Energy Marketing Ltd. (CSEML) BY RUSSELL HERMAN IN 1985. That corporation is in good standing, fully qualified since 1985 and current in all certification and regulatory requirements. VK DURHAM UNDER "NO" CIRCUMSTANCES HAS ANY STANDING IN THE CORPORATION AND COULD NOT "RETIRE" IT OR ANYTHING ELSE LEGALLY ESTABLISHED INTO SOME IDIOTIC "CLAIMED TRUST". These records can easily be found right on the Nevada internet for incorporation data or directly through the Secretary of State of Nevada. Yes indeed, this is the SAME corporation tampered with prior to current control and from which "high-treason" games were attempted by no less than former President of the U.S., George H. W. Bush Sr. and his merry band of cabinet members and manipulators through the then Nevada Secretary of State, Frankie Sue Del Pappa. Those references you can look up in Lt. Col. (Ret.) Al Martin's book on conspiracies and other indiscretions of the "Bush babies". You will find references to the "Bonus 3392-181" but it will reflect incorrect information in that it was presented that Russell Herman was agent "Durham". Total BS!

Next you might want to recognize that there is not some noted 3392-181 as on the face of the original certificate always touted to be "in color". "181" is identification of the "series" of those particular instruments (certificates) and specifically 3392 is the NUMBER, which is truly a "different" category in itself, having been "qualified" as a special "bonus" certificate to have allowance for validating authentically its "special" handling.

We know that to be TRUE because the Canadian, Mr. Hugh Hale, when in Southeast Asia did come to realize that many of these old certificates were actually being traded "in" and purchased by the IMF. So directly to the IMF we went and had quite a revealing discourse with a major officer-agent of the IMF. This man was at the moment in Kansas, USA but took all the information FROM US and turned it into the IMF for "handling". Back he came in a few days and said it was an authentic claim and document but IT WAS DIFFERENT and it could not be handled as the other routine purchases. That did NOT consider dear Ms. Durham.

I will repeat here: When Ms. Durham makes outrageous claims and thus and so—it doesn't matter a whit for again I repeat: It does not matter other than that she is criminally holding corporate records and items

which belong to CSEML. Further, however, the holdings are not being utilized “in full” but rather have a cap on the value to be matched with available gold suitable for collateral coverage to PREVENT collapse of currencies and facilitate recovery of stolen assets of bullion, etc.

And YES, this is the basis upon which we have built the entire program and thus can work with ANYONE on same. However, we have NO CONTROL over political games as are underway and cannot control graft, corruption or criminal actions of politicians or within the COURTS. If we are to evolve in a proper way (which is the ONLY way we will evolve) it will be properly done up through the corruption INTO POTENTIAL STABILITY.

Now, and this is more for the Ekker team: We will need to now address our appropriate percentage of representation in the FDN—which must be calculated with at least 40% in the 50% “People’s” holdings AND THE ESTATE 50% as can easily be reflected in Nevada records and on the formation papers attested to by no less than Julian Tallano as to the Estate Corp. already founded prior to the FDN itself. Therefore on any “Board”, i.e., FDN Trustees, we have a right to establish and demand at least 4 members in the 11-member registered number of Trustees. This means that we CANNOT be “voted off” the Board nor can we be longer subject to manipulated “quorum” requirements. Those must be addressed at the next meeting. We are not going to dangle in the wind—or we will cut the strings and regroup under the law.

Note that I insist, further, that Cenon Marcos be “our” personal representative, which likewise MAY NOT BE REMOVED. His position as Secretary insures valid “minutes” and meeting reports. We WANT the name MARCOS fully recognized as the global recognition it infers. Therefore, in every public notice or public reference it will be HIS signature we will honor and recognize FIRST. The others can play all they wish but will STOP being able to bring everything to a halt and continue to simply kibitz over status, position and/or quorum manipulation. That game is OVER and if it requires a full “membership” special meeting to make adjustments—see to it, please.

Yes, we DO hold the authority to do this and I will not go into it herein.

It is probably time to put to PN the structure in both the U.S. AND IN THE PHILIPPINES, the standing incorporation records, Foundation or otherwise. I will herein ask any curious parties to take your magnifying glass and refer to the first page of the documents last run (for three times) in the paper—and note the reference to the “Estate” and its address as given in NEVADA. There it is all nicely documented, registered and attested to by the very objectors themselves in establishing the Foundation in point. That also QUALIFIES more than INTENT in the matters of the “Estate” portion of the assets and responsibility of attending same and allows a DEMAND for accounting and estate RECORDS. But, one step at a time and this is for “information” rather than accusations by “objecting” parties.

That information was present in the founding documents at the time and therefore attested to by the other parties to the Foundation founding, i.e., those who now wish to dissolve the established FDN. Yes, friends, it is so. We have learned to document and REGISTER every notice and important document to avoid the liars and quibblers.

I can guarantee that CONTACT is a more read (in the Philippines among the parties that “count”) publication than any other papers containing any information about either GAIA or the FDN. So it is of International importance while we will also make Public any Notices appropriate to this local location. This continues to be NECESSARY due to the adversarial and fraudulent claims and accusations by said VK Durham to which we

refuse any connection whatsoever. Our witnesses, however, are perfectly willing to testify in a court of law should that become appropriate. An affidavit, however, serves nicely because of the holding itself no longer having any basis for need of prior documents, deliberately withheld by criminal refusal to turn over said documents (or the destruction thereof) by one VK Durham or any of her associates or business colleagues or publishers; Internet or Press. Those distributors of spurious material are guilty of fraud and aiding and abetting criminal activities. Also recognized, as the sums of the fraud have moved into the Trillions of Dollars, this is Interstate Felony Fraud and Mail Fraud (also a felony), Felony Intent to Defraud, and for the other perpetrator-colleagues, harboring criminal activities, Misprision of Felony and so many personal actions as to be staggering in personal damages, corporate damages, interference with business and libelous representations in fraudulent publication of deliberately erroneous claims.

VK Durham’s actions have gone on to involve other parties such as Illinois Power and other individual business associates (involving trillions of dollars) and in the case of Illinois Power a claim for multi-BILLIONS of dollars she claims due and owing to her personally. So be it. We have NO ASSOCIATION and her continued-continuing publications have absolutely no merit, truth or association. We are THE recognized legal controllers of CSEML and those are the FACTS. There IS NO Durham Trust of ANY KIND and never was there any such entity. It is NOT our problem to sort nor inform the world further than publicly stating the facts to shelter from our own position of possible Misprision of Felony.

If anyone wishes to work with VK Durham and can get it qualified by the U.S. Treasury Department or any lawful person to the facts, i.e. President Bush himself, it will still have to “clear” through this routing and what is done is their business and none of ours. Their claims are fraudulent but we cannot control another’s intent on committing that fraud.

If there was a Russell Herrman, Herrmann, Hermann, then it may well be attached to a VK Durham for we have no documentation to same. All interchange or assignments or corporate documentations and proof of identification (passports, etc.) and any records of reference reflect Russell H E R M A N. THIS INCLUDES INCORPORATION RECORDS FOR CSEML, assignments relative to our holdings, personal claims by the party prior to his death and these other entities are totally unrecognized. Signatures were fraudulently used FROM OUR DOCUMENTS and attached to spurious claims and assignments of the corporation itself—to VK Durham—ALL done **by** VK Durham.

The President of the Philippines recognizes this resource, now, and has followed up in exchange with no less than George Dubya Bush as a dinner mate in Chile at last week’s meeting of APEC.

In addition to this, Ms. President also followed up on checking out authenticity in PERU as to such a holding and has, IN FACT, HIRED A TOP-PERUVIAN ECONOMIST TO BE HER CLOSEST ECONOMIC ADVISER—IN MANILA.

Scuttlebutt has already rumored a use of GAIA through those “Jewish people, the Ekkers” and we have all enjoyed a good laugh at the now disclaiming value of being “False Muslims” as touted by VK. That also discounts a “Cosmic Cult” of some silly kind or other.

Will it all work out ultimately? Yes, when it is properly sequenced and secured and if not, so be it. We continue to gain full qualification, NOW, of management of the FDN because each needs the other to have unquestioned position.

The dollar is collapsing, in case no one of you has noticed. This is past “get serious” time so please allow us to gain all the sheltering necessary to protect in the

U.S. and abroad all POSITIONS so that management takes a logical flow-line within all laws and guidelines. We have established fully qualified MOAs (Memorandum of Agreement) and full demand that anyone doing business with us, bank or otherwise, must get full authorization “in advance of use” by any third party, i.e., Banks, Bankers, Businesses, etc. There have been NO ACTIVITIES AT ALL TO THIS DATE AND TIME.

Our full interest in FDN gold holdings is within the CENTRAL BANK and does not have reference to the Bangko Sentral ng Pilipinas, established by Mr. Ramos in 1993. The BSP, however, is fully responsible for all assets of the Central Bank prior to that privatization of the Central Bank. It is, further, long past time for an accounting of Ferdinand Marcos, *et al.* The assets of Mr. Marcos are ordered to be “recovered” or accounted BY THE FDN and, like it or not, we have to “try” to assist in this matter.

I do not wish to go further with this writing but it is good to keep abreast to any extent possible in sharing both for the publicity and the open management or intentions of our involved entities. We will expose the lies and we will present the truth where found.

GOD sustains if we “maintain” in honorable service and purpose. Therefore, let us always check our intentions and balance within PURPOSE so that right actions are always the result of any choice of direction or encounter.

If you think this is some easy, too long patient type of activity, I suggest you look to any accomplishment, loan or business activity you have personally encountered. If it took you three times as long as you thought necessary—you will get my point. Changing a WORLD is a somewhat larger task, thank you for inquiring (or complaining as the case is). GOD DOES NOT DO IT “FOR” YOU! Check out your own intentions and exactly what it TRULY is that you wish to accomplish—the answer to self might well be quite “interesting” but you can’t fool God, my friends.

We accomplished so much more than a typical meeting on Saturday last; we made legal proof of mishandling prior to now in FDN matters and that was to THE Judge who handled the case prior to now. Not shabby. Not shabby at all. We just keep plodding along while trying to also handle those things that happen in LIFE while every other plan is ignored in the flow-line.

To you who “have taken a break” away: WE HAVEN’T, and therein is the reason we make progress so please be patient and pleasant with those of us struggling along this untrodden pathway. We certainly have had no break today or yesterday, nor do we expect one tomorrow. Those who would help will do so; those who won’t, won’t. What IS, is all that is with which to work or upon which to base hope. We will certainly always know that we learn a lot about what “is” and who “is” at this time of year in confusion of celebrations. Most just give up and play Santa Claws and pass on by...! The hungry will be no less hungry on Christmas so expect no more, please. Lie to self in this material matter and it is your conscience under attack in any circumstance. Praying won’t help if you DON’T ACT. How many bridges ever got built by talking or prayer—without someone with hands on—building? That’s right—NONE!

Thank you for sharing a few minutes and I’ll leave some of you with a thought of the day: Sometimes reclaiming someone is far shorter in time and better in the longer-term than training someone new, especially when there is no trainer around to do the job. This is a very good consideration in moving past the Holidays and into the NEW YEAR.

The Sacred Hill Within

Chapter 2: God & Faith

12/6/04—#1 (18-112)

MON., Dec. 6, 2004 2:19 P.M. YR 18, DAY 112

Manila, Philippines

RE: *THE SACRED HILL WITHIN*, LITTLE CROW, chap. 2—GCH/D

* * *

WHEN THE QUESTIONS ARISE— THINK

Will some God somewhere scoop the mud off your fallen body? No, if it is lifted from you then it will be through human hands that the task is performed. Ah BUT, God may well send the “hands”.

You want specifics because the world of what IS is not that which is fed to you by the wagonload. Well, MAN is good at one thing above all—lying! Until the lie in point is stopped and Truth presented, you cannot function in Truth. These are just the facts!

Go back, therefore, to where truth is shared. Go BACK to the reality of life itself in all the wondrous REASON that God provides Creation. It is NOT what is dumped into your heads, bowed or otherwise, on a trek through the temple—any temple.

