GAIA Offers Unlimited International Relief Fund

Will the Bush family, and especially Jeb Bush, work with GAIA to allow implementation?

As the death toll from the devastating earthquake and tsunami of two weeks ago rises above 150,000, world leaders have been meeting in Jakarta, Indonesia to survey the damage and work on relief plans. The United States has pledged \$350 million (versus \$200 billion spent killing Iraqis in the last couple of years) to cope with the staggering problem.

It has been estimated that up to a million more people in the region will die from disease due to contaminated water supplies and lack of proper medical attention. And the quaking has not stopped, with well over 100 large-magnitude "aftershocks" registering since the main event.

Meanwhile, Global Alliance Investment Association continues to stand "ready, willing and able" to provide virtually unlimited assistance for all kinds of humanitarian projects. Who will work with that which is offered?

1/2/05—#1 (18-139)

RE: *WHERE ARE YOU WHEN THE "CHIPS" ARE DOWN?*—GCH/D

OBSERVATIONS CLOSE TO HOME

Home in this statement means "self", greetings and impacts as in "cause" and "effect"—as "when the next stone is flung and it is one too many". It certainly is "interesting times". You are given the most precious opportunity to serve, change an entire world, and still you want "someone else" to do it "for" you, and some are quite irritated that our work is so slow. WE ARE IN THE MOST TEDIOUS OF ALL TIME AND PLACE AND IMPATIENCE SWELLS WITHIN BUT I WATCH AS PEOPLE

COMPLAIN, SUGGEST, AND SCATTER "PROMPTING" INSTRUCTIONS, AND ALL WITHOUT ANY NOTION OF CIRCUMSTANCES (REALLY), OR THOUGHT OF POSSIBLY DIFFICULT TASKS CONSIDERED BY "ALMOST ALL OTHERS" AS TOTALLY IMPOSSIBLE AND "AGAINST ALL ODDS".

I'm sorry, friends, but others involved are also "human" and perhaps it is time I speak of these things of which you will likely find somewhat more than what you want to hear.

I will address some things which were sent specifically to "Doris". Are they actually for me? Are they urgently important somehow for her? Are they complaints or are they intended as pats on the back or slaps in the face (hers or mine)?

GOD IS WAITING FOR "YOU" TO DO SOMETHING BESIDES "STAY SAFE AND SECURE" AND NOT SPEND TOO MUCH OF

“YOUR” MONEY. IN OTHER WORDS, LET GOD AND SOMEONE ELSE SAVE THE DAY, WEEK, MONTH OR CERTAINLY, THE YEAR.

In the very face of doing absolutely everything to get a job done at the worst time of the year and to establish a coalition based on GAIA and collateral assets (as set forth on DAY ONE in this journey), “Doris” receives the following and yet scattered to a wide audience on email communications. This from one who has done just about as much damage as would have been possible to our products, our corporations and yes, our paper and personal email circle as in “family”, *et al.*

The message was short and pretty well worded, but do not forget that I can know intent and exactly when we are being quite soundly “chided”.

“What a fantastic opportunity to benefit ALL mankind by establishing a GAIA World Disaster Relief Organization!

“If not NOW—WHEN? Blessings and Happy New Year!”

We assume the reference to “opportunity” lays somewhere between Tsunamis and earthquakes (well, “sea quakes”) of which there have been sixty-plus of major size (5 or over) in less than a week in the South Asian island chain, from Sumatra, Nicobar and the Andaman Islands. Also “natural” floods are hitting Sri Lanka as we write—causing more devastation to the “refugee” camps. Oh gosh, God must be a terrible thing? No, MAN creates his own reality.

Please don’t try and fool ME; most of you haven’t the slightest idea until NOW so much as to

where these places are unless you, of course, vacation there with the millions of Europeans who can afford to travel hither and yon to relax and recuperate from strenuous lives of self-gratification and hard days at the “exchange” desk. How many people do you actually suppose were “there” in the area to solve the woes of the world? No, not even one, and not even the people who LIVE THERE (or perhaps better put—did live there).

These are not NOW creating more Tsunamis—but more are coming while the playing holiday crowds are drifting around in merry-making.

There IS a little island less than 15 miles from the epicenter near Aceh where the people simply listened to the teachings of the elders: THEY WENT TO HIGH GROUND THE MINUTE THE QUAKE WAS FELT. Why? Because the handed down wisdom is practiced: “Feel a quake—go to high ground.” NOT ONE PERSON WAS INJURED FROM THE WAVES—NOT ONE. The minute the ground shook smartly they dropped everything and went to the high ground.

Now Readers, this is a place that was ACTUALLY MOVED BY SEVERAL METERS AND “RE”LOCATED. THE SHIFTING WATER EVEN CAUSED THE AXIS OF YOUR GLOBE TO “WOBBLE”.

So, make your complaints, place your blames and expect something for nothing, but light candles and stay on your knees instead of work and let’s just see who and what “gets there first”.

IS IT POSSIBLE THAT IN PLACES SUCH

AS ARE FOUND IN VOLCANIC AREAS—WHERE FOOD WAS ON THE TABLE AND PEOPLE “THERE” AT THE TABLE, AS WELL, AND ALL WERE MISSING—THAT THEY HAD A SIMILAR “WARNING SYSTEM”?

Now the talk is of massive warning systems and lack of same, to blame. Poo! In the words of Jack Nicholson: “You can’t handle the truth,” so why taunt us about what we can’t get accomplished this afternoon?

The whole purpose of a successful GAIA program is already fully established for disaster readiness into the billions of dollars (or whatever the currency might be). Ah but, SOMEBODY has to stay the course long enough through whatever difficulties and LACK OF SUPPORT may come, to get it done—DON’T WE? I suggest that inquiring minds GO BACK AND READ WHAT WE HAVE TOLD YOU OVER AND OVER AGAIN—RIGHT DOWN THE MOAs AND PROGRAM/PROJECT OUTLINES.

There are NOT going to be “magic” showers of “do it for me”. You have been LIED TO for centuries (at least 2,000 years) that somehow your SALVATION is not your problem so let somebody ELSE die for you. TRIPLE BS! Well, it isn’t OUR problem either!

We have, further, friends of the spiritual path and healing arts IN INDIA. Ah, but, they are staying quite “safe” at the “Master’s” feet a long way away from the disaster.

We have the way, the product know-how, to

GLOBAL ALLIANCE INVESTMENT ASSOCIATION

PUBLIC NOTICE

This notice will be construed as a continuation of compliance with provisions necessary to establish presumed fact (Rule 301, Federal Rules of Civil Procedure, and attending State rules). If all interested parties fail to rebut any given allegation or matter of law addressed herein, the position will be construed as adequate to requirements of judicial notice, thus preserving fundamental law. A true and correct copy of this Public Notice is on file with and available for inspection at the newspaper CONTACT (P.O. Box 27800 Las Vegas, NV 89126, USA) which is responsible for publishing the instrument as a legal notice. In the Republic of the Philippines, comments and objections may be filed in writing by addressing Global Alliance Investment Association at 6751 Ayala Avenue, Makati City, Metro Manila, Philippines. Others may be addressed to Global Alliance Investment Association, 3132 West Post Road, Las Vegas, Nevada, 89107 USA.

MEMORANDUM OF INTENT

USE OF GLOBAL ALLIANCE INVESTMENT ASSOCIATION HOLDINGS FOR INTERNATIONAL RELIEF FUNDING

January 4, 2005

This notice is addressed to and for the attention of Governor Jeb Bush of the great state of Florida, U.S.A. Governor Bush is certainly one who will recognize GAIA-CSEML (Global Alliance Investment Association-Cosmos Seafood Energy Marketing Ltd.) holdings as associated and validated by his father, George Herbert Walker Bush, in his former capacity as Director of the CIA and former Vice President then President of the United States of America.

You, Jeb Bush, were the FIRST “Bush” contacted after the holdings of Bonus 3392-181 in the turnover of same “all interests” of agent-holder of said asset.

The asset was first in the form of a Peruvian Bearer Certificate, later turned over to and fully qualified as an “individual and identified” holding of CSEML by holder, *RUSSELL E. HERMAN*, in support and backup for continued use by Mr. Bush and his colleagues and recognized as his “Super Fund”.

This holding has been qualified and validated fully. Full turnover to GAIA came in 1993 and was made operative in 1994, fraudulently, by one Vina Katherine Durham who falsely claimed to be the widow of Russell Herman and 100% holder of the asset in point. This has all been PROVEN to be fraudulent, forged, and presented completely in criminal intent and actions.

In or around 1996, you Mr. Jeb Bush, were contacted in reference to handling the asset assignment by none other than Lt. Cmdr. (Ret.) Al Martin who was most recognized for his involvement and your association during the Iran-Contra days. This is for identification and verification without intent to distract.

GAIA-CSEML was told exactly how to give legal creditability to the documents and to the holding itself. These instructions were carried forth in detailed presentation--through the Department of the Treasury of the U.S., the President (and all those following George Bush), Secretary of the Treasury from Mr. Baker the IIIrd and all since in place. All was registered with full information and intent of action with, at the time, second highest Treasury person who then became Secretary of the Treasury, William Summers. All information was also forwarded to and through Mr. Robert Rubin who was also at the time Governor of the Inter-American Development Bank in conjunction with Inter-American Investment Corporation, which was not incorporated until 1997 in order to cover our own assets and keep VK Durham from seizing the asset (corporation) for her own unlawful purposes.

We offered the asset to the United States and were met with “We will not deal at this time,” by President Bush (Sr.). There have been no further “dealings” although misuse of the asset holdings were unlawfully utilized and brought great damage to the banking systems globally. We have never denied nor have we refused interchange at any time. Neither have we declined potential sharing of all assets with the people of the global community.

We have continued to form a very feasible program whereby the asset represented in GAIA is FULLY BACKED with GOLD COLLATERAL as is represented as a holding in the CENTRAL BANK of the Philippines, but a major shift to private ownership in 1993 changed the Central Bank into the Bangko Sentral ng Pilipinas under the instructions of Fidel Ramos.

Part of those holdings are remaining holdings of Ferdinand Marcos who was in association with the United States of America in global planning for currency coverage through gold based currencies. The story of F. Marcos has no need for repeating in this document. This is in spite of the fact that we have a major holding position in the Tallano-Acop Foundation (FDN) of registration in both the Philippines and in the United States of America, Nevada incorporation. We control some 40% of the assets of the FDN, under law, and are fully represented as to assist in the recovery of the COURT ORDERED RES JUDICATA ISSUANCES.

The gold holdings first registered as 617,000 (minimum) METRIC TONS in shelter and holding by that Central Bank was last inventoried more recently as only having 400,000 metric tons remaining while the rest was smuggled unlawfully from the bank itself.

This is not our concern other than to establish through valid public notice that at least 400,000 metric tons of gold SHOULD be intact and in holding in the Philippine Central Bank VAULT. The gold was used for leasing and payments were made to the Prior Administrator of the estate in point. Although the payments ceased being made it is further noted, however, that the gold was ready to be released for use of the Estate and FDN in year 2000.

handle the "infections" and diseases and TREAT the water—but no way and no volunteers to even get the product out of Makati, Philippines.

If not YOU—who? Us? OK, thank you for the support. We shall get it done but it obviously will be on our ability to function time schedule and so be it. "If not NOW—WHEN?"

We don't know so when are YOU going to get this done?

Do we come off as insensitive? Consider how your hits might impact those doing the very best they can to precipitate action. Too quick on the draw with a half-cocked program and STOP is the operative term!

We have people at very high levels working ASAP on this and the proper steps have to be through the proper line of command. AH BUT—when going to the Embassies to make connections—EVERY EMBASSY IS CLOSED FOR THE HOLIDAYS! The Ambassadors won't be back until after Tuesday at the quickest. They are off on vacation as was Kofi Annan of the UN and G. Bush so who can possibly RESPOND to any bothersome "solution"? 'Tis fine—GOD CAN WAIT!

Wouldn't it be lovely if the Ambassadors were to have gone home or to the area of disaster? Not so, friends—it was and still IS, vacation holiday time! Oh well.

The facts are that the ones doing this nasty trickery—chose the time PERFECTLY! Meanwhile YOU miss everything ELSE happening here and there in nitty nasties.

FBI PROBES JET LASER THREAT

Oh wow—and in the U.S. too!

Oh those lasers are dandy WMDs, good friends. I will offer just a short piece later regarding such light waves as these lasers are being AGAIN directed into the eyes of the cockpit crews of aircraft from U.S. coast to coast. NOW come announcements that "terrorists could use the devices as weapons". Where are your brains, citizens? It is exactly what brought down your infamous "over Texas" shuttle loss. If you can read—go back and read 18 years, minimum, of our writings for we have kept NOTHING from you—not even our hoped for projects here and yes, also there where you ARE.

The bigger problem is that we have so few who even help us that it is quite boggling that those who do not help do insinuate and demand the most impatient innuendoes of "failures" or lack of speed and always the messages are worded in such a way as be able to somehow claim to have not meant it the way it IS. NO, YOU MEAN IT EXACTLY THE WAY IT "IS".

"What's in it for me?" is the bottom line and no, that is NOT the way GOD measures a man other than discounting GODLY intent.

If saving a person, a nation, a world, or even yourself, is not worthy of your giving "something", then how can you possibly expect GOD to furnish you with more lies in the face of TRUTH?

How can anyone expect a piece of "GAIA" if you are not willing to even help us stay alive?

So again to the "If not NOW—WHEN?"

What difference can it possibly make? I, too, think NOW would be a dandy time as to "when" but "there you go..." Free will planet is exactly THAT—every individual has FREE-WILL to create, destroy, blame, or claim others to act, etc. A lot of people respond simply as: "Get a job and get a life!" "I gave at the office" sounds good but is as transparent as crystal glass. You gave "time" when I am most interested in what you were doing when you weren't giving "time" to anything related to our "cause"?

* * *

I am going to intentionally leave out references to ongoing activities regarding specifics about our actual work here TODAY.

We are awaiting a final ruling on injunctions regarding the Tallano standing in the Court of Appeals. Now, it is expected that the ruling is going to be favorable for the following couple of reasons: 1. Tallano offered a tremendous whack of the T-A holdings to Lady Unconstitutional President GMA and she, in turn, through her half-brother lawyer, is arranging to have that ruling turn out favorably. Well, it is tacky but yes indeed, a positive ruling can only help "our side". This coupled with rumors of use of GAIA and "those Ekkers" speaks of full recognition of holdings—proven by the acquisition of a certain Peruvian Economic Top Adviser who has already confirmed the documents in Lima, Peru. Wow, I consider that a good afternoon's work, friends. COULD "YOU" HAVE GOTTEN IT DONE? Well, we have four hands here and they have managed to

This asset is now committed to support the GAIA co-venture which is now fully qualified and far more established than you might at first surmise.

