## STATUS REPORT

As I come to write this morning a bit late, we must remember always that the game stops not and life goes on as orderly as possibly can be accomplished.

I can now explain to you what is happening for the players are at a rather distressing "stand-off". Until the satellite which was claimed to have been launched Sunday was actually launched, the danger to my scribe was too great to explain in detail what has been and is coming off here and why, for days, it will be wait and see who "chickens" first. You have two powers at play which can destroy your world, not only California, and one who awaits the "proper hiding" of actions to invade Jordan.

## THE PLAN THUS FAR

The "launching" of the shuttle was the first move of cover-up. It was "launched" under cover of night for obvious reasons--so that no one could tell what the dickens was going on. The shuttle which will bring the per-

sons home is sitting in Australia--and is not, by the way, the one which was supposedly launched.

The next step was to tell all of you that this communications satellite was launched but had some "glitches" to allow for things to go totally wrong. The facts are, however, that the satellite in point was launched today (17th) from Australia and a second from New Zealand in efforts to get ONE up and orbiting. These were carried by unmanned rockets. Both carry "sensor" satellites which would be launched from the larger satellite and for use to monitor a nuclear strike.

Here is where it gets sticky-poo. The plans are to trigger the San Andreas as the satellite passes over California. The Russians do not want the Bankers to win a round yet, for with the Bank closures comes the take-over of the government of the U.S. by the Elite. Facts are that Gorbachev is in the bed with the Elite, but the ones who control the Cosmospheres are not--at least the ones that count. If the Banksters take over, Israel will march on Jordan and under cover of chaos, take most of the

country and blame others, as usual. At any rate the world would certainly be distressed and distracted because you are in a real bind with the rest of the world. The Elite planned to release the sensor satellite at appropriate time to pick up nuclear detonations in Russia at the same approximate time of blowing the California fault and possibly an Eastern fault immediately following, as well as triggering one in the Russian sector. If the Russians take out the satellites, as they easily can do, they will blow to smithereens the control mechanism which will indicate "strike-back" release of your, missile system, and nuclear war is under way. If they take out the sensors after launching, they will have to destroy them over Russia and they are set to shower radioactive particulate all over the Russian landscape. They can wait and take them out over the ocean or when they move again over the U.S. but the timing is such that it doesn't really matter,

They can take out the entire system prior to launching the sensor apparatus but with two in orbit it becomes harder to be selective as to when to blow

them away for while one is over the U.S. the other is over Russia. The third choice is to blow them out while over other countries but the plan will be leaked and the Elite cannot have this uncovered yet--to the world--until the U.N. is totally in control with military power. However, the Elite must have the "incident" which will bring the people of the U.S. under total control.

I would add a point which comes up as you ponder prior writings. It was originally established that the Cosmo-spheres would back the satellite triggering the faults, etc. This was changed when the Russians found that the sensor satellites were piggy-backing the triggering satellite. In addition, you see, the bankers are using these last linkages with the banking system so that the intention is to keep the satellites in orbit at any circumstance. Ah, the blackmailers are blackmailing the blackmailers and thus around and around we go and where it stops, nobody knows. So be it.

Now if you wish to think I am wrong--feel free to do so. However, as in this local area, you will note that the unmarked, black helicopters are on constant patrol throughout your nights--constantly. The surveillance beams are upsetting the bird and animal life which will be readily noticed if you have outside animals or fowl.

Part of the reason for the heavy surveillance in this particular area is to effort to monitor our communications from and

through the crystal system and they know we will not allow any craft within the shielded area with weapons--they can only monitor, or try to, from within the shield. You will also note our presence in every quadrant--low, colorful and in total view of the surveillance craft. When we say we will protect you--we mean it and "they" know it.

The adversary is not sure whether or not we will intervene and better that they do not--you see, if they make a wrong move they DO have us with which to contend.

Then why don't we tend the fault and prevent triggering the quake? Because we are not interested in the fault for it is due to go by natural evolution in great magnitude at any moment--quite naturally. It is easier to warn you ones if we can operate on "their schedule" but even at that it is "probabilities". If, however, you can determine the orbit sequence of the satellites you can know to the minute when to hide your head. This is why everything is being done at night for your viewing--even to the landing at night in the East. Note that they are not even mentioning landing at Edwards in California although they may well change it at the last minute if nothing goes as planned and California stands undamaged. It only has to be flown from earth altitudes but they know the runways at Edwards will not be suitable after the earthquake planned.