Let us share another step on the path of Truth and recognize RESPONSIBILITY instead of more confusion factors.

[QUOTING *THE SACRED HILL WITHIN*, Little Crow, Chapter 2:]

GOD AND FAITH

“You are of God and God is of you. The existence of God is only possible by your existence. The maximum power of God at any one time is in direct ratio to the number who have accepted the responsibility of living within this concept. There was no beginning and there is no end. We (GOD) have always been and will be forever.”

When we consider human history, we often hear and read stories about how we were created, about the fact that we were created as opposed to having evolved. If, indeed, there is anything to the theory of evolution, when did man become separated from that process? What made us special? Perhaps we were needy and, being needy, we had to create some story, some myth that would set us apart from the plants and animals, separate us from the evolutionary process. In that need, we created an idea of God. We created a God out of our own need.

The Lakota people, in some of their stories, tell of a time before we were flesh. One doesn’t often read or hear that in other places. There is an account which tells of angels being cast out of heaven and of

human beings cast out of a garden, but my Oral Tradition talks about a time before we were flesh, when we were spirit and had the ability to do all things—to change our shapes, communicate, go and come as we pleased. We had all the abilities which we now attribute to God. Perhaps we had a need then, as those people below the Earth before we were flesh, to develop the idea that we were what God is perceived to be. We were energy and that energy had the capacity to be anything it chose. It was all things, so we were all things. It didn’t require a building or a monument. It didn’t require layers of bureaucracy, hierarchies or a class structure. It didn’t need to be induced through the use of mind-altering, spirit-pounding drugs. It simply required faith. God is a matter of faith, dependent upon your need as a human being. Whatever you need it to be is how God becomes determinant in your life. If you don’t believe in God then that is honorable too, because you are sacred. You are what your faith determines, not faith as construed by others, but the faith constructed within you.

It is doubtful that we can come together as a group of more than two and agree on what God is. We become very unimaginative. We are undisciplined and we lose faith because we want guidelines and formulations. We are looking for a guarantee that my God is better than yours or my God is the right God and yours is wrong. Whatever God is to you is right. Whatever you perceive God or a higher power to be is right; it is correct; it is yours. It isn’t necessarily mine or the person’s on the other side of the street, but that is okay. It isn’t necessary for all of us to see God in the same way. When we think we must all see God in the same way, we have religious wars and ethnic cleansing. Eliminating the questions about God alleviates the arguments over who is correct and who is not, who is superior and who is inferior, about what is right and wrong. The question is not whether there is a God or whose God is the right God; the question is whether or not each of us is willing to take the responsibility of believing there is a God and then have the faith to live our lives according to how we believe God would live. We need to live how we believe God would live, not how we think God wants us to live. Contrary to popular opinion, God is not concerned with whether we live or not. That is up to us. Breathing is our responsibility, not God’s. The minute we stop breathing, we are on our way out of here.

God is a matter of faith, dependent upon our need. Psychologists today tell us not to be needy. They say it’s okay to want or desire something, but not to need something. Our faith is predicated on our need, so are the psychologists in league with the devil, trying to disavow us of our need, our only connecting link to the Mother-Father Creator? Perhaps they are trying to

eliminate our need by putting it on a “higher level” such as I “want”. God is my life. If you really want God in your life, stand in front of the mirror and take a deep breath and you can see God at work. The only thing that we lack is the accountability and responsibility of accepting God and having faith in it.

There is a passage in the red book (*From the Gathering: The Wisdom of Little Crow* (Fountain Valley, One World Publishing, 1993), that says, “*There is going to be no supreme race, no supreme people, no supreme beings. Everybody is going to have to take the responsibility and seven generations from now we’ll say to God, Tunkashila, Umdogee, Wakan Tanka, ‘Here’s what you dreamt of. This is a dream you gave us as human beings when you created us in this universe. Here it is, right here where you put us to fulfill it. Here’s our dream to you. Happy Birthday.’ And God will say, ‘Why did you do all this?’ And we’ll say, ‘For all our relations.’*”

There are no supreme beings, no supreme races, there is nothing superior to you nor are you superior to anything else because everything is sacred, everything is part of creation. There is no object, thing, act, person, or religion that is better than any other. No one is more spiritual, more religious, more saved, less saved, more sinful, less sinful than anyone else. No one can buy God. No one can buy indulgences or salvation, nor can anyone take retribution or revenge because each of us is God. We are God according to our need. We just have to be accountable to live as we believe God would live.

Have you ever wondered why there are fleas? Someone asked me that the other day and I decided that person didn’t have enough to do if they had time to sit around and wonder why fleas exist. But think about it: if everything is sacred and we are not to kill indiscriminately, why do we have fleas? They exist to deep dogs busy so they don’t chew the furniture or wear a path in the yard, so they will bite themselves, chase their tails, scratch and kick, roll in the dirt, jump in the water or do whatever else it takes to find relief. If we watch the dogs, the four legged, we see ourselves doing exactly the same thing. Fleas might represent an unwanted relationship and we scratch, kick and bite trying to get rid of it like a dog trying to get rid of fleas. Like the fleas, everyone in our lives is there to give us something to do. If they are sick, down and out, depressed, hungry or sad, it gives us something to do trying to help them. Otherwise, we might not be doing anything except sitting around on our butts. By the same token, we are wherever we are, doing whatever we are doing so someone else will have something to do. Someone else can love us or hate us. Someone else can love and hate us at the same time. Someone else can ridicule or hurt us. Someone else can help us. Each of us is on this Earth, part of the puzzle, so that we will have something to do—to consider helping our relatives and to think about those who will come after us. I do not know for certain if there is a heaven or not; I have the faith to do for you what you need me to do, if I can, and to be accountable for it, to be accountable for the God self that dwells within.

[H: Could it be possible that there are fleas,

especially on your dog or cat, so that YOU can find a way to give relief to YOUR pet by figuring a way to get rid of those nasty fleas, hopefully before they start chewing on YOU. Fleas entered the created world without blood-sucking but once established that it pays a flea to be a parasite on living “things”, they grew and prospered until they could no longer survive without a “host” to provide blood and sustenance. Have YOU not learned over the generations to do the same thing without thought or favor? You don’t need to kill cows, for instance, for your living needs—even mad ones or especially mad ones—but you may well need to get rid of the fleas that chew on the cows or the bats that feed on the cows to keep your own lives functional and beyond “madness”. Can you understand, therefore, that fleas or YOU are not “God’s FAULT”? as if someone to blame for your own lack of responsibility? If you want to get rid of pests and non-wanted things—YOU MUST “DO” SOMETHING TOWARD THAT END. I can think of almost infinite things to do with the “flea” and the topic thereof so cannot you think of even one?

Let us further consider the tiny mosquito and what it could possibly be worth. To WHOM does it have worth? For starters, to the chemical industry and drug houses who build whole wealth systems just around the “blood sucking” disease provided by those tiny flying annoyances. Take it from there, please, and consider new careers for self and offspring. And then, move on DOWN the line to the microbes—WOW AND OH WOW!]

Separation from the concept of God has become the reality of the human condition. We think of God as separate, as outside of ourselves in some other universe or dimension.

We have removed ourselves from the source of all things and, as a consequence, we are left struggling and blinded. We can see daily examples of our separation from God in the newspaper accounts of child abuse, rape, murder and other terrible things that people do to one another. Many of us want to know why things like that happen and we often hear people wonder how God can let those things occur. We live in a world of balance and duality so the question is, why wouldn’t they happen? Someone made a decision to do those terrible things and why they do them is irrelevant. The fact is, they happen. It isn’t God that makes or lets them happen. It isn’t some outside force that creates those events. God, Allah, Buddha, has nothing to do with it. A human being makes the decision to do those things to another human being. It is a matter of choice. It doesn’t matter how badly those people might have been abused in their lives or what has been done to them; they still have a choice. Each and every one of us has a choice and that choice isn’t predicated on what has happened to us in the past. There are no excuses, there is no one to blame but ourselves. We, and only we, are responsible and accountable for the choices we make. We are all accountable for recognizing the God within each of us and living our lives accordingly.

When I grew up—I was born in 1933—my role models didn’t look like me. There were posters of successful people, role models, on the walls of my school and none of them looked like I did. I saw those images as representing what America was about, what goodness and happiness was about, what life was SUPPOSED to be. When I went into the military and traveled to different countries, I saw life wasn’t like what I had been taught to believe it was back in grade school. In truth, I had realized that earlier when, as a senior in high school, I was verbally, psychologically, and emotionally abused by several of my teachers for being racially and ethnically different. Later in life, after getting people who were committing the crimes, particularly the white collar crimes—the people who did the inside trading, the thieving and fraudulent rip-offs—looked like the people in those posters on the walls of my grade school. They represented America and those things that I held to be sacred and dear—my dream. I had tried looking like them, even to the point of wearing a suit and becoming part of the status quo, the mainstream, but I became disillusioned. I decided they were criminals and I went about trying to destroy them by putting them in jail. I thought they deserved to do time for their crimes against my dream, the crimes that destroyed the dreams that I’d had as a young man about what a beautiful, wonderful, hopeful world it would be. Then I sobered up and discovered that sobriety equated to just one thing, self love. If I could love myself unconditionally, I could muster the faith to believe that God created me in fairness and equality, not with two strikes against me but to be who and what I was and am. If we can love ourselves unconditionally, we can have the faith to believe that God dwells within us and all we have to do is be accountable for it. Take the accountability and maintain the faith.

Remember the old slogan from the ’60s? “Keep the faith, baby.” Keep the faith. Faith is power in its simplest form. Faith holds the universe together. God isn’t about redemption and salvation or damnation, it’s about faith. It’s about you, your need, what you need God to be. In that need then, your actions and responses to the needs of your fellow human beings will not be based on their color, size, weight, or their economic or social status, but on the fact of their relationship to you as a human being.

According to my stories, the Mother-Father Creator is simply everything and everywhere. We are all from the same source. We are that source. We are of God and God is of us. Everything that exists outside of us exists within us. We seek outside of ourselves that which has always been within. We are the God we seek. We are responsible; we are connected; we are accountable. And when the Creator asks at that time why we did this, we will answer, “Not for ourselves but for all our relations.”

* * *

As we turn from Little Crow and again into the hyper-foolishness of “presumed reality”, which is NOT, I am interested at the arguments you offer in behalf of your own dead and irrational assumptions. Examples: “A SAVIOR IS BORN...”; “Christmas is on December 25th...”. All other religions have different days of celebration of their own particular

GOD of “non-reality”. ALL ARE MANMADE FABRICATIONS DEVELOPED TO FOOL YOU THE PEOPLE—ALL THE TIME, HOPEFULLY.

Let us consider that particular focus of “Christmas” since the season is upon us. Well, for first consideration on your part, that Jesus you proclaim for celebration of nativity, was actually born (historically presented) in the area of the “Holy-Land” (which isn’t) on AUGUST 8th (9th in Southeast Asia). What year? Wow, who cares? It was a very, very long time ago in your presentation of calendars where you have even those so botched as to accuracy as to be totally entertaining.

Different people celebrate the New Moon, the Full Moon, the absent moon and so on down the line from worshiping rats, monkeys and elephants to blaming some poor old “proclaimed” (but not by themselves) chosen victims to be your prophets where everyone writes the prophecies except the one you “blame”. And moreover: YOU MAKE THEM INTO THE IMAGE OF YOURSELF—NOT GOD.

Why would you do this? Because you do not want RESPONSIBILITY even for YOURSELF! That should read “especially for yourself”. It is almost a relief when someone says, “tell me what to do...” because I “don’t want the responsibility of a decision to...”, etc. When we do not DEPEND on other than non-acceptance of original, or even assigned, responsibility we can at the least go forward and function under our own assumption of responsibility in a given circumstance which INVOLVES OUR OWN PROGRAMS OR CIRCUMSTANCES. If it matters not, then why concern?

Why would “I” take responsibility? Because YOU DON’T! It is no bigger nor lesser! So, yes, right here at the holidays, no less, I WILL TAKE RESPONSIBILITY FOR THAT WHICH TOTALLY INFLUENCES THAT WHICH IS “OURS” TO CONSIDER AND THEN, YES INDEED, I WILL ASK YOU TO DISCERN AND IN SOME INSTANCES TO MAKE IT SO.