GAIA's agreement is to use the assets "off shore of the domestic United States" to shelter individual parties and to only issue some 5 TRILLION dollars in "assignments" (used as collateral, for reserves and consideration) annually. This now presents since inclusively 1996, as some \$50 Trillion US Dollars.

This also assumes that since 50% of the total assets accrued, mostly in interest alone, have been placed in CSEML and kept intact in holding for the use and reconstruction-reclamation of the United States and adjacent countries thereof, that there is unquestionably \$50 TRILLION assignable to these entities just referenced.

The asset itself is so massive as to have given us cause to "cap" the sums into useful size to be actually backed by gold metal or other precious metals as qualify for tender.

We do NOT have to have gold available at the moment of entry of reserves but the GAIA assets will be fully backed by gold which will also be held in banking reserves and used for collateral but retained in the Central Bank of each participating sovereign nation.

The program, basically simplified for example, is as follows: GAIA will issue a Deed of Assignment for Consideration (Deed) in a predetermined agreed upon amount, i.e., for example, 1 million dollars exchange value relevant to any sovereign nation. The "Deed" will be issued in ORIGINAL form and document to authorities established along with a Memorandum of Agreement (MOA) delineating use guidelines and instructions for operative management and banking requirements to obviate ANY POSSIBILITY OR POTENTIAL OF ILLICIT USE OR HANDLING OF FUNDS.

The Deed will be issued at the amount referenced times 2-1/2. Example: a Deed for one million dollars will be issued in the amount of \$2 and a half million. One million goes to the project co-venturer, one to GAIA for gold PURCHASE and to be held in the bank of choice with only consideration for less than 20% used by GAIA for expenses and holding. (The withdrawals will be further handled as loans to GAIA to prevent any potential of "money laundering".) The sums remain as useful reserves for the bank and while in holding before immediate need for release for project funding, we ask and suggest that the "venture partner" also purchase gold against which he can draw as needed for fundings, allowing additional security for the bank as well as cutting costs of individual project. The project, in other words, is not placed in jeopardy by failure of ability to repay but the gold is held as collateral to secure any loans. The value of the gold should present adequate coverage of any "interest" requirements. The remaining \$500,000 is utilized in the same manner but will cover expenses, management, facilities and operating procedures, i.e., planning, engineering, accounting, and personnel necessary for the project or program in point.

GAIA, wishing no notoriety of any kind prefers that this program as established can be handled without particular reference to individuals but as an international benefit and service through AN ALLIANCE established in its name.

We would be greatly pleased to have the United States receive recognition as to facilitating this program and would be equally pleased to have President George Bush receive ample personal credit. The asset, however, will not be utilized other than for the benefit of mankind of all creeds, colors or locations.

This is the time in historical evolution whereby this can be a massively important survival support system in basically UNLIMITED funding for the benefit of mankind--ALL MANKIND.

I have addressed this to you, Jeb Bush, because you can be the recognized source of credibility of assets available but without any personal involvement as to what came before now in historical evolution or holding responsibility for that which will now present except as in credit and appreciation.

This program SHOULD NOT come as a surprise to anyone for it has been made amply public even to the United Nations and personally to Kofi Annan. It is fully anticipated that all parties to the point will offer "plausible deniability". So be it.

We would further suggest that this be expedited in all possible haste as people continue to be lost and dying. We can stop the onset of infectious epidemics and have immediate rebuilding underway in less than a week.

We do not need to meet and confer as our guidelines and requirements are spelled out in detailed instructions and we can produce backup support of the FDN although gold is not necessarily to come from the Philippines holdings. The gold is for security, support as in collateral but to fully BACK any currency put into the public as printed against these reserves.

This is presented from the individual, Gyeorgos Ceres Hatonn who is well known by those participants in the Bush circle of associates.

Thank you for your immediate attention, Gov. Bush, and may your legacy be long-lived on the global list of appreciated entities who "passed this way".

This will be published, in addition, as an "OPEN LETTER" and, as well, as a PUBLIC NOTICE to meet lawful requirements for registration and documentation. GCH

[Post Script from EJ Ekker: Late breaking news is that the two Presidents Bush and William Clinton have accepted the challenge of raising money for those Nations having suffered losses from the Tsunamis. All three of those gentlemen are familiar with the CSEML/GAIA asset and with their cooperation and that of the afflicted nations, we will be able to make the repairs and create the systems required to protect the people. If the nations will use the GAIA program all of the assistance received can be fully repaid, not only to nations such as the USA, but also to all organizations and individuals.]

get it that far while struggling through life while making those other plans.

We are not asking for accolades—we are asking that you stop flinging rocks for our people have nothing further to “give up”, not even family. So be it, for in the annals of history it will be no more than a blip on a screen but there will be noted a “time” when things CHANGED. How did you expect that good old “deaded Christ” to return? Oh yes, now I remember... clouds, salvation, wings, raptures (unless of course, you are not a Jesus person and then it is death and brimstone in Hell!). Gee whiz, what a lovely notion in which things must not be so bad here, tsunamis and all. Who is going to feed you, clothe you and shelter you—on those CLOUDS? God? Oh right, after you have cursed HIM soundly and demanded things be done YOUR WAY? Nifty, if you can get it, I suppose.

I also expect you to go back and read AGAIN the *Protocols of the Learned Elders of Zion*. You have been “HAD”, hook, line and LEAD sinker. Put in a few more delusions and FACE FACTS and we can work through these dastardly plans for your enslavement and massive destruction of people as depopulation of your planet continues.

NOW TO YOU FILIPINOS WHO THINK THE PHILIPPINES AREN'T IMPORTANT—A WORD OR TWO, YES, EVEN ABOUT TSUNAMIS.

We will bring this to publication along with request for a MAP of the Philippines with the “trenches and troughs” so that you can see the predicament and DANGER facing this very archipelago.

[QUOTING the *Philippine Daily Inquirer*, Opinion Section, Page A14, January 2, 2005:]

“Tsunami” is from the Japanese words “tsu” (harbor) and “nami” (wave). It is caused by SHALLOW-SEATED EARTHQUAKES OCCURRING UNDER THE SEA WITH MAGNITUDES OF AT LEAST 7 AND WITH ACCOMPANYING VERTICAL DISPLACEMENT OF THE SEA FLOOR. The vertically moving sea floor pushes up the water column, producing a huge bulge on the surface of the sea, which, upon collapse generates giant waves or tsunamis.

A tsunami consists of a series of waves arriving every 10 to 60 minutes. In coastal areas, the waves can be as high as 10 meters and can move up to 2 km inland. [H: Hold your breath for this is NOTHING compared to the BIG ONES waiting to hit elsewhere but for now we will focus directly on the Philippines only.]

Some 44 earthquakes have generated tsunamis in the country (Philippines) since 1856. A tsunami and a magnitude 7.8 earthquake, caused by the movement of the Cotabato Trench, hit Mindanao on Aug. 17, 1976, killing some 8,000 people.

Of the 796 tsunamis recorded from 1900 to 2001 in the Pacific Ocean, 117 caused casualties and damage, according to the Tsunami Laboratory in Novosibirsk. Of the total, 9 percent was GENERATED IN OR NEAR THE PHILIPPINES.

The high death toll from the tsunamis

triggered by a magnitude 9 earthquake off Sumatra on Dec. 26 showed that countries in South and Southeast Asia and on the eastern coast of Africa were ill-prepared for the killer waves.

[END QUOTING]

What have “I” done to protect my team in this pending disaster already happening? I have them on the 25th floor of a building far enough away from the sea as to have to go through a major BAY and have to travel some 30 kilometers at over 60-ft. waves to knock them out. This old building is still the best around here because it has withstood some really nasty killer quakes—undamaged. Water in the parking underground might well be nasty but will not interfere with daily routines as long as the power stays ON.

The quakes are already hitting the Philippines so what else is new for this Sunday in paradise?

Now, please, to you who are offended by my discussion I would remind you that “discussion” indicates a two-way interchange—no more; no less.

I also get back interesting comments about “If they (our team) need anything from me they could just ask.” No, this team WILL NOT ASK. Our whole experience is as open as a crystal book.

This is simply the bottom line, good readers, and if we must beg, we shall not!

If you could have helped and didn't, or stopped, or whatever else may have interfered with this goal, then it is FINE, don't you see? Choices are YOURS, not “ours” as regards YOU.

We are NOT in some spiritual quest or conquest. We have a very difficult (called impossible) task at hand which is manifest in very personal human physical form and that is simply WHAT IS. Debating, quarreling or threatening us will not change an iota of the facts of this incredible mission.

So many of you are literally wallowing in boredom and “wishes” that it is truly shocking that you overlook the most exciting and incredible mission ever to be brought forth on YOUR PLANET and within cosmic interchange. So be it.

Dharma, I don't want to write more because I want the information on geophysical happenings presented in the paper as soon as space allows.

Opportunities knock, Dharma, and all we can do is be prepared and open the door. If we are doing the “knocking” and the door is shut or slammed in our faces—it is fine for we will simply move on JUST AS DOES GOD. Others must find their own directions, stagnate or move on—but it is no business of yours as to “which”. We do NOT push, drag, force or demand anything—we offer, accept response and move on.

GCH

In This Time Of Kali If Not YOU—WHO?

12/31/04—#1 (18-137)

FRI., Dec. 31, 2004 7:45 A.M. YR 18, DAY 137

Manila, Philippines

RE: EVENTS TO NOTE: THANK YOU BACK HOME. TSUNAMIS, POLITICAL INCREDIBILITIES, A DIVE INTO THE DEEP OF GAIA, FDN AND OTHER POINTS OF THE MOMENT—DJE

THANK YOU AND OBSERVATIONS OF THE MOMENT RELATIVE TO “HERE”

If not YOU—WHO?

Not knowing where in the world to start this letter home I am stunned at the pile-on of un-natural events but of which we have most certainly become accustomed to facing as “new circumstances” every day of our awakening lives.

I’m afraid that I have reached an unbelievable observation that MAN is totally nuts!

This morning the paper’s headlines and front-page pictures are of British tourists in their sun-suits (non-clothes), lolling on the beach of the hardest hit Tsunami area in all of Asia. Comment: “Nothing is going to ruin our vacation!” This is the attitude of uncaring “visitors” with the “it’s not my problem” and we have come to Phuket to holiday”. So, pronounce Phuket any way you like and it will still sound enough like the “F” word to enjoy the irony of the moment as in Phuk-et. Pardon the total crudeness of the circumstance. Near (well, a long way OVER) 100,000 bodies “stinking up the place” which also forced the tourists back to the beach with on-flow winds to be able to “survive the stench”. Oh my, and WE are supposed to do something miraculous?

So be it, we ARE.

Soltec has promised he will give us another TRUTHFUL geological lesson in a few days but our time is back-to-back, wall-to-wall meetings and instructions follow-through in this day of “opportunity”.

Welcome to the world of Tom Bearden’s predictions and impacts of energy that actually move islands and wobble the very planet. And no, it was NOT a 9.2 quake—that was the start but the massively shifting water did the rest. Please also note that the damages to the South of epicenter were extremely minimal when this thing should have put Australia to a full-blown spin. A test run to disaster presentation, we are shown in blood and horror—while blaming it on GOD. Mind you, not the Monkey God or Elephant God or even Sai Baba—but the CHRIST God. So, to move on and let that lay a few days more, please.

Our duly elected President of these Philippines, FPJ, was assassinated right in the face of dozens of partygoers just before Christmas. Funny thing was that a hearing was scheduled for the very following Tuesday in which it was already presented that he had won the election by some 2.7 MILLION votes buried in corruption. That hearing was to blow off the lid of the corruption so appropriately enough he had whatever he had two days before and of course the

hearing AT THE SUPREME COURT was put aside.

Funny thing back at the farm: The administration players had presented fraudulent documents at the onset of the campaign showing FPJ was not “actually” a Filipino. This was an incredible publication that DIDN’T FLY then or now. BUT the man doing the ruining of documents in the records of historical value is now cleared of all charges as he had been ordered to again appear before Congress for interrogation and then on to court for criminal trial, was released yesterday because it is said the witnesses didn’t produce documents and thus the case could not be heard. How is THAT for interesting law?

Facts are that many such “interesting” legal proceedings take place on weekends when NO ONE IS IN THE COURTS. Oh well, just remember that the adviser and Ambassador to the Philippines who is TOP ADVISER, is the FORMER HEAD OF THE MOSSAD. Even the American (U.S.) ambassador has had to admit that even “he” is celebrating Jewish holidays at the Embassy as did Bush at the White House with the smile that he, too is partly “Jewish”. Perhaps everyone should take this opportunity to do some serious reading of the past 18 years of just the Journals we were able to publish. We are IN THOSE TIMES of which the prophets so eloquently spoke in their very human forms. Certainly that Time of Kali (chaos) is upon us all.

In the same notion of possible manipulation it is interesting to note other spectacular things WRONG with information regarding this massive South Asian quake. It went from 8.9 to now, 9.2. It was always listed by the U.S Geological Survey as an “above 9” so how in the heck did they know in ADVANCE? Then, it had to match the numbers so was raised to 9.2 to meet the needs of the moment’s most carefully monitored and manipulated “results” of such a “hit”.

Moreover, this massive hit was not a slippage or a “slide” as it was a vertical displacement which always, in the sea bed, causes tsunamis which can now be DIRECTED along the HAARP grid and nicely presented strings of quakes at chosen Island Mountain Ranges moving through the places bordering “deeps”. Displacement of waters in the “deeps” can be totally devastating as proven this instance. Moreover, the immediate damage from the 9.2 epicenter strike is not the worst of it as it only proved the “directional capabilities” of such management but then the follow-up string (51 “aftershocks” 5+ Richter through 12/30) in the undersea mountain chain off Sumatra and North to the Andaman Islands which are obviously separate “hits” and until yesterday all but one or two at the SAME DEPTH of approximately 10 kilometers which “could”, and probably will, slip the entire range as now the new shocks are consistently “deeper”. [Many of those earlier shown at 10 km depth have been “corrected” since some 30 or more quakes all at 10 km looked suspicious.]

More interesting to note are THE PEOPLE who would usually be vacationing during these particular vacation days WERE NOT THERE. It would remind you of the Trade Center and/or the Oklahoma incidents. Are we naïve or what?

So much for Asian quakes as we go about our plans while life interferes: We wish to thank everyone who, we hope, made the move, finally, to other facilities in Las Vegas. This, again, during the worst TIME of the year for last minute shifts, etc. This will ultimately bring better security, and for our “about to be” corporations in South Asia, etc., we are thankful to have it out of the way to better manage the paper as well. We still have to, apparently, do it all in steps and while clearing out a lot of debris in the process. But, it can apparently be handled if we don’t have to “overload”.