Another reason for having "two" in the air (or four as the case will likely be) is to have

the second apparatus back up the first if the first fails to trigger sufficiently.

Note the neat cover-ups going on--Baker is smiling and giving the Yom Kippur hug to Shamir while they pretend to fight and disagree and Bush is laying low as the hearings for Thomas and Gates take place. You can further see that Bush will NOT be crossed on Gates (and yet, the full plan has been to put Gates into the slot of Adviser and Armitage into the CIA). Both need "around about the bushes approach" and it is working fantastically well--even George tells you "the system is working fantastically well". The charges against Ollie are all dropped and this smooths the way for Gates to lie his Kol Nidre way through the hearings. Can you actually believe the SECOND MAN IN CHARGE of the CIA did not KNOW about the Iran/Contra mess? YOU ONES ARE CONFRONTING THE FINAL DAYS OF THE EVIL EMPIRE AT WORK AND THERE WILL BE NO TRUTH FROM THE HIGHER COURTS OR ADMINISTRATION. THIS IS AN ALL-OUT PLAY FOR THE TAKING OF YOUR WORLD. THEY MUST HAVE THIS PORTION DONE IN ORDER TO KEEP TO SEQUENCE AS LAID FORTH.

I would like to point out, however, that you surely noted the thousands of people who poured forth in the Soviet action. They know if they make a wrong (soft) move against you-the-people that you still have guns and they cannot stand against the power of the people in this in-

stance. This is why it must appear to be through act of God in Natural disaster appearance for you will not tolerate any other action. However, if in the throes of the confusion, they come and take your weapons you will have no recourse. This is one reason you can likely expect things to happen toward the darkest part of your night time so that you cannot do anything until the light of day. These are the clues, but as the show-down gets critical, it is all but impossible to see that which will be done in actuality.

One particularly nitty thing is that it has been leaked that it would be on the 17th and that becomes a toss-up whether or not to pull it off, actually, on the 17th or let it go until the 18th which was the first plan--to leak through the code electronics that it would be on the 17th so you could all go back to sleep and disclaim our input. You will simply not be allowed to know the hour or the moment for the final decision will be made quickly enough that we cannot warn you sufficiently to do anything about the happenings. I can only warn you that you are into the time of making some acutely necessary observations about possibilities regarding your locations. I simply ask that you listen to your "guts" and hear the warning when it comes. If you do, and you are tuned to us, you will know and safety can be attained. Forget God and He will allow you to do so.

This is why it becomes necessary that you are "constantly" in communication with God be-

cause when the fear takes control you are NOT going to be able to remain calm enough to clearly function.

Something here, now, that I believe you can check out if you do a bit of research. You recently had a major underground nuclear test in Nevada--I believe on August 15th. The blast had a force of over 20 kilotons which puts it right at peak allowable force. It further damaged the base of the dam nearby and the expectations are that an effort will be made to break that dam simultaneously with the San Andreas. The intent is to render the Western states relatively helpless.

Why do I not tell you these things? Because it causes my people's lives to be less worthy than the proverbial "tinker's damn" and YOU NEED US MORE AFTER THE FACT THAN YOU DO BEFORE AND SO BE IT.

Dharma, close this, chela, then I would like to commune with you for a while with information I do not want on this computer. Thank you. Stay within the shield and hold tight--we effort to "reason" with the insane players but we make very little headway.

I am in your service. Hatonn to clear the lines, please.

### STATUS REPORT

Hatonn present that I might give you information. It is important

that we document things which are taking place because I see the emergency as to nuclear problems somewhat lessening as ones are beginning to have to bend in intent. It has been a day worthy of remembering. I do, however, see Dharma so weary that she truly cares not whether she survives or just folds it in.

I thank all of you for rapid deployment to the priority task at hand and let us continue to ask with love and giving that we be spared a bit longer that our work can be farther along and with better organization. Let us look at that which is probability as night falls in this geographic area.

### BLUNDERS IN CALCULATION

There have been at least two major blunders on the part of the Elite planners which are causing them a great large headache at this time.

In retaliation for the sensor satellites, the Russians moved their Cosmospheres into orbit over the area of New York. Just as they did in prior incidents of this type they simply moved in front of the radar satellite communications network and with full intent of blasting any and everything out of the sky if you dared launch so much as a missile--which begins to look like a worse and worse idea to the Administration.