Because of those necessities of being required to intervene, I will leave this and ask your patience while we put out some fires in the windsocks. For goodness sakes, hold steady until you can allow WISDOM to infiltrate a circumstance. Most of the problems are already so old as to be out dated so why panic NOW?

I do want you to have a MERRY CHRISTMAS and I want you to please TRY (but it is not expected) to love one another and even take a bit of responsibility for at least the indisposed. We are going to enter a NEW YEAR in a few days and let me be the first to wonder what in the world YOU are doing. I know that which I shall be doing!

We are offering the WORLD better ways of existing and solutions to overwhelming confrontations. So be it. We have ALREADY “OFFERED” and thus far, nobody bothers to settle down to give it life—just quarrel over who gets MOST.

May you experience in balance within reason and beyond all, LOVE. May your holidays be filled with that which is goodly within self and it shall be reflected without self!

DAD

The Mystery Of Satan & The Devil (Part Two)

As we continue the outlay of this information, we find it necessary to remind our readers that discernment is necessary if you are to extract what is valid from this presentation and toss the garbage.

There is a vast distinction to be made between Jews and Zionists (Bohemians, Neocons) for instance, but that is for the goodly Jewish people themselves to set to right. And so they are doing, as evidenced by the image on this page, an advertisement sponsored by "Jews Against Zionism". With that disclaimer, let us continue:

Irrespective of whether or not a Jew in Christendom is Sephardic or Ashkenazim-Khazar all of them claim descent from the Jews in the *New Testament* who were enemies of Jesus Christ (Yahshua) and His disciples, and who murdered all of them. Those anti-Christ (anti-Messiah, anti-anointed One) Jews were of one recognized group. Their descendants today have never lost their identity. As a racial body, they know they are the same people who gave Jesus Christ (Yahshua) all the trouble. The average Christian will also know these facts, if they ever wake up to the truth. Therefore, observe! In *Matt. 3:7; 12:34; 23:33* and *Luke 3:7* Jesus Christ (Yahshua) and John the Baptist accuse them of being a generation (race) of vipers. *Gennema* is Greek for the word "generation". It means, a progeny, or descendant in a continuous line. Viper, is *echidna*, a female viper. According to Assyrian records now in the British Museum, London, England that female viper was Ishtar, the daughter of Akki, the water-god of lustration.

Now "Akki" is what Christians know as Lucifer, Satan or the Devil, and the Akki, father of Ishtar, was the Serpent in *Gen. 3*, who, according to the Sethite Enoch in his *Book of Enoch*, was called Azazel. He is the "scapegoat" of *Lev. 16:8* which says: "And Aaron shall cast lots upon the two goats; one lot for the Lord, and the other for the scapegoat."

The word "scapegoat" is *AZAZEL*, in Hebraic. The word "cast" is *nathan*, appoint. Upon is *al pene*, in the face of. Lot is *goral*, lot as the fate of one on whom falls the will of God.

The scene in *Lev. 16* took place after God (Yahweh) appointed our Israelite progenitors for His Kingdom on Earth. ... The goats symbolized that all non-Israelites are the goat-nations and Israel is Yahweh's sheep Nations. ... The goat set free for the scapegoat (not as one, but FOR him) symbolized God (Yahweh) offers no salvation for Azazel's race of Jews, inasmuch as in *Lev. 16:10* the word "be" is *amah*, confirm. Atonement, is *kaphar*, pitch as arranging one's fate. With, is *eth*, always. For is *bead*, in behalf of.

Therefore, Yahweh says: But the goat, on which the will of Yahweh fell, to confirm the Devil (Azazel), shall be presented alive before Yahweh, to make an

arrangement of his fate always, and to let him (the goat) go in behalf of a Devil (or one of Azazel's household).

In book III of this study we will present the entire record that shows Yahweh offers no salvation to Azazel's race of the Jews, whose human ancestral father (Cain) was Sargon, according to Assyrian records, who was adopted by Akki for Akki's own son. Cain married Ishtar, Akki's daughter, and sealed

Matt. 23:33, 35 and *Luke 11:51* prove Jewry is the progeny of Cain and Ishtar. The "Generation" in *Matt. 23:36* is *genea*, nation. The "damnation" in verse 33 is *krisis*, condemnation. The "hell" is Gehenna, the Valley of Hinnon immediately south of Jerusalem where the Cainite-Akkad-Amalek-Idumean mongrels murdered the children of Israel as sacrifices to Ishtar and Moloch, and Jewry cannot escape the condemnation.

Satan, as the Devil, has always been a Jew. In Book III of this study we will show the genealogical record of the Royal Satanic line from the current Devil to the Serpent of *Gen. 3*. Today, he is the Asiatic Turco-Mongol Jew, Prince Abdul Baraba Baha, the illegitimate son of the deposed Sultan of Turkey (Abdul Hamid II, deposed in 1909), born to a Jew whore in Mecca, Arabia in 1894. He exalted himself as Almighty God in 1928 while living in Iraq. Apparently he went to Moscow, Russia in 1943 in order to

proclaim "God" for Jewry in Russia by his Turco-Mongol kinsman Jew Joseph Vissarionvitch Djughashvili, alias Joseph Stalin and his Jew Cabal in the Kremlin of which Mr. James C. Hollenbeck alludes in his treatise, "Jesus Christ and Anti-Christ", in which he says: "Some time ago in a great gathering of the World Dignitaries and Diplomats in London, Mr. (Jew) Molotov arose and said to a tired group of statesmen from all the United Nations Organization, 'that there was not a statesman anywhere in the world that had the power or was capable of bringing PEACE TO THE WORLD', but Mr. Molotov continued, 'WE HAVE THAT MAN ... and WHEN THE HOUR HAS COME, HE WILL COME FORTH.'"

That "WE" is world Jewry, not the Russian people. That "MAN" is not Joseph Stalin or his successor. Instead, he is Prince Abdul Baraba Baha who was brought to these Christian United States of America in 1950 by Jew Owen Lattimore, and Jewry's Supreme Grand Orient Freemasonic Lodge of B'nai B'rith in New York City proclaimed him to be Jewry's god in the Western Hemisphere. He was then enshrined temporarily in John Hopkins University, Baltimore, Maryland under the alias of Diluwa Hutuktu. It is believed he is now in Asia or Russia waiting for B'nai B'rith to pull the last string taut in order for him to give the command to utterly cripple America by industrial strikes called by Jews in high places of labor unions, then force President Truman or his successor to declare the situation constitutes national emergency in which Jews will take control of the very heart beat of our Nation in the pretext of preventing anarchy and bloodshed—the victory of the proletariat. Yet the blue-print shows if that disaster cannot be created, then Prince Abdul Baraba Baha stands ready to command the Jews in the Kremlin to start dropping atomic bombs on America's cities in order to create an international emergency so he can come forth to be proclaimed god-emperor of the world for "miraculously" bringing the war to an end to prevent annihilation of man by telling Jewry the war has gone far enough.

In his book, *The Super Deceiver on the World Horizon*, Mr. James C. Hollenbeck says as early as 1929: "In connection with the building of the Temple of Solomon many world prominent Jewish people have already made a secret covenant with Prince Abdul Baraba Baha. They fully believe he is their Messiah

B4 SUNDAY, OCTOBER 5, 2003 THE WASHINGTON POST

ADVERTISEMENT ADVERTISEMENT

TORAH TRUE JEWS, INC.
September 21, 2003

DEAR HONORABLE PRESIDENT GEORGE W. BUSH,

We are writing to you because of your deep and abiding interest in the suffering of the peoples of the Middle East and your desire to finally bring an end to all the bloodshed and violence there. We pray for peace and brotherhood.

However, we would like to respectfully bring to your attention that although you are aware that there are many Jews who support the State of Israel, what you may not have heard about is that there is a silent majority of Jews opposed to Zionism who remain ignored by the media, and who remain steadfast in loyalty to the teachings of our rabbis that the ideology of Zionism is in utter opposition to our religion. For more information there are a number of websites on the Internet that discuss this subject, e.g. www.jewsagainstzionism.com, which we know you will find most interesting as it includes historical documents and photographs relating to the long-time opposition of revered rabbis to Zionism.

Ever since the destruction of the holy Temple in Jerusalem and the exile of the Jewish People some two thousand years ago, we have been enjoined to be scrupulously loyal to the countries we reside in, and never seek to undertake to establish independent sovereignty in the Holy Land or anywhere throughout the world. One of the great biblical prophets, Jeremiah, in chapter 29 of his book proclaimed G-d's message to all the exiled; verse seven reads, "Seek out the welfare of the city to which I have exiled you and pray for it to the Almighty, for through its welfare will you have welfare." This has been a cornerstone of Jewish morality throughout our history to this very day.

The Zionist movement rejects all of the fundamental principles of our Torah and rabbis. Jews do not need a state of their own. The very establishment of a "Jewish" state is a grave violation of Jewish tradition and law.

Therefore they don't represent the Jewish people in any way whatsoever. They have no right to speak in the name of the Jewish people. Therefore, their words, declarations and actions are not in any way representative of the Jewish people. We deplore acts and policies carried out by those who - misusing the name of Israel - have substituted the ideal of nationalism for the teachings of the holy Torah.

Therefore, Mr. President, it is of the utmost urgency that the State of Israel should not be referred as a Jewish State, but as the Zionist State. The foundation of its existence is not Judaism, but the Zionist ideology. We are extremely concerned that referring to it as a "Jewish" state endangers the welfare of Jews worldwide by linking Jews and Judaism to the actions of the Zionist State. The Zionist state with its supporters worldwide seeks to take all measures possible, including provoking hatred of Jews through Israeli policies, in order to convince Jews to move from their native countries to the State of Israel!! Indeed, hatred of Jews is the very lifeblood and oxygen of the Zionist movement and their state, which are stand in total opposition to Judaism.

Throughout history when persecution resulted in expulsions, there were always other nations who opened their doors to the Jews, and were blessed by G-d for doing so. We believe that our country would even welcome those Jews who would wish to leave the State of Israel, and bring great blessings onto the United States.

Your good intentions and kind consideration in relation to Jews is greatly appreciated, but we strongly believe that G-d's blessings upon the United States will grow if there is greater understanding and different policies in relation to this issue of the difference between Judaism and Zionism.

We await the days when all the world will recognize the sovereignty of the Creator, and the words of the prophet Isaiah will yet be fulfilled: "And they will beat their swords into plowshares and their spears into pruning hooks. No nation will lift its sword against any other, nor will they learn warfare anymore." We Remain, Yours very truly,

The Silent Majority American Jewry

the union in the ritual of the righthand shake, known as the Bel-pack. Bel, Beel, or Baal, are other names of the Devil. The son of Ishtar and Cain-Sargon was Marduk, the Enoch in *Gen. 4:17*. Cain founded the Akkad Dynasty in 3501 B.C. Akkadia was the Devil's Kingdom extending from the Tigris-Euphrates Rivers to the Indus River in the east.

and will set up temple worship and will rule from the city of Jerusalem.”

Without question, Prince Abdul Baraba Baha is the Gog in *Ezek.* 38 and 39 who the prophet says, in this era would be the chief prince of Meshech, Magog and Tubal. In the Hebraic “Gog” means high, mountain (mount), in which the word “high” is *al*, most high. Mountain (mount), is *rum*, exalt self. That word “chief” is *rosh*, ruler, and the “prince” is *nasi*, exalted. Meshech was the ancient name of Moscow; Magog was the ancient name of Russia, Mongolia, Manchuria and Siberia. Tubal was the ancient name of Tobolsk, Siberia. Thus Gog would exalt himself the most high god as the exalted ruler of Eurasia in the latter days, and Prince Abdul Baraba Baha has done that very thing. Moreover, he and world Jewry is the “he” in *Ezek.* 17:11-16 in who were the Cainite-Akkad mongrels who absorbed Esau to become the “Idumeans” of God’s curse in *Isa.* 34:5 out of whom came Prince Abdul Baraba Baha and Jewry today who have Eurasia in the palms of their hands to use and destroy God’s (Yahweh’s) Kingdom of Christian Israel.