I can’t name names in the thank you lineup but we are now able to get on with updating of the corporation manuals and adjust to more “international” intercourse. We have to wait and see how this shakes out here.

PHILIPPINE “ERAPPTIONS” (ERAP ESTRADA AND BAD KNEES)

So the powers that be “here” let Erap out to go to Hong Kong to have his U.S. orthopedic surgeon fly in to do surgery on his long-damaged knees (and which could have quite easily been accomplished in Manila but without the hoopla).

AH BUT—when in Hong Kong with family and already prepared for the surgery, the surgeon was denied ability to “work” in Hong Kong. On again, off again is again on again—but awaiting whatever comes next.

It is KNOWN that in the upheavals of the Philippines it WILL BE swirling around Erap Estrada, who is constitutionally STILL THE PRESIDENT. Well, without FPJ it is probably good for our side but being apolitical we have to note that we have no input.

We do now know that the Peruvian economist hired by President Gloria (GMA) is ending up to be a sort-of blackmail deal—a job as top economic adviser in the shape of De Soto of Peru (actually no joke). He can validate GAIA and has done so—IF he was put into high places of political payoff. Now, how is that for “being important”?

But friends, with this sort of flirting with incredible events, isn’t it good news—probably, even if appearing at first glance non-functional?

THE FOUNDATION

We are told by the judge on our side that he has been told that the decision regarding an injunction placed on everything “Tallano” will be forthcoming very soon (actually yesterday—but it didn’t happen). This will turn out positive for us no matter how it actually presents. We only need the backup from the FDN as to agreements for potential gold holdings to present our solution to the emergency mammoth funding now required to allow any survival in the South Asian states.

We have enough trouble just getting together enough directors to even have a FDN meeting and when called to emergency session day before yesterday—ONE, besides EJ and I, showed up. Again, Oh Well. We just have to pull a bit of rank in the holding category and move forward with the

U.S. corporations backing us and the 40% recognized holding HERE.

We already have signed documents WITH GAIA between these parties, which allows us to move on in the face of such incredible antics.

We went on and had a major meeting and agreement with guests. We have the “Captain” from Norway, the businessman from South Africa, and the rep from Papua New Guinea willing to do any service possible in this emergency circumstance. Norway has only about 3 million people of which at least 800 who were vacationing in South Asia—a popular winter retreat—are “missing”. So, opportunities abound in GAIA-land.

SO TO SOLUTIONS

Of course we HAVE the solution and even VK Durham has recognized that and tried to get Rick to go to Iran in 1997 to offer help for the 7.1 quake in Eastern Iran: 1,613 dead and 3,712 injured. Rick couldn't go because of the U.S. Sanctions making it off limits to U.S. citizens. Now, however, we will get help from some very important allies HERE.

A proposal has been issued and will be taken by a Senator to the Ambassadors of every involved nation backed by any necessary gold holdings of the FDN. That will start being presented TODAY so we look forward to some busy weekend jobs to bury us a bit longer from any routine writing or activities.

Some of our already now established colleagues are already in Hong Kong where higher-level decisions regarding Filipino involvement can be best established. I am not naming names because we are journalists and our sources are kept both private and confidential.

This whole arrangement could be totally private and never made public until countries begin to have assets to help THEMSELVES. There is no claim being made against the U.S. The debt will only be used as “reserves” facilitating funds backed by equal purchase of gold which can produce the funds for obtaining help and recovery of the stricken nations—most especially Indonesia.

I believe we will find that the six and a half years here has truly come to this day with having been well worth the effort and, meanwhile, we know that the assaults on our very beings, globally, have only really reached into high-gear—not OVER. And yes, we hold enough assets to easily handle the economic needs—IF WE CAN JUST USE IT. We know that with those that are now on our side, it can be done and once “done” it can't be undone without revealing the manipulators all the way up and down the line. Can we take it? Oh yes indeed, for we realize it is now far more difficult to get rid of us than to simply “use” us.

NEIGHBORS

We have intentionally left meeting with our neighbor, Charlie Cojuangco, until a bit later after the “holidays” but that will work in its own good time. Meanwhile his Father, Danding, is buying up companies in all of Southeast Asia and just acquired a biggie in Australia. I believe we will have some mutually interesting discussions when the time is right. The government has been forced to cave-in on several ongoing confrontations—good for our side.

Yes we can, yes we can, yes we can..... (???)

MARCOS REVELATIONS

The local government, having recently considered bailing itself out of disaster by use of the funds Marcos holds, is now up the creek and the paddle got impounded. The U.S. has legally put a freeze on all those accounts and won't release the funds. Oh my goodness, politicians are grafters out of their minds.

With the constantly breaking corruption incidents unfolding against everyone, including the First Family, it is sickeningly funny. Good for us Americans—those dudes of the dark side have moved into holdings in the U.S. into the billions of dollars laundered. Moreover, they have laundered money in every place elsewhere appropriate from Hong Kong to Australia, New Zealand and parts uptown everywhere. I don't mean “millions”; it is now into the “billions” and this in a world where NOTHING supports anything, especially that dollar thingie. These miscreants of the worst sort own million-dollar (and up) estates from New York to parts of Canada, California and even Mexico. No wonder “the people” are caught with nothing—but oh my goodness, when that dollar bubble bursts, I'm sure whining and whimpering will be heard globally. Of course I sure do want that SS to keep up a while longer! Being old and years of working makes “now” a possibility for us.

Moreover, in our potential activities, we can use any currency that will be based on GOLD, which can then be easily converted into any currency anywhere. GOD DOES HAVE AN INTERESTING AND PERFECT “PLAN”.

We are finding that the Writ of Execution requiring that the Foundation collect the Marcos funds might very well be a fraudulent filing with the court and seems to be unsigned as an order by the court. It is a relief waiting to take hold but can bring us a lot of allies of the best kind. Even Marcos' holdings are backed by GOLD as established in coalition with Bush-Reagan and with predominant input from U.S. Senator Laxalt (Israel FIRST) who “cut it clean” as history reads when the takeover took place here.

A friend of over 40 years ago called to visit on Christmas Eve and the realization of the need for that particular personage to our present condition is without question—but truly “interesting”. I won't go into that here or now but reality comes seeping through the inability to comprehend Truth and Reality of now as established through those many years of “less interesting” times.

We will continue to push “the line” forward and as far as we can while realizing that each “new year” we have changes and movement forward and this from onset of thrust into this time of change in the Odyssey of Life experiences.

Who are “we”? We are everybody and nobody. Our job is no more important than YOURS—just “different”. It is sad that there are those who actively work against us but they are the measure of our lessons learned and also measure quite accurately the growth of conscious reality and, moreover, capabilities unrecognized.

OK, I am now going to close this because we just experienced the most incredible of all “signs” for the whole of six years.

A beautiful hawk JUST NOW soared past our window and in-our-face—goose pimples and all.

This was the color of a “redtail” (Little Crow) and about that size as opposed to the larger Eagles. It came by three times to peer at us and I about passed out on the floor. It simply does NOT happen here. He then soared out of view and probably back into the ethers. Ah but, I for one can face anything that may

come, dreams or otherwise, as it flows. I do believe in “signs”—when they hit me in the face!

I will, however, share something extremely personal and which gives boost to the hours of typing alphabet soup letters into messages.

We were meeting with a very important and NOW COMMITTED TO GETTING OUR JOB DONE man who said except for the Ekkers, our paper and Doris' presentations, they would NEVER have EVER realized what has evolved. I decided I could type a while longer as we don't need to mix it up with religious confusion.

I can't comment on that personal perception for I don't categorize myself as the presenter other than the secretary and I certainly only know what I am told and taught. Just as consistently as ever before is that that which we present now is proving to be correctly established.

We still can only give out what we see established and that which can most often quickly be confirmed and that continues to happen daily as we write something which is sometimes quite outrageous only to have it confirmed less than a day later.

Some people are actually suggesting there might be a full revolution over this week-end. I would suggest that the people will simply blow up thousands of pesos in fireworks, pollute the air and make noise. But, who knows for sometime, somewhere in the Philippines—the Filipinos will be “timely”. We do not hold our breath. We had dozens of people “on their way” to bring gold and of course, adding to prior years of experience, we no longer give “hope” to such pretending. They just don't show up. There are so many “signs” that we don't spend time getting hyped followed by the inevitable no-show. When a “new” party comes, however, we get enthused that it might be “real”—but alas, not yet. It does seem God just wants us to do our job and the rest will work through in proper manner. Oh gosh, if only we live long enough!

May you all have had a good Christmas for I am still so melancholy over the missing contact of direct “touch” and “feel” and a realization that there may never be another “olde tyme” experience as old becomes the operative term here. And then to all of you who kept in touch with us to ease the “away” recognition that always comes along with the “way it used to be times”, we thank you and as soon as we have a break we will get to personal notes ASAP. We know, confidently, that you would rather us just do our job and stay focused.

I am now going to go ponder that eagle-in-the-face incident—for it just “doesn't happen”! Moreover, TODAY was the best of all to tell us to “keep moving”! I'll tell you what, though, if I go out front and find that bird sitting on my balcony EJ will have to carry me across the street.

We don't care if our days aren't “merry and bright” if we can just keep to our task in progress and light. Meanwhile, I for one intend to just hang TIGHT to the hand of the Man with one hand and onto the “robe-tails” as well. We will see you there...!

“We are related to each and every thing that has ever been or will ever be. We speak not only of our spiritual connection, but also of our physical connection. Each and every thing that we do affects everything else within the universe—to the same degree that things which occur in the universe affect us. This, in simplest terms, means that we are accountable for each and every thing that we think or do.”— L.C.

Love, D&E

Rumbles In The Jungles

And: Why Jeb Bush?

1/9/05—#1 (18-146)

SUN., Jan. 9, 2005 8:15 A.M. YR 18, DAY 146

Manila, Philippines

RE: GENERAL UPDATE ON PERSONAL HAPPENINGS AND A BIT OF "RESPONSE" TO SOME "INQUIRING MINDS"—DJE

* * *

RUMBLES IN THE JUNGLES (AND ON THE SANDY BEACHES!)

This will be a note from the Phoenix Perch (not to be confused with the Crow's nest). This will NOT be an effort at authentication, verification, or even reports on vacations—except for some of the more elite who can afford winter vacations on sandy beaches with handy slaves and cheap prices, i.e., everywhere the recent tsunamis hit hardest.

It is strange what comes washing over all of us as each place makes an effort to get in on the notoriety, publicity and funding, even if there was no tsunami involved in the specific areas doing the demand funding.

We can start with the Philippines as example, for no tsunami hit these shores in this latest "string of events"—but did wipe out 3000 around Davao several years ago.

In addition to that focus there are some 800 people missing from the recent typhoon-mudslides in this country in, specifically, Quezon, Luzon. This country continues to wallow in poverty, horrific unrest and hunger with no recognized easy solution to these problems.

We are pushing as hard as two old people can push on getting some recognized authorization for GAIA/T-A FDN for acceptable input and support for ALL of the bewildered and buffeted world. Please be patient as we do only have 24hrs a day and have to march along in slow and agonizing steps a trek to make.

We have no illusions as to anything more than immediate hope for survival of those hit hardest in the Indian Ocean disaster as to contributions for instant cleanup and facilitating burial demands—no matter how much is "pledged". After every debacle the pledges are dropped because of some other and usually larger, and certainly more in-the-face, happening.

First, let us recognize that none of the recent events are or were "acts of Mother nature having a tantrum". NOR WERE THEY "ACTS OF GOD". It is stupidly insulting to always blame God for such destruction. GOD CREATES AND HEALS—HE DOES NOT DESTROY. Why not blame the ugly guys who actually precipitate these deadly events? I ALMOST TOSSED COOKIES AND LARGER OBJECTS AS LARRY KING LIVE HAD HIS PANEL OF RELIGIOUS SPOKESPERSONS FROM SEVERAL SECTS MAKING IDIOTS OF THEMSELVES. Half the dead are doomed to Hell

(or all, possibly) because the dead are mostly Muslim or something ELSE besides outright Jesus Christ people. Wow, all those little kids gone to Hell? BS. No wonder we are in such horrible conditions. "Jesus" must be spinning in his energy field wherever that might be today.

There was a continuous flow of stupidity in quoting "God's word" from various books on the topic and ALL WERE WRITTEN BY MAN IN EVERY CASE—GOD NEVER WROTE ANYTHING AND IF THE EVENTS OF "TODAY" ARE MISREPRESENTED CONSTANTLY—DON'T LAY A 2 THOUSAND-YEAR-OLD MYTH ON US, PLEASE.

We note there are now near 130 "hits" of 5+r ["Richter"] quake strikes in the same area since the "big one" near Aceh, Sumatra, Indonesia and several BIG ones right in that same area. This was a planned event and it CONTINUES.

Who did it? Well, who knows? And no, I am not going to put my feet in my fingers to elaborate on these events abounding in the Evil Empires. However, the volcanoes in that little string of islands and undersea mountains are now erupting and the continuous shaking of the large quakes and CONSTANT shaking by lesser than 5 quakes has turned the area into gelatin and when the magma reaches the surface I would guess there will be far bigger problems than high water wave action.

You don't hear much about input on a massive scale from either China or Russia—just individual offerings of some help. We have it on pretty reliable information resources that both were totally ticked off about the incidents because they had many subs in the area on training missions and were lost. The missions were "secret" so there go the records!

Next we note that at the U.S. focus point in the area all information was well up front of the actual hits and pull-out was accomplished right on cue. Moreover, the beach airports along the entire circle were warned and the PLANES pulled out of the areas and into safety. So, no warning system? Oh well.

I would guess that when all the facts hit the grapevine there might be some interesting objections to the events of the Christmas washout.

The big notion now is to cause the National Debts of these stricken countries to be "frozen" until evaluation can be made of each nation involved in assessment by the World Bank and the IMF. It would just be a stay of interest demands.

We offer a substitute program of far larger size and mammoth magnitude handled individually by separate sovereign NATIONS themselves WITHOUT INTEREST COSTS. Wow, that makes us popular like lizard dung in Poopville.

Are we running in terror?

No, because all the "big" guys are off and away to the grab-and-quibble "Tsunami Summit" in Jakarta, Indonesia—including the midget brain from Manila. Well, that is not exactly "so" because everybody

scattered instead of "fixing" anything. All went back to shore up political status.

JEB BUSH

I would note that several people have asked why we focused on Jeb Bush, other than that Jeb knows about our holdings because he was the first party of the Bush Family personally contacted to see how to handle this "Russell Herman" (actually, Cosmos Seafood Energy Marketing Ltd.) asset or holding. It was certainly a bit to even contemplate for us little guys just beginning to glimpse outside Flatland's tabletop.