The miscalculation, however, was that WE ARE READY, WILLING AND ABLE TO

TAKE OUT THE SENSOR SATELLITES BECAUSE THEY BEAR CHARGED PARTICLES WHICH DEFINE AS NUCLEAR PAY-LOAD. THEY HAVE THE SATELLITES IN ORBIT AT APPROXIMATELY 300 MILES OUT AND, THEREFORE, WE CAN NEUTRALIZE THE SMALLER SYSTEMS WHEN THEY IDIOTICALLY LAUNCH THEM BECAUSE WE CAN TAKE OUT ANYTHING WITH A NUCLEAR "WEAPON" ON BOARD AT 150 MILES OUT. The effort at present, of course, is to bring the systems closer in but this is a highly dangerous maneuver and easily allows the Russians to act with narrower range of fallout area. The systems are set to blast the particles toward earth with great force and the particulate is heavy enough to do the rest of the work as it is thrust into atmospheric conditions.

The stand-off got more serious when it was evident the U.S. fully intended to blast Russia to bits and, as before, the Cosmo-spheres simply moved into the area and started to give you a nice show. It was already completely out of hand between the bullies so we gave them a little more specific lesson. We simply moved in front of the Cosmo-spheres and selectively removed ability to communicate between specific, strategic areas which had to be noted, for everywhere else save those airports have working communications. I believe they will tell you they "have a glitch of some kind and don't know how long it will last". I do--it will last

just as long as they keep their death toys out and focused. You see, you were ready to get your first full blast dose of "space brothers" doing-in America. Well, in this instance we only have to take position--we don't have to do another thing other than "be there".

Do not count on our being able to do this at other times for this time the intent from onset was different than a structured "show and tell". This was simply to show you ones that Russia still had the upper hand. I believe, however, that we need a bit longer for preparations for personal attention.

What you can surely expect: A large, or several large mid-states detonations of some type which will knock out the entire communications systems on a national scale. This can easily be done by the Cosmo-spheres without even showing themselves if the U.S. doesn't pull back. They can pop your receivers and microwave stations like popcorn and interrupt all radio frequencies permanently if push comes to shove.

They will, however, leave you to your own destructive stupidity as to killing off your own people and wasting your West Coast. They helped you by popping a couple of quakes on you today and now, that fault is ready to go, friends.

You can, as I said earlier today, count on the loss of several of your dams along with the earthquakes in random places and storm damage as well through the South and Southeast. The

Russians do try to give you warnings because they simply do not wish to lose the planet yet. This does not mean that they are necessarily "nice" persons, chelas--it is simply that they have the upper hand in this game in this play at war games.

Further, they have ample and good shelter systems on surface and several bases to which to shuttle thousands and thousands of people for long periods of time. They can wait out nuclear clearing far easier than can you.

The enemy has an even better warning system--Russia can do great damage to the Elite shelters in Australia, Antarctica and New Zealand and, of course, can take out any aircraft put to the air for temporary Elite security. In other words, Air Force One, Two and Three are stupid facades--they wouldn't last 30 seconds.

The Russian "communists" plan to have America but they want you on their terms and it doesn't include this way. They fully plan to take your nation just as they told you--"without firing a shot".

Meanwhile, back at the "temple of Zion"--Baker has bargained for temporary stay of execution of an invasion as things begin to go wrong with the plans in the U.S. He has promised Shamir the money, and more, if Shamir will just hold off until around the first of the year. Then, not only will Shamir get money but be handed lands desired, as well. By then it is expected to have full control through the U.N.

STATUS REPORT

THE WHORES OF BABY-  
LON? INDEED, INDEED!

I warn the world, however, when that happens you will have a Holy War to end them all--that will effectively bring on that which you call Armageddon.

It is undecided as to that which will be continued within these days ahead but in summary, I see a bit of lessening of threat of nuclear problems by intentional war--perhaps some from power plants if the fault is triggered but I believe nothing of that sort tonight. I may be wrong in that position but I see such fatigue that I prefer Dharma and Oberli, for instance, get rest and if necessary I will awaken you in time to gather what you need. I do suggest you move smartly along with getting things transferred even at the expense of delays in other conveniences.

I cannot have Dharma so fatigued that I cannot communicate instantly--thank you.

I shall sign-off for this sitting. We will sit it out and perhaps someone will gain some intelligence because you see, precious ones--THEY DO NOT KNOW THAT WHICH WE WILL AND WILL NOT DO AND I WOULDN'T WANT TO SPOIL THAT INQUIRING SPIRIT--THEY REALLY BELIEVE WE WILL BLAST THEM NICELY TO HELL AND BEYOND AND I FIND I RATHER LIKE THE PERCEPTION!