Christians know the awfulness of intangible Satan, yet when realizing he is amidst us in tangible form, the awfulness is magnified to what it is. (The Jews are actually devils in shoe leather.) It is so awful it is similar to one being locked in a dark house with a sinister monster which at any moment may reach out and rend one from limb to limb. Jewry is that sinister skulking Beast. His presence in our racial House is the reason, and the only reason, there is spiritual and physical death amidst our people. Any old-fashioned Christian preacher knows the wages of sin is spiritual death. They know the awfulness of spiritual death, yet only a few know about the profound sinister forces which cause spiritual death. It is caused by us being forced to exist in the Satanic Beast System conjured up by the Serpent race of Jews on purpose to destroy man. That System is what one observes in *Revelation* 13:4 which says: “Who is like unto the Beast? Who is able to make war with him?” Then, in protocol No. 4 of Jewry’s Luciferian priests those prophesied words come forth in plain English when it says: “Who and what is in position to observe an invisible force? And that is precisely what our force is.”

That Beast System is the rascal in *Rev.* 17 which says he is, and is not, and yet is. In other words, he is so enormous, silent and sinister the average person does not know he exists, because they cannot see him for his bigness. That skulking Beast is Jewry’s apostate Christian ecclesiastical, Oriental occult religious-political-economical-financial system of the Serpent, Red Dragon, Devil or Satan. His power emanated from Jewry’s Luciferian priests known in Christendom as the Learned Elders Of Zion. He is a shadowy Beast System of confusion conjured up to be the Devil and his Beast race of Jews among whom he forces us to live because our own Israelite leaders violate Divine Law by permitting Jewry to live amidst us. The contamination of our spiritual and mental atmosphere by that Beast System causes us to think erroneously. Erroneous thinking was Adam’s sin which spiritually-killed him, although he was alive in the body. He was created spiritually-perfect, and today any child not of the Satanic race of Jews is born into this manifest world spiritually-alive. When he becomes of age in which he knows right from wrong as such, the erroneous thought effort generates in his brain cavity a destructive electro-cosmic field of oscillatory disequilibrium which thrusts him out of conscious contact with God and spiritually-kills him. That is the reason Jesus Christ (Yahshua) says it is absolutely essential for one to [be] born again (to be born from

above) in order to live in the hereafter. ... Moreover scientists know the presence of the destructive field of oscillatory disequilibrium is the reason, and the only reason why our bodies gradually deteriorate and eventually die of “old age” even though we may have never been ill one moment of our lives; and death in any form is caused by our race ... being out of synchronism with Yahweh.

In Enoch’s Divine Revelation constructed into the Great Pyramid of Gizeh Israel’s extent of displacement from God (Yahweh) is constructed as a mathematical factor of 286.1022156 Pyramid inches (a Pyramid inch is 1.001064 over the British inch). It is located everywhere the sublime symbolism shows a relation between things spiritual and things material. It is known as the displacement factor. It is man’s mortal mental veil which shatters in our consciousness the omnipresent spiritual light of God’s Christ-Son of Righteousness. That veil is also symbolized in the Great Pyramid as the Granite Leaf at the entrance of the Ante-Chamber, or the Chamber of the Triple Veils before the Throne of God. Our veil is woven by erroneous thinking and it consciously displaces us from God. Jewry’s Beast System is the source of that erroneous thought effort in order for the Devil and his Satanic race of Jews to spiritually-kill man in order to get revenge against God (Yahweh). In addition, in all the annals of history, wars in civilization have been Jewry’s special business to kill on vast scales as many humans as possible, in order for that Satanic race to get further revenge against God because the Devil cannot be God and his Beast race lesser gods. Without Jewry contaminating our spiritual and mental atmosphere there would have never been any wars between Israel’s Christian Nations after Israel arrived in the Appointed Place of North-west Europe and the British Isles as prophesied by *II Sam.* 7:10 and *I Chron.* 17:9 and Jewry brags about being the engineer, financier and fomenter of all wars in Christendom. Jewry, alone, is responsible for all bloodshed in murder, suicide and otherwise amidst our race in between wars (*Matt.* 23:45; *Luke* 11:51; *Rev.* 17:1-6). He accomplishes it by forcing us to exist in His Beast System which makes living conditions so contrary to Divine Law we attempt to get relief from the unseen pressure by reckless living, dissipation, greed, graft, lies, gambling, robbery, deceit, and betrayal of our Nation.

Termination of death from Satan and his counterfeit race of Jews is the reason, and the only reason, God (Yahweh) came into the material plane as Jesus Christ (Yahshua) of Nazareth. The record states: “Forasmuch as the children (of Yahweh, Israel) are the partakers of the flesh and blood, He Himself likewise took part of the same; that through death, He might destroy him that had power of death, that is the Devil” (*Heb.* 2:14 confirmed by *I John* 3:8)

If the Devil is merely a spiritual being, then why was Yahweh, as Jesus Christ of Nazareth born of a woman? David says in *Psalms* 139:8 if he had made his bed in hell, Yahweh would have been there. If that is true, and hell is what the clergy has been telling us about, then what was keeping Yahweh from destroying the Devil if Yahweh could descend into hell? [If] the Devil is not tangible, then why did Yahweh become tangible in order to draw up a new contract for the children of Israel to destroy the Devil? This is why:

Yahweh created our Adamic progenitors especially to destroy the Devil and his race. They, however, were spiritually-sabotaged by that Beast race and came under the power of Satanic death. Out of the remnants of that sabotaged race Yahweh took one man and his family out of whom He created our Israelite progenitors for His third Kingdom on Earth to destroy the Satanic race. Israel, however, was also

sabotaged and destroyed before she could even commence to really learn Divine Law. ... To conquer spiritual and physical death, therefore, it was essential for Yahweh to come into the plane of things material in order to draw up a new contract with our race then sign it with His Blood to confirm it in accordance with *Heb.* 2:14; *Matt.* 14:24 and *I John* 3:8. We, the White men of Anglo-Saxon-Celto Israel, are the ones vested with that contract, and it is time for the Christian clergy to stand up and be counted.

The word “Satanic”, however, has four meanings: the hater, an accuser, an adversary, an opposing spirit. In *I Chron* 21:1 Satan is the spirit of opposition in David which caused him to number the children of Israel after Yahweh warned him against it in order to keep the Devil’s Serpent race ignorant of Israel’s numerical weakness.

The record in *Job* 1:7 says: “Yahweh said unto Satan, Whence comest thou? Then Satan answered Yahweh, and said, From going to and fro in the Earth, and from walking up and down in it.” On the surface, that record seems to infer the Devil is a jolly old fellow rambling over the Earth fiddling away his time while enjoying the scenery. However, *me-ayim* is the Hebraic for that word “whence”. There is no adequate English for it, yet one definition for our “whence” is from what? In Hebraic, that compound word is *la-mah*, what good? The Hebraic for Job’s word “comest” is *bo*, attain. The words “to” and “fro” are synonymous as *shub*, to pervert. Earth is *erets*, humanity. The second word “from” is *midde*, sufficiently. Walking is *halak*, habitually. In, is *dai*, for. It, is *hu*, the same.

The Adamites (the sons of God, *Job* 1:6) had assembled to celebrate the Messianic ritual of Spiritual Renewal of Yahweh’s Kingship amidst them. The ritual was celebrated every 30 years. During the ceremony, Satan went amidst them in order to observe the high priest of the Order of Melchizedek bring life-sustaining bread and wine out of the dimension of spirit, because if Satan could have learned the secret he could have used it to “prove” he was “God”. Satan was challenged by the Presence of God, who possibly was Melchizedek as Yahshua the Messiah Himself, who said to that rascal: “What good do you attain?” Satan answered: “From despising and perverting humanity sufficiently to form a habit for the same.”

That passage further proves the Devil and his race of Jews have, from the beginning, exalted evilness as a virtue, which we observed in the original of *II Peter* 2:12 on page 14 of Book I of this study: These living dead things, are conceived and brought forth in child birth with the idea born in them to speak evil of things they understand not, and to capture man and corrupt him utterly. That is the purpose of Jew Freemasonry—to teach Lucifer’s “divine wisdom” in order to destroy man while posing as his benefactor and while Jewry expands into the grandiose image of Lucifer as the perfection of perfect spiritual depravity (666).

In *Psalms* 109:6 Satan is a human who David wanted to act as an adversary against his Serpent enemies. In *Zech.* 3:1, 2 Satan in modern Jewry declaring our faults are the extent of our faith in Yahweh. Joshua symbolizes the House of Israel as Yahweh’s Royal Priesthood Nation of *Exo.* 19:6 and *I Peter* 2:5, 9 who is now almost ready to receive new spiritual garments and a crown of glory for our National Rule With God.

In *Matt.* 4:10; *Mark* 1:13 and *Luke* 4:8 Satan is the King of the Jews for that era. He was as tangible as any material object. His name was Artabanus II. He reigned as King of Parthia from 10 to 40 A.D. He was of the Turanian branch of the Serpent in *Isa.* 14:29 whose dynasty was founded the Devil, Balae-

astarus (Assyrian name), who was the Devil, Baalzebub, the Prince of the Shades, of *II Kings* 1:2, 3, 6, 16. He was none other than Ethbaal in *I Kings* 16:31, father of the female Devil Jezebel, wife of King Ahab of the House of Israel in Samaria.

When Yahshua the Messiah was in the material plane Satan's seat of conspiracy against Yahweh and man was Pergamos, Greece (Bergama, Turkey, today). It is recorded in *Rev.* 2:12, 13. He made Pergamos his headquarters in 429 B.C. That is why Yahshua in *Rev.* 2:12, 13 says Pergamos was Satan's seat and home town. During the reign of the Devil, Attalus (241-197 B.C.) Pergamos rose to the zenith of power as the political and cultural capital of Asia Minor. Its splendor was reached in the decade[s] between 197 and 159 B.C. under the Devil Eumeneas II, who ruled over Mysia, Lydia and the greater part of Phrygia and Caria.

While checking Prince Abdul Baraba Baha's personal genealogical record with the ancient historians we observe his "god" ancestor, Phraates III, was murdered in 57 B.C. by his legitimate son, Mathradates III, and his illegitimate son, Ordos I, in order for the latter to reign as "God". He masqueraded as such until 37 B.C., then exalted his son Phraates IV. His wife of the latter Devil was called the goddess Musa. Their eldest son, Phraataces, was appointed by Phraates IV to succeed as God", yet Musa murdered him in 4 B.C. then exalted her illegitimate son Phraates V, as "God". In 5 A.D., however, Musa and "god" were murdered by the Luciferian priests who then proclaimed the bastard, Ordos II, was "God". He reigned from 5 to 7 A.D. then was murdered by Vonones I who reigned as "God" until 11 A.D. when in turn he was murdered by Artabanus II, the tempter of Jesus Christ in *Matt.* 4, *Mark* 1 and *Luke* 4 who had proclaimed himself "God" the previous year after murdering all of the Arsacid princes except Vonones I who was eliminated in 11 A.D. Knowing his crooked record, we observe he did it in order to attempt restoration of the Kingdom of Iran and possibly a World Empire after the one fell in 330 B.C. with the conquest of the Persain Empire by the Israelite Danite, Alexander the Great when the Serpent's sceptre was broken in accordance with *Isa.* 14:29. The Roman Governor of Armenia enlisted the service of the Scythian Israelites to destroy the Devil's power threatening the Roman Empire. They defeated him in 27 A.D., yet, he bribed the Israelite tribes of Sacae and Danae and made another effort to defeat Rome.

The record does not show from what place the Devil, Artabanus II, went in order to go to Jerusalem and cut Jesus Christ (Yahshua) off from the Father. The record in *Matt.* 3:7 proves he believed John the Baptist was the Messiah Son of God (Yahweh), and he sent his spies to ascertain whether or not that was true. John, however, spurned them and said: "O generation of vipers, who has warned you to flee from the wrath to come?" We formerly observed those rascals were in the progeny of Cain and Ishtar. The word "wrath" in *Matt.* 3:7 is *orge*, in the Greek. It means vengeance. John was referring to the vengeance coming to those rascals when the Messiah would re-organize the Kingdom of God by bringing dispersed Israel back to Palestine (the children of God scattered abroad, *John* 11:52) then destroy the Devil's kingdom of Jewry. (Probably speaking of Rome in 70 A.D.)