That contact was handled personally and immediately following discussions with Lt. Cmdr. Al Martin who was as close to Bushes as you could possibly get.

He called and conferenced with "the Bushes" in the persons of Neal and Jeb who conferenced with the two Georges who were both, at that moment, in Maine with no less than Bob Dole. Our Cmdr. wrote to them THERE, personally.

The word came back that they certainly knew about it and that they "were not ready to deal at this time..." Later they chose to not do anything—after we were offered, so stated, personal payoff for silence, \$5 million. It was said that George (Daddy) knew all about those "Ekkers" and that "they should be ready to retire to some island with a fishing boat..." We didn't know at the time that we had the right to even make such a decision regarding the asset—anyone remember VK Durham and her claims to infamy? We had already been offered \$250 million by the Treasury Secret agents and VK blew off that one too. Oh well, we now see why she would do such silly things.

She had already claimed that she and Russell offered the whole holding to China for \$500 mil. It was recognized that Russell had married a Chinese lady and had some children. VK later said he was a Taipan and somehow she was in charge of his affairs there. Certainly it was NOT Russell Herman so it must have been one of those Herrmans, Herrmanns and Hermanns.

Before Russell ever got hooked up with VK (which we still have to "assume" was truth) he had already been involved to his eyes in other interesting things and not the least of which were the ongoing events in the Philippines of far more infamous nature. All the nasties of the day were involved but the Bonus 3392-181 was "security" of sorts for all that gold snatching and shifting taking place around the empire of Marcos. The tale is amazing but irrelevant to this writing, which are E-E observations, please remember.

Now to Jeb Bush and why this instant message to him as in the Public Notice-Open Letter being published now.

Strangely, and it might have been missed back home at the ranch in or around Crawford, Texas or in other than the great state of Florida, JEB BUSH WAS SENT BY BROTHER DUBYA TO ACCOMPANY COLIN POWELL (SEC. OF STATE-U.S.) to attend the Tsunami Summit in Jakarta—AND SO HE DID! MORE SPECULATION ABOUT THIS THAN I CARE TO ADDRESS.

It is also most "appropriate" a time and service to the Bushes as the former President Bush and former President Clinton are now placed in the roles of collecting funds for this disaster in point. My goodness, we just can't overlook all this important help

even if we don't get any of it.

We were already working through high-level parties we will leave mostly unnamed here to get information to the new Head of State in Indonesia AND TO JEB BUSH so he could VERIFY OUR OFFER AS A VALID RESOURCE. We didn't care much about it because our main thrust now is to clear the holdings in the Philippines so that the gold can be used as supposed to be in the Central Bank and now owned and controlled (by law and specifically) by the T-A Foundation.

Did they get the information? We don't know but copies were delivered to Embassies by no less than former senators and highly recognized persons in the Philippines—with copies to no less than the deposed President of the Philippines, Erap Estrada, who had vowed to get back on his feet from knees being replaced in Hong Kong and get the Philippines back on its feet as well.

We note as in just an observation that things are not going too well in the courts for the newest games of the Administration, who is working with the former "administrator" of this holding called for short, Tallano, through her half brother, Arthur (a lawyer). It is getting HOT in Kookville. Tallano, to get himself off the hot-seat, offered the LADY his land holdings. That is a new NO-NO since the founding of the Foundation for about a dozen reasons better left undisclosed. "They" are nicely destroying one another in the processing of absurd legal actions that are more hysterically funny than seriously realized. That is mostly over the "Estate" half of the property and of which we have no hurry to have discharged by the courts. HALF OF THE WHOLE OF THE ESTATE(S) WAS LEFT *TO THE FILIPINOS*. We are fully qualified as in "FDN" everywhere appropriate for well over a year and in some instances with our participation, well over two years—note again the dates on the seals affixed to that public notice last published.

We had no need to republish anything regarding CSEML but that reflects, seals and documents registration and corporation formation in 1985, 20-years in good standing.

What will come of all of this? I couldn't say because there is no way to guess except that we are going to get our job done and what happens "in-between" here and there is outside our control.

Would there be some speculation that Jeb is being groomed as the next dynasty party in Washington? Well, it would seem he might like the role since CSEML holds HALF (50%) of the assets of that Bonus asset in security for the United States and adjacent "States". (Canada, Mexico, etc.) It is called AMERICA.

It would appear to me to be a very good opportunity for the Bushes to extract themselves from the trap into which they have been sucked. But, we cannot manage those affairs in any way, shape or form. We are humans doing a very human task in which it is difficult to manage our own affairs as regards rent, lunch and stayin' alive. Perhaps the latter is most difficult in the face of events.

WHAT NEXT?

In our yesterday Board of Trustees meeting, in which we are getting somewhat more astute, we did several things, one of which is that to insure a quorum we only "suspended" (not adjourned) the meeting.

Now we know the routine and can simply suspend our meetings and don't have to go to the expense of notification of the miscreants trying to dissolve the FDN. It is slow and tedious but gives us ability to continue to do business, sort rules and will hold us secure and with some capabilities of actions prior to the annual April members' meeting as ordered by the SEC. Our "enemies" stay right there in neon lights—on the records—so absurd denial of participation in the founding or any other antics of compromise are just that: absurd.

As to what next it was decided that an offer of massive size be made by the FDN to the United Nations which would accompany our GAIA information already supposedly delivered to Kofi Annan on Thursday last. It doesn't matter because this will be a massive offer in ongoing funds for future use in a permanent "relief" program to which funds can continually be added as necessary—for humanitarian purposes and recovery.

We "suspended" the Saturday meeting to work on this project and this time the Filipinos will mostly put it together to protect our assets as in a personal manner and we will firm it up on Tuesday with polish and "Is" and "Ts" in proper places. We will then publish that offering document so all of you will have access. This one will be directed DIRECTLY to the United Nations but circulated alongside GAIA to all involved nations in this area so that long-term recovery can be considered.

This assumes payout of all court ordered ORDERS as to sums and gold holdings SUPPOSED TO BE IN THAT BANK CENTRAL/SENTRAL and our non-argued use of at least 50% of that holding. That should amount at last inventory a few years ago to 400,000 metric tons but shrinking fast in the hands of the U.S., IMF and WB. We can only wait and see how it shakes out and what demands the people make for just treatment with their own holdings and heritage rights.

Anyway, I hope this gives you some insight as to "why Jeb".

MEANWHILE BACK IN MANILA AND HONG KONG

President Erap Estrada's surgery replacing both knees apparently went well except that the expenses are eating up his very bank accounts in hospital bills alone.

Ah but, that is not the fun thing about this adventure to Hong Kong for surgery, but not to get far adrift on deadwood we will note his VISITORS.

We are pleased to see front-page pictures of the President doing well—along with our Senator Tatad visiting at the foot of the hospital bed while most of his prior "cabinet" persons had also dropped over for a visit and all were in the same picture. The notation was that Lady Arroyo was "panicked" and is "terrified" of this circumstance. I have no comment about that state of affairs but feel pretty good that our documents did probably get handed off credibly. Remember that although Erap is "detained" until the court farce ends, he has a wife, Loi and a son, "Jinggoy" who are currently SENATORS and also are in Hong Kong. I might get just a bit nervous if I were administration-dependent as are the corruption kings of this world of Southeast Asia residing in high places in and around Manila and parts of the United States of America. The sky is falling, little red hen, might well be the nursery tale of the day.

His other "in place at deposing" cabinet persons plan to go over also for a drop-in to check on his condition and support him "emotionally". Pasig River City begins to look very interesting indeed.

Ms. Arroyo called a special emergency session of Congress but after the first day and into the second with NO QUORUM responding it had to be cancelled. Things are just not going too well for the wastrel of this nation. Everything is directed by her spouse, Big Mike, anyway, and even her deliberate cronies are now causing "lack of payoff for services rendered" promises. Every day is a new adventure into "would you believe this one?" daily press and TV interview grabs.

Our ventures "out" are non-existent and we keep our heads below window level from street view if possible.

We begin to have some real "personal" interest in outcomes, however.

NEIGHBORS

We met our new neighbor, Charlie, although his children are still with grandparents. His wife died last October so he will live, basically, in the next apartment (condo) after he settles in a bit. He is extremely nice and came to call and exchange introductions, etc., in tow by EJ.

We still leave it alone BUT, as only God works his events and possibilities, he is one of the most important family members to whom I have referred prior to now.

He is NOT working with his Father so might very well be available to work with us.

When I brought up the fact and asked if anyone might know "Charlie" one of our most important Trustees allowed that he not only knew him very well but had worked in some projects and became close friends. Now, how is that when you need another piece for the hole in your puzzle? Patience will present the instructions, I am confident.

GENERAL NOTATIONS

Things are back to "regular abnormal" around here after Christmas and New Year's blow-up-the-world display. Actually it was a beautiful time with all the decorations (since Halloween) up and flashing. We missed "home" greatly but we can hang in here as long as it takes (it says here in tiny print). "Temporary" covers a lot of missing things including references to family and distances between. We are glad it is over as to holidays for nostalgia is a bit painful and yet there is nothing the "same" which indicates that things must be the "same, same but different". No pixies even cleaned my keyboard and therein is "same, same". Moreover, papers and entropy are higher and deeper and I didn't even make resolutions toward "otherwise".

We had to renew our "lease" so we are stuck with having to keep bank reserves in a fair state of holding but we had a chance to meet with the owner's son and complain about a few things which make even "temporary" a bit much for convenient living—like no cook stove, falling down furniture, etc. We simply don't have much choice as this is a nice place and we have to have these offices. By golly, it has been an "experience" for which both of us could claim "too old for this".

We want to thank you who worked out, finally,

Electromagnetic Weapons & Asymmetrical Warfare

By T.E. Bearden (Part Six)

This installment concludes the series. We appreciate permission to reprint this article and point our readers to <www.cheniere.org> for the footnotes and additional information from Mr. Bearden.

31. THE GRIM NUCLEAR PROBLEM

One can also see the damage that can and will be done by “dirty weapons” (surrounding ordinary high explosives with nuclear materials), causing spreading nuclear fallout in selected dense city populaces.

But there is another even grimmer side of the story. When the Soviet Union collapsed economically, many nuclear weapons were made available on the black market, and sold to the highest bidder. Some 200 or more nuclear warheads for missiles came up “missing” from the Ukraine alone. Quoting Communist Party leader Petro Symonenko:

“Out of 2,400 nuclear warheads which were on Ukrainian territory, the withdrawal of only 2,200 warheads has been verified. The fate of the remaining 200 warheads is unknown.”

Further, in 1996 Alexander Lebed, then Boris Yeltsin’s national security adviser, reported that some 100 suitcase-sized Russian nuclear bombs were missing. In a donnybrook, some Russian officials denied the existence of such weapons, while others confirmed their existence. The charges and counter charges faded away, and nothing was ever resolved.

All those weapons were in fact sold on the nuclear black market. Guess who bought them, and guess where many of them have been inserted already, waiting to go, along with the trained teams to detonate them on command.

It is almost certain that Bin Laden and Al Qaida succeeded in purchasing some of the Russian “stray” nuclear weapons. Other terrorists such as the Yakuza and the Aum Shinrikyo almost certainly purchased some of them also.

Terrorist efforts to obtain further bomb-grade material such as highly enriched uranium (HEU) have continued. Quoting Bunn and Wier [Matthew Bunn and Anthony Wier, “Preventing a Nuclear 9/11,” *Washington Post*, Sept. 12, 2004, p. B07]:

“The 41 heavily armed, suicidal terrorists who seized hundreds of hostages at a Moscow theater in 2002 reportedly considered seizing the Kurchatov Institute instead—a site with enough highly enriched uranium for dozens of nuclear weapons... Al-Qaida has been actively seeking nuclear material for a bomb and has strong connections to Chechen terrorist groups.”

Bunn and Wier also point out that:

“More than 130 research reactors in dozens of countries still operate with HEU fuel, and many have no more security than a night

watchman and a chain-link fence. Pakistan’s heavily guarded nuclear stockpiles face huge threats, from both insiders and outsiders, including large remnants of al-Qaida and the Taliban in the country.” ... Comprehensive U.S.-funded security upgrades have been completed for only 22 percent of Russia’s potential nuclear bomb material; upgrades for tens of thousands of bombs’ worth of material are still incomplete.”

At this moment, no one knows how many Russian nuclear weapons have gone “missing” and were sold on the world black market by desperate unpaid Russian generals and soldiers doing whatever had to be done to get money to feed their families. No one knows how many Russian nuclear weapons are still “going missing” and being sold on the nuclear black market. Because the terrorists wanted them and had the funds, and because the Russian generals and soldiers sold them to someone, it does not take a rocket scientist to understand that the two parties almost certainly “got together and did business”....

The Al Qaida has quietly confirmed to the Arab world that it, the Al Qaida, already has inserted seven nuclear weapons in major U.S. cities, and some of the weapons were 200 KT. At least one U.S. author has assessed the Al Qaida as having nuclear weapons in the U.S. I personally suspect the actual number that has been inserted by the Al Qaida and other terrorist organizations combined is about double that figure at least. Bin Laden apparently bought some 20 suitcase nuclear weapons himself, using funding obtained from the Arab world and/or drug production in Afghanistan.

One also reiterates that the KGB/FSB faction which controls the Russian superweapons—and controlled the leasing and transfer of scalar interferometry technology to the Yakuza/Aum Shinrikyo—also controls the previously inserted Russian nuclear weapons in American cities as well as the Spetznaz teams with them. During this orchestrated two-year period we have now entered, somewhere in the United States at least some of those weapons are very probably going to be transferred or sold to the Yakuza/Aum Shinrikyo, and perhaps a few will go to other well-organized groups such as Al Qaida.

As another example, the former Soviet Union also probably inserted anthrax and smallpox agents into the U.S., along with dispersed teams to unleash the BW agents on command. If so, those assets are also still here, waiting for the order to move. It seems highly probable that at least some of these BW weapons caches will also be released to the terrorist organizations such as Al Qaida, for use in the coordinated coming attacks.

So in addition to the BW threat, somewhere between 14 and 40 already-inserted hostile nuclear weapons probably form the “minimum nuclear weapons pool” available to the coordinated terrorists during this

the move to new offices in Las Vegas for the corporation agency. Bruce informed us that it was handled and is operational with continued capable management. We appreciate all the trips and stays in Sin City while working through the details and the move itself. Life offers changes and we adapt or get swallowed when in the conclusion of the “impossible” we find things ever so much improved and a place from which security and expansion can be nicely handled as we are going to find it mandatory for secure incorporations from international entities, which will include “ours” as well.