Good night. I will not call unless circumstances change.

Hatonn to clear.

Hatonn present: Breathe NOW! But don't waste time with a lot of lolly-gagging about things--move right on with setting aside "instant" preparations. You are definitely NOT OUT OF THE WOODS, FOR THE ENEMY (YOUR OWN ELITE) HAVE AS MANY ALTERNATIVES AS NECESSARY TO PULL YOU DOWN.

We will begin with the "space" situation. Note your clues as we go so that you can begin to recognize actions. Firstly: we have the sensor satellites so if you proceed with a "first strike", you will do so blindly and with the Cosmosphere "cover" you won't get very many missiles into the area of enemy territory. You have a tracking beam on every major missile in your arsenal--Russian. They, the Russians, have taken out one of the satellites and await your actions to consider what to do with the remaining one which is the important link "through" your banks on the West Coast following massive quake activity. As I told you, it is not in Russia's best interest to have the money system and banking industry collapse into chaos at this time of gaining blackmail money from the U.S. and allies.

Leaving that for a moment, let us look at other circumstances of importance to the West

Coast. Know that we have released the communications network at the Eastern airports which is a clue that the war satellites are "down". I believe your nation had a pretty good lesson--and believe me, brethren--the Russians can do the same thing just as easily as can we but their lessons will bear more weight than a mere "tower" blackout.

You also will find that you got another show of strength from the Cosmospheres. The San Simeon quake of yesterday was a beam blast from a Cosmosphere as a warning--not necessarily to stop the plans for the San Andreas but rather, to let the Elite know that they were "there" and in control.

Further, you will find a nice and tidy pile of freeway construction material on the Century Freeway in L.A., along about Imperial Highway. This scaffolding was brought down, too, as a distinct lesson in precision-controlled surgical capability of your enemy.

I cannot begin to tell you, however, how teetery the San Andreas Fault system is at this time. It is absolutely hanging by "snags" in the areas of northern South America and in the Aleutians--the barriers have been minimized along your Western coastline so you are extremely vulnerable. As you have massive disruption in and around Japan, you are remaining in SERIOUS jeopardy.

ISRAEL: THE FLY  
IN THE OINTMENT

Israel wants blood and they want to show their muscle **RIGHT NOW!** They have worked it so that they get everything they want from you via Baker and Bush--**EVERYTHING.**

An incident is all prepared to break which will give Israel the "cause" to move into Jordan. *You are the dupes and backup in that maneuver, also. YOU are sitting with your air strike force alert and ready to take-off in Saudi Arabia against Hussein (Saddam). Israel wants Iraq off the map! It is actually the area of Iraq which is sought--you must remember that Iraq is the location of Babylon of old. To have control of that land is as important as building a new temple in Jerusalem.*

Now for your punch-line clue. You will be getting every conflicting story possible about Yeltsin--that he has had a heart attack, that he has had a heart "scare" and hospitalized, then denouncement of it all--no, he was missing while they replaced and updated him with new programming. YOU, dear ones, are out-technologied! You cannot measure up to that which the Russians have in capability of technology and they are showing you as much.

They do not actually, however, care what you do with your "stuff" and they want the population decreased at any rate and they will not give you opportunity, yet, to start an open confrontation--so you **ARE GOING TO PLAY THEIR GAME FOR A WHILE LONGER.**

**WHAT YOU HAVE DONE, HOWEVER, IS WEAKEN YOUR OWN INFRASTRUCTURE TO THE POINT OF "NATURAL" COLLAPSE. WHILE YOU BUILD ISRAEL, YOUR OWN NATIONAL INFRASTRUCTURE IS IN COLLAPSE AND YOU HAVE NO WAY TO AFFORD REPAIR.**

I am immediately petitioned by one in Canada for material on and exclusively about, Canada and what can they do. Canada is a Monarchy headed by the Queen Whore of Babylon and the reason we write for what appears to be, the U.S., we write in behalf of the world--specifically Canada. You, in Canada, do not have the foundation of a working Constitution with which to fight the "rulers" and about all I can suggest is that you back your Southern brothers to the very best of your ability in every circumstance so that when a big push comes to shove, you can keep your border open and a working coalition possible. This is a "continental" (actually global) last ditch "press" for Freedom and **IT MUST BEGIN AND MOVE ORIGINALLY WITHIN THE U.S. BECAUSE OF THE POSSIBILITY INVOLVED WITH THE CONSTITUTIONAL AUTHORITY--IF IT CAN BE DONE PRIOR TO TOTAL LOSS OF CAPABILITY OF RECLAIMING.** Further, it is not as easy as it appears for us to simply do **EX-PRESSES** for here and there--my scribe is here and the ones I "had" have moved away when the going got rough--and **ONE** person cannot cover the world so we work with the connections

we have in the areas most affected by this massive "cause". The political control is too tight in Canada right now to make great impact but as things do open up we will be on top of them. With a world in chaos it is simply a time of dreadful circumstance with full intent of structuring your systems to bring the "people" into helplessness and subservience and subordination.