When that report was made to the Devil, Artabanus II, he went to Jerusalem in order to locate Jesus Christ then went there to make black magic in order to generate a tremendous electro-cosmic field of oscillatory disequilibrium and cut Jesus Christ off from the Father. That fact is denoted in *Matt.* 4, *Mark* 1

and *Luke* 4 by the words "tempted" and "of" (the Devil). Tempted, is *peirazo*, attack. Of, is *hupo*, under. Therefore Jesus Christ was under attack by the Devil, Artabanus II, who brought the power of his black magic to bear in the first magnitude in order to destroy Christ's Mind and drive Him insane and thus cut him off from the Father.

Now if one questions that situation, then consider the fact that, temptation from an intangible Satan is manifest in us by evil thoughts that come forth in evil deeds and words of our own free will. For an intangible Satan to tempt Jesus Christ as the surface appearance of the record in *Matt.* 4, *Mark* 1 and *Luke* 4 stands, Jesus Christ would have been guilty of erroneous thinking which is sin in the first magnitude, inasmuch as erroneous thinking is that which generates the force that consciously cuts man off from God and spiritually-kills him. For that reason, we cannot see things spiritual—we are displaced 286.1022156 spiritual degrees from spiritual center. If Christ had wanted to display His Cosmic Powers by changing stones into bread it would have been sin, because to perform a miracle in that order would be in direct violation of Divine Law. He also would have had evil thoughts if He had contemplated using His Cosmic Force to conquer the world. Another sin would have been for Him to think about climbing to the pinnacle of the temple in Jerusalem then casting Himself down in order to prove to the people He was God by not being killed.

Jesus Christ was the manifestation of Yahweh on Earth in tangible form. He never had one evil thought in all of His existence in the spiritual and material planes, because three of His seven Spirits are Divine Truth, Divine Order and Divine Principle. To think evil the source would have to be in His Being.

Note: For Yahshua to have been tempted in all points like as we are, as stated in *Hebrews* 4:15, the thoughts would have had to have been present from the Adamite side of His physical manifestation, but the yielding to these thoughts was resisted and overcome with Yahshua never succumbing to the temptation. The personality of Yah was victorious over the fleshly Adamite mind (which would have been from Mary's side).

Therefore Yahshua the Messiah was under attack from the Devil, Artabanus II. Yahshua was conscious of that barrier being thrown around Him by the Devil, because He could feel its oppressive force on His brain, and if He had remained in the radius of that destructive force it would have destroyed his ability to think rationally. Therefore, He went into the desert to get out of its influence. He had not begun His Ministry and the Father's Cosmic Powers had not been vested in Him, yet the 40-day fast prepared Him to receive it. Therefore, He could not have been thinking about using the Power for materialistic purposes. He received that Power after the temptation and the Devil had departed and the angels came to minister to Him. That fact is observed in the word "minister" in *Matt* 4:11 and *Mark* 1:13 which is *diakoneo*, in the Greek. It means serve as supplying heat and light. We know heat and light are spiritual forces, and in the case of Yahshua the Messiah, the heat and light were the Father's Cosmic Forces of the universe controlled by the Mind of Yahshua the Messiah.

The electro-cosmic field generated by the Devil was similar to that which was generated by the Devil, called "the Great Lord Marduk" by Cyrus, King of Persia, which was so powerful it even restrained the archangel Michael, and Daniel recorded it in 10:13. The Devil was attempting to destroy Daniel and King Nebuchadnezzar II because Daniel had been placed at the head of the University of the Magi and Nebuchadnezzar II had destroyed the Cainite-Akkad

Dynasty and terminated the Kingdom of Assyria in 606 B.C. To add insult to injury, Nergal-Shar-Usar, a son of Nebuchadnezzar II, had usurped the Devil's (Marduk) exalted position as "God" and enshrined himself as such in his temple in Kutha. The black magic drove Nebuchadnezzar II insane and he remained insane for seven years. Those fields are invisible, and while they are breaking down one's ability to think rationally one feels as though one is being boxed-in with powerful walls slowly closing in on one.

Another manifestation of those fields is visible as clouds of blackness so opaque they even shut off the sun light at high noon. Those clouds were precisely what was manifest recently in New York City when a black cloud engulfed the Empire State building in which Jewry's Luciferian priests had convened in order to draw all strings taut for the extirpation (destruction) of Christianity and the white race of Israel from the face of the Earth. Later, another cloud settled over the entire city while the Luciferian priests were conferring in the Waldorf Astoria Hotel in order to consolidate the plot. They were not vapor nor smoke clouds. They were visible fields of occult power as the manifestation of the presence of the Devil bringing to bear his black magic in the first magnitude. They had an eerie feeling to army aviators sent aloft to investigate the nature of the blackness. In the Hebraic and Aramaic, the name of those clouds is *anan*. It is variously used as; bring a cloud, sorceries, enchanter, soothsayer, black magic, and witch-craft.

When Artabanus II failed in cutting Jesus Christ off from the Father he went to Christ and attempted to persuade Him to renounce His exalted position then join him and both conquer the world and rule together in "peace". He wanted Christ to demonstrate His power in converting stones into bread, obviously, in order to learn the secret and use it to "prove" he was a god, in similar manner as his ancestor in *Job* 1:6-8 and 2:1-7. Artabanus II then drew a mental picture of taking Yahshua up to the "pinnacle of the temple in the holy city" then casting Himself down, and if He was truly the Christ-Son, the Father would not permit Him to be killed when striking the pavement. It means Artabanus explained to Yahshua that he would make Him King of the House of Israel—the holy city of God. The temple is Israel's Soul-seat of consciousness, Mind and body (*I Cor.* 3:16, 17; 6:19; *II Cor.* 6:16; *Eph.* 2:21) of which the Devil, Artabanus II, promised Yahshua to exalt Him to the zenith of power, and by He being the Christ-Son in charge of things spiritual, and he, the Luciferian son, "in charge" of things material, Yahweh would sanction the union. The words "fall, down, worship" used by the Devil are: fall, is *pipto*, to fail. Down, is *kato*, beneath. Worship, is *proskun*, to touch. Thus the Devil told Yahshua the Messiah if He would fail to re-organize the Kingdom of Yahweh exclusively for Himself as Yahweh had sent Him to do, then lower Himself beneath him by accepting the junior position in the kingship of the World Empire then shake hands (touch) in the Bel-pact to seal that partnership, the political-priestly position would be His by right that He was his adopted son: the same as Cain became the co-regent with the Devil after sealing the partnership in the Bel-pact.

(Note: The author is trying to make it appear that Cain became an "adopted" son of Satan; that somehow by a handshake, or a contract, Cain became Satan's adopted son. I am sure that the relation which made Cain Satan's son was much more intimate than a handshake, and through that intimate relationship Cain became Satan's literal descendant (seed) or son. I am sure that Eve could not have conceived by Satan by a mere handshake!)

If Yahshua had accepted that proposition it would have been the manifestation of Him casting Himself

Electromagnetic Weapons & Asymmetrical Warfare

By T.E. Bearden (Part Four)

With full credit and thanks to Tom Bearden and <www.cheniere.org> for permission to reprint, we continue with Part Four of this series.

19. MODERN ASYMMETRICAL WAR: THE SCORPION DUEL

We thus are back to the absolutely primitive warfare of two dueling scorpions: *He who first succeeds at insertion, and then strikes his enemy hard and decisively in his vitals, is he who wins a priori.*

The procedure is to first ensure that one will hit the foe's vitals catastrophically, and sufficiently to destroy the entire foe himself. Then the procedure is to unleash what has been assembled, thereby destroying the foe.

Hence the success of the *insertion phase*—inserting the necessary WMD and operational teams into those vitals in advance—predetermines the success of the subsequent *operations phase*, where one strikes on order, unleashing the WMD and destroying the nation's vitals and therefore destroying the foe.

For the targeted scorpion, there is no turning back or delay, once the insertion phase of the scorpion duel begins against him. *Successful insertion of the required WMD and WMD teams—during a time our folks innocently think of as “peacetime”—inevitably wins the war by destroying the penetrated adversary very shortly after the operations phase begins.* In a nutshell, those two phases—insertion followed by operations—constitute the “offense” part of asymmetric war. And since peacetime is just the insertion phase, *asymmetric war is perpetual war, whether or not shooting is ongoing.*

There has been little public “briefing” by our government on what the estimated success of the insertion phase against us has been and is now. Apparently much of the analysis is in disarray, filled with assumptions, and very short on actual definitive data. It also follows that most definitive data in this area would be highly classified, particularly to protect effective human intelligence (HUMINT) sources.

Now one can appreciate VP Cheney's morose statement. Since “peacetime” now is just another name for “insertion phase”, then “perpetual peace” is still “perpetual war” in the new vernacular. So we have entered a “perpetual war” we have not previously known or understood. There is no real peace in the sense we think of it. *There never will be any peace again, until one of the dueling scorpions is utterly destroyed.*

The “defense” part for the terrorists is to hide or defend their own “vitals”—their actual bases, support organizations, supply routes, troops and forces and equipment, etc. In the present asymmetric war, there are no single terrorist bases for us to just “knock out” decisively. We cannot win this war by simply having our troops riding out of “Fortress America”, meeting

and defending some hostile army on some distant battlefield, and then riding back into our protected fortress again. *There no longer exists such a thing as a “protected Fortress America”.*

Instead of an identifiable single army on a single foreign battlefield, the terrorist foe's “vitals” are hidden around the world, in many places, and in many ways. Many of them are secretly hidden right here in the United States, inserted during the insertion phase which has been ongoing for at least 20 years.

In the U.S., we cannot “hide” our vitals such as refineries, pipelines, railroads, bridges, electrical power plants and long transmission lines, harbors, water supplies, food supplies, etc. Instead, we can only try to protect them against their certain attack, and try to limit the damage and destruction. *The main target for the terrorists is not just our military forces, but also our civilian populace and especially our national economy—which is particularly vulnerable by the rather simple destruction of our centralized electrical power system and its primary support infrastructure.*

The real art of asymmetric war is to first draw most of the targeted opponent's military forces out of the protected fortress and get them scattered widely in distant locations and distant struggles. By augmenting the distant resistance, this forces the targeted nation's military forces mostly to be deployed elsewhere, leaving the internal fortress itself much less protected, and thus making it highly vulnerable.

Once the major decisive action is shifted to inside the protected fortress, the urgent necessity for (i) a strong Homeland Defense, (ii) well-organized mass casualty treatment capabilities, and (iii) strong border defenses, sealing of the borders, and interception of insertion attempts as they occur, etc. There is also the urgent need to go after the opposing scorpion's “vitals” wherever the pieces can be located and “fixed in place” and destroyed.

Ironically, for the U.S. these urgent needs come at a time when our HUMINT resources have largely been abandoned or nullified, by the past fascination of our intelligence community for technical widgets such as satellite photography, etc. So our ability to ferret out inserted cells and WMD has been sharply reduced by the intelligence community itself.

Effective HUMINT takes years to get established with successful agents infiltrated into the terrorist cells and planning organizations. So not too much is going to be rapidly accomplished to resolve our HUMINT shortfalls. Much of what HUMINT is available is either from foreign sources or is due to the clandestine cooperation of much of the peaceful U.S. Muslim community, which sees this nation as its own country, and thus sees any threat to destroy the U.S. as a threat against the peaceful Muslim religion itself. To understand some of the factions and divisions of the Muslim world, the reader is referred to treatises by Williams.