Anyway, several people—Bruce, Valerie and Ellen—helped far beyond their “duty” because facts are that they had no “duty” but did it anyway as problems beset the circumstances at every turn from phone hookups to mail disasters. Of course it all would be at the worst time of the year and the move itself came right in the middle. Isn’t it interesting that Satan botches and makes chaos ALL THE TIME while we somehow always want God to “fix it”. Nobody around can outdo the glitches of the Big Dark Devil at full speed ahead.

We could never have worked through if Ron K. had not been willing to spend his full time at resolution of such changes—from Canada yet and from where he now resides while all have to realize that is because he is a Canadian citizen and not a U.S. citizen. That becomes an asset for GAIA so we can be quite grateful in all aspects.

CONTACT will continue as is for a while longer—we can’t handle more pile-on for the moment. Things are being arranged for change and forward movement and we simply have to keep up for the alternative choice is unacceptable.

We thank everyone for the greetings and cards and love expressed. Together we realize we can do just about anything—and we remain “together” while our “crew” might well be small but loyal, faithful and beyond all—willing.

I don’t want to understate things here in Paradise. It is much like David with his little slingshot standing against a full-blown Goliath ready to stomp us to smithereens. But, miracles have shown us that the guy behind us is there with his really big guns and that sustains us. We will never know how many bullets have actually missed us. We have learned that when we think we can’t—WE CAN.

Love and very best wishes to all of you and pray that we might be able to push this over the goal-line for at least one touchdown well earned. You have stayed the course and our coach is very capable indeed. This team is going to win THIS GAME.

EJ add-on: I have been stealing time away from other duties to snoop in the Tallano court documents and have come across some very helpful information confirming some of the statements we made at the time of our original article April 9, 2003 to the effect that the government in 1962-64 had schemed to “escheat” the assets by proving them and then declaring the Tallanos dead so the government could take them via “eminent domain”. The government presented to the court at that time its “position paper” summarizing all of the proof of the validity of the Tallano claim that would now be invaluable to us. It has apparently been hidden but we think we might have a way of “resurrecting” a copy. Doris found that exciting and asked that we share it with you, even though it is “prospective” and might not materialize.

D & E

two year period. At least that would appear to be a reasonable estimate. We accent that this estimated nuclear weapons pool has³/₄with high probability³/₄already been inserted on site in the U.S. *This is another startling capability of the present terrorists to deliver a resounding strategic nuclear knock-out blow against the United States, without ever firing a missile or launching a strategic bomber.*

Anyway, this and additional developments are what is really going on and building up in the “War on Terrorism”. The great battle of that war will apparently begin within two years from now, right here in the United States. The orders will be given during this two year period we are now in. The orders will gradually unleash these terrorist assets, and then their initially sporadic attacks will be deliberately increased, with maximum effort at the very end of the second year and over the first half of that following third year.

32. HARSHNESS OF THE TERRIBLE DECONTAMINATION PROBLEM

No one has a good solution to decontaminating mass metropolitan areas that have been destroyed or heavily damaged and that are dramatically contaminated with nuclear fallout. Neither does anyone have a solution for decontaminating the *distant* large nuclear fallout areas surrounding those devastated cities after the nuclear detonations.

One need only point out the similar terrible task of decontaminating a large city (such as Washington D.C. in that government study), once the city has been sprayed *en masse* with anthrax by the terrorists. Yes, there are some chemical sprays that will kill the anthrax spores (else they last for a century or more, apparently). But these sprays are very harsh. To spray a civilian populace and area with them is to unavoidably kill a certain number of one’s own sprayed civilian populace.

So far as is known, there are no similar sprays available that will kill the contaminating nuclear radiation!

Now note the extreme harshness of the coming decisions necessary in asymmetric war. In military war, high level commanders have always had to make very agonizing decisions. For example, suppose one is an Army commander, and has³/₄say³/₄a dozen divisions under his control. Suppose on his war front he is attacked by overwhelmingly superior forces, and breakthrough and destruction of his Army is imminent. The commander will have to deliberately sacrifice³/₄say³/₄two divisions (that’s 36,000 men) by hurling them into the teeth of the attacking forces to temporarily halt and delay the attack momentum while those two divisions fight and die. They will be ground up just like hamburger meat, but that delays the enemy onslaught for a precious short time.

That desperately bought short delay time gives the Army commander the chance to get his other 10 divisions out of there, and back to prepared defensive positions, to live to fight another day. This way, he saves the bulk of his army, by deliberately sacrificing those two divisions. *The point is, military commanders have always had to agonize and sometimes deliberately send large numbers of men under their control to their certain deaths. The soldiers sent on such missions also knew it at the time they received their orders, and they knew that they went to their certain deaths.*

Any fool can make a military decision when there is a “good” option and a “bad” option. But when there are only two “bad” options, one is forced to decide for the “least worst” of the options³/₄even though it entails the deliberate sacrifice of lives to save others.

Now the battlefield is our own cities, and the targeted force is our own civilian populace. That same type of “least worst” decision necessity falls now on the sacrifice of some of our own civilians.

Some commander at high level (probably the President himself) will have to assess the situation as so desperate that multiple decontamination sprayings of the anthrax-contaminated area and populace are absolutely necessary, to prevent spreading mass destruction by anthrax carried to other areas, and resulting in the deaths of many millions more. So such an order will have to be given, agonizingly, to spray multiple times (necessary to neutralize the anthrax with a good probability of success).

Each massive spraying might kill perhaps an additional 5,000 U.S. civilians. Heartbreakingly, these will be the most defenseless and helpless of our citizens, and the ones we would strongly wish to defend to the death with our very lives and with every heartbeat in our breasts. The most vulnerable group will largely consist of persons with hampered breathing or vulnerable immune systems³/₄the old, the feeble, babies, the sick, nursing home occupants, etc.

It has been said that war is hell, and indeed it is. Asymmetric war resoundingly brings that hell home to our civilian populace.

Formerly our troops have mostly “ridden out of the protected U.S. fortress/castle”, to a foreign land, and fought the war “over there”, with our civilian populace largely immune and shielded from the horrors of such fighting, particularly when the fighting is intense. Now in addition to our involvement in foreign places, in asymmetrical warfare the major “battleground” is right here in our own cities, because the “major target” being attacked by the hostile forces is our civilian populace³/₄including our aged, the infirm, women and children, babies, etc. *These devils who are our foes believe that, if they can kill lots of American civilians, babies, etc., they personally acquire a very high religious status from God Almighty.* In short, we are up against a fanatical, irrational foe, who has also unfortunately had two decades or more of almost unrestricted access into the United States, to insert the necessary WMD assets for this “final great Jihad against us in our cities and homeland”.

This “final great Jihad”, in the operations phase fought inside our cities and nation, is what is really coming upon us. This is the coming horrible nature of the struggle. We are actually in a clash to the death between civilizations and cultures. Quoting Seib [Gerald F. Seib, “Deeper Threat is Being Missed Amid Iraq Debate,” *Wall Street Journal*, Wed. 8 Sep. 2004, p. A4]:

The far bigger question is whether the U.S. is engaged in a historic clash of civilizations with the Islamic world. ... The U.S. ... has reached no consensus on a strategy for dealing with a clash of civilizations.”

Seib further states:

“The bin Laden goal isn’t simply to humiliate the U.S. Nor is it to overthrow the government of Saudi Arabia, or Egypt, or Jordan. The goal is to eliminate those governments³/₄in fact, to eliminate those nations.”

According to the present Yakuza/KGB/FSB and international terrorist plans, their actions are expected to reduce the U.S. to lying prostrate and helpless two years from now. With a U.S. nation in utter chaos and ruin, and economically already collapsing catastrophically, a touch-up with the FSB/KGB quantum potential weapons (the most powerful weapons on earth, but possessed by at least five nations) will quickly dud every nuclear weapon, ICBM, nuclear bomber, nuclear power plant, nuclear submarine propulsion system, etc. on the planet. The dudding will take about 10 minutes, although an hour or so seems to be allotted for it. This is “pulling the dragon’s teeth and claws.” *The conventional strategic military power (ICBMs, nuclear bombs and warheads, and nuclear subs etc.) will be suddenly dudded and effectively wiped out, to exist no more.*

All that giant strategic apparatus will be just so much trash on the garbage dump of history.

At that point, the Yakuza gleefully plan to participate in the “methodical destruction of the United States”³/₄the terminal part of the operations phase. They will be freed to just blast away at will with their scalar interferometers, as they wish, to continue to the full destruction of the United States.

The intention of this unholy war against us, by both the recognized terrorists and the Yakuza/Aum Shinrikyo (the Aum Shinrikyo is now known as Aleph) is to kill every American (and every Israeli also)³/₄men, women, children, babies, all of us.

We will see the operational unleashing of this terrible plan, beginning during the next two years, gradually increasing in intensity, and finishing in the early part of the third year with the catastrophic economic collapse of the United States. Once the economic collapse is complete and the nation is in utter chaos, the sudden dudding of all our nuclear weapons, power plants, and nuclear propulsion systems will be the *coup de grace* that leaves us a hapless target. The rest of it is a turkey shoot, to simply execute us and finish us off.

33. SUMMARY AND CONCLUSION

In closing, we reiterate some massive strategic capabilities already registered and waiting. A few weeks ago, the Yakuza scalar interferometers registered (zeroed in) on the Yellowstone Caldera, the largest supervolcano on this planet. With that “registration” completed, they now can initiate that supervolcano into violent eruption, whenever they wish. *Again, the supervolcano’s eruption will likely expel more ash, lava, debris, and rocks than the entire Grand Canyon can hold, devastating a large part of North America.*

The caldera is overdue for another eruption anyway, so undoubtedly there is increased geophysical stress there already. One should also check the latest findings in geology, and see what happened to North America the last time that Yellowstone Caldera erupted violently. The last eruption devastated quite a portion of North America, killing most of the higher forms of life in a large area.

Now check what happened the last time the somewhat smaller Toba supervolcano in Sumatra, Indonesia erupted violently, about 74,000 years ago. *It destroyed all human life on earth, except for some 10 to 20 thousand humans in Africa.* The human genetics shows this sudden “bottleneck” in our genetic variability that sudden occurred about 74,000 years ago. Also, this is why the present human genetics also shows that “we all came from Africa”. And so we did; *we are all descendants of that small group left alive in Africa about 74,000 years ago.*

In registering on the Yellowstone caldera, the Yakuza has already achieved an additional tremendous “knockout” strategic strike capability against the United States. The Yakuza can indeed wipe out much of North America in a single strike, then finishing the destruction of the United States at its pleasure. There are of course other volcanoes in the U.S. that can also be stimulated into eruption to add to the chaos and carnage.

Remember, the U.S. Secretary of Defense (Cohen) has already confirmed *the use by terrorists of electromagnetic weapons for precisely such purpose³/₄initiating volcanoes, generating earthquakes and controlling our weather and climate.* The recent September 2004 “shooting” of one powerful hurricane after the other into the United States, is just one example. The economic damage done by those hurricanes, Charlie, Frances, Ivan, etc. has been adequately covered on the national news, so it is already familiar to the reader.

Other powerful capabilities available to the Yakuza scalar interferometers are also possible and therefore registered, such as **deliberately generating tsunamis**

The Mystery Of Satan & The Devil (Part Four)

Let us continue without much comment other than to reinforce the disclaimer that the word "Jew" as used by the writer is not valid in a broad sense but only in the sense of describing the conscience-less "powers that be" in our world.

The apparent voice of the dead man heard by Mr. Hollenbeck was that of Prince Abdul Baraba Baha in similar manner as any ventriloquist-hypnotist can cause a person to apparently speak while under the influence of the occult scientist. Prince Abdul's power is the same as that of his Devil ancestor, Butur, who wanted to get possession of the dead body of Moses in order to cause our Israelite progenitors to go all-out for that Devil instead of the invisible God by Butur giving animation to the body then throwing his voice into the dead mouth and apparently causing it to speak and telling the children of Israel the lie that Butur was God as the prophesied Messiah. Therefore, the archangel, Michael, took Moses into the dimension of spirit where the Devil could not touch the body. It was accomplished by Michael changing the intensity of the vibratory impulses of the atomical construction of the microcosmical order of the body, and he was translated in similar manner as Jesus Christ. Enoch, Elijah and possibly St. John which John 21:22, 23 alludes to.

Matt. 12:24 says Beelzebub was the Prince of the Devils. "Beelzebub" is the conjunction of Beel (Baal) and *zebub*. The former means, lord, master. The latter means fly. Therefore, Beelzebub was the god of flies as the chief witch doctor who used blow-fly maggots to clean wounds so they could heal. According to Assyrian records, that position, and performing black magic tricks during religious rituals, was the Devil's (Marduk) sole sphere of activity. He, as Baalzebub, is recorded in *II Kings* 1:2, 3, 6, 16 which says he was god of Ekron. According to Assyrian records his name, or title, was Balea-astarus. He was none other than Ethbaal, father of Jezebel, wife of King Ahab of Samaria. That female Devil was the mother of King Ahaziah who was critically wounded and he sent for his witch-doctor grand-father to bring his maggots to clean the wounds before blood-poisoning set in. The rascal in *Ezek. 28* was of Ethbaal's Royal line out of which came the Cockatrice of *Isa. 14:29* and Beelzebub of *Matt. 10:25; 12:24; Mark 3:22; Luke 11:15, 18, 19*. He was Artabanus II, called Beelzebub, Prince of the Devils, in which the word "devils" is Shades of death.

Now the Shades are the Rephaim in *Gen. 14:5; 15:22* and the "dead" of *Job 26:5* in which the "dead" is Rephaim, Shades of spiritual and physical death. They are the twice dead "trees" in *Jude 12*, and the living-dead things in the original of *II Peter 2:12*. We know them as Jews, yet those called Rephaim in the *Old Testament* were giants of the Serpent race. They became extinct in Asia Minor during David's time, and in subsequent centuries, the perfidious Luciferian Doctrine of the Canite mongrels twisted the truth around to make it seem the Shades were disembodied spirits of those Rephaim who took up residence in people and caused them to become epileptic, insane, deaf, dumb and blind. Those extinct Rephaim are worshipped today, in China, as "gods" who left the

Earth and now live in "heaven". The Cainite Devils accused Jesus Christ of being the reincarnation of the Prince of the Shades in order to discredit Him in the sight of the House of Judah Israelites. The Cainites, however, knew the Prince of the Shades was Artabanus II, because he and they were the Living-dead Shades, and those belonging to the Sadducee cults of Cainite Euchite, Cainite Essene, Cainite Sabeast, and Cainite Gnostics kept the truth alive that they were the Shades as the Luciferian race of god-men. The secret was confined to the inner sanctuary of the temple in Jerusalem in which no one but the Cainites could enter because they said the oracles of God were therein. The oracles of God, however, have been transported to Ulster, Ireland in 583 B.C. by Jeremiah and his scribe Baruch.