In Canada, however, great strides "could" be made by a great coalition of your native American tribes with the ones in the U.S.--there is more power in the native people than anything either of you have at this time for the cycle of their rising again is nearing when they will have great input if handled properly with good leadership. It does require the good leadership and I cannot say if the leaders will actually hear their call to arms and duty. It will be as it will be. Further, Canadians can do more with "publicity" to elect a U.S. president than can, actually, the U.S. Americans because of press and media control in the U.S.--in Canada it can be handled as a foreign event and good writers can do massive and important work which is stopped cold in the U.S. If the U.S. can be returned to the Constitution--so shall the rest of North America follow--Canada can move immediately for it is actually the British and Banksters' rule which is at stake here.

I apologize, Dharma, for getting you up before daybreak today but you needed update and I will now release you to your early

morning tasks and decisions can be made as to priorities today. You only have a respite here at the moment--do not doze off. Get some planning for emergency action on a personal basis. As a for-instance, put many upper-wall level nails in the walls of the shelter where bags (preferably mesh) can be hung for individual "gear". Each party or "family" should have appropriate "things", such as a bag with a little wash basin, tooth care products, "wipes", T.P., soap in container, bandaids, medicines (aspirin), etc. Then one with eating supplies--paper or plastic but one each of durable containers and utensils. Then a third with bedroll, sheets, covers (a sleeping bag is preferable for space limitation), and a few towels and wash cloths. These should be tagged for identification to limit confusion and hung appropriately on the walls. You will need bags for soiled clothes, etc. But, the bags must be compact, ventilated and organized. Areas will be allotted but no "special" arrangements can be made.

The area will only be utilized in case of radioactive fallout possibility and interim storage of foodstuffs until shelters are arranged. You do, however, need a place to repose on immediate notice by simply bringing a food basket and personal clothing. Since shelving needs dual use of beds and personal gear utilization--it must be arranged to "hang" all personal supplies--that will include duffels for clothes. Food boxes and ice chests, of course, cannot be hung. I believe you can

work it out nicely. This same procedure can be utilized by all ones in your own dwelling. You who have any ground level facilities--no matter how small, need the same few personal items--with water supply at hand. If you can be functional for a few days you will probably be just fine.

I don't know what you will be able to do about public sheltering but you cannot wait on such; you must get prepared at least in minimum effort in case you are isolated or trapped within an area for a few days. If you simply have water you can do pretty well for several days. It is up to you each to tend of responsibility--there will be no "magic"--the government wants to be rid of most of you and the evangelists are sending extra funding to Israel to build a temple to somehow bring about the "rapture". You will do it yourselves or it will not be done and each of you can at least prepare for a few days of inconvenience--even in the most tiny accommodations. For instance, the tiny sterno stove and a little can or pot to heat water can give you hot water and make noodle soup (dehydrated) and oatmeal, etc., accessible at almost no inconvenience to space or cost.

You need these things anyway, especially along the coast and fault areas (or tornado/storm) corridors--any place of possible temporary upheaval. It is time to **DO IT AND STOP "TALKING" ABOUT IT OR FANTASIZING THAT IT WILL ALL JUST GO AWAY!** IT WILL NOT "GO AWAY", IT IS STEADILY GETTING

**WORSE AND WORSE--  
WHAT YOU DO RIGHT  
AWAY WILL MAKE A  
GREAT DIFFERENCE IN  
HOW OR "IF" YOU SUR-  
VIVE. "A STITCH IN TIME  
SAVES NINE," I BELIEVE IS  
YOUR SAYING. AFTER THE  
FACT WHEN YOU ARE  
TRAPPED SOMEWHERE IS  
TOO LATE!**

I will stand aside and allow you to get dressed and move about your tasks. Thank you for your attention and thank you for your ability to respond and prioritize. Chelas, each of you is not only "precious"--you are **NEEDED** so, please, act in care with wisdom, keep "listening" and stay within the shielding.

AHO