But the scorpion duel is highly sensitive to being able to (i) find the opponents vitals (which now are the

down from the pinnacle of the temple in Jerusalem—casting Himself down below His dignity and his high position as Mighty-One and King of Israel to the ground of the lowest position in the entire universe as the adopted son of the Devil. That Beast was offering Yahshua the very thing He had in His hands—precisely as he has done to man in all his existence, because the Devil and his Serpent race of Jews never possessed anything in all their existence but what they inveigled (won over or got by flattery) man into depriving himself of while thinking he was getting a bargain, which is precisely the thing Jewry in America is offering us while inveigling us to relinquish the sovereignty of the United States of America—Abolish the United States in lieu of a One World Government for “peace” for which the bogus United Nations is merely the screen behind which stands slavery, chains and death for our race (Israel) and all other White nations who refuse to worship the Jew as Almighty God. The United Nations is the “bogy” in protocol No. 5 of Jewry's Luciferian priests who say in it: “In the place of the rulers of today we shall set up a bogy which will be called the Super-Government Administration. Its hands will reach out in all directions like nippers and its organization will be of such colossal dimensions that it cannot fail to subdue all the nations of the world.”

Accordingly, that Jew “bogy” is gradually usurping power and enslaving our people to the Devil's race of Jews by Eurasian Jews at the head of every office working hand in glove with Jews in Washington, D.C. who are blackmailing stupid U.S. Congressmen, President Truman, and Dean Acheson, Secretary of State, into doing Jewry's very bidding in a deliberate pre-meditated conspiracy to destroy the United States of America. Our membership in that anti-Yahshua, anti-Messiah, anti-man Luciferian organization is our covenant with death (hell) and agreement with hell as prophesied by Isaiah in the 28th chapter of his Book, of which the Honorable John T. Wood, U.S. Congressman from Idaho, warned our people over the radio from Nampa, Idaho 16 Dec. 1951 and his speech was published on page A-244 of the Congressional Record for 17 Jan. 1952 under the heading of “Our Greatest National Perils”, a portion of which says:

“During the past three years, the original conception of the United Nations as a league of sovereign nations, organized for the preservation of world peace, has tended to be displaced by that of a one-world government, within which 60 nations we shall have but one vote. Such a setup, when completed, will completely do away with our present conception of republican form of government in the United States, substituting therefore our inclusion into a hybrid and mongrelized group of “have not” nations, who are slaving ravenously for the balance of the wealth amassed through the strivings and savings of several generations of industrious Americans, who have constituted and carried forward the very special genius of the ideal we have been very proud to call the American way of life, which has been the envy of the world.

“... [L]ittle by little the powers delegated to the Federal Government by the sovereign people of the United States are either being usurped by that body, or granted to them by a government set-up in Washington, which is either ignorant of the fact it is granting powers to the United Nations which the citizens of the United States granted to it alone, or that each and every department of the Federal Government granting such powers is criminally recreant (cowardly, unfaithful) to the oath each took upon assumption of office to support and defend the *Constitution of the United States* against all enemies from within or without the United States.”

[End Part Two] *Caveat: Discern anti-goodness ACTIONS to identify what is anti-Christ.*

inserted assets and terrorist teams within one's own nation) and (ii) go after the scorpion's vitals and destroy them in what are erroneously called "peacetime operations". Ironically, one sets up winning or losing the asymmetric war by one's actions in peacetime. Once in an asymmetric war, "peacetime" is the absence of significant overt active hostilities, but the presence of fierce covert insertion and preparations for the follow-on operations phase and the "knockout" punches.

20. DISTANT MILITARY ACTIONS: NECESSARY BUT NOT SUFFICIENT

Hence one cannot think of winning major battles and the asymmetric war in a few months or even a few years, simply by fighting successfully on well-defined distant battlefields. Those distant conflicts and confrontations are necessary but not sufficient, a term mathematicians delight in using.

Instead, one must also think of a continuing gritty, gruesome war, lasting for decades, ongoing in one's own cities and population centers and installations. One rather gradually grinds down the terrorist opponents and rather gradually uncovers and destroys the various parts of their vitals, while protecting one's own vitals as much as possible, and while rooting out everything one can of the insertions made by the foe or further attempted by the foe. Here effective HUMINT is vitally important, and our shortage of it is a grave strategic vulnerability.

If one destroys the terrorists' assets and capabilities before they destroy him, one survives. If one does not succeed in doing that, one dies because the terrorists will destroy him without mercy. This is the message the Al Qaida and other terrorists are sending, when they behead prisoners and hostages. It is absolutely a scorpion duel to the death.

With the abrupt wake-up call of 9/11, we were suddenly confronted with the continuing and unrelenting nature of this asymmetric warfare. At least officialdom and our armed forces were confronted with it; there has been no truly adequate news briefing or educational series for the American public on such matters. The military schools of the Army, Navy, and Air Force do include education on such warfare, including highly classified courses at the top-secret level. But certainly the U.S. public still does not understand the absolute necessity for Cheney's morose statement or the full nature of the new reality of asymmetric war.

Indeed, as with every other subject, the subject of "asymmetry" in warfare is itself a societal polarization area. Typical "anti-views" simply downplay the very notion of asymmetry as being "nothing new or special" in warfare. As one reads such treatises, it becomes crystal clear that our own strategic planners and strategic theorists themselves are often confused, simply recasting asymmetric war into what has gone before. They are not factoring in such radical developments as the Yakuza's acquisition and use of scalar electromagnetic superweapons, or the dramatic change that occurs in the theory once full strategic U.S. destruction is a capability already in terrorists' hands, with multiple knock-out blows already cocked and waiting.

21. ASYMMETRIC WARFARE SIMPLIFIED: AN OVERVIEW

Let us briefly discuss this "new" kind of "old" warfare in the most direct manner possible. The present war is a very different kind of warfare called asymmetric war. It consists of two phases: (1) the insertion phase, (conducted in what we erroneously

call "peacetime"), during which the necessary WMD and teams to operate and unleash them are inserted in the targeted nation's populace, population centers, and key target areas and made ready to go, and (2) the operations phase, in which the inserted forces and assets are unleashed, thereby destroying the targeted nation—in this case, the U.S. itself. The bulk of the target and intention is to kill U.S. civilians and destroy critical facilities right in the U.S. homeland—as many as possible, as efficiently as possible, and wherever and whenever possible.

Secondary to the importance of population kill during the operations phase is the destruction of the targeted nation's economy, catastrophically and decisively. If the foe succeeds dramatically in accomplishing the insertion phase, the foe will almost automatically win the follow-on operations phase a priori, unless he is an utter fool.

Our very real problem today is that the insertion phase has been going on for at least two decades, while we were literally "sleeping" as far as intercepting and degrading the insertion effort by any substantial degree at all. The blunt truth is that the terrorists' Insertion Phase has just about been successfully accomplished already. We are in grave danger of being utterly destroyed, with high assurance, in the three-year Operations Phase whose first part has already begun.

Compare the conduct of asymmetric warfare as analogous to orienting and setting up weapons and ammunition and target lists for a massive artillery barrage, and preparing to make a massive attack with that barrage. One first gets the artillery guns shipped into the necessary assembly areas, assembled in place, with their ammunition and crews inserted and made ready, with their target lists completed and waiting. Then one gets the vast assembly of guns and crews properly registered on their specific targets and ready to go. That's the "insertion" or "preparation" phase for a normal mass artillery bombardment.

Then the assemblage of "weapons in place" simply fires the massive barrage on order, and that is the "operations" phase, exploding with suddenness and great violence right on the enemy's vitals. An important major characteristic of this "normal" warfare insertion phase is that it is the insertion of the delivery systems, to chosen "attack positions" outside the targeted area.

In asymmetric war, instead of assembling all the delivery systems (cannon, rockets, missiles, etc.) it is as if all the deadly ordnance was first assembled right in its target areas, inside the targeted nation, along with the necessary teams to set them off right there. In short, the "delivery" part of the former operations phase is pre-accomplished, before hostilities even begin. So the insertion phase gets the artillery rounds to the target during "peacetime" and avoids assembling all the artillery pieces, rocket launchers and other delivery systems necessary in the conventional war approach.

Thus successful insertion in asymmetric war has already overcome one of the vagaries of standard war: the inaccuracies and mishaps caused by misdeliveries and/or losses of the delivery systems themselves prior to delivering the ordnance on the distant targets. In normal war, those misdeliveries and losses to the delivery systems directly subtract from the effects achieved on the target once the attack is initiated. In asymmetric war, the cost of misdeliveries and losses to the inserted WMD are paid for before the hostilities and before the attack (the operations phase) begins. So given a successful insertion, "delivery system losses" prior to attack do not subtract from the effectiveness of the attack results, once the attack is initiated.

Once the hostile terrorists possess weapons of

mass destruction and have already delivered them onsite to the actual targets, the "massive barrage" of the operations phase is certain to destroy the targeted foe, if the terrorist leaders have any competence at all in their planning and preparations. The great advantage of the insertion phase is that it covertly prepares a great "barrage" where the "ordnance delivery to the exact target locations" has already been accomplished and its lethal effectiveness against the actual targets has therefore been assured in advance. With proper stealth and intrigue, the insertion phase can be accomplished slowly and at will, and without any extraordinary resistance being offered by the "sleeping" targeted nation or population! After all, it is "peacetime" when such clandestine insertion operations are conducted.

So asymmetric war bypasses the normal overt concern with long-range delivery systems such as ICBMs, strategic bombers, aircraft carriers, nuclear submarines, etc. The usual giant armada of delivery systems is unnecessary, if the terrorists can successfully perform the covert insertion phase. Instead, the terrorists' major early activity is in ordnance procurement, not in building long range delivery systems.

Obviously asymmetric war differs from normal symmetric war, and so there are definitely some new questions which must be answered.

22. A FEW QUESTIONS TO BE ANSWERED

In an asymmetric war situation, some major appropriate questions for the targeted nation are:

(1) Are all the terrorists identified as to parent organization, etc.? How certain is the targeted nation that there have been no substantial omissions from its foe identification and capabilities list? Are there already effective compensatory plans in case there suddenly are uncovered additional terrorist organizations or parent organizations, and/or additional capabilities?

(2) What is the WMD and other clandestine weapon capability of the terrorists, their organizations, their supporting nations or groups, etc.? How certain is the targeted nation that there have been no substantial omissions from the weapons capability lists? Are there already effective compensatory plans in case there suddenly are uncovered additional WMD or clandestine weapon capabilities of the terrorists or their parent organizations?

(3) In view of Secretary of Defense William Cohen's seminal 1997 statement, what specifically is the capability of the terrorists to cause those volcanic eruptions, weather engineering and climate control, and initiation of earthquakes? What specifically is the nature of these strange "electromagnetic" weapons? What specifically are the counters to them, and specifically how effective are these counters? Further, why is so large a percentage of the government still unknowledgeable of this portion of the terrorist threat, and thus totally unprepared for it? Why has the American public not been completely and adequately briefed on these confirmed developments by the terrorists?

(4) Even though known specific foreign areas with concentrations of the terrorist organizations and/or their support groups are targeted for attack and neutralization, how much of the terrorist capabilities have been reduced by such measures?

(5) Exactly what information is officially available (and to what degree of confidence) on the "missing" 5 Ukraine SS-19 Stiletto ICBMs, each missile with 6 nuclear warheads and each warhead of several hundred KT yield. To add spice to the controversy, three years after "all" the SS-19s were supposedly

turned in and accounted for, another 31 physically turned up in Ukrainian silos and warehouses! One also questions what happened to the additional 230 or so missing “extra” nuclear warheads from the Ukraine total, to the missing Russian suitcase nuclear weapons, to the 20 suitcase nuclear weapons allegedly purchased by Bin Laden, etc. What if anything has been done about the already-inserted Russian nuclear weapons and Spetznaz teams in our cities and population centers? What if any defense or countermeasures exist to prevent our destruction at some point, from these weapons alone? And again, why has not the American public been adequately briefed on such hostile capabilities and the “nuclear knives already at our throats”?

(6) How long has the insertion phase been ongoing? How effective has interception and neutralization or intercept of the insertion attempts been? Again, why has the American public not been briefed on these areas?

(7) What is the probable target listing compiled by the terrorists, based on their actual weapon capabilities and the degree of insertion success actually accomplished? Considering Bin Laden’s background in economics, and his past statements on the importance of disrupting the economics, is not the near-absolute vulnerability of our centralized electrical power system our greatest single weakness, insofar as catastrophic collapse of the U.S. economy being introduced?