(Note: There is a second account of the "oracles" being buried by Jeremiah on the temple mount, beneath what is now the Islamic Mosque of Omar. I prefer to believe the first account, but if the "oracles" are buried under the Mosque of Omar, that mosque is going to have to go.)

The fact that the inner sanctuary was Jewry's Luciferian Freemasonic Lodge room came to light when Yahweh split the veil in the temple by the earthquake He set in motion when His Christ-Son of Righteousness died on the cross, and the Father showed His indignation in the earthquake. The Israelites could then see into the inner sanctuary through the opening in the veil, and from that moment until they abandoned Palestine 23 August 70 A.D. they never set foot in the temple.

In *Matt. 12:34* those Luciferian Cainites are accused of being Serpents of the Devil's household. The first Satan in verse 26 was Artabanus II, Christ's chief adversary. The second Satan is the unclean condition of the people cured by Christ bringing to bear His Holy Ghost of Creative Energy. The diseases were, and are, devils as opposing spirits, (Satan) to the Creative Energy, and if the Devil cast them out of man, he would destroy the fruit of his own kingdom.

In *Matt. 16:23* and *Mark 8:33* Jesus Christ accuses St. Peter of being Satan. He means Peter's reluctance to stand by and permit the Satanic Jews to murder Him was an opposing spirit to the plan of the Father, which *Heb. 2:14* speaks of.

In *Mark 4:15* Satan is the Cainite-Akkad-Amalek-Idumean mongrels. Their blood line shows when Jesus Christ says in verses 11 and 12, He speaks in parables so they cannot understand lest they be converted and their sins be forgiven. Now *epistrepho* is the Greek for that word "converted". It means, to come again. Forgiven is *aphiemi*, suffer. Therefore, Christ symbolized His Kingdom Message to the Israelites in order to confuse the Serpents of Cain's household so they would not come again, for if they could understand, their evilness would not suffer, or tolerate, Him to continue. They are the ones in verse 15, and when they hear Christ, Satan—their genealogical trait in *II Peter 2:12*—takes away all understanding.

In *Luke 13:11-13* is a woman whom Christ cured of a spirit of infirmity. *Astheneia* is the Greek for the word "infirmity". It means wickedness. Inasmuch as Satan in verse 17 afflicted her, it is obvious that Satan

that then strike targeted coastal areas at jet liner speed. One such "tsunami looking for just a touch to complete its preparations to happen" is provided by the Cumbre Vieja volcano in the Canary Islands. A large section of the volcano has already broken loose, and threatens to slide into the sea. If so, it will generate an enormous tidal wave (tsunami) that will strike the East Coast of the United States a few hours later.

For example, quoting Bill McGuire, director of the Benfield Grieg Hazard Research Centre at University College in London:

"A 12-mile chunk of the Cumbre Vieja volcano in the Canary Islands rattled loose during a previous eruption and is at risk of smashing into the Atlantic Ocean, triggering what could be one of the largest tidal waves in recorded history. ... It's not a matter of if, but when."

Obviously, if this "submarine slump-induced tsunami" is induced sharply by Yakuza scalar interferometry, so that the slump occurs with sufficient force, then 8 to 10 hours later a great tidal wave 70 feet or more in height could strike New York and the Eastern U.S. Coast, as well as the Caribbean, moving at some 600 miles per hour. Such a giant tsunami would penetrate inland and devastate entire coastal areas. *It is an opportunity that will not have gone unnoticed by the Yakuza, and undoubtedly one or more scalar interferometers have already registered on that target.* Again, we strongly point out SecDef Cohen's confirmation of just such use of electromagnetic weapons by terrorists. This is one more example of what can be done by "deliberately evoking, assisting, and directing already available giant geological forces".

So weather engineering and steering and augmenting hurricanes and other storms is just one facet of the real threat. But it is a very important part of the strategic threat, as indicated by Secretary of Defense Cohen in 1997.

Hostile Yakuza fingers are already on the triggers of those zeroed-in scalar EM interferometry weapons, 24/7, waiting for the order to be given to strike. If deemed necessary, this already includes the eruption of the Yellowstone supervolcano and the massive tsunami hitting the Eastern U.S. seaboard from induced violent eruption of the Cumbre Vieja volcano.

These two examples are the kind of things that, to one extent or another, are now coming down the pike at us full-speed.

We have also briefly pointed out the horrific casualties that can be obtained by very small and simple anthrax attacks, when bolstered by force amplifiers (immune system spreading and EM BW disease induction).

As can be seen, once the superweapons (such as scalar interferometers) already in the hands of the asymmetric warfare terrorists (the Yakuza component) are factored into the analysis, indeed the terrorists have already achieved a strange kind of "rolling thunder" strategic knockout capability against the United States. At least publicly, this major change in the capabilities of the terrorists against the United States has not been analyzed or pursued by the conventional U.S. government agencies and their traditional support analysis agencies.

When the strategic strikes and force amplifiers are factored into the war with terrorism, we find that we now confront a den of raging but carefully controlled tigers, not just a den of small cats using car bombs and solitary humans with strapped on C-4 explosives. Instead, we confront a coordinated strategic threat of awesome power and tremendous damage capability, one that already has the capability to destroy us, and one that is slowly tightening the noose about our collective necks in a deliberate three-year schedule for our total destruction.

[END SERIES]

was a Cainite witch doctor administering drugs which drained away her strength in order to hold her in his power and force her to pay money for the drugs—the same as the Assyriologist, Prof. Sayce, says in his book, *Religions of Ancient Assyria and Babylon*, was practiced by the priesthood (witches) attached to Ishtar's staff in her temple in Ur of the Chaldees. We know them today as the leaders of the diabolical narcotic traffic, who according to the Federal Bureau of Investigation, are all Jews who have more than 200,000 government workers in Washington, D.C. alone, addicted to heroin (the deadliest of narcotics, because there is no cure for an addict) in accordance with protocol No. 8 of Jewry's Luciferian priests who say: "For a time, until there will no longer be any risk in entrusting responsible posts IN OUR STATES to our brother-Jews, we shall put them in the hands of persons whose past reputations are such that between them and the people lies an abyss, persons who, in case of disobedience to our instructions, must face criminal charges of disappear (murder)—this in order to make them defend our interest to their last gasp."

In *Luke 22:3* and *John 13:2, 27* it seems Satan and the Devil are one as an evil spirit. However, *Luke 22:3* says: "Then entered Satan into Judas." *John 13:2* puts it this way: "And supper being ended, the Devil having now put into the heart of Judas Iscariot, Simon's son, to betray Him." In *Luke 22:3* the word "entered" is *eiserchomi* in the Greek. It means, come into. Into, is *eis*, wherein, as in the course of. In *John 13:2* having is *echo*, could have. Now is *ede*, already.

Thus, Satan in *Luke 22:3* and the Devil in *John 13:2* are one as Artabanus II, and Satan in *John 13:27* is the opposing spirit in Judas Iscariot who was a Devil—*diabolos*, *John 6:70*. Then, when we coordinate the record we observe in *Luke 22:1, 2* the Feast of the Passover was drawing nigh and the Cainite Luciferian priests conferred on ways to put Jesus Christ to death before He could reorganize the Kingdom of God on Earth. Artabanus II, was called from Pergamos, Greece to give advice because he was the god in Cain's household in Jerusalem. Satan, as Artabanus II, in the course of the conference came unto the Cainite Judas Iscariot, because he was one of the disciples, and instructed him to notify the high priest, Caiaphas, as soon as possible after Christ declared He was ready for the people to claim Him King then re-organize the Kingdom of God in order for Caiaphas to use that information as an act of treason against Rome then kill Him to prevent themselves from being banished from control of the Roman Empire through blackmail, murder and gold. The contract with Judah and Israel, as the *New Testament* made through the sacrament during the Last Supper was what Judas concluded was Christ's intentions of proclaiming Himself King of the children of Israel then setting up His Kingdom during the Passover.

The sacrament ritual is first observed in *Gen. 14:18* and it was retained down the centuries in the Order of Melchizedek known in Palestine as John the Baptist Order of the Essene in which Jesus Christ was ordained by John the Baptist as the Supreme Grand Master because, He was Melchizedek as the Son of God. The Cainite-Akkad mongrels purloined (stole) incomplete portions of the sacrament ritual from the Sethite mongrels who learned its significance from their incomplete knowledge of Enoch's Messianic Prophecy and the rituals perfected around the prophesied Christ-Son of God. One portion of the Messianic ritual is observed by Abraham in *Gen. 15:9, 10, 17*. The Cainites, however, perverted the sacrament ritual into cannibalistic human sacrifices in order to pretend it was originally theirs and it symbolized Lucifer's new covenant with his race (B'nai B'rith, the Sons of Satan's Covenant). Judas Iscariot knew the significance of the sacrament performed by Jesus Christ (Yahshua) and because he

knew Christ was God, not Lucifer, in accordance with the Messianic Prophetic ritual. Yet, by Christ being flesh, Judas believed that by killing Him it would end the chances of re-organizing His Kingdom and if Christ would be "reincarnated", the Cainites could again murder Him after He made His appearance. Then in *John 13:2* the Last Supper is ended and John says the Devil (Artabanus II) could have already put into the heart of Judas Iscariot the incentive to betray Christ. Verse 27 shows when Christ handed Judas the sop (*psomion*—morsel of food) the gesture disclosed him as being a Cainite Devil as a Gestapo agent of Caiaphas and he was "insulted" because his treachery was exposed and he resolved to get revenge by betraying Christ, yet he could not even do that until Christ gave him permission.

Now Satan, in *Luke 22:31* is Peter's rebellious spirit which would shake his faith in Christ, yet Christ tells him He will give him strength to carry on the kingdom work. In *Acts 5:3* Satan is the opposing spirit in Ananias to the pure faith in Christ. He was carnal minded and a hypocrite. Satan is the same type of adversary in *Acts 26:18*, yet Satan in *Rom. 16:20* is Jewry. He was bruised in 70 A.D. when the Romans killed thousands of the Cainite-Akkad-Amalek-Idumean Devils in the "Jewish War". His power in Palestine was broken in 135 A.D. and all Cainite Devils were forbidden to set foot in Jerusalem.

I Cor. 5:5 says: "To deliver such an one unto Satan for the destruction of the flesh, that the spirit may be saved in the Day of the Lord Jesus."

That passage has been interpreted so erroneously that innumerable people have been killed by the "Church" officials in actions believed to be efforts to save a backslider from hell fire in the hereafter. The doctrine is wrong! because the word "flesh" in that passage is *sarx* in the Greek. It means carnal minded. Spirit is *pneuma*, spirit as a force of a movement. Saved is *sozo*, keep sound. In, is *en*, to.

The people on *I Cor. 5:5* had become "Christian" for materialistic purposes. They were Gnostics whose Luciferian Doctrine taught the lie that Jesus Christ sponsored Communism in which women were common community property and a sly "Christian" could lead a life of leisure by sucking his living out of the wealth incorporated into Church property. That is what St. Paul is discoursing about in *I Cor. 5*. He said for true Christians to kick the Communists out of the Church and let them go to Satan for their opposition to Christ, in which their parasitical living would be cut off and they would be compelled to find employment in which their carnal mindedness would be destroyed by coming in contact with men who would not tolerate Communism or permit their women to become community property subject to any man's brutal desires. Where Christ says for the people to sell all of their possessions and follow Him while pooling everything, He meant if for a test of their faith in Him, and also to have a pool of supplies and money to assist unfortunate Christians deprived of making a living by the Cainites who had passed laws barring anyone from gainful employment if they professed faith in Jesus Christ being the Son of God. That is the extent of His "Communism". Then by kicking the Communists out of the Church, the spirit of Christ's Doctrine would remain sound to the Day of the Lord Jesus. That day is on us now, the Communists are back in force, the genuine Church is dead, because carnal mindedness has superseded Christ's Doctrine.

In *I Cor. 7:5* Satan is the spirit of opposition in people to remain faithful to Christ if forbidden to marry. Satan, in *II Cor. 2:11* is a Jew always ready to take advantage of human weakness and pull one away from Christ. Satan in *II Cor. 11:14* has become an angel of light. "Angel" in the Greek is *aggelos*. It means, messenger, agent. Today, as of yore, that Satanic angel of the Devil is Jews in our "Churches" superimposing the disguised

Luciferian Doctrine upon the Doctrine of Christ in order to destroy the latter while the angel from hell poses as a pious Christian. Today, that "light" is the "spiritual" illumination of the National Council of Churches, the National Conference of Christians and Jews, Modernism, High Criticism and all forms of "scientific Christianity", and the lie that God has become a Christian and He wants to merge Christianity and Judaism for "peace, unity, harmony, brotherhood" then top it off with the "beauty" of mongrelization.

Satan, in *II Cor. 12:7* would have been St. Paul's opposition to Christ if he had glorified himself as being a Christian too "pure" to associate with other people.

In *II Thess. 2:3-9* the man of sin is Jewry's current god, Prince Abdul Baraba Baha, notwithstanding the Jew lie that, "the man of sin" has been the Roman Catholic Church and the Popes down through the centuries. Satan, in verse 9 is the Wandering Jew Devil of *Rev. 12:12* who came to the United States in 1928 from Leningrad Russia. The last account we had of him he was on Flushing Avenue, Brooklyn, New York. His presence was manifest by his signature, or symbol, of a cobra's head drawn on houses on the avenue, the same as wherever he stopped from 429 B.C. in Pergamos, Greece where it was first observed and recorded in history. It is the symbol of the Serpent in the first paragraph of protocol No. 3 of Jewry's Luciferian priests. The word "coming" in *II Thess. 2:9* is *parausia*, presence. After is *kata*, through. Paul, therefore, prophesied that Prince Abdul Baraba Baha's presence in our House would be through the work of the Wandering Jew Devil and his Jew Freemasons in B'nai B'rith. One not mentally-dead can see the presence of those two Devils has produced everything prophesied by Paul, because B'nai B'rith did exalt Prince Abdul as God in the Temple of God, which is Manasseh Israel's great Christian Anglo-Saxon-Celtic, Scandinavian and Nordic people in the United States, where Prince Abdul exalted himself above all that is called God, or that is worshipped. He is the one withholding the truth from Israel that she is the Kingdom of God in order to deceive sincere Christians into believing this world is not their home, they are just passing through and surrendering their birthright to the Devil's counterfeit race of Jews on the sole strength of his lies that he is the correct owner of this world.

Satan, in *I Tim. 1:20* and *5:15* is in opposition to Christ. The Synagogue of Satan in *Rev. 2:9* and *3:9* is world Jewry. The word "Jews" in those verses originally was Judah. Today, Jewry indeed tells us they are the sons of Judah and all of Israel remaining, yet in the dark confines of his Luciferian Clubs (Hellel Clubs) in every big city in America, the rabbis and B'nai B'rith Freemasons are teaching "little" Jews the truth that Jewry is NOT Judah, or even of Israelite extraction, but JEW, THE LUCIFERIAN RACE.

In *Rev. 3:9* the word "worship" is *proskun* and "before" is *enopion*. When used together as they are in *Rev. 3:9* it means, to fall down before. Yes, Jewry will fall down before the feet of Israel, the Kingdom of God, in 1953 [More accurately, the antichrist agents will fall down before Christ, "soon".] and shed Crocodile tears as prophesied in *Isaiah 27:1*; *Zech. 12:12-14* and Christ in *Rev. 3:9* then beg us not to banish him into Mongolia and Tibet as pay for all the bloodshed in God's House since the Devil spiritually-sabotaged our Adamic progenitorst (sic. maybe penitent propensity), *Matt. 23:35*; *Luke 11:51*; *Zech. 14:21*; *Rev. 20:1-3*.

In *Rev. 2:13, 24* Satan was Artabanus II, King of the Parthian Devils and the Cainite-Akkad-Amalek-Idumeans in the *New Testament*, who were enemies of Christ and His disciples. In *Rev. 12:9* Satan is the succeeding King of the Serpent race from 35 A.D. unto today, and in *Rev. 20:1-3* he is the current Devil Prince Abdul Baraba Baha, and Jewry standing on the brink of

being banished from God's Christian House of Israel forever in order for Christ Jesus to consummate His Kingdom a tangible spiritual reality as portrayed in *I Cor.* 15:51-56; *Rev.* 21 and 22. After Jewry is banished from Christendom, the Devil, as Satan, will be the succeeding King of the Jews isolated from Christendom during the Millennial Reign of Christ Jesus on the Throne of David in the House of Israel. Today, that Throne is the Throne of England. After 1,000 years of peace in God's House, Satan as Jewry and his king as Gog of *Rev.* 29:7 will come forth again with all Northern East Asia (Magog, verse 8) for cannon fodder in another effort to annihilate God's Kingdom. When that occurs, however, Satan and his parasitical race of Jews will be extirpated from the face of the Earth.

(Note: The "Church 1,000 year Millennial age" has already happened and over with. Satan has been loosed to deceive the nations through the United Nations and Gog and Magog are at the door. The author's view, while good, at this point is a bit off. Also the author may have been somewhat premature with some of his views in 1953, otherwise his teachings about the Cainite-Jews are very good, and for the most part, right on the money.)

Now THE Devil, in the original Books of the *New Testament*, is Diabolos, meaning, calumniator as a malicious accuser. It is used, only, for THE Devil and his race. Therefore, we will leave "Satan" and take "Diabolos" apart and examine him in order to terminate this effort to correct the error in reasoning that THE Devil is merely an evil angel in the dimension of spirit, in the hearts of man, or down in the heart of the Earth, or in the atmosphere.

In *Matt.* 13:25-30 Christ Jesus speaks about a field of mixed seed. It is a wheat field in which an enemy has sown tares (cockle). When the servants want to remove the tares the master says to let them grow in order to prevent pulling up the wheat whose roots are fouled by the roots of the tares. Christ says He speaks in parables about things kept hidden since the foundation of the world. That "world" is *kosmos*, arrangement. The wheat, at that occasion, was the House of Judah arranged in Jewry's Beast system in 37 B.C. The tares are Cain's household. Christ sowed the wheat and the Devil sowed the tares. The parable extends on into today during which time the Devil has been the succeeding Kings of the Jews down to Abdul Baraba Baha today. After the Jew-Khazar Empire was destroyed in 1016, the Devil sowed his tares in God's field of Christendom in order for the parasites to suck their living out of Israel while sabotaging and destroying our Christian faith in God. The wheat is now ripe and ready for harvest, and before the end of 1953 Jewry will be gathered out of Christendom and burned (verses 39-40) before the rapture, or harvest.

(Here again, the author is misguided by the doctrine of the rapture, and once more is premature with his date of 1953. I have also deleted part of the text in this paragraph as it is not appropriate to the subject.)

"Then (after Jewry is removed) shall the righteous (Israel) shine forth as the Sun in the Kingdom of their Father" verse 43. ...

The Devil and his angels in *Matt.* 25:41 is the Jew king and his Jew angels of hell. We know it because the word "curse" in that verse is *katara*, to wish a curse against one. It is synonymous with the curse in *Isa.* 34:5 which is *cherem* in Hebraic. It means, things that should have been utterly destroyed, and that word "things" is *nephesh*, beast. Isaiah calls them *Idumea* because the Cainite-Akkad-Amalek Beast absorbed Esau in mongrelization then called themselves *Idumea*, or the Edomites; and the counterfeit race is the Beast race as the mangy renegade goat-nation.

In *Luke* 8:12 the Devil is the King of the Jews working through Jews and non-Jew stooges to establish occult religious cults in order to destroy Christianity in the

hearts of all entering the doors. Today, some of those cults are Luciferian Christian Mysticism commonly known as Theosophy, "scientific Christianity", Modernism, High Criticism, Yogaism, Asiatic Self Realization.

In *John* 6:70 Jesus Christ says one of His disciples was a Devil. He was Judas Iscariot, a Cainite-Akkad-Amalek-Idumean mongrel descendent of Cain and Ishtar, whose ancestral grandfather was Azazel, the Serpent in *Gen.* 3, and in *John* 8:44 Jesus Christ accuses those twice dead Beasts of being the literal offspring of the Devil, Aazael, and in verse 33 they admit they are not Israelite.

In *Acts* 10:36 the Devil was Arabanus II whom we have previously observed. In *Acts* 13:5-10 is a Cainite Jew black magic artist whom Paul, in verse 10, accuses of being a Devil. The Devil in *Eph.* 4:27 is still a king of the Cainite household. The date in the margin is 64 A.D. At that time Volgases I, King of Partha, was THE Devil. He was pulling the last string taut for the Jewish War (66-70 A.D.) which Flavius Josephus tells about when he says that Devil attempted to extirpate the House of Judah from the face of the Earth. Dion Cassius, in his book *Roman History*, further says that Devil was attempting to wipe out Christianity in Continental Europe and Palestine and Druidism and Christianity in the British Isles. He is the same Devil in *Eph.* 6:11, and girding on the whole armor of God, cited by Paul in *Eph.* 6:13-17, including the naked sword of God's Word that the Ephesians were Israelites of the House of Dan; and today the sword is the same as God's Word that the Anglo-Saxon-Celtic Scandinavian and Nordic people in the majority are the House of Israel as God's Kingdom on Earth.

In *I Tim.* 3:7 Timothy shows the conduct, becoming to a Bishop of the Church, or any preacher today not regarded especially as a Bishop. They are to hold that position only after becoming seasoned Christians, which is denoted in the word "novice" in verse 6, which is *neophutos*, newly planted. Because if he were not a seasoned Christian he would fall into condemnation to the Devil, who is the same Beast as Jewry's king teaching apostasy to Christians through Jewry's Beast System. If the preacher does not have a good report for those not in his denomination, he will fall into the snare of the Devil set by Jews to discredit the clergy and ruin their influence. The modern trap was set and baited by Rabbi Reichorn in Prague, Czechoslovakia in 1869 when he informed a convention of the Luciferian priests: "Naturally we must commence by discrediting the ministry of this religion (Christianity). Let us declare open war on them; suggest suspicions as to their devotion, of their private life. And by ridicule and jest, we shall get the better of the consideration attaching to the State and to the cloth." Then, in Paris, France, February 1936 the Grand Master of Jewry's Grand Orient Freemasonic Lodge of B'nai B'rith reviewed the result of the trap when he informed another convention of the Luciferian priests (convened in order to draw all strings taut for World War II), and the Paris publication *Le Reveil du Peuple* quoted him: "We have turned the Clergy into objects of hatred and ridicule, we have subjected them to the contempt of the crowd. We have caused the practice of the catholic Religion to be considered out of date and a mere waste of time.

"And the non-Jews, in their stupidity, have proven easier dupes than we expected them to be. One would expect more intelligence and more practical common sense, but they are no more than a herd of sheep." Formerly, in the same speech he said: "We must always bear in mind that the Catholic Church is the only institution which has stood and which will, as long as it remains in existence, stand in our way. The Catholic Church, with her methodical work, and her edifying and moral teaching, will always keep her children in such a state of mind as to make them too self-respecting to yield

to our domination and to bow before our future King of Israel." [So, why does the Pope wear a yarmulke?]

That king of false Israel in 1936 and today is the Turko-Mongol Jew, Prince Abdul Baraba Baha, whose condemnation and trap the average preacher in America has fallen into despite the fact that Timothy warned of its location when he wrote his great letters, yet by being willingly ignorant of the mysteries of God's Kingdom of Israel and our position in the world, they have gone to hell and seem to like it. But if God peradventure will give them repentance (change of mind) to the knowledge of the truth; that they may recover themselves out of the snare of the Devil who are taken captive by him at his will (*II Tim.* 2:25, 26) they could save this Nation of Manasseh Israel from pending sorrows dished out by the Devil's race of Jews in their final attempt to extirpate the Kingdom of God (Yahweh) from the face of the Earth or perish in the attempt.

The word "repentance" in *II Tim.* 2:25 is *metanoia*, a change of mind. *James* 4:7 says resist the Devil and he will flee from you. *James* 1:1 proves he is writing to the 12 tribes of Israel. Israel, today, is the Christian Nations—the White man's civilization. Today, as during James' time, the "world" in *James* 4:4 is *kosmos* in the Greek. It means, arrangement. The word "resist" in verse 7 is SATAN. It means, hate, accuse, to oppose. That Devil is Jewry as the racial body of the Beast. The "world" around and impregnating Israel's Christian Nations is the arrangement of our people in Jewry's Beast System. Resistance against the Jew Devil is everything Christian, which builds strong faith in God, strong morals, character, harmonious home, community, national life ..., strong nationalism, strong patriotism, pride in one's race, sound Republican Constitutional Christian Government, thrift, prosperity, and abundance of the first necessities of life. In other words, it creates a strong, healthy national life on which the parasitical Jew Devils cannot feed and he will flee from the individual and the Nation to a weaker national plant without strength to resist the penetration of the parasites. God (Yahweh), however, did not choose Israel in order for us to build ourselves into that healthy plant so the parasitical Devil would flee to other people and suck his living out of them for their destruction. Instead, He chose Israel and gave her His Laws on how to build herself first into a strong body on which the Jew parasites would perish if they attempted to absorb our strength into themselves—the same as any parasitical insect will not feed on healthy vegetation. They choose unhealthy vegetation, because there are certain qualities in robust vegetation that are poisonous to insect parasites. ... Without a plant on which the Jew Devils would be capable of feeding, they would be compelled to withdraw to themselves and suck their living out of one another in order for God to permit the Devil and his race to destroy themselves and free man of evil and death.

However, our ancestors showed their weakness by permitting the Jew Devils to penetrate our Nations. While sucking their living out of our people, we, however, continued growing into a powerful material State. Yet, today, under the surface of that material strength, the heart of our national tree is dead, the trunk has been encircled under the bark and the leaves and fruit have been devoured by the parasitical Jew palm-worms, grasshoppers, canker-worms and caterpillars as prophesied by *Joel* 1:4, and today the world stands in trembling fear of being devoured by larva of Bessie bugs.

[In the Philippines, de jure President Estrada is busy trying to unite the Filipino people and appears to have a significant measure of popular support.]

ESTRADA VOWS TO UNITE OPPOSITION

Daily Tribune, 1/3/05

By Jun P. Yap

Aside from pursuing his objective and the one goal left unfinished by late movie icon and presidential bet Fernando Poe Jr. to help and serve the Filipinos, especially the poor majority, ousted President Joseph Estrada, recuperating from complete knee operations in Hong Kong, has vowed to unite the opposition, divided by the rift over the rightful presidential candidate months ahead of the May electoral derby last year.

Estrada, admitted at the Hong Kong Adventists Hospital, over the weekend said he would gather the opposition upon his return to the Philippines and do his best to unite the minority bloc.

He explained his move would also be a continuation of the objective of Poe, whom he considers his best buddy, to serve the people, including the masses.

...When asked about his plans to pursue his political career, Estrada plainly said he would try to continue the objective of his late buddy in serving the poor and underprivileged Filipinos.

...Estrada said 2004 had been good to him because of the fact that his followers voted for his son Jinggoy to the Senate after the fruitful senatorial bid of his wife Loi during an earlier election.

...According to him, he would want his case to be finished "so the Filipino public would learn of the truth behind the case filed against him by the Arroyo administration."

The huge support still being enjoyed by Estrada from the Filipino masses was proved by recent surveys showing majority of the Filipinos are convinced their lives could have been better under the Estrada leadership rather than the administration of Mrs. Arroyo.

[GAIA Program, anyone? The need for gold-backed currency is spelled out most clearly by Alex Wallenwein, <a1-guide-to-gold-investments.com>.]

ARE GOLD-RESERVES THE ONLY WAY OUT?

By Alex Wallenwein, 1/3/05

A very simple case can be made to show that world central banks will soon be forced to return to a pure gold-reserve system.

If they want to save even a smidgeon of their former power, they really have no choice—unless they prefer that the whole ship go down before they change course.

Right now, international dollar reserves constitute the proverbial hot potato. Nobody really wants them, but no one can afford to drop them, either.

Best way to demonstrate the truth of this: a look at Asian central banks, especially those of China, Japan, and India.

They are awash in dollars, and they know that dollars are falling and will continue to fall. They also know that:

If they simply keep them, their value will rapidly decrease over time;

If they sell them, their value will decrease even faster;

If they buy more to keep the dollar and their export-based (rather illusory) profits from collapsing, they will only delay the inevitable and build themselves an even bigger problem.

...Staying on a fiat-based reserve system simply is not an option. The more time is "bought" by these countries continuing to buy dollars to keep their own currencies low and the dollar system from imploding, the bigger the problem gets. All of the participants know very well that, eventually, a point of no return will be reached.

Right now, they are still waiting, hoping—against all better knowledge. But that will stop at some point in time, because it will become impossible to maintain.

The only hope they have right now is that, somehow, their tactics will enable another credit-fueled "boom" of the world economy—but they really know better. They know exactly that credit-fueled "booms" are what brought us all to this juncture in the first place. Any more of this, and this pressure cooker will simply explode. That's not the kind of "boom" they want.