(8) What are the various options for the assessed terrorist “preparation” at the particular stage of their insertion phase, or in the near future? Which of these options have the greatest probabilities of destroying or inflicting unacceptable damage on the targeted nation? Which of these options are also matched by known or detected insertions already accomplished or attempted?

(9) Since we know that certain of our enemies—e.g., the KGB/FSB—understand the importance of surprise weapons or superweapons, what is our very best assessment of the probability and capability for the terrorists possessing and inserting surprise weapons or superweapons for which the targeted nation has little defense capabilities? E.g., what about the surprise “electromagnetic” weapons the U.S. Secretary of Defense confirmed, while most of the U.S. government officials—and even our own intelligence agencies, which still largely use the totally inadequate electrical engineering model in their EM analyses—are still unaware of them? Why has not our scientific community been made fully aware of them, and put to intensive work on them?

(10) With a three-year plan already in motion for our total destruction, and with a large key role played by the vulnerability of our electrical power system and its coming destruction, why are not our Department of Energy, National Academy of Sciences, National Science Foundation, etc. already under strong Presidential orders to rearrange their energy priorities? Why have they not already corrected the terribly flawed CEM/EM mess that is taught in our universities and used by our power engineers? Why are they not conducting a massive Manhattan-type project for energy from the vacuum systems to totally replace the present centralized power system? There is no other possible solution, once one recognizes that the centralized electrical power system itself is going to be destroyed with very high assurance, about two years from now. So why are all our scientific efforts siphoning off research funds for puerile things which will take decades and will not do the job even then? Since a great part of the problem is the Russian science of energetics and its development of superweapons, then why are our scientists still largely preoccupied with standard electrical engineering and

classical electrodynamics—models so horribly flawed and so archaic they should have been changed at least three quarters of a century ago?

23. THE EASE WITH WHICH WMDs WERE OBTAINED BY TERRORISTS

In facing an asymmetric war launched against us, the availability of clandestine WMD to the terrorists, so that the weapons can be inserted, becomes a primary consideration—along with an extraordinary need to understand the new superweapons and rapidly develop counters and defenses.

To see that any competent and supported terrorist organization will easily have obtained WMD, one should Google a search on Voz Island in the Aral Sea and on anthrax simultaneously. The Russian biological weapons research and production facilities were the world’s best, appreciably ahead of similar facilities in the West. Hundreds of tons of very high quality BW agents were just dumped on Voz Island from those Russian facilities. Quoting Marshall, Malakoff, and Holden:

“The United States and Uzbekistan are close to finalizing plans for a \$6 million cleanup of a former Soviet bioweapons facility. The effort is aimed at preventing terrorists from harvesting live anthrax spores from a secret dumping ground. For nearly 60 years starting in the 1930s, the Soviets released anthrax, plague, and other weaponized pathogens on Vozrozhdeniye (Resurrection) Island in the Middle of the Aral Sea. In 1988, at the end of the Cold War, weaponeers buried tons of a particularly potent strain of powdered anthrax at the site, mixing the bacteria with bleach in steel drums to kill it. But several years ago testers found that some of the anthrax is still alive, and water diversions from the shrinking Aral Sea have since opened a land bridge to the once isolated island. Fearing that terrorists might try to harvest ready-made bioweapons from the site, U.S. officials agreed in October to pay for destroying the anthrax and a nearby testing facility.”

Actually, for quite some time, any funded terrorist organization that wished a copious supply of the finest anthrax ever made, and wished a strain already resistant to many of our treatments, could just go to Voz Island, pay the natives a little sum, and dig up the dirt in the appropriate part of the dump site, sack it up, and carry it away. Or pay the natives a bit more, and they would dig it up and sack it for the buyer. Wash out the dirt, and one would have all one wanted of the highest grade anthrax spores ever made. Those terrorist organizations that wished a copious supply of high grade anthrax, obtained it with relative ease.

Bin Laden also obtained anthrax and other BW agents from other sources.

Other BW agents and nuclear materials were available on Voz Island also, in the same way. In short, any organized terrorist group in the world that wished such BW agents, easily got them. And much of that WMD procurement will already have been covertly inserted into the U.S.

The mailing of high-grade anthrax in letters sent to a few important U.S. targets after 9/11 was not a complete attack at all nor was it so intended. The mailings were a small test attack to ascertain the amount of disruption and economic damage that could in theory be obtained by mass mailings simultaneously, through the mail in many locations, to thousands of targets. The results obtained by these little sample mailing tests showed that mass mailings of anthrax

powder, in letters sent to selected high level targets, would create chaos, extensive delay and economic disruption. Here again one sees the coordinated planning toward our economic disruption, damage, and collapse.

24. A SIMPLE BUT LETHAL STRATEGIC STRIKE WITH HORRIFIC CASUALTIES

As is known, anthrax is highly lethal when ingested or breathed into the lungs. So a simple spray attack on a large metropolitan area, by a small 2-place Cessna, with two men aboard—one flying and one spraying out the side—could account for from one to three million casualties, almost all of whom will die. Quoting Betz:

“A 1993 study by the Office of Technology Assessment concluded that a single airplane delivering 100 kilograms of anthrax spores—a dormant phase of a bacillus that multiplies rapidly in the body, producing toxins and rapid hemorrhaging—by aerosol on a clear, calm night over the Washington, D.C., area could kill between one million and three million people, 300 times as many fatalities as if the plane had delivered sarin gas in amounts ten times larger.”

Needless to say, the emergency treatment capabilities of the entire struck area would be completely overwhelmed. In such a case, triage becomes the official policy. Unless the treatment were started right for a civilian who inhaled the anthrax, it would be largely ineffective anyway.

Triage is the classification (medical screening and sorting) of patients to determine the need and priority for treatment and transportation. Triage generally results in the patients being separated into four categories according to the priority for treatment that will be followed. The four categories are:

- High Priority (Red): Patients who need immediate treatment and immediate transport in order to survive. (But refer also to category 4 below). Those who need immediate treatment but cannot be expected to survive even if treated, go into category 4 (Black), not Red.
- Intermediate Priority (Yellow): Patients who will most likely survive but require treatment.
- Low Priority (Green): Patients who require little or no treatment or whose treatment and transportation can be delayed.
- Lowest Priority (Black): Patients who cannot be expected to survive even with treatment, those who cannot be expected to survive in a mass casualty situation, and those whose vital signs are absent.

In a mass casualty situation with very scarce supplies and nowhere near sufficient mass treatment capabilities, triage becomes necessary and officially applies. That means casualties classified in the Black (lowest priority) category—such as patients already showing the anthrax symptoms, and therefore almost certain to die with or without treatment—will just be set aside, made as comfortable as possible, and allowed to die. There is very little to be gained by treating them: even if given every treatment available, almost all of the patients in this category would die anyway. With triage sorting, the very scarce and precious antibiotics and treatments will be reserved for those who have at least a better chance of surviving, once treated.

This is one of the harsh decisions, formerly reserved for military forces in the field under desperate circumstances, which will have to be made for our civilian populace and wounded as well. Such desperate decisions are further discussed in Section 32.

[End Part Four]

World News Insights

In the last issue we headlined Russia's announcement of a new type of (scalar) weapon so advanced the West "does not and will not have anything like it". Since then the Russians have announced a new cruise missile with intercontinental capability and accuracy of a few meters, according to AFP in an article entitled, "Russia Reveals Deadly New Missile for Air Force", dated 12/7/04. The following article shows Russian technology is also behind the "astounding development" of a new Chinese ICBM-packing submarine 5 to 15 years ahead of projections:

NEW CHINA ICBM SUB APPEARS YEARS EARLY

The Washington Times, 12/4/04

By Bill Gertz

China's military has launched the first of a new class of ballistic missile submarines in what defense officials view as a major step forward in Beijing's strategic weapons program.

The new 094-class submarine was launched in late July and when fully operational in the next year or two will be the first submarine to carry the underwater-launched version of China's new DF-31 [intercontinental] missile, according to defense officials.

...The submarine is believed to be based largely on Russian nuclear submarine technology, the officials said.

...A Pentagon report on Chinese military power made public in May stated that the new Chinese missile submarine would not be deployed until around 2010.

A Defense Intelligence Agency report produced in 1999 ... stated that China is expected to field one new ballistic missile submarine by 2020.

...Richard Fisher, vice president of the Washington-based International Assessment and Strategy Center, said the launch of the new missile submarine is "an astounding development".

...China also recently launched a new attack submarine known as the Type 093. Additionally, U.S. intelligence agencies were surprised by China's disclosure in July of a third new type of submarine known as the Yuan-class, a diesel-electric attack submarine.

...The Pentagon has deployed a new missile defense system, but a spokesman for the Missile Defense Agency has said the current interceptor system is designed to stop a long-range North Korean missile, but not an attack from Chinese or Russian missiles.

The ...JL-2 is expected to have a longer range than the DF-31 and ...16 JL-2s will be deployed on the new submarine.

The range of the JL-2 is estimated to be about 7,500 miles, enough "to strike targets throughout the United States" [from Chinese national waters], the report said.

[END QUOTING]

Meanwhile, China and Russia have been extremely busy making new associations with other countries around the world, starting with Southeast Asia:

ASEAN SIGNS HISTORIC DEAL WITH CHINA

The Guardian—UK, 11/29/04

The Asean group of south-east Asian states sealed a historic trade pact with China today in the latest move towards a pan-Asian trade bloc that could rival the EU and the U.S.

The agreement, signed at the Asean (Association of Southeast Asian Nations) summit in Laos, is aimed at setting up the world's biggest free trade zone. The signatories will also adopt a wide-ranging "plan of action" aimed at strengthening ties in security, politics,

technology, medicine and transportation.

China wants to protect vital sea lanes and secure a steady supply of oil and raw materials from south-east Asia to feed its booming economy.

Linking up with Asean's 10 nations—including Singapore, Indonesia and Malaysia—will create a combined market of two billion people.

...The action plan also calls for cooperation in military training, agreements on internet security, tourism promotion and the creation of early-warning systems for illnesses like Sars, Aids and bird flu.

Evelyn Intani of the Los Angeles Times, in an article titled, "New Trade Pact Could Cut Clout of U.S. in Asia", 11/30/04, cites Li Fan, director of the World and China Institute, a non-government think tank based in Beijing: "North America and the European Union have their economic areas," he said. "Asia should have one." Sounds reasonable. Why not include Russia, too?

ASEAN LEADERS PROPOSE TO HOLD RUSSIA-ASEAN SUMMIT

RIA Novosti, 11/29/04

Leaders of the Association of Southeast Asian Nations (ASEAN) proposed to hold a Russia-ASEAN summit in Kuala Lumpur in 2005 and to send a relevant invitation to Russian President Vladimir Putin.

Russian Foreign Minister Sergei Lavrov was informed about this decision at the ministerial ASEAN meeting in the capital of Laos today.

...The meeting saw the ceremony of Russia's accession to the Bali treaty on friendship and cooperation in Southeast Asia of 1976. Thus Russia officially joined one of the basic regional legal documents aimed to provide peace and stability in the Asia-Pacific region.

...Russia's accession to the Bali treaty is highly important for this region, Marti Natalegawa, Indonesian foreign ministry's official spokesman, general director in charge of ASEAN cooperation, said in a *RIA Novosti* interview on Monday.

"This importance cannot be overestimated," he stressed.

"Russia is a great country, a permanent member of the UN Security Council. It is playing a great role in the region," he noted.

"We expect this accession to promote peace and security in the region and hope Russia will keep playing a positive role in Southeast Asia," he concluded.

After blundering in their efforts to get at the Caspian Sea oil, the Neocons lunged for Iraq and appeared to be targeting Iran—but China stepped up and consummated a \$200 billion deal with Iran, effectively taking Iran's oil off the table. Whither next for the Bush-whacked Neocons?

AFTER IRAQ IT IS VENEZUELA

<IndiaDaily.com>, 11/27/04

By Sudhir Chadda

After Iraq it is oil rich Venezuela led by Hugo Chavez that has become the center for confrontation between America and the Euro Zone. Chavez is dead against America and Euro Zone needs him to keep the oil balance—the power symbol in 2005. But this time the equation is a little different. A new regional and super power coalition of India, China, Russia and Brazil is making a huge difference. Russian President is in the zone to pull Brazil in the coalition and influence on Chavez for mutual support.

While the whole world is focused on America and

the Euro zone for the superpower challenges, both these powers are looking small when you combine the powers of the new coalition Putin is building with India, China, Russia and Brazil. Add to that Venezuelan oil that supplies America a substantial crude oil, and now you have the actual scenario of confrontation.

Venezuelan President Hugo Chavez is leveraging his country's oil resources to build new geopolitical relationships with key regional powers like Russia, China, India and Brazil.

...For Russian, Chinese and other non-U.S. oil companies, the Chavez government's oil-based foreign policy also will translate into profitable investment opportunities in Venezuela in coming years.

Brazil, a member of the superpower coalition is a neighbor of Venezuela, and though Brazil has special relations with America, it has far more interest in Venezuela than any other countries.

According to think tanks, it is not Iran but Venezuela will be the next epicenter of confrontation for oil supremacy. But this time both Euro zone and America will face a real formidable super power coalition—the combined resources of India, China, Russia and Brazil.

Meanwhile, the U.S. dollar continues to decline and things could get a whole lot worse if those nations which have been supporting the dollar decide to start reducing their exposure to dollar risk. Japan has been one of the most ardent supporters of the U.S. dollar and has enormous holdings of U.S. treasury bonds and bills. Hold 'em or fold 'em?

JAPAN THREATENS HUGE DOLLAR SELL-OFF

The Observer—UK, 12/5/04

By Heather Stewart

Japan is warning the White House that there will be "enormous capital flight" from the dollar if the Bush administration maintains its *laissez-faire* approach to the mounting currency crisis.

Tokyo fears that Japan's strongest economic recovery in a decade could be derailed by the sudden appreciation in the yen against the greenback.

The criticism of President Bush's inaction, by a senior member of the ruling Liberal Democratic Party, will be taken as a veiled threat that Japan could start to sell off its multi-billion-dollar holdings of U.S. Treasuries. "The Japanese government is going to ask for a strong dollar policy; if it continues to fall, there would be enormous capital flight from the dollar," said Kaoru Yosano, chairman of the LDP's policy council, adding that Japan would be calling on its fellow G7 governments to demand the U.S. deal with the massive fiscal deficit that has helped to prompt the dollar's decline.

If there is hope for turning things around for the U.S. in the eyes of the world, that hope might rest on the ability to stop playing the enforcer for the Neocon (Zionist) agenda. A good first step in the right direction would be to do something about overt Israeli spying, as in the recent events surrounding Larry ("patsy") Franklin and AIPAC. Someone in the FBI is not about to back down just because this case involves Israel:

Obituary: Connie Holloway

Our dear friend Connie Holloway, who used to take your calls and orders for New Gaia Products and then later for Artemis, moved upstairs yesterday, December 11, 2004. Like so many of this wonderful "ground crew", Connie served her time on Earth with distinction and earned her right to go home. We will miss her but we will all get to join her when we have done our job.

AIPAC PROBE INTENSIFIES

Jewish Times, 12/7/04

By Ron Kampeas and Matthew E. Berger

...FBI agents searched AIPAC's headquarters here Wednesday, seizing files associated with two senior staffers who were interviewed in August amid allegations that a classified Pentagon document was leaked and passed on to Israel.

The agents also served subpoenas on four other senior staffers to appear before a grand jury later this month. The four were Howard Kohr, the group's executive director; Richard Fishman, the managing director; Renee Rothstein, the communications director; and Raphael Danziger, the research director.

...“It is obviously a very serious matter,” said Laurie Levenson, a law professor at Loyola Law School in Los Angeles and a former prosecutor.

...“I can never remember a moment when the senior team, from Howard Kohr right down the line, weren't fully cognitive of what was appropriate and dignified,” said Steve Grossman, AIPAC's president from 1992-'97. “I cannot think of a single moment when I felt that any information being transmitted or discussed was in any inappropriate. They always understood the art of the appropriate.” [*“Appropriate” spying? Say what?*]

...A former top Justice Department official suggested that going to a grand jury meant the investigation had become adversarial.

“You can't automatically sound the alarm, but more

often than not it means that they don't believe” that those under investigation have been “totally cooperative”, said Bill Mateja, a former U.S. Attorney in Texas who until last month was the top federal corporate fraud official.

...Mateja said it was significant that Weissman and Rosen were not among those subpoenaed.

Levenson said targets of a probe almost never appear before a grand jury in the early stages of the investigation.

“Usually the people who are brought in at the initial stages are designated as witnesses, rather than targets,” she said. “You work from the outside in. The targets are the people in the middle of the bull's-eye.”

When investigators first arrived at AIPAC's offices in August, seizing computer files and interviewing Rosen and Weissman, many suggested that AIPAC was secondary to an investigation into Larry Franklin, a Pentagon employee suspected of passing the group classified documents on Iran.

However, insiders say the investigation has appeared to be moving away from Franklin and toward Rosen and AIPAC.

...Steve Pomerantz, a former FBI investigator who consults for Jewish organizations, said the nature of the subpoenas suggests that FBI investigators know what they're looking for.

“This is not a fishing expedition,” he said. “It's clear to me they have some specific information which is leading them in a specific direction.”

...Some Jewish organizational officials have raised concerns in the past about David Szady, the senior FBI

counterintelligence official overseeing the probe, and whether he targeted Jews inside the agency.

Pomerantz said he had never seen anything to suggest that Szady is anti-Semitic. In any case, he said, the idea that an individual could hijack the nation's premier law enforcement agency for a personal agenda was far-fetched.

“The FBI is not suicidal,” he said. “They are not taking on AIPAC lightly or without full knowledge that this is a powerful organization seen positively by this administration.”

Box 27800 Las Vegas, NV 89126, USA) which is responsible for publishing the instrument as a legal notice. In the Republic of the Philippines, comments and objections may be filed in writing by addressing Global Alliance Investment Association at 6751 Ayala Avenue, Makati City, Metro Manila, Philippines. Others may be addressed to Global Alliance Investment Association, 5344 Images Court, Las Vegas, Nevada, 89107 USA.

This Public Notice is being run by GLOBAL ALLIANCE INVESTMENT ASSOCIATION (GAIA) as an "interested party" in the DON ESTEBAN BENFITEZ TALLANO & DON GREGORIO MADRIGAL ACOP FOUNDATION, INC. (FDN).

In a letter addressed to the Solicitor General (Republic of the Philippines) dated February 9, 2004, Subject: PROPOSAL TO COMPROMISE AGREEMENT in case entitled Republic versus RTC, PASAY CITY, BRANCH 111, C.A. GR NO. SP 70014, Mr. Romeo Cervantes Campos states, "...the undersigned, in his capacity as the present Administrator of the Estate of Don Gregorio Madrigal-Acop..." In the fifth paragraph of the same letter Mr. Campos states, "WHEREAS, Romeo Cervantes Campos was judicially recognized by the new succeeding judge of the same court, (Hon. Judge Ernesto Reyes), as Irrevocable Attorney-in-Fact and Administrator to the property and who has faithfully complied with the task of securing the release of TCT No. 408 from the Register Deeds of Rizal, Pasig on the 19th day of December 2001..."

To represent to the government that he is the "Administrator" of either the Estate or the "property" is a gross attempt to defraud not only the government but also the FDN.

The ORDER of the Court reads as follows: "At bench is an ex-parte motion filed by Mr. Romeo Cervantes Campos, whom Intervenor Julian Morden Tallano appointed as his true and lawful Attorney-in-Fact on July 18, 2000 empowering him to file actions in court and/or to sue and to recover various parcels of land on which the principal has rights and interests therein.

"Movant manifested that his principal has subsequently issued an Irrevocable Special Power of Attorney on April 23, 2001 a copy of which was furnished the court thereby expressly revoking the previous SPA..."

"Considering that above-mentioned document was executed voluntarily by the principal—Mr Julian Morden Tallano, the same is hereby duly noted and confirmed as integral part of the pleadings in the above-entitled case. SO ORDERED. Pasay City, September 26, 2001. Signed ERNESTO A. REYES, Judge"

Quite obviously Mr. Campos has NOT been recognized by the court as the "Administrator to the property" and is feloniously representing himself as such to the government. "The property" referred to is alleged by him to be the "...Estate of Don Gregorio Madrigal Acop..." which of course does not exist since the Estate referred to is the Tallano/Acop Estate of which Julian Morden Tallano is the Court Appointed Administrator. Furthermore, the specific wording of the SPA affords Mr. Campos no authority to unilaterally dispose of property.

Therefore, this Notice is published to help protect the interest of the PEOPLE of the Republic of the Philippines from any such nefarious scheme as this PROPOSAL TO COMPROMISE AGREEMENT, which offers:

"1. All the lands which are subject of this present litigation, save those acquired by possessors in good faith and for value, shall be donated/rewarded to the Philippine Government... and

"3. The Administrator, concomitant to his liberality in the bequestal of said real estate properties, shall however be allowed to retain in ownership an area of said donation equivalent to 1.5% thereof, (or 594 hectares) and said extent of land area shall be named under ROMEO C. CAMPOS, free from any back taxes, fees, and other incidental expenses of land titling and registration."

Whether Julian Morden Tallano will take action to expose the perfidy of Mr. Campos remains unknown. Global Alliance and the Foundation is making hereby it known to all of those persons who are interested and wish to inquire.

Copies of this Notice will be available at any of the three addresses provided above.

IN WITNESS WHEREOF, the undersigned have executed and sealed this authorization as of the date hereof.

For the Corporation, dated at Makati, Manila, the Philippines, this 22nd day of November 2004.

E.J. Ekker, President & Director

Doris Ekker, Secretary & Director

Ronald Kirzinger, Executive Vice President, Witness

NEVADA CORPORATIONS:

The Myth And Reality Of Dividend Double-Taxation

Budget's "Tip of the Week" #13:

Getting Money Out of a Corporation Avoiding Double Taxation on Dividends

"You don't want to take income into a corporation because there is double-taxation on dividends." This statement is only partly true and a half-truth is almost always intended to mislead. The truth is that a corporation earns money on which it is taxed; then, IF it pays out a dividend, the dividend is taxable in the hands of the recipient. Perhaps a better way to express the truth of the matter would be: You don't want to pay dividends out of a corporation because they are subject to double taxation. But there are many other ways of taking money out of a corporation, so the real question is why you would ever take it out in the form of dividends.

The primary method for taking money out of a corporation is in the form of payments for services rendered. Any such payment is a deductible expense to the corporation, reducing its taxable income. At the same time, however, such a payment becomes taxable income for the recipient. You don't want to receive much income personally because in all likelihood you will pay more in taxes on income received personally than the corporation would pay in retaining that income itself. On the other hand, if an individual keeps living expenses moderate and takes out only what he needs, his personal tax rate is often not much higher than that on corporate income, resulting in an effective income split and reduced overall taxation.

Keep in mind that a corporation can pay wages to any number of persons for services rendered, so it can be quite practical to have your spouse or children on the payroll, as long as they do, indeed, provide some sort of valuable service. And before you dismiss the possibility of payments to your children, consider the potential value of intellectual property. Yes, a good idea for developing the business is compensatable as "intellectual property". No spouse and no children and still need some income splitting? Perhaps you could acquire or pay for the "intellectual property" of another private corporation?

Don't forget that a corporation may hold assets in the form of retained earnings. Without stating a specific plan of development, it is considered reasonable for any corporation to keep up to \$250,000 in retained earnings for future business development. Earnings may still be retained above this level without triggering the accumulated earnings surcharge prescribed by *Internal Revenue Code 531-537* provided there is a plan for expansion of the business (this could include, for instance, the acquisition of another business); for paying off debts; for product liability loss reserves; for supplying loans to either customers or suppliers to maintain the viability of the business; or for the need for increased working capital (say, to acquire additional inventory for the business).

CORPORATION SETUP AND MAINTENANCE FEES

Budget Corporation—includes:

- First-year resident agent fee