The only viable alternative is the one thing they have collectively tried to abandon and have worked so hard to forever lay to rest. It will take some time to sink in, but sink in it will. Namely, only by exchanging dollars for physical gold reserves can they truly save their countries from this mess. Here is why:

The very same reason why the Asians can't sell dollars right now (their dollar-holdings' value would dramatically decrease, so they end up with huge losses) will eventually force them to abandon all pretenses at being able to run a world-wide monetary regime apart from gold, and it will force them to start buying gold with their dollars.

If they sell dollars for other currencies or productive assets, each time they spend dollars to buy these their remaining dollars will decrease in value and buy less, while any real assets they could buy with the proceeds will increase in price as the dollar sucks all currencies down that old competitive-devaluation sinkhole.

The same will be true if they buy gold with their dollars of course. But there is one decisive difference.

If they buy gold for their dollars, then yes, the value of the dollar will decrease just as rapidly—but the accompanying rise in the price of gold will more than compensate them for this loss. Why is that so? Because the "performance" of the gold they buy does not depend on the performance of any underlying economy where other real assets they might diversify into may be located.

As each additional dollar spent buys less and less, each additional ton of gold becomes more and more "expensive" in terms of dollars. As this process continues, their balance sheets will on balance be, well ... balanced.

Whatever downward pressure their fiat-sales will exert on the dollar, gold will make it up in a commensurate price-jump. Eventually, they will come to the realization that the dollar-price of gold (or whatever other currency price of gold) is nothing but a red herring, a ruse.

The real value lies in the gold, not in the dollar.

Instead of looking at the "price of gold", they will eventually begin to look at the price of fiat, and they will realize that its price—due to fiat's inherent

worthlessness—is always too high. It doesn't matter which way you look at it. If you have any grasp on economic reality at all, you know that the cost of fiat is always too high.

...The problem is: where does that leave the U.S. as the dollar's issuer? What effects will it have on the U.S. economy if the all world sells dollars for gold? Will the Fed and Treasury join the gold-buying rush and in the process annihilate their own currency?

...Take a good look at China. Interesting to note in all of this is that, of all places China—yes, supposedly communist China—is strongly advocating that its people own and save physical gold to hedge against currency risk. Thus quoth Zhou Xiaochuan, the governor of the Peoples Bank of China in a recent address to the LBMA....

[As the following articles show, the December 26, 2004 earthquake and tsunami are probably not the end of this seismic "event" in its entirety. Emphasis has been added to draw your attention to some key points in the following articles.]

EARTH STILL RINGING LIKE A BELL AFTER ASIA QUAKE

Reuters, 1/10/05

Two weeks on, the Earth is still vibrating from the massive undersea earthquake off Indonesia that triggered the tsunami, Australian researchers said on Sunday.

The Australian National University (ANU) said the reverberations were similar in form to the ringing of a bell, though without the sound, and were picked up by gravity monitoring instruments.

"These are not things that are going to throw you off your chair, but they are things that the kinds of instruments that are in place around the world can now routinely measure," said ANU Earth Sciences researcher Herb McQueen.

...**"We can still see a steady signal of the Earth vibrating as a result of that earthquake two weeks later. From what it looks like, it appears it will probably continue to oscillate for several more weeks."**

...U.S. scientists said just after the quake that it may have permanently accelerated the Earth's rotation—shortening days by a fraction of a second—and caused the planet to wobble on its axis....

EARTH STILL SHAKING AFTER EARTHQUAKE: AUSTRALIAN SCIENTISTS

Indo-Asian News Service, 1/9/05

The Earth is still ringing like a bell about two weeks after the earthquake that shook the Indian Ocean and triggered the tsunamis in Asia, according to Australian scientists here, *Xinhua* reported.

The Australian Broadcasting Corporation Sunday quoted Herb McQueen from the Australian National University as saying that a gravity meter is still detecting ringing from the rare seismic event.

He said scientists across the world were studying the data.

"Normally a reasonably large earthquake will continue reverberating for a couple of days on our charts, but this one has been **going steadily for the last 12 to 13 days and shows no signs of letting up** actually," McQueen said.

"There's still a measurable oscillation and **I've never seen the Earth ringing this long after an earthquake**," he said.

[The following article provides a wealth of background information from a geologist-geophysicist who really seems to know his stuff and makes the point that it's not over yet.]

SUMATRA CONTINUING SEISMIC NOISE—
DANGER CONTINUES

<Rense.com>, 1/1/05

From Harry Mason, Geologist-Geophysicist

I note that all seismic info web sites are showing **large (6.0-5.0 richter scale) quakes continuing every couple of hours along the Andaman-Sumatra fault line.** These have been occurring ever since Boxing Day right up until today. The continuing quakes demonstrate VERY “noisy” high energy background seismograph records when viewed on seismograms collected from seismic stations located within a few thousand kilometers of the original 9.0 richter event. **This may indicate continued high frequency micro-quakes of the type associated with volcanic intrusion in the upper crust on a massive scale along the Andaman-Sumatra island arc zone.**

...Given the violent off-scale nature of seismograms over the last few days it is difficult to generate either precise richter level info OR precise Lat-Long co-ordinates for specific events. In fact the noise level on many seismograms suggest **this has been and is a nearly continuous energy event with regular high energy peaks every few hours.** This may indicate that **igneous intrusive action is occurring here on a massive scale deep within the crust associated with continual faulting movement along the proto island arc???**

A long dormant Andaman volcano has begun to erupt over the last few days and an Indian Government geologist has said that this eruption is nothing to be concerned about. Many volcanoes along the Andaman-Sumatran arc are of a highly explosive type—but I am unfamiliar with the specific newly erupting volcano type.

If you read the information below (taken from Dr. George Pararas-Carayannis site) re the 1883 explosion of Krakatoa you might wish to contest the statement that “there is nothing to be concerned about”!!!

You should note that some 1000 years previously an exploding proto Krakatoa was literally the cause of the “DARK AGES”!!! But more recently, in 1883, it began all over again as follows:

“After a long period of inactivity (about 200 years), Krakatoa became active again in early 1883. The first indication that something was happening on Krakatoa was when a large earthquake struck the area. Seismic activity became stronger until May 20, 1883, when the volcano abruptly came to life. The initial explosive eruptions of Krakatoa could be heard 160 km away. Steam and ash could be seen rising 11km above the summit of the volcano. By August 11, 1883, three vents were actively erupting. Eleven other vents were ejecting smaller quantities of steam, ash and dust.

“Around 1 pm on the 26th of August 1883, the explosions became more frequent occurring on the average every 10 minutes. Sailors on a ship, 120 km away from the island reported a black cloud of smoke rising above the volcano. At the time the rim of Krakatoa’s crater was approximately 1,000 meters in diameter and had an average depth of 50 meters. The volcano’s central vent was blocked by a plug of solid lava and underneath it pressure was rapidly building up.

“The renewed activity in May 1883 culminated in four gigantic explosions on August 26 and 27 of the same year. On the afternoon of August 26, 1883, (27 August local date) at 17: 07 Greenwich time (GMT), the first of these four violent explosions began. A black cloud of ash was initially observed. It rose 17 miles (27 kilometers) above Krakatoa. In the morning of the next day, on August 27, 1883, at 05:30, 06:44 and 10:02 GMT, three more violent eruptions occurred.

It was the paroxysmal eruption which occurred at 10:02 which blew away the northern two-thirds of the island. This was the most severe violent volcanic explosion on Earth in modern times. The explosion was followed by the collapse of the unsupported volcanic chambers of Krakatoa forming the huge underwater caldera. It was this explosion and collapse of Krakatoa that generated catastrophic **tsunami waves as high as 37 meters** (120 ft.) that caused havoc and destruction in the Sunda Strait.”

Well as you can see from the initial early 1883 Krakatoa region “large earthquake” a series of events unfolded that culminated in a massive explosion at Krakatoa and a huge tsunamis on August 27th 1883. Thus it took about 7 months for the Krakatoa incident to fully develop. Krakatoa also had a huge loss of life—if repeated today the loss of life could be MUCH higher.

It is early days yet BUT I do not believe that the danger from this Boxing Day Sumatra event has passed. The locality off NW Sumatra has now demonstrated **unprecedented seismic instability over a duration of several days** and the region has a VERY VIOLENT and well documented quake-tsunamis-volcanic eruption history. **Whatever precipitated this disastrous event it is highly unlikely that it is over and therefore danger remains.**

Keep your wits about you since **yet more massive quakes and/or explosive volcanic eruptions and tsunamis may well occur over the next few months (or year(s))—NB these may NOT be limited to the Indian Ocean region.**

The world chart of real time earthquakes seems to indicate that fresh quakes are initiating in other stressed parts of the planets crust—particularly along the New Guinea-Japan-Alaska-California fault systems—probably in response to the dis-equilibrium in the Earth’s tectonic stress field created by the 8.3r Macquarie Island quake and then the 9.1r Sumatra and subsequent quakes. The next few weeks will be critical in developing our understanding of this event. It will pay to keep abreast of this unfolding seismic event for several months if not years....

[It is worth noting that the supervolcano Toba is located on the main island of Sumatra in Indonesia, as pointed out in the Tom Bearden series we have been running. Toba erupted some 75,000 years ago and is said to have caused a genetic “bottleneck” by killing off all but a remnant of mankind. Meanwhile, since everything is connected, keep in mind other parts of the planet are affected too.]

RUSSIAN SCIENTIST PREDICTS MASSIVE
TSUNAMIS IN SOUTH AMERICA

MosNews, 12/30/04

A Russian scientist has warned that a deadly tsunami like the one that devastated south-east Asia over the weekend could strike in places like Ecuador, Peru, and Columbia.

Yevgeny Dolginov, a professor of geological studies at the Russian University for Peoples’ Friendship, estimated the risk to areas around the world using a theory based on tectonic plate movements, the *Interfax* news agency reported.

“I feel it is necessary to warn the embassies of countries located around the equator about the possibilities of massive earthquakes in the near future,” Dolginov was quoted as saying.

“According to my theory, there are lineaments that present a danger in terms of seismic activity.”

Among other possible danger zones, he named Equatorial New Guinea, Cameroon, Nigeria and Gabon.

[As additional confirmation of the non-Western alliance which has been forming, we cite a huge liquefied natural gas deal between India and Iran (which just recently wrapped up a \$200 billion deal with China), along with finalization of an important oil deal between Venezuela and China:]

INDIA AND IRAN SIGN \$40B LNG DEAL

Reuters, 1/8/05

India has signed a \$40 billion deal with Iran to import liquefied natural gas and join in developing three Iranian oilfields.

A joint statement said India would import 7.5 million tonnes a year (tpy) of LNG starting 2009 and running for 25 years.

“Every last detail has been settled, price too,” said Indian Oil Minister Mani Shankar Aiyar after talks with his Iranian counterpart, Bijan Zanganeh, on Friday.

An Indian government official put the price tag of the deal at \$40 billion although there was no official confirmation of the figure. The statement said India’s ONGC Videsh Ltd and the National Iranian Oil Company (NIOC) had agreed a preliminary deal for Indian firms to participate in the Yadavaran and Jufeyr oilfields through service contracts....

VENEZUELA AND CHINA SIGN OIL DEAL

BBC News, 12/30/04

Venezuelan president Hugo Chavez has offered China wide-ranging access to the country’s oil reserves.

The offer, made as part of a trade deal between the two countries, will allow China to operate oil fields in Venezuela and invest in new refineries.

Venezuela has also offered to supply 120,000 barrels of fuel oil a month to China.

Venezuela—the world’s fifth largest oil exporter—sells about 60% of its output to the United States.

Mr. Chavez’s administration, which has a strained relationship with the U.S., is trying to diversify sales to reduce its dependence on its largest export market.

China’s quick-growing economy’s need for oil has contributed to record-high oil prices this year, along with political unrest in the Middle East and supply bottlenecks. Oil prices are finishing the year roughly 30% higher than they were in January 2004.

In 2004, according to forecasts from the Ministry of Commerce, China’s oil imports will be 110m tons, up 21% on the previous year.

China has been a net importer of oil since the mid-1990s with more than a third of the oil and gas it consumes coming from abroad.

A lack of sufficient domestic production and the need to lessen its dependence on imports from the Middle East has meant that China is looking to invest in other potential markets such as Latin America.

Some Payments Lost in Mail**

A batch of mail has apparently been lost. Anyone who sent donations, payments for subscriptions or book orders, correspondence or a change of address to *CONTACT* between November 15, 2004 and December 6, 2004 should please call Valerie Tracy at **1-800-800-5565** to verify that your payment or correspondence came through. We apologize for any inconvenience.

NEVADA CORPORATIONS:

When Is A Corporation NOT "Doing Business"?

Budget's "Tip of the Week" #15:**Operating in a Foreign Jurisdiction Without Having to Qualify the Corporation**

Since most people who form Nevada corporations reside in jurisdictions other than Nevada, one of the first questions that needs to be addressed is how to properly use the corporation while they themselves operate from within their home state (or country). Is it necessary to register or qualify the Nevada corporation to do business within their jurisdiction? Often it is—especially if there is a physical presence involving employees—but there are often many useful exceptions to the rule.

Let's look at the exemptions from qualification in the State of California—which is generally known for both its stringent regulations and its repressive taxation—to see what "loopholes" exist. You should look up the regulations in your own particular jurisdiction but as a general rule they will tend to be quite similar.

Business Exempt from Qualification in the State of California

Without excluding other activities which may constitute transacting business, a foreign corporation shall not be considered to be transacting business solely by reason of carrying on any one or more of the following activities:

- 1) A foreign corporation shall not be considered to be transacting intrastate business merely because its subsidiary transacts intrastate business.
- 2) Maintaining or defending any action or suit or administrative action.
- 3) Holding meetings of its board or shareholders or carrying out other activities concerning its internal affairs.
- 4) Maintaining bank accounts.
- 5) Maintaining offices or agencies for the transfer, exchange or registration of its securities.
- 6) **Effecting sales through independent contractors.**
- 7) **Soliciting or procuring orders either by mail or through employees or agents or otherwise where such orders require acceptance without this state before becoming binding contracts.**
- 8) Creating evidences of debt or mortgages on real property.
- 9) Conducting an isolated transaction within a period of 180 days and not in the course of a number of repeated transactions of like nature.

We have highlighted number 6 because this provision is used by an increasing number of businesses in the area of consulting. When the consultant is an independent contractor and the income is earned by a Nevada corporation, the corporation has no presence in the foreign jurisdiction, only the contractor does. So, the contractor must pay home-state tax on his income but the corporation earns its income in Nevada. There can be tremendous tax savings if the contractor lives modestly and draws only what is needed to meet living expenses. Note: It is essential that the corporation exists "at arm's length" from the contractor.

Where the business is more product-related rather than service-related, provision number 7 can come into play. Ensure that the orders generated require acceptance from Nevada before becoming binding contracts!

CORPORATION SETUP AND MAINTENANCE FEES**Budget Corporation—includes:**
